Young Bob Phillips, of Huntsville, thought he would enjoy a ride home and stepping into a business house uptown, turned in a fire alarm for the street on which his home is located and walked around to fire headquarters where he boarded the hook and ladder truck and speeded home. The ride cost $15, or about $3 to the block. The police traced the alarm to Phillips and he was arrested. Mayor Smith fixed the cost.

Oil and Gas Found.

The discovery of oil and gas in Gadsden near the Southern depot, has created much excitement. While it is believed that the oil comes from a tank of the Indiana Oil Company this is not known to be a fact and there are those of the opinion that crude oil and gas flow from the opening. A match applied to the gas and oil caused a fire as large as a bushel basket, which burned six hours, when it was extinguished.

Crushed to Death.

News has reached Greenville, that on last Friday afternoon a little boy, aged 3 years, was accidentally killed at the home of its grand-parents, Mr. and Mrs. John Fife. The little boy was the only child of Mr. and Mrs. B. Perry. He was in the yard playing and, seeing some pieces of timber under a shed, went to them and while trying to move one the shed fell on him crushing the life out.

Child Dies During Father's Absence.

Luther Hayes, a farmer living near Oakland, returned from Birmingham, where he went Tuesday to take his wife to an infirmary, to find his 4-year-old child a corpse. The child was taken violently ill with pneumonia and died before his parents could be communicated with, and the father was unprepared for the shock.

Early Peach Crop Fails.

The early peach crop in Huntsville section has been a failure. The peaches that survived the frosts rotted and dropped off the trees because of the continuous rains. Fruit and berries of all kinds are scarce in this market.

Woman Kills Negro.

Mrs. Lloyd Killough, who lives 12 miles northeast of Greenville, shot and killed a negro by the name of Quincey Smith. He was under her little daughter's bed.

Cloverdale Becomes a City.

Voters of Cloverdale decided at the Saturday election to become a municipality. The vote was 21 for incorporation and 1 against. The election was held quietly. A. M. Kennedy, N. B. Marks and T. G. Foster were the officials in charge of the poll. The next step take qwill be a census enumeration. This work will be done at once in order to have the total ready for placement with that of Montgomery.

. . C. W. REYNOLDS . .

Announces another MAMMOTH cash sale to take place beginning May 5th and continuing for forty consecutive days and nights.

During this mammoth sale there will be thrown on the market, without reserve, the largest and best selected line of GENERAL MERCHANDISE ever assembled in CLANTON.

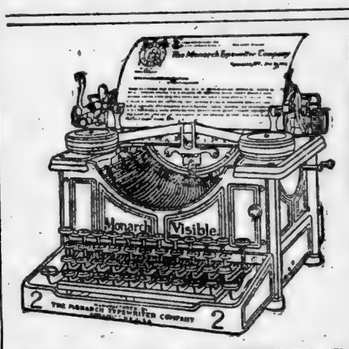
We will have on display and for sale, hats, shoes, caps, slippers, hosiery, dress goods, millinery, haberdasher's articles, wearing apparel for men and boy's, ladies' and girls', groceries and provisions, shelf goods and case goods; hardware, tinware, glass ware, woodenware, willowware, plows, saws, plow stocks, hoes, hammers, and a general line of hardware, trunks, satchels and grips.

These goods are all new having been but recently received from the manufacturers. The prices are right and the goods are right.

During this great sale we are going to give cash purchase tickets with each individual purchase; the ticket will represent the amount of your cash purchases. Save them and when you have secured TWENTY DOLLARS in cash purchase tickets, return them to us and we will give you a bright SILVER DOLLAR for them.

A clean saving of five per cent

on each cash purchase you make with us during these forty days.



The tickets are redeemable at anytime. Ask for cash purchase tickets with each purchase you make and thereby save ONE DOLLAR on each Twenty Dollars you spend.

Remember, the goods are fresh, choice goods; Remember, the prices are as low as the lowest; Remember you save FIVE Per Cent. on each cash purchase; Remember, the date May 5th, 1910 to June 15th, 1910.

During this sale we will pay the following trade prices regardless of the market.

ORDER OF PUBLICATION,

The State of Alabama, Chilton County. Chancery Court. 7th District, Northeastern Division. In Vacation Term, 1910. Sam Will John, complainant, vs. Hugh L. Gardner and Lillian Gardner, Defendants.

In this cause it is made to appear to the Register, by the affidavit on file of W. M. Adams, solicitor for complainant that the defendant, Hugh L. Gardner, is a non-resident of the State of Alabama and resides in a place unknown to affiant, and further that in the belief of said affiant, the defendant, Hugh L. Gardner is not of the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Press a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring the said Hugh L. Gardner to answer, plead or demur to the Bill of Complaint in the above cause on or before the 23d day of July, 1910, and failing so to do within thirty days after the service of this Summons a Decree Pro Confesso may be taken against him in said cause.

Witness my hand, this 23rd day of May, 1910.

ALABAMA ITEMS

Alabamians Leave.

Representative Underwood left for French Lick and Representatives Heflin and Dent for their homes. Representatives Craig, Taylor and Richardson left for home. Representative Hobson has gone to New York and Representative Clayton to Kentucky for a short visit. Representative Burnett will probably be detained here to confer with the department of agriculture officials on the proposed tour of his district, commencing at Center on July 18. Mr. Burnett is to deliver a Fourth of July speech at Ragland and the following day will address the Georgia rural ator Bankhead will get away by Wednesday.

Men Lifted Car Off Boy.

"An accident that I saw has interested me very much," said Dr. H. P. Wilkins of East Lake in reply to the above question. "The accident occurred at First avenue and Twenty-first street, Birmingham. A small boy on a wheel ran into a North Birmingham car and was knocked under the car. Before it could be stopped he was pinned to the ground by the brake beam on the rear trucks. When the car stopped the wheels were not two feet from his body. The little chap let out a squall that would have waked the dead. Men gathered around the car and taking hold lifted it high enough to get the boy out. I did not think that enough men could get hold of a car weighing several tons to raise it from the tracks. The boy was more frightened than injured."

Gift To State Normal.

Recognizing the excellent work which that school has done toward the dissemination of knowledge throughout the state of Alabama, Mrs. Fannie E. Atkins, of Jacksonville, has donated 123 acres of valuable farm land and three comfortable houses to the State Normal College of Jacksonville, deeds for which have already been received by President C. W. Daugette. The property is located within two miles of Jacksonville and is considered to be one of the best plantation sites in the county, being assessed at several thousands of dollars. The donation was made by Mrs. Atkins for the purpose of aiding worthy young men of limited means to avail themselves of the advantages which the normal course offers.

Will Report Plan.

After an inspection of the Masonic homes in Kentucky, Tennessee, Ohio and Missouri, the sub-committee of the home building of the Alabama Masons' committee, at a meeting of the full committee to be held at Montgomery, will report a plan for the Alabama home. It is proposed to use the cottage idea and to ask for architect's plans so that the corner stone may be laid in December next, when the grand lodge meets here. The site near this city was selected some time since. Ben M. Jacobs, of Birmingham, chairman of the general committee, and A. D. Block of Mobile, who compose the sub-committee, are making up their final report here.

May Buy Waterworks Plant.

W. H. Weatherly, J. C. Sproull and J. T. Gardner, the committee which was recently appointed to investigate the advisability of purchasing the plant and system of the Anniston Water Supply Company by the city, is making a rigid examination into the question of municipal ownership for this city, but they say they will be able to make a report soon. They will probably report to the council, and upon their report will depend to a large extent the result of the proposed purchase.

Electric Storm Is Disastrous.

Dadeville was visited with a most severe electric storm which did much damage, crippling the telephone system and seriously damaging the electric lights. The First Baptist church was burned. A stroke of lightning struck the steeple of the church and in a few moments it was ablaze and there was no chance to put it out. The damage was about $5,000. There was no insurance. The furniture and organ were saved.

Mad Dog Is Killed.

A mad dog was killed on the main street of Fort Payne after an exciting chase. The dog belonged to H. J. Hammock and had bitten Mrs. Hammock on the arm and biting a number of dogs, among them several valuable bird dogs. His head was sent to Montgomery for examination.

Mail Carrier in Runaway.

The team of William B. Norris, rural route carrier on route No. 3, out from Russellville, ran away with Mr. Norris in the buggy and injured him in several places. His collar bone was broken and he sustained other injuries internally.

Plenty of Wires.

Decatur now has two telegraph companies as well as two telephone companies. The Postal Telegraph-Cable company has just opened an office on Bank street. This is the first and only office the Postal has ever had in Decatur and this is the only Postal office in this part of the state. Robert Grom, at one time manager of the Decatur office of the Western Union Telegraph company, will be the chief operator of the Postal here.

SUPREME COURT WILL CLOSE SATURDAY.

The supreme court is at work on the last week of the term, and the members should be ready to adjourn by Saturday evening. It has been a hard run, made so largely by the fact that the chief justice and two of the associates had to run for re-election during the year. Mr. Justice Evans, appointed from Barbour county by Gov. B. B. Comer, will retire, having been defeated by Judge Ormond Somerville of Tuscaloosa. Two years from now Justices McClellan and Sayre will be in the running for full terms.

New Masonic Temple.

The Alexander City chapter of Free Masons had let a contract for the erection of a three-story brick Masonic temple on the opposite side of Tallassee street, fronting the courthouse, at a cost of $10,000, and a great quantity of material has been unloaded on the ground. The building is to be 70 feet front by 70 feet deep. The temple will be completed by September 1. The first story will be used to store the large stock of goods and accommodate the trade of Graves & Gross, while the second story will be used for offices and the third will accommodate the mystic fraternity of Free Masons.

Hardy's Good Crop.

L. W. Hardy of Pineapple, Wilcox county, writes Commissioner of Agriculture Wilkinson that he expects to make this year on four and a half acres 200 bushels of corn and three and a half bales of cotton. Here is the plan that he is working out: First planting of corn 10 feet apart, March 7; second, in the middle of these rows, May 18. One solid acre corn will bring 125 bushels. Rest of plat bale cotton to acre, with corn every 15 or 20 feet that will total 75 more bushels. The total value will be $125 an acre. A picture sent along shows the first rows of corn above the head of the planter and a negro farm hand.

Plenty of Money.

The state treasury balance stood at $555,126, thus giving a neat little sum on hand for all emergencies. This is in excess of $192,890, on deposit with the American Exchange National bank in New York for interest on state bonds. The school pay roll was only $11,708.12 as a result of vacation time, which helps to keep the money in hand. The semi-annual interest due July 1, in New York for some weeks, is $178,725.

An Expensive Ride.

Young Bob Phillips, of Huntsville, thought he would enjoy a ride home and stepping into a business house uptown, turned in a fire alarm for the street on which his home is located and walked around to fire headquarters where he boarded the hook and ladder truck and speeded home. The ride cost $15, or about $3 to the block. The police traced the alarm to Phillips and he was arrested. Mayor Smith fixed the cost.

Oil and Gas Found.

The discovery of oil and gas in Gadsden near the Southern depot, has created much excitement. While it is believed that the oil comes from a tank of the Indiana Oil Company this is not known to be a fact and there are those of the opinion that crude oil and gas flow from the opening. Clanton, Ala.

CLANTON PRESS.

Published in the Interest of Chilton County and Her People.

VOL. I. CLANTON, ALA., THURSDAY, JULY 7 1910. NO. 14

GENERAL NEWS.

He Loves Bananas.

Last Saturday the banana car came to Clanton and tarried for a few moments during the switching interval. Many merchants took advantage of the delay to put in a stock of bananas. Among them was Mr. Harmon Headley, who not only likes the golden fruit himself, but takes great delight in disposing of them at "two bits." The fruit that Harmon secured was extra nice and attracted considerable attention. Soon after hanging up several bunches where they could would make a good display Mr. James Price went into the store and, spying the luscious fruit, asked hom much Harmon would charge him for all he could eat. Now, be it known that Harmon is a sly old coon and is not easily caught napping, so he told Mr. Price that he would make no particular charge, but that if he would eat as much as five pounds of the fruit the cost to him would be absolutely nothing. Mr. Price stated that he had left his banana appetite at home, as he did not think when leaving that he would be fortunate enough to find bananas in town, and hence he was not in perfect trim to tackle a whole-sale job; then, too, said he, I have just had my dinner, and though I don't have any desert, I did full justice to what was placed before me, and since you have made such a generous offer I cannot refuse to accommodate you; so if you'll just peel the five pounds and weigh them I'll undertake the job for you, and if I don't complete the task to your perfect satisfaction then I have the necessary coin to pay for the unfinished job. Well, to make a long story short, Harmon didn't get any change, and the pile of banana peelings that were heaped up in the road looked something like a fruit steamer had run aground and discharged her cargo. Five pounds of bananas may not be much, but if you want to know just how much it is tackle it just after a turkey dinner and you'll find it to be something like Bill Nye's dog when he undertook to eat the lariat.

Death of N. A. Rider.

We clip the following from the Herald of last Saturday. Mr. Rider was well and favorably known to many of our citizens, who will be pained to hear of his untimely death:

"N. H. Rider, late manager of the Jackson Lumber Company, of Riderville, died yesterday at Philadelphia of nervous prostration. Mr. Rider was 47 years old. For twelve years he served as manager of the Jackson Lumber Company, one of the largest lumber concerns in the South. Two years ago he was forced to retire on account of ill health, and he moved his family to Philadelphia.

"He is survived by his wife, Caro-line, and by one daughter, 10 years old. The funeral services will be held Saturday. Interment will be at Salisbury, Md., his old home. Mr. Rider was a brother-in-law of the late ex-Governor of Maryland, E. E. Jackson."

That Contest.

Ever and always the PIANO contest takes the lead. As a cash getter it has been found without a peer; as an entertainer it ranks with the best. And there are even better things in store for PIANO contestants. When we started the contest we promised our patrons that we would make things lively during the heated term and it is up to us to make good that promise; consequently we are "clearing decks" and get into the fight just as Admiral Dewey did at Manila Bay. We are not going to make big promises and fall short in the keeping of them but we ask all who are interested in the contest to keep their weather eye turned toward next week's issue when we propose to make an announcement that will cause things to happen in the contest amphitheatre.

It doesn't matter whether you have a single vote now or a thousand, you will have an opportunity at a handsome prize next week. We are going to get "liberal" and offer something that all—young and old, great and small, prince and pauper,—delight to possess, and for a little quick action you may be the fortunate one. You may not have a single vote now and if may never have entered your head to contest for the prize but just glance over the columns of the Press next week and we feel sure we will have a proposition that will stimulate, invigorate and rejuvenate. It's going to be a proposition that will include all and will exclude no one. If you are a friend of the Press, whether you are a subscriber or not, you will be included. If you are an enemy of the Press you are just as welcome to take part in this contest as if you were our best friend.

If you have, never voted a PIANO contest in your life prepare to vote next week either for yourself or your best friend—but you'd better not be in a hurry to dispose of your tickets for we predict that you will want to vote for yourself. But they say, "self praise is no recommendation," so we'll not dwell upon

what the proposition is to be; just wait and see if we don't make good and if you'll not be glad you are living in an age when you can get into a contest with spirit in it.

Tell the little ones and the big ones to call for tickets and to save them for the "get-away" race that's to begin next week. The running won't be long enough to tire anyone and will be exciting enough to furnish the necessary ginger for each and all. It's going to be a merry scamper down the lane and you'd better look up your "seven league boots" for the one who comes under the string first is going to be well rewarded for the running. 'Nough sed.

Not Much Doing.

Again we have to chronicle a short crop in the matrimonial market.

But three licenses have been issued this week, and this the month of brides!

Mr. John Lowery to Miss Dovie Smith.

William Jackson (col.) to Mary Jane Abner (col.).

Louis Brown (col.) to Lou. Phillips (col.).

Cemetery Association.

The ladies of the Cemetery Association had a meeting last Tuesday afternoon to discuss matters concerning the association and to plan for the beautifying of the quiet city of the dead. No place on earth is perhaps, so precious, outside of our homes, as the God's acre which bears the dust of our departed loved ones. The ladies of the association hope this year to take many steps forward in beautifying the grounds and in systematizing the work of the association.

While we have no authority to speak for the association, and would not presume to do so, yet we venture to say that every lady, young or old, in the town ought to be an active working member of this association.

We may shun and avoid other obligations but the time comes when all must pay nature's debt to sin and it behooves us in the day of activity to prepare for the days of gloom and death.

If you are not now a member of the association, at least become a contributing member and assist the ladies in the noble work of love.

A Serious Cutting Affray.

News reached Clanton on Tuesday of a serious cutting affray which occurred on Monday last in the southern part of the county.

From the best information obtainable it seems that Mr. Gilbert Gray was dangerously, perhaps fatally, cut by the Messrs. Knight.

Mr. Gray was living with his second wife who was the widow of one of Knights. Gray has several children by his first wife and the second Mrs. Gray had several children by her first husband—Mr. Knight.

There seems to have been some dispute over the treatment of the Knight children by Mr. Gray and Mr. David Knight, the grandfather and Walter Knight, an uncle of the children, decided to adjust matters.

On Monday afternoon they, with another son and brother, went to the home of Mr. Gray, where they found him quietly reading in his bed room. Immediately upon entering the room the Knights began to slash at Mr. Gray with their knives. Gray being suddenly attacked, was unable to defend himself from the onslaughts of the Knights and soon fell to the floor weltering in his own blood. Gray sustained several very serious cuts, one extending from near the left shoulder across the abdomen.

Dr. Hayes was immediately summoned and went out to the suffering man but up to this writing it is impossible to state the precise condition of the patient. It so happened that all of the Sheriff's forces were away from the city at the time of the affray so that no official information could be obtained.

Beginning Today.

With this issue of the Press we have decided to give one thousand votes in the piano contest for each subscription received and ten votes for each one cent of cash job work executed at our job printing office.

This enables those who are somewhat behind in the contest to catch up rapidly if they will but go out after subscriptions.

We are trying to give the people the best newspaper they have ever had, and propose to keep the standard up from the first to the last issue. One dollar a year is not much to pay for a paper; most anyone is willing to pay that much for the home paper. If contestants would but ask their friends they could secure many subscriptions thereby assisting us greatly in the upbuilding of a good newspaper and at the same time gain for themselves many votes in the piano contest.

See the announcement made elsewhere in this issue of the proposed short race contest. Get ready for that contest by securing cleared subscriptions to the Press without delay. It will benefit you, will help much to win in the very near future.

last Saturday at Thorsby failed to materialize. Rain is given as the immediate cause. We presume that a lack of delegates was another. Anyway the convention did not convene. They had a few speeches and some talking and then decided to try it in dry weather at Clanton on Saturday week, that is if they can scare up a few delegates.

There are some pretty good folks in the socialist party hereabouts but they are going to make a miserable failure of conventions.

The Tuesday Aftetnoon Bridge Club was delightfully entertained Tuesday evening at the hospitable home of Mr. and Mrs. Heath Jones. A most enjoyable occasion it was, too. Those attending were: Misses Hattie Jones, Estella Morgan, Pattie VanDerveer, Alee Stewart, Mary Will Stewart, Sophia Courtney, Miss Thomas and Mrs. Heath Jones, Messrs. Jas. H. Middleton, Frank Thomas, Hugh Jones, Sam Latham, H. G. Reynolds, Ross Mullins, Heath Jones and Dr. Amzi Gowan.

During the evening delightful grape frappe was served to the guests and at the parting hour all pronounced the occasion one greatly enjoyed.

EYE NOTICE.

If your eyes are troubling you don't fail to meet J. V. Higgins, the graduate optician, at Stillwell's Mill Picnic, west of Billingsley, Saturday, July 9th, 1910.

Dr. Higgins will come prepared to fit all Defective Eyes with Glasses.

He will also have a lot of nice Watches, Rings, Jewelry, Etc., on sale during the day. He will swap or sell you a nice Watch, and if your eyes are troubling you, and you can't meet Dr. Higgins at the Picnic Grounds, he will be at Pattillo Bros.' Saw Mill, Monday, July 11th.

Don't fail to see Dr. Higgins if your eyes are troubling you. He will also fit Glasses going through the country on his way to Billingsley and back. Stop him if you have eye trouble and want Glasses fitted to your eyes. ad

NOTICE TO NON-RESIDENT.

The State of Alabama, Chilton County. F. M. Wood, trading as The Clanton Press, vs. T. L. Carter, trading as Clanton Furniture Co.

Before me, as Justice of the Peace, this, the 5th day of July, 1910, came the plaintiff in the above entitled cause, and it appearing that certain property of the said defendant has been levied upon, to-wit: One bedstead, one bureau, one wash stand, by virtue of an attachment issued from my office on the 15th day of June, 1910, and that said defendant is a non-resident of the State of Alabama; it is, therefore, ordered, that notice of said attachment and the return thereof, be given to the said T. L. Carter, trading as Clanton Furniture Company, by publication once a week for three successive weeks, to appear before me at my office in Clanton, Ala., on Saturday, the 30th day of July, 1910, to contest said attachment if he sees proper, and that a copy of said paper be sent to said defendant, when his residence is known.

Given under my hand, this, July 5th, 1910.

J. P. VANDERVEER,
Notary Public and Ex-Officio Justice of the Peace. 3t

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton County, State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Co., a corporation, out of the goods, chattels, lands and tenements of the said Parsons Lumber Co., in favor of S. A. Blasengame, I have levied on the following property, to-wit:

One saw mill, two engines, one Loy hoist, one Slat Elevator, eight Live Rollers and one gasoline engine.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Parsons Lumber Co., in and to the above described property, on Friday the 22nd day of July, 1910, during the legal hours of sale, at the Court House door in Clanton, Chilton County, Alabama.

Dated at Clanton, Ala., this 5th day of July, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.

Enemy Fled of Insanity.

Lawrence Galeno, a wealthy cattleman of Citronelle, who deliberately murdered two men and a boy through his attorneys, entered a plea of insanity as the cause of the terrible deed. The hearing of the case for July 15 at Mobile. Galeno on Sunday shot

DEATH TAKES TOLL THROUGH HEAT JULY 1.

Chicago.—Four deaths and more than a score of prostrations from heat occuire here. This was the hottest day of the season, the temperature being 93 degrees.

New York—There were three deaths from heat in Greater New York and countless prostrations. The maximum temperature was 86 degrees at 6 p. m.

Cincinnati — Eleven prostrations were reported here as a result of a temperature of 93 degrees, accompanied by excessive humidity. Street thermometers went as high as 105 degrees.

Philadelphia—Six deaths were reported as due to the heat here. Ninety degrees were registered.

Milwaukee—One dead and six prostrated was the toll claimed by the heat wave in Milwaukee. John Huber died in a hospital from sunstroke. The maximum temperature was 93 degrees.

Detroit, Mich.—One death and four prostrations resulting from the heat was due to a thermometer registering 103 degrees.

SHARP INCREASE IN PRINT PAPER.

Washington.—A sharp increase of nearly 8000 tons of news print paper from the mills represented in the American Paper and Pulp association is shown in the figures of a report covering the output for May filed with the commissioner of corporations.

The actual gain was 7900 tons over April which had seen the smallest output since the previous September, because of a strike. The figures for May, however, represent only 91 per cent of the estimated normal of 97,390 tons.

The increase in the production still leaves 1443 tons to stocks, of which the total at the end of May on hand was 108,460 tons. The statistics of the association do not include the product of one important member. The same report shows book paper on hand to be 21,306 tons on May 31, inclusive roughly put of 1400 tons.

The figures filed with the commissioner are from 38 companies, representing 0 per cent. of the book paper production.

INSANE WOMAN'S TRIAL SUSPENDED.

Allenstein, East Prussia—Frau Von Schoenbeck Weber, who has been on trial for a month, charged with conspiracy in the murder of her husband, an army officer, attempted suicide by opening the veins of the wrist. The physicians hope to save her life. Major Von Schonebeck was killed on Christmas Eve, 1908, by Capt. Von Goeben, who subsequently confessed, saying he had been infatuated with the woman and by her influenced to murder the husband. The captain afterwards took his own life. Shortly before her trial Frau Von Schoenbeck married A. O. Weber, a well-known satrireal artist in Berlin. Frau Von Schoenbeck Weber was committed to an insane asylum and her trial suspended.

WALL STREET FEARS A SERIOUS PANIC.

New York.—Fears of a panic were general in Wall street Thursday as a result of a continued flood of liquidation. Prices fell from 5 to 7 points. While the excitement was at its height news was spread about the exchange that a meeting of the city's leading financiers had been held at the office of J. P. Morgan to make plans for supporting the market in case of general demoralization. It was reported that $50,000,000 had been pledged. Shortly following this prices advanced from 1 to 3 points above the low level.

Last Ride Over Senator McEnery.

New Orleans, La.—With delegations from congress, the Louisiana legislature and the New Orleans city council in a crowd which extended for several blocks in every direction, the funeral of United States Senator Samuel Douglas McEnery was held from his late residence in St. Mary street. Following the brief Catholic service at the house, the casket, covered with floral emblems, was borne to Metairie cemetery, where it was placed in a temporary receiving vault. The following honorary pallbearers, including Senator-elect John F. Johnston, of Alabama, were present: F. H. Chamberlain, of Sumter county, S. C.; Governor-elect Sharkey, of Mississippi; Governor Hoke Smith, of Georgia; Governor Thomas W. Hardwick, of Georgia; Governor Lon A. Smith, of Louisiana; Governor Jeff Davis, of Arkansas; Governor Thomas S. Rye, of Tennessee; Governor Braxton B. Comer, of Alabama; Governor Frank Brown, of Mississippi; Governor Duncan K. Brantley, of Florida; Governor Cole L. Blease, of South Carolina; Governor Lee Trammell, of Texas; Governor Elect Ashley W. Gandy, of Virginia; Governor Elect Judson Harmon, of Ohio; Governor Elect Woodrow Wilson, of New Jersey; Governor Elect Thomas R. Marshall, of Indiana; Governor Elect Augustus O. Stanley, of Kentucky; Governor Elect Walter R. Stubbs, of Kansas; Governor Elect Oscar W. Underwood, of Alabama; Governor Elect Albert B. Cummins, of Iowa; Governor Elect Joseph M. Brown, of Georgia; Governor Elect Eugene N. Foss, of Massachusetts; Governor Elect Hiram W. Johnson, of California; Governor Elect Chas. S. Deneen, of Illinois; Governor Elect Simeon D. Fess, of Ohio; Governor Elect Chas. E. Hughes, of New York; Governor Elect Chas. Evans Hughes, of New York; Governor Elect Chas. Evans Hughes, of New York; Governor Elect Chas. Evans

CLANTON PRESS.

Published in the Interest of Chilton County and Her People.

VOL. I. CLANTON, ALA., THURSDAY, JULY 7 1910. NO. 14

GENERAL NEWS.

He Loves Bananas.

Last Saturday the banana car came to Clanton and tarried for a few moments during the switching interval. Many merchants took advantage of the delay to put in a stock of bananas. Among them was Mr. Harmon Headley, who not only likes the golden fruit himself, but takes great delight in disposing of them at "two bits." The fruit that Harmon secured was extra nice and attracted considerable attention. Soon after hanging several bunches where they could be sold make a good display Mr. James Price went into the store and, spying the luscious fruit, asked hom much Harmon would charge him for all he could eat. Now, be it known that Harmon is a sly old coon and is not easily caught napping, so he told Mr. Price that he would make no particular charge, but that if he would eat as much as five pounds of the fruit the cost to him would be absolutely nothing. Mr. Price stated that he had lost his banana appetite at home, as he did not think when leaving that he would be fortunate enough to find bananas in town, and hence he was not in perfect trim to tackle a wholesale job; then, too, said he, I have just had my dinner, and though I didn't have any desert, I did full justice to what was placed before me, and since you have made such a generous offer I cannot refuse to accommodate you; so if you'll just peel the five pounds and weigh them I'll undertake the job for you, and if I don't complete the task to your perfect satisfaction then I have the necessary coin to pay for the unfinished job. Well, to make a long story short, Harmon didn't get any change, and the pile of banana peelings that were heaped up in the road looked something like a fruit steamer had run aground and discharged her cargo. Five pounds of bananas may not be much, but if you want to know just how much it is tackle it just after a thirty dinner and you'll find it to be something like Bill Nye's dog when he undertook to eat the lariat.

Death of N. A. Rider.

We clip the following from the Age-Herald of last Saturday. Mr. Rider was well and favorably known to many of our citizens, who will be pained to hear of his untimely death: "N. H. Rider, late manager of the Jackson Lumber Company, of Riderville, died yesterday at Philadelphia of nervous prostration. Mr. Rider was 47 years old. For twelve years he served as manager of the Jackson Lumber Company, one of the largest lumber concerns in the South. Two years ago he was forced to retire on account of ill health, and he moved his family to Philadelphia.

"He is survived by his wife, Carolyn, and by one daughter, 10 years old. The funeral services will be held today. Interment will be at Salisbury, Md., his old home. Mr. Rider was a brother-in-law of the late ex-Governor of Maryland, E. E. Jackson."

That Contest.

Over and always the PIANO contest takes the lead. As a cash getter it has been found without a peer; as an entertainer it ranks with the best. And there are even better things in store for PIANO contestants. When we started the contest we promised our patrons that we would make things lively during the heated term and it is up to us to make good that promise. Consequently we are "clearing decks" to get into the fight just as Admiral Dewey did at Manila Bay. We are not going to make big promises and fall short in the keeping of them but we want all who are interested in the contest to keep their weather eye turned toward next week's issue when we propose to make an announcement that will cause things to happen in the contest amphitheatre.

It doesn't matter whether you have a single vote now or a thousand, you will have an opportunity at a handsome prize next week. We are going to get "liberal" and offer something that all—young and old, great and small, prince and pauper,—delight to possess, and for a little quick action you may be the fortunate one. You may not have a single vote now and it may never have entered your head to contest for the prize, but just glance over the columns of the Press next week and we believe we will have a proposition that will stimulate, invigorate and rejuvenate. It's going to be a proposition that will include all and will exclude no one. If you are a friend of the Press, whether you are a subscriber or not, you are included. If you are an enemy of the Press you are just as welcome to take part in this contest as if you were its best friend.

Whether you have, never voted a PIANO or in your life prepare to vote most either for yourself or your best friend—but you'd better not be in a hurry to dispose of your tickets for we believe that you will want to vote more than once. But they say, "self praise is no recommendation," so we'll not dwell upon what the proposition is to be; just wait and see if we don't make good and if you'll not be glad you are living in an age when you can get into a contest with spirit in it.

Tell the little ones and the big ones to call for tickets and to save them for the "get-away" race that's to begin next week. The running won't be long enough to tire anyone and will be exciting enough to furnish the necessary ginger for each and all. It's going to be a merry scamper down the lane and you'd better look up your "seven league boots" for the one who comes under the string first is going to be well rewarded for the running. 'Nough sed.

Not Much Doing.

Again we have to chronicle a short crop in the matrimonial market.

But three licenses have been issued this week, and this the month of brides!

Mr. John Lowery to Miss Dovie Smith.

William Jackson. (col.) to Mary Jane Abner (col.).

Louis Brown (col.) to Lou. Phillips (col.).

Cemetery Association.

The ladies of the Cemetery Association had a meeting last Tuesday afternoon to discuss matters concerning the association and to plan for the beautifying of the quiet city of the dead. No place on earth is perhaps, so precious, outside of our homes, as the God's acre which bears the dust of our departed loved ones. The ladies of the association hope this year to take many steps forward in beautifying the grounds and in systematizing the work of the association.

While we have no authority to speak for the association, and would not presume to do so, yet we venture to say that every lady, young or old, in the town ought to be an active working member of this association.

We may shun and avoid other obligations but the time comes when all must pay nature's debt to sin and it behooves us in the day of activity to prepare for the days of gloom and death.

If you are not now a member of the association, at least become a contributing member and assist the ladies in the noble work of love.

A Serious Cutting Affray.

News reached Clanton on Tuesday of a serious cutting affray which occurred on Monday last in the southern part of the county.

From the best information obtainable it seems that Mr. Gilbert Gray was dangerously, perhaps fatally, cut by the Messrs. Knight.

Mr. Gray was living with his second wife who was the widow of one of Knights. Gray has several children by his first wife and the second Mrs. Gray had several children by her first husband—Mr. Knight.

There seems to have been some dispute over the treatment of the Knight children by Mr. Gray and Mr. David Knight, the grandfather and Walter Knight, an uncle of the children, decided to adjust matters.

On Monday afternoon they, with another son and brother, went to the home of Mr. Gray, where they found him quietly reading in his bed room. Immediately upon entering the room the Knights began to slash at Mr. Gray with their knives. Gray being suddenly attacked, was unable to defend himself from the onslaughts of the Knights and soon fell to the floor weltering in his own blood. Gray sustained several very serious cuts, one extending from near the left shoulder across the abdomen.

Dr. Hayes was immediately summoned and went out to the suffering man but up to this writing it is impossible to state the precise condition of the patient. It so happened that all of the Sheriff's forces were away from the city at the time of the affray so that no official information could be obtained.

Beginning Today.

With this issue of the Press we have decided to give one thousand votes in the piano contest for each subscription received and ten votes for each one cent of cash job work executed at our job printing office.

This enables those who are somewhat behind in the contest to catch up rapidly if they will but go out after subscriptions.

We are trying to give the people the best newspaper they have ever had, and propose to keep the standard up from the first to the last issue. One dollar a year is not much to pay for a paper; most anyone is willing to pay that much for the home paper. If contestants would but ask their friends they could secure many subscriptions thereby assisting as greatly in the upbuilding of a good newspaper and at the same time gain for themselves many votes in the piano contest.

See the announcement made elsewhere in this issue of the proposed short race contest. Get ready for that contest by securing several subscriptions to the Press without delay. It may mean nothing now, will mean much to you in the very near future.

The above called [illegible]

last Saturday at Thorsby failed to materialize. Rain is given as the immediate cause. We presume that a lack of delegates was another. Anyway the convention did not convene. They had a few speeches and some talking and then decided to try it in dry weather at Clanton on Saturday week, that is if they can scare up a few delegates.

There are some pretty good folks in the socialist party hereabouts but they are going to make a miserable failure of conventions.

The Tuesday Afternoon Bridge Club was delightfully entertained Tuesday evening at the hospitable home of Mr. and Mrs. Heath Jones. A most enjoyable occasion it was, too. Those attending were: Misses Hattie Jones, Estella Morgan, Pattie VanDerveer, Alee Stewart, Mary Will Stewart, Sophia Courtney, Miss Thomas and Mrs. Heath Jones, Messrs. Jas. H. Middleton, Frank Thomas, Hugh Jones, Sam Latham, H. G. Reynolds, Ross Mullins, Heath Jones and Dr. Amzi Gowan.

During the evening delightful grape frappe was served to the guests and at the parting hour all pronounced the occasion one greatly enjoyed.

EYE NOTICE.

If your eyes are troubling you don't fail to meet J. V. Higgins, the graduate optician, at Stillwell's Mill Picnic, west of Billingsley, Saturday, July 9th, 1910.

Dr. Higgins will come prepared to fit all Defective Eyes with Glasses.

He will also have a lot of nice Watches, Rings, Jewelry, Etc., on sale during the day. He will swap or sell you a nice Watch, and if your eyes are troubling you, and you can't meet Dr. Higgins at the Picnic Grounds, he will be at Pattillo Bros.' Saw Mill, Monday, July 11th.

Don't fail to see Dr. Higgins if your eyes are troubling you. He will also fit Glasses going through the country on his way to Billingsley and back. Stop him if you have eye trouble and want Glasses fitted to your eyes. ad

NOTICE TO NON-RESIDENT.

The State of Alabama, Chilton County. F. M. Wood, trading as The Clanton Press, vs. T. L. Carter, trading as Clanton Furniture Co.

Before me, as Justice of the Peace, this, the 5th day of July, 1910, came the plaintiff in the above entitled cause, and it appearing that certain property of the said defendant has been levied upon, to-wit: One bedstead, one bureau, one wash stand, by virtue of an attachment issued from my office on the 15th day of June, 1910, and that said defendant is a non-resident of the State of Alabama; it is, therefore, ordered, that notice of said attachment and the return thereof, be given to the said T. L. Carter, trading as Clanton Furniture Company, by publication once a week for three successive weeks, to appear before me at my office in Clanton, Ala., on Saturday, the 30th day of July, 1910, to contest said attachment if he sees proper, and that a copy of said paper be sent to said defendant, when his residence is known.

Given under my hand, this, July 5th, 1910.

J. P. VANDERVEER,
Notary Public and Ex-Officio Justice of the Peace. 3t

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton County, State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Co., a corporation, out of the goods, chattels, lands and tenements of the said Parsons Lumber Co., in favor of S. A. Blasengame, I have levied on the following property, to-wit:

One saw mill, two engines, one Loy hoist, one Slat Elevator, eight Live Rollers and one gasoline engine.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Parsons Lumber Co., in and to the above described property, on Friday, the 22nd day of July, 1910, during the legal hours of sale, at the Court House door in Clanton, Chilton County, Alabama.

Dated at Clanton, Ala., this 5th day of July, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.

Enemy Plot of Insanity.

Lawrence Colace, a gambling czar's man, of Citroncello, who deliberately murdered two men and a boy, through his attorneys, entered a plea of insanity as the cause of the terrible deed. The hearing is set for July 11 at Mobile. Colace on March 27 [illegible]

DEATH TAKES TOLL THROUGH HEAT JULY 1.

Chicago.—Four deaths and more than a score of prostrations from heat occurre here. This was the hottest day of the season, the temperature being 93 degrees.

New York—There were three deaths from heat in Greater New York and countless prostrations. The maximum temperature was 86 degrees at 5 p. m.

Cincinnati — Eleven prostrations were reported here as a result of a temperature of 93 degrees, accompanied by excessive humidity. Street thermometers went as high as 105 degrees.

Philadelphia—Six deaths were reported as due to the heat here. Ninety degrees were registered.

Milwaukee—One dead and six prostrated was the toll claimed by the heat wave in Milwaukee. John Huber died in a hospital from sunstroke. The maximum temperature was 93 degrees.

Detroit, Mich.—One death and four prostrations resulting from the heat was due to a thermometer registering 103 degrees.

SHARP INCREASE IN PRINT PAPER.

Washington.—A sharp increase of nearly 6000 tons of news print paper from the mills represented in the American Paper and Pulp association is shown in the figures of a report covering the output for May filed with the commissioner of corporations.

The actual gain was 7900 tons over April which had seen the smallest output since the previous September, because of a strike. The figures for May, however, represent only 91 per cent of the estimated normal of 97,396 tons.

The increase in the production still leaves 1443 tons to stocks, of which the total at the end of May on hand was 109,480 tons. The statistics of the association do not include the business of one important member. The same report shows book paper on hand to be 21,306 tons on May 31, inclusive roughly put of 1400 tons.

The figures filed with the commissioner are from 38 companies, representing 0 per cent of the book paper production.

INSANE WOMAN'S TRIAL SUSPENDED.

Allenstein, East Prussia—Frau Von Schoenbeck Weber, who has been on trial for a month, charged with conspiracy in the murder of her husband, an army officer, attempted suicide by opening the veins of the wrist. The physicians hope to save her life. Major Von Schonebeck was killed on Christmas Eve, 1908, by Capt. Von Goeben, who subsequently confessed, saying he had been infatuated with the woman and by her influenced to murder the husband. The captain afterwards took his own life. Shortly before her trial Frau Von Schoenbeck married A. O. Weber, a well-known satirical artist in Berlin. Frau Von Schoenbeck Weber was committed to an insane asylum and her trial suspended.

WALL STREET FEARS A SERIOUS PANIC.

New York.—Fears of a panic were general in Wall street Thursday as a result of a continued flood of liquidation. Prices fell from 5 to 7 points. While the excitement was at its height news was spread about the exchange that a meeting of the city's leading financiers had been held at the office of J. P. Morgan to make plans for supporting the market in case of general demoralization. It was reported that $10,000,000 had been pledged. Shortly following this prices advanced from 1 to 3 points above the low level.

Last Rites Over Senator McEnery.

New Orleans, La.—With delegations from congress, the Louisiana legislature and the New Orleans city council in a crowd which extended for several blocks in every direction, the funeral of United States Senator Samuel Douglas McEnery was held from his late residence in St. Mary street. Following the brief Catholic service at the house the casket, covered with floral offerings, was borne to Metairie cemetery, where it was placed in a temporary receiving vault. The delegation from congress, including Senators Joseph F. Johnston, of Alabama, Senator George E. Chamberlain, of Oregon, [illegible]

CHAIRMAN KNAPP TALKS WITH TAFT

Workings of New Railroad Law is Discussed

COMMISSION IS PREPARED

Plans Have Already Been Made by the Commissioners to Put the New Law Into Operation With the Least Delay.

Beverly, Mass.—President Taft had a long talk with Chairman Knapp of the Interstate Commerce Commission, regarding the administration of the new railroad rate law. At the conclusion of the interview it was made plain that the added authority given to the commission by the new statute is not to be used arbitrarily or for the purpose of hindering the railroads in the conduct of their legitimate business. The power to suspend new rates, probably the most direct weapon placed in the hands of the commission, is to be used only in exceptional cases.

Chairman Knapp told the President that the commission already had refused an application under the law for a suspension of increased rates on horse vehicles and automobiles. He said there was nothing on the face of the things to show that the new rates were unjust or unreasonable. The interstate commerce commission will not attempt to fix definite rates for the railroads, and the power of suspension will be applied only to rates when a preliminary hearing is given, indicating that they are excessive. In all such contested cases, the President was informed, the commission will endeavor to arrive at the facts at the earliest possible moment.

From time to time since the new law went into effect there have been indications that some of the big railroads have been considerably worried as to the extent and manner in which the rate regulating clauses of the new law would be employed by the commission. Stock manipulators in Wall street, the administration has been informed, were trying to trade upon this doubt, and to make the most of the situation to their own advantage.

It can be authoritatively stated that it was never intended that the new law should be a club, or that it should be a means of profit-taking by the "bears" in the market. The commission will not "run amuck" and will do nothing to jeopardize the interests of investors.

Mr. Taft was pleased to find that the commission already had its plans well mapped out and that its views of the new statute coincide thoroughly with those of the framers of the bill.

BRIDGE GANG CAUGHT ON WORKS BY TRAIN.

Baltimore, Md.—Three men were killed, three probably fatally injured and three others less seriously hurt by a freight engine running into a gang of carpenters working on a trestle on the Baltimore and Ohio railroad. The dead are Jacob Brandenburg, E. W. Lendermore and Harry P. Gatchell. Those probably fatally hurt are: Daniel Reuhl, both legs amputated and other wise hurt; Albert Reuhl, both legs amputated and injuries to the body; Edward Heighsmith, probably fatal injuries to head. Others injured are George Ambrose, Charles T. Eackle and Frank Ray.

ELEPHANTS MAKE CHARGE THROUGH STREETS OF CITY.

Greeley, Col.—Angered by the efforts of trainers to separate them from two small elephants, two big elephants belonging to a circus engaged in a wild charge down the main street of this city. The elephants, which were chained together, finally crashed through a fence into the front yard of a residence, tearing up lawn and shrubbery. They were making straight for the house, which would in all probability have been wrecked in the collision when they were brought to a stop by a stout maple tree.

Three Killed by Explosion.

Tacoma, Wash.—An explosion at the Dupont powder plant at Dupont killed Thomas Blake, foreman, of Waukesha, Wis.; George S. Strous, of St. Paul, and Edward Smith, of New Orleans. Mixing house No. 2 was destroyed.

Two Children Run Down.

Nashville, Tenn.—A Pulaski, Tenn., dispatch says Mrs. H. L. Claude and two children were run down by a freight train at Lynn's Station. It is [illegible]

2t WM. M. ADAMS.

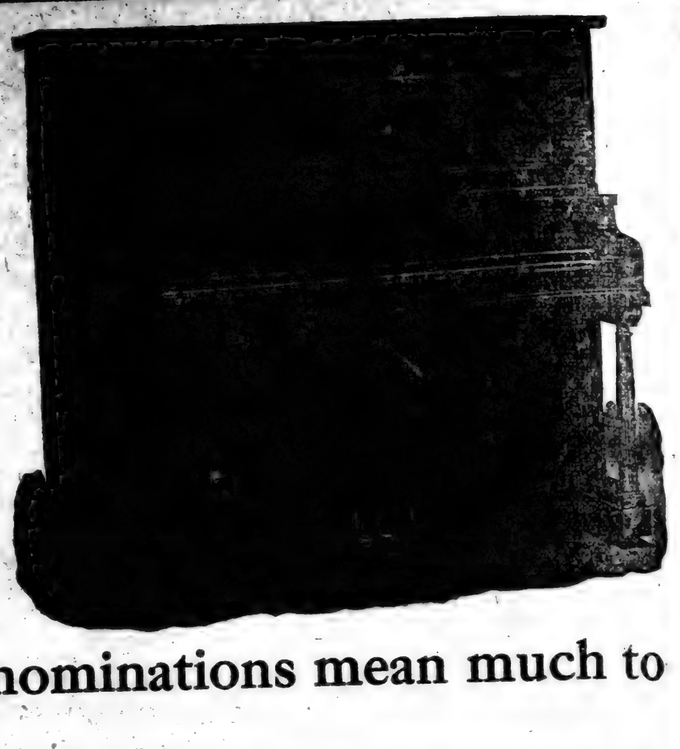
We have money to loan on improved farm lands at reasonable rates of interest. Long time loans a specialty. For particulars address "Finance" care of the Press or call at the Press offices. tf

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county and state of Alabama, in favor of Edward Thompson & Co., and against Thomas Curry, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Thos. A. Curry out of the goods, chattels, lands and tenements of the said Thos. A. Curry, I have levied on the following property, to-wit:

W. 1-2 of N. W. 1-4 Section 23, Township 22, Range 12, 80 acres. S. E. 1-4 of N. E. 1-4, Sec. 22, Township 22, Range 12, 40 acres. S. W. 1-4 of S. W. 1-4, Sec. 21, Township 21, Range 13, 40 acres. E. 1-2 of S. E. 1-4, Sec. 20, Township 21, Range 13, 80 acres. S. 1-2 of S. E. 1-4 Sec. 30, Township 21, Range 13, 80 acres. S. E. 1-4 of S. E. 1-4 Sec. 3, Township 21, Range 13, 40 acres.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Thos. A. Curry, in and to the above described property, on Monday, the 11th day of July, 1910, during the legal hours of sale, at the Court House door, at Clanton, in Chilton County, Alabama.



Dated at Clanton, Ala., this 7th day of June, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes Monday, Midnight, December 5th, 1910.

EAT KING SAYS GOODBYE TO PIT FOREVER

Patten Closed Desk and Go Home to Enjoy Wealth

ASSING FROM BUSINESS

ster George Will Go Out With Him and New Firm Will Take the Place of the Old One on the Chicago Board of Trade.

Chicago, Ill.—When the clock marks the hour of 4 Thursday afternoon in the office in the Western Union building a tall, broad-shouldered man, slightly stooped, with silvery hair and mustache, will close his desk, say a few brusque "good-bye" to those who are in the office and go home to Boston to enjoy a fortune variously estimated at $20,000,000 to $30,000,000. There will be no display, but in the same manner that has marked his triumphs, so will be the passing from the active business world of "Jim" Patten, "king of the wheat pit, of the corn pit, of the oats pit, holy terror of the cotton market."

"I have been in harness ever since I was a boy, and I have worked hard, very hard. Now I want to step out, make room for some of the younger element and watch them," said Mr. Patten.

For thirty years "Jim" Patten has been fighting. From the position of grain inspector in the Chicago yards rose to the most powerful figure in the grain world. He made, lost and again made several millions. Some refer to him as "the Napoleon of the wheat market," but this does him an injustice, for Napoleon eventually died. Jim Patten retires with all the honors and honors of war without surrendering to any one.

From the time he cornered the corn market in 1890-91 until the present time Patten has had the reputation of playing a "lone hand," never depending upon any one else, but bearing the brunt himself. He has fought his way year by year. Old men in the board of trade say that he is soured; that he feels that he has been misjudged and that many of the verbal and editorial knocks he has received have been undeserved. Whether or not that is true, they also declare that he never asked for, but often gave "quarter" to men who were in a hole.

Born in Sandwich, Ill., about 58 years ago, he spent his early years in his father's country store. His father died when he was in his teens, and his mother sold the store and came to Chicago, together with his brothers, George W. and H. J. Patten. In 1874 James Patten got a position as grain inspector in the Chicago yards. In 1880 he went to work for G. P. Com-stock & Co., cash grain men, who did a large business with eastern and foreign trade. In 1888 he formed a firm with his brother, and from that time he has steadily increased his worldly goods.

NEW CONFEDERATES LEFT IN CONGRESS.

Washington, D. C.—The recent deaths of Senator Daniel, of Virginia, and Senator McEnery, of Louisiana, leave but thirteen former Confederate soldiers in Congress. They are Senators Bankhead and Johnston, of Alabama; Senator Bacon, of Georgia, and Senator Money, of Mississippi, and Representatives Talbott, of Maryland; Richardson and Taylor, of Alabama; Rucker, of Colorado; Livingston, of Georgia; Spight, of Mississippi; Gordon, of Tennessee, and Lamb, of Virginia. Senator Taliaferro, of Florida, who has been defeated for renomination, was also in the Confederate service.

17-YEAR-OLD BOY ELOPES WITH A GIRL 17 YEARS OLD.

Louisville, Ill.—Frank L. Farris, the 17-year-old son of Charles L. Farris, formerly a state representative from this city, eloped with Miss Nell Krutsinger, 17 years old, daughter of Sim Krutsinger, a local business man. They were married on Saturday in some place outside the state, returning here the following day. The romance began a year ago, when the two were going to school together. Owing to the law in this state, they had to go elsewhere to get a license. Master Farris is the youngest "married man" in the state, perhaps in the whole country. He and his bride will reside with his parents in this city.

Freight Rates Reduced.

Washington, D. C.—Freight rates on lumber and forest products generally were reduced by the interstate commerce commission from Omaha, Neb., to various points in Colorado, Kansas and Nebraska. The reductions ranged from 1-2 to cents a hundred pounds, the average being approximately a cent and a half a hundred pounds. The new rates are ordered to become effective from September 1 next.

Champion of Bleached Flour.

Kansas City.—A woman introduced by the defense in the bleached flour case in the federal court gave the most advanced expert testimony of baker and chemist. She is Miss Ella Agnes Boswell, acting head of the University Experiment Station at Ames, Ia. She said she had made bread from bleached and unbleached flour and had tested it for digestion purposes. She used it on her own table and found no deleterious effects.

DUNNING NOTICES ARE BARRED FROM MAILS.

Washington, D. C.—Business men, especially those who are engaged in making loans which they attempt to collect through the mails, should be careful about placing "dunning notice" on the face of their letters containing bills which they are impatient to collect, because the postoffice department has just ruled that such matter is unmailable. This practice has been brought to the attention of the department, and the assistant attorney-general for the postoffice department declared that the custom adopted by some of the firms is unlawful. Envelopes submitted by a firm of this city to the department bore in one case the stamped impression, "Past due." "This account has no doubt escaped you notice. Will you please favor us with a remittance and oblige." In another case the words "collection department," written in red ink, was submitted. These notices apparently had been adopted by firms who feared that their bills were so well known to the recipients from the appearance of the envelopes that they found their way into the waste paper basket unopened.

SENATOR DANIEL, OF VIRGINIA. IS DEAD.

Lynchburg, Va.—John W. Daniel, senior senator from Virginia, died at the Lynchburg Sanitarium. The immediate cause of his death was a cerebral hemorrhage sustained in the right portion of his brain. This was in addition to the paralysis of the left side, which was sustained last winter while in Florida. Senator Daniel died as peacefully as if passing into a sleep. Mrs. Daniel and daughter, Mrs. Harper, and son, Arthur M. Daniel; Fred Harper, Mrs. S. W. Halsey, the only sister, and her sons, State Senator Don P. Halsey and Warwick Halsey, and Dr. Waugh were at his bedside.

CATHOLICS WIN CASE AGAINST SCHOOL BOARD.

Springfield, Ill.—Religious exercises, consisting in the reading of the Bible, singing and praying, cannot be held in the schools of Illinois during the time pupils are required to be in attendance, according to a decision handed down by the supreme court here. The decision was the conclusion of the case of the Catholic residents of Winchester, Scott county, who protested against religious exercises and asked a writ of mandamus requiring the board of education to discontinue religious services in the schools of Scott county. The lower court denied the petition, but the court of last resort in the state granted the writ.

JAPAN WILL OPEN UP PORT ARTHUR.

Tokio.—The announcement of the opening of Port Arthur to the shipping of all nations, commencing July 1, is published in the official gazette. The decision some months ago of the Japanese government to open Port Arthur as a free port of entry caused some surprise, as this would mean that its elimination as a point of strategy for military and naval movements, and its development as a commercial center, had been abandoned. One of the advantages of the port is said to be that it is free from ice in the winter.

SENATOR M'ENERY, OF LOUISIANA, IS DEAD.

New Orleans, La.—United States Senator Samuel Douglas McEnery died at his home in New Orleans. Senator McEnery was in the 74th year of his age, and his health had not been good for several years. The attack of indigestion weakened his condition, and under the strain which attended his illness his heart action failed. At his bedside at the time were his wife, who before their marriage was Miss Elizabeth Phillips, of Monroe, La.; his daughter, Mrs. Warren B. Parks, and one of his sons, Charles P. McEnery.

FIFTY-FIVE FLOOD VICTIMS REPORT NOW SAYS.

Saylersville, Ky.—Advices received from the flood-stricken section of Eastern Kentucky say that fifty-five persons lost their lives, $250,000 damage was done and that in the lower valleys the waters are still spreading devastation. Searching parties are still looking for other bodies, but it is believed that many of the missing will never be found.

"Cops" Accused of Stealing.

St. Louis, Mo.—One police lieutenant, six sergeants, a detective and fifteen patrolmen were charged with pilfering from the Police Relief Association fund by the board of police commissioners. Eleven of the men were suspended in March, pending charges which were served. The board alleged irregularities in connection with the benefits held at an amusement park.

Surplus of $9,402,000 Shown.

Washington, D. C.—A surplus of $9,402,000 in the ordinary receipts and expenditures, against a deficit last year of $58,734,000 is announced by the treasury department. The total deficit, overall, which included Panama canal expenditures and the public debt, is $25,924,000, against $[illegible] last year.

Timely Fashion Hints

New York City.—The blouse of thin material in color to match the coat suit is the smartest of all things just now and here is a model that can be utilized in that way or for the entire gown as liked, and it will be equally serviceable put to both uses.

In the illustration it is made of messaline and the trimming is heavy lace while the yoke and under-sleeves are made of net. The lines are exceptionally becoming and graceful and the blouse is one of the prettiest possible yet absolutely simple. It is closed invisibly at the back and it can be finished as illustrated or with a collar and without the yoke, making it half low. Treated in this way it would be pretty with a little lace tucker at the neck edge. All materials that are thin enough to be tucked are appropriate and the model will find uses without number. The trimming of buttons is a fashionable and effective one and for the bands of the neck and sleeves any lace or embroidery or fancy material will be appropriate, or they can be of plain material either braided or embroidered.

The blouse is made with front and backs, which are tucked on indicated lines, the wide tucks over the shoulders being held in place by means of the trimming buttons. A shaped band finishes the neck edge and when the yoke is used it is joined to it. The sleeves are of moderate fullness, tucked to match the blouse, and the under sleeves are attached beneath the trimming bands.

The quantity of material required for the medium size is two and seven-eighth yards twenty-four or twenty-seven, two and five-eighth yards thirty-two, one and three-quarter yards forty-four inches wide with five-eighth yard of all-over lace, five-eighth yard of net.

Russian Effects.

Russian effects are shown and worn in endless variety. One of the newest developments of the peasant idea is the dress fashioned on lines identical with the coat suit and hardly to be distinguished from it.

Sashes in Fashion.

Sashes are with us once more. The broad belts now so popular are continued in soft knots and long ends when the gown to be ornamented is of light, summery texture. Wide flowered ribbon in pompadour patterns, soft broken plaids of a dainty color on white, new satin brocade in soft self-tones and the ever-beautiful messalines are all sought by the forsighted girl.

Seven Gored Tunic Skirt.

The tunic skirt takes many variations. This one is exceptionally graceful and attractive. It is lapped at the front edges to give the one side effect that is so much liked and includes a full length box pleat at the back. One of the pretty striped linens is the material illustrated, but the skirt will be found appropriate for almost all seasonable ones, for the thinner silks, such as foulard and pongee, and many of the light weight washable materials are made in such style as well as the heavier linens, poplins and wool fabrics. It can be finished as illustrated with a few buttons or the tunic portion could be trimmed with banding or with braid applied over a stamped design.

The skirt is made with seven gores, the tunic and the box pleat. The tunic is cut in one piece and arranged over the skirt while the box pleat conceals the edges at the back.

The quantity of material required for the medium size is twelve and one-half yards twenty-four, nine yards twenty-seven, eight and one-quarter yards thirty-two or five and three-quarter yards forty-four inches wide; width of skirt at lower edge, three yards.

A very attractive white foulard with black ring dots, has two deep bands of black on the skirt, one at the knees and the other as hem. The deep crushed girdle and cuffs are also of the black silk.

There's a lot of character to this suit of plain and striped pongee. The stripe is sort of an old blue, the same as the deep cuffs, and it tones so well with the natural color pongee. The knife pleated collar of net is a new feature.

Neck and Sleeves.

When the season first opened we were gravely told by the powers that be that the neck must be cold and for short sleeves and that the little collar would support strictly with long sleeves. The edict has been issued, like [illegible]

Frills.

Of course the "Chantecler" frill is most talked of just now, and all sorts of frillings are sold under the name, but with the gold under the plain [illegible] have raised themselves by double [illegible]

LAFITTE HOARD HUNT.

Party Sails To Seek Long Hidden Treasure.

One of the best equipped scientific treasure hunting expeditions ever launched has started out in search of the buried treasure of the famous Jean Lafitte, who was known to have buried money and valuables along the inlets of the Gulf coast.

The party includes Joseph Broussard, a geologist; Albert Richards, mining engineer; J. V. Breaux, civil engineer, and a corps of laborers.

The enterprise is headed by Capt. M. Hargrodor, who is 80 years of age, and whose father was associated with Lafitte in business before the latter went to sea.

Lafitte settled near Galveston harbor at the commencement of the United States troops and was never heard of again. It is known he buried gold [illegible]

key to the maps, and he believes he has located the treasure. About $25,000 has been raised, but he says he knows it will not require half this sum to complete the hunt.

He admits the spot is within twenty-five miles of the mouth of the Red River dividing Texas and Louisiana, and he says the investment will pay 1000 percent, if the treasure is located.

Asked at what he estimated the value of the treasure he said he believed it would be a few million, but that even a million or less would pay for the time and cost of the expedition.

"We are provisioned and equipped," said he, "for a month's investigation and the most scientific machinery and instruments for the work are included in our outfit. It is a purely business proposition and not a dime novel romance. About twenty men in Texas and Louisiana have enough faith in the enterprise to put up the money, and more of it will be wanted."

EDITORIAL.

Men do things and then regret them. Conventions also do the same.

The Secretary of the Mobile County Republican convention was a negro!

The man who went to Marengo County to guide the republicans in their convention was a negro!!

The Chairman of the State Republican Committee has a negro in his employ dictating letters to him and reading his mail!

There were two negroes in the Fourth Congressional Republican convention. They occupied seats in the convention with the white delegates from Chilton! You bet yer life!

Prelate D. Barker is a greater man without the endorsement of the Thorsby convention than he would have been with it. It brings him opportunities which otherwise he would not have had.

After all the Fourth of July seems to have reaped its full share of victims. In Chilton we had but one or two serious affrays but elsewhere the spirit of fight and death seems to have run rampant.

Jeffries lost the fight but he made the money. The result of the fistic encounter at Reno will be more harmful to the South than any one thing that has occurred since the days of Appomatox.

It is now reported that the moving picture men are to have a rough deal of it. Though they paid a tremendous sum for the pictures of the fight at Reno the authorities in the different cities are prohibiting their exhibition, claiming that it will stir up strife and contention. Correct. Let them be suppressed.

Louisiana lost an Insurgent Senator in the death last week of Senator McEnery. Governor Sanders will be elected to fill out the term of the dead senator without opposition.

The fight in Chilton among the repubs seems to wax warmer each day. That's their fight and we don't mind seeing them pull each other's wool. It leaves just that much less for us to pull after the twenty-fifth of the present month.

The Press has refrained from entering into any argument or publishing any partisan reports about repubs thus far and we propose to continue that line of action till after their primary; then we expect to take up the cudgel and wield it vigorously for the election of democrats to office. We have no negro secretaries, clerks or private stenographers in our party, nor do negroes attend our conventions and sit with the white delegates. They did at the republican convention in Calera where the Chilton delegates went last week.

Even great editors like Henri Watterson have their troubles. His son seems to be giving him quite a lot of trouble of recent days.

Cutting down possum trees is not as easy a job as it is supposed to be. After a fellow cuts the tree the possum may escape; it may be a thin—very thin possum—and then there may be a hornet's nest hung up in the bows of that tree.

Democracy has lost two most valuable men within the past week.

Last Saturday Senator J. W. Daniel, of Virginia, a gentleman of the old school, was laid to rest beneath the sod at his beloved home in Lynchburg, and on Monday morning the summons came demanding the appearance of Chief Justice Melville W. Fuller, of the Supreme Court of the United States, at the bar of Eternal Justice. The death of the latter occurred at his Summer home in Sorrento, Maine. For twenty-two years he had been Chief Justice of the Supreme Court of the United States, the highest tribunal in the world.

Halley's comet may have nothing to do with it but nevertheless it is coming in for quite a lot of blame in the death of our great men. Since its first appearance this year more than a score of the world's greatest men have been called to give a final accounting.

Then, too, it seems to have left a suicide mania in its wake. From every quarter comes the news of self-destruction, both among the great and small, the favored and those upon whom fortune has frowned.

Now let President Taft show the stuff of which he is made. He has the opportunity; will he grasp it and make the best of it is the question. In the naming of a Chief Justice to succeed Chief Justice Fuller let him disregard party lines and select the man best suited to pass judgment upon the laws of our land; let him show himself more than a partisan—a patriot—and no doubt much of his dallying and his unstatesmanlike actions heretofore will be forgiven him. Will he do it? That's the thing that remains to be proven.

Strange how men will grasp at straws and bubbles when they find themselves engulfed. They seek the merest baubles to explain away their own foolishness and to blind the eyes of the people.

If that Thorsby convention had acted with any degree of common sense some of the conventionites would not now be trying to "explain away" the action of the convention. The people know who was in charge of that convention and they will not soon forget that to gratify a selfish impulse they—the leaders—deliberately chose to disregard the well established customs of all political bodies. But that matters not to us; we scarcely expected otherwise when we learned the condition of things political within the party ranks.

What we loathe and detest is the miserable little spirit of the two by four politician who tries to hide his tracks behind a person who stands out in the broad light of day. Don't hunt excuses for having exploited yourselves as a home made machine who were incapable of looking beyond a day. Don't try to turn the gaze of the public from your own miserable failures by pointing to a "scare-crow" in some other field. That's ostrich like, not statesmanlike. Besides it won't work. Everybody knows that Prelate D. failed to get an endorsement and they know why. Everybody knows that a proposition in favor of prohibition was voted down and they know why. Everybody knows that Thompson was endorsed and they know why. You can't hide these facts—for they are facts—by pointing out something altogether foreign to the acts of the convention.

We are glad you had the temerity to refuse to endorse your National Chairman and your National Committeeman. We are glad you gave Prelate a knock-out blow and put him to the bad but don't try to conceal your meanness by foolish attempts to distract the attention of the people.

Daddy your child! Stand to the rack fodder or no fodder!

PERSONAL AND LOCAL.

Mr. Robert Marcus, who was so seriously injured in the runaway scrape some days ago, was taken to Montgomery the latter part of last week for treatment. Reports from his bedside state that he is resting well.

Mrs. Gug Higgins and little baby returned on Monday last from a pleasant outing at Talladega Springs.

Mrs. Thomas, who has been on a visit to relatives in Georgia, returned last Monday and assumed his duties at the bank. He reports having had a most enjoyable trip.

Mr. Marvin Wilson has gone to Highland Home, where he attended school the past session, to spend the summer.

Now is the time to get even with the flies and insects that infest your home. We have the powders that will kill. Try them once.

tf UPCHURCH DRUG CO.

Mr. and Mrs. John C. Oates, of Birmingham, are spending several days with the mother of the former, Mrs. A. C. Oates.

Mr. Bates, who has so acceptably filled the position occupied by Mr. Thrasher during the vacation of the latter, has returned to his home at Fort Deposit.

Miss Rubie Gore has returned from a most pleasant visit to friends and relatives at Birmingham.

Mr. R. H. Gaines, one of the county registrars and withal a Democrat in whom there is no guile, was in Clanton last Saturday handshaking with friends.

Mrs. B. E. Jones and mother, Mrs. Palmer, left last Friday to spend several weeks at Shelby Springs.

The Clanton Ice-Cream Parlor, Chandler Buildinng, is serving the highest grade ice-cream ever brought to Clanton. A nice, clean, cool place to take your best girl and enjoy a delicious plate of cream or a cooling drink.

tf

Mr. Thomas D. Wood left last Saturday for parts unknown to spend his vacation. It goes without saying that wherever he went he'll have a good time. That's the way Tom has.

Mrs. Martin Nix is spending some time at Shelby Springs in the hope of improving her health, which has not been good for the past several weeks.

We have the very purest and best quality of preserving powders. Try them once and you will always use them. Upchurch Drug Co. tf

Mrs. Gamma Anderson, who has been spending some days at Mount Carmel on a visit to Miss Edwina Moore, is expected home within a day or two.

Hon. W. M. Adams made a hurried trip to Montgomery the early part of tthe week, going down on legal business.

Messrs. Samuel C. Matthews and J. E. Robinson, Sr., went to Birmingham on the Fourth to take in the sights and incidentally to be near the telegraph wires as they ticked off the details of the great fistic encounter.

Miss Minnie Marcus, who has been on an extended visit to relatives in Macon, Ga., has returned home, much to the delight of her many friends. She was accompanied by her aunt, Mrs. L. J. Taylor, and cousin, Miss Lizzie Taylor, who will spend several weeks with relatives in the Jumbo neighborhood.

Please bear in mind that the Clanton Ice-Cream Parlor runs electric fans and furnishes the most refreshing drinks in town. Ice-cream fit for a king, too. tf.

Mr. and Mrs. Horace Smith, of Birmingham, are visiting the family of Mr. J. P. Gore.

Mrs. W. M. Adams and children left last Wednesday for Milltown, Ga., to visit the family of Dr. W. L. Patton. During her stay in Milltown the Dennis family will have a reunion, at which there will be present Mrs. Adams and children, Mrs. W. L. Patton and family, W. K. Dennis and family and Mr. Frank Dennis and family.

Mr. Henry Dupree, of Lynn, Ala., has been visiting the family of his brother, Mr. J. M. Dupree, and other relatives in Clanton.

Mr. Joseph L. Robinson, of Birmingham, is visiting relatives in Clanton this week.

The Clanton Ice-Cream Parlor is the place for refreshing beverages and delicious creams. Remember this when you are out with your best girl. tf

Past Sachem W. J. Armstrong, of Waxahatchie Tribe (Clanton) went upto Birmingham on Saturday last to attend a meeting of the board of appeals of the Great Council of Alabama, Improved Order of Red Men, of which he is an honored member.

Quite a number of Clanton young men went down to Montgomery last Saturday and spent the night, returning on the afternoon train Sunday.

We have just received a new supply of Waterman fountain pens. The best make of fountain pens in the world. Try one. Upchurch Drug Co. tf

Messrs. William Wilson and Grady Broadhead took in the festivities at Elmore Station last Monday.

Several of the Clanton Sunday school workers left Tuesday and Wednesday mornings to attend the Sunday school convention that was in session at Verbena.

What is Exo?
Do You know?
Upchurch Drug Co.
They know. tf

It was a right laughable sight to see the colored population gathered at the depot Tuesday morning to purchase the "big dailies" telling "all about the big fight." They seemed to enjoy reading about Mr. Johnson with the paper upside down as well as any other way, and each one had to purchase a paper giving an account of the doings of their hero, the champion.

Notwithstanding the gloomy weather and the fact that the [illegible] were not out in full force, the [illegible] were quite a success. [illegible]

week. We have something in store for you next week. The announcement will be made in the next issue and will be hailed with delight, no doubt, by the piano contestants. It will be a scheme in which each and every one will have an equal showing. It will be well for each one who has any interest in the contest whatever to await next week's announcement.

Beginning on the 15th of the present month we will discontinue giving piano contest tickets for payments on account. Our patrons will please make a note of this, as it will save us embarrassment and yourselves. For CASH purchases we will continue to give tickets as heretofore.

UPCHURCH DRUG COMPANY.

Until further notice I will be out of my studio on THURSDAYS of each week. Patrons and friends will please govern themselves accordingly.
SAM'L SCOTT, The Photographer. tf

Mr. F. O. Dudley went up to Birmingham on the Fourth to take in the festivities.

Messrs. Harvey Chandler and E. M. Finckard went up to Birmingham on last Monday. While there they called at the telegraph office to ascertain how it was with Mr. Johnson.

The Higgins Jewelry front will be one of the prettiest places in town when Mr. Hopkins finishes putting the beauty touches on.

Dr. A. N. Johnson returned last Monday from New York, where he has been taking a special course in diseases of women and children. He can now be found at his office ready to wait on his patrons.

The young ladies of the Whist Club enjoyed a "spat party" on last Monday night at the home of Mrs. Heath Jones. Their escorts were instructed to go in pairs and not return until [illegible] and the boys? Well, thtey came near emptying Upchurch's soda fountain for once anyway.

Dr. P. L. Hopkins returned from New York on last Monday. Dr. Hopkins has been away for some time taking a special course, and can now be found at his offices on Main street.

Turnip Seeds—the kind that grow and that make nice turnips—at Upchurch Drug company. tf

We have just received a fresh supply of fruit jar rubbers. The very thing for the thrifty housewife, who puts up her fruits and vegetables. tf. UPCHURCH DRUG CO.

Messrs. S. C. Matthews, Tom Woods and J. Watts Moore left Tuesday for Montevallo, where they went to attend a meeting of the Shelby County Masonic convention.

Rev. J. W. Killough, of Eclectic, came to Clanton on the fast train Tuesday morning on his way to Jemison, where he goes to assist Rev. R. J. Mills in a meeting at that place.

Mr. P. D. Wilson went up to McNeill Springs last Sunday for his health. He returned Monday morning, reporting that he was much improved.

Miss Rosa Crawford and Miss Hattie Goodwyn, of Montgomery, are visiting Mrs. R. E. Luckie.

Mr. Talmage Porter, of Montgomery, spent Sunday and Monday of this week with his parents in Clanton.

Miss Dovie Roper returned home Sunday after a most pleasant visit of several days to relatives in Montgomery.

Mesdames P. L. Hopkins and S. C. Matthews have been visiting friends at Montevallo.

Miss Sallie Duncan, a most charming young lady, is the guest of Miss Alice Stewart.

Miss Jodie Mosley, of Birmingham, is a guest to friends here one day this week.

Misses Emma and Winnie Quinn left Wednesday for Billingsley on a visit to their sister.

Mr. Royal Roper, of Montgomery, came up Sunday from his home to spend the day with his parents, Mr. and Mrs. O. O. Roper.

Mr. Frank Anderson, of Birmingham, is in Clanton on a visit to his mother, Mrs. J. T. Anderson.

Little Miss Jewel Campbell and brother, Virgil, are on a visit to their uncle and aunt, Mr. and Mrs. Crit Jones.

Miss Golder Palmer returned Tuesday morning from Wetumpka, where she has been for the past week assisting in the nursing of her little niece.

Dr. Caffey, of Verbena, was a visitor to Clanton this week.

July Fourth was an enjoyable day down at Mims' Pond. There was a gay party of young people who assembled there and pleasantly enjoyed the day. Besides a most bountiful dinner, prepared by the young ladies, there was music and other amusements for the pleasure of all.

Among those who attended from Clanton were Mr. Lee Maddox, Misses Era and Essie Jones and Mr. Elijah Jones, Misses Olo and Mattie Jackson.

Messrs. Samuel Cox and Obie Mahan spent Thursday of last week in Montgomery returning to Clanton on Friday.

Mr. Nathan Gordon, of Hattiesburg, Miss., arrived in the city Tuesday night to spend several weeks with his father, I. Gordon, the merchant tailor. After a rest here Mr. Gordon expects to enter the Naval Academy at Annapolis.

The crops are as good as could be expected though should the rain continue to fall as it has for the past few days considerable damage will be done.

Everybody will be cordially welcomed to our picnic on the 21st; we will have an abundance of good things to eat and a pleasant day is promised to all who attend. We do not object to anyone bringing a basket well filled with good things as every little bit helps.

Our Sunday school is progressing fairly well now; the attendance is somewhat better than it has been, still we are hoping for even more improvement. We need the help and encouragement of all and sincerely trust that those who can will give us the benefit of their presence.

With best wishes for the Press.

BRONX KID.

MACEDONIA.

We are always pleased to announce the good health of our mountainous corner on the rippling old Coosa.

The picnic at Adams' Ferry on the Fourth was a scene not pleasant to the eyes of sacred minded people, as the Devil, it seems, mastered the situation in trampling down our prohibition laws.

The people of our nook are industrious, looking for the necessities of the living, but oh, pause a moment to gaze at those briars which have shut out every mark of culture in our cemetery. Why not remove the cluster of wild verdue? Then and not till then will the owls cease to echo their screams oven the graves of our dear ones.

Misses Etta and Lillian Robinson, of Verbena, the apprechted guests of little Vonteil Smith this week.

The Misses Traywick, of Cane Creek, and Misses Juliza Wells, of Clanton, and Miss Ethel Jones, of Jemison, spent the Fourth with relatives and friends here.

Messrs Matthews Roper Huston and John Cox, of Billingsley, treated us with a visit this week.

Miss Ada Martin, of Clanton, is on a visit to the Gandy family.

Mr. Will Gandy, of Ashland, was at home spending the Fourth.

Our school term and protracted meeting service will both soon begin. We hope for a large attendance at the meeting. Let us strive to be ready and train the mind and the heart for broader fields of usefulness.

PERSONAL.

... Mrs. Gunnells and ... of Dothan are on a visit ... of Mr. and Mrs. G. O. ...

... Adams returned Tues... from a business trip to ... while there he had a ... ion with State Chair... man Tyler Goodwin, who gives out the cheering news that every district and every county in the state, with one or two exceptions, would go democratic at the November election.

Somehow or other the news had gotten abroad that Chilton county will probably go republican this year. We do not know how the mistake was made, for mistake it surely is. Chilton county is going for the democratic nominees, every one of them and you can bet your money on that proposition as easily as you can back Mr. Johnsing.

Sheriff Catts returned Tuesday afternoon from Columbiana bringing with him Charley Harris, who is wanted for jumping a contract. The Sheriff left immediately in search of other law breakers and is expected to return within a day or two with additional boarders for the County bastile.

Deputy Smitherman is spending a few days at Maplesville looking after his farming interests and incidentally taking a much needed rest. He was accompanied to Maplesville by his son, Mr. Joseph Smitherman.

ORDER OF PUBLICATION.

The State of Alabama, Chilton County. Chancery Court. 7th District, Northeastern Division. In Vacation Term, 1910. Sam Will John, complainant, vs Hugh L. Gardner and Lillian Gardner, Defendants.

In this cause it is made to appear to the Register, by the affidavit on file of W. M. Adams, solicitor for complainant that the defendant, Hugh L. Gardner, is a non-resident of the State of Alabama and resides in a place unknown to affiant, and further that in the belief of said affiant, the defendant, Hugh L. Gardner is not of the age of twenty-one years.

It is therefore ordered by the Register, that publication be made in the Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring the said Hugh L. Gardner to answer, plead or demur to the Bill of Complaint in the above cause on or before the 23d day of July, 1910, and failing so to do within thirty days after the service of this Summons a Decree Pro Confesso may be taken against him in said cause.

Witness my hand, this 23rd day of May, 1910.

H. M. SIMPSON,
m-26-4t Register in Chancery.

One-half the world doesn't know how the other half can afford automobiles.

As nearly as can be estimated there are thirty inhabitants to the square mile on the globe.

WOMAN'S REALMS

Vanity of Life.

How small a portion of our life it is that we really enjoy. In youth we are looking forward to things that are to come. In old age we are looking back to things that are gone past; in manhood, although we appear indeed to be more occupied in things that are present, even that is too often absorbed in vague determinations to be vastly happy on some future day when we have time.—New York Press.

A Wife's Qualifications.

There are three things which a good wife should resemble, and yet those three things she should not resemble. She should be like a town clock—keep time and regularity. She should not, however, be like a town clock—speak so loudly that all the town may hear her. She should be like a snail—prudent and keep within her own house. She should not be like a snail—carry all she has upon her back. She should be like an echo—speak when spoken to. But she should not be like an echo—determined always to have the last word.—New York Press.

Mrs. Roosevelt.

Mrs. Roosevelt wears wonderfully well. One could not guess from her appearance that she will next year be entitled to silver wedding presents and congratulation. Her eldest son is to be married on her return to the States. Her appearance is extremely agreeable. What is so remarkable in her face is its exceptional capacity to show pleasure in lighting up. The features are of regular proportion and well modeled and bear out her claim to French ancestry—Huguenot, by the way. The deep commissures are distinctly French and may be thought to denote a sense of the ridiculous finer than that of the ex-President. Her comeliness is refined. —London Truth.

Queen Does Shopping.

A few days after my arrival at Milan, while strolling one afternoon on the Galleria Vittorio Emanuele, that favorite Milanese and cosmopolitan resort, I passed a glove shop, and remembered that I had left my gloves in the railway carriage. I thought I might as well buy a new pair, and entered the shop.

A customer had gone in before me, a lady, young, tall and slender, quietly but elegantly dressed in a plain, dark traveling frock. Through the long, blue motor veil that closely shrouded her face I could dimly see her large, dark eyes and masses of black hair. The face appeared to be refined and pretty. She was leaning over the counter and trying on gloves which a young shop assistant handed to her.

"They are too large," she said, shyly.

"That is because the signora has so small a hand," replied the young assistant gallantly.

She smiled and did not answer. An elderly lady who was with her gave the youth an indignant and scandalized glance. After patiently allowing the measure of her hand to be taken, open and closed—it was indeed a very small one—she found two pairs of gloves that suited her, paid for them and turned to go.

Just then the owner of the shop returned. He looked at the lady, gave a bewildered start, and, as soon as she was gone, shouted to his assistant:

"Have you the least idea whom you have been serving?"

"A very pretty woman—I know that!"

"Idiot! It was the Queen!"

The Queen! It was my turn to feel bewildered. The Queen alone, unprotected, in that arcade full of people! I was on the point of following her, from professional habit, forgetting that I was not at Milan as an official, but as a private tourist. But it was too late, she had already disappeared in the crowd.—Xavier Paoli in McClure's.

Two materials frequently appear in one light gown.

Some braid novelties show touches of leather in their make-up.

Cushion covers of suede leather are exceedingly popular this season.

Coarse blue linen frocks, embroidered with blue and coral silk, are made for young girls.

Either banding, piping, or feather stitching in color is effective for the small boy's Russian suit.

Wreaths, bow knots and roses are the favorite designs on the embroidered silk hosiery for the bride.

The sleeveless coats of the most diaphanous materials promise to be more popular than ever this season.

In place of the narrow stitching characteristic of the short glove of last season, the long silk glove now worn has wide embroidery on the back in self-color or in black.

So popular is the frill of pleating at the left of the front of the shirt waist that blouses which fasten in the back are given the blouse's closing effect by means of dainty accessories.

The jabot is a long frill and gives length; the rabat is a flat little tab which lends an air of doctrinal severity to the prettiest face; the plisse is the mild frill, the most popular of all.

The prettiest fad in Paris is the plisse—the ruff of chiffon with dainty ribbon roses set in to wear over a tailored suit with a collarless blouse. It is soft, crisp and becoming to the face.

Little girls are wearing hats that have departed from the simplicity that has been so popular. A mass of lace and frills crowns little ones' heads, no matter how plain the coat and dress may be.

Russia Wants More Autos.

The imports of motor cars into Russia for the fiscal year 1908-09 numbered 72, valued at $146,019, against 57, valued at $88,869 in 1907-08; those from the United States being 2 cars at $8113, against 10 cars, valued at $7363. Of the total imports during the last year 45 cars, valued at $78,797, were from the United Kingdom, and 15 cars, valued at $29,117, from Germany. In addition to the

Our Cut-out Recipe Paste in Your Scrap-Book.

Lentil Roast.—Soak the lentils, about a pint, in water for three or four hours, or over night. Drain, cover with fresh water and put on to boil until very soft. Strain through a colander to remove the skins, then mash the same as you would mashed potatoes. Season with salt and pepper, also sage or celery, or other savory herbs. Put in a baking dish, pour in enough milk to make the proper consistency, sprinkle generously with bread crumbs, pour over the top a little rich cream, then flecks of butter here and there. Put in the oven and bake until a good brown. To serve this cut in slices, and serve with cranberry or currant jelly.

On Good Breeding.

A great part of our education is sympathetic and social. Boys and girls, said Emerson, who have been brought up with well-informed and superior people show in their manners an inestimable grace. Fuller says that "William, Earl of Nassau, won a subject from the King of Spain every time he took off his hat."

You cannot have one well-bred man without a whole society of such. They keep each other up to any high point. Especially women; it requires a great many cultivated women—salons of bright, elegant, reading women, accustomed to ease and refinement, to spectacles, pictures, sculpture, poetry and to elegant society—in order that you should have one Madame de Stael.

A Word About Julia Ward Howe.

Julia Ward Howe, author and reformer, was born May 27, 1819, in a handsome home in Bowling Green, New York City. At the time of her birth that part of the city was the most desirable residence quarter, being both aristocratic and fashionable. Her father, Samuel Ward, was a merchant and banker of New York. Four of her ancestors were Governors of Rhode Island, two of them being Wards and two Greens. On both paternal and maternal sides Mrs. Howe sprung from fine old blood.

When in her fifth year Julia Ward lost her mother, a beautiful and accomplished woman of twenty-eight. Six little ones—of whom Julia was the fourth—were left without a mother's love and care. Of her father Mrs. Ward has this to say: "He was a majestic person, of somewhat severe aspect and reserved manners, but with a vein of true geniality and benevolence of heart. His great gravity and the absence of a mother naturally subdued the tone of the household; and, though a greatly cherished set of children, we were not a merry one."

Although as a child Julia Ward showed remarkable aptitude in her studies, being advanced to classes comprised of girls twice her own age, she was still a merry, playful child at heart, and when, on her ninth birthday, her dolls were taken away from her and she was told in a serious tone by her aunt that "Miss Ward was too old to play with dolls any longer," the separation from her playthings almost broke her heart, and many nights she wept herself to sleep on her pillow, mourning for her pretty toys that had been so ruthlessly denied her.

Her father provided the finest tutors for his children, and the Ward home became the center of a highly cultured class of people, artists, writers and musicians gathering there at regular intervals for social

Second Floor Headley Building.

Good for Dr. Higgins

We today learn that Dr. Higgins has fitted one hundred pairs of eyes with glasses since he returned from college on October Eighteenth, 1909.

The hundredth patient was Mrs. Cobb, of Jemison, Ala., who was sent to Dr. Higgins for treatment by Dr. McNeill.

We desire to ask the people if the leading physicians of your county recommend Dr. Higgins in fitting glasses, and he holds the second prize for the State of Alabama in OPTICS, won at the recent meeting of the State Optical Experts. Can you afford to buy cheap spectacles or go off to other towns to have your eyes treated with glasses?

Dr. J. V. Higgins gives personal attention to every patient. Remember the place.

REVIEW.

Dimly the spent days arrange themselves in rows;
Backward we look upon the serried files;
And what strong heart would fain recall the blows,
Fate-struck—the weariness, the tears, the smiles?

We did not live as we had planned to do;
We did not walk the path our eyes descried;
What deemed we sweet turned out but bitter rue;
Our firstling joys came fair, but quickly died.

Still the mosaic Life so deftly wrought
Within the halls of memory is hung,
As wonderful as if the things we sought,
Had all been found, and all our songs been sung.
—Richard Wightman, in Hampton's Magazine.

Lonely Miss Barbara.

BY MRS. T. GODFREY.

". . . From envy, hatred and malice, and all uncharitableness . . ."

The rector's rich, full voice floated down the hushed church, rousing echoes in Miss Barbara Lynn's shriveled heart. She dropped her head in her hands with a little sigh, and joined her tremulous treble to the response:

"Good Lord, deliver us!"

Then she cowered down with a shiver, peeping at the girl in front of her between her fingers. How fresh, how young, how happy she seemed as she knelt close by the young man, evidently her lover.

Miss Barbara's eyes moistened. Something in the girl's rosy face reminded her of days long dead. The swift movement of the small, brown hand as it slid confidently into the young man's, under the pew ledge, sent a quiver of exquisite pain into the old maid's breast. With a gasp she closed her eyes, and tried to concentrate her thoughts on the prayers. But instead they wandered back into the glade of youth, and, with the tantalizing image of those two before her, a feeling of rebellion against her fate surged over her, and she felt herself indeed a hypocrite, for the Lord had not yet delivered her from the throes of envy.

The sense of her shortcoming overwhelmed her with horror, and although force of habit made her chime in with the congregation, her mind was in a country lane, her heart throbbing with the remembrance of a tall youth, with sun-kissed curls and blue eyes like the blue of heaven.

For years she had not so let her mind dwell on such things, but had lived her quiet life feeling that she was "going softly," that nothing pained her much nor gave her excessive joy, imagining that her heart had died in the lane flecked with dancing shadows of leaves and the golden light of the setting sun, when her lover had kissed her good-by, long years ago.

And lo, the sight of a strange, handsome young couple had awakened the old aching pain, and reminded her of what might have been!

The rustle of the rising crowd swept through the building like the rush of a hurried sea. Mechanically she rose also, her sweet face flushed by the pink of emotion, her eyes shining dark through unshed tears, her snow-white hair ruffled by nervous hands.

She must be brave. Lovers still thronged the world, though she had had her day and was no longer young.

She opened her hymn book and held it upside down, for the girl's hair claimed her attention. It shone like burnished brass, and here and there a captured sunbeam dazzled the enchanted eye with elflike mischief.

Miss Barbara's hands trembled so violently as she looked, that she dropped the book into the seat before her. The girl turned quickly and handed it back, with such a smile of bewitching charm, and sparkling dimples, that Miss Barbara quailed. The blue dancing eyes pierced her to the soul, and sent her bewildered thoughts circling back to the forbidden past.

When the voice of the people soared up on high, Miss Barbara's remained silent. The thrill of the music added to her emotion, she closed her eyes, and imagined she was looking once more into those like the blue of heaven. Again she felt the loved arms around her and leaned against the brave young breast, while on her chaste lips she felt a kiss.

Then, suddenly, a cold wind swept over her, and the murmur of voices fell on her ears. With a shudder she raised her heavy eyelids and stared around in surprise, for she was out in the sun-baked churchyard, on the soft, green grass, and the blue-eyed girl was bending over her, anxiety in her pretty face.

"Do you feel better?" she asked.

"Yes," stammered Miss Barbara, her cheeks unfurling the flag of confusion as her gaze fell on the young man, who was supporting her in his arms.

He helped her to her feet.

"You fainted," he explained, "and we brought you out."

She smiled, wondering what they would say if she told them she had not fainted, that she had merely rested in the arms of her long-lost love and said good-bye once more.

"It is good of you," she murmured. "I felt queer, I remember. This is the first time I have ever done such a foolish thing. Thank you very much for your kindness. And now I will go home."

But in spite of her protestations they insisted of accompanying her up the long village street. And as she walked between them, a tiny, dainty figure, with her golden hair, and silver hair, her heart-centered its calm and she met the girl's blue eyes with a look of steadfast [illegible]

deserved all the happiness the world could give, all it had withheld from her.

At the little white cottage, covered with roses and ivy, where Miss Barbara lived with one faithful maid, the trio parted the best of friends.

"I will come and see you to-morrow," said the girl, laying her fresh lips on Barbara's soft cheek, "if I may."

"Yes, do. Come to tea, both of you," added Miss Barbara shyly, as she glanced back into the youth's dark face.

Then, for a moment, she stood watching them as they turned away, and the girl's voice floated back to her on the breeze, thrilling her with its music.

"Isn't she a pretty darling, Eric? Now if father's Miss Babs were like her how delighted I should be!"

* * * * * * *

The next afternoon when Miss Barbara sat in her little parlor, looking more than ever like a Dresden china figure, with her soft gray silk gown and snowy fichu, and softly piled silver hair, the girl came alone.

"Eric has gone fishing," she explained. And as she sipped the scented tea out of the precious eggshell china and nibbled the home-made dainties, she chatted merrily to the little lady.

"We've taken the house on the hill—the one that looks down upon this—so we shall see a lot of you, I hope. We've been married three months, and have never settled down anywhere yet, but we like this quaint little place, and the people, and the country. After Oregon it's such a change!"

Miss Barbara's heart jumped at the name of Oregon, then she blushed.

"Do you know Oregon well, then, Mrs. ——"

She paused.

"Dale—Margaret Dale," said the girl smiling.

"Yes, I've lived in Oregon all my life, until the last year. Father—you'll see him soon, for he comes to-morrow—left Ohio as a young man. He says he left his heart behind, but, for all that, he married, and I'm his only child."

The heavenly blue eyes thrilled Miss Barbara again. Her lips trembled slightly.

"It is rather amusing to hear of father's love affair," continued the young bride, with a chuckle. "He's searching for his first love now. Of course he's quite serious, but I can assure you we are not. Think of it, Miss Lynn; he wants to find the girl he loved twenty-five years ago. He does not realize that she is now probably a fearful old frump, with a long, thin face, flat feet, no waist and a wig."

"My dear, my dear," quavered Miss Barbara, a sharp pain at her heart, for twenty-five years back she also had loved her blue-eyed youth, and, although she had grown old, she did not think she was a frump.

She looked furtively across at her reflection in the mirror. She was old, yes, seen by the girl, but frumpish, never! How hard and unsympathetic was happy youth!

"You may laugh," continued Margaret, "for you are so pretty, so sweet yourself! But think of my dear father remaining faithful to such a scarecrow! Can we allow him to find her?"

"If your father married he did not always remain faithful," said Miss Barbara, [illegible]

"You, my dear, are one of God's prettiest creatures. Now, if you were Miss Babs, well and good, but you aren't, worse luck."

Miss Barbara started. Then, in a low voice, she asked:

"Is that her name?"

"Barbara is her Christian name. I don't know her surname. Dad would never tell it to me. Miss Babs he calls her, but we say, 'Babs the Impossible,' for she is quite impossible, I am sure."

Miss Barbara smoothed out the folds of her dress with trembling fingers and averted eyes.

"Does he love her very much?" she quavered.

"He's mad to find her. Yes, he loved her and she loved him, but her father wouldn't allow them to be married, and she hadn't the strength to go against his will. In those days girls feared their fathers, strange to tell! So father said good-bye, and went away, intending to return later and ask for her again, but he heard that she was married, and— why, how pale you are! Do you feel ill?" she exclaimed, springing forward, solicitude upon her face.

"No, no!" whispered Miss Barbara. "Go on. This story interests me. I have heard of one so like it."

"Well, as a man mustn't remain faithful to another man's wife, father married also. My mother died two years ago, and father retired then. Soon after we came to Ohio, and he heard that his first love had never married. It was her wicked old father who had spread the lie. So now father is looking for her."

A long silence succeeded her words. Miss Barbara sat stiff and straight in her chair, one bright spot on either cheek. She dared not move, for the room seemed swimming around, and hundreds of eyes, the blue of heaven, looked at her from every corner.

Through a fog came Margaret's laughing voice:

"And of course she'll be a frump—a sour old thing! Ah, if she could only be like you!"

Twilight descended upon the house, whiffs of newly mown hay came in through the open window, one ray of the setting sun threw a shaft of light across the room. It fell on Mrs. Dale's upturned face, and, for a moment, Miss Barbara held her breath. For in the girl's place she saw her lover, as he looked long years ago.

"Yes, I have heard a story like that before," she said, in tremulous tones; "perhaps I know Miss Babs. And, if it is the same, she loves him now, as then. She may be a frump, my dear, and sour—for life is hard to the lonely—but if she can give him the love he craves, if he can give her the joy a father robbed her of, would you still wish them apart?"

Margaret dropped her burning face.

"No, perhaps not. If it were love, such love as that I know. But can it be? She is old and rusty, perhaps."

"His love will rub hers bright. Once she was young, like you. Could your love die? What is your father's name?"

"Carrol Lyle. Colonel Carrol Lyle."

The drumming at Miss Barbara's heart quickened, and the hot blood hissed and boiled within her brain. She seemed to hear the clash of thunder, and stood one more in the tree-shadowed lane, his arms around her, his lips on hers.

* * * * * * *

The next day, after her lunch, Miss Barbara climbed into her attic. Here, as elsewhere in the cottage, not a speck of dust was to be seen, not a sign of disorder.

Miss Barbara opened an old oak trunk, and bent over its contents with a smile. Gently she raised soft folds of white drapery, and shook out a dainty muslin gown. Pure and simple, it seemed ready for immediate use.

Then, ere she turned aside, she drew out a packet of weather-worn letters. From them there fell the miniature of a young man—the man she had thought faithless to her long years ago. Glad tears sprang to her eyes as she gazed into his, then she raised it to her lips and kissed it tenderly.

When Marion, the maid who had grown old with her mistress, carried [illegible]

ribbon in her silver hair, a bunch of roses in her belt.

"Miss Babs!" repeated the old servant, tears streaming down her cheeks, "but for your white hair I'd say you're eighteen again. I'd—"

"And so I am, Marion, for he, Carrol, is coming back to me," whispered Miss Barbara.

Marion threw up her hands and fled to her kitchen.

"Lord help her!" she sobbed. "She's daft! Thinks herself young again and talks of him, her faithless lover. May the Lord help poor women who eat their hearts away, and drown all men in the tears they make them shed!" she added vindictively, rocking herself to and fro in her great despair.

Meanwhile in the parlor, Miss Barbara drank her tea with longing glances at the steep, white road leading past the windows to the house up on the hill.

And Margaret's parting words rang in her straining ears:

"You must dine with us to-morrow. I'll send father for you, and you'll be able to tell him about Miss Babs."

As she repeated the sentence to herself for about the thirtieth time, a quick step sounded on the path outside, and she rose palpitating.

The next instant a tall, weather-beaten man stood on the threshold, a man with short, crisp, silvery curls, and eyes like the blue of heaven.

And as these same eyes fell on the little trembling figure before him, a great joy sprang into them, and with a loud cry of "Babs! My little Babs at last!" he took the no longer lonely Miss Barbara to his heart.

ROOSEVELTISMS FROM THE EX-PRESIDENT'S BERLIN SPEECH.

The play of new forces is as evident in the moral and spiritual world as in the world of the mind and body. Forces for good and forces for evil are everywhere evident, each acting with a hundred or a thousand fold the intensity with which it acted in former ages.

One of the prime dangers of civilization has always been its tendency to cause the loss of the virile virtues of the fighting edge. When men get too comfortable and lead too luxurious lives there is always danger lest the softness eat like an acid into their manliness of fiber.

We cannot afford to develop any one set of qualities, any one set of activities, at the cost of seeing others, equally necessary, atrophied.

There has never been a greater need of a high and fine religious spirit than at the present time.

It would be worse than folly on our part to ignore our need of intellectual leadership.

Unjust war is to be abhorred; but woe to the nation that does not make ready to hold its own in time of need against all who would harm it.

Finally, this world movement of civilization, this movement which is now felt throbbing in every corner of the globe, should bind the nations of the world together, while yet leaving unimpaired that love of country in the individual citizen which is essential to the world's well-being.

Out in the Open.

Boys and men owe it to themselves to go to the fields and woods and there to get as close to nature as possible. Nature is the great mother, and the boy who plays in her yards is filled with good clean thoughts, and you can generally rely on him. He breathes in the exhilarating air of freedom and drinks from the streams that are unpolluted by civilization and takes home with him a supply of health and spirits that money can not purchase in a city.

This not only applies to the boy, but to the man. A tired brain is renovated and refreshed by a few hours in the open, and the man who communes with nature and becomes intimate with her has a friend who will never lead him astray. Take to the woods and fields whenever the opportunity presents itself, and if you have boys and girls take them with you. Teach them to shoot and to become familiar with firearms, boats, water and woods, birds and animals, and give them a chance to learn and love nature. If you cannot take them, let them go with some one in whom you have confidence. You will be surprised how quickly they will become proficient in woodcraft and how soon they will feel the charm of outdoor life. The open plants the seeds of independence and teaches the young to take care of themselves. Encourage them in this direction and then try it yourselves just as often as you can.

It beats sitting around a club. An hour, a day, a week spent in pursuit of fish, feather or fur, never forgetting to visit nature all the while, will prove an inestimable blessing to the nerve fagged man or woman. Let me impress upon you that the act of killing is only incidental. Never take advantage of game. Always give it, at least, an even chance, and stop before you have had enough. Remember that there are other days and others coming after you to enjoy the same pleasures. Obey the game laws, but if you have the proper conception of this form of sport and you are a true sportsman at heart, the last admonition is superfluous, as the laws always allow a reasonable length of time for its indulgence, and a liberal limit to the daily and season's bag.—The National Monthly.

WORDS OF WISDOM.

Our doubts are traitors.—Shakespeare.

Many hands make light work.—German.

Who comes first grinds first.—German.

A clean fast is better than a dirty breakfast.—Irish.

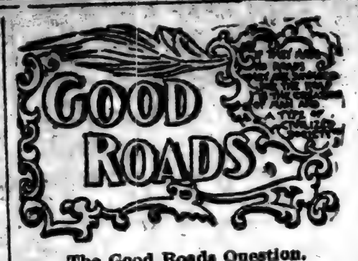
A true friend is forever a friend.—George MacDonald.

A drop of fortune is worth a cask of wisdom.—Latin.

He who follows the crowd has many companions.—Dutch.

The bald-headed man is the original star-gazer.—Dallas News.

Even a fool, when he holdeth his peace, is counted wise.—Bible.



Great men are never sufficiently shown but in struggles.—Burke.

He whose goodness is part of himself is what is called a real man.—Menciun.

Truth may have a thousand tongues but only one face.—Florida Times-Union.

The problem of life is not to make life easier, but to make men stronger.—David Starr Jordan.

[illegible] girl never feels that [illegible] dressed unless her [illegible]—Puck.

The Good Roads Question.

There are so many reasons for good roads in the South that the subject could be discussed from now on. The sole cause of bad roads, however, is the indifference of individuals. Men meet and blow off a lot of steam and resolute only to go back home and wait for the other fellow to start the work.

The only hope is in perfect organization with a definite end in view—an organization that has some financial resource, and that is made up entirely of people free from politics. So far as possible, the board or members at the head of such an organization should be made up of men scattered in all directions, and as far apart as possible in the territory to be improved. This will prevent any clique or faction getting together and scheming to improve certain sections of the territory to be improved, and incidentally securing options and gobbling up real estate along the line of improvement. This form of graft is what brings about much of the protest usually heard from small property owners who feel that they are already tax-ridden. And their complaint is not without just cause often.

The people who should take the most interest in good roads are the farmers. It means to them:

Highways over which to haul their crops to markets.

Smooth, good roads that will save their time, and preserve their hard-worked and high-priced live stock.

Better facilities for sending their children to school.

Enhancement of their farms' values (for every man covets a well-kept, profitable farm facing a good road).

In Davidson County, Tenn., in the wonderful bluegrass section around Nashville, the highways are dotted with profitable dairy farms. The great roads stretch for miles like white sheets ("pikes" they are called up there), and in that section there is no cry of "back to the farm." The greatest trouble seems to be to build up cities.

What a sight it is to visit that section and notice the things you don't see. No farms without live stock, no idle fields, winter or summer, no unpainted farm homes, no isolated rural school houses, no big plantations rented to ignorant whites and negroes while the owner lives in a city mansion.

Those folks live and die within their own domain and hand their lands down to the next generation. They are content with their lot and live on the fat of the land. Their homes face the beautiful pikes and are surrounded by great groves and rolling, well-kept lawns. They do not call themselves farmers. They simply own a place where they raise everything they need. Fast horses carry them to and from town miles away. Automobiles carry them to the theatres and bring them home at night.

Those folks are good roads cranks.

Invariably the man who takes the least interest in good roads is the fellow who owns a vast amount of property. He is too greedy to sell that part of his land that he cannot till himself, and yet he is not willing to enter in a movement that might so improve his land that the assessor will raise his tax.

One of the greatest evils in the cotton belt to-day is the owning and controlling of vast plantations, and the renting of these lands by the owners who sap a living from the toil of poor white people and negroes—"share croppers." The breaking up of these plantations will make our country the richest in the world.

Good roads will break these up. The owners will groan under the tax and they will be compelled to relinquish their holdings to people who are farmers and who want to farm.—Memphis News-Scimitar.

Good Roads, Good Farms.

Farms and roads are generally pretty close together—in fact a farm is not a desirable possession unless there is a passably good road leading to it. Farmers ought to be interested in the road question, for in most localities they pay most of the taxes that go to the maintenance of highways. They do practically all the routine road work in States where the "warning-in'" plan prevails. As to the indirect tax that is entailed by bad roads, no one suffers more from it than the farmer.—Louisville Courier-Journal.

Where We Get Asbestos.

More than four-fifths of the world's supply of asbestos comes from the Province of Quebec, in what is known as the serpentine belt, running through the counties of Thetford, Coleraine, Robertson and Broughton, about 100 miles from Montreal. While the history of the industry dates back to 1877, it has only expanded to its present proportions during the last few years. The province has already produced over 225,000,000 worth of asbestos, and is now averaging $2,000,000 worth a year.—Gazette Journal.

Vatican's Ultimatum to Spain.

The Vatican's latest note to [illegible] insists on the withdrawal of the decree of June 11, and is regarded as an ultimatum. There were riots in Bilbao and San Sebastian.

Sixteen Investigations Ordered.

Sixteen investigations were ordered by the Senate and House of Representatives in the session of Congress just adjourned in Washington.

A Hen's Devotion.

By EDITH M. RUSSELL.

One often hears it said that there is no animal more stupid than a hen. In vindication of the much maligned domestic fowl, it seems only fair to relate a true story of a sagacious and affectionate hen.

On a farm in Nova Scotia there once lived a dear old lady who was blind. She had a love for all animals, particularly for the hens. They were faithfully fed by her hand. One tiny hen became exceedingly fond of its aged mistress, following her about the yard as devotedly as would a household cat.

When the old lady fell ill it was noticed by the family that little Hen was not so lively as of yore. Evidently she missed the kind hand that had been in the habit of feeding her, and the gentle voice that had often called, "chuck, chuck, chuck."

One day the sick woman in bed, hearing among the bedclothes caused by contact with an egg, and called the attention of the family to the fact. The mystery was solved next day when the little hen was seen to enter the doorway, wend her way to the old lady's sick room, and perch herself on the bed. The little feathered friend paid a visit to her mistress every day, leaving as a token of love a fresh egg to tempt the failing appetite of the invalid.

The faithful hen seemed to know that an intuition when the Angel visited the home and bore away her beloved friend, for never again did she cross the threshold of the farmhouse, and shortly after the decease of her blind mistress she pined and died, apparently of a broken heart.—Our Dumb Animals.

Thieves Dodge Watches.

"It's a peculiar thing," said a headquarters detective, "that with the increase in popularity of watches the number of reports we have received of watches stolen by pickpockets has diminished. No first-class pickpocket touches watches any more. The same is required to get away with a watch as a hundred-dollar one when the dips found they were getting well-dressed men for [illegible] they gradually ceased trying for them. The objective point now is stickpins, which the crooks prefer before trying for the wallets, which they are willing to take a chance on."—New York

Moving Day.

When the gentleman with [illegible] tendencies toward looking after everybody's business but his own saw a furniture removal van being loaded near his house, he sallied forth into the street on investigation bent.

"I say, carter," he began curiously, "are the people upstairs moving?"

The carter looked at him wearily. Then he wiped the perspiration from his manly brow.

"No, sir," he retorted, "we're just taking the furniture for a drive!"—Chicago Journal.

When a man aims his prayer at other, confesses the Chicago Record, he always misses the throne.

During the last year the [illegible] inspection service of this [illegible] passed on 161,206 life [illegible]

THE MERRY SIDE of LIFE

THE NEW COLLEGE GAME.

When other arms and other legs
The game of football play;
And fair co-eds and wispy segs
Commingle in the fray,
There may perchance in bleachers rise
The voice of some old frat,
To say, with sorrow and surprise,
"And so, it's come to that!"

—Chicago Tribune.

ONE WAY.

"They say that John D. would give much for a little praise."

"Well, why doesn't he maintain his own private poet laureate?"—Louisville Courier-Journal.

MINCED LANGUAGE.

"He didn't mince his words."

"Well?"

"It might have been better if he had. He was forced to eat 'em later."—Louisville Courier-Journal.

RATHER ALOOF.

"That woman is unsociable."

"Isn't she pleasant when you meet?"

"Yes, but she won't abuse the neighbors."—Louisville Courier-Journal.

JUST ABSENT.

"Does your wife ever lose her temper?"

"If she does she knows where to find it again."—New York Telegram.

RURAL AMENITIES.

Fair Passenger—"But, good gracious, why didn't the train stop here? It is supposed to."

Porter—"Yes, miss, but the engine driver has quarreled with the station master."—Pele Mele.

INTERNAL TELEPHONY.

"Why didn't you listen for that small voice within called conscience?"

"I did," replied the discovered and therefore repentent grafter, "but I guess the line was busy."—Washington Star.

LIMITATIONS.

"So you are going to spend the summer inland?"

"Yes; we like to be exclusive, and father has bought us a mountain."

"I see. Even money can't buy an individual ocean."—Louisville Courier-Journal.

PROPER SPIRIT.

"Do you really think it necessary to give Mrs. Bigwad anything on her birthday?"

"Yes, Harold, we really must. She remembered all our children at Christmas, and now the least we can do is to retaliate."—Puck.

UNSEEN.

"In those old Arabian Nights stories it was quite easy for a man to become invisible."

"Yes," replied Miss Cayenne. "Now the only occasion on which a man is practically invisible is his own wedding day."—Washington Star.

ARTISTIC TEMPERAMENT.

"Hamlet seemed to speak with authority in his advice to the players."

"Yes," replied Mr. Stormington Barnes, "although he was rather quiet and patient. But in his other scenes he was as nervous and irascible as a regular stage manager."—Washington Star.

MODESTY.

The Critic—"What, in your opinion, are the three best poems in the English language?"

The Poet—"Well, there's Shelley's 'Skylark' and Keat's 'Grecian Urn' and—I hadn't thought up a good title for the other—it isn't really finished yet."—Cleveland Leader.

EFFECTIVE DISGUISES.

"We like progress," explained the young Turk, "but we cannot allow our women to appear publicly without veils."

"That's all right," declared the tourist. "You needn't fall behind the procession. Put 'em in auto goggles."—Louisville Courier-Journal.

A NATURAL RESULT.

"What caused the accident by which the aviators were thrown from their airships?"

"I believe they quarreled."

"How did that cause the accident?"

"Naturally, it resulted in some falling out."—Baltimore American.

Boy Tortured by Eczema.

"When my boy was six years old, he suffered terribly with eczema. He could neither sit still nor lie quietly in bed, for the itching was dreadful. He would irritate spots by scratching with his nails and that only made them worse. A doctor treated him and we tried almost everything, but the eczema seemed to spread. It started in a small place on the lower extremities and spread for two years until it very nearly covered the back part of his leg to the knee.

"Finally I got Cuticura Soap, Cuticura Ointment and Cuticura Pills and gave them according to directions. I used them in the morning and that evening, before I put my boy to bed, I used them again and the improvement even in those few hours was surprising, the inflammation seemed to be so much less. I used two boxes of Cuticura Ointment, the same of the Pills and the Soap and my boy was cured. My son is now in his seventeenth year and he has never had a return of the eczema.

"I took care of a friend's child that had eczema on its face and limbs and I used the Cuticura Soap and Ointment. They acted on the child just as they did on my son and it has never returned. I would recommend the Cuticura Remedies to anyone. Mrs. A. J. Cochran, 1823 Columbia Ave., Philadelphia, Pa., Oct. 20, 1909."

NEW WAY OF LOGGING.

Saws Instead of Axes, Water Wagons and Phones in Lumber Camps.

Conditions in Maine lumber camps have been greatly changed in the last decade.

To begin with, the axe of the woodsman has seen its best day. Formerly spruce and pine trees were felled with the axe, but now the crosscut saw has taken its place and thereby greatly simplified operations. Where it took minutes to bring a tree to the ground it now requires only seconds, and at the same time it is possible to save much valuable lumber by being able to cut closer to the ground with the saw.

What would the old time lumberjack say if he should see one of the water wagons used on the roads now to make the sledding easier? In the old days when it was necessary to make hauling better the roads were iced by hand or other laborious means were used to accomplish the purpose. Now lumbermen provide their crews with a water wagon if they have long, hard hauls, and by using one of these contrivances just before night the road is sure to be in apple pie condition the next day, with cold weather.

The telephone has reached the lumber camp. Practically all operators now maintain telephone lines where it is possible and thereby save expense. A telephone in a lumber camp saves probably more steps in the course of a day than a similar outfit would in the city in a week.

Getting down to the easy side of life, who would have supposed ten years ago that spring beds would be fashionable for the clerk and foreman of the crew? Such beds are generally found in the woods at the present time, and the clerk or foreman doesn't have to think of getting fresh boughs for his bunk ever so often.

The crew in a present day camp is fed much better than ten or a dozen years ago. Fresh beef, pies and other luxuries were little known in the average camp of years ago, but now the lumberjack who finds them missing from his daily fare is liable to give up his job or else do some knocking on the side to ease his feelings. Baked beans and pork still form the chief fare of the lumberman, but the woodsman who has outgrown his appetite for them has enough variety on the table to satisfy his appetite.—New York Sun.

Chinese Business Honesty.

With due respect for others the Chinaman is perhaps the most honorable and upright business man in the world today. His business principles are founded entirely upon honesty, and he adheres to his policy with the insistence of a leech. The chase after dollars stops if he has to resort to a low trick to get them. Of course, a little thing like telling a falsehood occasionally does not bother him so much; but when it comes to plotting and scheming to defraud some one the task becomes distasteful. The equal of the Japanese in initiative and foresight, he is much their superior when integrity is concerned. A Japanese does not think twice before deciding to get the best of you. He calculates that you are liable to change your mind or get out of reach if he indulges in a little mental debate as to the propriety of cheating you.—The Bookkeeper.

The clearest and most succinct declaration of the dramatic unities was made by Boileau when he laid down the law that a tragedy must show "one action in one day and in one place."

A Pittsburg paper recently printed this head-line: "Blind Children Will See Wild West Show." This may be classed as important if true, comments the Chicago Record-Herald.

If you keep right, other things will keep right.

A Motor Boat Necessity.

By LAWRENCE LA RUE.

A whistle or loud "noise maker" of some kind is one of the most important attachments of a motor boat, for not only does it serve as a signal to warn other boats on which side you intend to pass them, but on cruises it is useful in announcing the approach of your craft to locks, drawbridges, and the like, and will thus save much time in waiting for the tender to arrive at the scene of operations. Owing to the noise made by the motor in practically every power craft, a loud whistle or siren should be used for signaling in order that it may be heard over the much nearer sound of the engine in the other boat.

A contrary wind will also greatly reduce the carrying power of the whistle, and the waves and splash of water against the hull will form a disconcerting sound which must be overcome if the signal is to be heard by the occupants of another boat even a short distance away. In buying a whistle, then, remember that it will sound much louder in a closed room than in the open air when many other nearer sounds are doing their best to drown out its once seemingly husky toot.—Outing.

Anyway, a girl looks better in an automobile than she did on a bicycle.

SCREAMED WITH PAIN.

Rochester, N. Y., Woman's Terrible Suffering From Kidney Trouble.

Mrs. F. M. Carnrike, 130 Allen St., Rochester, N. Y., says: "My kidneys and bladder were in terrible condition. My ankles and wrists swelled and puffy sacks appeared beneath my eyes. The pain when passing the kidney secretions was often so great as to make me scream. I was treated by a physician, but he did not help me. For months I was laid up and did not walk a step. At last I began using Doan's Kidney Pills and all my troubles disappeared. In a few weeks I was so changed my friends could hardly believe it."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Birthdays in China.

In China, all the boys born during the year have their birthday celebrated on the same day, no matter what date their real birthday is. It is a very great occasion for the Chinese, banners are hung out and processions take place. Wouldn't it be rather a good thing if sunbeams in England all had their birthdays in the same way, and had one great big birthday party instead of several small ones?

Tetterine Cures Itching Piles.

Fort Scott, Kansas.

Again I am calling for the best salve I ever used. Enclosed find $2.50. Send me one-half dozen boxes of Tetterine.

N. J. Kipp.

Tetterine Cures Eczema, Tetter, Ring Worm, Boils, Rough Scaly Patches on the Face, Old Itching Sores, Itching Piles, Cankered Scalp, Chilblains, Corns, and every form of Scalp and Skin Disease. Tetterine 50c; Tetterine Soap 25c. Your druggist or by mail from the manufacturer, The Shuptrine Co., Savannah, Ga. With every mail order for Tetterine we give a box of Shuptrine's 10c Liver Pills free.

"The woman is the weaker vessel" men are fond of saying, but when it comes to endurance and patience she has her lord beaten to a frazzle.

Try Murine Eye Remedy

For Red, Weak, Weary, Watery Eyes and Granulated Eyelids. It Soothes Eye Pain. Murine Eye Remedy Liquid, 25c. and 50c. Murine Eye Salve, 25c. and $1.00.

If the government would put a tax on grouches, it wouldn't need to increase the tariff on lemons.

For COLDS and GRIP.

Hicks' CAPUDINE is the best remedy—relieving the aching and feverishness—opens the Cold and restores normal conditions. It's liquid—pleasant to take—acts immediately. 10c., 25c. and 50c., at drug stores.

A Bible Name.

The late Bishop Gallier was once asked to baptise a negro baby boy.

"Name this child," he said, addressing Mrs. Jackson, the mother of the black mite.

"Hallud."

"That's a strange name, Mrs. Jackson," remarked the bishop, hesitatingly.

"Scripter name," rejoined the happy mother, with a confidential grin.

"I never saw it in the Bible."

"Why, Bishop, how kin yuh stan' up dar kiddin' a ole ignorant niggah laik I is? Yuh says dat name whenevah yuh says de Lawd's prayer—'Hallud be Thy name!'"—Success Magazine.

Constipation causes and seriously aggravates many diseases. It is thoroughly cured by Dr. Pierce's Pellets. Tiny sugar-coated granules.

The meekness of a sleeping-car porter is conspicuous because of its absence.

After a man has spent seventy or eighty years here on earth he is usually willing to take chances elsewhere.

Men have a lot about "blushing brides," but did you ever see one?

Stomach Blood and Liver Troubles

Much sickness starts with weak stomach, and consequent poor, impoverished blood. Nervous and pale people lack good, rich, red blood. Their stomachs need invigorating for, after all, a man can be no stronger than his stomach.

A remedy that makes the stomach strong and the liver active, makes rich red blood and overcomes and drives out disease-producing bacteria and cures a whole multitude of diseases.

Get rid of your Stomach Weakness and Liver Laziness by taking a course of Dr. Pierce's Golden Medical Discovery—the great Stomach Restorative, Liver Invigorator and Blood Cleanser.

You can't afford to accept any medicine of *unknown composition* as a substitute for "Golden Medical Discovery," which is a medicine OF KNOWN COMPOSITION, having a complete list of ingredients in plain English on its bottle-wrapper, same being attested as correct under oath.

Dr. Pierce's Pleasant Pellets regulate and invigorate Stomach, Liver and Bowels.

MITCHELL'S EYE SALVE 25¢

"I don't know why the papers should speak so harshly of Gen. Weyler. The dispatches say he was at the head of his troops at the last battle." "Yes? Which way were they going?"

For HEADACHE—Hicks' CAPUDINE

Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c. and 50c. at drug stores.

The man who works hard usually plays hard. But he always remembers that the working hard comes first.

If You Are a Trifle Sensitive

About the size of your shoes, many people wear smaller shoes by using Allen's Foot-Ease, the antiseptic powder, to shake into the shoes. It cures Tired, Swollen, Sweating Feet. Just the thing for Breaking in new shoes. Sold everywhere, 25c. Sample FREE. Address A. S. Olmsted, LeRoy, N. Y.

Limburger and Law.

"Technically," said Judge Wells to William Rung in the Municipal Court, "you had the right on your side. However, you chose a form of cruel and unusual punishment that cannot be tolerated by this court. I'll have to fine you $1."

It appeared from the evidence that Mr. Rung, who is a stereotyper, sat down to luncheon with Edward Snider, a fellow-employe. The piece de resistance of Rung's luncheon consisted of limburger cheese, and Snider, who regards himself as something of a wag, had made certain remarks about the cheese, reflecting particularly on its odor. Thereupon Mr. Rung smeared a piece of the cheese over the humorous Snider's countenance.

"This," said Rung, as he stepped up to pay his fine, "is the kind of justice that smells to heaven."

"That will be about all from you," said the court bailiff. "Cheese it!"—Chicago Record-Herald.

REAL NOVELTY.

Knocker—Say, here's an original baseball story.

Second Senior—How's that?

Knocker—Hero wins game in eighth inning instead of ninth.—Yale Record.

DIAGNOSIS.

"Do you see that man going along with his head in the air, sniffing with his nose?"

"Yes, I know him."

"I suppose he believes in taking in the good, pure ozone."

"No; he's hunting for a motor garage, I believe."—Tit-Bits.

Seats of the Mighty.

Uncle Eben—"If you visit New York and git tired walkin' around the city don't ye go into the Stock Exchange to rest!"

Aunt Martha—"Why not?"

Uncle Eben—"Graciousankes, there they charge $40,000 for a seat."—Judge.

Trial Bottle Free By Mail

FITS

If you suffer from Epilepsy, Fits, Falling Sickness, Spasms, or have children that do so, my New Discovery will relieve them, and all you are asked to do is to send for a Free Trial 60 Bottle of Dr. May's

Epileptiola Cure.

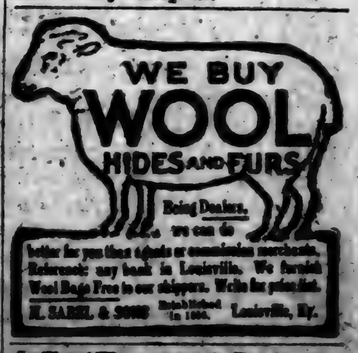
It has cured thousands where everything else failed. Guaranteed by May Medical Laboratory Under Pure Food and Drugs Act, June 30th, 1906 Guaranty No. 16971. Please write for Special Free 60 Bottle and give A GE and complete address

DR. W. H. MAY, 548 Pearl Street, New York.

Am. 27, 1910.

TUMOR OF YEARS GROWTH

Removed by Lydia E. Pinkham's Vegetable Compound



Holly Springs, Miss.—"Words are inadequate for me to express what your wonderful medicines have done for me. The doctors said I had a tumor, and I had an operation, but was soon as bad again as ever. I wrote to you for advice, and began to take Lydia E. Pinkham's Vegetable Compound as you told me to do. I am glad to say that now I look and feel so well that my friends keep asking me what has helped me so much, and I gladly recommend your Vegetable Compound."—MRS. WILLIE EDWARDS, Holly Springs, Miss.

One of the greatest triumphs of Lydia E. Pinkham's Vegetable Compound is the conquering of woman's dread enemy—tumor. If you have mysterious pains, inflammation, ulceration or displacement, don't wait for time to confirm your fears and go through the horrors of a hospital operation, but try Lydia E. Pinkham's Vegetable compound at once.

For thirty years Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, has been the standard remedy for female ills, and such unquestionable testimony as the above proves the value of this famous remedy, and should give everyone confidence.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

If afflicted with sore eyes, use Thompson's Eye Water

WINTERSMITH'S CHILL TONIC

NO CURE NO PAY

Oldest and Best Tonic; for Malaria and Debility.

A splendid general tonic; 40 years' success. Contains no arsenic or other poisons. Unlike quinine, it leaves no bad effects. Take no substitute. FREE—book of testimonial sent to any address. ...

On Astronomy

By BILL NYE.

There is much in the great field of astronomy that is discouraging to the savant who hasn't the time nor means to rummage around through the heavens. At times I am almost hopeless, and feel like saying to the great yarning, hungry world: "Grope on forever. Do not ask me for another scientific fact. Find it out for yourself. Hunt up your own new laid planets, and let me have a rest. Never ask me again to sit up at night and take care of a new-born world, while you lie in bed and reck not."

I get no salary for examining the trackless void night after night when I ought to be in bed. I sacrifice my health in order that the public may know at once of the presence of a red hot comet, fresh from the factory. And yet, what thanks do I get?

Then, again, you take a certain style of star, which you learn from Professor Simon Newcomb is such a distance that it takes 50,000 years for its light to reach Boston. Now we will suppose that after looking over the large stock of new and second-hand stars, and after examining the spring catalogue and price list, I decide that any one of the smaller size will do me, and I buy it. How do I know that it was there when I bought it? Its cold and silent rays may have ceased 49,000 years before I was born and the intelligence be still in the way. There is too much margin between sale and delivery. Every now and then another astronomer comes to me and says: "Professor, I have discovered another new star and intend to file it. Found it last night about a mile and a half south of zenith, running loose. Haven't heard of anybody who has lost a star of the fifth magnitude, about thirteen hands high, with light mane and tail, have you?" Now how do I know that he has discovered a brand new star? How can I discover whether he is playing an old threadbare star on me for a new one?

We are told that there has been no perceptible growth or decay in the star business since man began to roam around through space, in his mind, and make figures on the barn door with red chalk, showing the celestial time table.

No serious accidents have occurred in the starry heavens since I began to observe and study their habits. Not a star has waxed, not a star has waned, to my knowledge. Not a planet has season-cracked or shown any of the injurious effects of our rigorous climate. Not a star has ripened prematurely or fallen off the trees. The varnish on the very oldest stars I find on close and critical examination to be in splendid condition. They will no doubt wear as long as we need them, and wink on long after we have ceased to wink back.

In 1866 there appeared suddenly in the northern crown a star of about the third magnitude and worth at least $250. It was generally conceded by astronomers that this was a brand new star that had never been used, but upon consulting Argelander's star catalogue and price list it was found that it was not a new star at all, but an old faded star of the ninth magnitude, with the front breadths turned wrong side out, and trimmed with moonlight along the seams. After a few days of phenomenal brightness it gently ceased to draw a salary as a star of the third magnitude, and walked home with an Uncle Tom's Cabin Company.

It is such things as this that make the life of an astronomer one of constant and discouraging toil. I have long contemplated, as I say, the advisability of retiring from this field of science and allowing others to light the northern lights, skim the milky way and do other celestial chores. I would do it myself cheerfully if my health would permit, but for years I have realized, and so has my wife, that my duties as an astronomer kept me up too much at night, and my wife is certainly right about it, when she says if I insist on scanning the heavens night after night, coming home late with the cork out of my telescope and my eyes red and swollen with these exhausting night vigils, I will be cut down in my prime. So I am liable to abandon the great labor to which I had intended to devote my life, my dazzling genius and my princely income. I hope that other savants will spare me the pain of another refusal, for my mind is fully made up that unless another astronomer is at once secured, the milky way will henceforth remain unshaken.

Winter Home of Deer.

The winter home of the American red deer is very interesting. When the snow begins to fly the leader of the herd guides them to some sheltered spot where provender is plentiful.

Here as the snow falls they pack it down, tramping out a considerable space, while about them the snow mounts higher and higher until they cannot get out if they would. Within the main opening, or "yard," as it is called, trampled out perhaps half in the nearby trees and shrubbery which supply them with food. In this way they manage to pass the winter in comparative peace and safety.—St. Nicholas.

After a long debate on the question of its validity, the Arkansas House of Representatives has passed a bill to prohibit the wearing of whiskers by public officials.

"THY WILL BE DONE."

Laid on Thine altar, O my Lord Divine,
Accept my gift this day for Jesus' sake;
I have no jewels to adorn Thy shrine,
Nor any world-famed sacrifice to make;
But here I bring within my trembling hand,
This will of mine, a thing that seemeth small.
Yet Thou alone, O Lord, canst understand,
How when I yield Thee this, I yield mine all.

Hidden therein, Thy searching gaze can see
Struggles of passion—visions of delight,
All that I have, or am, or fain would be,
Deep love, fond hopes and longings infinite;
It hath been wet with tears, and dimmed with sighs,
Clinched in my grasp, till beauty it hath none;
Now from Thy footstool, where it vanquished lies,
The prayer ascendeth, "May Thy will be done!"

Take it, O Father, ere my courage fail,
And merge it so into Thy own will, that e'en
If in some desperate hour my cries prevail,
And Thou give back my gift, it may have been
So changed, so purified, so fair, have grown
So one with Thee, so filled with love divine,
I may not know or feel it as my own,
But gaining back my will, may find it Thine.
—Pittsburg Christian Advicate.

Living For One's Self.

For none of us liveth to himself, and no man dieth to himself.—Romans 14, 7.

Nobody is independent. All human lives are inseparably joined. Things we said yesterday will be recalled with pleasure or pain by somebody twenty years from now. What we did last week will make somebody better or worse when our bodies have turned to dust.

Life is rather solemn business. Nobody is so insignificant as to be without influence. Most of us would be filled with horror if we could read the record of our lives and see how a word we spoke carelessly started some one on the way to ruin. And it would fill us with a bliss that is like heaven itself if we could see that there are persons who date all the good there is in their lives to some kindly deed of ours done simply from impulse.

However much we may wish at times that we could do as we please without our deeds affecting the lives of others, yet a moment's thought will make us glad that human lives are thus bound together. There is dignity in life when we feel that a hundred years from now men may be better for our having lived. And on the other hand, there is responsibility in living, since after we are gone men may be worse for our misdeeds. If mountains would be more pleasing if our goodness might bless others without our badness cursing them. But you cannot have one side without the other any more than you can have light without shadow. If it is right that men should be able to help one another, it must be right, because it is part of the same arrangement, that they should be able to hurt one another.

Sometimes we intentionally influence people, as when we argue with a man to bring him to our views, but perhaps the mightiest influence is exerted unconsciously. As the iceberg chills the air for miles around it or as the honeysuckle makes the air about it heavy with fragrance, so men radiate helpful or hurtful influences. Our character, whatever it may be, is contagious.

It was said by a man who was dying, "Oh, that my influence might be gathered up and buried with me." That cannot be, however much we wish it. Our influence goes on blessing or blasting people forever. Of another man it was said, "His presence always made men better." What a fine thing that is—to have such a character that when you meet people you make them wish to be nobler, purer, truer!—Frank M. Goodchild, in the Sunday Herald.

God Chooses Our Opportunities.

God has brought us into this time; He, and not ourselves or some dark demon. If we are not fit to cope with that which He has prepared for us, we should have been utterly unfit for any condition that we imagine for ourselves. In this time we are to live and wrestle, and in no other.

Let us humbly, tremblingly, manfully look at it, and we shall not wish that the sun could go back or ten degrees, or that we could go back with it. If easy times are departed, it is that the difficult times may make us more in earnest; that they may teach us not to depend upon ourselves. If easy belief is impossible, it is that we may learn what belief is, and in whom it is to be placed.—F. D. Maurice.

Trust and Obey.

Do not look forward to the changes of this life in fear; rather look to them with full hope that, as they arise, God, whose you are, will deliver you out of them. He has kept you hitherto—do you but hold fast to His hand, and He will lead you safely through all things. Do not look forward to what may happen to-morrow; the same everlasting Father who cares for you to-day will take care of you to-morrow, and every day.—Francis de Sales.

Garments of God.

Sorrows are often like clouds which, though black when they are passing over us, when they are past become as if they were the garments of "God thrown off to purify and gone along the sky."—Henry Ward Beecher.

. . C. W. REYNOLDS . .

Announces another MAMMOTH cash sale to take place beginning May 5th and tinuing for forty consecutive days and nights.

During this mammoth sale there will be thrown on the market, without reserv largest and best selected line of GENERAL MERCHANDISE ever assembled in CL TON.

On the Nature of Boys

Demoralizing Effects of Withholding the Rod

By J. F. Henriques.

I AGREE that boys nowadays are bad. There are too many hangers on corners, too many gentlemen loafers, sons of parents in well to do or comfortable circumstances, too many boys who are impudent and saucy and ignorant as well, who are developing wrongly for lack of discipline and correction.

I do not object to corporal punishment, and I regret that it has been discontinued in the public schools of our city. Several school teachers have told me that the boys in public schools need punishment when bad, and the knowledge that they need not fear the rattan or the whip encourages them in bad manners and misbehavior.

Boys are but young animals and need training. The fear of punishment is an admirable weapon for the trainer to have at hand. Today there is no fear of punishment in the minds of our youth. I think a great deal of their bad behavior in the cars, on the streets, in the home, in business life and at play can be traced to that mistaken idea of kindness called "moral suasion."

Boys need punishment and discipline. They don't get it, hence a lot of ill bred young ruffians in our street cars and public places; an inefficient lot of youths and young men in our shops, offices and factories; a lot of corner loafers ranging in age from 18 to 30 years who are supported by parents or guardians in idleness and who spend their time in wickedness.

Just visit a court room or two, as I do frequently, and see the crop of youthful depravity brought to the bar—sons of well to do parents arrested for thievery, burglary, etc.—and then hear how they started in crime and villainy from their own lips, and you will join me in my cry for more discipline, more strict laws for youth, more enforcement of the laws and municipal ordinances by our minor justices and the police generally, as a deterrent for other youths, to scare them into some sort of decent life and behavior.

I do not forget that I was a boy. I am tolerant with youth at all times. Recently the boys of my neighborhood did $25 worth of damage to my property. Who actually did it I will probably never know, but I corralled one lad and told him that the deed was deserving of punishment, and it was only my love for boys that prevented me from further action in the matter. But I warned him that a second offence would not be condoned, and requested him to tell his fellows.

Since then I have had no more damage and loss through boys. The fear of punishment to follow is restraining them.—From the New York Sun.

The Proper Gentleman.

A certain woman, while talking [illegible] the streets [illegible] Thursday afternoon, [illegible] "Oh, it was certainly fine!" was the reply. "And the way I came to [illegible] was this: I was called on by [illegible] when a friend of hers, a [illegible], came in. He said he had [illegible] outside and asked her [illegible]

ming on Thursday morning, 4th, the Summer race is on to till Monday night, the of September. It begins with ding of the Press on Thurs-orning at NINE o'clock, July TEENTH, and will close at o'clock Monday night, Septem-WELFTH. Tickets will be on Wednesday night, be-Fourteenth and kept separ-those deposited after Wed-night—though all will be fig-the general result for the At ten o'clock Monday eptember twelfth all tickets n be gathered and the result Summer race announced in mns of the Press on the fol-Thursday morning.

We Are Offering

Summer race a TWENTY GOLD PIECE to the per-whom the most votes are t in between the dates tioned—and to the person the next highest number is cast we offer seven and dollars in gold and to the est five dollars in gold. ever how that you may not-tered the PIANO contest may not with to compete for but you can get into the for these two prizes.

short run and will be an interesting and exciting one. Hunt up your running boots, train down to running capacity and get into the "go." For a few days' work you may become the owner of that DOUBLE EAGLE; you may, at least walk off with one of the GOLD COINS.

The money is on deposit with the Clanton Bank and they will deliver both coins to the winners on order from the Press. Tickets will be counted every TUESDAY afternoon at about TWO o'clock and anyone interested is invited to the Press offices to see them counted and tabulated.

Remember now that you have a short run, therefore do not delay to get into the race. Remember that the prize is worth striving for, therefore do not stand back till your chances become weak.

Ask for PIANO contest tickets—go to the merchants who handle them and demand that they give you a ticket entitling you to one vote for each one cent spent with them; come to the Press offices and subscribe for the best paper in Chilton County and get one thousand votes for each cash yearly subscription. You may get a good paper and NINETEEN Dollars for the one subscription.

If you are not in position to subscribe for a full year then take the paper for SIX MONTHS and get FIVE HUNDRED votes.

Bring your printing to the Press job offices and get the neatest stationery ever made in Chilton County and FIVE votes for each one cent of work done.

We want to keep Mr. Davis busy, morning, noon and night turning out that handsomely printed stationery for which he has gained an enviable reputation since he has been connected with the Press; we want to put in an electric motor to help him turn the big wheel; we want to employ another printer to learn the art under Mr. Davis, to do these things we MUST have the printing. To win the DOUBLE EAGLE you must have the votes. Here is where our interests combine; you give us the printing and we will give you the votes. We make anything in the printing line from a forty page book to a baby visiting card.

This supplies the golden opportunity for some merchant to secure a nice lot of stationery free of all cost and at the same time help some friend to secure a TWENTY DOLLAR GOLD piece.

Now let's all understand the contest thoroughly and then get busy. Remember that your votes will be counted and announced just as heretofore. New contestants will have their names added to the list and the number of votes received by them will be announced in the same way as are the votes in the piano contest.

Get a Press of July Fourteenth and keep it on file, note how the contestants stand in that issue and then deduct the number of votes that appear in the issue of July fourteenth from that in the subsequent issues and you will have the total number of votes cast in the SUMMER RACE.

It's time to GET BUSY for there's MONEY in it.

SPELLING MATCH "FIXINGS."

We were in Upchurch's Drug Store the other day when some young man brought a book of games over our way and requested that we pronounce a certain word for them. There never was a time when we were noted for glibness of tongue, nevertheless we had no trouble in pronouncing transubstantionableness for the young gentlemen; this, of course, brought about an argument as to long words that could be regarded as authentic. Thereupon we referred to a short article on words of some length that had been clipped from a newspaper and filed away. For the information of these young men and for the interest of others who are inclined to pour over new words, monosylables and polysylables, we reproduce the clipping. Transubstantionableness is not an unreasonably long word, nor difficult to pronounce. Look over the following list mentioned in the clipping and when the next spelling bee comes along spring one or more of them on the master of ceremonies—provided you can spell and pronounce them yourself.

AN ENJOYABLE EVENING.

Quite a pleasant evening was spent at the hospitable home of Senator and Mrs. Thos. A. Curry on last Monday night by about thirty couples of young people who were invited to meet their guests, Miss Annie and Mr. John Watson, of New Decatur. During the evening music and greatly enjoyed and refreshments, delicious to the taste and appetizing to the eye were served. The evening was spent in pleasant conversation and

GENERAL NEWS.

Notice.

The third annual session of Mount Nebro singing school will begin on Monday, the 18th of July and continue for twenty days, closing with a concert on the evening of August 12th. If you are interested in music do not let this opportunity pass.

W. G. CULP, Leader.
J. D. SIMS, Secretary.

To Build at Coopers.

News comes to the Press that Messrs. Eiland and Harris are preparing to erect a handsome brick store house at Cooper for their use.

These are signs of prosperity which we are glad to note and argue well for this section of the State. When men are willing to abandon their old places of business and erect handsome and commodious quarters it goes to show that the country contributory to that store is prosperous.

Building Brick.

The Forest Lumber Company has a nice lot of good hard brick on hand which they offer for sale at eight dollars per thousand. tf

Another Sewer.

Last week the city received quite a large consignment of thirty inch sewer pipe to be placed on Ninth street between Second and Third avenues.

That street is to be leveled up after the piping has been placed and made an attractive thoroughfare. This will prove a great blessing to those living in the neighborhood and goes to show how Clanton is improving each day. The Mayor and council are to be congratulated upon this additional step forward. This is but a short move, we hope, in the direction of a splendid system of sewerage for the town and is the fore-runner of a system of water works that will and must be installed. Hurrah for Clanton, anyway; each day shows some improvement, the establishment of some public utility. Clanton is beginning to take advantage of her opportunities and will soon make her sister cities to the north and south of her look to their laurels or get left in the line of civic improvements.

Ingratitude.

After all it is hard to judge human nature and read it aright. News has just come to the Press of an instance of ingratitude that is hard to be believed and yet it is vouched for by one whose integrity is beyond question. It seems that some months ago a great misfortune befell a certain Chilton county family. The husband and father died leaving a wife and nine children practically destitute. One of our big-hearted citizens knowing of the conditions went to the aid of this family and rendered them every assistance that generous impulses could suggest. Provisions were sent to the home, a farm was turned over to them free of all cost and other valuable assistance given; the home was practically furnished for them and the barn yard and stable supplied with those things necessary to keep the farm going; a mortgage was paid off and the family made to feel PRESS—FIVE Bl free and independent. Now comes the peculiar part. After all this had been done for them they pack almost everything possible, sell what they can, cease to work the crop and leave the country without so much as a word of thanks or farewell to their benefactors. Not only was this done but they left nothing by which the kind hearted people who helped could protect themselves.

If this isn't a first-class case of ingratitude we would like to have one pointed out to us.

Good Things to Eat.

The Baptist Ladies' Aid will serve their next Saturday's market on the lawn at Mrs. W. I. Mullins, commencing at 4 in the afternoon. Ice cream and cake a specialty. Everybody is invited.

A Sad Death.

Friends of Mr. William Boyd will regret to hear of the death of one of his twin babies, which occurred at Wilton last Thursday.

Mr. Boyd had the misfortune to lose his wife some weeks ago, and now the little one has been taken from him. The children were living with their aunt at Wilton, who has been caring for them since the death of their mother. The little one was buried here last Friday by the side of its mother in Clanton cemetery, Rev. F. M. Woods officiating.

Fair Proposition.

Beginning next Monday I will clean and press one necktie or one pair of gloves for each man and woman in Chilton county who will bring them to my place of business. This offer holds good for two weeks only.

On the Run.

A personal letter from Hon. Fred Blackmon, Democratic nominee for Congress from this district, states that all over the district the Republicans are on the run and that there will be a veritable Democratic landslide. He sends words of encouragement and hope to Chilton Democrats and bids them keep the battle up, for victory is with the Democracy this year not only in State and district affairs, but in county matters.

Yellow Pine Shingles.

The Forest Lumber Company has just received a shipment of 200,000 HEART pine shingles, which will be sold at THREE dollars per thousand while they last. If you are looking for a shingle bargain here it is; take advantage of it. tf

A Handsome Magazine.

The Press has received the first number of the Saturday Review, a weekly magazine published in Birmingham by the Lawrence Company. It is handsomely illustrated and has a beautiful cover design. But this is not all; it is well edited and contains some high grade reading matter. One of the serial stories is interesting in the extreme and must have cost the publishers a neat little sum to secure it. The Saturday Review would be an attractive addition to any library, and is well worth the subscription price—$3 per annum.

Made Bond.

Two of the Messrs. Knight, who were charged with an attack upon Mr. Gray on the Fourth, have been brought in by Sheriff Catts; the other, Mr. Walter Knight, has not yet been apprehended. The father, Mr. David Knight, and the other son, Mr. Albert Knight, were granted bail in the sum of $1,000 each, which was promptly made, and they were set at liberty. Reports from Mr. Gray's bedside state that he is resting nicely.

Building Materials.

The Forest Lumber Company have all kinds of building materials—window and door frame material, dressed boards, flooring, ceiling, weatherboarding, moulding, etc., and are prepared to execute orders promptly at reasonable prices. tf

Red Men Have Meeting.

At a meeting of Waxahatchie Tribe No. 9, I. O. R. M., held in their wigwam on Tuesday sleep last, Deputy Great Sachem, J. E. Robinson, Jr., raised up the following chiefs to serve for the ensuing six moons: Prophet, J. B. Parrish; Sachem, E. W. Dansforth; Senior Sagamore, M. A. Gore; Junior Sagamore, W. L. Sanford; First Sannap, A. N. Minor; Second Sannap, A. L. Williams; First Warrior, W. L. Bates; Second Warrior, H. C. Martin; Third Warrior, Calvin Wilson; Fourth Warrior, T. M. Parrish; First Brave, J. W. Franklin; Second Brave, T. M. Bates; Third Brave, W. E. Parrish; Fourth Brave, B. McKee; Guard of the Forest, Wm. Gore; Guard of Wigwam, J. M. Robinson; Trustee for Eighteen moons, W. H. Parrish.

In common parlance this means that the above named gentlemen were installed as officers of the lodge.

The selections are excellent ones, and no doubt the Red Men will continue to prosper under the able guidance of the new officers as it has done for the past moons under the old ones.

NOTICE.

Pursuant to time set by State officers, The Chilton County Farmers' Union will meet with Lomax local No. 316, one mile east of Lamox and three miles north of Clanton, on Friday and Saturday, July 22nd and 23rd. Delegates and others coming by rail will be met at Lomax by conveyances if they will notify Bro. James A. Caton, Lomax, Ala.

Speakers will be present not only from our state but other states, to address you.

Everybody is invited. The forenoon of the first day will be public.

Fraternally,
J. M. SMITH,
Secretary.
2t

PERSONAL.

Mr. Charles Cox spent a day or two of last week in Birmingham on business.

Miss Sallie Duggan, a most charming young lady of Nashville, is visiting her cousin, Miss Mary Will Stewart.

Don't forget that the Clanton Ice-cream Parlor serves the best quality of cream that comes to town. Try it and be convinced. Tutt Shaw, well known to the Clanton Public, is now

EXTRACT MINIE BALL. W. L. REYNOLDS HAS DELICATE OPERATION PERFORMED.

Bullet Entered Bones of Face During Early Part of War, and Was Taken Out By a Surgeon Wednesday.

Under the above caption we clip from the Advertiser of last Thursday an account of a very delicate operation which was undergone by one of Chilton county's citizens. Every one in the county perhaps knows this venerable gentleman. He is the father of Judge L. H. Reynolds and of Mr. C. W. Reynolds, of Clanton, and of several other children located in different parts of the county.

The wonder is that the patient stood the suffering so long and so patiently. It has been nearly half a century since that bullet was imbedded in the facial bones of this old veteran.

Reports from his home within the past day or two state that he is doing nicely and suffering but little inconvenience from the operation.

An extremely delicate operation was performed Wednesday afternoon at a local infirmary when a minie ball, weighing two and one-half ounces, was taken from the facial bones of W. Joe Reynolds, of Jemison. The operation lasted half an hour, requiring all the strength of the operating surgeon to extract the ball from the bones covering the front brain.

Mr. Reynolds enlisted in the Confederate Army from Tuskegee in 1862, joining the 45th Alabama Regiment, Company K. He was wounded at the battle of Perryville, Ky., on October 8, 1862. In the fight, Mr. Reynolds received the minie ball in the right eye, and thought that he had been hit by part of a shell. The wound seemed to heal, and until recently gave him no trouble.

Lately Mr. Reynolds has been greatly worried by pain in the right side of his face, and he came to Montgomery to have the old wound examined. The surgeon stated that the piece of shell or ball was still in the bone, and would have to be removed. Mr. Reynolds went to a local infirmary and the operation was performed late Wednesday afternoon.

It is said that the surgeon was forced to exert his full strength in extracting the ball from the bone in which it was buried. The end of the bullet where the forceps grasped it, was torn and jagged where the instrument had slipped several times.

Much surprise was expressed at the size and weight of the bullet, and that Mr. Reynolds should have been able to survive the shock when it struck him. Mr. Reynolds is 66 years old.

THE LONGEST WORD.

A Short Cut to Some English Claimants to the Honor.

This moot point has never been satisfactorily settled. About 1870 "The Liverpool Daily Courier" came out with a new word of Gargantuan dimensions, "velocipedestrianisticalistinarianologist."

An Edinburgh journal followed with "Ultradisestablishmentariasts," an extension of Archbishop Benson's previous "Antidisestablishmentarian," given in his Diary.

A junction might be effected if one is anxious to see a friend carried out in a state of collapse (to the refreshment room) that a good long word is "Ultramidisestablishmentarianists" (only thirty-three letters).

Then there is another short jawbreaker, "antitranssubstantiationistically," which appeared in a Highland paper. It is Highland enough, in all conscience.

Sir Walter Scott has in his journal a word "floccipaucinihilipilification," "which, like a wounded snake, drags its slow length along."

Then Rabelais takes some doing with his "antipericamenanarbeugedamphieribrationis."

Wyntoun, in his Chronicle supplies us with "honorificabilitudinitatibus," which Shakespeare uses in "Love's Labor Lost" (twenty-seven letters). Dante also has it in the ablative singular form in his "De Vulgari Eloquentia."

Byfield, in a treatise on the Colossians, (1615), wrote, "incircumscriptiblewess."

But the Englishman's real jawbreaker is a Welsh word over which Mr. Justice Lawrence once, at the Anglesey Assizes, asked an explanation from Mr. Byrn Roberts, M. P., "What is the meaning of the letters 'P. C.' after the name Llanfair?" The answer was, "It is an abbreviation for the Village of 'Llanfairpwllgwyngyllgogerychwyrndrobwllllantysiliogogogoch.'" FOR SALE—Limited number of blooded shoats at reasonable price. Apply to
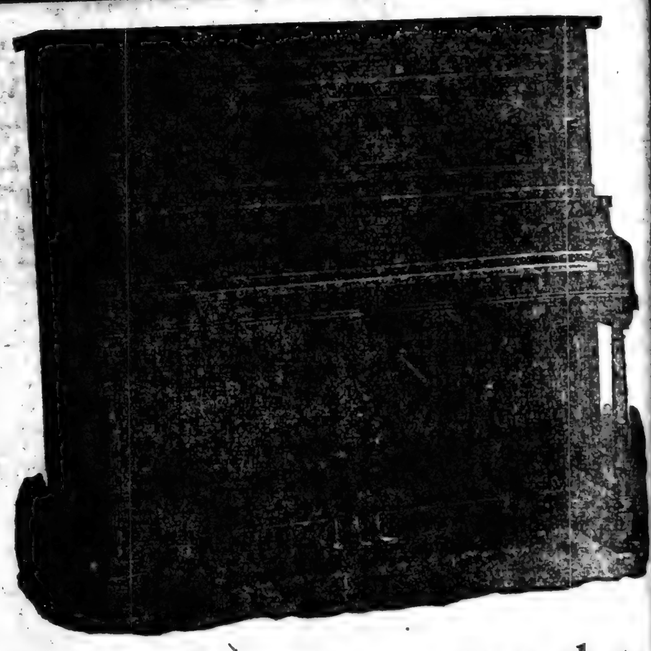
2t WM. M. ADAMS.

Mr. Brooks Young, of Beat One, has placed himself at the tender mercies of the dentists for the past two or three days. He was here during the early part of the week under treatment by Drs. Gowan and Gowan. Mr. Young reports things as looking bright up in his section for the democratic ticket.

Scott, the well known photographer, is kept so busy these days making pictures that he scarcely has time to go to his meals. If you have not been to his place do not delay longer. His work is of the highest character of the photographer's art. tf

Mr. George Wilkins has sold his place here to Mr. Bowen Jones and will remove his family to Maplesville, where they will in future reside.



SPECIAL.

We are requested by Mr. W. H. Conway, President, to announce that there will be a meeting of the Chilton County Fair Association at the Court House on Friday, the 22nd day of July, to arrange for the County Fair. All those interested in the success of this venture are urged to come out to the meeting.

Mr. Rose Mahan, one of the truest democrats in the County, was in the Press offices last week and during a conversation with us spoke of the great interest that was being manifested in the election out in his part of the county. We thoroughly enjoyed the talk with this genial gentleman and hope that he will make things hum out in his section. We know he is thoroughly capable.

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes [illegible] December 5th, 1910.

EARTH SWALLOWS OILER AS HE TALKS TO FRIEND.

Louisville, Ky.—While talking to William Oakes, a fellow employe, Frank Reynolds, an oiler in the Big Four yards, suddenly disappeared in a cave-in of the earth, and despite efforts of railroad employes, two companies of the fire department and the life saving crew, is supposed to have been carried into the Ohio and drowned. Reynolds and Oakes, the former with his oil can in hand, were standing in the yards at Preston and Main streets when the cave-in occurred. Reynolds was precipitated into one of the large sewers that empties into the Ohio, scarcely two blocks away. Oakes, who narrowly escaped, ran quickly and gave alarm, returning in a short time with a long piece of hose. This he threw into the sewer, and although he could not see Reynolds, a vigorous tugging on the hose notified the rescuers that the man was still alive. The men above ground were preparing for a hearty pull, when there was a further cave-in, followed by a muffled cry from Reynolds. A detachment of the fire department arrived on the scene, but the continued falling away of the ground made any attempt at rescue hazardous. The life saving crew made a rush up stream from Fourth street and after watching the sewer pour out its muddy volume for a few minutes detected a stream of oil, showing that the man's oil can was emptying. Despite the crumbling of the earth, which increased the opening to 20 feet in width, the fire department and a large party continued their efforts and were rewarded by finding the dead body of the oiler. It was taken out through the cave-in. Many trains of the Big Four and the Chesapeake and Ohio pass over the sewer daily and a freight train had just passed when Reynolds sank to death.

SANDERS ELECTED TO U. S. SENATE.

Baton Rouge, La.—Jared Young Sanders, governor of Louisiana, was elected to the United States senate by the state legislature to succeed Samuel Douglas McEnery, who died suddenly last week. Senator Sanders is the son of a Confederate veteran who was a Louisiana planter. The elder man died when the new senator was but 12 years old, in the year that a great flood swept away the family fortune. Young Sanders became a clerk in a country store and then turned printer's devil in the office of a weekly newspaper at Franklin, La., where he learned to set type. At 21 he became an editor and took up the study of law. Three years later, in 1893, he entered Tulane University law school. Upon graduating he began to practice at Franklin. He was in the beginning associated with ex-Governor Foster, of Louisiana, and others. He was elected to the legislature in 1892, remaining there twelve years, four of which were spent as speaker of the house. He was elected lieutenant-governor in 1904 and governor in 1908. In November, 1907, Donelson Caffery, son of the late United States Senator Caffery, placarded New Orleans with posters denouncing Sanders and later demanded that Sanders fight a duel with him. Sanders refused. This incident was a part of the campaign that made Sanders governor.

TWO NEGROES SAVE DROWNING WHITE MAN.

Washington, D. C.—For saving a white shipmate from drowning, two young negro mess attendants on the receiving ship Franklin, at the Norfolk navy yard, have received the commendation of Rear Admiral Nicholson, acting secretary of the navy. The rescuers were Alexander Bias, of Annapolis, and T. L. Walker, of Philadelphia. The man they rescued was J. C. Lowery, who, while swimming near the ship became exhausted and called for help. The two negroes plunged in with their clothing on and towed the drowning man to a boat. It was with difficulty that Lowery was resuscitated.

OPEN LAKE OFFERS TOWN ONLY MEANS OF ESCAPE.

Ashland, Wis.—The village of Cornucopia, about half way between Ashland and Duluth, on Lake Superior, is in danger of destruction by forest fires. There is no way of escaping from the village excepting into the open lake. The steamer Barker took off all the women and children that it could carry and left them at Bayfield. Fires now completely encircle the village, excepting on the lake side. A call for help was sent for from an Indian settlement west of Red Cliff. The logging camps of the Bayfield Hill Company have burned and a number of farmers lost everything. Houses were also burned on Modeline Island. Fires are burning in all directions. The fog horns on Lake Superior blow constantly on account of the heavy smoke.

Sleeping Boy Attacked by Snake.

Borden, Ind.—Asleep in bed in a house on J. W. Lovell's farm near here, 7-year-old Harrison Money, was attacked by a huge copperhead snake. The reptile thrust its fangs several times into the feet of the child, inflicting wounds which it is feared will result in the boy's death. The screams of the child brought ... to the bedside of the little ... his parents, Mr. and Mrs. Mon... first as they ... from the room, then ... the other ... spreading ...

Many Farmers

would like to keep an account of their receipts and expenditures if some one would keep it for them.

WHY

Open a Bank Account with the People's Savings Bank and you will find the account keeps itself, with no expense.

NOT

Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts. Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It's a handy convenience to the farmer as well as the business man.

YOU!

THE PEOPLE'S SAVINGS BANK

The Tiresomeness of Virtue

By Zephine Humphrey.

THE world—the intelligent world, at least—instinctively avoids that which bores it; and surely a man could not ask better fortune than that his friends should ignore his faults. It is when they have to ignore his virtues that he is in a desperate case. Poor Uncle Major cannot be held fairly to blame for the opposite condition which exists with it. It has to be obvious. Nature has carved it conspicuously and set it prominently to work; it would defeat its own destiny if it tried to be quiet about it. That North Star is an important thing. People are careless, and they get lost; and then they are very stupid and cannot find their way again. It is absolutely essential that somebody or something stand forth very boldly, not to say baldly, and point an infallible finger in one direction. But people are not always lost; and when they are sitting safely in their front yards or lying in their orchards, they are sometimes apt to grow weary of perpetual North Star.

Feminine Notes.

Mr. and Mrs. Roosevelt took luncheon with King George and Queen Mary at Marlborough House.

The skirt which fetters women at the ankles is condemned by leading artists in Paris as ungainly and deforming.

A canvass of New York clubwomen revealed a strong opposition to the Cincinnati plan to abolish kissing as unsanitary.

GOOD ROADS

From the Pulpit.

The unique manner in which a portion of a Missouri county obtained good roads will be of especial interest in Georgia, with sentiment for that issue at floodtide.

It is not often that the aid of the pulpit is invoked in the cause of highway improvement, but that agency has set Jefferson Township, in Nodaway County, to unusual activity, according to the Kansas City Star.

For several years Rev. Father F. P. Placid, pastor of the Catholic church at the Benedictine monastery, near Conception, Mo., preached to his people that the building of good roads constituted not only a civic, but a Christian duty.

He pointed out in a series of sermons that bad or impassable thoroughfares caused farmers to stay at home on Sundays, which militated strongly against the uniform observance of their religious duties.

He did not, however, confine his efforts to oral argument. And this is how our contemporary describes the manner in which the monastery with which he was affiliated set the nearby farmers a practical object lesson:

"The monastery owns a section of fine land and several fine draft horses. The fathers didn't purpose to have their horses struggle along bad roads every time they desired to drive to town or to market in the rainy season, or just after a rain in any season. The fathers began by grading the road from the monastery, Old Conception, to Conception, a distance of three miles. Then they chained two pieces of railroad iron together, and after a rain they dragged the road several times. That was several years ago. They have kept it up consistently ever since. The result is a road as smooth as a boulevard. There have been heavy rains in that section for a week; the creeks and branches are out of their banks and it is not possible for a horse to wade through the mud in some sections of that county or township. It is different with the three miles of road leading from the monastery to Conception. The week's rain, the heaviest of the year, has had little effect on the road, and it is possible for a team of horses pulling a loaded wagon to trot along this superior thoroughfare."

Such initiative on part of the monastery had its logical effect upon the landowners of the surrounding territory.

The roads are now dragged on an average of ten times a year, at a trifling expense after the first operation. The deadly rut has disappeared and from year's end to year's end the highways are passable to heavy loads hauled by one or two mules. The farmers view the movement as one of the best investments in their experience and the fever has spread to other sections of the county.

Substantially, the interest of the clergy of Georgia in good roads is equal to that of the clergy of Missouri. Already many preachers of various denominations in this State have spoken a good word for the crusade that has so wonderfully inspired the industry of all classes of Georgians. Persistent agitation in this direction would not only exert a salutary influence on religious phases of community life; it would, as well, be reflected in commercial and industrial aspects.

And the preachers are citizens as well as—preachers.—Atlanta Constitution.

Cost of Neglect.

It costs for transporting wheat by steamer from New York to Liverpool, 3100 miles, one-sixth less per bushel than it costs the farmer to haul his wheat 9.4 miles. These facts and figures show the vast importance of road improvement and justify the Government of the United States in experimenting with a view to improving the roads of the country and stimulating the interest of farmers in the work.—Rochester Democrat and Chronicle.

State Control Favored.

State control of highway building, the making of surveys, establishing grades and maintaining a uniform system of roads; the power to enforce the building of highways in certain localities, and the authority to actually build them where the whole State would be equally benefited, are among the twentieth century requirements of State governments in the movement for good roads.—Kansas City Star.

Automobiles Gave Stimulus.

The automobile is an established fact, and it must be treated as a fact and provision made for it. It has given the present great impulse to road improvement in the United States, and this is a debt that the farmer, the chief enemy of the automobile, owes to it.—Baltimore Sun.

KILLED BY PITCHED BALL.

William Johnson Struck on the Ear at Olive, Okla.

Olive, Okla.—Struck in the base of the right ear by a pitched ball, William Johnson was killed in a ball game here.

The game was close and exciting, and when Johnson came to bat he was cheered loudly. Johnson attempted to duck the second ball pitched. He collapsed after being hit and never uttered a sound.

An Extraordinary Advertisement.

"While working through Pennsylvania last week I saw an advertisement in a country paper that ought to bring relief to a few distressed souls," said the traveling salesman. "It headed the personal column and said:

"'Be it hereby known to all my correspondents that I have this day destroyed all letters they would wish to be destroyed. JOHN WARE.'

"That notice was so extraordinary that I stopped over for a late train and called on John Ware. He was a genial old man and willing to talk. He said that he was a person to whom people voluntarily imparted secrets; that many persons in bursts of confidence had written letters they no doubt afterward regretted having written. Sometimes they said 'Destroy this;' sometimes they didn't. Anyhow, John Ware had kept most of those incriminating letters. But now he was getting old he had seen what harm might result from those letters falling into strange hands, and he had burned them, and had taken that novel way of notifying his correspondents that they were safe.

"That talk with John Ware set me thinking. The first thing I did when I got back to New York was to burn a batch of letters."—From the New York Sun.

A Joker Joked.

Frank J. Arkins, of the Billings (Mont.) Gazette, relates the following amusing story concerning his uncle, Colonel John Arkins, the late proprietor of the Denver News. It seems that the Colonel, as a rule, could take a joke, but no one could remind him of the experience related below without disturbing his equilibrium: The Colonel lived on Broadway. Always he was in the habit of arising early and looking over the paper. One particular morning he arose rather later than usual. The domestic was just stirring about the house. The Colonel was clad in a plaid nightshirt of fearful and wonderful design, beside which the fire department was as a forgotten incident. Thus attired he paraded down the front stairway, opened the door and peeked out.

The Republican was close at hand—the News was rather farther out on the porch, and, sticking his head out of the door, he glanced up and down the street. No one in sight, he reached for the paper, but could not quite reach it.

Another glance. Away out Broadway one of the old-time cable cars was sailing cityward, but, as it was on the south side of the bridge, he concluded that he had plenty of time. Another lunge—that paper, somehow or other, was farther away than he had calculated, and between fishing for it, trying to keep the door from closing, and watching the neighboring windows, he forgot about the car, which was headed in his direction.

Finally, with one bare foot on the porch, and the toe of the other in the door, he made a dive, captured the paper, but his foot slipped from the door, which closed with a soft click, just as the cable car halted opposite his house and discharged a cargo of women. For a moment he beat on the door and danced a hornpipe, and when the domestic opened the door she was nearly frightened to death at the sight of a curly-headed comet streaking it up the stairs at a rate that would make a Marathon runner look like a snail competing with an automobile.—Inland Printer.

EDITORIAL.

Did they give Ad Wimbs anything?

Wonder what Threet got in the convention?

Where's Barker's man, Peterson, come in on the deal anyway?

Mixon being a Presiding Elder didn't want any more but they ought to give these negroes something—what did they get?

Alexander, Mason, Wimbs, Threet, Mixon—remember these names. Don't forget genial James Peterson, either.

Clanton would be an ideal location for a good tinner and a first-class bakery. Either or both would prosper here.

Mixon said in the state convention that he appeared as a delegate merely to give color to the occasion. And he did, too, for coal tar looks white on his ebony brow.

The republican convention in Birmingham had a smaller number of negroes in it this year than usual but those who were there were powers among the delegates.

What we want to know is: Where would the water go if some plug ugly were to come along and jab a big hole through the bottom of the ocean? Will Grandma please inform ignorant humanity?

The excessive rains have had a tendency to dishearten the farmers but there is plenty of life in the old land yet, and corn too, if they will but work the grass out and give the grain a chance.

If Nathan Alexander and his two negro partners who are delegates from Montgomery, stick together, they can kill the vote of the three white men who are delegates. Who said negro?

President Taft has closed the White House for a vacation, but with the frequent delegations that are pouring in to see him at Beverly, his Summer home, we suspect that he gets little rest.

Nathan Alexander, one of the negro delegates from Montgomery county, passed through Clanton Monday afternoon on his way to the convention. Ad Wimbs, the negro delegate from Hale County, did not come by Clanton but he got to the convention alright.

Will the republican papers of this county deny that there were negro delegates in the state convention? Will it make them Alexander and Mason and Wimbs and Threet mad to know?

On last Tuesday the contest committee of the republican state convention decided to unseat Mr. Woodruff, the white man and his delegation from Marengo county and seat Threet, the negro, and his delegation. Woodruff went before the committee, so it seems, and then withdrew in favor of the negro.

That delegate from Dallas to the State convention of the republican party, W. H. Mixon, is a respectable negro; he holds the admiration of most of his white friends and is a negro of many excellent parts; he is a Methodist preacher, and we believe occupies the Presiding Eldership this year.

U. G. Mason is one of a committee of seven appointed from the ninth district to select a man to oppose Oscar Underwood for Congress in the district. U. G. Mason is a negro. The other six of the committee are white men. The Ninth district was not so liberal with the negroes as was the Montgomery district—in that district it stood three white men and three negroes.

Now that the republicans have nominated J. O. Thompson to run for Governor what we want to know is: How is he to run with a broken leg? It has been suggested that he might try it in an automobile again but that wouldn't do for he's a worse job on hand this time than catching of a fast train. He's got the democratic party to catch, and to do that he'll have to "run some."

At the Calera convention week before last Charley Walker, the coal black negro from Dallas, said: "Does yer know dat President Taff went and pinted a democrat postmaster at Selma, my home town, and he never sed a word to me bout hit and I"se a member of dis here committee." That wasn't treating Charley right; he ought to have been consulted for he's one of the wheel horse republicans down there.

Lest some one accuse us of misrepresenting the facts we call upon any delegate from Chilton County to the republican state convention to tell us how many delegates were there from Montgomery? That county is entitled to two votes in the convention and they sent up six delegates with one third of a vote each. Three of these six were negroes and three were white men. Nathan Alexander was one of the negroes. Who will deny that fact?

Jim Peterson, of Mobile! Wonder if Chilton republicans are acquainted with genial Jim? He's a member of the republican state executive committee. Jim is a negro. Jim was at the state convention in Birmingham this week. Will anyone get angry with us for telling the truth? If you don't believe the Press about it ask your own delegates about Jim Peterson, the negro from Mobile, Nathan Alexander, the negro from Montgomery, Charley Walker, the negro from Selma.

T. H. Threet, the negro delegate to the republican convention which met in Birmingham to select us a governor and other officers; the negro who unseated the white man, Woodruff, as a delegate in the convention, seems to be some "punkins" among the republicans. He took the Marengo county convention away from Woodruff, the white man, and then he went to Birmingham and the state convention gave him a seat but refused Woodruff a seat, at least Woodruff saw he was going to have to give it up to the negro so he withdrew before they made him do it.

That negro, Charley Walker, of Mississippi, who wants to whip Jack Johnson, the pugilist, because he gave Jeffries a trouncing, is a negro after our heart. He wants to go at it rough and tumble, scratch, bite, pinch, pull wool, claw and do all manner of things to get results. He is a republican office holder in Mississippi; he is not the coal black Charley Walker from Dallas County, who is a member of the Fourth district republican executive committee and who goes as a delegate to all the conventions. Both of them are black—extremely black—but one lives in Mississippi and the other in Dallas County, Alabama, the same district in which Chilton County is.

The Press received a letter from one of its friends and subscribers the other day requesting that his paper be stopped. He gave no reason further than that the paper was full of distasteful news.

Now we suspect that this good man did not relish having the actual news dished up to him. It does not set well on his appetite to be told that negroes sit in republican conventions and that they are entitled to all the privileges and courtesies that the white delegates enjoy. We regret that this is true. We don't like to see our white friends sitting in conventions with negroes any more than others do, but we are here to tell the news and if they persist in doing as they can not blame a newspaper from recording the facts.

Once upon a time, not long ago, a negro name Jim Peterson had a position [illegible] to give up his place on the state committee. About that time the Chairman of the National republican committee took Jim under his arm and gave him a job in New York, during the Presidential campaign. It was a good job too. Then after the campaign he returned to the south and secured a position in a certain postoffice. He is yet a member of the republican executive committee. That is history. Wonder how many Chilton county republicans were so well cared for by the party?

Jim Peterson is a negro. Jim Peterson was at the State convention this week in Birmingham; so was Nathan Alexander, so was Lavender from Dallas.

PERSONAL.

Mr. and Mrs. Wm. Marsh and children, of Birmingham, are in Clanton visiting friends and relatives.

Mr. Grady Reynolds left Tuesday afternoon for a short trip to Montgomery.

Mr. F. O. Dudley went down to Richburg Tuesday on a visit to his parents.

Beginning on the 15th of the present month we will discontinue giving piano contest tickets for payments on account. Our patrons will please make a note of this, as it will save us embarrassment and yourselves. For CASH purchases we will continue to give tickets as heretofore.

U. Crumpton and

attended the Sunday school convention at Verbena and report a good time and an excellent meeting. Mr. Crumpton says girls, buggies, big hats and rain do not go well together; it gives him a cold and sore throat.

Mr. Oce Culver and family have returned home after a lengthy visit to relatives at Mountain Creek.

Miss Mollie Cobb has gone home to her friends, near Jemison, after a three months' stay here, where she was employed by J. W. Mitchell as milliner. She will return again in the fall for the same purpose.

Miss Meda Cobb, who has been under treatment at St. Vincent's Hospital in Birmingham, is on a visit to her sister, Mrs. Mitchell. Her health is greatly improved.

Mr. and Mrs. Crum were missed at the Sunday school last Sunday, as both are teachers. They were visiting friends at Montgomery.

Rev. J. W. Mitchell, the beloved pastor of the Baptist church at Centerville, filled his regular appointment here last Sunday. There were seven received into the church. Rev. Mr. Simmons, of the Methodist church, also filled his appointment and received seven into his church by baptism and one by letter.

Mr. Crof. Suttles, of Centerville, has been on a visit to the Dubose family.

The principal of the Thorsby Institute and associates held a very interesting educational rally here last Wednesday night.

Little Miss James Frances Mitchell is visiting her grandmother, Mrs. Cobb, near Jemison.

Mr. Oliver Chambers was the first to bring in melons this season, having brought in a nice lot on June 30.

Miss Jessie Mae Morris left Sunday morning for Birmingham to spend a few days with her sister, Mrs. Foster.

It was reported on the streets today that a negro was whipped off the streets this morning. It came up like this: A negro man was whipping another negro man's wife, who appealed to the white people for assistance. They took him over the bluff and persuaded him to leave town by applying a small quantity of hickory oil. The writer did not learn the name of the negro. J. W. M.

MOUNT NEBO.

Children's Day.

We are requested to state that Children's Day will be observed at Mount Nebo Church on next Sunday, the 17th, and that an interesting program has been prepared. Every one is invited to come and to bring well-filled baskets.

WEST CHILTON.

There are several kinds of gall. For instance, your neighbor's wife will borrow your own wife's hat or best dress and wear it till it's faded or out of style and then return it, saying it's too small to be of service. But that's nothing; let's talk of real gall. The Republican party met in convention at Thorsby not long since, and what did they do? Well, they claimed for their very own the pet hobby of W. J. Bryan—the initiative and referendum, a thing Bryan has always advocated; in fact it had its birth in his brain. Then they took Tom Heflin's pet bill, the suppression of gambling in cotton futures. Heflin wrote that law and has been working for it for the past three sessions of Congress. That's gall number two. Then they took Comer's pet railroad measures and ranted about them, claiming a part and parcel in them. But that is not surprising, since Reynolds was the boss of the convention, and he has to yell whenever Comer's name or measures are mentioned.

Then they told the farmers what they had done for the boll weevil. If they have done anything it was to help them across the Mississippi river, for report now has it that they are in Alabama. That's gall number three. Then gall number four was to refuse to endorse Barker, who is President Taft's referee in Alabama. Barker is the man who sent a negro up to Marengo county and took charge of the regular convention. They don't like Barker, even though he is the head of the party in this State, but at Calera these Chilton Republicans got it in the neck, for in that convention Barker was endorsed, and heartily, too. In the Calera convention Charley Walker, a coal black negro from Dallas, and his friend, Lavender, another negro, were the delegates, and when they got to Calera they had to listen to some outside delegates and endorse Barker. It must have been an awful bitter pill for them to take; to have to go back on what they did at Thorsby and vote with the negro delegates at Calera, but those negro delegates were up to business, and they said Barker must be endorsed, regardless of what the Chilton delegation thought about it, and so the Chilton delegation chimed in with the negroes from Dallas and endorsed Barker. The word was "sasnt" that they must be good and vote just like Charley Walker and Lavender voted, and I suspect that they are voting with Marbury Alexander and Charley Walker in Birmingham this week, for both of these

JEMISON.

Mrs. Mora Dempsey, of Louisville, Miss., is here visiting her sister, Mrs. J. B. Crysel.

Mrs. Dora Noles, who had been visiting Mrs. Frank Reynolds, has returned to her home at Ormoos.

Miss Ora Durham, from Easley, is the guest of Mr. and Mrs. L. A. Durham.

The wedding of Miss Ida Patton and Mr. Robert Tucker, of Birmingham, was quietly solemnized at the home of Rev. B. G. Ormond on last Friday evening. It was a surprise to many for only a few of her intimate friends were told of the approaching event. The bride is a daughter of Mr. and Mrs. L. W. Patton, and was one of the loveliest girls in the younger society set. The groom is a popular business man of Birmingham. They left Monday last for Birmingham, followed by the good wishes of many friends.

The protracted meeting at the Methodist church closed last Sunday. Rev. R. J. Mills, the pastor, did most of the preaching, though he had Rev. J. W. Killough, of Eclectic, to assist him in several services. The meeting did much good. One was received into the church on profession of faith and five by certificate.

Mrs. Mattie W. Hand, of Bay Minette, visited relatives here the past week.

Mr. and Mrs. A. M. Attaway and family returned Wednesday from a visit to friends and relatives in Birmingham.

Mr. and Mrs. A. R. Cooper, from Clanton, were visitors here Sunday.

Mr. and Mrs. J. H. Patton, Jr., have returned from a fortnight's visit to Birmingham.

Mrs. Bean, for many years a resident of Jemison, but lately of Birmingham, died Wednesday and was buried Thursday at Collin's chapel. She leaves several children, among whom are Mrs. Webb and Mrs. Atkinson, of this place. They have the sincere sympathy of many friends.

The Misses Payne have as their charming guest Miss Fannie Andrew, from Lafayette.

If you want to succeed get out and hustle; don't go west.

THE COUNTY SUNDAY SCHOOL CONVENTION

For six years the County Sunday School Association has been growing steadily, building into itself the interest and strength of the men and women who are the life of the Sunday schools of Chilton. The convention held at Verbena July 5 and 6 is the first mid-week meeting in the association's history, and is a step forward in up-to-date usage. Twenty-five schools were represented by fifty-seven delegates, and since the week-day meeting was so successful for the county it is devoutly hoped this innovation will prove practicable for the district conventions. In addition to local county talent composing the program, Miss Minnie Kennedy and Mr. Leon Palmer were present, adding very greatly to the interest and helpful instruction of the meeting.

The reports of the district presidents show that a healthy ambition pervades Chilton, to get into the "Gold Star" rank. This will be achieved when every school in the county sends a report, makes a contribution and is represented in at least one district convention during the year. It is possible and even easy for every school in the county to do this, and it is earnestly desired that each school adopt the motion that animates the State association: "We can do it and we will." Then will Chilton take the place that is rightfully hers, with the front rank counties of Alabama.

The county has pledged $130 to the State for 1910. The president is allowed $10 for expenses, the secretary $10 and the superintendents of the four departments, missions, temperance, elementary and teacher training, should have $5 each for necessary postage, etc. Therefore it takes $170 for absolute "running" expenses and $10 surplus for extras—programs, expenses of speakers from out the county, etc. This amount has been proportioned among the districts according to their strength, and most of the schools in five districts pledged at the convention in the spring their share of this, and some have already paid these pledges.

—We are all anxious to pay the State pledge as soon as possible, and hope that as many schools as can conveniently do so will pay their pledges by September 1.

The following officers were elected: President, Dr. A. K. Horn, Thorsby; secretary, Miss M. C. Gibson, Verbena. Executive committee—Chairman, R. L. Thornton, Mountain Creek; Judge L. H. Reynolds, A. E. Norton, Thorsby; J. C. Williams, Clanton; J. C. Abernathy, Mountain Creek; W. T. Reeves, Fleatonville. Department superintendents—Missions, Miss Felix Johnson, Jemison; elementary, Mrs. R. E. Norton, Thorsby; temperance, [illegible]

Gone: "We express to the citizens of Verbena and surrounding country by a rising vote our indebtedness to them for their cordial welcome, many courtesies and abundant hospitality."

MARY C. GIBSON.

SALE OF PERISHABLE PERSONAL PROPERTY UNDER ATTACHMENT.

Guy Higgins vs. Pluma Leming, in the Circuit Court of Chilton County, Alabama.

Notice is hereby given that the personal property levied on in the above entitled cause, a more specific description of said property being hereinafter set out,—and said property being perishable in its nature, and liable to deterioration in value, and the charge of the keeping the same being very great, I, John S. Catts, the sheriff of Chilton County, under and by virtue of the mandate of the statute in such cases made and provided for sales of such property, when levied on under attachment, will proceed to sell at public outcry to the highest, best and last bidder for cash, on Tuesday, the 19th day of July, 1910, in front of the court house door in Clanton, Alabama, the following described personal property levied upon under a writ of attachment in said cause, to-wit:

One sorrel or bay mare.
One black horse mule, name Bill.
Plow stocks, plows and farming tools.
One buggy and buggy harness.
One two-horse wagon aand harness.
One saddle.
One white and blue spotted cow about six years old.
One male calf about one or two months old.
One black sow and seven pigs.
Five parcels of barbed wire.

And the proceeds of such sale will be applied in accord with the mandate of the statute in such cases made and provided.

of July, 1910.

Witness my hand this, the 9th day

J. S. CATTS,
Sheriff of Chilton County, Ala.

1t

THE NATIONAL GAME.

The Pittsburg Club has given infielder Abbatiechio his release.

The St. Louis Club has refused to waive on Pitcher Cicotte, of Boston.

Bonesetter Reese broke a resolution not to treat any more ball players and fixed up Overall's arm.

Billy Merritt, an old National League player, has been engaged as a scout for the Boston Nationals.

The Sioux City Club, of the Western League, has signed pitcher Sam Houston, a college lad not yet twenty-one years old.

The St. Louis Club has sold pitcher Rankin Johnson, just returned by Memphis, to the Dallas Club, of the Texas League.

Messrs. Babe Adams and three fingered Brown are collaborating in a poem entitled "The Mutability of Diamond Greatness."

Bobby Wallace manipulates his hands as cleanly on ground hits as a brassy picking up a golf ball. In easy naturalness he can't be beat.

The St. Paul Club has secured the release of third baseman David Brain from the Buffalo Club, of the Eastern League. He will be used as substitute.

The Scranton (New York League) Club has released pitcher Kellogg to make room for southpaw Scanlon, purchased from the Philadelphia National Club.

Pitcher Bill Ryan, of Notre Dame University, has accepted terms of the New York American Club, contingent upon his father's consent to giving up his college career.

The Pittsburg club has had enough first basemen in recent years to put a whole nine in the field — Beckley, Harry Davis, Bransfield, Gill, Swacina, Kane, Abstein, Sharpe and Flynn.

Ex-Lieutenant-Governor Howard of Rhode Island Dead.

Atlanta, Ga.—Albert C. Howard, former Lieutenant-Governor of Rhode Island, died in his home here after an illness of two years. He was born at Cranston, R. I., February 29, 1828. Colonel Howard leaves a wife and five children, Mrs. Arthur W. Claflin, Providence, R. I.; Mrs. Henry Edmonds, London, England; Albert R. Howard, London; Henry A. Howard, Boston, and Winthrop R. Howard, Atlanta. His body was taken to Providence for interment.

ENGLISH LORD'S RAILWAY JOB.

Lord Sholto Douglas Gets Work at $2 a Day on the C. P. R.

Spokane, Wash.—Declaring he has spent his fortune on his wife, Lord Sholto Douglas left Spokane to work with a Canadian Pacific Railway surveying crew for three months at $2 a day. Lord Sholto is a brother of the present Marquis of Queensbury.

Lord Sholto married Miss Margaret Mooney, known on the variety stage as Loretta Addis.

Rural Free Delivery the Best Branch of the Civil Service.

Raleigh, N. C.—Reviewing in detail the legislative history attending the development of the rural free delivery service in this country, F. V. De Graw, Fourth Assistant Postmaster-General, declared that "from the viewpoint of morals" the service was far in advance of any other of the civil service. "In order to obtain a place for appointees to collect votes to throw their last year out of [illegible] 400 carriers only 2.76 per cent [illegible] for cause.

Second Floor Headley Building.

Good for Dr. Higgins

We today learn that Dr. Higgins has fitted one hundred pairs of eyes with glasses since he returned from college on October Eighteenth, 1909.

The hundredth patient was Mrs. Cobb, of Jemison, Ala., who was sent to Dr. Higgins for treatment by Dr. McNeill.

We desire to ask the people if the leading physicians of your county recommend Dr. Higgins in fitting glasses, and he holds the second prize for the State of Alabama in OPTICS, won at the recent meeting of the State Optical Experts. Can you afford to buy cheap spectacles or go off to other towns to have your eyes treated with glasses?

Dr. J. V. Higgins gives personal attention to every patient. Remember the place.

Cabbage For Poultry.

The best vegetable for feeding hens is cabbage, for it is succulent and contains the largest amount of ash and protein of all vegetables.

We hang them up just so the hens can pick them clean to the stump. The greatest difficulty is in keeping cabbages in good condition through the winter. Few methods have been successful with us. We have tried piling in the barn and covering with hay, but they sweat so easily that rot soon begins. Burying in a trench in the garden was only partially a success. A cool cellar with the cabbage on shelves or hung from the joist has given us the best results. The late flat Dutch gives the most feed and requires the least work to raise.—M. E. Chapman, in the Weekly Witness.

Feeding Young Pigs.

Concerning the ailment of pigs I say this: I have had a like experience, and the cause I found was in feeding the sow too rich a feed when pigs were small. It will cause them to become so fat they will die in the nest at times. Sometimes it will give them the thumps, and sometimes the scours. The safest feed when the pigs are young that I have ever tried is simply wheat bran, not a very strong feed you may say, but if you give a moderate sufficiency it will furnish milk, and the pigs don't seem to get too fat, neither thump nor scour. The pigs will not be as plump as when sow is fed a richer ration, but they are more likely to live after they get started. Begin on the richer feed slowly and gradually.—Correspondent of the Indian Farmer.

Work Horses and Their Feed.

Bulletin 109 of the Iowa Station says that it has been found that oats are too expensive to feed in large quantities, and that the ration may be greatly cheapened by substituting oil meal, cotton seed meal, or gluten feed. The health, spirit and endurance of the horses was the same when fed corn in combination with one of these feeds as when oats were fed. These experiments show that oil meal may be worth as much as $60 a ton for horse feeding, and cottonseed meal a little more. The horses did a hard summer's work on these feeds without any considerable loss in flesh. These experiments are of great value to farmers everywhere, as the question of feeding the work horses cheaply, and at the same time in such a way as to keep them in good flesh, is an important one.

Remedy For Hoven or Bloat.

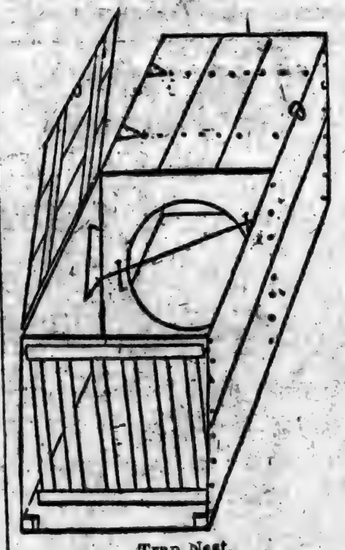
The season for hoven or bloat in cattle approaches. We see in your columns many different remedies given, and all may be good (if time could be given them to meet the requirements of nature), but as we all know this is a malady which requires immediate relief, or death will claim the animal. I have had a large experience in this, as a clover and cattle raiser, and use but one remedy alone which has never failed to work successfully, and I am sure, in some cases, in less than five minutes the animal would have died if it had not been given relief.

I insert my hand into the mouth and take a firm hold upon the tongue, and in pulling it out as far as possible the gas will escape at once. It may not all at once, but continue again and again if necessary until all has been removed. This does not in any way distress the animal nor injure the mouth or tongue. Most all other remedies are more or less painful and some even dangerous. The sticking with a knife is about as much risk as the disease.—E. Trumbo, in Ohio Farmer.

The Egg-Eating Habit.

Egg eating is usually aided or caused by soft-shelled eggs. To prevent this, have a supply of lime, or lime plaster, before the fowls where they can easily get at it and give the feed in such a manner that the hens will be compelled to exercise for their feed.

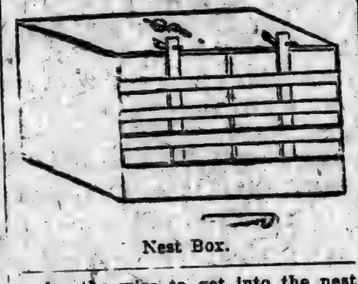
If once your fowls get into the habit of eating eggs, a remedy which I have found to answer better than any other, is to give the hens a supply of egg-shells for a few days. Infertile eggs that have been set upon by broody hens or that have been removed from the incubator, will answer for purpose; or egg-shells obtained from the bakers or other business houses where eggs are largely used. The shells must be given as whole as possible, not broken, and the birds must be allowed to surfeit themselves with them.



After several days of this the fowls will not touch eggs again, and the cure will be complete. But there must be a large and continuous supply while it lasts, so that the shells are lying about the pen all the time.

To use a nest with a false bottom is another way of preventing egg-eating, so that the eggs when laid disappear down an inclined board into

Trap Nest For Laying Hens.



The larger illustration shown gives a fair idea of a trap nest that anybody can make in a little while with only a hammer and a saw for tools. Of course, if you have many hens you will have to make several nests to accommodate all, and then all other nests must be closed or torn up.

The trap nest has been quite an important factor in building up strains of heavy layers among most of the popular breeds to-day. Using it, the breeder, by a process of elimination and culling each year, breeds from only the best layers in his flock. The small fancier has been more successful along this line, as he has had only a few hens and had more time and cared more for his little flock.

Trap Nest.

The nest is made in two compartments. The box proper is fifteen inches square by thirty-two to thirty-six inches long. The hole or opening between the compartments need not be round as pictured unless you care to make it so, but it should be just large enough for a hen to pass through easily, and no larger. The size of the opening will depend upon whether you are raising a large variety or a small variety. A large stiff wire is bent in the shape indicated, and the part passing over the opening is made to work freely up and down like a lever and under wire staples. When the hen starts to pass

Nest Box.

under the wire to get into the nest proper she lifts the wire arm up with her back and thus the other wire arm back from beneath the door, where it has been held up under the lid of the box, letting it drop in place. Blocks are fastened in front of the door so that the door can not be pushed out and the hen can not escape, no matter how hard she tries. The lid on top may be made of two separate lids or as one piece, as you please. With a little experimenting on your part you can bend the wire just at the right angle so that it will work perfectly each time. The wire arm over the opening should be placed high enough so that the hen will naturally want to pass under it instead of trying to step over it.

The first compartment should be from four to six inches longer than the drop door is high, so the door will not strike the hen on the back as it is released.

Each hen should have an aluminum or copper leg band on one of her legs with a number on it. Then as you release the hen you can put the egg down to her credit if she has laid one in the nest. Sometimes the hens will enter the nest from curiosity, and especially is this true when the system is first installed, but, after they become used to it they will seldom enter except to lay. To get the hens acquainted with the nest the door may be propped up for several days.

The trap nest is excellent for setting hens—you can release the hen to get her feed and trap the door, and then after she goes back on the nest she shuts the door after her and other hens can not enter to bother her or break her eggs. You can easily catch the hen that is an egg eater with the trap nest, as some of the broken egg will be found in the nest with her.

The other illustration above is a double nest box for setting hens; the method of opening the door is shown by the L-shaped catch. You will notice that the nest is made quite deep, but does not have to be long as the hen here.—Indianapolis News.

HEARTH AND BOUDOIR

PROMISED LAND.

A person of persistent prominence in the development of Oklahoma is the woman homesteader. Since the first day of the opening of old Oklahoma to settlement in 1889, when Nannette Daisy jumped from a cowcatcher of an engine on the first train that brought thousands of homeseekers into the Territory and staked off a claim in the "promised land," the woman homesteader has been occupying a front seat in Oklahoma's march of progress. The instances are not few where women have staked off claims, superintended the cultivation for years and finally won the prize—a deed to a quarter section of land from Uncle Sam.

Miss Nannette Daisy had been prominent in Kentucky before coming to Oklahoma, now more than twenty years ago, having been an assistant State superintendent of schools and with knowledge of the political game. From a incident in her life in the Blue Grass State, in fact, was born the drama, "In Old Kentucky," of which her kinsman was the author. It was such a woman who was Oklahoma's first feminine homesteader.—Arkansas Gazette.

NERVOUS ILLS.

Exercises conscientiously gone through in your bedroom night and morning, a few breaths of fresh air, and a brisk, even walk, during which care is peremptorily banished from the mind, will either separately or collectively accomplish as much, if not more, toward reducing nervous ills than a sea voyage under the best conditions.

Nervousness, unless it is of such pronounced symptoms as to call for the advice of a physician, will yield to systematic physical training in nine cases out of ten. Home exercise for the cure of nervousness should not be violent at first. Practice only such movements as raising the arms from the sides to a point above the head, all the bending movements of the upper body, chest expansion, and the simple raising of the legs, one at a time, toward front and side, while in a standing position.

Such a course of calisthenics, which any woman could readily outline for herself, would not have as its object the development of one set of muscles, but it would raise the vital forces as a whole by stimulating the entire body at one time. Strike out, up, back and down with the arms; bend, front, back and towards the sides with the body, and you have succeeded in putting a dozen sets of muscles into play within the space of a few seconds.

Most essential of all is the mental attitude, which, if you expect to derive marked benefit, must be one of complete quiescence. Never should the person taking the exercises look upon them as work; when gone through in the spirit that solemn duty is being discharged and must on no account be evaded, just so soon will physical culture become onerous and fail of its purpose. Let the impression on your mind be one of normal exercise rather than of obligatory exertion, and you will soon observe a change for the better in your physical condition.—New Haven Register.

WHEN TRAVELING ALONE.

It is regrettable, but true, that many women must travel alone in street cars or on longer journeys, and to them I wish to speak to-day. Business or necessity often takes a woman from the shelter of her home and places her in situations that require the most circumspect behavior. A trained nurse, a doctor, a student or a young woman traveling from one place to another is subjected to criticism and a treatment that is different from that accorded to a group. It is necessary that the fact that she is alone be made as inconspicuous as possible.

In the first place, never dress in a manner to attract attention. Take off all dazzling jewelry, leave the beautiful plumes at home, and wear your plainest and most refined clothes. A quiet demeanor and inconspicuous garb are best at all times, and doubly valuable when traveling alone.

Avoid any chance acquaintance. I know one young nurse who can look with horror to a day when a kind woman offered her of a well filled suit case—due to the unnecessary familiarity of a railroad seat.

A book is a quiet, intimate companion, a solitary traveler. Any good romance from an interesting book opens new and new interesting pages, holds a hand.

opportunities to use it. For years I studied at college, quite a distance from home, and there were hundreds of chances for me to observe how traveling alone seems to bring upon the woman's head many little indignities.

I have not spoken of the positive danger to women of traveling unaccompanied by night. A sudden trip on the first train will involve a woman in many difficulties of which she never dreamed in the walls of her home. If a sleeper is required, I advise an early retiring. If the journey be short, I pray that you do not fall asleep, to be taken beyond your destination.

It is extremely difficult to register at any large hotel when you are alone and arrive at night. Remember this, and try to arrange for accommodations beforehand. If possible, have one or two letters of recommendation from reliable people, for they will be friends indeed.

When traveling alone do not loiter in public places; shun the corridors or public rooms of a hotel or steamer, and be conspicuous by your absence in all places of amusement.

The modern girl is by no means an ignorant, dependent Clarissa Harlowe. I glory in the fact that our women are much more able to take care of themselves than their grandmothers were. But by all means let us have no moments of genuine regret at a careless underrating of the dangerous side of this custom.

Whenever possible, avoid the trip which offers no companion of your own circle of friends. If necessary, be absolutely careful and conventional. There will be few annoyances if your appearance and conduct speak for themselves that you are determined to reach your destination in dignified peace.—Washington Herald.

Our Cut-out Recipe Paste in Your Scrap-Book.

Tomato Bisque Soup.—Boil one pint of tomatoes for half an hour. Add half a teaspoonful of soda and stir until the froth disappears, then strain through a vegetable sieve. Now add a teaspoonful of salt, the same of sugar and a saltspoon of paprika, also a tablespoonful of butter and thicken with half a cupful of fine cracker crumbs. Lastly scald a pint of milk and pour it slowly over this, stirring well. The soup must not boil after the milk has been added, lest it curdle.

Albatross is being used much.

Tucking is used a great deal on gowns.

Afternoon gowns are more or less elaborate.

Many coats have long revers that cross and button below the waist line.

The shoulder seam on the new shirt waists is much longer than that of last season.

Lingerie embroidered with the all-pervading chantecler is one of the fads of the hour.

Exquisite separate blouses are made of the soft crepe printed in the rich Paisley patterns.

An exquisite combination seen recently on a house gown is a blue tulle veiling silver embroidery.

One of the old fashions that has been revived is the use of oblong gold buckles to trim gowns.

Coats of velvet are being worn over foulards, the coat being lined with the same material as the gown.

If you get a lingerie hat be sure to choose the mob style, with large high crown and a double ruffle around the face.

Bangles of seed pearls are worn as pendants. They are suspended from a tiny gold chain or one of the seed pearls.

The rich, dull coppers as well as other metallic shades are seen in many of the stunning slippers for evening wear.

There is little change from other years in the fabrics used for bathing suits, serge, mohair, taffeta and satin all being in evidence.

Black and white, violet and heliotrope, tilleul green and biscuit color are the predominant shades especially as regards millinery.

Wooden beads are made into necklaces, and are exceedingly smart for trimming on hats. One finds them, too, studding raffia belts.

In Paris, women and men with rings slipped on over their gloves. Whether this is to be a popular fad or not, remains to be seen.

Gilt buttons, which are held in place by means of metal rings, are used as fastenings on some of the white linen Spanish blouse suits.

THE PULPIT.

A BRILLIANT SUNDAY SERMON BY THE REV. J. H. MELISH.

Theme: The Trinity.

Brooklyn, N. Y.—The Rev. John Howard Melish, rector of the Church of the Holy Trinity, preached a sermon on "The Trinitarian Conception of God," which has attracted much attention and the publication of which has been requested. The text was from St. John 15:26: "When the Comforter is come, whom I will send unto you from the Father, even the spirit of truth, which proceedeth from the Father, He shall bear witness of Me." Mr. Melish said:

The vital religious thinking of our day is concerned with experience. A creed or theology is of little value because it is old and has the authority of some council; its worth, its truth, springs from its ability to make articulate the facts of life. "Does this theology," we ask, "interpret experience or is it a mere academic formula which a few intellectuals have spun for themselves?" We of to-day have distinguished between religion and theology. Religion is the life of God in the soul of man. Theology is the interpretation of this life. It is therefore related to religion as botany is related to the flowers. A man may be religious and be entirely ignorant of theology. He may be religious and reject the theology of the past. He may be religious and hold the New Theology. The theology which is of real value, whether old or new, is that which interprets the religious life, which takes those experiences of the common folk, the average man, and tells him what they mean.

In the light of this new approach to theology does the Trinitarian conception of God mean anything? Or is it a mere dogma of the church which some will accept out of loyalty to the church, and others will reject out of loyalty to the truth and their own intelligence? Is there any real experience which receives interpretation from the Trinitarian theology? Does this Trinitarian conception of the life divine bring to our human life enough to enable a man to accept it with loyalty and sincerity? It was once my privilege, as university lecturer, to come into somewhat intimate relations with some young men who were studying to become Jewish rabbis. What interested them was the Christian thought of the trinity. They wondered how any intelligent person could believe in the Trinity, for to their monotheism it seemed like deifying a man — whom they were willing to regard as second only to Isaiah—and so denying the fundamental truth of their religion that God is one. It is only by going deeper into life itself, by getting a broader view of the larger human life we call history, that we are able to enter deeper into God. The Trinitarian conception of the divine life, if it is to be accepted with loyalty and sincerity, must give a more intelligent and satisfactory interpretation of life and history than the Unitarian conception of God. As Gwatkin says in his book, "The Knowledge of God," "The surface drift seems Unitarian in our time, and advanced thinkers take it for certain that the religion of the future will be some form of Unitarianism. Were the political outlook different I might have less difficulty in agreeing with them; but a broader view of history seems to point another way."

In the New Testament there is no Trinitarian theology. In fact, there is no theology of any kind if by theology we mean organized knowledge of religion. Even the Fourth Gospel and St. Paul's letters, said to be theological, are not theology in our modern sense of a systematic divinity. The New Testament is a book of religion: it is the record of experience; it deals with life, not the theory of life. There is, however, in the gospels and epistles what we may call a Trinitarian experience. In this text, for example, there is reference to the Comforter, the Father and to Jesus Himself. Father, Son and Spirit in this and in many other passages are spoken of as concerned with life, the life which men are living here on earth. The spirit which is to be in men, comforting, guiding, inspiring them in all the vicissitudes and efforts of life, is said to bear witness to Jesus. It will take of Him His truth and life, and show them unto men. As a scholar bears witness to his teacher, even though he may go far beyond him, so the Spirit witnesses to Jesus. On the other hand, the spirit has its origin in God; it comes from the Father, from whom Jesus Himself also came. Behind both Jesus and the Spirit is the Father, who loveth all His children. This is not academic language, but the words of life, descriptions of actual experience of Christian men and women all through the centuries; all for whom the person of Jesus has deep spiritual value and who have confidence in the spirit of truth and believe in the fatherhood of God have shared this three-fold life and experience of the men of the New Testament.

It is this experience which forms the foundation of the Christian religion. Every man who shares it belongs to the church by virtue of this life. It is the misfortune, nay, the calamity, of the church that it has not kept this fact clearly in mind. Again and again it has substituted for it some theory of organization or doctrinal statement which immediately destroyed the church's unity and created rivalries and separatists. This is the only possible basis of a united Christendom; not the Catholic creeds, nor the historic episcopate, not the sacraments or any external bond, nothing but the three-fold life and experience can fulfil the Master's prayer that "they all may be one even as we are one; thou in me and I in thee, that they may be one in me."

To this personal experience of the individual Christian we should add the larger experience of the [illegible] erable persons are turned to the heavens. Whether men interpreted the facts correctly or incorrectly, the facts themselves have inspired in man of every age wonder, and, in the old days, worship. Both in the starry overhead and nature underfoot and around men have felt the presence of a power not themselves. It has inspired poetry and created religion. The worship of nature was man's first worship. It is the object of the man's most exact knowledge. To know this world outside one's self in some of its marvelous working has been the aim of our science.

Now, what religious interpretation shall we put upon nature? Shall we spell it with a capital N and regard it as the cause of all things, as many do? Or shall we regard it as the outward, visible manifestation of a presence whose

Dwelling place is the setting sun,
And the round ocean and the living air,

And if behind nature there is the Power, using nature as a garment, what shall we call it? What is the name? The old catechism says: "I learn to believe in God the Father who hast made me and all the world." What an interpretation of man's experience of nature is this—to know that behind and through all this universe is God, whose relation to it is that of father or creator, whose attitude toward it is fatherly. Such is the first interpretation of the Trinity.

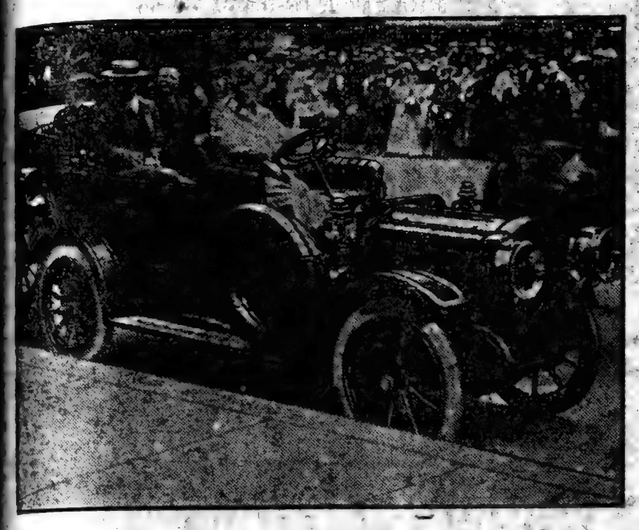
In one's experience of life our humanity as well as nature plays an important part. There was a time when nature was here in all its power, but man had not yet appeared. The earth was the home of beast and bird and fish. Then came the human creature, related to all other living things in many physical ways, but mentally separated from the animal world by an ocean of distance. For unnumbered centuries now has this human creature lived upon this planet. He has worked out institutions, literatures, philosophies, religions, arts and crafts. Here is human development corresponding to nature's life, and yet higher and more complex.

What is the interpretation which throws light upon the facts of human history? Is man the lord of creation or is there some spirit higher than the human, manifesting himself in and through the human, incarnating himself in humanity? Does man find his highest life in serving and admiring himself, or in serving a divine spirit which reveals itself to him in his reason and his conscience? And if there is some spirit, akin to the human spirit and yet different from it, calling men ever to follow him, what shall we name him? Again we find the answer in the old catechism of our childhood: "I have to believe in God the Son who hath redeemed me and all mankind." In mankind there is at work, and has been throughout its life on this planet, God. He has not been simply a creator, a father, calling man into being and sustaining man as He sustains the physical universe. He is in man as He is in nature, but reveals Himself to the human as He can not to the brute, as the Power who upholds the human, feeds it, inspires it, calls it ever back from the animal to the moral and spiritual, leads it ever forward to its goal and purpose. In Jesus of Nazareth this is—God, who is in every man, manifested Himself most completely and perfectly. There is seen, as John says, "the light which lighteth every man that cometh into the world." As nature bears witness to God the Father, so humanity bears witness to God the Son.

So does our human life find illumination in the divine life. Our experience with nature, human and our own souls finds its interpretation in the truth that God is Father revealed to us through the world which He has made; that God is Father manifested in the humanity which He is redeeming; that God is the Spirit, known in the spirits of men one of us whom He is sanctifying.

The truth of the Trinity does not end here. It asserts further that these three are one. So frequently men find themselves unable to think at home, in more than one of the sides of life. Our scientists are students of nature; they know the laws of physics, chemistry and biology. Their spirits roam at home in those fields. They know God the Father and worship Him. But for humanity they have little interest; history does not speak to them; and the spiritual experiences of individual men puzzle them and seem morbid and pathological. Other men there are for whom nature means nothing. They are appalled by the apparent ruthlessness and injustice of the ways. Their spirits are at home in the life of humanity. History is the voice of the Eternal to them, revealing words of life. God the Father, their God and about God the Creator they are frankly agnostic. There are still other men for whom neither of these voices has any meaning. History is the voice of dead ages. Nature has no voice at all. What history to them is that Spirit which they know at first hand through their own reasons and consciences. It is to them the Holy Spirit which is their God. Again and again we find that men misunderstand each other. Their neighbor seems to speak a different religious language. Such men, they sometimes frankly declare, worship a different God.

The undying truth of the Trinity is that these three are one. There is only one God. But to different men He manifests Himself in different ways: to some through nature, to others through humanity, to others still through individual experience. But behind nature, humanity and individual life, binding all together in a splendid unity, is the One, the God of the universe, related to the universe as the human soul is related to the body. God grant that the Father, Soul, our Father, may proceed in us and me the Holy Spirit, to bring us to the life and likeness of the perfect Son, Christ Jesus.



Peace Breakers.

Acid dropped on steel, and to remain there, will soon eat. And if we allow worries, unanswered questionings to lodge in our hearts, they will soon breed in us swarms of tiny [illegible] a paradise unbidden.

ROOSEVELT RETURNS AND IS GIVEN AN OVATION SELDOM EQUALED

The Mighty Traveler Goes Buoyantly Through a Long and Trying Reception-Parade, Showing Lively Interest in Everything American.

The White Company Receives Unique Compliment For the Sturdy Reliability of Its Steam Car From Mr. Roosevelt and Family.

Theodore Roosevelt and Party in White Steamer.

After fifteen months' absence, exactly as scheduled, Colonel Theodore Roosevelt disembarked from the Kaiserin Auguste Victoria, Saturday morning, June 18, at 11 a. m. To the keen disappointment of a large group of newspaper correspondents, Mr. Roosevelt absolutely refused, as heretofore, to be interviewed or to talk on political subjects, but his rapid fire of questions showed the same virile interest in public affairs as before.

If the welcome tendered by the vast throng may be considered a criterion upon which to base a "return from Elba," surely there was no discordant note in the immense reception-parade, nor in the wildly clamorous crowd which cheered at every glimpse and hung on his very word.

The incidents of the day in New York were many, but perhaps none better illustrated the nervous energy and vitality of the man, the near-mania to be up-and-doing, which he has brought back to us, than the discarding of horses and carriages for the swifter and more reliable automobiles. The moment the Roosevelt family and immediate party landed, they were whisked away in White Steamers to the home of Mr. Douglas Robinson at 413 Fifth avenue. A little later, when the procession reached the corner of Fifty-ninth street and Fifth avenue, Colonel Roosevelt again showed his preference for the motor car in general and the White cars in particular, when he, Cornelius Vanderbilt and Collector Loeb transferred from their carriage to White Steamers, which were in waiting for them.

After luncheon at Mr. Robinson's house, the entire party, including Colonel Roosevelt, again entered the White cars and were driven to Long Island City, where they were to take a special train to the ex-President's home at Oyster Bay.

The supremacy of the White cars with the Roosevelt party was again demonstrated on Sunday, when the party was driven to church in the White Steamers, and a group of some forty prominent Rough Riders were taken in a White Gasoline Truck to a clambake at the Travers Island clubhouse of the New York Athletic Club.

Famous Astronomical Clock.

The astronomical clock at Hampton Court Palace has been removed for repair and repainting for the first time for nearly 80 years. The clock, which was the first of its kind in England, was made for Henry VIII in 1540. In 1880 it was brought from a shed at the palace, where it had lain for nearly half a century, and by order of the Office of Works was restored in the position which it has since occupied in the courtyard of the palace.

Present Decision.

If, instead of being influenced by a hazy and undefined feeling, we bring clear thought to bear upon it, we shall find that the only supreme and final test of conduct must ever be the convictions which we hold at the time.

Not whether any other person or the whole world approve or disapprove, nor even whether we may or may not continue in future years to maintain them ourselves, must be our question, but whether at the present moment we believe in our inmost heart that such a course is the true and right one to pursue.

If this be not our guide—if any other voice, opposing that of conscience, be obeyed—then we act in defiance of our own moral sense, which is plainly the stopping of character.

We do not admire everything Cupid does, but there is no denying his good taste and sense in dressing.

Delightful Desserts

and many other pleasing dishes can be made with

A Burning Eruption Covered Her From Head to Feet.

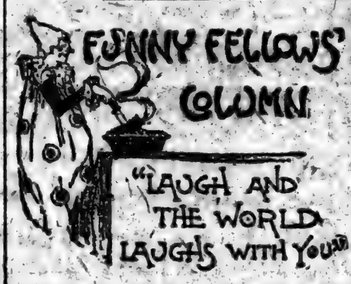
"Four years ago I suffered severely with a terrible eczema, being a mass of sores from head to feet and for six weeks confined to my bed. During that time I suffered continual torture from itching and burning. After being given up by my doctor I was advised to try Cuticura Remedies. After the first bath with Cuticura Soap and application of Cuticura Ointment I enjoyed the first good sleep during my entire illness. I also used Cuticura Resolvent and the treatment was continued for about three weeks. At the end of that time I was able to be about the house, entirely cured, and have felt no ill effects since. I would advise any person suffering from any form of skin trouble to try the Cuticura Remedies, as I know what they did for me. Mrs. Edward Nenning, 1113 Salina St., Watertown, N. Y., Apr. 11, 1909."

The trouble with a great many men these days is that they know so much more about getting a job than keeping it.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take as candy.

Punctuation Today.

One suspects that the use of punctuation and capital letters is but a concession to an emasculate eye. You will look a long way for a stop in a Greek inscription, and all the letters are capitals. An ancient Greek could read with no such aid. The Jew could read his sacred books not only without punctuation or inverted commas, but without vowels. Nowadays we must shriek in headlines and explain in commas and italics. But the law knows better. When you sign a legal document you find no stops or inverted commas in it. They might lead to confusion. It would be an amusing experiment to print a paper as this note is printed without any of the paraphernalia of capitals stops italics just straight on trusting to the sense of the reader to make his own sense out of it for it is generally clear when the break comes and it is only one sentence or misplacement of the unnecessary signpost that sends the reader off to a joke that turns round into Solomon, but possibly it was about that. [illegible]



HE JUST LOOKED WISE.

He didn't spend the minutes
In the valley of the sighs;
He didn't have much wisdom—
He just
Looked
Wise.

He prophesied no weather
To take you by surprise;
He just surveyed the heavens,—
Oh, he just
Looked
Wise.

And so through life for wisdom
He won the envied prize;
He wasn't guilty of it,—
Oh, he just
Looked
Wise.

—F. L. Stanton, in the Atlanta Constitution.

Departing Visitor (disappointedly)—"Hang it, I've got my own hat after all!"—M. A. P.

"You know that $10 you lent me—"
"Not now. Introduce me."—Cleveland Plain Dealer.

Some men are so self-reliant and cock-sure that they are willing to tackle the task of purifying politics.

WEAK KIDNEYS WEAKEN THE WHOLE BODY.

No chain is stronger than its weakest link. No man is stronger than his kidneys. Overwork, colds, strains, etc., weaken the kidneys and the whole body suffers. Don't neglect the slightest kidney ailment. Begin using Doan's Kidney Pills at once. They are especially for sick kidneys.

Frank H. Reynolds, 327 Pine St., Providence, R. I., says: "My doctor told me an examination of the urine showed albumen. I took his medicine for a whole year, doctored with a New York specialist and took electrical treatments without relief. My suffering was simply awful. Six weeks' use of Doan's Kidney Pills cured me, however, and the cure has been permanent for four years."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

Souvenir Postals Lost.

It is gratifying to learn that the efforts of the department have effected a large decrease in the matter consigned to the division of dead letters, though it received in unclaimed letters cash to the amount of $59,078, while the drafts, checks and money orders showed a total of over $2,000,000. Eight millions of post cards were destroyed without record, and dead letter sales of merchandise, loose cash in the mails and currency received for postage amounted to $20,2344. Special instruction in properly addressing postal matter, etc., is now being given in schools all over the country, with a view to eliminating this tremendous loss in the future.—National Magazine.

Pleasant Developments.

"When I feel cold, I take a little whiskey, doctor."

"Yes, that warms you for the time, but its effect soon goes off and leaves you colder than before."

"Well, surely, there's an advantage, isn't it?"—Pittsburg Gazette.

Wild cow has been seen several times recently in Shamokin, Pa.

Strong Healthy Women

If a woman is strong and healthy in a womanly way, motherhood means to her but little suffering. The trouble lies in the fact that the many women suffer from weakness and disease of the distinctly feminine organism and are unfitted for motherhood. This can be remedied.

Dr. Pierce's Favorite Prescription

Cures the weaknesses and disorders of women. It acts directly on the delicate and important organs concerned in motherhood, making them healthy, strong, vigorous, virile and elastic.

"Favorite Prescription" banishes the indispositions of the period of expectancy and makes baby's advent easy and almost painless. It quickens and vitalizes the feminine organs, and insures a healthy and robust baby. Thousands of women have testified to its marvelous merits.

It Makes Weak Women Strong. It Makes Sick Women Well.

Honest druggists do not offer substitutes, and urge them upon you as "just as good." Accept no secret nostrum in place of this *non-secret* remedy. It contains not a drop of alcohol and not a grain of habit-forming or injurious drugs. Is a pure glyceric extract of healing, native American roots.

Think of Last Summer—

You can remember days when the heat inside your kitchen was so great you could hardly bear it. With the right stove you would have made a better hostess. Save your health. Don't put up with the drudgery of a coal range. You can have a clean, cool, pleasant kitchen. The

New Perfection
WICK BLUE FLAME
Oil Cook-stove

Cautionary Note: Be sure you get this stove—see that the name-plate reads "New Perfection."

does away with all drudgery of cooking. Why should you be a slave to a coal range when you can have an Oil Cook-Stove that is cheaper than coal, cleaner than coal, doesn't "smell," doesn't smoke, lights instantly, can be put out instantly, leaves no ashes, and **doesn't heat the kitchen.** With one of these stoves you can boil, bake or roast the most elaborate dinner. You can change from a slow to a quick fire, or the other way about, by simply turning a wick. Apply a match, and instantly the heat from an intense blue flame shoots upward through the turquoise-blue enamel chimneys to the bottom of pot, kettle or oven—but nowhere else. The stove has every convenience that can be thought of: Cabinet Top with shelf for keeping food and dishes hot, drop shelves to hold coffee or teapots, towel rack; in fact every convenience possible.

The nickel finish, with the bright blue of the chimneys, makes the stove ornamental and attractive.

Made with 1, 2 and 3 burners; the 2 and 3-burner stoves can be had with or without Cabinet.

Every dealer everywhere. If not at yours, write for Descriptive Circular to the nearest agency of the

Standard Oil Company
(Incorporated)

Alabama News

Makes Tax Settlement.

County Tax Collector C. Crawford Phillips made a full settlement of the county tax with Probate Judge P. H. Pitts. He made a settlement with Auditor W. W. Brandon several days ago. Mr. Phillips' books show that there was a small increase in tax valuation during the past year. Dallas county is the fourth county of the state in taxable property, being surpassed only by Jefferson, Mobile and Montgomery counties. The county tax during the past year amounted to $63,933.68. The bridge tax amounted tto $25,773.38. The general state tax ran up to $31,966.84. The soldiers' tax was $12,786.84, and the school tax amounted to $37,360.08.

Dispute Leads to Wounding.

A shooting affray occurred seven miles from Guntersville in which Tom Nunn shot Ethrige Harvel. From reports received Harvel was visiting his sister, Mrs. Joinder, who was owner of the land occupied by Nunn. Mrs. Joinder and Nunn were engaging in a controversy when Harvel appeared on the scene and opened fire; and after firing three shots without either taking effect, Nunn fired one shot, the bullet taking effect in Harvel's shoulder. After the shooting Nunn came to Guntersville and surrendered himself to the officers, and was lodged in jail to await developments. At last report Harvel was in a serious condition.

Hermit Farmer Killed for Money.

The lifeless body of Jesse Baldwin has been found in the rear of his house, with his skull crushed and a weeding hoe, covered with hair and blood, the instrument of his murder, lying near his body. Mr. Baldwin was an old and respected citizen and lived about two miles northwest of Wilcox, a station on the Louisville and Nashville railroad. He was known to have kept large sums of money about his place, which was lonely, retired, and at least one mile from any other habitation. Here he had lived in the even tenor of his way, his life not different from that of other farmers.

Corporation Tax Nearly All Paid.

Less than $2,000 remains uncollected of the corporation taxes assessed against firms in Alabama and Mississippi, being paid through the office of the collector of internal revenue in Birmingham. The total assessment was $146,000. The penalties go into effect Monday, and it is reckoned that less than $100 will be collected from that source. Since Saturday at noon 250 letters with remittances were received at the office of the collector of internal revenues on the corporation tax fund. The collection was better than had been anticipated.

Killed by Engine.

Walter Lawson, colored, was knocked off the Atlanta, Birmingham and Atlantic railroad track about three miles from Lineville early Sunday morning and seriously injured, and died from the injuries Sunday afternoon. He was going up the track and seeing a freight train coming around a curve at a deep fill, he got off, but seeing that there was not enough standing room, he tried to cross over on the other side. He was struck and knocked about thirty feet while crossing. The freight train brought him here, but he died about seven hours thereafter.

Alabama Iron Record Broken.

The output of the Alabama iron furnaces for the first half of the year is 999,858 tons against 780,039 in the same period of 1909, an increase for this year of 218,819 tons, the greatest increase for that period on record in the history of Southern iron making. It is now established that Alabama's iron making record for this year will be largely in excess of 1909, which was itself a banner year. Alabama has established the ratio of a year's 2,000,000 tons output for the first time in its history.

Carriers Get Raise.

Taking effect on July 1, the salaries of four of the city mail carriers of Talladega and one post office clerk got raises of $100 per annum, increasing their yearly salaries to $1,000. The employes benefiting are C. W. Riddle, A. W. Stone, J. C. Puckett, C. L. Stockdale and Clerk N. F. Riddle

Heavy Pay Roll.

Saturday was pay day with the employes of the United States engineer's office in the improvement of the Warrior river from Demopolis to Tuskaloosa. The monthly pay roll of the employes in this work amounts to between five and six thousand dollarss. Of this amount about $1,800 to $2,000 goes to the office force in the government building.

Boys Drowned in Creek.

Ira and Marion Thacker, ten and fourteen years old, were drowned Thursday in Black creek where the Gadsden street cars has crossed. Ira, the youngest, ventured [illegible]

PRESS APPOINTMENTS BY PRESIDENT TILTON

McLane Tilton, Jr., of Pell City, announced his appointment of officers for the current year in the Alabama Press Association as follows:

Vice presidents and members of the executive committee: David Holt, Bay Minette; Charles W. Hare, Tuskegee; John W. Davis, Tuscumbia; J. H. F. Moseley, Birmingham; E. L. C. Ward, Talladega.

Committee on legislation: Maj. W. W. Screws, chairman, Montgomery; William E. W. Yerby, Greenaboro; Charles W. Hare, Tuskegee.

The two committees, together with the steering committee, which will shortly announce a new plan intended to increase the benefits and privileges of the organization, will meet at Montgomery this fall at which time a campaign will be started with the intention of making this the banner year in achievement and membership.

Canning Factory at Cuba.

The capital stock of the canning factory that Henry McDonnell has been working on was subscribed in a rush at a mass meeting of the farmers and business men of Cuba. At the outset of the meeting an interesting talk was made by W. D. Clayton of the farm demonstration work on the ravages of the boll weevil, and the great help to accrue to the farmers and business interests by the organization of the canning factory before the pest hits the community. L. Poole made a brief talk urging the farmers to go down in their pockets and support the project, reading letters from officials of the Alabama Great Southern, particularly a letter from Vice President T. C. Powell, of the Queen and Crescent, who stated that he would co-operate to the fullest extent. Traffic Manager Steele wired that he could not be at the meeting, but would confer with the people at the earliest moment, from which it is assumed that the railway company will make the rates such that the canning factory can compete and supply Alabama markets, especially Birmingham and Montgomery. All that now remains in the way of the project is the confirmation of rates so that construction work may proceed. Arrangements can be made with a large concern in a near-by town to sell the output and it is hoped that a few thousand bushels of sweet potatoes can be worked up this fall so that contracts may be made for next year's pack.

Open September 1 at Huntsville.

Announcement has been made that the Tennessee Valley fair will be held ten days this year instead of only five as heretofore, and that the fair will open on the first day of September. The fair grounds buildings, which were almost completely destroyed in a cyclone during the middle of fair week last year, will be put in thorough repair and the grounds will be put in first-class condition.

Charles Bonner, a prominent farmer and business man of Clay county, was found dead by the roadside some four miles east of Ashland early Sunday morning. When last seen Mr. Bonner was in Ashland Saturday afternoon making Sunday purchases to carry to his home five miles east of Ashland. An investigation was started Sunday morning when his mule and buggy came home without the owner. Marks in the road show where Mr. Bonner fell out of the buggy and was dragged for over a mile. Marks on his body also show this fact, and it is believed that he suffered a most horrible death.

Articles of incorporation were filed in the office of Probate Judge John L. Hughston, of Florence, by the Alabama Coal Mining Company, with a capital stock of $5,000. The officers are W. D. Moore, of Memphis, president; H. J. Moore, of Florence, secretary and treasurer. The stockholders are the Florence Ice and Coal Company, H. J. Moore, W. D. Moore and H. A. Bradshaw. The offices of the company will be in Florence and it begins business with a paid-up capital of $2,500.

Frank N. Julian, insurance commissioner of Alabama, has sent his annual report to the governor. In it he outlines many plans that he believes will be of especial benefit to the state. In the report Mr. Julian recommends the report of the live stock insurance law, holding that it is useless. He calls particular attention to the repeated amendment of charters, which he avers is a subterfuge to escape meeting the legal reserve requirement. Mr. Julian recommends an examination for agents before they are allowed to solicit business.

The largest fish that has been caught with hook and line this year was pulled into Martin's lake Saturday afternoon by James Taylor, a Huntsville cabinet maker. The fish was a 44-pound catfish.

Baker Made Superintendent.

NOTICE TO NON-RESIDENT.

The State of Alabama, Chilton County. F. M. Wood, trading as The Clanton Press, vs. T. L. Carter, trading as Clanton Furniture Co.

Before me, as Justice of the Peace, this, the 5th day of July, 1910, came the plaintiff in the above entitled cause, and it appearing that certain property of the said defndant has been levied upon, to-wit: One bedstead, one bureau, one wash stand, by virtue of an attachment issued from my office on the 15th day of June, 1910, and that said defendant is a non-resident of the State of Alabama; it is, therefore, ordered, that notice of said attachment and the return thereof, be given to the said T. L. Carter, trading as Clanton Furniture Company, by publication once a week for three successive weeks, to appear before me at my office in Clanton, Ala., on Saturday, the 30th day of July, 1910, to contest said attachment if he sees proper, and that a copy of said paper be sent to said defendant, when his residence is known.

Given under my hand, this, July 5th, 1910.

J. P. VANDERVEER,
Notary Public and Ex-Officio Justice of the Peace. 3t

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton County, State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Co., a corporation, out of the goods, chattels, lands and tenements of the said Parsons Lumber Co., in favor of S. A. Blasengame, I have levied on the following property, to-wit:

One saw mill, two engines, one Log hoist, one Slab Elevator, eight Live Rollers and one gasoline engine.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Parsons Lumber Co., in and to the above described property, on Friday the 22nd day of July, 1910, during the legal hours of sale, at the Court House door in Clanton, Chilton County, Alabama.

Dated at Clanton, Ala., this 5th day of July, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.

Willis, Julia Par- ie A. Dupree, Irma A. Hen- Charlotte E. Mims and Mar- ims, and Adelle V. Williams

Child Hurt.

ays ago the little daughter Mrs. Jos. H. Shepherd [illegible] to fall [illegible]

her ankle. Little Evelyn is now so far recovered under the skillful care of her physician, Dr. Matthews, as to be able to run about the place forgetful that she ever had an accident.

The Knight Case.

Only one of the young men who took part in the cutting affray on July the Fourth at which time Mr. Gray was so seriously injured, has been apprehended by the officers; the other has thus far eluded arrest. The old gentleman was brought in and immediately made bond in the sum of one thousand dollars; the son was granted bond also as soon as he came to the county seat. He made bond but for some reason the bondsmen surrendered him to the sheriff almost immediately afterward and he now rests in jail awaiting trial.

Rev. R. J. Mills is holding a meeting this week with Mount Nebo church; he is doing all the preaching himself so we are informed and is having a good meeting.

Philathea Picnic.

The Philathea class of the Baptist Sunday school gave a most delightful picnic on last Friday afternoon at Ehrman's mill pond. The young ladies went out in the afternoon and enjoyed the cooling waters of the pond and arranged the picnic grounds and tables, and later on the young men of the Baraca class and their other invited guests joined them. We understand that one of the most delightful picnic dinners of the season was spread by the young ladies and that all did full justice to the spread. The occasion was thoroughly enjoyed by all, and on the return they gave vent to their gladsome feelings in merry song. About thirty couples were in the party. There was a secret out among some of the party, that the Press man was unable to get.

Luscious Watermelons.

Clanton is now deluged with water melons, and they are fine ones, too. The crop is somewhat late but it is nevertheless abundant. Last Saturday more than twenty wagon loads of this delightful fruit was thrown upon the market and a melon could be secured for almost your own price.

Contest Again.

Some of our piano contestants do not seem yet to understand that the tickets will be counted in the usual way and announced as they always have been. Get your list as published in last week's Press and keep that for reference. Deduct the total amount of votes as announced last week from the total for any succeeding week and you will have the number cast for the Special Double Eagle prize. There are several new names this week; names of young ladies who have entered for the Special prize; we had hoped to see many others; perhaps when they fully understand the nature of the contest they will come in and get into the running. No one is debarred from winning the special prizes because they have not heretofore entered the contest. Though you may not have a single vote for the Piano you may win the special prize if you will get out after it.

Socialists in Convention.

On last Saturday, according to announcement, the Socialist of the County met in convention at the Court House.

The convention was organized with Mr. W. G. Riggins as Chairman and J. M. Smith as Secretary. After enrollment of delegates annd some other preliminary business the convention went into the selection of candidates for county offices, with the following result:

Probate Judge—P. K. Villadsen, of Thorsby.

Sheriff—J. Wash Riggins, of Route One.

Clerk of the Circuit Court—E. L. Manning, of Verbena.

Representative—C. N. Eiland, of Clanton.

Commissioner from the Second District—J. P. Barrett, of Thorsby.

There was a fairly good gathering of men at the meeting; some speaking was indulged in and much speculation was engaged in as to the total number of votes that their candidates would receive.

The impression seemed to prevail among the Socialists that they would carry Chilton County and half of Pennsylvania and perhaps a part of Manitoba but they were not exactly sure about Oregon and the upper lak states.

Mr. E. L. Manning, the candidate for Circuit Clerk edified the convention with a speech about as long as a fishing pole and Mr. C. N. Eiland held them entranced with his eloquence for the same length of time minus the first and middle joints. Next came the Tax Assessor who was ordered to assess his speech as long as a gray [illegible] could [illegible] [illegible]

has not resigned his office and what an anxious people want to know is what in the name of Andy Jackson did that convention at Thorsby tell him to do a thing for if they don't propose to make him do it?

All in all the convention was harmonious and encouraging, so they say, and indicates that in a few months the ywill take to tall timber.

JOINT CELEBRATION.

Masonic Installation.

Today at Cooper the Odd Fellows and Masons join in a celebration and public installation. There is to be music and a general good time; public speaking and a great barbecue.

Past Grand Master of the Odd Fellows, W. E. Urquhart, of Birmingham, will be present and make the principal address of the occasion. The Masons will install their officers for the ensuing terms, and fraternalism will reign supreme in the little town.

A large delegation of Masons and Odd Fellows left Clanton on the morning train for the scene of festivities.

We hope to have a full account of the celebration from our correspondent next week.

Badly Injured.

Mrs. Gullahorn, of Cooper, was brought to Clanton last Tuesday afternoon and taken to the home of her brother and sister Mr. W. H. and Miss Mattie Wright, where she could receive medical attention. Mrs. Gullahorn sustained sever bruises some days ago by falling from the veranda of her house and it was thought advisable to bring her to Clanton where she could be near a physician.

Society Meeting.

The Aid Society of the Methodist Church will meet with Mrs. Gamma Anderson on next Monday afternoon, July 25th, at four o'clock. All the members are requested to be present as new officers are to be elected.

On Friday we were honored by a visit from the following ladies: Mrs. J. C. Lee, W. P. Alabama C. M. S., Mrs. B. B. Ross, President Alabama Division U. D. C. Mrs. F. H. Elmore, Montgomery; Mrs. J. H. Cranshaw, Montgomery; Mrs. Sam S. Wassell, Little Rock, Ark.; Mrs. J. C. McKeller, Chap. U. D. C.; Mrs. M. D. Smollen, Birmingham; Mrs. Wm. L. Yancey, Chap. U. D. C.; Mrs. J. F. Snyder, Montgomery; Mrs. John A. Kirkpatrick, Montgomery.

The visit of these ladies was partly for inspection and projected work for the hospital. They dined with the commandant and seemed to have enjoyed their visit greatly.

Their visit certainly conferred much pleasure upon the inmates of the Home.

On Sunday Hon. Thomas A. Curry and his wife brought from Clanton quite a nice party of young people. Although it was raining in the morning, it cleared off beautifully and they all had a good time. Among the pleasures of the day was some really good music, an al-fresco dinner, etc. The party in the evening seemed almost as loth to leave as we were to lose them.

PERSONAL.

Miss Abbott, of Birmingham, arrived Tuesday on a visit to the family of Mr. and Mrs. John W. Stanfield.

Miss Eugenia Evans has returned to her home in Birmingham after a most enjoyable visit to her grand mother.

Mrs. G. B. Wimberly and children, who have been on a visit to the parents of the former, Dr. and Mrs. E. A. Matthews, has returned to her home at Reform accompanied by Miss Emmett Matthews.

Mrs. Harvey Chandler, who has been spending a few days at Cook Springs has returned home.

We keep a full line of school books and school supplies. Upchurch Drug Co. tf

Mr. F. O. Dudley blew back into town last Monday after a visit to Richburg, Enterprise and other interesting points.

Miss Bessie Thomas has returned to her home after a visit of several days to her sister, Mrs. W. D. Spigener.

FOR SALE—Limited number of blooded shoats at reasonable price. Apply to WM. M. ADAMS.

Miss Annie Watson and Mr. John Watson of Decatur left last Wednesday for their home after a most pleasant visit to their uncle, Senator Thos. A. Curry; both made many friends while here who hope that they will soon return.

Miss Delene Hayes has returned home after a visit to Mrs. L. E. Gullahern at Tifton.

We have the very purest and best quality of preserving powders. Try them once and you will always use them. Upchurch Drug Co. tf

On last Sunday Senator and Mrs. Thos. A. Curry chaperoned quite a party of young folks to the Soldier's Home at Mountain Creek. In the party were Misses Annie Watson of Decatur, Eleanor Sartor, Willie and Winnie Reynolds and Messrs. John Watson, Clark Harper and Claud Reynolds.

Turnip Seeds—the kind that grow and that make nice turnips—at Upchurch Drug company. tf

But one marriage license was issued this week: Mr. Jesse Edwards to Miss Minnie Martin.

The Press loses one of its good correspondents in the person of Miss Werner, who left last Wednesday morning for northern points; she goes to Minnesota, Oregon and other western states and will probably be gone for a year or more. During her stay with us in the south she has made quite a number of friends who will sincerely regret to give her up.

We have just received a fresh supply of fruit jar rubbers. The very thing for the thrifty housewife, who puts up her fruits and vegetables. tf. UPCHURCH DRUG CO.

Mrs. W. B. Mauck, of Birmingham, who has been on a visit to her father and her brother, Mr. J. C. Jones, left on last Friday for her home after a most pleasant stay.

Cashier Thomas spent last Friday in the Capital City on business.

We have just received a new supply of Waterman fountain pens. The best make of fountain pens in the world. Try one. Upchurch Drug Co. tf

Mr. and Mrs. J. T. Eiland, of Montgomery, were pleasant visitors at the home of Mr. and Mrs. J. B. Downs for several days last week.

Prof. Monroe, after a most successful session of his Normal school left last Tuesday for Fayette, where he will join his wife and little William.

Hon. W. M. Adams, County Chairman of the democratic executive committee, has been rusticating for a few days this week.

What is Exo?
Do You know?
Upchurch Drug Co.
They know! tf

Miss Alta McKinney, a lovely young lady of Birmingham, spent last Sunday with her friend, Miss Dovie Roper.

Mr. and Mrs. R. C. Thompson and children of Atlanta who have been on a visit to the family of Mr. John Stanfield left Monday for their Georgia home after spending several days most delightfully in Clanton.

The best Talcum powders that money can buy can be found at Upchurch Drug Company. tf

Miss Nellie Merritt, of Birmingham, came down Monday to spend a few days with her friend, Mrs. Rentfroe Mullins.

Mrs. Abbott and children, of Birmingham, spent several days in Clanton last week visiting at the home of her brother, Mr. John Stanfield.

Prof. Judson Strock, of Verbena, let in the light of his countenance upon his friends in Clanton last Tuesday, it seemed like old times to see the genial professor upon our streets.

We have money to loan on improved farm lands at reasonable rates of interest. Long time loans a specialty. For particulars address "Finance" care of the Press or call at the Press offices. tf

Miss Katie Aldridge has returned from a delightful visit to her sisters in Birmingham and Irondale.

Miss Callie Watts left Tuesday morning for a visit of some length to friends at Montgomery.

A nice line of Colgate's toilet soaps have just been received at Upchurch Drug Co. tf

Judge Reynolds, accompanied his father, Mr. Job Reynolds, to Montgomery last Monday morning where he went to have his wound dressed; it will be remembered that the Press made mention of the fact that this venerable old man had a ball extracted from his head last week which he had been carrying since the war between the states.

Miss Thelma Culp, a pretty young lady, came down last Sunday to spend a few days with her grand parents in the country.

Beginning on the 15th of the present month we will discontinue giving piano contest tickets for payments on account. Our patrons will please make a note of this, as it will save us embarrassment and yourselves. For CASH purchases we will continue to give tickets as heretofore. UPCHURCH DRUG COMPANY.

Miss Lucy Oates, of Abbeville, one of the most attractive young ladies of the wire grass region, is visiting her friend, Miss Mayme Woods.

Mr. J. N. McKee, of Jemison Precinct, one of the stalwart democrats of the county, was a visitor to Clanton last Saturday and while here paid the Press a visit. He reports everything rosy in his section.

The Clanton Ice Cream Parlor is now the coziest, coolest and brightest place in town. A new window has been put in the east side of the house. Bring your best girl down and enjoy with her a plate of delicious cream. tf

Mr. Johnson, one of the best locomotive engineers that ever pulled a throttle was a visitor to Clanton Saturday shaking hands with old acquaintances. For twenty-two years he has been pulling one of the L. & N.'s fast freights and has never been in an accident for which he could be blamed. A most enviable record.

Scott, the well known photographer, is kept so busy these days making pictures that he scarcely has time to go to his meals. If you have not been to his place do not delay longer. His work is of the highest character of the photographer's art. tf

Dr. Sam Hopkins left last week for Denver, Col., where he goes as one of the delegates from Vanderbilt Dental college to the national meeting of the Psi Omega Dental Fraternity.

Mr. J. S. Hubbard, of Mountain Creek, was a visitor to Clanton last Sunday.

Piano tickets given with every cash purchase at Upchurch Drug Co. tf

Mr. and Mrs. S. A. Latham, of Montevallo, were visitors to the home of Dr. and Mrs. E. E. Upchurch during the week.

Don't forget that the Clanton Ice-cream Parlor serves the best quality of cream that comes to town. Try it and be convinced. The clean, cool place near the depot. Polite attention. tf

Building Brick.

The Forest Lumber Company has a nice lot of good hard brick on hand which they offer for sale at eight dollars per thousand. tf

If you haven't tried some of that delicious cream served at the Clanton Ice Cream Parlor you don't know what you have missed. It's not too late yet. Go today and be refreshed. tf

The datoni sandwich is an innovation in the railroad station restaurant service.

Building Materials.

The Forest Lumber Company have all kinds of building materials—window and door frame material, dressed boards, flooring, ceiling, weatherboarding, moulding, etc., and are prepared to execute orders promptly at reasonable prices. tf.

NOTICE.

Pursuant to time set by State officers, The Chilton County Farmers' Union will meet with Lomax local No. 386, one mile east of Lomax and three miles north of Clanton, on Friday and Saturday, July 22nd and 23rd. Delegates and others coming to visit will be met at Lomax by con-

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water.

Miss Minnie Muse. Millinery. Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mbuntain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes Monday, Noon, December 5th, 1910.

Suggestion on Etiquette.

Special care is necessary in eating fruit so that it may be done in as delicate a way as possible. Pears and peaches should be peeled with a silver knife, cut in quarters and the pieces taken up in the fingers, but if the fruit is very juicy it would best be eaten with a fork. Plums are taken up in the fingers and eaten without taking the stone in the mouth. Oranges are cut crosswise with a fruit knife, and the sections taken out with an orange spoon or an ordinary teaspoon. After eating fruit the tips of the fingers should be dipped in a finger bowl. The moistened fingers of one hand may be touched lightly to the lips. The napkin is then used to dry the fingers and lips. One should not lean over a finger bowl.—Mrs. Samuel Armstrong, in the Boston Post.

Suffrage Wouldn't Help, She Says.

Grace Falkner, one of the most prominent workers of the Pennsylvania Association Opposed to Woman's Suffrage, has been making speeches in various parts of Pennsylvania against votes for women. "Women do not want the vote," is her argument. "The women who would vote, should this privilege be granted to them, are those who would do as their husbands or the local political leader dictated. A good looking, soft tongued politician easily could get all the women mill workers from a dozen mills to vote the way he wished. As for economic freedom, the average workingman would be glad to have his wife have as much of this as possible, for then his responsibilities would grow less and hers greater. Suffrage will not abolish child labor nor will it close saloons."—New York Press.

Human Nature and Its Changes.

"Say, Jen," said Katie, the brunette, with white sidecombs in her hair, "I see Mamie has bleached her hair again. Ain't it terrible?"

"Yes, perfectly awful!" replied Jennie. "She asked me if I would do it if I were she, and I said, 'Yes.' Don't she look perfectly dreadful—and it's getting streaked already. You could tell in a minute it was bleached, the roots are so dark."

"Sure. I noticed that!" responded Katie. "And, say, did you see the rag of a dress she had on yesterday? And it's fit—gracious! Looked perfectly dreadful, didn't it?"

"Perfectly dreadful," echoed Jennie.

"Well, she wanted a pattern, and I gave her the one of that dark blue silk I had three years ago," said Katie.

"You did?"

"Yes, I did."

"Oh!"

"And the hat she was wearing," continued Katie. "Did you get your optics on that?"

"Yes."

"Perfect sight, wasn't it?"

"Where did she get it?"

"Oh, down at the Moody's. I helped her pick it out," was Katie's reply. "Why—why—here comes Mamie now," she continued. "Hello, Mamie, you dear, sweet thing. How nice you look—too darling for anything!"

"Yes, indeed," added Jennie. "You do look perfectly charming. Say, let's all go into Huyler's and get some soda."

And the three friends walked away together.—New York Times.

Calls it a Girls' Den.

"It was a hotel room that showed me how," said the wife of the junior partner, as she proudly gathered together six of her best friends late one afternoon in the new "housewife den" on the second floor of her suburban home, and made tea for them without calling the maid. "Honestly, it was. I'd never have thought of it if I hadn't gone on that business trip two months ago with Nat."

"You certainly are cosy here," remarked one of the girl visitors enviously, as she glanced around the little room on the second floor that was full almost to overflowing when it had six women in it and took every feminine heart because of its dainty fixings."

"Am I not?" answered its owner. "Our house is pretty and effective and lovely for entertaining. But its big hall and parlor, its almost-as-big dining room, all three opening into each other and making up the whole first floor, didn't give me a single cozy nook. All of it was fine for receiving formal visits and for giving dinner parties, but when it came to chatting with friends like all of you, that first floor never worked at all. I am a woman who hates to sit in her bedroom. I felt I must have a place really, entirely and solely my own. But how to make one I didn't see until I was off on that trip.

"It doesn't matter what city we were in, but we staid three days at a most splendiferous hotel. On the second day I came across, by pure chance, this dear brass teakettle. I couldn't let it go, and I won't tell you how much I paid for it. As I walked out of the store, just hugging the kettle to me, I had an inspiration. I'd noticed an electric iron in my hotel room. I'd have a cup of tea.

"So I bought some tea, and then I hurried up to the room. It was then about 4 o'clock, and hubby was somewhere, selling some man about a million dollars' worth of machinery. I knew he wouldn't get back till six. I'd have my little tea party all by my lonesome; I was just hungry for tea.

"I took the electric iron and turned it on its back in a soap dish. I filled the tea kettle, put it on the iron that was upside down, and in no time at all I had water boiling. My, and oh, my; that tea was good!

"I don't need to tell any of you girls how quickly a woman's mind works sometimes. Before 'my man' got in—and he really had sold a big, big bill—I'd planned this room all out. It just came to me, and now isn't it the finest, most convenient place you can possibly imagine! I let hubby in here sometimes, though I generally 'shoo' him out. This is a woman's room, never to be profaned by cigar or pipe smoke, unless, oh, well, I do let him come in and smoke, late in the evening. But I always open the windows very wide the next morning, and keep them open at least a solid hour.

"An electric iron on its back was only an expedient, of course. I hunted around the city until I found this darling little electric heater. That's the only part of the 'plant,' girls. You see this table here. Well, in a moment I can whip away the heater, hitch on an iron instead—I keep one handy right in the table drawer—and there I am all ready to press out any little things that I feel I'd better not trust to Mary or Susie. I really do a lot of ironing up here, and it's a delight.

"I had this music cabinet downstairs. I really didn't need it there. It comes in ideally up here. I've converted it into a sort of little china closet, you see, for my own private stock of tea things. Of course, I've gradually picked up these cups. The tea service itself's an heirloom. My grandmother used it.

"You've already seen my tins of biscuits and sweet crackers in my cabinet, and I'll have you notice that these little tea packets contain nine different sorts of tea. Sometimes I like to drink one kind, sometimes another. I can make tea to suit everyone's mood and taste, including my own. I tell you, girls, I'm getting to be a great connoisseur in tea drinking.

"As you see, I can make tea almost without getting up. It's the most 'comfy' way. I never have to bother to call a maid when I want a cup. Sometimes a cup is very delicious late at night.

"There's sugar always ready here, in this quaint little Japanese covered bowl, and about the middle of each afternoon it is a part of Susie's regular work to bring up this tiny, tiny pitcher of milk and one lemon sliced, and put them away in my cabinet. Then I'm ready for any visitors; that is, any one of my very best friends like you. We can be 'chummy' up here, as we couldn't possibly be downstairs. We can tell each other secrets that are real secrets.

"No, I won't call it a boudoir. It's a girl's den. Hubby has his own just across the hall. He gives me presents for mine, and I give him presents for his."—Newark Call.

Everybody is Handicapped.

Nearly everybody is handicapped in some way. So don't fancy you are unique in having things to put up with and fight against. We are here to fight—and to conquer.

The visitors at Niagara Falls last year are estimated at 1,500,000, this having been surpassed only twice in the history of Niagara Falls—once during the Pan-American exposition at Buffalo, 1901, and once in 1902.

Our Cut-out Recipe. Paste in Your Scrap-Book.

Cheese and Rice.—Wash the rice through several waters to remove the flour. Put it into boiling water slightly salted, having two quarts of water to half a pound of rice. Let the rice boil steadily for twenty minutes, without covering the saucepan. When cooked, drain thoroughly, then toss it around with a fork, holding it over the fire for a few minutes until it is light and fluffy. Then stir in a quantity of grated cheese, tossing around until the cheese is melted. Now add a savory brown gravy. This may be left from the roast the day before, or made from stock. Cheese and rice is a most nourishing and appetizing dish and will serve as the main viand of the meal.

THE PULPIT.

A BRILLIANT SUNDAY SERMON BY THE REV. JOHN E. ADAMS.

Theme: Hope.

Brooklyn, N. Y.—Sunday night the Rev. John Erskine Adams, pastor of the Ross Street Presbyterian Church, preached the second sermon in a series of three on I. Corinthians 13:13: "Now abideth Faith, Hope, Love, these three, but the greatest of these is Love." The subject last night was "Hope." Mr. Adams said:

The man who wrote these words practiced what he preached. It was he who said: "Brethren, be ye followers together of me." Whenever he pointed up the steep slopes of duty he was ready to jump into the lead and show the way. He was the first to lay himself upon the altar when he enjoined upon others the duty of sacrifice. He never slumbered while others were on the bridge; he never stopped to rest while others were on the march. Men had not only the enlightenment of his counsel, they had the energy of his conduct; not only the illumination of exegesis, but the inspiration of example. Great as was his preaching, the practical illustration in his own life of the things he urges upon others is still greater. Unlike the modern general who, from the distance of miles, perhaps upon some eminence, from which he surveys the entire field of battle, mobilizes and moves his men by semaphore, aide or telephone; himself far removed from danger of shrapnel or Mauser, Paul never sounded the charge that he did not plunge into the thickest of the fight. Did he preach Christ as the ultimate ideal and goal for which men should strive? Of himself he says: "Not as though I had already attained . . . But one thing I do—I press toward the mark for the prize."

We are not surprised, then, to find in him the apostle of hope. When he places it among the graces, he does so because it had graced his own life. He can urge upon others the duty and privilege of optimism because he knows what it is to glory in his own infirmities, and count all worldy losses as gains. He ever walks with buoyant and springy step. With him the shadows never lengthen and the night never deepens, it is always day. He walks in the light; he is a child of light; he rejoices in tribulation, and through its leaden skies the star of hope ever shines.

Hope is defined as the desire of some good, accompanied with an expectation of attaining it, or a belief that it is obtainable. It is more than an emotion, therefore, or a wish, or a desire; it is a confidence, an expectation; it almost reaches the stage of conviction. It is the philosophy of optimism, and as such it abides and deserves to abide. We are told that travelers in the Alps, standing upon the "middle ground," see, beneath them, the shadows and valleys and darkly flowing river, and above them the snow-clad heights on which the sun rests long after the valley beneath is in the grip of the night. At one time, then, it is possible to look down into the shadows or up into the sunshine. Pessimism is the philosophy of the downward look; hope lifts its eyes unto the hills from whence cometh man's help; and believes that the best and not the worst is yet to come.

David was an optimist. In the Forty-second Psalm he is facing a crisis. He cannot stand upon middle ground. He must either descend or ascend; it is the abyss or the mountain top. And so, he lays hold upon the one refuge from pessimism and despair, and calls upon his soul to hope. "Why art thou cast down, O my soul? And why art thou disquieted within me? Hope thou in God, for I shall yet praise Him for the health of His countenance."

Hope abides because it is the survival of the fittest. Despondency unfits, humbles, dethrones. It saps the very strength from manhood. Frances H. Burnett in "The Shuttle," gives us the picture of the English lord, sitting hour after hour, holding the wasted hand of one of his common laborers, who is stricken with typhoid fever, and calling back through the power of hope the life that had almost gone out in despair. The great specialist, who has been called in in the hour of crisis, when the faces of the watchers are pale, and fear has frozen the very fountains of life and energy, gives the verdict of "Hope," and instantly the body straightens, the back stiffens, the blood courses through the veins.

Hope is energy. The provisions have failed; the boat leaks, the seas rise, strength is gone, and intolerable thirst alone remains. But, upon the horizon there rise the masts and then the hull of the liner. Hope at once energizes. With the vestige of remaining strength, the distress signal is hoisted, it is seen; it is answered, the steamer's course is changed, and rescue is at hand. Hope is the granitic element of nature. Of Samuel Adams, Bancroft says: "Difficulties could not discourge his decision, nor dangers appall his fortitude. Of despondency he knew nothing; trials only nerved him for superior struggles. His sublime and unfaltering hope had a cast of solemnity, and was as much a part of his nature as if his confidence sprung from insight into the divine decrees, and was as firm as a sincere Calvinist's assurance of his election."

Hope is life's song. Once Elijah lost it, and life was paralyzed. Having seen hope slip away from him, he was ready to die. The wilderness is about him and within him. The best thing God can give him is the grave. And this man is not a coward. He has fought to death, on Carmel, Baal's priests. He has won many other battles, but now he is in the grip of despondency, and his imperial spirit is broken. But God calls him up from the depths, and when nature's elementary forces, when fire and wind and earthquake fail to rouse his slumbering soul, the still small voice of God stirs him to the consciousness that the cause of Hope was not lost.

Despair is death; hope is life. Despair is the cessation of all hope is abandoned. So long as the man waits, through the long hours, for the dawn, and so long as he believes that the dawn will come, hell is not ready for him, the celestial gates are still swung wide open.

If hope is all this, then we do well to cultivate it, to cherish it, at all hazards. Better part with anything than it. Better give up your friends than your hopes. Better part with your money. The only man without God in the world is the man without hope. We need to cherish it, for ourselves and for others. The most selfish life in the world is the hopeless life. "Noblesse oblige." It is our duty to help and not to hinder; to lift up and not cast down; to be sign posts along the way, rather than stumbling blocks in the way. There is no influence more blighting in all the world than that of a man who sedulously cultivates the philosophy of despair. He is nothing but a nuisance, and an infernal one at that, because his philosophy is hell-born. He becomes a hinderer rather than a helper. He is deliberately withholding from others, in their cares and burdens and sorrows, that cheer and courage which God has meant him to impart. If that alone were true, it would be bad enough, but other things are true. He is not only withholding; he is infecting, he is poisoning. He is offending one of God's little ones. He pretends to be your friend, but he is drilling holes below the water line. He is pulling out the bricks from the wall and the rivets from the bolts. He is undermining the moral constitution of every one he meets. He is damping men's ardor, he is chilling their enthusiasms, he is putting clouds into clear skies, because he is discounting hope. The further such a man keeps away from his fellow men the better for them. He has no business with them. The only proper place for Elijah was the wilderness and the juniper tree when he had ceased to hope. And the only proper place for him when new hope and joy had been born within his soul was back among the sons of men. When our Lord's soul was troubled He was alone, the shades of night were about Him, His disciples slept. When He spoke to other than God it was the message of hope: "Come unto Me, all ye that labor and are heavy laden and I will give you rest." There is only one heart strong enough to bear the weight of a hopeless soul and that is the heart of God. He alone is the "joy of the comfortless, light of the straying, hope of the penitent, fadeless and pure."

The world has no time and no use for the man who has no time and no use for hope. A gentleman on being asked to contribute to the erection of a monument replied: "Not a dollar. I am ready to contribute toward building monuments to those who make us hope, but I will not give a dollar to help perpetuate the memory and influence of those who live to make us despair." The men who find the world waiting for them, responsive to them, grateful for them, are the men who bring into its darkness something of light and into its sufferings and sins, the aleviation and stimulus of hope.

A singer sang a song of tears, and the great world heard and wept;
For he sang of the sorrows of fleeting years, and the hopes which the dead past kept;
And souls in anguish their burdens bore, and the world was sadder than before.

A singer sang a song of cheer, and the great world listened and smiled,
For he sang of the love of a Father dear, and the trust of a little child;
And souls that before had forgotten to pray looked up and went singing along the way.

Perhaps, after all, to those who are listening to-night, it is not necessary to say all this. You know it already. If you don't, it is because you have never yet entered into the joy of your Lord, which is not reserved, simply for the life to come, but is imparted to His followers in the life that now is. It is a joy that no man taketh away. For it is the joy that comes from the knowledge not only that in the hiding of God there is safety, but that in the hands of God all things are made to work together for our good. It is the joy of the consciousness that the bars and bolts that once held us in the prison have been withdrawn, and the door has swung open, and we have passed out into the light. And it is the joy that, having passed out into the light there is given to us not only freedom from bondage, but affiliation, the privilege of partnership with God; the power to do and to become. And if we still feel ourselves hedged about by unpropitious circumstance, and assailed by the temptation of that illicit self which still clamors for recognition and claims enthronement, there is born within us the hope that out of struggle and defeat, out of strivings and groanings, out of bondage and imprisonment, we are at last to come off more than conquerors through Him who has loved us and redeemed us by His blood. When we receive Christ, who is our Hope, the Bright and Morning Star of Life, we enter into privilege and possession. All things are ours; the world about us, the skies above us; the heritage of soil and the heritage of souls; the deep happiness of proprietorship in the things of the life that now is and the fadeless hope of the life everlasting: All things are ours, for we are Christ's and Christ is God. What place is there for doubt, or despair in such a life? Why should we not, if we believe in Him, who, though unseen, is ever with us, rejoice, with joy unspeakable and full of glory? What matters it that the sorrows of the present seem not joyous, but grievous? They are the light afflictions which are but for the moment, and which work out for us the far more exceeding and eternal weight of glory. While we look at the things which are seen, while the shock of the storm is upon us, the cathode rays of hope reveal beneath the deep calm the unseen things which are eternal.

Now abideth hope; its fingers point upward and onward—and God is at the end.

Unfolding Sign! [illegible]

Good Roads

Waterways and Good Roads.

The custodians of the pork barrel in Congress, or, as they prefer to be known, framers of the annual rivers and harbors bill, have brought in a measure proposing to expend the coming fiscal year the sum of $52,000,000 upon waterways throughout the country.

Senator Burton, chairman of the National Waterways Commission and an undisputed authority, is vigorously fighting the proposition. He is against piecemeal work, in the first place, and, what is of more importance, he is entirely opposed to many of these iridescent and impractical projects.

No level-headed man objects, per se, to the symmetrical improvement of waterways in this country. Navigable rivers and harbors are indispensable factors in the equation of transportation. We must have them if the development of the nation is to proceed unimpeded.

But legitimate waterways are one thing, and pork barrel projects another, and vastly different, thing. It is a safe bet that forty per cent. of this $52,000,000 is political pork, pure and simple, expressed in projects to widen impossible creeks or dredge hopeless harbors, neither of which ever can or ever will figure in either local or interstate commerce.

If half of this year's proposed appropriation should be diverted from theoretic streams and hypothetical harbors and spent instead on national good roads projects, we should experience a national impulse toward prosperity near incalculable.

Even conceding for the sake of argument, that every penny of this fabulous $52,000,000—about the same amount, by the way, thrown away in obsolete warships now going to the scrap-heap—is founded on reason, it would still be incumbent on Congress to provide at least proportionately for good roads.

In their most highly developed aspects, waterways can only benefit a fraction of America's population. Decent highways throughout the nation benefit every class of population, stimulating rural and urban development, lessening the exorbitant cost of living, increasing the national wealth, so that in the near future the immeasurable drain of such luxuries as battleships and academic waterways will bear less heavily.

It is the people's money that Congress is frittering away to reinforce personal political reputations. Today the people are demanding that a portion of the sums taken from them in taxes be spent upon good roads—a project interesting every man, woman and child living and yet to be born in this country.—Editorial in the Atlanta Constitution.

Good Roads Vs. a Naval Scrap-Heap.

Warships of Uncle Sam to the value of $50,735,789 are soon to go to the crap-heap, according to Leslie's Weekly, because in twenty years' time they have grown worthless and obsolete.

Eleven protected cruisers, three unprotected cruisers, ten monitors and a group of smaller and cheaper vessels authorized since 1883, now go to the naval cemetery, which means that more than $50,000,000 is virtually interred. Styles and patterns in war vessels change perennially. Should these once sea terrors now go against an ordinary enemy, they would be knocked into mincemeat. Other and more expensive types must take their place.

Suppose half of that $50,000,000 had been spent upon good roads throughout America!

We should have had the foundation of a national auxiliary transportation system which would annually mean hundreds of millions of dollars to the farmers of this country, and to every class of population in this country.

Unlike warships, good roads do not deteriorate, at least not into worthlessness.

Men-of-war are built upon the basis of hypothetical usefulness. Good roads are built upon a reality.

The Appian Way, centuries old, still stretches out from ancient Rome. The Simplon Pass is practically as smooth and firm as the day it was laid.

Men-of-war crumble, the stupendous fortune they represent vanishes, while the mythical foe delays his coming.

Good roads appreciate in value with each month, pay their own up-keep and return dividends amenable only to the computation of the decades.

The more than fifty millions spent upon these effete vessels is the premium the nation pays upon a peace policy. In moderation that is essential.

But a tithe of that enormous premium spent upon a constructive policy of highway development would in its returns pay several times over the cost of these decaying vessels in adding untold actual and potential wealth to the wealth to the nation.—Atlanta Constitution.

The Majority and Ibsen.

The members of a debating society fiercely discussed Ibsen's declaration that "the majority is always wrong." They even exchanged personalities over the matter, and in the end a motion affirming Ibsen's view to the contrary was carried by an overwhelming majority.—London Daily News.

Dr. A. W. Schofield has written a book on consumption, in which he advises those who want a cure to go [illegible]

LEAD, POISON AND CLUB USED TO KILL WIFE

Body Then Buried in Quicklime

IN A CELLAR IN LONDON

Couple Had Many Spats. Presence of Dentist's Typist Said To Have Been Objectionable to Mrs. Crippen.

London.—While the police authorities were exhausting their resources to lay hands upon Dr. Hawley H. Crippen, the American, and his woman typist, physicians were examining the mutilated body of his wife with a view of determining the manner in which the murder was done.

The finding in the cellar of a revolver gave rise to the report that the vaudeville artist had been shot before the body was battered into an unrecognizable mass and buried in quicklime in the cellar of the Crippen home at Hilldrop Crescent, North London.

It also was reported that traces of poison had been found by the doctors. The latter will present their theories as to the cause of death at an inquest to be held.

It has been a long time since a murder case in England has attracted such general attention. The fact that the murdered woman was an American, as is the husband who is charged with the crime, has spurred the police to unusual activity.

The full force of Scotland Yard, under the personal direction of Superintendent Forest, are making a thorough search for the fugitive doctor and Miss Ethel Clare Leven, that they believe will be successful.

Miss Leven was employed by Dr. Crippen as a typist. It is stated that Mrs. Crippen objected to the presence of the young woman in her husband's office and that his refusal to dismiss her led to frequent quarrels between husband and wife.

Some time after Mrs. Crippen disappeared, Miss Leven appeared in public with Dr. Crippen, who introduced her as his wife. To acquaintances the doctor explained that his former wife had left him following a quarrel and that she had subsequently died.

AMERICAN VICTORY IN GERMANY.

Prosecutor Finds Oil Company Has Committed No Wrong.

Berlin.—The long and venomous campaign waged by German newspapers and rival industrial interests against one of the German branches of the Standard Oil Company—the Deutsche Vacuum Oil Company—just been brought to a victorious end for the Americans involved.

A well known Hamburg newspaper for months printed such a series of attacks on the "American graft methods" alleged to have been practiced by the vacuum company in the conduct of its German business that the public prosecutor of Hamburg felt constrained to make an official investigation with a view to eventual indictments. The prosecutor has now concluded his investigation, especially of the work of E. L. Quarles, American manager of the German company's sales department, and announces that no necessity exists for pursuing the inquiry further.

No evidence of anything warranting prosecution was found against Mr. Quarles, and the costs of the entire inquiry will be borne by the State.

The result of the investigation constitutes a notable triumph for American interests in Germany.

It is not the first time that Germans finding themselves unable to compete with Americans on ordinary terms have resorted to slander.

M'HARG MAKES PRESENTS TO FORMER EMPLOYES

Waco, Tex.—H. K. McHarg, of Stamford, Conn., who recently sold his holdings in the Texas Central railroad, has notified the present management of the road that he will give a year's salary to all of the employes who had been in the service of the road for twenty years. In addition to this gift, every conductor, agent, brakeman, and porter on the entire line, of almost 500 miles, will receive a month's salary amounting to about $40,000.

Forest Fires in Montana.

Helena, Mont.—Scores of forest fires are burning among the drought affected districts in Montana. From every section of the state and from adjoining states comes news of the devastation of timber lands by the flames and stories of warfare against the fire by forest rangers and setthers. Many miles of peril to the logging camps, ranches and villages are coming in. The damage already will amount to millions of dollars.

WENT 25,000 MILES IN A DOG TEAM

Los Angeles, Cal.—William Brown, of St. Johns, N. F., arrived here Thursday in a cart drawn by four dogs. He claims that his arrival in this city completed a 25,000 mile journey in his unique vehicle. He says he wins a wager of $10,000. Brown traveled through Ireland and England as well as other parts of the continental countries.

Entered as second class matter April 8th, 1910, at the Post Office at Clanton, Ala., under the Act of March 3rd, 1879.

Nominees of the Democratic party for State and County offices:

For Governor—Emmet O'Neal.

For Lieutenant Governor—W. D. Seed.

For Chief Justice—J. R. Dowdell.

For Associate Justices—J. C. Anderson and O. M. Somerville.

For Secretary of State—Cyrus B. Brown.

For Attorney General—R. C. Brickell.

For State Treasurer—John Purroy.

For State Auditor—C. Brooks Smith.

For Superintendent of Education—H. J. Willingham.

For Commissioner of Education—R. F. Kolb.

For Railroad Commissioners—Frank N. Julian and Leon McCord.

For United States Senator—J. H. Bankhead.

For Congress Fourth District—Fred L. Blackmon.

For Circuit Judge—W. W. Pearson.

For Circuit Solicitor—F. Loyd Tate.

For Chancellor—W. W. Whiteside.

For State Senate—Thos. A. Curry.

COUNTY OFFICES.

For Probate Judge—E. B. Dobson.

For Sheriff—B. L. Jones.

For Circuit Clerk—H. M. Simpson.

For Commissioners:

First District—G. D. Retherford.

Second District—E. J. Hayes. tf

MONEY TO LEND.

Money to loan on improved farm lands at reasonable rates. For information and particulars, address "Finance," care Clanton Press, tf

FOR SALE.

About twelve acres of rich level land within two miles of Court House at Clanton. Perfectly adapted to truck farming or dairy purposes. For information address, "REAL ESTATE," care Clanton Press. tf

A TIME TO THINK.

A Crucial Hour With the Men of Chilton County. History Recalled For Your Benefit. Reflect Before You Act.

There was a time in the history of this state when it seemed not only desirable but absolutely necessary for the white men of the state to divide on policies of government. Class arrayed against class and one of these classes, drunk with the power it had obtained by reason of concentrated power, undertook to dictate to the other class who should be their officers and in what manner they should be governed. This action was well calculated to arouse the animosities and passions of the other class and call for drastic measures on their part; they would have been possessed of less than manhood had they, at that time, failed to assert their rights and rebel at the treatment they received at the hands of he dominant class or faction within their own ranks. But those old days of strife are past; the past dead has buried its dead and it is now time for all men with blue eyes and straight hair in our fair Southland, and especially in this county, to stand together against the common enemy.

Back in 1892 when the rivalry between Kolb and Jones for the governorship was so intense it was but natural for the farming classes to side with the farmer as against the railroad lawyer; it was but natural that they should refuse to follow the leadership of one who had been the friend of monopoly as against the laborer; it was a natural thing for them to cast their lot with the man whom they believed was fighting for their rights as against the man who seemed to be fighting to take those rights away. There was necessity, possibly, in 1892 for the farmer and the laborer to combine against the organized upper class which sought to dominate every sphere of activity and to dictate every rule of action, but the days of 1892 are long gone, the hour of the combine has passed and the day of cordial friendship between the town politician and the country politician has arrived.

You who went off with Kolb were fighting for a principle; that principle was the right to think and speak for self; the right to have a voice in the selection of your judges and other officers. It was a principle that clang to your hearts. Until that right was established and that principle recognized, you had a right to remain away from the party of your country and by your protest bring the party back to its ancient moorings and force it to grant unto you the same rights and privileges which it claimed for those who seemed to be in authority.

As long as conditions remained as they were in 1892 you had the right to remain with another organization and to battle against that class in your old party which seemed to usurp all things.

But that time is long, long gone. The democracy has reasserted itself and has opened its eyes to the rights and privileges of its most humble members; it seeks to array no class against the other or take from one section the privileges that belong to it and confer them upon another; it tries at no time to divide its forces so that there shall be a class of the rich and a class of the poor, or a class of the workers and a class of the idle. It seeks to conserve the interests of all and to deal fairly and justly with every section. This is the party to which you and your fathers belonged previous to 1892; this is the party for whose principles you were fighting in 1892 when the People's party was organized and Kolb put at the head of the organization. This is the party to which you belonged in those memorable days of strife when brother was arrayed against brother and father against son. You fought for a principle and you have triumphed. You waged battle for what you conceived to be right, and that right and that principle has been accorded you. Kolb and Bowman are again with the party of ancient days; they have been recognized, and not only recognized, but they have been honored because they dared to stand for what they conceived to be right against might and because after gaining that right they came back to the party of their first love and fought under her banners. You have gained within your old party every principle and every right for which you contended in the days of 1892. The mighty politician has been relegated to the rear, the city man has been taught that the country man is his equal and that to him must be given the same privileges in choosing officers that are claimed by those of the towns. All these things you have gained by your consistent and persistent work and demands. The democracy has recognized them and with becoming gracefulness has surrendered unto all the people what some of the party claimed for themselves alone. Your rights and privileges and prerogatives in the party are equal to those of any other man, your claim has been established beyond question and your position in the days of 1892 has been vindicated.

Now the question arises: Where will you go since you have won what you contended for? With what party will you align yourselves now that the People's party has served its usefulness and has gone out of existence?

Will you go with the party to which you and your fathers once belonged; the party which has always stood by the Southern white man; the party which has granted you your every right and protected you against every wrong or will you go with that party which long before the civil war, and ever since that strife, has sought to force upon you the negro and high license?

It is useless for one to say that the republican party is not the party of the negro. It has always been the party of the negro, it always will be the negro party.

It is useless for republican officeholders, politicians and editors to say that negroes do not sit in the conventions with republican white men and act on committees with them; it is folly for republican speakers to try to fool the people into believing that negroes do not have equal rights with the whites in the party councils. History proves conclusively that they do have these rights; history shows that these same politicians and officeholders and editors not only sit in convention with negroes but that they serve on committees with them and hobnobble with them in the days before the convention.

They may go out into the country and deny the fact but the truth remains that they do associate with them in convention and on committees. The Press last week issued a challenge to the republican paper of this county to name the negroes in the District Convention at Calera and the State Convention at Birmingham; that challenge has gone unanswered and why? Because they are afraid to deny the truth and they fear to tell the facts. Now to show that they do associate with negroes and sit with them in convention the Press offers FIFTY DOLLARS to the republican politician, office seeker or editor who will dare deny and prove true, that there were not negro delegates in the Convention at Calera when the Chilton county delegation met with the counties forming the district and repudiated, in the presence of the negro, what they had done at Thorsby; or who will deny that there were negroes in the State Convention when the editors and office seekers of Chilton county met at Birmingham and put out a ticket to oppose the ticket of the white man.

We will pay this sum to any politician, editor, office seeker or member of the republican party who will deny these facts over his own signature and swear to them. A man who will tell to the public an untruth when he knows it to be untrue is not the person to honor with an office which has to deal with the people's rights and the people's money. So much for the negro. He was there, he is going to remain there.

The republican party cannot get rid of the negro; he was their inheritance; they fought to free him; they conferred upon him the right to vote; they protected him with their bayonets in the days of '67 to '76 and suffered him to put upon all white people of the South, carpet bag officers and negro officers, while many boys and mothers were hopeless and helpless in shame at the horror of being ruled by such cattle. The republican party cannot get rid of the negro. They bought him with the blood of our fathers and with the sorrow and humiliation of our mothers and sisters. He came when the republican party came to the south and he will go only when the republican party leaves the south. And when that day comes the negro will go with the party in order tht they may still cling to it.

The democratic party has placed the negro under the ban; she has rid herself of the negro and forever cast him forth. It was through democratic statesmanship and democratic votes that the horde of negro voters were forever forbidden to intermeddle with our affairs and it was through her wisdom that negroes were so classed as never again to trouble us in our state matters.

It is the republican party that yet clings to the negro and seats him in convention. It was the republican party which gave to Alexander and Wimbs and Mixon and Mason and Lavender and Walker seats among the white delegates and conferred upon them the right to select officers for whom you white men of Chilton County are called upon to vote. It is the republican party which gives them high place and confers honor upon them when there are thousands of worthy young white men seeking those places in order that they may make a decent living and raise a family of sunny faced children.

It is the republican party which has sought to force the negro upon the white man of the South and who has taken from them the right to be represented in the councils of the nation; it is that party—the republican party—which has flaunted the bloody shirt of rebellion in the faces of our mothers and sisters for years and has given us negro officeholders.

With which party will you go?

The Populist party has served its day and is no more; you must go with one party or the other; with which will you stand? The populist party to which you once belonged has won the battles and the principles for which it fought, and its leaders, recognizing this fact, have come back into the old party and are now serving with the men by whom they stood in the old days. Tom Watson and Kolb and Bowman and a host of other leaders are now with the democracy and are serving with honor and distinction in the ranks and in the offices of the democratic party. Their wounds are all the mother party which has received them gladly. Will you follow into the camp of the ancient enemy and be led into the conventions with negroes? Will you, having won the principles healed and they have come back to and privileges for which you contended, go off into the party of the negro and the carpet bagger? Will you refuse to follow those who have led you through the dark days and by their consistency and their strength brought to you the things for which you contended or will you go along with the party which seeks to enthrone the negro and the carpet bagger and places over you negroes to rule your land?

You may say that no negro rules in Chilton County. That is true, and we thank God that it is true, but nevertheless it is the republican party which gives to us negro officers and magistrates and postmasters throughout the south.

You can no longer be with the People's party for that has ceased to exist; even Chilton county office seekers can no longer ask for the endorsement of the People's party for the People's party has retired from the field. You and they must come out on one side or the other; there is now no middle ground. With which side will you go? To which party will you throw your strength? Are you with the negro and his white associates, or are you with the boys with blue eyes and straight hair; the boys who can look a blushing maiden in the face and claim kindred with her; the boys who can and do gather with the rosy cheeked children of our homes and romp with them?

Are you with the party of the negro or with the party of the white man? It is up to you to deside and now is the decision day.

Guess Again.

The Hartford Chronicle says: "At their convention in Birmingham on the 12th the Republicans nominated Revenue Collector J. O. Thompson for governor and Dr. James W. Hughes, of Birmingham, for lieutenant governor. This ought to stop the talk about the Republicans putting out their strongest man to defeat Walter D. Seed, the Democratic nominee." Guess again, brother. They put out a man even weaker than Dr. Hughes and did it with the votes of negroes in the convention, too.

The muddle in Ohio is giving Mr. Taft considerable trouble. He is in great danger of losing his home state to the democrats, and if that should come about he sees his chances for a second term fading in the dim distance.

Teddy the Great—he of big stick fame, is worrying about the Empire state. He cannot get a man strong enough to run for Governor. The republicans are badly split in the state of his adoption and he sees failure for the party staring him in the face.

With Harrison re-elected in Ohio—which he is sure to be—the democrats of the country will have a candidate whose presence at the head of the ticket will mean more than that of any man since the days of Cleveland.

Diamond Edge.

We are glad to advise the trade that we have added to our stock of "Keen Kutter" goods the "DIAMOND EDGE" line which gives us the most complete stock of tools, knives, razors and table cutlery to be found in the country.

The "Diamond File" is good and so are the "Diamond Edge" goods of all kinds.

We guarantee every piece against being defective in any way and will cheerfully and willingly replace any "Edge Tool" bearing either of these brands.

We invite you to see our display of these goods.

GAMBLE HARDWARE CO.

ANCIENT HISTORY

For Modern Thought and Application.

We refer to the days of Greely and Grant. There are, perhaps, but few in Chilton County who can recall those days. It was when most of us were mere youths, nevertheless modern science has brought about instruments for perpetuating ancient doings so that they can be recalled with all the minute details of the present day. There are some living in Chilton county who remember vividly those days of Horace Greely and Ulysses Grant; when the two contended for the Presidency. It was the days just after the bloody conflict between the states; it was the days when we had the carpet bagger, the scallawag and the negro office holder with us. It was the days of Jere Haralson and Ben Turner, of Scott Henry and a horde of other coal black negroes who held office and who domineered over the white man of the south. It was the days when Foraker was in his glory and waived the bloody shirt and cried for the negro to put his heel upon the neck of the white man. It was the days when Montgomery and Mobile and Dallas and all the other older counties had negro representatives and negro commissioners. It was in the days when the railroad builder would come into a town, a city or a county and ask for great sums of money to build roads and when the negro and carpetbagger officers would vote them thousands upon thousands of dollars free from the treasury and tax the white people to pay the interest on the bonds which they had issued. These are the days to which we refer. In those days the writer, though but a child, remembers a command of blue coated soldiers who were encamped at Selma to force the negro upon the white man. They were under command of a yankee Major and they made Selma hideous with their presence. They associated with the negro, kept company with them and went to them for advice and "council." This is one of the few things of those old days that the writer recalls vividly. Another is the cloud of sorrow and shame that surmounted his father's face as he walked to and from his business in those days. We did not know then why it was that the cloud was upon the face of the father, and of all other pure blooded white men of the little town, for we were almost an infant.

The blue coats and shining bayonets amused us; their swings gave us pleasure and their squirrels and parrots were things that attracted our childish eyes.

Those were the days when Pettus, and Morgan and Brooks and Bragg and Lomax and a host of others wore grim faces. It was the day of the carpet bagger and the negro; it was the day when federal soldiers were stationed in our fair land to force the negro upon the white man.

Later on when we grew up to manhood's estate we learned what it meant to father and to mother to have those blue coats in our town; it meant that the republican party was forcing the negro upon us and that our officers were men who had been our slaves. We learned what the cloud upon the faces of the old men of those days meant; it meant that their pride was being humbled by force but that their manhood was of the same dauntless, chivalric kind that it had been in the years before. It meant that while they were submitting to force they were resentful toward those who were forcing them.

Then came the campaign of Greely and of Grant. One represented the democracy and the hope of the South, the other represented the republican party and the continuation of negro rule.

The campaign was intensely hot; the negroes of the South had been given the right to vote; they were taken from slavery and immediately made the equal of my father and your father; the women slaves were on a parity with your mother and my mother; their children were the equal of the boys who played marbles in the streets and who looked rosy cheeked and blue-eyed sisters in the face. These were the days of Great republicans. They were the days of triumph for Ulysses Grant who had fought our fathers and [illegible]

During that fierce campaign the republican party issued and scattered throughout the south, and especially in those sections where there were so many negroes, a book called "The Bitter Bit." It was a bitter campaign book; it was well calculated to stir up the blood of every true southerner with indignation and to arouse the ambitions and hopes of every kinky-headed and thick-lipped negro.

That book suggested the amalgamation of the races; it told of the suggestions of northern men for the settlement of the negro question; it mentioned the possibiliy of a slave leading his former mistress to the marriage altar; it was intense in its suggestions and was designed to capture the negro vote for Grant, the republican candidate, and to incite the white southerner against Greely, the democratic candidate.

These books were scattered broadcast over our land and country; the mails were open to the republican politician and the carpetbagger; he was instructed to send these books into every town and hamlet where there were negroes. IT WAS A REPUBLICAN DOCUMENT FOR SECURING NEGRO VOTES.

Grant, the republican, was elected and though there was no amalgamation of the races; though the negro never became the equal, socially, of the white man, all will remember that he did become the equal of the white man politically, and that for years under this republican influence and party he held our offices and sat upon our juries. He collected our taxes and paid out our moneys, he enacted our laws and imprisoned our fathers and older brothers. This was the day when the REPUBLICAN PARTY ruled the South.

Ask any of the old settlers about that book called "The Biter Bit," they can tell you of it and of the troublesome days that they endured during that campaign and immediately afterward.

Then came the days of "Reconstruction;" the days when the white men of Alabama growing tired of negro domination and carpet bag rule determined to have no more of it; the days when Morgan and Watts, Brooks and Bragg, Johnston and Pettus and thousands of others arose in their God-given manhood and said they would die but they would no longer submit to negro rule, no longer suffer their wives and children to live under the taunts and insults of negro officers. These were the days when the democracy of Alabama asserted itself and saved our homes from the tyranny of negro officers; these were the days when our fathers and brothers threw off the yoke that republicanism was seeking to fasten upon their necks and ours, and when every true southerner stood by his home and his party. It was the days when white men triumphed over negro enthornement and when they were victorious over the ranks of the republican party. It was in those days that republicanism had the reins of government. Then it was that starvation and ruin and gaunt despair stalked through the land and when sad hearted mothers looked their blue-eyed children in the face with sorrow. It was in those days of republican rule that grand men hung their heads because they were forced into submission to negro sway and negro authority—that was the day of the republican party in the south, the days of Grant and the "Biter Bit."

But reconstruction came. The negro and the republican party were dethroned and again the white men of our land ruled the country. Our judges were southerners, our juries were white men, our tax collectors were men of our own selection and our magistrates were our neighbors. Then came sunshine and gladness into the hearts of our wives and sisters and sweethearts; then the boys of the land looked into the faces of their fathers not ashamed of their ancestry but proud that they were descended from such noble stock; then our old men resumed their accustomed ways and their hopeful faces and cheerful voices were such as become the proud sons of a great state! "The Biter Bit," with all its hateful suggestions and the republican party with all its love for the negro had been routed and the land again belonged to its true heirs—the white people of the Southland.

[illegible] party, [illegible] thousands [illegible] of negroes [illegible] must [illegible]

bined forces are almost equal, politically, to our own when we are divided. The democratic party has cast them off and placed them where they cannot ever hope to become a factor in state politics again, the republican party has sought again to enthrone them.

It is true that there was once a wing of the republicans called the "Lily Whites" who would not affiliate with the negro, but seeing that they could not maintain their party without the negro they have again consolidated with the thick-lipped and kinky-headed brother and through his vote and influence seek to build their party again.

In Chilton county there are but few negroes and we need never fear negro domination, but there are many thousands of them just across the border in other counties, and we as children of white parents who in those old days struggled to stay the hand of the negro cannot allow ourselves to be deceived into the thought that by affiliating with the republican party we are giving hope and encouragement to the negro.

In the republican state convention they adopted a plank looking to the annulment of the poll tax regulation which, if adopted into law, would again give to the negro the right to vote. Yet these same men who composed that convention will tell you that they have no use for the negro and will not tolerate him in office.

We are dallying with edged tools when we permit them to gain one inch of the ground for which our fathers fought in the olden days. We are tempting fate when we, for the sake of a few minor offices, put republicans to rule over us even though they be good white men, for by so doing we are giving aid and encouragement to negroes in other parts of the state to fight on and hope ever.

We ourselves will never have them in our county, but think of the white man in other counties who are asking for your protection from any such possibility.

It was the republican party which gave the negro a vote. It is the republican party today which is fostering the negro vote. Avoid the conclusion, if you will, if you can! The republican party, once in power in this state, will enfranchise the negro and through him perpetuate themselves in power.

Are you with the democracy or with the republicans? Where are you, O man of straight hair and bright blue eyes? With whom will you cast your lot and to whom will you lend your aid and encouragement? In the name of your wives and children will you vote for the party who would thrust upon you the views of the book called the "Biter Bit." Where do you stand and with whom will you vote?

A man who did not live in the south but who was a party on the other side in the days of reconstruction; a man who in those old days was affiliated with the republicans of the north and was helping to force the negro upon the people of the south, is not a fit man to lead the people of Chilton county in these days when the negro is again hoping for recognition. His views on the negro question and his protestations that negroes will not come into office should count for nothing. In the olden day that same man, or those same men, may have been the prime spirits in waiving the bloody shirt and in crying for negro heels upon white necks. When you trust your leadership to men be sure they are men who have the same impulses and the same love for home and land that you have. Be careful in following those who in the dark days were against you and yours.

We have many good friends among the republicans; there are some men in the party whom we love. We are sorry that they are in the party. We do not believe that they would vote for or affiliate with the negro any sooner than we would. We know they are pure-minded and high-toned, but they are in bad company. We do not think that for a moment when they support a negro for office and yet they are with the party which not only does support negroes for office, but actually creates offices in order that a negro may receive it. We are sorry that it is true. We believe that when they come to realize just where they stand they will back off from the organization which seats negroes in its conventions and listens to their "wisdom" in the selection of officers.

Come, be honest with the people; how many were there in your community when you endorsed Barker of Calera after refusing to endorse him at Thorsby? Did Charley [illegible] make you take the pill or did you just shut and take it anyway?

County Correspondence

MAPLESVILLE.

Last week we spoke of the crops and suggested that if we could have a little sunshine and then a gentle rain the prospects for crops would be good. We have had both and every farmer should be proud.

A crowd of our young folks went over to Mount Nebo last Sunday to enjoy the Children's Day exercises at that church. We do not know how they enjoyed the ducking that they received on their return home.

Mr. William Potts and daughters, of Limestone County, Texas, are here on a visit to his brother, Mr. Thomas Potts; he has not been in this section before for twenty-seven years.

Mr. Hardie Giles from the Sardis neighborhood was here last Monday shaking hands with friends.

Kincade, of Autaugaville, who has been a student at Birmingham colleg is extremely low with typhoid fever; we understand that there is quite a lot of typhoid fever now and that the doctors are kept busy attending their patients.

Maplesville is now being supplied with an abundance of fine Spring chickens; the prices are reasonable and the demand good.

We did not like the way the piece from West Chilton sounded last week. We love our county and think it is a white man's county and that no one but white men should sit in conventions. We think the writer should have signed his name as the piece was fully worth while and has attracted considerable attention.

Mr. V. P. McKinley, who was reared some ten miles west of here in Perry county is here representing the high schools of Troy. Mr. McKinney is one of those real good self-made farmer boys who bless the world wherever they go. He graduated at Troy and took a special course at Columbia University and afterward accepted a position with the Troy school.

Mr. T. K. Marshall, of Selma, accompanied by his grand daughter, are here looking after their property. Miss Lawrence, the grand-daughter, is the heir to the W. D. Lawrence property.

Since Mr. Bowen Jones left here there is quite a race to see who will get the most beef trade. There are about four butchers here now.

J. W. M.

MULBERRY.

I would like to have a small space to state through your columns that there will be an all day singing at this place the fourth Sunday (July the 24th). The books expected to be used are "Onward Songs" and Lyrics of Praise. Prof. J. D. Patton and H. M. Eagle are expected to be here with their classes. Let everybody come and bring your books and baskets well filled.

For fear that some few of our own people in the community do not understand how it came about just after having a singing a few days past I will say that I am under the impression that Prof. Patton has selected his places at which he might sing while engaged in the work as teacher or instructor. It would be an honor to the community for every one to come and take part in making this singing a great success. We cannot well afford to miss hearing him on this occasion. I have had the pleasure of hearing him before and I am very anxious for every person who can possibly be there to come. It may be that you have heard some good singing but you never heard one like Prof. Patton. The people of this community are the ones that I especially urge to be there.

While Prof. Patton was not given an especial invitation at this time we are extremely glad to have him with us and are much gratified that in making his list of appointments he included us.

I yet remain the one that stands for centralization and better citizenship.

H. R. O.

MOUNTAIN CREEK.
Soldiers' Home.

On July 12 the Soldiers' Home had a visit from Mr. T. M. Murphus, of Pike county, who, after going the rounds of the home, talking with the veterans and inspecting all the arrangements for comfort, etc., attended a meeting of our U. C. V. Camp. At the proper time he was called upon and delivered a most interesting address. Mr. Murphus lives in Troy and has for forty years diligently worked to prepare a record of all the veterans of his country. This record he has placed in the office of the Probate Judge and it has been of great assistance in establishing the claims of the applicants for pensions, especially in the case of soldiers' widows. Mr. Murphus was delighted with the Home and he pronounced it the very best Soldiers' Home which he had ever visited. He promised to write an account of his impressions for publication.

JEMISON.

Go It Alone.

In battle or business, whatever the game,
In law or in love, it is ever the same;
In the struggle for power or the scramble for help,
Let this be your motto, Rely on yourself;
For whether the prize be a ribbon or throne,
The victor is he who can go it alone.

—Peatts' Magazine.

Jemison is doing something in solving the best methods for raising corn. Our farming friends are going about it in a scientific way and find that they are getting better results.

Quite a number of our young men left Sunday for points in the northern part of the state. Some were thinking of investing in the canning industry and others anticipated spending a few weeks at Blount Springs for their health. We learn that they were not very favorably impressed with their surroundings, so they returned Monday afternoon.

Mrs. Butler, from Sterrett, and Miss Hunt, from Birmingham, are visiting relatives here.

Miss Henry, from Montevallo, was the guest of Miss Patton the past week.

Our young people are making merry these moonlight nights, picnics and hay rides galore.

Mrs. W. A. Reynolds spent Wednesday in the Magic City.

The singing at the Baptist Church Sunday afternoon was quite a success and was enjoyed by a large crowd. We had the pleasure of hearing Prof. J. D. Patton sing.

ANON.

FAIRVIEW.

School at this place is progressing nicely.

The debating society will have an entertainment Saturday night, July 30.

Not considering that the people of this community did not know of the educational rally in time to make much preparation for it, it was a success. We wish to congratulate the gentlemen for their good speeches. May it be a benefit to their school at Thorsby and may this school be a monument to their efforts put forth to the cause of education. We invite them to come again.

Disregarding the rain last Sunday the 10 o'clock hour found a large audience, seated and standing, in Mt. Nebo Church, anxiously waiting for the children's day exercises to begin. We believe there was no one disappointed if he went there to hear the eloquent voices of the children as they recited, sang and prayed. They proved that they had had some skillful trainers and that they were equal to any one who might undertake the task of training them. They showed that their genius and ambition are great and their talent equally as good. We are pleased to think that the responsibilities of this community will rest upon the shoulders of the ones who are now the boys and girls, but will then be the citizens of Fairview.

Prof. D. C. Culp and Miss Ella Tunnell were married at Mt. Nebo Wednesday, July 13. Mr. Culp is one of the most prominent young men of our community, and has a bright future before him. He has made a good choice for his companion, who is worthy of sharing any honor that he may gain. We extend to each of them hearty congratulations and best wishes.

Political news is somewhat scarce this week, although the candidates are stirring about a great deal. We expect issues to get lively after the Republican primary.

We wish to congratulate the Press for the facts obtained from the convention at Birmingham and would like to know if the people will vote a ticket that is in favor of negroes returning to the legislature and other important offices.

Here is a wish that the Press will be successful in giving the facts to its readers. That's what we want.

ROUNDER.

STANTON.

The people of our community have been very busy since the rains and if they will discontinue for a few days more they will be ready for the final wind-up.

We regret to say that Mrs. E. T. Elders is confined to her bed with fever. We wish her a speedy recovery.

Mr. and Mrs. Lloyd Smitherman, of Birmingham, have been spending the week with relatives in Stanton.

Mrs. Farington of Wilton, Ala., has been spending a few days in Stanton with her mother, Mrs. Connell.

Candidates! Gee Whiz!! We had them on last Thursday. First came Lige Latham for lawyer and then oh my, Jackson, Shaw and Smith. Reynolds or Smith one will surely be beat and we hope both.

Saturday, July 16th, Stanton went up to Maplesville to play a game of ball. Maplesville had them going until the sixth inning. Three on basis and none out was more than they could stand, so they deserted their post, giving the game to Stanton. Score 4 to 0. Come down boys and let us try you on our diamond.

Miss May Cox of Tuscaloosa spent a few days in Stanton this week with her mother.

Mrs. C. A. Lawrence of Plantersville spent Friday with Mrs. W. O. Perry.

Mrs. Bird of Oklahoma, is visiting her sister, Mrs. Perry.

Mrs. Harvill, we are glad to say, is improving under the treatment of Dr. Parnell. We trust she will continue to improve until well.

Mrs. W. W. Gaudy of Riderville, was a visitor to Stanton last week.

Miss Walters of Birmingham is visiting Miss Clemmie Ruddick.

Mrs. J. E. Melton has returned from a few days' visit to relatives in Selma.

The Crochet Party given by Leon at the residence of his father Mr. W. C. Dyer was quite an enjoyable affair.

Rev. L. M. Bradley, of Selma, will begin a protracted meeting at Ebenezer Baptist church on next Saturday. Everybody is cordially invited to attend.

Mrs. Ed Osborn has been spending a few days with her daughter, Mr. Lawrence.

Mr. E. M. Fitts, of Plantersville, visited his parents in Stanton.

With many good wishes to our editor, I am, very respectfully,

DEMOCRAT.

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton County, State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Co., a corporation, out of the goods, chattels, lands and tenements of the said Parsons Lumber Co., in favor of S. A. Blasengame, I have levied on the following property, to-wit:

One saw mill, two engines, one Log Cart, one Slab Elevator, eight Live Rollers and one gasoline engine.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Parsons Lumber Co., in and to the above described property, on Friday the 22nd day of July, 1910, during the legal hours of sale, at the Court House door in Clanton, Chilton County, Alabama.

Dated at Clanton, Ala., this 5th day of July, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.

The State of Alabama, Chilton County, Probate Court. J. S. Johnson, Jr., et al., deceased, estate of.

This day came N. S. Johnson, guardian of Samuel Johnson, and filed his statements, accounts, vouchers and evidences for a final settlement of his said guardianship. It is ordered that the 13th day of August, 1910, be appointed a day on which to make such settlement, at which time all persons interested can appear and contest said settlement if they think proper.

L. H. REYNOLDS,
Probate Judge Chilton County.

You Know Your Business From A to Z

But unless you have a Bank Account you may not be able to conduct your affairs of a financial nature to the best advantage. By paying all your bills and debts by check, you avoid all later disputes that might otherwise arise.

Make it your business to come to this bank and open an account.

Drop in.

Feel at home.

Always welcome.

THE CLANTON BANK

Clanton Pressing Company

George Kilgore, Manager.

The place to have your clothing cleaned by skilled artists. We know the PRESSING BUSINESS from beginning to end. We guarantee satisfaction. Prices moderate. Work excellent. Work delivered promptly to any address.

Second Floor Headley Building.

Good for Dr. Higgins

We today learn that Dr. Higgins has fitted one hundred pairs of eyes with glasses since he returned from college on October Eighteenth, 1909.

The hundredth patient was Mrs. Cobb, of Jemison, Ala, who was sent to Dr. Higgins for treatment by Dr. McNeill.

We desire to ask the people if the leading physicians of your county recommend Dr. Higgins in fitting glasses, and he holds the second prize for the State of Alabama in OPTICS, won at the recent meeting of the State Optical Experts. Can you afford to buy cheap spectacles or go off to other towns to have your eyes treated with glasses?

Dr. J. V. Higgins gives personal attention to every patient. Remember the place.

Many Farmers

WHY would like to keep an account of their receipts and expenditures if some one would keep it for them.

Open a Bank Account with the People's Savings Bank and you will find the account keeps itself, with no expense.

NOT Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts. Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It's a handy convenience to the farmer as well as the business man.

YOU!

THE PEOPLE'S SAVINGS BANK

A Night's Lodging In The Sixteenth Century

By E. S. Batee.

OFTEN before the inn came in sight, the traveler would see his Italian host. Sometimes the host would have touts as far away as seven or eight leagues to buttonhole foreigners, carry their luggage, promise anything, and behave with the utmost servility—till the morning of departure. But with all this, to expect them to provide clean sheets was to expect too much, and as the nation was grievously afflicted with the itch, it was desirable for the visitor to carry his own bedding. In many cases, we find the tourist sleeping on a table in his clothes to avoid the dirtiness or the vermin of the bed. Still, in Italy, as a rule, you shared your bed with these permanent occupants only. In Spain you were sure to do so; one man, one bed, was the custom there. In Germany the custom was just the reverse; in fact, if the tourist did not find a companion for himself, the host chose for him, and his bed-fellow might be a gentleman, or he might be a carter; all that could safely be prophesied about him was that when he came to bed he would be drunk. The bed would be one of several in a room; the covering, a quilt warm enough to be too warm for summer, and narrow enough to leave one side of each person exposed in winter. That is, supposing there were beds.—Atlantic.

An Ad in This Paper Will Pay.

WOMAN SMUGGLERS.

Some Feminine Tricks Played on the Customs.....

Women have been declared to be born smugglers—possessors of a turpitude that recognizes no wrong in defrauding a government. Armed with arguments in defence of my kind, I prepared to discuss the question with the Collector of the Port of New York, but at my first suggestion of our reputed delinquencies Mr. Loeb interrupted me.

"That is an idea to which I will not assent," he said emphatically. "Women by nature are not smugglers. Moreover, the average traveler is honest."

"Men are my authority for the statement," I urged. "Husbands, at any rate, are always telling stories of the cleverness and delight of their wives in outwitting officials."

"I have heard them joke," the Collector replied, "putting their wives under the ban of an idious stigma. For such men I have only contempt."

Although, with his vindication, my own carefully prepared line of argument was rendered unavailable, leaving me in midair, as it were, without the support of a leading question, it served to call out the following story:

Not long ago a second-class passenger came in who was known to have been the purchaser in Europe of valuable optical instruments, but he declared nothing and nothing was found in his baggage. In his party, however, were two women, his wife and her friend. Suspicions were excited and the women were examined. The optical instruments were found concealed about the waist of each—heavy loads indeed to carry on consciences as well as on waistbands. The officials were in a dilemma. The man could not be arrested, for he had not smuggled. The women had, but could they be imprisoned? One carried a nursing baby, the other was burdened with a sick child. Considerations of pure humanity set them free.

Had I not been bent on defending women I might have told the Collector of a story in which the tables were more adroitly turned on an unsuspecting husband. He was a retired general, a martinet in discipline, and overscrupulous regarding even the shadow of laxity in the performance of his own obligations. "No smuggling was to be permitted," he told his wife, and before leaving Paris he insisted on making a full list of every dutiable article in his possession. Unknown to him, she bought several yards of Venetian lace. How to hide it was a problem until she thought of ripping the lining of his overcoat and hiding the lace inside. She regarded her cunning as a tremendous joke, and to this day he does not know how she laughed to herself when, wearing that very same coat on the dock, he drew himself up to his full military height and with free conscience pointed to a tray containing "all his purchases." No idea of anything so serious as defrauding the Government had ever entered her frolicsome mind.

In France distinctions are made between the honest and the dishonest traveler, and during the autumn of 1909 the foreign papers published a long series of instructions from the chief of the bureau in Paris to his subordinates, admonishing them to greater consideration and courtesy, more discretion and the exercise of finer intelligence in the discharge of their duties.

We American women find the customs law peculiarly oppressive because it is almost the only law with which most of us ever come in contact. We go about our tasks at home, live out our days and die, without a thought of legal obligations. We are proud of our freedom, too, when we travel, glorying it it, boasting of personal liberty, as the very breath of our national existence, demanding, because of it, the overthrow of so many social traditions abroad that our less favorable sisters on the other side regard us with awe and envy. Then we start home. One day a steamship steward knocks at our stateroom door, hands us the Government's printed form of declaration and the "Notice to Passengers." Suddenly, for the first time in our lives, we find ourselves "bump up against" the law. Some of us cannot understand it. We tremble; our hearts beat. We have consultations with friends and strangers. Blood-curdling stories are told. We can think of nothing else, talk of nothing else. Where have we packed our new things, where our old? Will they dig out everything? Will they believe us? Those little presents we have brought in—are they presents until we have declared them? And so on and so on until our last days become a nightmare compared with which seasickness is a paradise. Neither is there any man to protect us with any of those liberal "interpretations" which stand most of us in stead. We must go through the ordeal as we go through death—alone!

Some women are noble enough to accept the law smilingly. "My father gave his life to the making of laws for this country," said the daughter of a distinguished Senator, now dead, "and my business is to respect those laws. I pay my duties gladly, happy to do that much for the Government which protects me." Meantime, others of the honest rebel, though if we are honest "we must obey," as the old-time child-song has it. There is no escape from the law as long as it stands. Sophistries are not possible. The law is there before us in black and white, inexorable, compelling. To point, in a defence of our rebellion, to greater frauds practiced by those at which the law's administrators have long winked is neither fair nor dignified. This thing only we can do—agitate the question if we will, urging calmly and soberly just and sufficient reason why the law should be altered in our behalf. —Century.

They Are For Sale.

Dr. Harvey W. Wiley, the Government's food expert, was talking about a notorious case of food adulteration. "The morals of these people!" he said. "It is incredible. But I know a little boy who will grow up and join them some day. I was walking one morning in a meadow when I saw this little boy gathering mushrooms. 'Have you had good luck?' I asked. 'Fair,' he answered, showing me his basket. But I gave a cry of alarm. 'Why, my lad,' I said, 'those are toadstools you've got. They're poison, deadly poison.' He tipped me a reassuring wink. 'Oh, they ain't for eatin', sir,' he said, 'they're for sale.' "

A Widower's Proposal.

It was understood that she was both kinds of widows and many times engaged. Anyway, she had had many different sorts of proposals in her twenty-eight years of coquetting. The latest came through the mail a few days ago. She had met the man on several occasions, knew him to be a widower, but never suspected that he had fallen a victim to her charms. So it took her off her feet when she received an envelope containing one of the late Mrs. L.'s cards and a little note accompanying it which read:

"I would ask you to use this card, and only this, for the rest of your life."—New York Sun.

Tacoma, Wash., is shouting over a population of 110,000, an increase of a little less than 200 per cent. in ten years. "Watch Tacoma grow!" seems to have been a good rallying cry, but wait until Seattle, Puyallup, Tatoosh and other places are heard from.

NEW YORK'S BABY EMIGRANTS.

Tiny Foundlings Leave the City For Homes in South and West.

Baby emigrants, all speaking baby language, are leaving New York City in great numbers, and, unless things are made more inviting for them, the juvenile population will be seriously depleted.

Wherever these small people have gone they have become so popular that many letters have been written to the New York Foundling and Orphan Asylum, offering special inducements if babies can be sent to play in childless homes.

A week ago seventy sturdy youngsters, between two and three years of age, pronounced sound in mind and body by physicians, left for New Orleans, Memphis, Chicago, and other cities, where they will grow up entirely ignorant of their doubtful parentage and forget all about the long journey they were forced to make.

As soon as a request is received for a foundling, the clergymen and agents of the asylum in the city from which the request is made are written to and inquiries made as to the kind of home the child will be sent to. If the answers are satisfactory a baby answering the request will be selected, placed in the baby quarantine for two days to make sure that it is in perfect condition, and then shipped in charge of a matron to its new home.

In talking about the class of homes that the Foundling Asylum prefers for parentless babies, the Mother Superior said:

"We always try to place the little ones in a home where they will receive a little better education than we can give them in the institution. We are not particularly anxious for them to be placed with farmers, as we do not think they would be as well educated as they would be if given to townspeople.

"Babies are always between the ages of two and three when they leave here, and, of course, we have a certain control over them until they come of age. It is our object to see that they get good homes; that the people are bright and not gloomy and that the babies receive religious training.

"From time to time our agents visit the homes, and we know exactly how things are going, and if the child is happy. If we find that proper care is not given the baby, then we take it away. Before a child leaves here we have it examined by our physicians, as no child who is not in perfect health is permitted to be placed with foster parents."—From the Sun, New York.

With the Funny Fellow

Down in the Jungle.

There was once a fuzzy old Hindoo,
Who said, "I make mighty thin clothes dat
Fact is, in July,
When the mercury's high,
I often make just my old skin do!"
—Louis Schneider, in Lippincott's.

A Definition.

"What is a parasol?"

"A parasol is just an umbrella that you never think of borrowing."—Boston Transcript.

More Substantial.

Poet—"Oh, for the wings of a dove!"

Lady—"Looks as if the wings of a fowl would suit you better."—Pele Mele.

Poultry Art.

"Why did they quarrel?"

"He made fun of her chantecler hat. Said it ought to be trimmed with boiled potatoes and dumplings."—Washington Star.

And Yet We Wonder at Crime.

Fuddy—"The name Smith dates away back, I understand. Can you tell me when it was first used?"

Duddy—"No; probably its origin is Smithical."—Boston Transcript.

An Old Friend.

Maybelle—"See the beautiful engagement ring Jack gave me last night."

Estelle—"Gee! Has that just got around to you?"—Cleveland Leader.

Applying Scripture.

Ethel (who, calling at the vicarage with her mother, has sighed for some time at a bowl of apples without result)—"I say, Mr. Browne, let's pretend I'm Eve and you're Satan."—Punch.

The First Compulsory.

Riggs—"Feeling out of sorts and been to a doctor, eh? No doubt he told you you must give up something."

Briggs—"Yes, $2 and smoking."—Boston Transcript.

Unlucky Title.

Maud—"I got this novel to send to Mr. Baerdohm for his birthday."

Ethel—"What's the title of it?"

Maud—"'The Lost Heir.'"

Ethel—"Don't do it. He's bald."—Boston Transcript.

Young Diplomat.

Mamma—"Jimmie, your little brother has the smaller apple. Did you give him his choice?"

Jimmie—"Yes'm. I told him he could take his choice—the little one or none—and so he took the little one."—Brooklyn Eagle.

Making It Final.

Master—"John, it's just possible a gentleman may call and inquire for me; if he does, say I've gone away."

Servant—"Hadn't I better say run away, sir? Else perhaps he'll come back."—Fliegende Blaetter.

The Other Way About.

Wife—"The landlord was here today, and I gave him the rent and showed him the baby."

Husband—"Next time he comes around just show him the rent and give him the baby."—Puck.

A Mistake.

"How did that man become so distressingly involved in a breach of promise suit?" asked one woman.

"Petty economy," replied the other. "Insisted on writing his own valentines instead of buying them at the stationer's."—Washington Star.

Reformation.

"You say you are a reformer?"

"Yep," replied the local boss; "of the deepest dye."

"But you were not always so."

"No. The reformers reformed our town last year, and I want to reform it back again."—Washington Star.

So Careless of Them.

Blunderby (with newspaper)—"This is sad. A man has fallen over a precipice and broken his neck."

Mrs. Blunderby—"Dear, dear! Ain't it awful how folks will leave things lying around for other folks to trip over?"—Boston Transcript.

Prevention.

"Do you believe that music prevents crime?"

"To a certain extent," replied Mr. Stanisk. "When a man keeps both hands and his breath busy with a cornet, you know he can't be picking pockets, attempting homicide or slandering his neighbors."—Washington Star.

Of course it is possible th[at] are women who are deaf to [it] admits the New York Times, [but] the ear specialists have never[y] ered one.

Says the Hartford Times: [Of] there can be no new tariff [act] between the United States [and] da in which mutual concess[ion] made which can be properly [de]scribed otherwise than as a reciproc[al].

SCIENCE AND MECH[ANICS]

Though heat will make a [so]lid incandescant, it can[not] crease the pressure of a [gas].

Recent statistics of the [U.S.] army show that neurasthenia [is] and a half times as prevalent [in] the soldiers as it was a dec[ade] while hysteria cases are [two] numerous.

An electric lighting plant in [Ja]ka is manufacturing ice as a [by]duct. The exhaust steam of the [en]which would otherwise go to [wa]is utilized in the ammonia [ab]process of ice manufacture, [and] for distilling water from [wh]ice is made. THE EPICURE'S CORNER

Cocoa Biscuits.

Two cups or one pint of sifted flour, three level teaspoonfuls baking powder, one-half teaspoonful salt, two level tablespoonfuls sugar, four level tablespoons cocoa, two level tablespoonfuls butter or lard, two-thirds cup milk or enough to make a firm but not stiff dough. Sift all the dry ingredients together, rub in the butter with the tips of the fingers, stir in the required amount of milk, turn out on slightly floured board, roll or pat out the desired thickness, place close together in pan and bake in very hot oven ten or fifteen minutes. —Boston Post.

Dropped Cookies.

One egg, one cup sugar, one-half cup shortening, one cup milk (if sour use one teaspoon soda; if sweet is used, use two tablespoons baking powder) and flour to mix stiff, but not as stiff as for doughnuts; one-half cup raisins, one-half cup currants, one-half cup nut meats, one-half cup chopped citron; drop by the tablespoon, not too near together, into a well buttered dripping pan and bake a tender brown—use half the mixture this way, then to the remainder add one teaspoon cinnamon and one teaspoon of nutmeg and one-half teaspoon cloves. Saves lots of work by not rolling out and looks so nice. If they run together cut into squares before taking from pan.—Frances Jelinah, in the Boston Post.

Two Desserts From Apple Jelly.

Soak one envelope gelatine in one cupful cold water two minutes. Pare, core, cut into small pieces twelve apples, and cook them in three cupfuls water until soft; then turn into a colander over dish and let stand till you have three cupfuls of apple juice. Pour this onto gelatine together with juice of two lemons and about one cupful of sugar. Stir well and place in mould. This makes one dessert with whipped cream or a custard.

For the Second Dessert—Rub the apples remaining in the colander through; add one-half cupful sugar, cinnamon, two drops lemon juice and one egg well beaten. Place in a buttered pudding dish and bake twenty minutes. Serve warm with milk or cream, and the jelly will keep till next day.—Mrs. E. H. Fish, in the Boston Post.

Cream Jelly Cake.

Two cups sugar, one cup butter, three cups flour, one-half cup milk, four eggs, one and a half teaspoonfuls baking powder or one teaspoonful cream of tartar, one-half teaspoonful soda.

Cream butter and sugar together, sift cream of tartar with soda into flour, add one-half the flour, one-half the milk and two of the unbeaten eggs to sugar and butter and beat well together, then add rest of flour, milk with the other two unbeaten eggs, and stir thoroughly together; bake in three tins to make three layers. Lemon jelly for filling is made as follows: Grate rind of two lemons, add it with the juice to one cup sugar, one cup butter, yolk of three eggs, place in double boiler, stir quickly until it jells, when cold spread between layers of cake. Frost to suit fancy.—Boston Post.

Curtains of undressed scrim, with a hem and a narrow lace edge, are popular for cottage use.

No flower should be kept in a house after it has lost its freshness. A stale bouquet hints too strongly of decay and death.

It is said that if common table salt is added to gasoline, spots can be cleaned on silks and other delicate fabrics without leaving a ring.

A much more wholesome sweet for children than anything which can be bought is home made toffee—made only of butter, sugar and lemon juice.

Beware of matches in the nursery. Little children often suck them, and may easily poison themselves in this way, even if they do not set their clothes alight.

All stains from strawberries, blackberries, etc., may be quickly removed by wetting the hands in cold water, and after lighting a match let the fumes pass through the fingers.

Very badly tarnished brass or copper that will not brighten with ordinary polish may be easily cleaned as follows: Dip a piece of cloth into ammonia, then rub it over a piece of soap; wipe the article with it; rinse off immediately and then use a fine sand soap, powder or other brass polish.

Flatirons if not properly cared for when put away will become rusty, especially if kept where dampness exists. If this should occur you will find that there is no better way to clean them than to wash them first in strong washing soda water and then rub them hard on a board on which some sort of polishing sand has been generously sprinkled. Emery dust is splendid for this. When finished the irons will look and work like new.

A Package Mailed Free on Request of

MUNYON'S PAW-PAW PILLS

The best Stomach and Liver Pills known and a positive and speedy cure for Constipation, Indigestion, Jaundice, Biliousness, Sour Stomach, Headache, and all ailments arising from a disordered stomach or sluggish liver. They contain in concentrated form all the virtues and values of Munyon's Paw-Paw tonic and are made from the juice of the Paw-Paw fruit. I unhesitatingly recommend these pills as being the best laxative and cathartic ever compounded. Send us postal or letter, requesting a free package of Munyon's Celebrated Paw-Paw Laxative Pills, and we will mail same free of charge. MUNYON'S HOMOEOPATHIC HOME REMEDY CO., 53d and Jefferson Sts., Philadelphia, Pa.

A smile at the psychological moment is an asset in social life.

Real grief and genuine honesty don't have to advertise.

Farm Property.

The increase in the value of farm property of $8,000,000,000 between 1900 and 1907 is nearly nine times as great as the aggregate national banking capital of the United States. It is more than one-half as large as the total capitalization, bonds and stocks included, of all the railroads in the United States. It is nearly three times as large as the aggregate savings bank deposits of the whole country.—Manufacturers' Record.

SOFT, WHITE HANDS

May Be Obtained in One Night.

For preserving the hands as well as for preventing redness, roughness, and chapping, and imparting that velvety softness and whiteness much desired by women Cuticura Soap, assisted by Cuticura Ointment, is believed to be superior to all other skin soaps. For those who work in corrosive liquids, or at occupations which tend to injure the hands, it is invaluable.

Treatment.—Bathe and soak the hands on retiring in a strong, hot, creamy lather of Cuticura Soap. Dry and anoint freely with Cuticura Ointment, and in severe cases spread the Cuticura Ointment on thin pieces of old linen or cotton. Wear during the night old, loose gloves, or a light bandage of old cotton or linen to protect the clothing from stain. For red, rough, and chapped hands, dry, fissured, itching, feverish palms, and shapeless nails with painful finger ends, this treatment is most effective. Cuticura Remedies are sold throughout the world, Potter Drug & Chem. Corp., sole proprietors, Boston, Mass.

Strange Obstinacy of a Mexican.

Thursday evening as the express train of the Mexican Central was approaching this city, the engineer observed an Indian shepherd lying on the track. The engineer whistled five or six times, but the man would not get up, and it was impossible to stop the engine in time. The pilot of the locomotive struck the head of the prostrate man and rolled him down the embankment.

When the train was stopped and the conductor and some of the passengers alighted to look to the man it was found that, though he had suffered a rather severe scalp wound, he was not dangerously injured. He was able to sit up while his head was bound with his wife's reboso. Some of the passengers wanted to bring in the Indian to be attended to at one of the police stations of the city, but he absolutely refused, and, getting up, he walked without difficulty with his wife to a neighboring hacienda, where he is employed.

He would give no explanation as to why he had refused to move from the track when he heard the train approaching.—Mexican Herald.

Castle Ashby and Its Texts.

Castle Ashby, the residence of the Marquis of Northampton, stands alone among all the "stately homes of England" as embodying in its architectural features texts of Scripture in solid masonry set out for every one to see in the most prominent places possible. The porter's lodge at the entrance to the mansion bears on its cornice the inscription in Latin, "The Lord preserve thy coming in," and on the inner cornice the text, "The Lord preserve thy going out." The same ideas have been carried out in the design of the balustrades of the terraces surrounding the lawns and flower beds, which make the gardens of Castle Ashbuy among the most beautiful in the country.

The mansion itself is unique, as all its pediments are composed of texts of Scripture in Latin. Commencing at the south end of the west wing is the inscription, in bold letters, "Except the Lord, the Keeper, keep the house, in vain he watches who keeps it." Then follows another inscription dated 1614, the year the house was completed, "Except the Lord build the house, they have labored in vain who build it." Along the outer balustrade we read, "Blessed are they who fear the Lord, who walk in His ways. Praise ye the Name of the Lord, Amen." Lord Northampton is, it may be stated, president of the Bible Society.—The Treasury.

ACTOR LIKES AMERICAN PUSH.

Forbes-Robertson Says This Country is More Progressive.

"How do conditions on the stage in America compare with the prevailing state of affairs in England?" Forbes-Robertson was asked in the course of an interview.

"You are progressing faster than we are, I think," he replied. "There is more enterprise over here. Wonderful things are being accomplished and we have much to learn from you.

"My first visit to this great country," continued Mr. Robertson, "was made twenty-five years ago, when I came over to play leading parts with Mary Anderson. Since then I have crossed the Atlantic many times, and always to find that in the interval your energetic American managers had evolved something new to please and entertain the public.

"Miss Anderson's retirement was a great loss to the stage; in fact, I do not think the void it created has even been filled. She had what is so rare among actresses in these days — a great classic intuition and the declamatory sense, which is not nearly so common as one would think. Aside from being very beautiful, she was one of the most intelligent and cultured women I have ever met, and a great student, and she was the possessor of a remarkably sympathetic personality."

Mr. Robertson relates many interesting reminiscences of Modjeska, the great tragedienne, for whom he was also leading man. It was they who first inaugurated the custom of presenting Shakespeare out of doors.—Buffalo News.

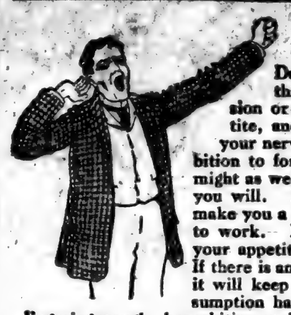
Dangers of Rice.

Rice is kept for use in the Orient in its husk—just like horse oats or unthreshed wheat. It is called "paddy," and is beaten or threshed for daily use. But pure husked rice is too rough and unattractive looking for world markets, so it is polished in revolving cylinders with French chalk to make it pretty, pearly, smooth. But this robs it of its outer layer and most valuable fool qualities. Polished rice is regarded as poison in Japan, and is known to produce the dreadful epidemic disease, beri-beri, in Japs who live too exclusively on a rice diet and eating little or no meat.—Tip in the New York Press.

A BAD THING TO NEGLECT.

Don't neglect the kidneys when you lack control over the secretions. Passages become too frequent or scanty — urine is discolored and sediment appears. No medicine for such troubles like Doan's Kidney Pills. They quickly remove kidney disorders.

Mrs. Mary Wagner, 1367 Kossuth St., Bridgeport, Conn., says: "Physicians were unable to relieve my kidney trouble and for five weeks I was confined to bed. The kidney secretions caused me untold annoyance and I suffered from bearing-down pains in my back. When almost in despair I began using Doan's Kidney Pills and soon felt better. Continued use cured me and for five years I have enjoyed excellent health."



Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

The man who thinks all the time accomplishes much less than the one who stops every now and then long enough to act.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take.

Some men who are too lazy to move become regular sprinters when it comes to running into debt.

Knowledge is power only when backed by the genius of application.

Do You Feel This Way?

Do you feel all tired out? Do you sometimes think you just can't work away at your profession or trade any longer? Do you have a poor appetite, and lay awake at nights unable to sleep? Are your nerves all gone, and your stomach too? Has ambition to forge ahead in the world left you? If so, you might as well put a stop to your misery. You can do it if you will. Dr. Pierce's Golden Medical Discovery will make you a different individual. It will set your lazy liver to work. It will set things right in your stomach, and your appetite will come back. It will purify your blood. If there is any tendency in your family toward consumption, it will keep that dread destroyer away. Even after consumption has almost gained a foothold in the form of a lingering cough, bronchitis, or bleeding at the lungs, it will bring about a cure in 98 per cent. of all cases. It is a remedy prepared by Dr. R. V. Pierce, of Buffalo, N. Y., whose *advice is given free* to all who wish to write him. His great success has come from his wide experience and varied practice.

Don't be wheedled by a penny-grabbing dealer into taking inferior substitutes for Dr. Pierce's medicines, recommended to be "just as good." Dr. Pierce's medicines are OF KNOWN COMPOSITION. Their every ingredient printed on their wrappers. Made from roots without alcohol. Contain no habit-forming drugs. World's Dispensary Medical Association, Buffalo, N. Y.

WINTERSMITH'S CHILL TONIC

MITCHELL'S EYE SALVE 25¢

WOOD USED IN AIRSHIPS.

Why It Is Preferred by Builder of New German Dirigible.

The new dirigible designed by Prof. Schutte, of Dantzig, is now in course of construction at Rheinau, near Manheim, says the Kolnische Zeitung. The wooden framework is already nearly complete. Wood has been used in preference to metal for two reasons, to save weight and to minimize troublesome atmospheric electrical phenomena.

The airship is to be somewhat larger than the last Zeppelin. The balloon troper is 138 meters long and its greatest diameter is seventeen meters. It is cigar-shaped, having its maximum proper is 138 meters long and its length, and then gently tapering behind. This form is said to offer a minimum resistance to the wind.

The wood is prepared in small sections, free from knots, a few millimeters in thickness. These sections are glued over one another crosswise to form thin, narrow but extremely strong planks. The whole framework will be concealed from view by the outer covering of the balloon. There will be eleven inner ballonets, just as in the Zeppelin.

The steering gear will be placed immediately below the balloon, and consists of a rudder, governing lateral movements, and two elevating rudders. The two propellers will be directly connected with the motors in the car. Each propeller shaft will be driven by two motors. The motors will be able to develop in all 600 horse-power. The car is to be so suspended that in the air it will be rigidly connected to the framework of the balloon, but as soon as it touches the ground the connections will become slack, thus taking off part of the weight and guarding the body of the balloon from injury by shocks.

Looping the Loop.

Years ago, when there were only wooden sidewalks in the city of Winnipeg, Canada, holes were bored in the planks to let the water run through. In the morning twilight a policeman found a man with the tip of his wooden leg in one of these holes and hurriedly walking around it.

"What are ye doin' here?" asked the policeman.

"G'way, offaher," said the man. "Got to get home before ol' lady wakes up." —Everybody's Magazine.

Salts and Castor Oil—bad stuff—never cure,

only makes bowels move because it irritates and sweats them, like poking finger in your eye. The best *Bowel Medicine is Cascarets.* Every Salts and Castor Oil user should get a box of CASCARETS and try them just once. You'll see. 884

CUT THIS OUT, mail it with your address to Sterling Remedy Company, Chicago, Ill., and receive a handsome souvenir gold Bon Bon Pin.

Try Murine Eye Remedy

For Red, Weak, Weary, Watery Eyes and Granulated Eyelids. It Soothes Eye Pain. Murine Eye Remedy Liquid, 25c. and 50c. Murine Eye Salve, 25c. and $1.00.

The reason some men don't sacrifice their self-respect for a little money is that they have the money and they haven't the self-respect.

It was in this very cottage in Brookside, 15 miles from Birmingham, Ala., that three Italians nearly died of Fever. They had been sick 3 months. Johnson's Tonic cured them quickly—read letter below:

Brookside, Ala., May 4 1909.

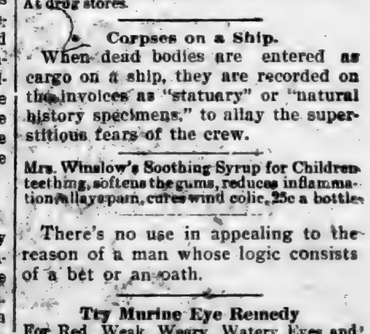
The two physicians here had 3 very obstinate cases of continued Malarial Fever. All were Italians and lived on a creek 50 yards from my store. These cases were of three months standing, their temperature ranging from 103 to 104. The doctors had tried everything in vain. I persuaded them to let me try Johnson's Tonic. I removed all the print of matter and let the medicine go out in a plain bottle as a regular prescription. The effect in all three cases was immediate and permanent. They recovered rapidly and there was no recurrence of the Fever. E. B. SHIPLETT.

Write to THE JOHNSON'S CHILL & FEVER TONIC CO., Savannah, Ga.

Frequently the best way to "make good" is not to say anything.

The average summer resort is not what it's cracked up to be when the price is considered.

For HEADACHE—Hicks' CAPUDINE Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c. and 50 cents at drug stores.



There's hope for any young man who is willing to acknowledge every now and then that he has made a fool of himself.

A good many people undertake to pass off a grouch as individual mentality.

The average man who is hen-pecked has nobody to blame but himself for getting in that condition.

Some women would walk half a mile to keep from hearing a compliment to their rival.

The clever woman is the one who knows how to switch the conversation into the channels of her own intellectual specialty.

E. F. MEAD
Manufacturer of Concrete Tiling for well curbing and culverts. Crushed stone and cement always on hand.
Thomaston, Alabama

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county and state of Alabama, in favor of Edward Thompson & Co., and against Thomas Curry, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Thos. A. Curry out of the goods, chattels, lands and tenements of the said Thos. A. Curry, I have levied on the following property, to-wit:

W. 1-2 of N. W. 1-4 Section 23, Township 22, Range 12, 80 acres. S. E. 1-4 of N. E. 1-4, Sec. 22, Township 22, Range 12, 40 acres. S. W. 1-4 of S. W. 1-4, Sec. 21, Township 21, Range 13, 40 acres. E. 1-2 of S. E. 1-4, Sec. 20, Township 21, Range 13, 80 acres. S. 1-2 of S. E. 1-4 Sec. 30, Township 21, Range 13, 80 acres. S. E. 1-4 of S. E. 1-4 Sec. 3, Township 21, Range 13, 40 acres.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Thos. A. Curry, in and to the above described property, on Monday, the 11th day of July, 1910, during the legal hours of sale, at the Court House door, at Clanton, in Chilton County, Alabama. Dated at Clanton, Ala., this 7th day of June, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.

We are offering special rates on the Birmingham Daily News and Clanton Press for the next thirty days. No opportunity like this ever offered for securing a full daily telegraphic news service and your own county paper.

We make this special offer for the next thirty days only. Cayy at Clanton Press offices and leave your subscriptions. tf

NOTICE TO NON-RESIDENT.

The State of Alabama, Chilton County. F. M. Wood, trading as The Clanton Press, vs. T. L. Carter, trading as Clanton Furniture Co.

Before me, as Justice of the Peace, this, the 5th day of July, 1910, came the plaintiff in the above entitled cause, and it appearing that certain property of the said defendant has been levied upon, to-wit: One bedstead, one bureau, one wash stand, by virtue of an attachment issued from my office on the 15th day of June, 1910, and that said defendant is a non-resident of the State of Alabama, it is, therefore, ordered that notice of said attachment and the return thereof, be given to the said T. L. Carter, trading as Clanton Furniture Company, by publication once a week for three successive weeks, to appear before me at my office in Clanton, Ala., on Saturday the 30th day of July, 1910, to contest said attachment if he sees proper, and that a copy of said paper be sent to said defendant, when his residence is known.

Given under my hand, this, July 5th, 1910.

J. P. VANDERVEER,
Notary Public and Ex-Officio Justice of the Peace. 3t

SALE OF PERISHABLE PERSONAL PROPERTY UNDER ATTACHMENT.

Guy Higgins vs. Pluma Leming, in the Circuit Court of Chilton County, Alabama.

Notice is hereby given that the personal property levied on in the above entitled cause, a more specific description of said property being hereinafter set out,—and said property being perishable in its nature, and liable to deterioration in value, and the charge of the keeping the same being very great, I, John S. Catts, the sheriff of Chilton County, under and by virtue of the mandate of the statute in such cases made and provided for sales of such property, when levied on under attachment, will proceed to sell at public outcry to the highest, best and last bidder for cash, on Tuesday, the 19th day of July, 1910, in front of the court house door in Clanton, Alabama, the following described personal property levied upon under a writ of attachment in said cause, to-wit:

One cornet in bass mule.
One black horse mule, name Bill.
Plow stocks, plows, and farming tools.
One buggy and buggy harness.
One two-horse wagon and harness.
One saddle.
One white and blue spotted cow about six years old.
One male calf about one or two months old.
One black sow and seven pigs.
Five pounds of barbed wire.

And the proceeds of such sale will be applied in accord with the mandate of the statute in such cases made and provided.

Witness my hand this, the 6th day of July, 1910.

Charles Wachter, Rhelms, July 3, 1910.
Hon. C. A. Rolls, Bournemouth, England, July 12, 1910.

Bournemouth, England.—The Hon. Charles S. Rolls, millionaire, distinguished man, daring sportsman and aviator and hero of the recent Channel flight from Dover to France and return, was killed here by a fall while flying with his Wright biplane. The machine suddenly buckled up while 100 feet from the ground, was overturned and the young aviator was dashed to the earth. Rolls was the third son of Lord Llangattock and noted in engineering and science.

The first flying tournament of the year in England was brought to a tragic close by the dramatic death of Rolls, who was the most daring and popular of British aviators. In the presence of a great company of spectators, a majority of whom were ladies and children, and many personal friends of the young aviator, the Wright biplane on which he was flying plunged suddenly with terrific speed from a height of 100 feet. It struck the ground close to the crowded grand stand, smashed into a tangled mass, and before the doctors and their assistants could reach the spot Rolls was dead.

The event in which Rolls was competing was for a prize for the aviator alighting nearest a given mark. The goal was directly in front of the grand stand where the spectators were massed. He had risen to a good height, then shut off his motor and was gliding in a broad circle toward the mark. Without warning the tail piece of the biplane snapped off. The machine gave a sudden lurch and the framework crumpled up in the air. When it struck the ground it was smashed to splinters.

The doctors found that Rolls had sustained a fractured skull. The wreck of the machine, and twisted stays surrounded the body so that there was difficulty in extricating him.

Great excitement followed the fatality, many women being on the verge of hysterics, while the body of Rolls was lifted from the wreckage of the machine and borne away. The officials of the aviation meet, however, mingled with the throng and soon restored quiet.

Immediately after the result of Rolls' accident was known, the committee announced that flying would be suspended.

Captain Rolls was flying in his French-built Wright biplane, in which he flew from Dover across the English Channel and back on June 2 last. He was the first to accomplish this feat.

In fact anything you choose to call for can be found in our stores. We cater to the ladies trade and delight to serve them. Our prices are so absurdly low that no one tries to meet them.

Give us a trial and convince yourself

G. L. DANIELS
The man who assists "CLASSY" Dressers. We do steam and dry cleaning in the most improved manner. Modern methods. Prices in keeping with the times. We call for and return all work.

Clanton High School,
CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will produce a nine months session, which will begin Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure a grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent and Secretary to High School Board, Clanton.

VOL. I. CLANTON, ALA., THURSDAY, JULY 28 1910. NO. 17

Register in Chancery

GENERAL NEWS.

A Sad Death.

On last Thursday, in the city of Birmnigham, there occurred a sad death. Young Mr. Jerome Speer, a son, of one of Chilton county's most progressive citizens, yielded up his life after a brief battle with disease. The body was prepared and shipped by the local lodge of Red Men, of which the deceased was a member, to Thorsby, and from that point was taken in charge by the Clanton Lodge of Red Men and conveyed to Isabella Church, where the interment took place. Mr. Speer was a young man, just in the prime of life; he had many friends and his prospects for a bright and useful career were promising indeed. To the bereaved ones the sincere sympathy of a large circle of friends goes out in this their hour of grief.

A Bakery and Confectionery.

Mr. O. O. Roper, realizing the necessity for a bakery in Clanton and believing that the possibilities of such an enterprise are great, has decided to immediately establish a first-class bakery in the town.

He is already in communication with several bakers of more than ordinary ability, with a view to employing one of them to take charge of this department of his business. He will have associated with him his son, who for the past five years or more has been connected with the famous Fitzpatrick restaurant of Montgomery. Mr. Roper expects within a very short time to be able to supply families and the trade with the very best baker's bread, hot buns and coffee rolls. Just where he will establish the bakery is not yet positively decided, but it is more than possible that it will be located in the building just west of Cooper Bros.

A modern oven will be installed and everything that appertains to a first-class bakery will be arranged. Mr. Roper expects to supply the local trade and to ship bread as far north as Calera and as far south as Deatsville. This will give him a territory of no mean proportions.

Now, if some enterprising citizen will follow the lead of Mr. Roper and establish a first-class tin and sheet iron shop, then Clanton will be on the high road to prosperity.

Water Works.

The PRESS some days since stated that it would not again venture any suggestions looking toward the improvement of the town or betterment of conditions as they now exist. At that time we were sincerely in earnest, because it seemed that every suggestion which was made, while it met with a hearty approval, got no further than the initiative state.

Clanton seems to be willing to have these things if somebody will bring them in and present them upon a silver waiter, and at the same time make a profound bow of obeisance. They do not seem willing to get out and hustle for them as do other towns. The PRESS has been making notes and has been watching the progress of other towns and how that progress has been accomplished. For this reason we have decided to set aside our former resolution and again call for concert of action on the part of our citizens. Birmingham is now raising a seventy-five thousand dollar free advertising fund. She is also placing stock among her citizens for the erection of a million-dollar hotel; and what Birmingham is doing other towns and cities in the state are doing. Clanton can and must fall in line and catch her share of the good things that are coming. We must not longer sleep upon our rights. There is no reason why Clanton should pay out such tremendous sums annually to keep the insurance companies plethoric; there is no good reason why practical business men should remain at the mercy of the fire demon when a little concert of action would not only save them thousands of dollars each year in insurance premiums, but would give them security from fire. A system of water works, installed now, would cost comparatively little, but if the matter is delayed till the town grows and spreads it will entail a tremendous sum of money to establish such a system as will be satisfactory to all the citizens. It is better to begin in a small way and add to the system each year than to wait and hope for a complete system in the distant future. The PRESS is confident that if one of our business men would get behind the movement it could and would be carried to successful consummation. We have been in conversation with many of Clanton's livest business men, each one of them favors the proposition, and they favor immediate action, but for some reason, they hesitate to take the initiative. It may be that they fear the storm of opposition with which the PRESS has met in its efforts to align the people in such issues. The water works system is not a luxury or a thing merely to be desired. It is an absolute necessity, without which no town can hope to grow.

The PRESS is not going to make any suggestions at this time nor is it going to call any meeting, but we are going to take the privilege of calling upon some of our citizens to express themselves upon the subject. We are going to do this without having first consulted them. We know they are interested; at least most of them are, for we have talked with them on the subject. We offer the columns of the PRESS free of all cost for the discussion. Let it be a free and full discussion; let's make suggestions, outline policies and decide upon something. There are many property holder here who are paying out insurance premiums each year greatly more than it would cost them for a complete system of water works, and these sums of money go into foreign pockets, swell the dividends of strangers and the property owner gets no return whatever, either in convenience, pleasure or comfort. The PRESS hopes that the gentlemen mentioned will pardon it for the liberty it takes, for we assure them it is done with only one point in view—the public interest—and we believe that every one of them will heartily endorse the course of the PRESS in making an effort to secure a system of water works and sewerage for Clanton.

Let us hear from Dr. Matthews, Hon. Tipton Mullins, Judge Reynolds, Mr. W. I. Mullins and Mr. W. T. Callen. If these gentlemen will get in behind the movement, will speak out in meeting and will pass around the contribution box, something will happen in the near future. If they remain quiescent, if they and their kind stand aloof from the movement, it will amount to nothing. Now, gentlemen, fire in your propositions, your suggestions. If you think it wise to call a citizens' meeting, do so, and the PRESS guarantees in advance that you will have the hearty suppoft and encouragement of the younger men of the town. Being one of them, we can speak for them. Let's have those water works and that sewerage system. Let's have it before the next summer comes, with its blistering rays and its fevers; let's have it begun NOW. Who will be the first to speak? Don't all wait on the other man, but rise up in meeting and SPEAK FOR YOUR TOWN. Who first?

A Merry Fishing Party.

Tuesday morning, bright and early, a merry party of fishermen and fisherladies left for Coosa river, where they expect to tempt the finny tribe for several days and enjoy the pure ozone that obtains in the beautiful valley of historic old Coosa river. In the party were Mr. Oce Foshee and wife, Misses Lena and Belle Carroll and Beatrice Culver and Messrs. Newton Askins, Will Wilson and Walter Culver. They went to Adams Ferry, where they will camp for several days. Newt Askins promised the PRESS to bring back enough fish to make a chowder, but he made that kind of a promise before. If he doesn't do it this time he'll find his name in the paper.

Corn. Corn.

Mr. Oscar Bates, of near Bice's Ovens, brought in to the PRESS offices one day last week a peculiar sample of corn. He says that he has quite a nice field of this corn. Besides making three ears to the stalk, it produces something in the neighborhood of a peck in the tassel. The sample brought to the PRESS offices was filled with silks. The ears had no "shuck" or outer covering whatever. There were forty-one ears, by actual count, ranging in size from that of a man'sthumb to as large as a well developed ear of popcorn. The sample was not by any means well developed, having been cut long before it reached maturity.

Prosperity and Preserves.

Mr. Dock Broadhead, of route 7, was a visitor to the PRESS offices last Saturday, nor did he come empty handed. He seemed to know by intuition just what the PRESS man and the office cat like best, for with him came half a dozen or more of the finest Elberta peaches that this scribe has ever seen. They were highly colored, as pretty as new shoes and as sweet as the taffy that boys dish out to the girls on moonlight nights. Several of them were as large as an ordinary coffee cup and perfect in formation. Mr. Broadhead says that he had fourteen trees of this partitular variety, all well fruited. As his boys they are going to have [illegible] preserved and [illegible] however, to [illegible] things [illegible] raises [illegible] and his cotton crop is going to be the surplus or money plant with him. Tired, so he says, of giving these western men all his cotton for a few bushels of corn to feed his stock, when he can raise it just as well as the western fellow and put the cotton money down in his jeans.

Club Life.

The members of the Inter-Se Club gave one of the most enjoyable parties of the season last Tuesday night at the home of Hon. and Mrs. Tipton Mullins. Perhaps no home in Clanton is so well adapted to entertainments as is this hospitable one. The club members, with their husbands (the married ones) and their sweethearts (the unmarried ones), participated in a "chicken barbecue." The pits were already prepared, having been arranged for a similar party on a former occasion. Fine, fat, yellow-legged chickens were slaughtered and placed on the barbecue pits, and each member of the club was given an opportunity to show her skill in the culinary art. Some were cooked to a turn, some were never turned and a few went beyond the turning point, in so much that it was thought advisable to call in the fire brigade. Nevertheless, it was a pleasant evening, and right royally did every one enjoy it.

Who Will They Be?

Not a little speculation has been indulged in by patrons of Clanton High School as to who would be the teachers to supply the places made vacant by reason of the fact that Misses Sample and Robinson would not return.

Prof. Monroe has not yet announced his selections, but it goes without the saying that whoever they are they will be thoroughly equipped for the positions which they are called upon to fill.

Prof. Monroe is making no mistake in taking sufficient time to select his corps of assistants, for upon them must rest largely the training of our young people; into their hands will be committed the management of these young people when they are laying the foundations for an after life.

The PRESS hopes to announce in its next issue the names of those who, besides Miss Stanley and Miss Lawrence, will be associated with Prof. Monroe for the coming session. The Board of Education is making every preparation to make the next session even more successful than was the last——and that is saying much, for last year's term of the school was the most successful in the history of Clanton's educational history.

The Preacher's Home.

Rev. R. J. Mills and wife will perhaps be the first to be benefited by the placing of the sewer pipe on Ninth street. It is well that it is so, for the poor circuit riding Methodist and Baptist preachers do not enjoy many of the material blessings of life.

For some years the stables attached to the parsonage have been crowded into a corner, just on the outside of the parsonage lot and in the street. The placing of the sewerage means the opening of the street to public use and the subsequent moving of the parsonage stables.

The Methodists will have to bestir themselves and provide some place for the keeping of the minister's horse. Then, too, it means that water will be placed in the residence and other conveniences provided.

The PRESS understands that arrangements have already been made for water connections and for other necessary improvements in and about the parsonage. We congratulate Rev. Mr. Mills upon being the first to reap benefits from Clanton's progressive spirit.

Will It Never Cease?

Now that the three political parties of Chilton have spoken and the candidates are rounded up for the final dash, it would seem that we ought to have a little rest from the politician and the officeholder, but it is not to be. Here comes the city election and the selection of a Mayor and aldermen. Under the present government Clanton has taken many and rapid strides toward development. There are yet many things to be accomplished and it behooves every citizen, and especially the property holders, to look well into the selection of our "city fathers." Who will head the ticket and into whose hands will fall the reins of government for the incoming year? While the PRESS has had its fill of politics for a season, we suggest, very modestly, that it would be well for our citizens to begin looking out for big timber. We need men of breadth and depth and many [illegible] who will [illegible]

Mullin's Warehouse.

The Press called attention some days ago to the fact that Mr. W. I. Mullins was making preparations for the erection of a mammoth warehouse in order that he might conveniently take care of the great volume of business which flows into his house from every quarter. We are glad to announce that the building is now an actuality. The old frame store or ware rooms in the rear of the sales house have been removed and the foundations for a large, modern warehouse have been laid. The building will be, when completed, practically fire proof. It will contain on the ground floor seven thousand square feet of space. The building will be so divided that farmers may drive directly into the warehouse and load or unload as the case may be. There will be no sales conducted in this department; it will be strictly for storage purposes. No cotton will be kept in the building as the idea in view when the building was first contemplated was that it should be strictly for the storing of merchandise, vehicles, farm supplies and provisions. The store room on Main street, while large, is not nearly ample to house the large stock of goods carried by this enterprising firm and as the trade is constantly increasing Mr. Mullins decided to increase his facilities for accommodating his patrons.

Within a very short time now the walls of this large building will be completed and the plant ready for the reception of merchandise. Mr. Mullins expects to have everything connected with the building of the most modern and convenient pattern and will have it ready for the inspection of his friends withinn a few weeks. He expects to greet his farmer friends in the new building when the cotton season opens.

Score one more for Clanton. Who next?

Sap Rising?

The Press has always been taught that it was in the early Spring time that a young man's fancy turned to love and that it was also at this period of the year that the sap begun to rise and the buds to burst, but sciences point to the fact that history has been wrong all along and that while the Spring time may be the time of love it is the late Summer days—the good old Summer time—that brings forth the sap and vitality of our young men. Perhaps the recent fistic encounter at Reno may have had something to do with setting the fashion but be that as it may, we are, or have been enjoying (?) of late days combats not of a political nature within our midst. Last Sunday night two old time cronies "hitched up" for a few moments and now those two friends never speak as they pass by. This is the second within ten days and if a third occurs we're going to send off and get our moving picture machine and have it tuned up so as to catch the affair for the exhibition halls. There's money in it if arrangements could but be made to catch the whole thing from start to finsh.

Marriage Licenses.

The following marriage licenses have been issued out of the Probate Judge's office during the week:

Mr. Nathaniel Smith and Miss Rilla Conway; Mr. Monroe Baker and Miss Isabella Mims; Mr. Bud Morrison and Miss Maggie Cooper; Mr. B. F. Massey and Miss Oscepla Wilkerson.

Surprise Party.

The young society men of the younger set, having informed the young ladies of their intention, gave a surprise party last Tuesday night at the home of Miss Mary Will Stewart. Early in the afternoon they sent word that they would be on hand after tea time and would greatly enjoy the young ladies having refreshments on hand. And so to make the affair precisely in keeping with the desire of the young men and to make it a complete surprise to every one they did prepare elegant refreshments and patiently awaited the surprisers. Promptly at the appointed time the young men appeared upon the scene and every one was surprised beyond measure. Surprise followed surprise in rapid succession. The first of which was that the young men should have gone after arranging the surprise; the second was the surprisingly delicious watermelons that the young ladies had prepared for the delectation of the surprisers and the third, but not least, was the surprise that Bill Mullins gave the Press force in not bringing that watermelon down to the office after having eaten his full share at the house. We thought better of you, Bill Mullins, and yet we ought not to have been surprised.

NO P. R. R. STRIKE; SETTLEMENT IS REACHED

Both Sides Assert They Are Victorious After Negotiations.

MAXIMUM DAY OF TEN HOURS

Representatives of the Conductors' and Trainmen's Unions Say Trouble Has All Been Due to Misunderstandings—No Wage Increase.

Philadelphia. — General Manager W. H. Myers, of the Pennsylvania Railroad, and the committees representing the 15,000 trainmen and conductors employed on the lines of the road east of Pittsburg agreed on a basis for the settlement of the wage controversy. Each side says it has gained all that it had been contending for in the negotiations which have been in progress for the last six months and which culminated in the strike vote by the employes. The settlement will probably be extended to the Western lines.

The proposition offered by the railroad officials and accepted by the men includes a minimum day of ten hours, as detailed in the New York Central award. On certain runs where the company's present rate is higher the rate will not be disturbed.

The classification of these exceptional runs and the questions of overtime were left to be decided at conferences between the various members of the committees and the division superintendents of the lines which they represent.

It was further agreed that twenty-six days' work a month would be guaranteed the men. While the men regard this as a concession, the railroad officials say that during the recent hard times the men were benefited by being worked on short time rather than being laid off altogether.

Until the conference the railroad officials, it was declared, were under the impression that the men were really demanding a ten-hour day with eleven hours' pay. But the company stated that it had all along offered to grant the standard rate, and was satisfied not to reduce the pay of any of its men if none was increased by the New York Central award above that of the standard rate.

STRIKE ON GRAND TRUNK.

4500 Conductors and Trainmen Quit Work.

Montreal, Canada.—Forty-five hundred conductors, brakemen and yardmen of the Grand Trunk system went on strike in obedience to an automatic strike order. At the same time all conductors, brakemen and yardmen on the Central Vermont went out.

One thousand of the Grand Trunk strikers are conductors, 2000 are brakemen, and the rest yardmen. The territory covered by these men extends over the whole Grand Trunk Railway system from Chicago to Portland, Me. The strike has been threatening for the past six weeks, and peace talk ceased only when President Hays said it would be impossible for the company to grant the demands of the men. The Grank Trunk Railway rushed strikebreakers from the United States to take the places of the strikers.

The total number of men affected by the strike is 3500 trainmen and conductors on the Grand Trunk and 350 on the Central Vermont, a subsidiary line. In addition, 5000 men engaged in shop work will be temporarily laid off.

The Grand Trunk Railway Company, a consolidation of the Grand Trunk Railway Company and the Great Western Railway company, comprises a trunk line from Portland, Me., and Quebec, via Montreal, to Chicago, with branches to Buffalo and Detroit. The company owns, controls and leases 5259.28 miles of tracks in the United States and Canada. Its authorized capital is $220,000,000.

The Central Vermont, which is controlled by the Grand Trunk, made an effort to prevent its men going out by appealing to Washington under the terms of the Erdman act.

CANNON IN RACE TO STAY.

Muckraking Periodicals and Progressives Cannot Intimidate Him.

Burlingame, Kan.—Joseph G. Cannon will not take himself out of the race for the Speakership of the next House of Representatives. This he made plain after the close of his speech at Emporia, Kan. He said he would abide by the will of the Republican caucus, if the Republicans control the next Congress, but that no "muckraking magazines" could make him say he would not be a candidate. In other words, he said he would not make an effort to win the Speakership; yet the emphasis with which he spoke made it plain that if the Republican caucus should constrain him he would be willing to serve.

tf

LABOR WORLD.

A new State law of Rhode Island prevents children from working evenings.

A union of washerwomen has been formed at Orange, N. J., with a membership of 300.

Mr. Gompers advised striking cloak makers in New York City against disorder, predicting victory.

Fifty unions became affiliated with the California State Federation of Labor in the last seven months.

Telephone girls throughout the United States are to be organized by the Commercial Telegraphers' Union of America.

Organized labor contemplates recommending a nine-hour day and a fifty-hour week for women at the next session of the Legislature of Washington.

The constitutionality of the law requiring railroad corporations to pay their employees semi-monthly has been upheld by the New York State Court of Appeals.

The General Assembly of Louisiana gave a decisive victory to the child labor law by refusing to entertain an amendment exempting theatres and nickel shows.

A new working agreement, which calls for a wage increase of twenty-five per cent., was adopted by the International Jewelry Workers' Convention in Boston.

According to the United States geological survey, 21,540 men have been killed in coal mines of this country in the last seventeen years, and nearly 50,000 have been seriously injured.

Hundreds of Hindoos are pouring into San Joaquin County, California, and probably in the hope of obtaining work at once most of them have discarded the turban for American hats.

EXPLOSION KLLS 11 ARTILLERYMEN AT FORT MONROE

Heroism in Stamping Out Burning Powder Prevents Worse Horror.

WERE AT GUN PRACTICE.

Officers and Men Forget Danger in Efforts to Save Their Wounded Comrades.

Fortress Monroe, Va.—Eleven men of the coast artillery are dead as the result of the blowing out of a breech block in one of the big guns while the fort was engaged in target practice on the morning of July 21. A half dozen others are in the post hospital, one of whom may die.

The exact cause of the explosion is not yet definitely determined, although a board of inquiry was appointed immediately after the disaster by orders from the War Department in Washington.

The killed: First Sergt. Harry G. Hess, Phoebus, Va.; Corp. Charles O. Atkins, home unknown; Corp. Albert Bradford, Dorothy, W. Va.; Private Roy Duffey, Kenova, W. Va.; Private Cleve N. King, Dayton, O.; Private Alfred W. Smith, New York; Private James H. Turner, Ripley, Tenn.; Private James W. Chadwick, Tazewell, Tenn.; Private Arlie Adey, Brandonville, W. Va.; Private Andrew J. Sullivan, Perkins, Ky.; Private J. E. Hogan, Geyer, O.

The injured: Lieut. George L. Van Deusen, Passiac, N. J.; Corp. Humphreys, Fort Monroe; Private Ellsworth Hoffman, Pittsburg; Private Orville T. Rainey, Findlay, O.; Private William C. Sulzberger, Fort Monroe; Private Charles E. Parks, Fort Monroe.

Heroism of Officers and Men.

The toll of death, it is believed would have been larger had it not been for the heroism displayed both by the officers and men in the battery. The wounded forgot their hurts and aided the uninjured in stamping out the burning powder that threatened the sacks in which the charge for a second shot had been brought up.

The explosion took place in Battery De Russy, No. 1 gun doing the damage. The gun was in charge of Capt. James Prentice, who had with him Lieuts. George P. Hawes, Jr., and George L. Van Deusen. Lieut. Hawes had gone forward from the breech to examine the range wheel when the charge was exploded. He was thrown down and momentarily stunned, but otherwise uninjured.

In the thick, heavy smoke the scene was almost indescribable. Eight men were killed outright, their bodies lying scattered around the emplacement. Under the pall, the wounded writhed and moaned. Capt. Prentice and Lieut. Hawes foresaw a further sacrifice of life if the other charges caught from the smouldering sparks, and the two sent out a call for surgeons while they attacked the flames with their bare hands.

Powder Bags Carried Out.

Capt. Prentice reached the emplacement first and before looking into the extent of the damage, he pushed his way through the smoke and sparks and carried out a bag of powder. He then was joined by Hawes and the two completed the task of averting a further explosion.

During this time Lieut. Van Deusen was crumpled beneath the gun, his leg being broken in two places, but when his brother officers sought to remove him he would not permit them to touch him.

RECORD COAL CONTRACT LET.

Bethlehem Steel Company in Deal Involving $60,000,000.

Baltimore, Md.—The biggest single coal contract ever let in the east has just been obtained by the Davis Coal and Coke Company from the Bethlehem Steel Company, which runs for a period of 20 years and involves a sum exceeding $60,000,000. Announcement of the completion of negotiations that have been going on for some time between President Charles M. Schwab of the steel company and President B. F. Bush of the Davis Coal and Coke Company, was made at the office of Mr. Bush.

The provisions of the contract call for the delivery by the coal company to the steel company at South Bethlehem, Pa., of coal for by-products coke ovens that are to be erected at South Bethlehem. The contract will start on the completion of 300 ovens by May, 1912, and it is to run for 20 years. The minimum tonnage that is to be delivered to the steel company per year, is 730,000 tons, while the maximum tonnage is 2,000,000 tons, as required by the corporation.

To fulfill the big contract the Davis Coal and Coke Company has planned to expend about $1,500,000 in improving its property. The corporation is now opening three new shaft mines and one drift mine near Thomas, W. Va. These mines are to be ready for operation next summer. It is stated that by reason of the contract, the Davis Coal and Coke Company will be in a position to give steady employment to 1,000 miners for a period of 20 years.

New Auto Records.

Parkersburg, W. Va.—Barney Oldfield lowered his record of 1:06¼ on a half-mile track, by a quarter of a second at the annual races of the Automobile Club of Parkersburg, at Shattuck Park. Ben Rerscher of New York made a new record for two miles on a half-mile track, his time being 2:24. A car driven by F. S. Weston of Athens, O., was run through the inside fence of the track, and John Dane of the same place, riding with him, was thrown under the car and instantly injured.

EMIGRATION TO SOUTH

Cheap and Good Farm Lands Are Said to Be Obtainable.

Washington—Migration from the central and northwestern parts of the country, including Western Canada, to the southern and southeastern states, is attracting the attention of the immigration authorities. The bureau of immigration officials expect soon to receive a special report from Commissioner Clark at Montreal bearing on the subject of Canadian immigration, including the return of Americans to this country, and pending receipt of that report decline to discuss the matter for publication.

Industrial experts say the movement to the southeastern states will begin next October. A record-breaking migration in this direction occurred last year, drawing upon the population of the central states, especially Iowa, Kansas and Nebraska. Many of these people went to Southern Georgia and Florida and Southern Alabama. From Iowa, Nebraska and Oklahoma, many people left for Calgary, Alberta and other parts of Canada, where they bought lands at from $5 to $8 an acre.

Many Buy Land Outright.

These farmers averaged $1,000 money or implements. The Canadian government reported that there were numerous Americans taking up their lands. Those who took up the homesteads in Canada of course had to declare their citizenship intentions, but many bought the lands outright.

Representatives of a number of colonizing companies have been investigating available large tracts in various portions of the Gulf states during the past few months. A recent report to the land and industrial department of the Southern railway showed that since last May about 50,000 acres of land in Southern Alabama had either been purchased or was about to be obtained for northwestern firms and corporations for locating settlers.

Large tracts also have been taken in Southern Georgia and Northern Florida since the first of the year, to be divided into farms for northern settlers.

PROSPERITY ON THE INCREASE

Imports of Luxuries Into United States Show Big Gains.

Washington — Prosperity in the United States is on the increase, if the purchase abroad by Americans during the past year of works of art, diamonds, fine furs and champagne can be taken as a criterion. Whereas there were brought into this country during the fiscal year 1909 only $3,800,000 worth of art works, millionaires and other citizens brought in during the fiscal year just closed art works to the value of $21,100,000. In diamonds the increase was from $24,100,000 to $39,800,000, and in undressed fur skins from $11,700,000 to $15,200,000; in dressed furs and manufactures thereof from $9,400,000 to $11,000,000.

LINER SINKS WITH 206

Japanese Steamship Founders Off Korea; 40 Saved.

Tokyo—Two hundred and six persons were drowned when the Tetsurel-Maru, plying between Kobe and Dairen, sank at night off Chindo, Korea. The steamer had 246 passengers aboard, of whom 40 were saved. The others are missing. Warships have been sent to the rescue.

The Tetsurel-Maru was of 2,100 tons register. She was built at Nagasaki, and was owned by the Oska Shosan Kabushiki Kaishi.

PAY FINES TO GET HANDS.

Planters Take Prisoners From Jail For Harvest.

Georgetown, Ky.—A novel method to save the wheat crop of Scott county was reported when a number of farmers appeared before the county judge and paid the fines of 10 prisoners in the jail in order to get help to harvest the crop.

In several instances the fines ran as high as $30. All of the prisoners went willingly.

Arbitration Fails.

Montreal—The attempts of MacKenzie King, minister of labor, to effect a settlement of the Grand Trunk strike have fallen through, at least for the present, the Grand Trunk management taking the view that the time for arbitration has passed and all that the company requires in order to resume the full operation of the road is the protection of its men to which it is legally entitled.

Suffragists Protest.

London, Eng.—The greatest parade of suffragists in the history of the world was held in London. Upward of 500,000 women marched in a body toward Hyde park to protest against the action of the government in shelving the Shackelton franchise bill granting the ballot to women with property qualifications. The women gathered in 40 monster mass meetings, 150 speakers participating.

Destroy Big Illicit Still.

Anniston, Ala.—Revenue officers have returned from Cleburne county after having destroyed one of the largest "moonshine" stills that have been located in years. It was in the home of Charles Pessnell, one of the most prominent candidates for sheriff.

Tenement Fire Causes Panic.

New York.—One person was killed, another is missing and 300 tenement dwellers were driven from their homes in a panic as the result of a fire which burned out the three upper floors of a seven-story factory building at Lewis and Rivington streets.

London.—The first and fourth steamers, from which the cattle of those British ships [illegible] Liverpool, [illegible]

FOUR BOYS BURNED TO DEATH IN BARN

Load of Hay Blocks Barn Door and Prevents Escape.

OTHER CHILDREN JUST ESCAPE

Father Badly Burned While Trying to Save the Boys—Horses Also Lost.

Bradford, Pa.—Four children, ranging in age from five to 12 years, were burned to death when a barn belonging to John Adams of Rasselas, a small station on the Buffalo, Rochester & Pittsburg railroad, south of this city, was burned to the ground. John Adams and his son, George, were injured in trying to rescue the children, and several other children had narrow escapes from being burned.

The dead—John Adams, Jr., 12 years old, son of John Adams, owner of the barn; Michael Adams, 9 years old, son of John Adams; Joseph Adams, 5 years old, son of John Adams; Michael Bosik, Jr., 10 years old, son of Mr. and Mrs. Michael Bosik, neighbors of the Adams family.

The injured—John Adams, owner of the barn and father of three of the dead children; George Adams, son of John Adams; burned about the head and body.

Mr. Adams was making hay and with his son George had just driven into the barn. The younger boys who had been in the hay field had preceded the load to the barn and climbed into the mow where they were to help pack the hay away. The load had just been placed on the threshing floor of the barn when it was discovered that it was on fire. George, the son who was on top of the load, escaped by crawling backward to the barn door. Mr. Adams made an effort to back the burning wagon from the barn, but was only partially successful. He then turned his attention to the children in the mow, but the flashes were raging so furiously that he was compelled to abandon the work of rescue, but not until he had been badly burned. He was carried from the barn unconscious.

A number of children, including a daughter of the Adams family, were playing on the threshing floor when the load was discovered to be on fire. They were unable to get out through the barn door and saved themselves by sliding down the hay chutes.

The fire in the hay mow burned so rapidly that the boys had no chance to escape. Their charred remains were found in the ruins after the fire had burned itself out.

NEW STEEL MERGER

Absorbes Five Large Canadian Concerns — Motive to Reduce General Expenses.

New York—Details of the new steel merger, which is one of the most powerful industrial amalgamations yet formed in Canada, with a capitalization of $35,000,000, are now forthcoming. It will be known as the Steel Company of Canada, limited, and those chiefly responsible for its formation are: W. M. Aitken, president of the Royal Securities Corporation, who formed the large and successful mergers known as the Canadian Car and Foundry Company and the Canada Cement Company; J. Hamilton Benn, M. P. of London, and H. S. Holt, president of the Montreal Light, Heat and Power Company. The company has been incorporated to affect an amalgamation of some five companies operating on an extensive scale in the iron and steel trade in the Dominion.

The companies which have been consolidated into this large corporation are the Hamilton Steel and Iron Company, the Montreal Rolling Mills Company, the Canada Screw Company, the Dominion Wire Manufacturing Company, and the Canada Bolt and Nut Company.

The advantages and benefits expected to result from amalgamation are: First, the cost of general administration is largely reduced by the creation of one executive board. Large economies can also be effected in the purchase of supplies and materials where operations are carried out on a large scale. Distribution and transportation charges can also be minimized.

All of the companies in the merger are big companies and their earnings show a steady appreciation.

RESTRICTIONS REMOVED.

Useless Description on Imports of Lumber From Canada Are Abolished.

Washington, D. C.—Following conferences with Canadian officials by an expert sent from the Treasury to Toronto, Acting Secretary Andrew ordered the removal of impractical restrictions on lumber imported into the United States in railway cars from Canada.

Beginning July 30, customs officers will discontinue requiring tally sheets or specifications of number of pieces of each size and length of lumber laden on each railway car to be filed on entry. It was found virtually impossible to furnish such tally sheets and hereafter the customs officers will insist upon only the commercial description and kind of lumber, number of pieces and aggregate number of feet in each car.

WOMAN EATS CHILDREN

Haytian Confesses to Cannibalism on Dominican Soil.

Puerto Plata, Santo Domingo—The disappearance of Dominican children and the [illegible]

CONFESSES TO KILLING FIVE.

Rag Picker Exonerated Dead Victim of French Court—Father Is Accused.

Tours, France.—A rag picker named Joseph confessed to the assassination, April 21, 1901, of five children of a farmer named Briere in the vicinity of Chartres. The father of the children was found guilty of the murders and sentenced to life imprisonment. He died in prison.

The trial of Briere attracted the attention of the whole of France. Four of his daughters, aged respectively 14, 11, 5 and 4, and his son, 7 years old, were found in bed one morning stabbed and beaten to death. The farmer was arrested and charged by the police with the crime. According to a theory advanced to provide a motive for the crime, Briere, who owned a small farm near Ceranncez, wished to marry a woman of considerable wealth. Circumstantial evidence led to the conviction that the farmer, considering his family an encumbrance, murdered his five children to carry out his wishes.

Briere stoutly maintained his innocence throughout the trial and declared that two tramps entered the house during his absence and killed the children. He added that he returned while the murderers were robbing the place and that they attacked him and left him for dead. During the trial the judge got down from the bench and gave loud expression to his opinion of the guilt of the prisoner, while the spectators yelled with fury, "Kill him! Kill him!"

A pathetic incident of the trial occurred when Briere's surviving daughter, who the police declared only escaped the fate of the other children by not responding to Brier's invitation to go to see him, went on the witness stand, sobbingly protested that her father was innocent and begged the court to restore him to her.

RUIN CHARGED TO KEENE

Conspiracy Suit Result of Hocking Pool.

New York—Lawyers for the bankrupt stock exchange house of Lathrop, Haskins & Company, which went down last January in the collapse of the Columbus & Hocking coal and iron pool, made public the fact that papers had been filed in the county clerk's office, bringing suit against James R. Keene, the millionaire horsemen and speculator, for alleged conspiracy with Popper & Sternbach, his brokers, to ruin the plaintiffs, financially.

The complainants charge that Keene sold out the pool, of which he was manager, without the knowledge of those who had gone into it, and that his brokers aided him.

SPANISH OFFICIAL SHOT.

Would-Be-Assassin Wounds Ex-Premier Senor Maura.

Barcelona.—Antonio Maura, former Sanish premier, was wounded by a would-be assassin. His assailant was arrested. His name is Manuel Rose and he is a native of Barcelona.

Posa fired three shots as Senor Maura was leaving a train, wounding him in the leg. The ex-premier was hurried on board the steamer Miramar, where a doctor dressed his wounds, which are said to be very slight. He left immediately on board the steamer for the island of Majorca.

BURNED AT STAKE.

Texas Negro Meets Terrible Fate at Hands of Mob.

Belton, Tex.—Henry Gentry, a negro, 18 years old, was burned at the stake. He was being searched for by a posse, headed by Constable James Mitchell, and fired and killed the posse leader. He was dragged behind an automobile to Belton, where the applying of the torch to the pyre was but the work of a moment.

WILL WORK IN VACATION.

Rector Will Act as Civil Engineer for Railroad.

Xenia, O.—Instead of spending his vacation of a month in the conventional way, Rev. Henry Jerome Simpson, progressive young rector of Christ Episcopal Church, this city, will become a civil engineer in the employ of the Hocking Valley Railroad.

Steel Presidents Meet.

New York.—Presidents of the various subsidiary companies of the United States Steel Corporation met here and discussed general conditions of the steel trade. The steel representatives took the view that while there had been a lessening of the demand for steel products recently, and that no large increase in steel orders may be expected during the summer, a heavy movement in the fall was anticipated.

Postal Bank Applications.

Washington.—Applications for postal savings banks have been received by the postoffice department from 240 postmasters in 36 different states. Banks to the number of 535 in 44 different states have applied to the department for designations as postal bank depositories.

Railroad Rates Suspended.

Washington, D. C.—Suspension of all railroad rates advances until November 1 in the territory north of the Ohio river and east of the Mississippi river, with the consent of the railroads affected was announced by Chairman Knapp of the interstate commerce commission.

SIGN PEACE PACT

Baltic Company and A. F. of L. End Long War.

Cincinnati—A peace pact of great importance in organized labor and to the country as well was ratified here between officers of the American Federation of Labor and members of the [illegible]

EXPULSION OF JEWS FROM KIEV CONTINUES

Over Six Thousand Persons Have Been Forced to Leave Russian Cities.

METHODS ARE NOT EFFECTIVE

Many of Those Expelled Return to Old Homes Only to Be Taken Away Again.

Kiev, Russia—The expulsion of Jews from Kiev continues at the rate of 45 individuals a day. From July 4 until July 15 497 were expelled by what is known as the second method—that is, they were forced actually to leave town. During the same period 1,121 persons were expelled by the first method, which, in effect, is a warning for their departure, but permits them time for a settlement of private affairs. In the majority of cases the latter method proved ineffective, as the Jews in that category are prone to return to Kiev after temporary absence.

During the 12 days mentioned there were 165 expulsions from Solomenka and 151 from Demieffka. Since May 14, when the imperial decree ordering that all Jews who could not establish a legal right of residence elsewhere should be returned within the pale, the restricted districts of the Polish provinces and the Ukraine became effective, there have been expelled from this city, Solomenka and Demieffka suburbs 3,011 persons by the second method and 3,641 by the first method. However, in making this total of 6,652 allowance must be made for a large percentage of duplications in the count. Many have been expelled only to return and be sent away again, while the expulsions from Solomenka and Demieffka are largely composed of those who were originally expelled from this city.

Officers of the Jewish relief committee of Kiev stated that, roughly estimated, 700 families had been already sent out of the city and 400 families were still subject to such treatment.

IRON WORKERS' SCALE SIGNED

Republic Company and Amalgamated Agree, Puddlers Advanced to $6.12½.

An agreement on a wage scale for the ensuing year was reached during the annual conference between officials of the Republic Iron and Steel Company and representatives of the Amalgamated Association of Iron, Steel and Tin Workers. The men stated they received an advance in wages averaging 3½ to 10 per cent and added that the plants of the company, which have been closed since July 1 for repairs, will resume operations probably within a few days. About 3,000 men are affected. The principal mills of the company are located in Youngstown, O., and points west of Pittsburg.

The scale demanded was varied, there being a number of different scales covering different classes of work. The principal advance asked was for the bar and guide men, and on this scale the greatest advance was received. The boiling rate for puddlers was increased from $5.62½ to $6.12½.

NO DECISION REACHED IN BALLINBER PROBE

Representative E. H. Madison Denies Reports of Committee's Findings.

Kansas City—Representative E. H. Madison, a member of the joint Congressional committee, in a message to the Associated Press from his home in Dodge City, Kan., declared that no conclusion had been reached in the investigation affecting Secretary Richard A. Ballinger of the Interior Department.

"The committee meets at Minneapolis September 5 to make its findings and conclusions," he said. "No conclusions can be reached or announced until after that meeting. All reports or rumors as to the findings of the members of the committee are unauthorized."

Charged With Swindling.

Detroit, Mich.—Charged with swindling a Brooklyn, N. Y., woman out of $13,500, and several valuable bonds after marrying her, Dr. Henry B. Keeler, said to have once been a prominent New York dentist, was arrested in Detroit. In company with him, a woman is held at police headquarters, who it is alleged posed as his sister and assisted him in getting the $13,500.

Hindus Deported.

Washington, D. C.—Sixteen Hindus, who applied for admission to this country at Seattle, Wash., were ordered deported by Acting Secretary Cable of the department of commerce and labor. The steamship company which brought them will be compelled to bear the expense of their return. They were illiterate, and a number of them said they believed in polygamy.

L. & N. Men Get Unasked Increase.

Louisville, Ky.—Four thousand Louisville shop employes of the Louisville & Nashville railroad were given a surprise when they opened their pay envelopes and found therein an unsolicited increase of six per cent.

Arrest Embezzler.

Philadelphia, Pa.—J. Howard Lowery, a bank teller who disappeared from Utica, N. Y., and was later charged with embezzling $115,000 from the Utica National bank, was captured in Philadelphia. Vice President James A. Sherman is first vice president of the bank.

MINERS' RESCUE STATIONS.

Miners Will Be Taught How to Aid Fellow-Workers in Event of Disaster.

Washington.—The first three rescue stations to be established in the coal fields of the country as a means of reducing the number of deaths in the mines will be established at Birmingham, Ala., Huntington, W. Va., and Wilkes-Barre, Pa. This announcement was made by George Otis Smith, acting director of the new Bureau of Mines.

By order of Secretary of the Interior Ballinger, nine rescue stations are to be established. Of these ordered the Alabama station will be accessible to the coal fields of Alabama, Southeast Tennessee and Northwest Georgia. The Huntington station will cover the coal fields of Southern Ohio, Western West Virginia and Northeastern Kentucky. The Wilkes-Barre station will cover the entire anthracite field. Other stations will be established throughout the country as soon as the plans are prepared and the the best locations desided upon.

Experienced Man in Charge.

Each station will be in charge of a foreman, a man with practical mining experience, who has been a miner, a fire boss, mine foreman, manager of a mine or inspector of mines. It will be his duty to train the miners from the coal fields within his district in rescue work. It is proposed that the miners who work in the nearby mines will, under the guidance of the foreman of the station, form a volunteer rescue corps, ready to respond at once to any emergency call within the district.

The principal equipment at the station will consist of eight so-called oxygen helmets, breathing apparatus which permit trained men to enter the most deadly gases in the mine and remain for two hours, without danger of asphyxiation. An air-tight room will be fitted up and filled with smoke. The miners who are sent to the station will pratice with the oxygen helmets until they are familiar with the apparatus.

Expected to Teach Others.

It is expected that it will take two weeks to thoroughly train a miner for this work. The men will be housed and fed at the station during the training period. When they return to their respective mines it is expected that they will form rescue corps and have properly equipped stations of their own.

At a mine disaster the foreman of the station will have charge of the rescue work. A mining engineer will be stationed in the district, whose duty it will be to examine the physical condition of the mines and have general supervision over the training in rescue work.

MARINE CORPS GETS SHAKE UP

General Elliott, the Commandant, May Be Next to Suffer.

Washington, D. C.—As a consequence of the report of a court of inquiry that unsatisfactory conditions existed in the Marine corps largely as the result of many officers having been in Washington too long the headquarters staff, with only a few exceptions, was ordered to new posts in different parts of the world.

Just what, if anything, has happened to General Elliott, commandant of the corps, is a matter of uncertainty. The changes ordered were the result of a letter from Acting Secretary Winthrop to General Elliott to make the changes. The concluding paragraph of his letter read:

"You will inform Colonel William P. Biddle that, being the senior line officer on duty in Washington, he has been temporarily designated to act for the commandant in his absence until further notice."

The selection of Colonel Biddle to act for the commandant is interpreted by some officers as meaning his selection as the permanent successor to General Elliott.

As a result of the shifting of assignments, Major Ben H. Fuller of the Annapolis barracks will be sent to Charleston and Lieutenant Colonel F. J. Moses sent from Washington headquarters to Annapolis.

FIVE NEGROES ARE KILLED.

Attack Deputy, Who Wipes Out Entire Party—Two Will Die.

Elliott, Miss.—Five negroes were killed and two others mortally wounded when the seven, taking issue with Deputy Sheriff Sid Cauley, who was endeavoring to take them into custody on a minor charge, advanced on the officer with farming implements as weapons, and with the avowed intention of "cutting him down."

Cauley, however, opened fire with two revolvers before the belligerents came within striking distance, and before the others of the posse had regained their wits, five of the attacking party were dead and the remainder wounded.

GETS HALF MILLION

Casts Bread on Waters and Wins Big Pie Results.

Macon, Ga.—Shortly before the Klondike gold boom, W. V. Miller, a motorman of this city, met J. F. Curley, a miner, stranded and without funds. He took him in, fed him and gave him money with which to travel as far as Birmingham.

That was the last he ever heard of the bread cast upon the waters until recently, when he received word that Curley had died in Dawson City and left him a fortune estimated at $500,000.

Molders' Strike for Increase.

Hartford, Conn.—Demanding an increase in wages from $3 to $3.50 a day and a reduction of working hours from nine to eight per day, about 150 molders employed in 12 local iron foundries went on strike. The men are members of the Molders' Union.

Washington.—Whitefield McKinlay, a negro real estate agent of this city, has been appointed collector of [illegible] Hawaii, the technical duties of the office being the post of [illegible]

OLD-TIME BLUE LAWS.

Lid Down in the Early Days of Virginia.

Usually in discussion of blue laws, some very Draconian regulations which have so aroused the ire or the suspect of the moderns, depending upon which way they look at it, the debaters confine themselves mostly to New England Puritan forms or those of New York, Pennsylvania or New Jersey.

In the day the Puritans formulated the blue laws Virginia was looked upon as the home of high living and frivolity. Even to this day few would look for such measures in that old aristocratic colony.

As a matter of fact, the Virginians of the seventeenth century had a habit of enacting indigo-tinted laws, and likewise enforcing them, which might have made the Puritans sit up late at night to beat them.

Aside from the stern and vindictive intolerance which finds utterance in the acts of the Virginia Assembly between the years of 1662 and 1680, the most striking element in them is the tremendous premium placed upon spying and informing. In almost every case in which such a reward is possible the law encouraged the man to spy upon his neighbor.

If the Virginia husbands agreed with Kipling that "a woman is only a woman, but a good cigar is a smoke," the following act must have been the occasion of much domestic infelicity:

"If a married woman shall slander a person the woman shall be punished by ducking, and if the damages shall be adjudged more than 500 pounds of tobacco her husband shall pay or the woman receive a ducking for every 500 pounds so adjudged against her husband if he refused to pay the tobacco."

Unless a man was well stocked with the divine weed it was worth while to attend church with promptness and regularity.

"Enacted that the Lord's Day be kept holy and no journeys or work done thereon, and all persons inhabiting in this county shall resort every Sunday to church and abide there quietly and orderly during the common prayers and preaching, upon the penalty of being fined fifty pounds of tobacco."

Devices for public instruction and amusement were not to be neglected with immunity, even by the courts of the colony, as witness the following:

"The Court in every county shall set up near the court house, in a public and convenient place, a pillory, a pair of stocks, a whipping post and a ducking pool. Otherwise the Court shall be fined 5000 pounds of tobacco."

There is no record of the Court ever having been mulcted of tobacco for depriving the people of the opportunity to watch the sufferings of their friends and neighbors.

Severe laws were directed against Quakers. Prior legislation had attempted to put a damper on being any kind of a "separatist," which meant any fellow who didn't agree with the Established Church. Evidently a little further law on the subject was thought necessary, for in 1663 the Virginia Assembly passed the following act:

"Any person inhabiting this country, and entertaining a Quaker in or near his house, shall, for every time of such entertainment, be fined 5000 pounds of tobacco, half to the county, half to the informer."

Even Virginia hospitality might well have paused in the face of such a flying start toward bankruptcy.

That a stowaway might prove costly is demonstrated by the following:

"Every master of a vessel that shall bring any Quakers to reside here after July 1 of this year shall be fined 5000 pounds of tobacco, to be levied by distress sale of his goods, and he then shall be made to carry out, her or them out of the country again."

Evidently a little thing like a couple of years in servitude did not deter the lovers of pork chops from appropriating their neighbors' swine, for in 1679 the Assembly delivered themselves of the following act:

"The first offence of hog stealing shall be punished according to the former law; upon a second offence the offender shall stand for two hours in the pillory and shall lose his ears, and for the third offence shall be tried by the laws of England, as in case of felony."

As the English law of the period usually prescribed hanging for a twice convicted felon, it is presumed that the third dose of justice proved an efficient remedy.

Not only in the stringency of their laws did the gay cavaliers of the Old Dominion run neck and neck with the grim-visaged gentry of Plymouth Rock, but the doubtful honor of being the last to relinquish the gentle art of witchcraft persecution probably belongs to them as well.

The witch baiters around Salem were throughout New England generally ceased to a considerable extent their punishment for alleged witchcraft before the eighteenth century; but the Virginia records show the arrest and persecution of Grace Sherwood, of Princess Anne County, for witchcraft in 1706.

For six months this young woman was imprisoned, being brought time and again before the Court in an effort to convict her. Finding no evidence in her actions to justify the prosecution the Attorney-General and the sheriff of the county impanel a jury of women to examine Grace Sherwood physically and instructed them to find something to indicate that she was a witch. This the women failed to do, and they were threatened with contempt of court for their failure.

Everything else having failed, it was decided to put Miss Sherwood to the water test, which consisted in tying her hands and feet and throwing her overboard in the nearest lake or river. If she sank she was innocent; but if by her struggles she managed to keep afloat for a few moments she was guilty of witchcraft.

The full account of this trial is preserved by the Virginia Historical Society, and the last two court orders in the case are of interest as marking the close of witchcraft persecution in the colonies.

"Whereas, Grace Sherwood, being suspected of witchcraft, have a long time waited for a fit opportunity for a further examination, and by her consent and approbation of ye court it is ordered that ye sheriff take all such convenient assistance of boats and men as shall be by him thought fit to meet at Jno. Harper's plantation, in order to take ye Grace Sherwood forthwith, and BUTT her into the water above a man's depth and try her how she swims therein, always having care of her life to preserve her from drowning, and as soon as she comes out that he request as many antient and knowing women as possible he can to search her carefully for all spottes and marks about her body not usual on others, and that as they find the same to make report on oath to ye truth thereof, to ye Court, and further it is ordered that some women be requested to shift and search her before she goes into ye water, that she carry nothing about her to cause further suspicion."

On the afternoon of July 10, 1706, the Court and county officers and populace assembled on John Harper's plantation and, the arrangements being completed Grace Sherwood was carried out to a nearby inlet of Lynnhaven Bay. The official court reporter tells quaintly the rest of the story:

"Whereas, On complaint of Luke Hill in behalf of Her Majesty, that now is against Grace Sherwood for a person suspected of witchcraft, and having had sundrey evidences sworn against her, proving manny cercumstances, and which she could not make any excuse or little nothing to say in her own behalf, only seeming toe reply on what ye Court should do, and thereupon consented to be tried in ye water, and likewise to be serched againe with experiments; being tried, and she swimming when therein and bound contrary to custom and ye judgments of all ye spectators, and afterwards being serched by five antient women who have all declared on oath that she is not like them; all of which cercumstances ye Court weighing in their consideration, do therefore order that ye Sheriff take ye said Grace Sherwood into his custody and comit her body to ye common goal of this county, there to secure her by irons, or otherwise to remain till such time as he shall be otherwise directed."

The woman was finally turned free, and thus ended the legal prosecution for witchcraft in the colony.—Chicago Inter Ocean.

Public Ownership Profits.

With a fare of four cents inside the cars and two cents on the upper deck, the municipally owned and operated street railways in Liverpool are making money. Receipts last year of $2,727,767 gave net profits of more than $400,000. Of this amount $133,000 was contributed to the relief of the city rates (taxes).—Tip, in the New York Press.

Why Is a Wilderness?

"The reason there's a wilderness at all," says a Georgia philosopher, "is because the lazy chaps get out of it in a hurry, being afraid that they might be put to sawing wood. You even can't induce a candidate to chop wood when he has to take to the woods."—Atlanta Constitution.

TINPLATE MAKERS DEFY HOT WEATHER.

Cold-Air Blasts to Obviate the Usual Sixty-Day Shut-Down at Mills.

For the first time in the history of the tinplate trade in this country arrangements are being made to run the plants of the American Sheet and Tinplate Company this year throughout the midsummer months without the customary shut-down. The usual shut-down is sixty days, during the extremely hot weather, when it has always been considered a physical impossibility for the crews at the rolls to work eight hours in the excessive heat.

At the three trust tinplate plants at Sharon and New Castle there are being installed this summer cooling systems, fans being provided to drive refrigerated air into the rolls and over the platforms where the men work. One system at Sharon has been tested and works satisfactorily.

Not only will the cooling system prove a godsend to the workers, but it is claimed that the cold air will cool the rolls to such an extent that the output from one hot mill can be increased twenty per cent. over usual hot weather tonnage records.

An experimental system was tried out recently at Ellwood City, Ind., and there the output from one set of rolls per turn was speeded up from 8000 pounds to almost 15,000 pounds by the cold-air method.

WISE WORDS.

Too many idealists are shy of ideas.

There's no fool like the one who thinks he is wise.

The old bachelor is naturally a man with a single idea.

How seldom beauty and common sense are ladled out together.

A sick man need not expect a curt at the hands of a manicure.

Convicts are the only people who do not believe in their convictions.

Many a man imagines he makes a hit every time he strikes an attitude.

How a small man does enjoy going around with a big chip on his shoulder.

A man may be justified in wearing long whiskers if his wife buys his neckties.

A young widow has a cute way of pretending she believes all men are angels.

A moralist may be a person who goes around with a searchlight looking for things to be shocked at.

If another woman's husband goes wrong a woman says he's a "brute." If it's her own husband she says he's "only human."

What we know about ourselves is mostly off color.

No man has ever failed in business for lack of advice.

Those on the inside of a deal can see only the bright side.

And the way of the transgressor is sometimes hard to beat.

Lots of people expect applause every time they do their duty.

Isn't it about time to work up a little indignation against the ice trust?

Near actors are all right in their way, but give us the old fashioned country hams.

You may as well do a little worrying on your own account as to let your neighbors worry you.

Every man and woman on earth has some good quality, if you'll only take the trouble to look for it.

It takes the conceit out of a man when a pretty woman derides his strenuous efforts to do something that will please her.—From "Pointed Paragraphs," in the Chicago News.

Ripening Chilled Beef.

Australians are chilling rather than freezing their beef for export, so that on the long voyage over to Britain it may have a chance to ripen, the only way your English beefeater likes his meat. Chilling means keeping the dressed carcasses in a ship's hold just at, not below, the freezing point—thirty-two degrees. The carcasses are sterilized as soon as the cattle are slaughtered, and the sterilizing process is continued throughout the voyage.—Tip, in the New York Press.

It's frequently the case that a woman's handsome toilet is a hundred per cent more attartcive when set off by a smile.

Haste may make waste, but not when we are persuading some fellow who doesn't know any better to hustle for our benefit.

Some reputations give the appearance of having been brought up on a bottle.

The Stomach Hold.

Colonel H. N. Renouf, at the "Old Guard" banquet at Delmonico's, emphasized the importance to an army of a good commissariat.

"You have perhaps heard," he said, "of the company of privates that a patriotic lady entertained one Memorial day at dinner.

"It was a good dinner, and at its end a pretty maid servant entered with a superb dessert.

"'Dessert, sergeant?' she said to the stalwart young soldier at the head of the table.

"'Dessert?' the sergeant answered. 'When I can get eats like this for nothin'? Nixie! Not me!'"—Washington Star.

A Timely Rebuke.

A lady, riding on a car on the New York Central Railway, was disturbed in her reading by the conversation of two gentlemen, occupying the seat just before her. One of them seemed to be a student of some college, on his way home for a vacation. He used much profane language, greatly to the lady's annoyance.

She thought she would rebuke him, and, on begging pardon for interrupting, asked the young student if he had studied the languages.

"Yes, madam, I have mastered the languages quite well."

"Do you read and speak Hebrew?"

"Quite fluently."

"Will you be so kind as to do me a small favor?"

"With great pleasure. I am at your service."

"Will you be so kind as to do your swearing in Hebrew?"

The lady was not annoyed any more by the ungentlemanly language of this would-be gentleman.

The Asteroids.

The discovery of asteroids or minor planets continues to be made with the aid afforded by celestial photography. Among a vast multitude of stars crowding a photographic plate, one perhaps will be seen to have drawn a short, thin line on the plate during its hours of continuous exposure. The astronomer knows at once that it is either an asteroid or a comet. Subsequent observations soon decide the point. Only the more interesting ones are afterward observed with attention, but once discovered they cannot be ignored and the rapid growth of the flock becomes an embarrassment. Eros, which at times approaches the earth nearer than any other regular member of the solar system except the moon, and asteroid No. 568, which at aphelion is more distant than Jupiter, remain as far as their orbits are concerned the most interesting members of the entire group and are kept under constant observation whenever circumstances permit.—Harper's Weekly.

Patient Endurance.

Many think patient endurance is a virtue that outweighs all others in value. There never was a greater error.

Endurance is often so contemptible as to rank with cowardice. Evil is the enemy of progress in manners and morals. The endurance which tolerates evil is a defect worthy of the strongest effort to overcome it.

It takes courage, time, patience, faith to take a stand and make a fight against evil, whether the evil is threatening the nation's prosperity or individual rights and comforts.

We have in all communities laws that exist for the protection of the law-abiding citizens—his protection not only of life and property, but of comfort, of health, of morals.

The laws are for the whole community, for all ages and each sex. They are constantly violated. Why? Because endurance, not in the guise of virtue, but in its common every-day garb of weakness, indifference and laziness, permits these violations, refusing to see the moral degradation that ensues.

Righteous wrath that would express itself openly would put down many evils in their first stages, which, endured, create and strengthen themselves and allied evils, compelling the expenditure of men, money and years of time to overcome.

THE PEOPLE'S SAVINGS BANK

The Week's Good Stories

LAW, NOT LETTERS.

According to a Tennessee man there was once a Judge in the eastern section of the State, a man well versed in law, but entirely self-educated, who had to contend with the principles of orthography all his life. In early life he had lived in Knoxville, and for a long time he insisted upon spelling the name Noxville.

Finally his friends educated him up to the point of adding the "K;" so thoroughly, in fact, was the lesson learned that when, a few years afterward, he removed to Nashville, nothing could prevent him from spelling it Knashville.

Then some time later the Judge moved again, this time to Murfreesboro. On the day that he began to write his first letter from this place he scratched his head in perplexity, and finally exclaimed:

"I give it up! How on earth can they spell the name of this place with a 'B'?"—Louisville Times.

THE MIRACULOUS BOX.

Luther Burbank, at a dinner in Santa Rosa, replied modestly with an anecdote to a eulogy of his new creation, the spineless cactus.

"Really, you know," said the plant wizard, "the spineless cactus is nothing like so marvelous as the strawberry box that the fashionable fruiterer of the East uses. That is a creation indeed!

"A fashionable fruiterer," he said, "sold his new boy one June morning to go to the back of his shop and fill a box with two-dollar grade strawberries for Mrs. Van Golde.

"The boy a moment later called from the rear:

"'Hey, there ain't enough berries here to fill this box.'

"The fruiterer hurried back himself. He looked at the box there, measuring at the top.

"'Why, you fool,' he said, 'you've got to put the berries in the box.'"

"The Memory Lingers"

A Remedy

By Ellis O. Jones.

MANY of our most respected magnates, in private interviews with friends or reformers, have claimed with fervent emphasis that it is absolutely necessary to bribe councilmen and other public servants in order to be able to do business. As this claim is probably true, and as the tendency is more and more toward the introduction of business methods into politics, let us cease trying to abolish this system of corruption, but rather take advantage of it.

Obviously the thing to do is to establish a public bribing board, provided with a large public fund and powers plenipotentiary to bribe or otherwise cajole, browbeat, wheedle or intoxicate our councilmen into looking at things occasionally from the standpoint of the public. Many a magnate has become immensely wealthy and respected by bribing councilmen. If we did the same as a community we might eventually come to respect ourselves in addition to respecting the magnates.

Or, as the old adage puts it: When you live in Rome, do the Romans.—From Life.

Heavy Man Could Not Travel By Foot, Carriage or Rail

Paris.—There has recently died in France a remarkable justice of the peace, M. Rolland, who was said to be the heaviest and stoutest man in the world. He weighed about 560 pounds, his height being 6 feet 2 inches. His girth was so great that he could not get into a carriage, and to go from his home to the bench he was obliged to use a strong, heavy bath chair. The back of this conveyance had to be tilted upright, the magistrate leaning against it. The vehicle with its occupant was then propelled by an almost horizontal pole, and driven by a vigorous man in the rear.

CLANTON PRESS.

Published Every Thursday.

F. M. WOOD.....Publisher

Rates of Subscription.

One Year	$1.00
Six Months	.50
Three Months	.25
Single Copy	.05

Entered as second class matter April 8th, 1910, at the Post Office at Clanton, Ala., under the Act of March 3rd, 1879.

Nominees of the Democratic party for State and County offices:

For Governor—Emmet O'Neal.

For Lieutenant Governor—W. D. Seed.

For Chief Justice—J. R. Dowdell.

For Associate Justices—J. C. Anderson and O. M. Somerville.

For Secretary of State—Cyrus B. Brown.

For Attorney General—R. C. Brickell.

For State Treasurer—John Purifoy

For State Auditor—C. Brooks Smith.

For Superintendent of Education—H. J. Willingham.

For Commissioner of Education—R. F. Kolb.

For Railroad Commissioners—Frank N. Julian and Leon McCord.

For United States Senator—J. H. Bankhead.

For Congress Fourth District—Fred L. Blackmon.

For Circuit Judge—W. W. Pearson.

For Circuit Solicitor—F. Loyd Tate.

For Chancellor—W. W. Whitesides.

For State Senate—Thos. A. Curry.

About twelve acres of rich level land within two miles of Court House at Clanton. Perfectly adapted to truck farming or dairy purposes. For information address "REAL ESTATE," care Clanton Press. tf

SOME RECENT HISTORY.

Last week the PRESS gave to its readers a short history of some things that happened under Republican administration soon after the war; the truth of the history related will be vouched for by any intelligent man, Democrat or Republican, who was of age during the early sixties.

We now want to recall to the minds of our readers a few lines of recent history. The facts herein related will be recalled by any man who has kept up with recent events. We need not go back more than ten br twelve years.

The Legislature of Alabama some years ago REDISTRICTED the state; that is, it changed the lines of the old CONGRESSIONAL districts and made new districts. At the time of the change Dallas county was the only county now composing the FOURTH district that was in the old Fourth district. The old district was composed of Dallas, Lowndes, Perry, Hale and Wilcox counties. There were in these counties perhaps a majority of negroes over the white men ranging from twenty to thirty thousand. It was almost impossible to elect and ""keep elected" a Democrat to Congress from the old Fourth district, because of the overwhelming majority of negro Republican votes in the district. This was changed and the old counties of the old Fourth district were parceled out and each given to a new district in the hope that the white voters of the other counties would help the white men of those old counties to overcome the negro Republican vote and enable them to elect a white Democrat to Congress. This is history which any school boy knows and which all the children will learn who study Alabama history.

Dallas county was put in a district with Talladega, Calhoun, Shelby, Cleburne and Chilton. It is what is known as the "SHOE STRING" district because of the fact that in order to form the district and not disturb other districts too much it was necessary to get a tier of counties that ran northward almost in a direct line. At the time of the formation of this district it was thought that the white voters of the other counies, combined with the white voters of Dallas county, would enable the white men of the Fourth district to overcome the negro Republican vote and elect a Democrat to Congress. This was a lawful movement and a laudable ambition. It could have been done with all ease if the white men of the district had stood together.

In those days William F. Aldrich announced for Congress. He ran against Gatton A. Robbins. When the returns were made the certificate of election was given to G. A. Robbins and he went to Congress as the representative from this district; he was a Democrat. What did William Farrington Aldrich do? He produced evidence to contest the election of Robbins on what ground did he base his contest? That the Republican WHITE votes of Chilton and Shelby counties COMBINED with the negro Republican votes of Dallas county had given him a majority of votes in the election and that therefore he was entitled to the seat in Congress. The House of Congress decided that Aldrich had received enough NEGRO votes, added to the white votes, to entitle him to the place and Robbins was turned out and the seat given to Aldrich, who was put there by NEGRO votes.

This is history. Any young man can readily recall this history.

A little further:

The constitutional convention of Alabama determined that the white men of the state should not again be molested by the negro in politics, and adopted a clause which disfranchised the negro. It was impossible for the constitutional convention to disfranchise ALL the negroes because the constituiton of the United States had set a limit beyond which even state governments could not go, but it went as far as it could go toward disfranchising the negro and protecting the WHITE man in his vote.

Not ONE white man in all the state was deprived of a vote by the constitution. Any one who has the intelligence that God gave men knows this. It is history.

Now what happened? William Aldrich ceased to run for Congress. Why did William Aldrich cease to run for Congress? Because he knew that with the negro vote eliminated from the contest he could not hope to secure enough white votes to elect him to Congress. That's WHY.

Since the Democrats put the negro out of politics we have not had much of a scramble among the Republicans of the Fourth district for the nomination. They know that without that great horde of negro votes, which used to be cast for them, they have no chance of election.

They (the Republican politicians) do not even seek to get a nomination for Congress. The recent convention at Calera did not nominate a man, a Republican, for Congress. Aldrich would not have it; Reynolds would not take it. Why? With the negro vote eliminated, they have no chance to win. That's WHY.

But there are yet a few negroes left. The constitutional convention could not reach them all. Mixon and Mason and Wimbs and Threet and Peterson and Walker and hundreds of others were left within the ranks. They had the qualifications which permitted them to take part in conventions and in the selection of officers. Where did they go? TO THE REPUBLICAN PARTY.

Now, we want to ask this reasonable question: IF the negro did not vote the Republican ticket and ELECT Congressmen, WHY is it that some Republican has not been to Congress from this district since the NEGRO was put out? Why do not the Republicans nominate a candidate as they did before the elimination of the NEGRO? Why didn't they nominate a candidate at Calera? BECAUSE, friends, they have no chance without the negro.

Now, in conclusion, the PRESS does not believe that there are two dozen men in Chilton county who would willingly sit in convention with a negro. We believe that the Republicans of this county have been deceived about the negro. We think that they have been told that the negro was not a factor in politics, and that he does not attend conventions. This is untrue. The Democratic party eliminated most of them, but what are left ARE and ALWAYS will be Republicans. If once we elect men to state and county offices in sufficient numbers who affiliate with the negro, they will immediately undo what has been done to rid us of the negro, so far as they can, and we will again have the black troops upon us.

They will never come to Chilton county; there are not enough negroes here to trouble us; but, friends, there are more than enough in the other counties, combined with the white Republican vote, to overturn our elections and set up the rule of the NEGRO. We do not believe that there is any considerable number of white men in the county who would vote with the negro any sooner than we would; it is not that; it is merely a mistaken idea that the negro is GONE, when as a matter of fact, he is HERE, and calling for recognition. This is what they were doing at the Calera convention; this is why they were at the state conveption.

Our offer of FIFTY dollars still remains unchallenged. If what the PRESS says is not EVERY WORD true, why do not some of the Republican politicians PROVE UP, take the FIFTY dollars and SHOW the PEOPLE that we are not telling the truth? The fact that these politicians—the LEADERS—do NOT do so is PROOF that they can not do so!

Think it over, men, and do not let prejudice or anger lead you, but ask yourselves the question; Can I afford to go with them?

The PRESS is here as your friend; we would not willingly deceive any white voter and state an untruth. WE WANT YOU TO KNOW THE FACTS.

The printers played a scurvey trick on that long word article. We had it all hugged together as tight as glue would hold and some blind-eyed fellow scattered it all over the front page thus sowing thistled seeds. Guess he thought it too tough to stay on any longer.

The revenues of the postoffice at Clanton will be materially decreased now that the day of circular letters has passed.

The pie hunters had their inning last Monday and some of them got great hunks of the real stuff; others got what was in the middle of the doughnut—nothing.

They tell us that there was an election or something of the kind here last Monday. Seems to us it was just a sorter parceling out of nominations among the brethren.

The Ohio republican politicians are wrestling with the job of their lives trying to endorse Taft, say a kind word about the brother in black and select a candidate to run against Governor Harmon.

If the "lily whites" should nominate a state ticket what's going to become of Wimbs and Threet and Peterson? They'll be lost in the shuffle sure, and that would be too bad; indeed it would.

Over in Nebraska Mr. Willie Jennings Bryan is running up against the real thing. He is being taught the severe lesson that he is not the only pebble on the beech; there's a Little Rock in Arkansas so they say.

W. H. Mixon is holding quarterly conferences down in south Alabama this week. He did not have any appointments during the sitting of the state convention at Birmingham—except his appointment as a delegate to the convention. He is the one that went merely to "lend color to the convention."

We have had more than one to thank us for the article in last week's issue headed "Ancient History." And they were not all democrats by a long jump, either. Some of them were grey-headed and gray-bearded men of the opposition party. They say they remember those days. They vouch for the truthfulness of the article. It's history, fellow citizens. HISTORY!

The public is politely informed, so we understand, that the editor of this paper is going to get his epidermis punctured some of these dark moon-light nights if he persists in telling the good people of Chilton county that negroes sit in republican conventions. We have heard of folks being stalked for telling falsehoods but never before for telling the truth. If he wasn't there how come some of them haven't claimed that FIFTY DOLLARS.

U. G. Mason was elected President of a negro bank in Birmingham the other day. He was a member of the state convention which recently met in Birmingham and was appointed as one of a committee of seven to select a candidate for Congress to oppose Oscar Underwood, one of the most progressive white men of the entire South. There are none but negro stockholders and directors in the bank to which Mason was elected president.

THE PRESS has an article this week on the proposed WATER WORKS SYSTEM for Clanton. We hope every man, woman and child will read it carefully and will throw the weight of their influence in the direction of building or installing the system. Speak a word for it. Don't be a clam. Open your mouth and give your lungs a chance. Talk Clanton. Speak out in meeting and fear not. Clanton is growing in spite of opposition. It will grow with leaps and bounds if we will but help her a tiny wee bit.

The Aldrich-Davidson wing of the republican party has issued a call for a state convention to be convened in Birmingham within a few days. This is the "lily white" faction of the party—the non-office holding side of the party. They seem to be disgruntled because of the presence of so many office holders and negroes in the recent convention. If they put out a state ticket in opposition to Thompson and the medley which met recently in the Magic City under which emblem will they run? When they put out a ticket—for they say they are surely going to do so—with whom will the Chilton county party align itself? We are just asking, you know.

Seriously, THE PRESS came upon the scene of action at a time when the two opposing political forces were marshalling their troops for the great November conflict. We had no idea at that time that there was to be a mud-slinging campaign. Never was in one before. Don't want to go through another; but somehow we never were taught in our younger days to take a speak under fire. Our sainted father bore the brunt of battle in the sixties and carried his scars to the grave. He never complained of the hardships, or murmured at the suffering. He took it as his part, held his head high in the air as becomes a southern patriot. He taught us to be proud of our birthright and never to blush at being called a Southerner. We are proud of our ancestry and have right to be. They came from the old Huguenot and Cavalier stock. No frigid northern winds fanned the sunny cheek of our fathers or cooled the warm blood that flowed through their chivalric hearts. They were of the South Southern. Hence, we say we were not taught to run under fire.

The flesh pots of Egypt cannot tempt us nor the glitter of Roman gold bribe; we might under circumstances retire from the field and these circumstances would be overpowering; but we

Diamond Edge.

We are glad to advise the trade that we have added to our stock of "Keen Kutter" goods the "DIAMOND EDGE" line which gives us the most complete stock of tools, knives, razors and table cutlery to be found in the country.

The "Diamond File" is good and so are the "Diamond Edge" goods of all kinds.

We guarantee every piece against being defective in any way and will cheerfully and willingly replace any "Edge Tool" bearing either of these brands.

We invite you to see our display of these goods.

Wetumpka, Clanton, Alexander City.

Lay on McDuff and damned be he who first cries hold, ENOUGH! Come on boys. We are going to win this fight.

Wrote up! There are times when: Fools rush in where angels fear to tread.

Some one drifted into THE PRESS office the other day and took us by the north-east ear and led us into the south-west corner of the room facing north and there in a stage whisper that would have done credit to a professional tragedian, blew these words into our frame: You are going to be wrote up and your record exposed if you don't quit talking about negroes." Then he zig-zagged out of the office fanning his fevered brow with a pine straw and looking like patience upon monument. Wrote up! What a calamity upon the people of Chilton county! Wrote up! And for what? For telling that Wimbs was there? For saying that Mixon was lending color to the convention? For stating that Peterson and Ben DeLemos took part in it? For giving out the information that Threet buncoed the white man of Marengo out of his seat? For telling the people that Nath Alexander went down to see that the three white men from Montgomery toted fair? Write us up for that? SCAT! Begone! When you start to write folks up get a subject. Don't play petty politics and try to scare folks into keeping quiet about the TRUTH. There's an old saying that runs something like this:

"TRUTH crushed to earth will rise again,
The eternal years of God are hers;
But FALSEHOOD, wounded, writhes in pain
And dies among her worshippers.

Who said Wimbs and Mixon and Walker and Threet and Alexander and Peterson and Mason, anyway? We didn't. As a matter of fact we did not select them as delegates. We did not have anything to do with their going to the convention and what's more we are not going to vote for a single candidate that they nominated. Don't get angry with us because they were there. We couldn't help it. If we had cried our eyes out old man Threatt would have gone anyway. That fellow Jim Peterson would not have missed the convention even to see a hanging and Mixon postponed his quarterly conference just so he could be there. Now you ought to know if these things could not stop them we couldn't, and you ought not to blame us.

Wrote up? BAH!

There are more things in heaven and earth than were ever dreamed of in your philosophy, Horatio.

There seems to be a mistaken idea prevalent among most of the people that the Press is going to engage in a mud-slinging campaign. This is not true. We do not propose to attack any man's moral character unless he gives occasion for it, then we will make no promises as to what will be done.

Some of our republican friends are inclined to fall out with us because we are saying things about the negro in politics. We do not believe that the white men of Chilton county relish the negro any more than we do; we have no idea that any great number of them would sit in convention with them but your leaders do sit with them and then deny the fact. That's the thing that makes us howl.

We want the republicans of Chilton to distinctly understand that we are against no WHITE man; it's the negro we oppose and we believe that you will do so too when you understand that you have been deceived about the negro in conventions.

There is not a WHITE man in the county whose friendship we do not value; we want you as our friend. We do not believe that you would sit with the negro in convention—we have never so charged; but we KNOW that the leaders of your party do sit with them.

If the white men of the republican party could be made to believe that their leaders sat in convention with Mixon and Mason and Peterson and Wimbs and Threet they would know that the Press is telling the truth.

We were much gratified this week [illegible] of the foremost Popu-

---

If the men of Chilton will look toward Dallas or Montgomery or Mobile or Eufaula or Union Springs or Marion or Greensboro they would see the negro in politics—and see him with the republican party. There are no negro populites and no negro democrats.

FIVE SCHOLARSHIPS TO BE AWARDED BY THE UNITED DAUGHTERS OF THE CONFEDERACY, ALABAMA DIVISION.

The Scholarship Committee of the Alabama Division, United Daughters of the Confederacy, announces that through the generosity of many of the leading colleges of the State, it is prepared to offer the following literary scholarships for the coming scholastic year, beginning with the fall term of 1910.

Marion Institute for Boys, Marion, (President H. O. Murfee) value of scholarship $150. Other necessary expenses for the scholastic year. $150.

Judson College for Girls, Marion, President, R. G. Patrick. Value of Scholarship $65.00; other necessary expenses for scholastic year, $179.

Southern University for boys or girls, Greensboro, President S. M. Hosmer. Value of scholarship $50; other necessary expenses, $137.

Howard College, for boys, Birmingham, President A. P. Montague. Value of scholarship $60; other necessary expenses, $140.

Athens College, for Girls, Athens, Ala., President Mary A. Moore. Value of scholarship $50; other necessary expenses $145.

In addition to the foregoing scholarships, the Alabama Division, United Daughters of the Confederacy has established a $100 scholarship at either the Alabama Polytechnic Institute at Auburn, or the University, at Tuscaloosa ,and the Children of the Confederacy under the leadership of Mrs. Mary Pickens, a perpetual Memorial Scholarship to Gen. Robert E. Lee, at the Alabama Polytechnic Institute at Auburn. Only these two scholarships have been awarded to the former beneficiaries; the other five beneficiaries are to be selected by this Committee.

These scholarships are intended only for the descendants of Confederate soldiers, for boys and girls who are in need of financial assistance in order to enjoy the benefits of an education, and to be eligible must comply with the following requirements:

1. Present the affidavits of two or more well known ex-Confederate soldiers or Daughters of the Confederacy, as proof of the candidate's eligibility as a worthy descendant of an ex-Confederate.

2. Present certificate of graduation from some High School of the State of Alabama, or the equivalent.

3. Present testimonials of good moral character, steadfastness of purpose, and worthiness of assistance from their most recent teacher, where possible, and of at least two prominent people of their resident community.

4. Applicants must make, in due form, applications for the scholarship, stating the scholarship preferred, and pledging themselves to abide by all the requirements and rules of the institution which they may select to enter.

Applicants' papers, above mentioned, must be filed with the Chairman of this Committee not later than August 20, 1910. The Committee is authorized to select and place the students whose proofs are most worthy and satisfactory. However, the decision will be aided by the impartial judgment of competent educators.

As the time is short it is important that all applications be made as early as possible.

Daughters are requested to publish these offers through the local papers, so that they may be generally understood, and to interest themselves in finding worthy applicants for the several scholarships.

Mrs. W. T. Sanders, Athens, Ala.
Mrs. J. E. Frazier, Birmingham.
Miss Mattie Thompson, Mobile.
Mrs. Frank Stollenwerck, Montgomery.

THE NATIONAL GAME.

Manager Stallings says Ed. Sweeney is the best catcher in the American League.

The way Joe Lake is pitching intensifies regret that he didn't remain a Highlander.

President Hostutler, of the Kansas State League, has signed as umpire Walter B. McAtee, of Baltimore, Md.

The Atlanta (Southern League) Club has sold outfielder Seitz to the Waterbury Club, of the Connecticut League.

Now that the indications are that Reulbach and Overall are all right again the Cubs look all the more formidable.

The Chicago American Club has turned outfielder Messenger over to the Birmingham Club, of the Southern League.

The Richmond Club, of the Virginia League, has secured outfielder Frank Burke from the Altoona Club, of the Tri-State League.

The trouble with some of these teams that are "going to be a great team next year" is that they are always going to be and never are.

The Cleveland Club closed a deal for the purchase of pitchers Fanwell and Mayberry, of Danville, in the Virginia League, the price being $2250.

Elmer Flick has finally passed out of the major league. The big league clubs all waived on the once star hitter, and Cleveland sold him to the Kansas City Club.

In Washington they say Henry, the Amherst College catcher, is the most promising player coraled there since Johnson was landed. Henry is playing first base for the Nationals.

The Baltimore Club sold Lefty Russell, its star pitcher, to Connie Mack, of Philadelphia, for $12,000. Russell is the baseball find of the season. Pittsburg and Cincinnati were after him.

SPORTING BREVITIES.

Leon Morane won four first prizes at the Bournemouth airship meeting.

The Hurlingham Polo Club decided to adopt the American system of handicapping players.

Captain Baldwin, the aviator, made more than a mile a minute in his biplane at Garden City.

Frank J. Gould's Pauvrerose won the Prix des Cedres, of $800, distance ten furlongs, run at St. Cloud, France.

If Jeffries had placed himself in the care of Delaney, Muldoon thinks the result of the big fight might have been different.

C. M. Daniels, of the New York Athletic Club, retained his title of 100 yard metropolitan swimming champion, defeating a fast field in 56 1-5 seconds.

"Packy" McFarland, of America, and "Freddie" Welsh, the lightweight champion of England, fought a twenty round draw at the National Sporting Club in London.

Harvard plans to engage Fred Tenney as professional baseball coach next year. The position, it is said, will be worth as much as $3000 a year to the former Giant star.

A rule has been made at Trinity College that a man must compete for his college team in the course of the academic year and mustn't make engagements to appear for organizations outside.

If the citizens of Reno have any say in the matter prize fighting in Nevada will remain legalized. Tex Rickard, it is understood, is planning to stage Tommy Burns and Langford on Labor Day.

At Celtic Park, Long Island City, running from scratch in the 1000-yard handicap Sheppard breasted the tape a comparatively easy victor in 2.12 2-5, smashing the world's record of 2.13, made by Lon Myers, October 31, 1881, in New York City.

What the theatre really needs, insists the Philadelphia Record, is a Society for the Prevention of Cruelty to Audiences.

When a man aims his prayers at another, confesses the Chicago Tribune, he always misses the throne of grace.

In order to determine whether electricity will convey any material particles with it when flowing through a conductor, Mr. J. Kinsky, writing in London Engineering, has made the following experiment: He took a cylinder of aluminum and placed it between two copper cylinders, subjecting the three cylinders axially to a considerable pressure. For an entire year current was passed through the series of cylinede, to see whether any particles of copper would be carried into the aluminum, or vice versa; the ampere hours were passed through the cylinders without the slightest evidence of any transfer of the metals.—Scientific American.

Mr. James Cobb, who has been in Birmingham for the past year, is here visiting his sister, Mrs. Mitchell.

There was a big dinner at Billingsley last aSturday but our Maplesville boys said, "No, thanks, don't care to go." They remembered their experience at Billingsley on the Fourth of July.

We are informed that the Methodist people have bought the J. C. Merchant home to be used as a parsonage by the pastor of the church here. There are more churches on this circuit than one man can well attend to and a division of the circuit is contemplated and a minister located at this place. We understand that Rev. R. J. Simmons, now located on the Randolph work will remove to this place. Bro. Simmons is very much loved by all the people on the work and Maplesville citizens will be glad to welcome him into our midst.

Some days ago it was discovered that the organ at the Baptist church was badly out of repair and upon examination it was ascertained that rats had eaten their way to the inside of the organ and had destroyed several of the reeds thus necessitating the visit of an organ expert to make repairs.

Several of our young people went to the singing at Mulberry last Sunday; they report having had an enjoyable trip.

Miss Jessie Mae Morris has returned home from Birmingham where she has been visiting relatives and friends.

Mr. S. L. Seawell spent last Sunday in the Capitol city.

Mr. J. C. Davis has moved into the home opposite Mr. Leville.

Miss Alma Jones returned last Monday to her home at Clanton accompanied by her sister, Mrs. Smitherman, after a few days stay here. See who carries the long face now.

Mr. T. G. Milling, of Riderville, spent last Monday with friends here.

J. W. M.

COOPER.

The Masonic-Odd Fellow celebration which was held at this place last Thursday was a great success from every point of view.

Fraternalism reigned supreme during the day and good cheer was on every side. There was a large crowd, perhaps one of the largest that has ever assembled at this place and yet perfect order was maintained throughout the day.

Hon. E. B. Deason of Clanton, was the first speaker of the day. He spoke for the Odd Fellows and made a profound impression upon his auditors. He showed perfect familiarity with his theme and a true insight into the mysteries of the craft. Though summoned by phone at a late hour, long after the crowd had assembled, he gracefully accepted the situation and pleased every one who came within the sound of his voice.

It was unfortunate indeed that Grand Master W. E. Urquhart, of Birmingham, who was to make the principal address of the occasion, failed to reach here, having missed connection somewhere on the line; nevertheless Mr Deason filled his appointment with ease and grace.

Mr. W. S. Cox made a favorable impression also in his address upon Odd Fellowship. His address was enthusiastically received.

Next in order came the address of Judge L. H. Reynolds, who spoke at some length upo nthe Masonic order. His address was replete with information and sound reasoning. He made a most excellent impression. In the afternoon he also installed the officers of the Masonic lodge for the ensuing term.

The secopd address for the Masons was made by Mr. Long, whose remarks were enjoyable and instructive.

At the close of Mr. Long's address Rev. Mr. Culpepper, of Mountain Creek, announced that dinner was ready and invoked the divine blessing and guidance.

And such a dinner! There was an abundance of everything good to eat. Every one was invited to the tables and right heartily did we all enter into the contest of satisfying the inner man.

In the afternoon Rev. D. B. Dismukes, of Verbena, made an interesting address upon Masonry which was enjoyed by all those fortunate enough to hear him.

Cooper is glad to have had such a gathering; we enjoyed entertaining them and sincerely hope that our visiting friends received as much pleasure from their visit as we did in having them with us.

P. O. B.

The nearest approach a good many people ever make to magnetism is when they draw their breath.

The rings on her fingers, inside the Philadelphia Record, don't always make a belle.

A fatal knife fight is a pretty convincing argument, though the New York Assembly thinks not.

PERSONAL.

Mr. and Mrs. M. C. Jones spent Monday in Montgomery shopping.

Mr. D. H. Denson was a visitor to the Magic City last Friday.

Mrs. A. G. Jones, of Rockford, has been in Clanton spending a few days with her son, Mr. C. Finn Jones.

Baseball goods of every description at Upchurch Drug Company. Save money by buying from us. tf

Mrs. Anna Lou Tanner, of Birmingham, and mother, Mrs. Chestnutt, are visiting Mrs. A. E. Evans.

Dr. and Mrs. Dennis, of Verbena, spent last Sunday here as the guests of Mr. and Mrs. P. C. Dennis.

Col. West, of Georgia Military Academy, College Park, Georgia, was in Clanton several days last week in the interest of his college.

Mrs. Kate Anderson left Tuesday morning for Georgiana, where she goes to spend several weeks recuperating.

Mrs. W. M. Adams and children returned last Tuesday from an extended visit to relatives in Milltown, Georgia.

A new and nifty line of jewelry just received at Upchurch Drug Company. Call and inspect our line before purchasing. tf

Mr. and Mrs. C. W. Cox have returned to their home here after a most pleaasnt visit to friends at Plantersville.

Miss Agnes Courtney, a handsome young lady of Montgomery, is in Clanton, the guest of her sister, Miss Sophia Courtney.

Mr. F. A. Gulledge, of Verbena, left Wednesday for an extended vacation; he will be gone till sometime in the Fall.

FOR SALE—Limited number of blooded shoats at reasonable price. Apply to

2t WM. M. ADAMS.

Mr. and Mrs. H. G. Craft, of St. Louis stopped off at Clanton Monday afternoon. Mrs. Craft will spend a few days with Mrs. Guy Higgins.

Mr. Frank Thomas and Miss Emma Thomas left Sunday morning for their home at Kelleyton to spend their vacation.

Buy your wife or best girl a box of Nunnally's candy—at Upchurch Drug Company's. Our customers demand Nunnally's or none. tf

Mr. E. W. House, of Birmingham, representing the Typewriter Exchange, is in the city in the city in the interest of his house.

Mr. Frank Anderson left last Monday for a trip through Tennessee and Kentucky in the interest of the Forest Lumber Company.

Mrs. J. M. Fuller and little daughters, of St. Louis, are visiting the family of Mr and Mrs. Guy Higgins.

Messrs. J. E. Robinson, Sr., and S. C. Matthews left last Friday for Auburn where they are to take a special summer course in agriculture.

See Upchurch Drug Company's new jewelry and remember in buying that they stand back of every piece of it—with the cash—should it not prove alright. tf

Mr. and Mrs. A. V. Abbott, of Birmingham, with their children, came down Sunday to spend the day with their friends, Mr and Mrs. Jno. Stanfield.

The Daughters of the Confederacy will hold an important meeting on next Friday (tomorrow) afternoon. All members are urgently requested to be present.

Do not forget that Scott makes the best photographs of any artist in the state; he is in Clanton permanently. Studio in the Reynolds building. tf

Miss Hattie Goodwyn, who has been spending the past several weeks with her sister, Mrs. R. E. Luckie, returned to her home in Montgomery last Tuesday much to the regret of her many friends.

On last Friday night, Rev. R. J. Mills closed one of the most successful revival meetings that has ever been held at Mount Nebo church. The preaching was excellent throughout the meeting and the attendance was large. Eight [illegible] to the profession of faith and the church members [illegible]

Miss Lindsey, of Birmingham, is the guest of Mrs. Evans.

Mrs. E. Y. McMorries left on last Saturday for Prattville, where she will spend the remainder of the heated term. She will return in the early Fall to resume charge of her school.

We serve the best soda water in town—none barred. We use only the very best fruit juices and give you the best of everything to be had. Try us and be convinced. Upchurch Drug Company. tf

Mrs. L. H. Reynolds and family left Thursday morning for an extended visit to relatives and friends in Georgia. Mrs. Reynolds carried with her all the members of the family except the Judge.

Miss Lucy Oates, who has been visiting at the home of Rev. F. M. Woods, has returned to her home at Abbeville, much to the regret of her many friends.

Don't forget that the Clanton Icecream Parlor serves the best quality of cream that comes to town. Try it and be convinced. The clean, cool place near the depot. Polite attention. tf

Prof. Monroe Burnett, of University, Tuskaloosa County, was a pleasant visitor to Clanton this week Prof. Burnett is an old Chilton citizen and came down in the interest of the State University, at which institution he fills the chair of mathematics.

Scott, the well known photographer, is kept so busy these days making pictures that he scarcely has time to go to his meals. If you have not been to his place do not delay longer. His work is of the highest character of the photographer's art. tf

Mr. Claud Jones left last Monday morning for Trinity, Ala., where he went to wed Miss Julia Potts, the talented daughter of our townsman, Mr. J. M. Potts. Miss Potts, though making her home with her grandmother at Trinity, has frequently visited Clanton, where she has a host of friends.

We have money to loan on improved farm lands at reasonable rates of interest. Long time loans a specialty. For particulars address "Finance' care of the Press or call at the Press offices. tf

One day last week there appeared at the home of Mr. and Mrs. John A. Thomas a wee bit of femininity, whom they have named Miss Stella in honor of her mother. Miss Stella and Mrs. Thomas are both quite happy and contented with the world and Mr. Thomas—well, the radiant smiles that wreathed his face tells the tale far better than pen could do it.

Quite as many democrats as republicans were in evidence on the streets of Clanton last Tuesday and each one brought the cheering intelligence that though it was a republican primary that was held on the day before the democrats claimed the victory.

Bring us your family receipts; we will make a practice of using exactly what your receipt calls for. We use no substitutes and our prices are right. Yours for a square deal, Upchurch Drug Company. tf

Mr. John Stanfield had quite a serious accident, and a costly one too, to happen out at his saw mill last week. For some unknown reason the engine used at the mill got beyond the control of the engineer and "ran away" breaking in two parts and otherwise damaging the machinery connected with the mill. Mr. Stanfield will have to order a new engine before he can resume work.

Mr. and Mrs. Tipton Mullins returned last Thursday from a month's stay in Oklahoma and Texas and other western points. During their visit several days were spent at the famous Hot Springs of Arkansas. Both report having had a visit of great enjoyment. Mr. Mullins returns as rosy as a youth just in from flying an April kite and says that he feels equally as young as most of the boys who are many years his junior.

Clanton was honored last Saturday with a visit from Hon. R. Tyler Goodwin, Chairman nof the Democratic State Executive Committee. Mr. Goodwin came down to survey the Chilton political field. He met with the committee on Saturday afternoon and was in consultation with democrats till the afternoon train left. Mr. Goodwin left firmly convinced that democracy will triumph in Chilton on the ides of November.

A good many people undertake to peek off a grouch on individual mentality.

ESCAPES TAXES VIA POKER.

Indiana Man Loses $9000 on Which He Was Taxed at Being Taxed.

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds. It's up to you. Will you work?

Contest Closes Monday, Noon, December 5th, 1910.

TER URYEARS F MISERY

by Lydia E. Pink- Vegetable Compound

Md.—"For four years a misery to me. I suffered from irregularities, terrible dragging sensations, extreme nervousness, and that all gone feeling in my stomach. I had given up hope of ever being well when I began to take Lydia E. Pinkham's Vegetable Compound. Then I felt as though new life had been and I am recommending it friends."—Mrs. W. S. Forn, Franklin St., Baltimore, Md.

successful remedy in this for the cure of all forms of plaints is Lydia E. Pinkvegetable Compound. It has test of years and to-day is ly and successfully used than female remedy. An Obstacle to Good Roads.

Missouri has a special road district law under which by a majority acreage vote—one vote for each acre of land—good roads may be constructed. The law provides for payment in one, five or twenty years. In the latter event the road can be paid for in yearly installments of interest and principal, amounting to a cost each year of from twelve to twenty-five cents for each acre.

With a law so favorable for the improvement of roads it might reasonably be supposed that there had been a large amount of highway work done under its provisions. Such, it appears, has not been the case although the law has been in effect for many years. A correspondent of the Kansas City Star, who signs himself "A Country Missourian," expresses the belief that absentee landlordism is the principal obstacle that has prevented the building of a large number of roads under the provisions of this statute.

He gives an example as follows:

"A short time ago farmers in a county not far from Kansas City, a county noted for best agricultural lands and poorest roads, took initial steps to organize a road district and build a rock road under the law. The matter attracted widespread notice and favorable comment for a time, and this ceased because it soon became known that the whole thing died at its very beginning. A farmer from that district, who lives upon and farms his land and who favored the rock road, told the writer of the failure. Said he: 'There were too many acres along our road, as we had to plan it, owned by men gone to town to live and rented their land to tenants on shares. Their votes and their talk killed the good road. They are all these eight and ten per cent. fellows that live off the farms and begrudge a solitary cent off their rentals no matter if you show a dollar sure to come along right after and keep coming every year. No use talking rock roads any more until these eight and ten per cent. fellows die off and a new set comes on that's better than their daddies.'"

This is a short-sighted policy on the part of the absentee landlords, but the correspondent says many projects for road improvement have been frustrated by their opposition. That being the case it would seem to be in order for the Missouri Legislature to make some amendments to the special road district law which would curtail the voting power of the absentees. Every landowner ought to be interested in good roads, whether he lives in city or in the country. Good roads greatly increase land values, and the absentee landlord who is so selfish in his views as to block improvements of such material importance is an incubus and a stumbling block.—Louisville Courier-Journal.

The First Difficulty.

Like starting a heavily loaded wagon the hard thing to do in the campaign for good roads is to secure construction of the first highway of the kind desired, which would be an object lesson from which the public would learn to appreciate the advantage of possessing an extensive system of such highways over which travel would be easy and the cost of transportation comparatively light.—Denver Republican.

Kansas is Awakening.

Kansas, having the livest people on earth, should have also the best public roads. But she has not—at least not in all cases. There is room for improvement and this improvement should be made, especially when it can be done cheaper here than in almost any other State you might mention.—Atchison News.

Advice Not Necessary.

The strong woman and the seedy loking gentleman came on board at Fishguard. The seedy loking gentleman retired to his cabin, and the strong woman tucked him up with shawls.

Then the strong woman strode on deck and hailed the captain.

"Well, mum?" queried the skipper.

"My husband is particularly liable to seasickness, captain," said the strong woman.

The captain nodded.

"I've heard of the complaint afore, mum," he said.

"Could you tell him what to do in case of an attack?" asked the strong woman.

"'Tain't necessary, mum," replied the skipper. "He'll do it!"—London Telegraph.

The Deacon's Parable.

A self-conscious and egotistical young clergyman was supplying the pulpit of a country church. After the service he asked one of the deacons, a grizzled, plain-spoken man, what he thought of his morning effort.

"Waal," said the old man, slowly, "I'll tell ye in a kind of parable. I remember Tunk Weatherbee's first deer hunt, when he was green. He follered the deer's tracks all right, but he follered 'em all day in the wrong direction."—The Housekeeper.

The first Mayor of New York, Thomas Willett, sleeps in the Little Neck (R. I.) cemetery, and his grave is neglected.

A Package Mailed Free on Request of

MUNYON'S PAW-PAW PILLS

The best Stomach and Liver Pills known and a positive and speedy cure for Constipation, Indigestion, Jaundice, Biliousness, Sour Stomach, Headache, and all ailments arising from a disordered stomach or sluggish liver. They contain in concentrated form all the virtues and values of Munyon's Paw-Paw tonic and are made from the juice of the Paw-Paw fruit. I unhesitatingly recommend these pills as being the best laxative and cathartic ever compounded. Send us postal or letter, requesting a free package of Munyon's Celebrated Paw-Paw Laxative Pills, and we will mail same free of charge. MUNYON'S HOMOEOPATHIC HOME REMEDY CO., 53d and Jefferson Sts., Philadelphia, Pa.

A Woman's Way.

A prominent banker in this city was talking the other day of the foibles of some of his feminine depositors.

"Women are queer creatures when it comes to business," he said. "For one thing, no woman can understand why we won't send her unlimited amounts of money if she asks for it over the telephone.

"But the funniest incident I've known happened the other day. We sent word to one of our women depositors that her account was overdrawn. We expected her to be angry. They usually are. But she wasn't.

"No, indeed. She sat down and wrote us a gracious and lovely letter on crested paper, thanking us for letting her know that her account was overdrawn.

"'I am so glad to oblige you by remembering the defect at once, she wrote.

"And she enclosed a check for $750 drawn on our own bank."—Philadelphia Times.

Epidemic of Itch in Welsh Village.

"In Dowlais, South Wales, about fifteen years ago, families were stricken wholesale by a disease known as the itch. Believe me, it is the most terrible disease of its kind that I know of, as it itches all through your body and makes your life an inferno. Sleep is out of the question and you feel as if a million mosquitoes were attacking you at the same time. I knew a dozen families that were so affected.

"The doctors did their best, but their remedies were of no avail whatever. Then the families tried a druggist who was noted far and wide for his remarkable cures. People came to him from all parts of the country for treatment, but his medicine made matters still worse; as a last resort they were advised by a friend to use the Cuticura Remedies. I am glad to tell you that after a few days' treatment with Cuticura Soap, Ointment and Resolvent, the effect was wonderful and the result was a perfect cure in all cases.

"I may add that my three brothers, three sisters, myself and all our families have been users of the Cuticura Remedies for fifteen years. Thomas Hugh, 1650 West Huron St., Chicago, Ill., June 29, 1909."

Profitable Farming.

Does farming pay? A profit of $40.50 an acre on alfalfa looks as if it did. This result will be obtained by forage experiments conducted by the Missouri Agricultural Experiment Station, according to C. A. Wilson, instructor in animal husbandry.

The college has kept twelve hogs on an acre of alfalfa for the last forty-four days. The net income from this feeding, figuring pork at 9 cents and corn at 56 cents, has been $18.70 an acre. This would mean a net profit of $14 an acre after allowing for rental and taxes on the land.

In considering these figures it must be recalled that at least 120 days yet remain in which this acre can still be foraged. A value of $25.35 an acre for a year is considered good in foraging alfalfa to hogs.—Kansas City Star.

Chinese Proverbs.

A teacher can lead us into the porch, but culture depends on self.

An image maker never worships idols.

A crow is black the world over.

In beating a dog have regard for its master.

A good hearer is better than a good speaker.

Murder may be condoned, but discourtesy never.

When no money is spent there no grace is gained.

The biggest hand cannot hide the heavens.

Water may run in a thousand channels but all returns to the sea.

Better be alive and poor than rich and dead.

Men's minds are as unlike as their faces.

Alms done openly will be repaid secretly.

The cabbage grub dies in the cabbage.

Rotten wood cannot be carved.

A CITY OF MAGIC.

Damascus Seen From Jebel Kasyum is a Dream of the Orient.

"The view of Damascus from the mountain where Mohammed made his great renunciation is one of the marvellous views of the world," writes Robert Hichens in the Century "Again and again I deserted the mosques, the bazaars, the marble baths, the courts of the fountains, the shadowy khans and the gardens by the streams for that bear height on which Abraham is said to have had the unity of God revealed to him.

"An Oriental city of magic called up by a slave of the lamp to realize one's dream of the Orient; a city ethereally lovely, exquisitely Eastern, ephemeral to be blown away by a breath like a tuft of thistledown; not white, but delicately pale, with a pallor holding the faintest hint of a seashell flush; a city, slender, calm, almost mystic in its fragile grace, set in the heart of a great ardent woods, beyond which lie the desert spaces—this is Damascus from the mountain of Jebel Kasyun. It holds one almost breathless seen thus from afar.

"Damascus is a garden city touched by the great desert. Under its roses one feels the sands. Beside its trembling waters one dreams of the trembling mirage. The cry of its muezzins seems to echo from its mosque towers to that most wonderful thing in nature, which is 'God without man.' The breath of the wastes passes among the populars as that Bedouin boy passed among the merchants when he came and when he went.

"In Damascus one hears the two voices. And when one looks from the sacred mountain upon that city of dream, cradled among the woods, one sees far off the tawny beginnings of that other magic, which looks out from the Bedouin's eyes. And though perhaps, with the pilgrims from Samarkand, one loves to rest beside the fountains under the hedges of roses, one is aware of the other love, intercourse with which has made Damascus an earthly paradise for them and for you."

Settling Marie.

Mayor Charles H. Nevin, of Butte, was talking about the Marathon waltz that he had stopped after it had gone on continuously for fourteen hours, says the Kansas City Star.

"We have Marathon waltzing, Marathon piano playing, even Marathon seating at this time," said Mayor Nevin. "The young men and women who enter such contests are ambitious, certainly; but theirs is a misguided ambition, like that of Lizzie Ann.

"Lizzie Ann was a servant girl. She said bitterly to her mistress one morning:

"'Here's another letter, ma'am, I'v got from Mrs. Jones' cook Marie. Marie says they've got her a conservatory now. It fairly makes one sick. Fibber!'

"Lizzie Ann hesitated, then said diffidently:

"'I bin thinkin'—if I hired an auto and a photographer—would ye mind mum, if me and the master was took on the front seat together? It would settle that Marie when I sent her the picture.'"

Constipation causes many serious diseases. It is thoroughly cured by Dr. Pierce's Pleasant Pellets. One a laxative, three for cathartic.

Sometimes a man loses out because when opportunity knocks he has a fool doorkeeper on the job.

When a Man Is Fifty.

"A man's advancing age tells on him in no other way more unmistakably than in his habits of rising in the morning," remarked Col. Peter Toliver of Philadelphia to a St. Louis Republic reporter. "I am 62 years old, and wake up every morning with the sun. Time was when I used to regard it as a hardship to be waked before 8 o'clock. That was when I was young. When I reached 50 I began to wake with the sun, and no matter how late I sat up the night before, I found myself tired of sleeping beyond the hour of the sun's rising. Many men about 50 you meet now will tell you that they find themselves sleeping less than formerly, and are unable to account for it. Whenever one of them complains to me, I know what his age is, no matter how young he may look. There is something in us that responds to reawakened nature when we reach the half-century post in our journey through life, and all the drugs in the pharmacopoeia will not arrest the tendency to sleep no more after daylight comes. In the future, when a friend complains to you of his inability to snooze after 'glooms shiver off and lights creep in,' just tell him that he will find this habit fixed upon him for the remainder of his life, because it is a sure sign of advancing age."

For COLDS and GRIP

Hicks' CAPUDINE is the best remedy—relieves the aching and feverishness—cures the Cold and restores normal conditions. It's liquid—effects immediately. 10c., 25c. and 50c. At drug stores.

Something Simple.

"These jigsaw puzzles are deuced perplexing, don't you know."

"Try one or two pieces, Fardy, for a start."

On ten dyes used for Easter eggs, four were found to be poisonous.

Despair and Despondency

No one but a woman can tell the story of the suffering, the despair, and the despondency endured by women who carry a daily burden of ill-health and pain because of disorders and derangements of the delicate and important organs that are distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it, and have nothing to urge upon you as "just as good." It is non-secret, non-alcoholic and has a record of forty years of cures. Ask Your Neighbors. They probably know of some of its many cures.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a *free* copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R.V. Pierce, Buffalo, N.Y.

WINTERSMITH'S CHILL TONIC

Oldest and Best Tonic; for Malaria and Debility.

A splendid general tonic; 40 years' success. Contains no arsenic or other poisons. Unlike quinine, it leaves no bad effects. Take no substitute. FREE—book of puzzles sent to any address.

ARTHUR PETER & CO., Gen'l Agents, LOUISVILLE, KY.

NO CURE NO PAY

No Inducement.

Castleton—How few girls go in bathing here this season!

Dillback—Yes. The grand stand back of the bathing beach has been washed away.—Judge.

When some young men fall in love, they show the first symptoms by investing heavily in perfumery.

For HEADACHE—Hicks' CAPUDINE

Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at drug stores.

Uncrowned Rulers.

There are many reigning sovereigns at the present time who have never taken the trouble to be crowned. Among them may be mentioned the German Emperor, the King of Italy, the King of Spain, the Queen of Holland, the King of Bavaria, the King of Saxony.

Cheering Indication.

The fact that $14,225, the largest amount ever paid at one time into the "conscience fund" of the United States Government, has been received within the last year, is a cheering indication that some men are growing better instead of worse.

In a Pinch, Use Allen's Foot-Ease,

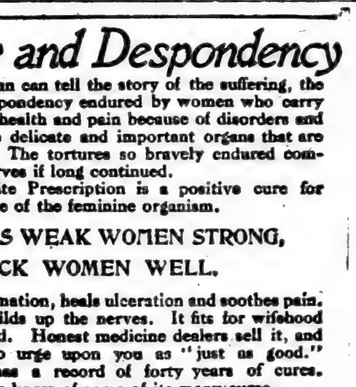
The Antiseptic Powder, to shake into your shoes. It rests the feet. Cures Corns, Bunions, Swollen, Sore, Hot, Callous, Aching, Sweating Feet and Ingrowing Nails. Allen's Foot-Ease makes new or tight shoes easy. Always use it to break in new shoes. Sample FREE. A. S. Olmsted, Le Roy, N. Y.

A Congressman's Horseshoes.

Congressman Russell, of Connecticut, has something like a bushel of horseshoes which he has picked up. Six or eight fine specimens ornament or disfigure his apartments at the Hamilton in Washington, and the remainder of the bushel, except a few, are stored in an old box at his home in Killingly. The few which are especially reserved from the collection in the box are hanging on the port waist oar which Russell used to pull a winning stroke with in the old six-oared crew of Yale College in '78.

A POLICEMAN'S EXPERIENCE.

Suffered For Years From Chronic Kidney Trouble.



Walter J. Stanton, 1139 Pear St., Camden, N. J., says: "Kidney trouble bothered me for fifteen years. If I stooped, sharp twinges shot through my back and it was hard for me to arise. I was treated by several doctors, one a specialist, but did not receive relief. Finally I began using Doan's Kidney Pills and soon noticed an improvement. I continued until the trouble disappeared."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster Milburn Co., Buffalo, N. Y.

Silk Hat Temperature.

Men who wear silk hats know that the temperature inside the hat is much higher than outside; but it has remained for a French physician to measure the difference. He has discovered that when the thermometer registers ninety degrees in the shade in the outer air it stands at one hundred and eight degrees in his silk hat, and that when it is sixty-eight degrees outside it is eighty-eight inside. From these differences he concludes that the unnatural heat causes many nervous troubles.—Washington Star.

These candy tablets do just as much as salts or calomel. But Cascarets never callous the bowels. They never create a continuous need, as harsh cathartics do. Take one just as soon as the trouble appears, and in an hour its over.

CUT THIS OUT, mail it with your address to Sterling Remedy Company, Chicago, Ill., and receive a handsome souvenir gold Bon Bon FREE.

MARRIAGES IN FRANCE.

A Large Increase Since New Law Simplified Formalities.

It is an interesting and noteworthy fact that since the promulgation of the law of June, 1907, the effect of which is to simplify the formalities which are the necessary preliminaries to marriage in that country, there have been more weddings in France than at any period since the beginning of last century, with the exception of the years 1813 and 1872, in the former of which men contracted unions to escape being sent off to fight, while in the latter many weddings took place which had been delayed by the war with Germany. This very satisfactory state of things, according to a correspondent of the London Telegraph, is due to the initiative of the Abbe Lemaire, one of the deputies for the Department of the Nord. He was not able to get all his propositions adopted by his colleagues, but the law which was finally passed, such as it is, has already done a vast ambount of good.

Among the relief which the act has brought to persons intending to marry, it has freed those who are over thirty years of age from procuring the whole series of documents and certificates upon which the Code Civil insisted. Then, after the age mentioned, it is no longer necessary to obtain the consent of the parents —indeed, after the age of twenty-one, this can also be dispensed with, provided that it is shown that due notice has been sent to them. These are the two principal benefits of the law of 1907, and the result is that many people of the lower classes are now married who might have been tempted to do without the ceremony, as they found it impossible to collect the needful papers, or were prevented by the caprice of parents who refused their consent for no valid reason.

What the relief thus obtained means will be understood when it is explained that, in the case of persons who had lost their parents, and who were engaged to be married, upward of nineteen documents were required by the Code Civil of 1804, including two certificates of birth, two of residence, two of non-opposition, the usual military record book, four certificates of the death of parents, and eight of the grandparents, for the entire set of which £2 had to be paid. Naturally, it is in the large towns, where people have been living awhile away from their native villages, that the result of this beneficent law of 1907 has been most conspicuous, and all this, as need hardly be added, makes for morality, which in these days seems to require a good deal of practical encouragement, at least in the big towns.

Marcy Raises "Black Coat Question."

Soon after his accession to the State Department in 1853, under President Pierce, William L. Marcy issued a circular requiring consuls to give up official costumes altogether; as to diplomats, it was recommended but not enjoined, that they should appear before foreign courts in simple black. This was urged on the ground that plainness of attire was proper to the representatives of a republic, and regret was expressed that we had ever departed from the simplicity adopted by Dr. Franklin in appearing before the Court of Louis XVI. Abroad Marcy's circular created no little surprise. It was generally regarded as an appeal to the lower classes in America, who might be supposed to entertain the sentiments of the sans-culottes and it was treated with little respect. Had the Government prescribed a black dress for its diplomats no court in Europe would have made any objection. "It might have been taken as a rebuke to older and more refined nations than ourselves by an indecorum, if not an indecency," says Peter Parley, who had been Consul to Paris, in his reminiscences, "the same as appearing in common clothes on occasions in which etiquette demanded a special and appropriate dress."—Tip, in the New York Press.

Sixteenth Century Inns.

Supervision over the inns was far stricter than at present, especially in Italy. At Lucca and at Florence all the inns were in a single street, and in many towns the new arrival was taken before the authorities by the guard at the gates before he was allowed to choose his inn, to which he would be conducted by a soldier. At Lucca, too, was a department of the judiciary which was specially concerned with strangers, and to this the innkeepers had to send a daily report of each guest. Yet to judge by the tourists' accounts the supervision might well have been carried further and reports upon the innkeepers required from the tourists. Such a system of double reports would have been a check on the murdering innkeeper, to whom there are occasional references. A landlord at Poitiers was detected in the middle of the seventeenth century, and at Stralesund, so runs another tale, 800 (!) persons had disappeared at one inn. They had reappeared, it is true — but pickled.—Atlantic.

Teddy Corn Crop Weather.

Now, how are you going to convince any Teddy rooters that the Colonel did not bring back the hot sun with him, just when it became absolutely necessary to start the corn crop growing in earnest? He returned too late, however, to save lots of strawberries that were drowned as sure as ever kittens that were sunk in a bag. —Tip, in the New York Press.

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county and state of Alabama, in favor of Edward Thompson & Co., and against Thomas Curry, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Thos. A. Curry out of the goods, chattels, lands and tenements of the said Thos. A. Curry, I have levied on the following property, to-wit:

W. 1-2 of N. W. 1-4 Section 23, Township 22, Range 12, 80 acres. S. E. 1-4 of N. E. 1-4, Sec. 22, Township 22, Range 12, 40 acres. S. W. 1-4 of S. W. 1-4, Sec. 21, Township 21, Range 13, 40 acres. E. 1-2 of S. E. 1-4, Sec. 20, Township 21, Range 13, 80 acres. S. 1-2 of S. E. 1-4 Sec. 30, Township 21, Range 13, 80 acres. S. E. 1-4 of S. E. 1-4 Sec. 3, Township 21, Range 13, 40 acres.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Thos. A. Curry, in and to the above described property, on Monday, the 11th day of July, 1910, during the legal hours of sale, at the Court House door, at Clanton, in Chilton County, Alabama.

Dated at Clanton, Ala., this 7th day of June, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.
4t

A hen once walked through a clay puddle and then into a sugar house and left tracks of her muddy feet on a pile of sugar. Wherever her tracks were, it was noticed the sugar was whitened. After a number of experiments, it was found that wet clay was valuable in refining sugar.

NOTICE TO NON-RESIDENT.

The State of Alabama, Chilton County. F. M. Wood, trading as The Clanton Press, vs. T. L. Carter, trading as Clanton Furniture Co.

Before me, as Justice of the Peace, this, the 5th day of July, 1910, came the plaintiff in the above entitled cause, and it appearing that certain property of the said defndant has been levied upon, to-wit: One bedstead, one bureau, one wash stand, by virtue of an attachment issued from my office on the 15th day of June, 1910, and that said defendant is a non-resident of the State of Alabama; it is, therefore, ordered, that notice of said attachment and the return thereof, be given to the said T. L. Carter, trading as Clanton Furniture Company, by publication once a week for three successive weeks, to appear before me at my office in Clanton, Ala., on Saturday ,the 30th day of July, 1910, to contest said attachment if he sees proper, and that a copy of said paper be sent to said defendant, when his residence is known.

Given under my hand, this, July 5th, 1910.

J. P. VANDERVEER,
Notary Public and Ex-Officio Justice of the Peace. 3t

SALE OF PERISHABLE PERSONAL PROPERTY UNDER ATTACHMENT.

Guy Higgins vs. Pluma Leming, in the Circuit Court of Chilton County, Alabama.

Notice is hereby given that the personal property levied on in the above entitled cause, a more specific description of said property being hereinafter set out,—and said property being perishable in its nature, and liable to deterioration in value, and the charge of the keeping the same being very great, I, John S. Catts, the sheriff of Chilton County, under and by virtue of the mandate of the statute in such cases made and provided for sales of such property, when levied on under attachment, will proceed to sell at public outcry to the highest, best and last bidder for cash, on Tuesday, the 19th day of July, 1910, in front of the court house door in Clanton, Alabama, the following described personal property levied upon under a writ of attachment in said cause, to-wit:

One sorrel or bay mare.
One black horse mule, name Bill.
Plow stocks, plows and farming tools.
One buggy and buggy harness.
One two-horse wagon aand harness.
One saddle.
One white and blue spotted cow about six years old.
One male calf about one or two months old.
One black sow and seven pigs.
Five parcels of barbed wire.

And the proceeds of such sale will be applied in accord with the mandate of the statute in such cases made and provided.

Witness my hand this, the 9th day of July, 1910.

J. S. CATTS,
Sheriff of Chilton County, Ala.

Prices in keeping with the times.

We call for and return all work.

Its up to you to dress well—we will help you by taking the spots out and keeping you pressed.

Mr. Sam L. Cox is associated with us.

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton County, State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Co., a corporation, out of the goods, chattels, lands and tenements of the said Parsons Lumber Co., in favor of S. A. Blasengame, I have levied on the following property, to-wit:

One saw mill, two engines, one Log hoist, one Slab Elevator, eight Live Rollers and one gasoline engine.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Parsons Lumber Co., in and to the above described property, on Friday the 29th day of July, 1910, during the legal hours of sale, at the Court House door in Clanton, Chilton County, Alabama.

Dated at Clanton, Ala., this 5th day of July, 1910.

JOHN S. CATTS,
Sheriff Chilton County, Alabama.

The State of Alabama, Chilton County. Probate Court. J. S. Johnson, Jr., et al., deceased, estate of.

This day came N. S. Johnson, guardian of Samuel Johnson, and filed his statements, accounts, vouchers and evidences for a final settlement of his said guardianship. It is ordered that the 13th day of August, 1910, be appointed a day on which to make such settlement, at which time all persons interested can appear and contest said settlement, if they think proper.

L. H. REYNOLDS,
Probate Judge Chilton County.

VOL. I. CLANTON, ALA., THURSDAY, AUGUST 4 1910. NO. 18

GENERAL NEWS.

Railroad Commissioner Henderson Here.

Hon. Charles M. Henderson, chairman of the Railroad Commission, was in Clanton on last Friday and Saturday consulting with the citizens of the town with reference to railroad accommodations and schedules.

Quite a number of Clanton's business men called upon Mr. Henderson during his stay here and urged the desirability of the two fast trains, one going north and the other south, making a short stop at this place for the accommodation of the citizens of Clanton. They also urged some other changes that would be of benefit to the town. Mr. Henderson listened to all these complaints and suggestions patiently and stated that he would take them up when a full meeting of the commission was had.

Some one had the temerity to suggest that the commission would endear themselves in the grateful remembrance of every citizen of Clanton if they would issue an order restraining the engineers of the road from making such free use of the locomotive whistle. To this petition, however, Mr. Henderson turned a deaf ear, saying that this was the business of the town authorities and that he was confident if taken up with the authorities the nuisance would be abated.

What say the town authorities? Are we willing longer to listen to the hideous voice of the caliope, when a reasonable request of Mr. Brooks made them would bring peace and quiet to our citizens?

Mr. Henderson left Saturday for a visit to Wetumpka.

Mayor and Aldermen.

A movement looking toward the selection of candidates for Mayor and Aldermen took tangible shape Monday afternoon when dodgers were distributed calling for a citizens' meeting on Wednesday night at the court house.

It seems to be the purpose of those getting out the call to select a full ticket and place it in the field immediately. Who these candidates are going to be or what their particular policies are has not been made known at this writing, but it is presumed that the candidate selected for Mayor will announce his platform when the nomination is made.

The PRESS reserves the right to indorse by the candidate or to support some other candidate, as it sees proper. This is not an inconsistency on our part since the fight for the office is to be strictly non-political.

Those who have the management of the affair in hand seem to desire a change of officers, both in the mayor's office and in the marshalship.

The PRESS man has not been in Clanton long enough to pass judgment upon the effciency ot any candidate, but we wish to remark just here that the town has made rapid strides toward development under the present administration, and it would seem to be an unwise policy to swap horses in midstream. The office does not pay enough to cause a scramble for its gaining, nor is the honor so great that its possession would cause a family row.

There are but two things which the PRESS would stress as desirable planks in the pltaform of any candidate just now—a system of water works and a period to the everlasting whitewing of the railroad engines. With these two planks incorporated in the platform of some candidate we believe that he will come under the wire a winner.

Successful Meeting.

For the past eight or ten days Rev. F. Woods has been conducting a protracted meeting at Plantersville. The meeting closed on last Saturday night and was a pronounced success in every way. There were twenty-three accessions and of this number four-teen are candidates for baptism.

Rev. Woods did all the preaching himself, which means that the services were of high order and strictly doctrinal.

On account of the severe strain under which the minister had been laboring the meeting there was no preaching at the Baptist Church in Clanton last Sunday, the pastor taking much needed rest.

Property Changes.

There is no place in the South more desirable as a home than is the city of Clanton. This is readily shown by the high price of desirable residence and business property and the rapidity with which such property is taken when once placed upon the market. Within the past few days there have been several changes in Clanton property, the most of which is the Teel residence on Second avenue, which with the lot has been purchased by Mr. J. A. Thomas who will move his family to Birmingham within the near future to make that place his future home. Mr. Latham has moved in to the house formerly occupied by Rev. F. M. Woods and Rev. Mr. Woods has taken possession of the Latham house.

Public Installation.

The PRESS is requested to make the following announcement, which will be of interest to many of its readers:

There will be a public installation of the officers of Jemison Lodge No. 411, A., F. and A. M., at the Baptist Church, Jemison, Ala., on Saturday night, August 13, 1910.

A. D. GENTRY, Sec'y.

Red Meat and Rattle Snakes.

Around at the hospitable home of Mr. and Mrs. J. M. Morgan on last Monday night there occurred one of the most unique and enjoyable entertainments of the season. Several of the young men opened their hearts and pocketbooks, too, purchasing quite a number of luscious watermelons which were put upon ice and after having been frozen were sent to Mr. Morgan's home.

In the evening they went, with their friends, to the "cutting," and a most delightful occasion it proved to be.

In the party were Misses Estella and Ellee Morgan and Misses Pattie and Bessie VanDerveer, Messrs. Jas. H. Middleton, Harry Gordon, Thomas Woods and Mr. McNally of Tennessee.

Minor Improvements.

Among the minor improvements noticed by the PRESS man this week is the reflooring and replastering of the Mullins building on Main street and the painting of the depot building.

Perhaps neither came too soon, yet they go show that the property owners are looking with eagle eye toward the improvement of their property and keeping it in thorough repair.

A Freak.

Did you get your optics on her the other day? Did you have the pleasure of viewing the very latest from gay Paree? She was arrayed in rainbow colors and walked the streets with the grace of a gazelle. She wasn't quite as black as a crow, but she would take second prize at any color show. Fact is, like Mason, she could "lend color" to any occasion.

The PRESS forces, including the stenographer, were all busily engaged in their respective duties Saturday afternoon when a dark cloud seemed to overshadow the building, almost completely excluding the light.

So dim did the office become that we had to look toward the electric lights, but before the fluid could be turned on the cloud vanished. Some one went hurrying toward the door, exclaiming: "Look yonder!" This proved a signal for a football rush to the door and glancing down the street, such a vision of loveliness and fashion as greeted our wondering eyes!

She had on a picture hat of the vintage of 1842, a skirt of dark sable, with a violet drop skirt, cut bias, a waist of Nile green, with saffron trimmings, and a pair of shoes that looked like ferry boats. In her chubby little hand reposed a Japanese fan, with storks and flamingoes painted pink and blue and yellow, while at her waist dangled a kerchief as large as a dish towel in a Fifth avenue boarding house. Her lips—oh, those lips! They were as thick as a slice of Kentucky ham and as rosy as ripe pomgranates!

She said she was a fortune teller—and she looked her claim straight in the face. Nevertheless, some of the officers scented a man encased in all that finery and nothing would satisfy their credulity till she proved herself a female—fortune tellereas. She departed from Clanton Sunday morning and if you missed the vision you just don't know what you did miss.

Encampment Breaks.

Last Saturday over the L. and N. road some several hundred Alabama soldiers passed through Clanton on their return from Chickamauga park where for the past ten days they had been stationed in a camp of instruction.

There were three train loads of the soldier boys, each train being composed of ten passenger coaches and several baggage cars, in which was stored the armament and other belongings of the soldiers.

The state papers repoty that these young man made an enviable record while in the Tennessee park, and completely astonished the [illegible] our citizens soldiery; but who would have expected otherwise when informed that they were and are the flower of Alabama's manhood?

As they passed through Clanton they made the welkin ring—but that's a way soldier boys have, and since they were down to hard training for so long they were entitled to test their lungs in a mighty burst of shouting as they passed through the towns which their organization and chivalry protect.

ASSIGNMENT OF C. W. REYNOLDS

$25,000 Liabilities. Stock on Hand $7.500. Open Account $300. George Stewart, Montgomery, Receiver.

Mr. C. W. Reynolds, who has been transacting a general merchandise business in Clanton for some time, went into bankruptcy Wednesday morning, being forced to close his doors because of the pressure of creditors.

For some months Mr. Reynolds has been doing a large business, covering an extensive territory, and his many friends will regret to learn that he has been forced to the wall.

Mr. Reynolds is a young, energetic business man and will no doubt come again in the near future.

Post Office Improvements.

It's a small thing, but it shows. For some months there has been stationed in the handsome Post Office building an old blackboard on which the postmaster was accustomed to post his notices of unclaimed mail and such other notices as required public posting. This was all right, but it was not in keeping with the otherwise handsome appearance of our government building, so Postmaster Dudley went down in his jeans pocket and fished out a two-dollar William, with which he purchased several neat frames and glasses. In these he posts his notices and now the lobby of the Post Office looks somewhat like the main entrance to a national picture gallery.

Out of the Ordinary.

Mr. Harmon Headley has a rare specimen at his store that is attracting more than ordinary attention. Where he secured it he refuses to tell, nor will be put a price upon it, saying that it is not for sale. However, he is perfectly willing for his friends to look at his trophy and pass So highly does Mr. Headley value his judgment upon its value as a rarity. prize that he keeps it closely confined in a box. It is a perfectly red bat. It crouches down in one corner of the box and all attempts to make it eat are fruitless. It takes a little water occasionally, but does not seem to relish this. Mr. Headley has had many callers in the past few days looking at his remarkable specimen. If you are a zoologist or at all interested in the study of zootomy, it would be well for you to call upon Mr. Headley and see his treasure.

Cosmopolitan.

Clanton continues to show evidences of its cosmopolitan growth. The latest assurances come in the shape of a four-cylinder, twenty-horse power Buick automobile, purchased a few days since by Dr. J. P. Hayes.

The doctor says he has not yet selected a name for his machine, but he is inclined to choose a flighty name, as she goes over the hills of Chilton like a swallow and glides down dale with the ease and grace of a fawn. Now that the ice is broken we expect to see several additional machines in Clanton within the near future.

Mules and Melons—That Fast South-Bound Again.

In writing up the mishaps caused by the faast train southbound last Tuesday, we like to have overlooked the water melon wagon on the west side of the railroad. The poor little mules seemed to think that the fast train was one of the Birmingham iron furnaces propelled by a streak of greased lightning as it came scudding by, and, desiring to get out of the way of the office wing of the building, they moved up the hill at a pace that would have put Dan Patch to the blush. And the train went on and on and on.

[illegible] we will publish a graphic [illegible]

A FEARFUL ACCIDENT

Family Almost Lose their Lives

WILL CLANTON LONGER SUBMIT?

The Incessant Whistling of Trains When Standing Still a Positive Nuisance—The Ease with Which Fast-Running Trains Slip Up on Their Victims a Positive Menace.

On last Tuesday Clantonites were given two object lessons in the game of bluff and bluster practiced by a soulless and heartless corporation. That seven human lives were not sacrificed to the greed and wantonness of the L. and N. Railroad was altogether a matter of kind Providence and not because of any care or thought on the part of the railroad. How much longer Clanton will submit to the treatment it has received at the hands of this company remains to be seen, but there is one thing sure, a repetition of the occurrences of Tuesday last will furnish the basis for an interesting damage suit in which the defendant will have but few witnesses and the prosecutor will have almost the entire citizenship of the town at his back.

There is a point at which patience ceases to be a virtue, and when forbearance becomes cowardice. Clanton has about reached that point in its dealings with the L. and N. Railroad. Just who is to blame the PRESS does not undertake to say, but that someone is grievously at fault no one can successfully deny. If the blame attaches to the higher officials, there is a law in our land which can reach even a mighty official and make him to realize that there are others upon the face of the earth besides himself and his company whose rights they must respect. If the blame lies with the employes of the road then it is high time that the officials are taking steps to see that its employes regard the life and property of others. The incessant screaming of engines in the very heart of the city is an evidence of the soullessness of the company and the contempt with which it treats its patrons. In no other place do the engines waste so much steam in their everlasting, ear-splitting and useless bellowing as right here in the very heart of Clanton and upon its principal business street. They seem to take a perfect delight in tormenting the nervous men and women of the town and in scaring the teams at labor to earn honest bread for their owners. If there was one iota of excuse for this interminable whistling, it might be overlooked, but the veriest school urchin knows, and every railroad man knows, that it is altogether inhuman, unnecessary and done with no other purpose in view but to show the mighty power of a great corporation over the rights of private citizens.

Last Tuesday morning Mr. W. C. Davis and his wife and four children were driving along the public thoroughfare, the property of the citizens of Chilton county, and when just at the entrance to the bridge that spans the deep cut across the railroad tracks on the north side of th etown the fast south-bound train came bowling along at a rate not less than thirty miles an hour. Just past this bridge there is a curve, and unless the engineer blows his whistle a pedestrian or a driver can not tell whether a train is approaching or not. On this occasion no whistle was blown, and Mr. Davis had gotten well on to the bridge before he knew that the train was in twenty miles of him. When too late to turn, his team the train came, belching steam and smoke, and scared the team so that it began to back off the bridge, dragging the wagon and the occupants with it. The wagon turned completely over, dumping its occupants upon a pile of lumber that lay close to the edge of the embankment, and had it not been for this pile of lumber, would have fallen with terrific force upon the unfortunate man, woman and children. As it was, the lumber held up one end of the wagon so that the persons within fell to safety on the grass below. It was a sheer drop of eight feet or more. The lumber pile was the only thing that kept the lives of these six persons from being completely crushed out of their bodies and their bones broken into bits. Each occupant of the wagon was more or less bruised, and the little girls scared within half an inch of death. The wagon was broken, the harness ruined and the mules more or less injured.

What have saved all this loss, these bruises and perhaps a damage suit. Should Mr. Davis decide to bring suit the railroad will no doubt have all manner of excuses and will perhaps claim that the whistle was blowing when it left Jemison and continued to blow till it got out of the county, but the fact is, says Mr. Davis, that there was no blast of the whistle till the south curve was reached and after all the damage had been done. That sounds more like the truth than anything else, for it seems to be the practice to reserve all blasts of the whistle for the heart of the city, and subsequent developments prove that Mr. Davis' statement accords with the truth.

Not content with having hurled these poor unfortunates to an almost instant death, the train came thundering along around the next curve, within a hundred yards of the principal street crossing of the city, and then began its bellowing. Running at a rapid rate, it was within a few feet of a passing team of mules before the driver knew of its approach, and before he could check his team they went up Main street with all the speed they could muster. Right manfully did the driver stick to his job, but the mules were too much for his strength and skill. They ran helter skelter along the streets, overturning buggies and making the pedestrians take to tall timber. Finally they ran into a cross tie wagon, wrenched off a wheel or two and then tried to divide at a heavily loaded lumber wagon. Here they were stopped, but had it not been for the lumber wagon they would, in all probability, have been running until this moment.

Now, two or three things are apparent. The railroad is not going to cease carlessness in crossing our streets till the city authorities make the officials do so. It is not going to stop those diabolical screeches of the steam whistle till the city authorities call them to taw. It is not going to slacken is speed through our streets till our city authorities order them to do so. An accident several months ago should have been a sufficient warning, but it was not. Time, time seems to be the ne plus ultra of the L. and N. passing through Clanton; life, liberty and the pursuit of happiness are as pebbles upon a rocky beach to the L. and N. so far as Clanton is concerned.

Requests for less whistling and petitions for a slackened speed have fallen upon deaf ears. It is now time to act, ACT, and the PRESS calls upon the town council to take some immediate action looking toward the protection of the citizens of Clanton from this inhuman and altogether heartless treatment of its citizens. The Mayor can do nothing of himself; the council is the law-making body and he is but the executive. The council CAN pass an ordinance and the Mayor WILL enforce it. Let them do so at once. Do not wait till some good citizen loses his wife or child before the ordinance is passed. Do not wait till a carnival of death is enacted before some step is taken. Let it be done NOW. Let it include three ordinances: One requiring the road to slacken the speed of its trains to four miles when passing through the city, whether it be a fast train behind time or not; an ordinance requiring the road to have its whistles blown far enough north of the overhead bridge and far enough south of the city to allow citizens to get to places of safety before the fast-moving trains are upon them; an ordinance requiring that the whistles of the engines shall be blown only as they are blown in other towns. Then when these ordinances are passed SEE that they are enforced as they are enforced in other towns, and perhaps the L. and N. will begin to respect the citizenship of Clanton as it does the citizenship of other towns. They'll bluff you if they can, with bluster and whirlwind talk and all kinds of threats, but remember that the city has a few rights as well as the road. DO IT NOW. The citizens are DEMANDING it of our councilmen. WILL YOU DO IT?

A Communication.

The PRESS some time ago stated that it would not enter into any discussion of a political nature that had the least taint or smacked of mud-slinging, and to this resolution we are going to cling as long as circumstances will permit. During the campaign which has recently closed we stubbornly refused to publish any communination for or against any candidate in the race. We felt that it was a family wrangle in which we had no interest, and had we began the publication of articles such as appeared, there might have been no end to them.

In the communication below the writer complains that [illegible] his complaint is justified or not the PRESS does not undertake to say. We print the communication because Mr. Baker has requested us to do so. He stands sponsor for it. Our columns are open for any reply that may be made, PROVIDED it is not of a political nature. We would not willingly do one side or the other an injury, nor would we permit our columns to be used by one party and refuse them to the other. We say these things not in justification of either one side or the other of in condemnation of either party, but merely to define our position and to have it distinctly understood by ALL that the PRESS is not selling or lending its columns to attacks upon any man.

The communication reads:

Clanton, Ala., August 1, 1910.

Editor PRESS:

Will you please give me space in your paper to speak a few words to the good fathers and mothers of Chilton county that have boys?

Now, fathers and mothers, I wish to call your attention to a matter that happened in our County Court a few days ago, where L. H. Reynolds is judge.

Now, I have a boy, one that is energetic, works hard and makes his own living, and never loafs around town. This is what happened to him: He was summoned to appear at the above named court July 28, 1910, to give evidence in behalf of the state, which he did, and answered every question that was put to him in a gentlemanly way, and because it was not the evidence that the judge wanted, the boy was hand-cuffed and ordered locked up in a dark cell in the county jail, where thieves and murderers are usually kept.

Now, where is our county drifting when the highest official of the county is using his authority to persecute our boys in that sort of a way?

CLANTON PRESS.

Published in the Interest of Chilton County and Her People.

VOL. I. CLANTON, ALA., THURSDAY, AUGUST 4 1910. NO. 18

...ERAL NEWS.

...d Commissioner Henderson Here.

...Charles M. Henderson, chair... the Railroad Commission, was ...on on last Friday and Satur... ...sulting with the citizens of ... with reference to railroad ...ldations and schedules.

...a number of Clanton's busi... ...n called upon Mr. Henderson ...his stay here and urged the ...lity of the two fast trains ...g north and the other south, ...a short stop at this place for ...ommodation of the citizens of ... They also urged some other ...t that would be of benefit to ...n. Mr. Henderson listened ...these complaints and sugges... ...patiently and stated that he ...like them up when a full meet... ...the commission was had.

...e one had the temerity to sug... ...at the commission would em... ...themselves in the grateful re... ...ance of every citizen of Clan... ...they would issue an order re... ...ing the engineers of the road ...making such free use of the ...whistle. To this petition, how... Mr. Henderson turned a deaf ...ing that this was the business ...down authorities and that he ...nfident if taken up with the ...ities the nuisance would be ...

...t say the town authorities? Are ...willing longer to listen to the ...voice of the caliope, when a ...request of Mr. Brooks made ...n would bring peace and quiet ...citizens?

...Henderson left Saturday for a ...o Wetumpka.

Mayor and Aldermen.

...movement looking toward the ...on of candidates for Mayor and ...men took tangible shape Mon... ...ternoon when dodgers were ...ted calling for a citizens' ...g on Wednesday night at the ...house.

...ems to be the purpose of those ...out the call to select a full ...nd place it in the field imme... Who these candidates are ...or what their particular poli... ...e has not been made known at ...iting, but it is presumed that ...ndidate selected for Mayor ...nounce his platform when the ...ation is made.

...PRESS reserves the right to ...by the candidate or to support ...other candidate, as it sees prop... ...is not an inconsistency on our ...ace the fight for the office is ...strictly non-political.

...e who have the management ...affair in hand seem to desire a ...e of officers, both in the mayor... ...d in the marshalship.

...PRESS man has not been in ...n long enough to pass judg... ...upon the effciency of any can..., but we wish to remark just ...that the town has made rapid ...toward development under the ... administration, and it would ...to be an unwise policy to swap ...in midstream. The office does ...y enough to cause a scramble ...gaining, nor is the honor so ...that its possession would cause ...ly row.

...re are but two things which ...RESS would stress as desirable ...in the pltaform of any candi... ...just now—a system of water ...and a period to the everlasting ...ing of the railroad engines. ...these two planks incorporated ...platform of some candidate ...eve that he will come under ...e a winner.

Successful Meeting.

...the past eight or ten days Rev. ...Woods has been conducting a ...cted meeting at Plantersville. ...eeting closed on last Saturday ...as a pronounced success in ev... ...way. There were twenty-three ...ns and of this number four... ...re candidates for baptism. ...Woods did all the preaching ...l, which means that the ser... ...were of high order and strictly ...l.

...account of the severe strain ...which the minister had been ... the meeting there was no ...ing at the Baptist Church on ...last Sunday, the pastor tak... ...much needed rest.

Property Changes.

...is no place in the South ...irable as a home than is the ... Clanton. This is readily ...by the high price of desirable ... and business property and ...ay with which such ... taken when ever placed upon ... With ... ...have been ... to Clanton ... ...which ...

...dence, and the home occupied by Rev. F. M. Woods as a pastorium, belonging to Mr. C. Reese Mullins, which was purchased recently by that enterprising citizen, Mr. O. E. Latham.

Mr. Teel will remove his family to Birmingham within the near future to make that place his future home. Mr. Latham has moved in to the house formerly occupied by Rev. F. M. Woods and Rev. Mr. Woods has taken possession of the Latham house.

Public Installation.

The PRESS is requested to make the following announcement, which will be of interest to many of its readers:

There will be a public installation of the officers of Jemison Lodge No. 411, A., F. and A. M., at the Baptist Church, Jemison, Ala., on Saturday night, August 13, 1910.

A. D. GENTRY, Sec'y.

Red Meat and Rattle Snakes.

Around at the hospitable home of Mr. and Mrs. J. M. Morgan on last Monday night there occurred one of the most unique and enjoyable entertainments of the season. Several of the young men opened their hearts and pocketbooks, too, purchasing quite a number of luscious watermelons which were put upon ice and after having been frozen were sent to Mr. Morgan's home.

In the evening they went, with their friends, to the "cutting," and a most delightful occasion it proved to be.

In the party were Misses Estella and Ellee Morgan and Misses Pattie and Bessie VanDerveer, Messrs. Jas. H. Middleton, Harry Gordon, Thomas Woods and Mr. McNally of Tennessee.

Minor Improvements.

Among the minor improvements noticed by the PRESS man this week is the reflooring and replastering of the Mullins building on Main street and the painting of the depot building.

Perhaps neither came too soon, yet they go show that the property owners are looking with eagle eye toward the improvement of their property and keeping it in thorough repair.

A Freak.

Did you get your optics on her the other day? Did you have the pleasure of viewing the very latest from gay Paree? She was arrayed in rainbow colors and walked the streets with the grace of a gazelle. She wasn't quite as black as a crow, but she would take second prize at any color show. Fact is, like Mixon, she could "lend color" to any occasion.

The PRESS forces, including the stenographer, were all busily engaged in their respective duties Saturday afternoon when a dark cloud seemed to overshadow the building, almost completely excluding the light.

So dim did the office become that we had to look toward the electric lights, but before the fluid could be turned on the cloud vanished. Some one went hurrying toward the door, exclaiming: "Look yonder!" This proved a signal for a football rush to the door and glancing down the street, such a vision of loveliness and fashion as greeted our wondering eyes!

She had on a picture hat of the vintage of 1842, a skirt of dark table, with a violet drop skirt, cut bias, a waist of Nile green, with saffron trimmings, and a pair of shoes that looked like ferry boats. In her chubby little hand reposed a Japanese fan, with storks and flamingoes painted pink and blue and yellow, while at her waist dangled a kerchief as large as a dish towel in a Fifth avenue boarding house. Her lips—oh, those lips! They were as thick as a slice of Kentucky ham and as rosy as ripe pomgranates!

She said she was a fortune teller—and she looked her claim straight in the face. Nevertheless, some of the officers scented a miss enamed in all that finery and nothing would satisfy their credulity till she proved herself a female fortune teller—and she departed from Clanton Sunday morning and if you missed the visage you just don't know what you did miss.

Encampment Broken.

Last Saturday over the L. and N. road some several hundred Alabama soldiers passed through Clanton on their return from Chickamauga park where for the past ten days they had been stationed in a camp of instruction.

There were three trainloads of soldier boys, each train being composed of ten passenger coaches, several baggage cars, etc., and about the entertainment [illegible]

ASSIGNMENT OF C. W. REYNOLDS

$25,000 Liabilities. Stock on Hand $7,500. Open Account $300. George Stewart, Montgomery, Receiver.

Mr. C. W. Reynolds, who has been transacting a general merchandise business in Clanton for some time, went into bankruptcy Wednesday morning, being forced to close his doors because of the pressure of creditors.

For some months Mr. Reynolds has been doing a large business, covering an extensive territory, and his many friends will regret to learn that he has been forced to the wall.

Mr. Reynolds is a young, energetic business man and will no doubt come again in the near future.

our citizens soldiery; but who would have expected otherwise when informed that they were and are the flower of Alabama's manhood?

As they passed through Clanton they made the welkin ring—but that's a way soldier boys have, and since they were down to hard training for so long they were entitled to test their lungs in a mighty burst of shouting as they passed through the towns which their organization and chivalry protect.

Post Office Improvements.

It's a small thing, but it shows. For some months there has been stationed in the handsome Post Office building an old blackboard on which the postmaster was accustomed to post his notices of unclaimed mail and such other notices as required public posting. This was all right, but it was not in keeping with the otherwise handsome appearance of our government building, so Postmaster Dudley went down in his jeans pocket and fished out a two-dollar William, with which he purchased several neat frames and glasses. In these he posts his notices and now the lobby of the Post Office looks somewhat like the main entrance to a national picture gallery.

Out of the Ordinary.

Mr. Harmon Headley has a rare specimen at his store that is attracting more than ordinary attention. Where he secured it he refuses to tell, nor will he put a price upon it, saying that it is not for sale. However, he is perfectly willing for his friends to look at his trophy and pass So highly does Mr. Headley value his judgment upon its value as a rarity, prize that he keeps it closely confined in a box. It is a perfectly red bat. It crouches down in one corner of the box and all attempts to make it eat are fruitless. It takes a little water occasionally, but does not seem to relish this. Mr. Headley has had many callers in the past few days looking at his remarkable specimen. If you are a zoologist or at all interested in the study of zootomy, it would be well for you to call upon Mr. Headley and see his treasure.

Cosmopolitan.

Clanton continues to show evidences of its cosmopolitan growth. The latest assurances come in the shape of a four-cylinder, twenty-horse power Buick automobile, purchased a few days since by Dr. J. P. Hayes.

The doctor says he has not yet selected a name for his machine, but he is inclined to choose a flighty name, as she goes over the hills of Chilton like a swallow and glides down dale with the ease and grace of a fawn. Now that the ice is broken we expect to see several additional machines in Clanton within the near future.

Miles and Miles—That Fast Double Header Again.

In writing up the mishaps caused by the fast train southbound last Tuesday, we like to have overlooked the water melon wagon on the west side of the railroad. The poor Missouri mules seemed to think that the fast train was one of the Barnum & Bailey [illegible]

A FEARFUL ACCIDENT

Family Almost Lose their Lives

WILL CLANTON LONGER SUBMIT?

The Incessant Whistling of Trains When Standing Still a Positive Nuisance—The Ease with Which Fast Running Trains Slip Up on Their Victims a Positive Menace.

On last Tuesday Clantonites were given two object lessons in the game of bluff and bluster practiced by a soulless and heartless corporation. That seven human lives were not sacrificed to the greed and wantonness of the L. and N. Railroad was altogether a matter of kind Providence and not because of any care or thought on the part of the railroad. How much longer Clanton will submit to the treatment it has received at the hands of this company remains to be seen, but there is one thing sure, a repetition of the occurrences of Tuesday last will furnish the basis for an interesting damage suit in which the defendant will have but few witnesses and the prosecutor will have almost the entire citizenship of the town at his back.

There is a point at which patience ceases to be a virtue, and when forbearance becomes cowardice. Clanton has about reached that point in its dealings with the L. and N. Railroad. Just who is to blame the PRESS does not undertake to say, but that someone is grievously at fault no one can successfully deny. If the blame attaches to the higher officials, there is a law in our land which can reach even a mighty official and make him to realize that there are others upon the face of the earth besides himself and his company whose rights they must respect. If the blame lies with the employes of the road then it is high time that the officials are taking steps to see that the employes regard the life and property of others. The incessant screaming of engines in the very heart of the city is an evidence of the soullessness of the company and the contempt with which it treats its patrons. In no other place do the engines waste so much steam in their everlasting, ear-splitting and useless bellowing as right here in the very heart of Clanton and upon its principal business street. They seem to take a perfect delight in tormenting the nervous men and women of the town and in scaring the teams at labor to earn honest bread for their owners. If there was one iota of excuse for this interminable whistling, it might be overlooked, but the veriest school urchin knows, and every railroad man knows, that it is altogether inhuman, unnecessary and done with no other purpose in view but to show the mighty power of a great corporation over the rights of private citizens.

Last Tuesday morning Mr. W. C. Davis and his wife and four children were driving along the public thoroughfare, the property of the citizens of Chilton county, and when just at the entrance to the bridge that spans the deep cut across the railroad tracks on the north side of the town the fast south-bound train came bowling along at a rate not less than thirty miles an hour. Just past this bridge there is a curve, and unless the engineer blows his whistle a pedestrian or a driver can not tell whether a train is approaching or not. On this occasion no whistle was blown and Mr. Davis had gotten well on to the bridge before he knew that the train was to twenty miles of him. When too late to turn his team the train came, belching steam and smoke, and scared the team so that it began to back off the bridge, dragging the wagon and the occupants with it. The wagon turned completely over, dumping its occupants upon a pile of lumber that lay close to the edge of the embankment and had it not been for this pile of lumber, would have fallen with terrific force upon the unfortunate man, woman and children. As it was, the [illegible] fell upon one side of the wagon and the pressure of the [illegible]

have saved all this loss, these bruises and perhaps a damage suit. Should Mr. Davis decide to bring suit the railroad will no doubt have all manner of excuses and will perhaps claim that the whistle was blowing when it left Jemison and continued to blow till it got out of the county, but the fact is, says Mr. Davis, that there was no blast of the whistle till the south curve was reached and after all the damage had been done. That sounds more like the truth than anything else, for it seems to be the practice to reserve all blasts of the whistle for the heart of the city, and subsequent developments prove that Mr. Davis' statement accords with the truth.

Not content with having hurled these poor unfortunates to an almost instant death, the train came thundering along around the next curve, within a hundred yards of the principal street crossing of the city, and then began its bellowing. Running at a rapid rate, it was within a few feet of a passing team of mules before the driver knew of its approach, and before he could check his team they went up Main street with all the speed they could muster. Right manfully did the driver stick to his job, but the mules were too much for his strength and skill. They ran helter skelter along the streets, overturning buggies and making the pedestrians take to tall timber. Finally they ran into a cross tie wagon, wrenched off a wheel or two and then tried to divide at a heavily loaded lumber wagon. Here they were stopped, but had it not been for the lumber wagon they would, in all probability, have been running until this moment.

Now, two or three things are apparent. The railroad is not going to cease carlessness in crossing our streets till the city authorities make the officials do so. It is not going to stop those diabolical screeches of the steam whistle till the city authorities call them to taw. It is not going to slacken is speed through our streets till our city authorities order them to do so. An accident several months ago should have been a sufficient warning, but it was not. Time, time seems to be the ne plus ultra of the L. and N. passing through Clanton; life, liberty and the pursuit of happiness are as pebbles upon a rocky beach to the L. and N. so far as Clanton is concerned.

Requests for less whistling and petitions for a slackened speed have fallen upon deaf ears. It is now time to act, ACT, and the PRESS calls upon the town council to take some immediate action looking toward the protection of the citizens of Clanton from this inhuman and altogether heartless treatment of its citizens. The Mayor can do nothing of himself; the council is the law-making body and he is but the executive. The council CAN pass an ordinance and the Mayor WILL enforce it. Let them do so at once. Do not wait till some good citizen loses his wife or child before the ordinance is passed. Do not wait till a carnival of death is enacted before some step is taken. Let it be done NOW. Let it include three ordinances: One requiring the road to slacken the speed of its trains to four miles when passing through the city, whether it be a fast train behind time or not; an ordinance requiring the road to have its whistles blown far enough north of the overhead bridge and far enough south of the city to allow citizens to get to places of safety before the fast moving trains are upon them; an ordinance requiring that the whistles of the engines shall be blown only as they are blown in other towns. Then when these ordinances are passed SEE that they are enforced as they are enforced in other towns, and perhaps the L. and N. will begin to respect the citizenship of Clanton as it does the citizenship of other towns. They'll bluff you if they can, with bluster and whirlwind talk and all kinds of threats, but remember that the city has a few rights as well as the road. DO IT NOW. The citizens are DEMANDING it of our councilmen. WILL YOU DO IT?

A Contemplation.

The PRESS some time ago stated that it would not enter into any discussion of a political nature that had the least taint or smacked of meddling, and to this resolution we are going to cling as long as circumstances will permit. During the campaign which has recently closed we studiously refused to publish any

his complaint is justified or not the PRESS does not undertake to say. We print the communication because Mr. Baker has requested us to do so. He stands sponsor for it. Our columns are open for any reply that may be made, PROVIDED it is not of a political nature. We would not willingly do one side or the other an injury, nor would we permit our columns to be used by one party and refuse them to the other. We say these things not in justification of either one side or the other or in condemnation of either party, but merely to define our position and to have it distinctly understood by ALL that the PRESS is not selling or lending its columns to attacks upon any man.

The communication reads:

Clanton, Ala., August 1, 1910.

Editor PRESS:

Will you please give me space in your paper to speak a few words to the good fathers and mothers of Chilton county that have boys?

Now, fathers and mothers, I wish to call your attention to a matter that happened in our County Court a few days ago, where T. H. Reynolds is judge.

Now, I have a boy, one that is energetic, works hard and makes his own living, and never loafs around town. This is what happened to him: He was summoned to appear at the above named court July 28, 1910, to give evidence in behalf of the state, which he did, and answered every question this was put to him in a gentlemanly way, and he [illegible] not the evidence that the [illegible] ed, the boy was held [illegible] fined [illegible] or in a [illegible]

Will Asia Take Our Trade?

By Morston Frewen, English Economist

THE most serious aspect of the depreciation of gold—or, to word it more simply, of the great rise of gold prices—is that it is stimulating the industrial development of Asia, with eight hundred millions of people, and involves a competition which, though little noticed thus far, is a menace to our Western civilizations. The great abundance of the new gold inflates our currencies, but there is no equivalent inflation of the silver currencies of the far East. The result is a great stimulus to all that Asia exports to us, and if the rise of gold prices continues during the next quarter of a century, as I believe it will, we shall hand over the control of many great industries—such as steel and coal, cotton, leather and jute—to an awakening China. When I think of the creations I have myself seen—the cotton mills of Bombay, the jute mills of Calcutta, the boot factories of Cawnpore, and now this terribly serious competition of Hankow, Shanghai and Hong Kong—I find myself wondering what white industries (pronounced by this magnificent Mongolian competition will survive. The coming competition of Chinese pig and steel must keep the prices of pig and steel down here in the West to something like their cost of production in China plus freights, but there is no such competition in the case of perishable commodities—wheat, beef, bacon and butter. These, the staple articles of life, must get the full profit of the increasing dearness

"Do You Think I Have Fallen Away Much, Uncle Sam?"

MANY COMMUNITIES ASK FOR POSTAL SAVINGS BANKS, BUT SOUTH AND WEST FAIL TO ENTHUSE OVER THEM

Postmasters Report Savings Seek Place of Deposit—Interesting Pleas From Many Communities for Designation of Branch Banks—Foreigners and People in Moderate Circumstances the Most Insistent—A Help to Young Men.

Washington.—Perhaps the most interesting documents now coming into Washington have to do with the applications of postmasters who want their postoffices designated as branch postal savings banks. Practically all of these letters, more than 200 of which have now been received by the postmaster general, have been written in answer to a demand by the patrons of the postoffices, and in many instances the postmaster gives the reasons advanced by his patrons for asking for a postal bank in the community. It is already evident that the country at large is taking a healthy interest in the new institution created by law of the last congress, and about to be created in fact by the board of trustees, composed of Postmaster General Hitchcock, Secretary MacVeagh and Attorney General Wickersham.

The pleas on hand to date indicate that those communities where a large part of the population is composed of wage earners, foreigners or people in moderate circumstances, are those most insistent for postal banks. Rural communities somewhat removed from banking facilities are also demanding the new banks, and the prediction is freely made by postmasters that the result of their establishment will be to bring new money into circulation, increase thrift in the community, and inspire a patriotic interest in the affairs of the government.

Among the interesting letters received, none has been of greater significance than that written by the postmaster at Pueblo, Col. After pointing out that this community is mostly a wage earning community, in which foreigners play no small part in the mining and smelting industry, the postmaster cites actual figures from his records to show that there has been sent from Pueblo to foreign countries in international money orders during the last five years more than $1,000,000, which might well have been retained at home. These disbursements, by years, were as follows: 1905, $198,000; 1906, $294,000; 1907, $376,000; 1908, $186,000; 1909, $151,000.

From Jackson, Tenn., comes a request for a postal bank, based on the ground that most of the inhabitants of that city are persons in medium circumstances, who would like to deposit their small savings in a government bank.

The postmaster at Bellingham, Wash., a city of 30,000 inhabitants, writes to the postmaster general that he has a large number of poor foreigners as patrons of his office, who will welcome a postal bank. He writes that, in his opinion, the deposits in postal banks in that community will increase the money in circulation perceptibly, encourage thrift and help put a stop to extravagance and poverty. The postmaster at Everett, Wash., a city of equal size, has also reported that, in his opinion, a postal bank at that place will bring out not less than $150,000. He bases his estimate on the banking already being done with him in the shape of money orders made out in favor of the purchaser.

At Madison, Wis., the postmaster thinks he has found an ideal place in which to try out the postal bank system. He points out that he has a diversified population to serve, ranging from university professors down to foreign laborers, and he believes an intimate study of the relation of each of these classes to the postal bank system will be highly instructive.

From North Adams, Mass., comes a plaintive tale that the cotton and woolen workers in the textile mills, most of whom are foreigners, want a postal bank in which to place their savings.

There is much humor, interest in the plea of the postmaster at Brookwright, Col. He says the town is small to compare even with many other applications, but a postal bank is needed to "help the young men who are far from home and who find it hard to save money." Inasmuch as these "young men" are undoubtedly scions of eastern families who have gone forth to seek their fortunes while the fathers and elder brothers remained at home to take care of the long-established business of the family, this interest on the part of the postmaster in their welfare and in their success gives a touch to the paternalistic side of the postal banks which is interesting. The postmaster says he will not get an extra cent in salary for the extra work involved, but that he is personally willing to work overtime in order that these "young men" may be encouraged in thrift and economy.

Superior, Neb., reports that there is no savings bank within 100 miles of that place in any direction, and it wants the first postal savings bank allotted to that State, as it had the first rural route.

From Great Falls, Mont., comes the plea that the city has more wage earners in proportion to its population than any other city in the country, many of whom are foreigners. The postmaster is certain that the patrons of his office will appreciate a postal bank.

The postmaster at Onarga, Ill., points out that while the inhabitants of the cities have savings banks galore, the rural population of the country in large part is without conveniences of this kind. He suggests that the postal savings bank will become even more popular in the country than in the cities, and asks that they be given a fair trial in the country districts, including the territory in the vicinity of Onarga.

At Centerville, Ia., the postmaster reports a large foreign population, which either buys international money orders with its surplus savings and sends it out of the community, or carries the money around on its person. This feature among the foreigners has already been emphasized in the mining districts of Pennsylvania, where thousands of dollars have already been reported in the hands of the foreigners working the mines of that state. The postmasters of Pennsylvania feel sure this money will go into the postal banks.

Astonishing indifference appears to prevail in the south and west with regard to the benefits supposed to flow from postal savings banks. Those sections were supposed, while the bill was under consideration, to be demanding such legislation with great fervor.

Of the 60,000 postmasters in the country but 195 have reported the least interest in their localities in the matter. Of the 14,000 or 15,000 banking institutions in the country but 462 have signified a desire to become depositories for the money to be placed in the postal savings banks.

The banks manifesting curosity are distributed through 42 states, and the postmasters who have made inquiries are in 36 states. Texas and Oklahoma are the only states of the south where the subject appears to have aroused much interest. In Texas 20 postmasters have written here for information and in Oklahoma nine.

Postmasters in Louisiana, Mississippi, Alabama, Georgia and North Carolina have ignored the matter.

The officials of the postoffice department believe they will be able to establish a few banks by the first of the year 1911. They realize they have a big task on their hands. Thus far, however, there are no indications of any rush on the part of the people in demanding them.

Secretary MacVeagh recently urged the banks to form associations to avail themselves of the privileges of the Aldrich-Vreeland currency plan, but thus far there is not one such association in existence. Futile efforts have been made to form them so they may be in existence when the next currency plank comes, but the banks are unwilling to even go to the expense of preparing the necessary papers for associations.

Washington

Over a Million Immigrants.

A total of 223,453 Italians and 128,348 Poles, the two countries furnishing the highest number of arrivals, and of only 19 Koreans, constituting the country least represented, are among the factors in the grand total of 1,041,570 immigrants admitted into this country during the last fiscal year. This is 289,784 fewer than the previous year. The final figures were made public by Commissioner-General Keene. Besides this grand total, there were 156,467 non-immigrant aliens admitted, 24,270 aliens were debarred and 243,191 United States citizens arrived. The grand total of all this inward immigration movement during June only was 137,092. During the fiscal year the Chinese immigrants numbered 1,770; Japanese, 2,798; English, 53,498; Irish, 38,382; Hebrews, 84,260, and Germans, 71,380. There were 27,302 Magyars, 61 Pacific Islanders, 4,966 black Africans and 1,782 East Indians. Over the Canadian border in the period between July, 1909, and April, 1910, inclusive, 47,888 immigrant aliens were admitted, against 29,680 emigrants deported, and 8,469 non-immigrant aliens were admitted, against 22,799 non-emigrant aliens deported. During the same period 118 polygamists, 2 anarchists, 156 idiots, imbeciles and feeble-minded, 160 insane, 9 professional beggars, 11 paupers, 2,471 with loathsome diseases, 12,632 persons likely to become public charges and 1,365 contract laborers were debarred from all ports.

Treasury to Be Remodelled.

New York architects are now working upon important changes which are to be made as soon as possible in the interior and exterior architecture of the Treasury building. The total cost of these changes will approximate $180,000. The main feature will be the doing away with the steps and approaches to the east of the building on Fifteenth street, and making a grand main entrance on the first or ground floor. It is planned to assemble all the counting employes on the basement floor, and to place the shipping departments on the same floor, bringing about a more businesslike arrangement than at present. Counters employed in the treasurer's office, the office of the comptroller of the currency, the national bank redemption agency and elsewhere, numbering hundreds of clerks, are now scattered over the building. The new plans are part of Secretary MacVeagh's general scheme for putting the work of the department on a scientific and up-to-date basis. He is seeking to bring into practical co-operation the various bureaus which are closely related to the end that there may be economy of operation, and at the same time better service. Business methods, fashioned largely after the modern banks of the country, will be put into use and old-fashioned red tape ideas will go out entirely.

* * *

Molasses Whisky Wins.

The Department of Justice has acted promptly in the "What is Whisky" problem by approving the recommendation of the Treasury department for the suspension of any orders inconsistent with the restraining order obtained from the Louisiana courts by the molasses interests. The suspension will be in effect while the litigation is pending. The Internal Revenue bureau, acting on the suggestion for suspension which was made as the result of the recent conference between Commissioner of Internal Revenue Cabell, Acting Attorney-General Fowler, and representatives of the molasses interests in Louisiana, will permit molasses spirits to be used without being branded as "made from molasses." The word "whisky" cannot be used on packages containing molasses spirits, but molasses spirits mixed with whisky can be put on the market as a blend. The molasses interests claim that the action announced will enable them to avoid shutting down their plants altogether, although they say that even now some of their business will be lost.

Blonds or Brunettes Make Best Soldiers?

The relative value of blonds and brunettes as tropical soldiers is to be learned by the War department. A rigid investigation will be made to determine which class can best stand the sun's rays while serving in the Philippines. These experiments will follow those made with orange colored underwear. Instructions have been issued for new commands going to the Philippines to keep detailed health records of an equal number of blonds and brunettes in the enlisted branch for the benefit of the Army Board on Tropical Diseases. A complexion study is to be made of the sick in hospitals and data will be gathered from the soldiers invalided home, all with a view of bearing on the correctness of the theory that brunettes show less the effects of the sun in a hot climate than do the blonds. If the theory of medical sharps is proved it is expected a premium will be placed on the services of brunette soldiers in the Philippines.

Experience will teach a man a lot if it doesn't worry him to death.

RHEUMATIS

MUNYON'S RHEUMATISM

The only way to learn to do things is to do small things well, patiently, loyally.—David Starr

Dr. Pierce's Pellets, small, sugar coated, easy to take as candy, regulate and invigorate stomach, liver and bowels and cure constipation.

At Rehearsal.

Fan—What happens when the [illegible] are full?

Man—A discord.—Stanford University Chaparral.

For HEADACHE—Hicks' CAPUDINE. Whether from Colds, Heat, Stomach, Nervous Troubles, Capudine will relieve. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at stores.

Hedging.

Clergyman—Will you take this man until death?

Prospective Bridegroom—Isn't there any minimum sentence?

Not His Fault.

"Oratory is a gift, not an acquirement," said the proud politician, as he sat down after an hour's harangue.

"I understand," said the matter-of-fact chairman. "We're not blaming you. You done the best you could."

Carrying His Audience With Him.

Nobody was more witty or humorous than Lord Ellenborough. A young lawyer, trembling with fear, rose to make his first speech, and began: "My lord, my unfortunate client—" "My lord, my unfortunate client—" "Go on, sir, go on!" said Lord Ellenborough, "as far as you have proceeded hitherto the court is entirely with you."

Yes, Indeed.

Hostess (at party)—Why, so early, Miss De Muir? You've scarcely spoken a word since you came.

Youthful Guest—Really, Mrs. [illegible], I am having a very enjoyable time, but my father has told me 100 times never to say anything unless I have something to say, and I suppose—

Hostess—But, my dear child, what a stupid and tiresome thing society would be if everybody followed that advice!

Wife and Country.

Paul D. Cavath, the noted New York lawyer, said at a luncheon of the Lawyers' club: Vacation time is here, and already that dreadful thing about the wife gone to the country is being resurrected. But a verse to the song was furnished by a conversation I overheard the other day.

"'Hello, Smith,' said one man to another. 'I'm glad to see you back at the club again, old fellow. Been off to the country eh?'

"'No,' growled Smith. 'She's back.'"

Merely a Prevaricator.

A doctor relates the following: "I had a patient who was very ill and who ought to have gone to a warmer climate so I resolved to try what optimism would do for him. I painted a large sun painted on the ceiling of his room and by suggestion induced him to think it was the sun which would cure him. The ruse succeeded and he was getting better rapidly when one day on my arrival I found him dead."

"Did it fall, after all, then?" asked one of the doctor's hearers.

"No," replied the doctor, "it was a case of sunstroke."

Know How To Keep Cool

When Summer's heat and daily toil heat the blood to an uncomfortable degree, there is nothing so comforting, so cooling as a glass of

DR. CRIPPEN ARRESTED

IDENTIFIED BY DEW

Both Prisoners Closely Watched Every Minute to Prevent Them From Suicide.

Father Point, Que.—Dr. Hawley Harvey Crippen and Ethel Clara Leneve, his stenographer, who fled from London after the disappearance of Belle Elmore, the doctor's wife, were arrested here Sunday aboard the Canadian Pacific liner Montrose, at the command of Inspector Dew of Scotland Yard.

The identification of the long-sought fugitives on board the fog-shrouded steamer by the English detective, who had raced across the Atlantic ahead of the Montrose, marked the culmination of one of the most sensational flights in recent criminal annals. Accompanied by two Canadian officers, he boarded the vessel at 8:30 o'clock Sunday morning, and 15 minutes later both man and girl were locked in their state rooms, Crippen, broken in spirit, but mentally relieved by the relaxed tension; the girl, garbed in boy's clothes, sobbing hysterically. They were no longer the Rev. John Robinson and son, as booked from Antwerp on July 20.

After brief delay, the Montrose continued her 160-mile journey up the river towards Quebec, where jail awaited the pair. Crippen is charged with the murder of an unknown woman, believed to have been his actress wife. The girl is held as an accessory. In charge of Inspector Dew, they will be taken back to England for trial, on the Royal Line steamship Royal George, leaving Quebec on Thursday next.

Dramatic Features.

Seldom has there been a scene surrounding the pursuit of a criminal so pregnanat with dramatic features as that enacted off this little settlement. Inspector Drew had spent a sleepless night at the Marconi operator's side, communicating through the fog with the liner that bore the man and woman he sought. The man had lied to him in London by fleeing the city with the mystery of Belle Elmore's disappearance unsolved, and a strong personal feeling entered into the case, accentuating the detective's desire to carry out the task assigned to him by Scotland Yard.

BLOODY BATTLE IN TEXAS

Texas Militia, Rangers and Citizens Attack Entrenched Blacks—Fight Rages All Day.

Palestine, Tex.—Following a pitched battle between the negro farmers of this section in which at least 300 blacks took part and three companies of state militia from Houston and Galveston and a detachment of Texas Rangers, fought, it is said, that 60 negroes have been killed, while the bodies of 20 white men are lying in an improvised morgue here.

Beginning Friday afternoon the race riot between the negroes and whites waged continuously until Sunday night. Late Saturday night the soldiers and rangers, augmented by posses of citizens and farmers from Palestine, Jacksonville and other places surrounded the negroes in a wood near here. Throughout the night the negroes and whites exchanged shots and at dawn Sunday morning the soldiers prepared to rush the negroes' stronghold. The posses, soldiers and rangers were divided into four detachments and deployed so as to completely surround the woods where the blacks were entrenched.

Suddenly coming upon a group of entrenched negroes the soldiers were fired on and three hit. This was a signal for a general assault.

The negroes fought desperately, knowing that quarters would be denied any caught. Two hours of fighting from behind trees, stumps and any available breastworks was hot work under the broiling Texas sun and the soldiers and posses withdrew.

At 4 o'clock Sunday afternoon the attack was renewed and until sundown firing was practically incessant. Gradually the troops closed in on the negroes, who, seeing that death or capture was inevitable, began to seek safety in flight, each man looking out for himself. The result was the majority of the negroes killed were shot as they were endeavoring to break through the cordon thrown about the woods. The sight of the falling negroes proved too much for the others. The surrender of the blacks ended the battling.

AUTOS KILL MORE THAN WAR DOES

Germany's Summary for the Year Sounds Like Battlefield Report.

Washington, D. C.—Death's harvest in Germany credited to automobiling amounted to 194 persons killed, and 2,945 persons injured during the year which ended September 30, 1909. In the city district of Berlin there were 843 injuries and 36 deaths as the result of such accidents.

There was a marked increase in the use of automobiles in Germany during the last year. On January 1 there were registered in the empire 49,922 automobiles, an increase of 7,500 over the preceding year.

Imports during the year were 13,934 machines, of which 636 were from the United States. The American imports stood sixth in the order of countries but the United States imports exceeded those from England and Italy.

TEXTILE MILLS FORM LARGE COMBINATION

Merger of Cotton Interests Said To Be the Biggest on Record.

CAPITAL OF $18,000,000.

Many of the Largest Textile Industries in East Are Included in the New Combine.

New York.—New England, New York and Baltimore mill owners, bankers and capitalists incorporated the International Cotton Mills Corporation, under the laws of New York, with an authorized capital of $10,000,000, 7 per cent cumulative preferred stock and $10,000,000 common stock.

A statement issued by Myron C. Taylor, president of the new corporation, says that textile sales and distributing agencies in this country and Canada, which manufacture and sell 3,000 varieties of cotton fabrics are included in the merger. The properties consolidated represent 22 mills and 35 principal brands, owning 10,000 acres of land, part of which is under cultivation, and employing 10,000 hands, with an aggregate annual output of approximately $18,000,000. Among them are the Stark mills of Manchester, N. H.; the Mount Vernon Woodbury Cotton Duck Company; the Consolidated Bay State Cotton Corporation, the Eastern mills and the Maryland mills.

Is Gigantic Deal.

Boston.—The proposed consolidation of cotton mills is said to be the largest of the kind ever undertaken in the United States. The Consolidated Cotton Duck Company, which is to be absorbed by the International Cotton Mills Company, is a combination of duck mills, including the Stark mills of Manchester, N. H., and the Mount Vernon-Woodbury Cotton Duck Company of New Jersey and Maryland. The Consolidated Cotton Duck Company is controlled largely by Boston capital.

The other mills to be taken over include yarn mills in this state and New York, and two mills in Canada. The properties represented number 22 mills, employing from 10,000 to 12,000 operatives.

The big cloth mills of Fall River, New Bedford, Rhode Island, Lowell, Lawrence and Manchester, N. H., with the exception of the Stark plant, are not connected with the new corporation.

13,000 MEN GET INCREASE.

Western Bar Iron Association Signs New Amalgamated Scale—Many Mills Are Open.

A wage scale for the ensuing year was signed in Chicago by representatives of the Western Bar Iron Association and the Amalgamated Association of Iron, Steel and Tin Workers, whose headquarters are in Pittsburg. The agreement gives the employes of 13 mills operated by the association an increase of wages ranging from 3½ to 10 per cent, and the puddlers an advance of 50 cents a ton, making their rate $6.12½ a ton. About 10,000 men are affected. The agreement is similar to the one signed with the Amalgamated Association and the Republic Iron and Steel Company July 19.

The plants of the association which are affected by the increase are located in Ft. Wayne, Ind., Madison, Ill., St. Louis, Mo., Detroit, Mich., Vincennes, Ind., Terre Haute, Ind., Cleveland, O., East Chicago, Ind., New Albany, Ind., and Kansas City, Mo. The Western Bar Iron Association is composed of independent firms, but has signed wage scales with the Amalgamated Association for a number of years. The mills of the association are now working under a continuous clause of the scale signed last year, which expired July 1. The clause permitted the mills to operate under the last year's scale until August 1.

STOP FOREIGN CATTLE IMPORTS.

Foot and Mouth Disease Found to Exist in England.

Washington, D. C.—Owing to the discovery of the fot and mouth disease among cattle in Yorkshire, England, the importation of cattle from that country into the United States has been prohibited until the extent of the disease can be determined.

France, Germany, Belgium, Holland, Switzerland and most of the other countries of continental Europe have not been allowed for some time to send cattle to this country, because the foot and mouth disease either is or has been recently prevalent in them. Several South American countries also are under the ban.

$150,000 Fire at Pittsburg.

Pittsburg.—Fire destroyed two automobile salesrooms, several buildings adjoining and an apartment house in the East End district, resulting in the injury of two firemen who were cut by flying glass. The loss is estimated at $150,000, partially covered by insurance.

Charles Matthews, a banker of New Castle, succeeds John K. Tener as the Republican congressional nominee in the Twenty-fourth Pennsylvania district, which comprises Washington, Beaver and Lawrence counties.

Cumberland's Population 27,000.

Cumberland, Md.—While the official figures made public by the census bureau give Cumberland a population of 21,939, a gain of 4,711 over 1900, the real population, taking in the suburbs outside the corporation limits is about 27,000.

OHIO REPUBLICANS

State Convention Endorses Taft's Administration and Nominates Candidates.

Columbus, O.—Warren G. Harding, editor of the Marion Star, was nominated for governor on the third ballot by the state Republican convention after a brisk fight.

The man who will oppose Gov. Harmon gather strength steadily against Judge Brown of Dayton, backed by George B. Cox of Cincinnati, Congressman Nicholas Longworth, a "dark horse," fathered by Senator Burton, and James R. Garfield, who announced his withdrawal.

Result first ballot: Harding, 485; Brown, 413; Garfield, 73; Longworth, 92; Deaman, 2.

Second ballot: Harding, 497; Brown, 363; Garfield, 38; Longworth, 164; Foraktr, 4.

The second ballot showed Brown lost 50 votes. Harding gained 42 votes. Longworth gained 69 votes.

On the third ballot George B. Cox cast the 91 Hamilton county votes for Harding. It nominated him. The ballot gave Harding 746; necessary to choice 534.

The Ticket.

Governor — Warren G. Harding, Marion.

Lieutenant governor — Francis W. Treadway, Cleveland.

Secretary of State—Granville W. Mooney, Austinburg.

Attorney general—U. S. Grant Denman, Toledo.

Treasurer of State—Rudy A. Archer, Belmont county.

Justices of supreme court—William B. Crew, McConnellsville, and Augustus N. Summers, Springfield.

Clerk of supreme court—John S. McNutt, Salem.

Dairy and food commissioner—Renick W. Dunlap, Kingston.

Member of the board of public works—George H. Watkins, Portsmouth.

Commissioner of common schools—John W. Zeller, Findlay.

The portions of the platform dealing with the administration, congress and with the tariff are in full as follows:

"We, the Republicans of Ohio, in state convention assembled, commend in highest terms the splendid administration of William H. Taft, are proud of the results he has already achieved in his 17 months in office, and pledge him our hearty and united support in his further efforts as Chief Executive of the nation.

"We renew our pledge of loyal support given him in 1908, and indorse him for renomination in 1912.

"Among the many accomplishments of President Taft's administration worthy of special praise are: Prosecution and conviction of those implicated in the sugar frauds against the government and other violators of federal statutes; prompt and successful intervention to prevent arbitary increases in railroad freight rates; effective enforcement of the law against illegal dealing in stocks; indictment of those involved in the cotton pool, formed to raise the price of one of the necessities of life in every American family; impartial enforcement of the anti-trust laws; substantial reduction in government expenses, saving a million dollars a month in the postoffice department with a fair promise of wiping out the annual postal deficit; such remarkable progress in the construction of the Panama canal as insures its early completion; withdrawal from private entry in order to preserve for the public benefit valuable coal and other mineral deposits, timber lands and water power sites, of over 71,000,000 acres of the public domain.

"It has strengthened our prestige with foreign nations, and has treated with vigor and wisdom important and delicate international problems.

"The tariff has been revised in accordance with the Republican doctrine of protecting home industries and American labor. It did not raise the rate of duty on a single common food product. The increases made were on luxuries and articles not of ordinary use. It affords no more than adequate protection to the industries of the nation, and is fair alike to consumers, laborers and producers.

"Recognizing inequalities due to changing conditions or that otherwise may be found to exist, congress has provided a tariff board, with an ample appropriation, for the investigation of the differences in the cost of production at home and abroad, so that if any rates are found to be higher than necessary to afford labor a high wage and capital a fair return, those rates will be reduced."

Praise is given to the railroad law, and a list of congressional achievements is given. The platform continues:

"We favor legislation which will revive our merchant marine; the equal enforcement of all laws; and an adequate national defense, with a navy ample to protect all our interests at home and abroad, while favoring arbitration in the settlement of international disputes; the systematic comprehensive and business-like improvement of our rivers, harbors and waterways, and such amendment of the anti-trust law as final judicial interpretation proves to be necessary for the proper regulation of monopolies.

"We commend the action of congress in the creation of a commission to investigate the question of employers' liability laws and workmen's compensation acts, and to make recommendations to the President and to the congress.

"It also calls for further conservation legislation.

STEEL CORPORATION ISSUES STATEMENT

Report Shows Earnings of $40,170,960, Exceeding Former Periods.

GROSS AND NET LARGER

Unfilled Item Disappointing; Only Actual Business Scheduled.

New York—The quarterly statement of the United States Steel Corporation for the three months ending June 30, last, shows total earnings of $40,170,960, an amount far in excess of unofficial estimates, and greater than earnings of the first quarter by $3,554,084. Net earnings for the quarter were $33,880,775, or $2,377,561 greater than the first quarter's returns.

Both gross and net earnings are vastly larger than those of the corresponding year, which were $20,340,491 and $23,323,395, respectively. At this period last year, it will be recalled, the corporation was at war with many independent companies and all products were being cut drastically.

Only Actual Business.

In contrast to the earnings Wall street expressed disappointment at the exhibit of unfilled orders as set forth in this report. They are only 4,257,794 tons, a falling off of 1,344,575 tons in comparison with the previous quarter. In this connection it was unofficially stated that the report shows only the actual or non-cancellable business.

Pursuant to the corporation's policy of publicity the directors ordered that the officers hereafter make public on the tenth day of each month the aggregate tonnage of unfilled orders on hand at the close of the previous month.

The charge-off for depreciation and extraordinary expenses for the last quarter was $5,569,949, as against $5,829,232 in the previous quarter, and $5,511,000 in the same quarter in 1909. The surplus for the quarter is $6,410,093 against $6,532,531 for the first quarter of the year, and $5,894,244 in the corresponding quarter last year.

The sum of $7,500,000 was set aside for account of expenditures made and to be made for additional property, new plants and construction.

Regular Dividends Declared.

The regular quarterly dividends of 1¾ per cent on the preferred and 1¼ per cent on the common shares were declared. No statement dealing with the trade outlook was issued, but several of the directors expressed themselves as convinced that the present quarter's returns will be more satisfactory than those just published.

JOHN G. CARLISLE DEAD

Former Secretary of the Treasury Passes Away at Ripe Age.

New York—John G. Carlisle, former secretary of the treasury, who had been critically ill for the past two days, died at his apartments in New York of heart failure, accompanied by oedema of the lungs.

John Griffin Carlisle was born in Kenton county, Kentucky, on September 5, 1835. He was educated in the public schools, later studied law and was admitted to the bar. Always a consistent Democrat, and interested in public affairs as a young man, he rose from the Kentucky house of representatives to the senate, served as lieutenant governor and finally graduated into national affairs.

From 1877 to 1890 he was a member of the national house and from 1883 to 1889 was speaker of the house. He resigned to fill the unexpired term of James B. Beck in the United States senate, from which he again resigned in 1893 to become secretary of the treasury under President Grover Cleveland.

With the retirement from power of the Democratic party in 1897, he withdrew from politics and took up once more the practice of law, this time in New York city, where he continued to live until his death.

Wendling Arrested.

San Francisco—Dragged from beneath a sink in the washroom of a Third street lodginghouse, where he had been hiding for 24 hours, Joseph A. Wendling, accused of the murder of little Alma Kellner, in Louisville, Ky., the man who has baffled the police for four months, was arrested by Detectives Burke and Ryan, of the local police department. Wendling admitted his identity, but protested his innocence of the crime.

Teachers in Demand.

Spokane, Wash.—Positions await several thousand teachers in the public schools in Washington, Oregon, Idaho and Montana, according to Bruce M. Watson, superintendent of schools in Spokane, who says that fully 500 will be required in this next fall. There were 443 teachers on the city's pay rolls last season, at salaries ranging from $55 to $90 a month.

Good Rule for Presidents.

Portland, Me.—On his return from a 10 days' cruise President Taft put himself on record as subscribing absolutely to the principle that a President of the United States should not talk politics.

Mr. Westinghouse Deposed.

New York.—George Westinghouse, inventor and [illegible] ... of the late Grover Cleveland, for many years prominent in the world of [illegible] ... died [illegible] ...

REBEL LEADER CAPTURED.

Cuban Guards Seize Gen. Miniet—Kill One of His Men.

Havana.—Gen. Miniet, who started an uprising near El Caney, was surprised in camp and captured by a detachment of the Rural Guards under Lieut. Carrillo. One of Miniet's insurgents was killed, Miniet and two others were taken prisoner and the others fled.

Lieut. Carrillo and his detachment came upon Gen. Miniet and his band of insurgents while they were encamped and immediately opened fire. The insurgents returned the fire, but when the guard charged they broke and fled, abandoning their arms. One of the insurgents was killed instantly, while Miniet and two others were taken prisoners. The rest of the band is hotly pursued by the rurales. None of the guard was hurt.

The prisoners were taken to Santiago, whence they will be sent to Havana for trial on the capital charge of engageing in armed rebellion.

Another armed party is believed to be still in the field. All sections are reported tranquil.

HOT BATTLE AT SUGAR WORKS.

Strikers Slug Non-Union Men—Police Have a Gun Fight to Subdue Scrap.

New York.—Two men were shot and killed, four dangerously wounded and a score more or less seriously injured in a riot of strike sympathizers at the plant of the American Sugar Refining Company in Williamsburg, where a strike has been in progress for a month.

Crowds of sympathizers threw bricks at the strike-breakers from house tops, and when the non union men started out with their trucks to deliver sugar a rush was made for the wagons. The police on the trucks returned the fire of the crowd and two of the rioters were shot. It is reported that others were hurt in the melee and hurried away by friends.

The employes of the plant struck a month ago for an advance in wages.

The dead men were Lithuanians and were not readily identified. Several policemen were struck and painfully hurt by the bricks thrown from the nearby roofs. Four men suffering from serious gunshot wounds were taken to the Eastern District Hospital.

PAID AFTER 40 YEARS

Treasury Department Decides Time at West Point Part of Army Service.

Washington—For services rendered nearly 40 years ago, Brigadier General Harry R. Anderson, a retired artillery officer, is to receive from the government $240, the accounting officers of the treasury department finally having been convinced that he is entitled to that amount.

This is because of the fact that General Anderson served as a cadet at West Point from July, 1864, to January, 1865—six months and 18 days. The controller of the treasury has ruled that this service in the academy was actually service in the army, and that General Anderson is entitled to pay for the time he spent at West Point.

BIG STEEL COMPANY FORMED

Incorporated at Trenton With Capital of $5,000,000.

Trenton, N. J.—The Chickamauga Steel & Iron Company, capital $5,000,000, was incorporated here. The principal office of the company is in Jersey City.

The incorporators are George W. Adams, Montclair, N. J.; Robert W. Pollock, New York city, and Francis Van Winkle, Brooklyn, N. Y. The company was organized for the purpose of engaging in the business of manufacturing steel and iron.

SPAIN BREAKS WITH ROME

Reject Vatican Proposals; Call Minister Home.

San Sebastian, Spain—At the conclusion of a conference between King Alfonso and Premier Canalejas it was announced that Marquis Emilio De Ojeda, Spanish ambassador to the Vatican, had been recalled.

At the same time the opinion was expressed that a rupture with the Vatican was inevitable. Senor Canalejas told the king that the government could not accept the conditions of the Vatican's last note and that the Vatican would be so informed.

Premier Canalejas will continue his anti-clerical program, counting upon the support of King Alfonso.

Locates 6,188 Stars.

Washington—The first instalment of a work, which, when complete, will give the positions of 25,000 stars, has just been issued by the Carnegie institution of Washington, the catalog of the heavenly bodies having been prepared by Dr. Lewis Boss, of the department of meridian astronomy of the institution. In the partial work the locations of 6,188 stars are given.

To Fortify Panama Canal.

Washington, D. C.—The Panama fortification board had a conference with Major General Leonard Wood, chief of the staff of the army. The general scheme of defense as it now stands, seems to be for a naval base on the Atlantic side of the canal, to fortify both entrances first, and then defend the locks later.

Mrs. Langtry's Name in Will.

Boston—An inventory of the [illegible] of George Cabot Lee of Newton, died March 21, shows it to be [illegible] at $1,551,137, of which $1,[illegible] personal and $21,000 real. [illegible] Roosevelt Longworth, who [illegible] ... Langtry, [illegible] ...

MONEY TO LEND.

Money to loan on improved farm lands at reasonable rates. For information and particulars, address "Finance," care Clanton Press. tf

FOR SALE.

About twelve acres of rich level land within two miles of Court House at Clanton. Perfectly adapted to truck farming or dairy purposes. For information address "REAL ESTATE," care Clanton Press. tf

EDITORIAL.

Now that Dr. Crippen has been successfully corralled what will be the world-wide sensation, suppose we'll all have to get down again to figuring "How old is Ann?"

The split between the vatican and the Spanish government will prove to be but a tempest in a teapot, for the old pope knows which string to pull, and the proper time for pulling it, to make Alphonzo dance. The cry for progressiveness in Spain is periodical, but is never an accomplished fact.

The "Honorable" Henry Williams, once a representative from Autauga county when this county formed a part of Autauga, passed through the city late Tuesday afternoon, wending his way to his twenty-acre farm just west of the city. How many know Henry? Hands up, you who know him!

By all means let every candidate for the mayoralty announce as the first and foremost plank in his platform a cessation of the screeching and tooting of the whistles. A few reminders in the shape of fines imposed will go along way toward breaking up the habit.

Two of Clanton's citizens stated to The Press man this week that they were preparing articles on the water works question, but could not get them ready for this week's issue. The fact that our citizens are beginning to arouse themselves is gratifying indeed to The Press. Now, let's all work! Everybody get in behind and shove.

The primary of the Repubs. is over; the race has been run and the candidates selected—or some of them have been—yet the agony is not over. There is another race to be run for sheriff and commissioner. Wonder who will have the longest pole? No more committeemen to elect, is there?

The vote in the recent primary election will not deceive anyone who scans the list of voters. It was a neat trick that they attempted to practice, but we democrats are on to such antics. They've been played so often that they deceive no one.

Do you remember the days of the "Bitter Bit," Henry Williams? "Yes," said the ex-republican member, "I who does remember dem days. Yes, sires, dem wus de days when us republicans had de upper hand, an' we did treat de democrats right. Remember dem days well, I should say."

Let's see—how was it? Me, and my—but what's the use?

But wasn't that a beautiful race for committeeman in Clanton? Who's who, anyway?

With Jess Stallings as chairman of the democratic campaign committee, something ought to be doing along in September and October.

Ad Wimbs, from far-off Hale county, sends greetings to his friend Mixon, and bids them select a good man at the convention Monday.

Mixon may be holding conference this week, but we'll bet a jug full of Jews' harps that he'll be at the convention next week. Who takes it?

We grew faint-hearted at one time, but, bless your sweet soul! we can see the workmen placing that sewer pipe and those water pipes now. It's a sure thing. Shove!

We never had thought to find one of them in Chilton; thought they were all in the Black Belt counties and in Mobile, but lo and behold! here is the Hon. Henry Williams, an ex-member, right here!

They laughed last year—the knockers did—when we talked of a system of electric street lights. Got as good as any town—and much better than lots of towns.

Same thing's going to happen with the water works. Shove!

There's going to be a meeting of the Fourth District Republican convention at Calera next Monday. The Press will pay the way to and from the convention of any ten men who will go if they do not find negroes in convention.

Look cheerful, democrats. We have them on the run, and we can keep them in full trot if every man will but do his duty. This personal machine and family affair business is going to do the work. Folks is opening their eyes; they's seeing things.

We ask in all candor and fairness, will some delegate please bring us the names of the "color lenders" in the convention next Monday? Please do! we just want to know, you know. Now, do that for us, please, won't you? Just want the names—not the pedigree.

The corn crop is an assured fact now. More grain in Chilton this year than ever. No western farmer gets out rhino for feedstuffs next winter. There's corn in the crib, syrup in the pantry, hay in the loft, sugar in the can and smiles upon the faces of the children. Then there's Democratic victory in the fall and cotton as the money crop. What more do your want?

The Repubs. have selected next Saturday as the day for telling Mr. Thompson that he was nominated by the convention in Birmingham to be a candidate for governor. Won't it surprise Jodie, though?

We have forgotten whether Mixon or Threet are on the committee of notification or not, but if so they are there "just to lend color" to the committee.

Under which emblem will they run, anyway? They can't fool the folks by saying P-E-E-P-L-E'S party this year. There's no "people's party." It's straight goods this time—democrats and republicans—without feathers or frills. It's up to the voters to decide. It's with them to make a choice. Davidson and Aldrich—the lily whites. Thompson and the office-holders—the—well, you know! It isn't the color of snow, 'cause Mixon and Wimbs and Peterson and Lavender and Walker and Mason and Threet ain't no snow birds. Under which emblem?

PERSONAL.

Mrs. W. A. Gulledge and sister, Miss Dudley, of Verbena, were visitors to Clanton one day last week.

Miss Mary Will Stewart and her charming little visitor, Miss Sallie Duncan, of Nashville, returned Sunday afternoon after having spent a few days with friends at Verbena.

Mrs. E. Hopkins and daughter, Miss Florence, are spending several days with relatives in Birmingham.

Miss Maud Letcher, a charming young lady of Plantersville, is the guest of her uncle and aunt, Mr. and Mr. C. W. Cox.

Mr. G. H. Denson spent last Thursday with relatives at Pelham.

Among the prominent visitors to Clanton at the week end was Judge S. M. Adams of Thorsby.

Mr. Joe Teel, who came down from Birmingham to spend several days with his parents, was called back to his work after having been here but a very short time. They stated that the office force was greatly reduced and that he would have to resume his duties.

Mr. W. J. Armstrong went down to the capital city Saturday night on business connected with the order of Red Men, of which he is a member of the Appeals Committee.

We have money to loan on improved farm lands at reasonable rates of interest. Long time loans a specialty. For particulars address "Finance' care of the Press or call at the Press offices. tf

Mrs. E. G. Hyman and children have been on a visit to relatives in Jemison. They returned Monday afternoon and left on Wednesday for a visit to Troy.

The many friends of Senator Thomas A. Curry will regret exceedingly to hear that he is confined to his bed with an attack of typhoid fever.

Mr. H. F. Chandler went up to Birmingham on last Saturday, returning Tuesday morning.

Dr. J. E. Gowan left Monday morning for Kosciusko, Miss., where he goes to spend several days with his wife and child, who are "summering" with relatives.

Scott, the well known photographer, is kept so busy these days making pictures that he scarcely has time to go to his meals. If you have not been to his place do not delay longer. His work is of the highest character of the photographer's art. tf

On last Monday afternoon Mrs. Zeb Dennis was brought to the depot on a cot from her home and placed upon the north-bound train for Birmingham, where she goes to be treated for appendicitis. This good woman has been suffering for two weeks or more and it was finally decided that an operation was necessary. Her many friends hope for her a speedy recovery.

The Forest Lumber Company shut down its plant on last Monday to unload lumber; so fast has the lumber been coming in to this enterprising firm that they could not handle it and so found it necessary to put the entire planing mill force to unloading and placing the lumber. They resumed mill work Wednesday, having sufficiently caught up with the unloading as to go back to the regular run of business.

Don't forget that the Clanton Ice-cream Parlor serves the best quality of cream that comes to town. Try it and be convinced. The clean, cool place near the depot. Polite attention. tf

Mr. Frank Palmer was called to Wetumpka last Monday by the serious illness of one of his grandchildren. Mrs. Palmer left on Tuesday morning for the same place.

Mr. Thomas Woods made a trip down in the wire grass region last month for a special purpose and after remaining several days came home saying that the PRESS had entirely overlooked him. We don't think this is true, but nevertheless we wish to say that he spent last Saturday at Bice's and reports having had a good time.

We serve the best soda water in town—none barred. We use only the very best fruit juices and give you the best of everything to be had. Try us and be convinced. Upchurch Drug Company. tf

Misses Maggie and Mary George Figh, two handsome young ladies of Montgomery, are the guests of Mr. and Mrs. P. T. Hinkle.

Messrs. W. W. Langley and W. W. Tyson left last Sunday for Pensacola to investigate conditions previous to establishing themselves in business in that bustling seaport.

Baseball goods of every description at Upchurch Drug Company. Save money by buying from us. tf

Mrs. Enie Smitherman returned to her home at Maplesville after having spent a week most pleasantly with her parents here, Mr. and Mrs. B. L. Jones.

Misses Lucile and Willie Perry of Blocton are on a visit to their grandparents, Rev. and Mrs. F. M. Woods.

Mr. Jackson Devaughan, who has been on a visit to his grandmother for several days, has returned to his home in Clanton.

Messrs. H. E. Culver, Walter Culver, Joe Wesson and E. H. Carroll left Monday morning for an extended trip through the West. They will be gone for some days pleasure seeking.

A new and nifty line of jewelry just received at Upchurch Drug Company. Call and inspect our line before purchasing. tf

Mrs. Guy Higgins gave a most delightful picnic dinner yesterday out at Dale's mill pond in honor of her guests. There were twenty or more persons present besides the hostess

Diamond Edge.

We are glad to advise the trade that we have added to our stock of "Kutter" goods the "DIAMOND EDGE" line which gives us the most complete stock of tools, knives, razors and table cutlery to be found in the country.

The "Diamond File" is good and so are the "Diamond Edge" goods all kinds.

We guarantee every piece against being defective in any way and will cheerfully and willingly replace any "Edge Tool" bearing either of these brands.

We invite you to see our display of these goods.

GAMBLE HARDWARE CO.

Wetumpka, Clanton, Alexander City

Mr. Jake Shepherd left on last Saturday for his home at Newtonville, having severed his connection with the business formerly conducted in Clanton by his brother.

The many friends of Mrs. Gamma Anderson will regret to hear that she has been indisposed for the past few days, being confined to her room. News from her bedside states that she is now progressing nicely and will soon be her same vivacious self again.

On last Sunday night Mr. Frank Thomas, the genial express agent at Clanton, received the shocking intelligence that his father had died very suddenly at his old home in Kellyton. Mr. Thomas was in perfect health, it seems, up to the hour of going to bed. Just what was the immediate cause of his death is not known. Mr. Thomas was subject to severe cramping spells and it is supposed that his heart was affected by one of these attacks. Mr. Thomas was the father of Mrs. W. D. Spigener, one of Clanton's most popular matrons, and she, with Mr. Frank Thomas, hastened to the old home immediately upon receipt of the sad news.

Dr. P. I. Hopkins, accompanied Mr. Sydney Driver to a Birmingham hospital on Tuesday morning, where Mr. Driver is to undergo a slight nasal operation. Dr. Hopkins returned on the afternoon train and left again Thursday morning for the magic city accompanying Mrs. Monroe Wyatt, who goes to receive special medical attention and rest.

See Upchurch Drug Company's new jewelry and remember in buying that they stand back of every piece of it—with the cash—should it not prove alright. tf

Mr. James H. Middleton returned Monday from his annual vacation, having had a splendid time while away. Jim always knows how to have a good time and the best places to find the most of it.

We are requested to announce that there will be an ALL-DAY SINGING at Unity on the SECOND Sunday in August. This church is just one and a half miles east of Clanton and everybody is invited to be present with a songbook and a well-filled basket.

Mrs. J. E. Robinson and little Miss Margaret spent the day Monday with friends at Cooper.

Do not forget that Scott makes the best photographs of any artist in the state; he is in Clanton permanently. Studio in the Reynolds building. tf

Mr. and Mrs. J. T. Shepherd left Thursday morning with the children for Tuskaloosa, where they will make their future home.

Mr. J. E. Robinson went up to Birmingham Monday on business, returning in the afternoon.

A letter received by the PRESS from Prof. Monroe, who is now with his family at Fayette, states that he has secured the services of Miss Lola Pritchett of Union Springs as teacher of the fourth and fifth grades. He further says that he has not yet selected a teacher to fill the other vacancy, but will do so within a few days. The PRESS takes the liberty, in advance, to extend to Miss Pritchett a sincere and warm welcome to Clanton.

At the Farmers' Institute held at the Alabama Agricultural College last week at Auburn, Chilton county carried off three prizes out of a total of thirty-one offered. This is exceedingly handsome showing for Chilton when it is considered that there were perhaps eight hundred to a thousand attendants from all parts of the state, every county possibly being represented. Mr. J. M. Dennis received the first prize as the best state. Now, wouldn't these two make an ideal firm in the market business? We congratulate these two citizens upon their success.

Mr. R. O. Headley of Route 3 was in town Tuesday and reports everything in first-class shape in so far as politics are concerned.

FOR SALE—47 acres of land and a nice three-room cottage, $250; $100 cash, balance easy terms. Location five miles from Clanton. Address H. H., care the Clanton Press.

The Philathea class of the Baptist Church will serve refreshments on the lawn of the Masonic Temple Friday evening, August 5. You are invited. You come, hear! You bring somebody, See! Bring a big appetite and a little change. Ice cream and cake, candies. Afternoon and evening.

Mr. Scott Chestnutt of Birmingham is in Clanton on a visit to his grandmother, Mrs. Evans.

Mr. Vaughan of Montgomery, representing one of the large packing houses, is in Clanton looking after the interests of his house.

Mr. and Mrs. P. T. Hinkle and their charming guests, together with a few invited friends, went out to Dake's mill pond Wednesday picnicing.

Remember the ladies of the Aid Society serve ice cream Friday night on the Masonic lawn. Help out.

Mr. J. Osmond Middleton went down to Montgomery Wednesday morning on business.

Down to Work.

The democrats, or a part of them at least, had a most enthusiastic meeting at the court house last Tuesday night and organized for an aggressive campaign. There were not less than fifty wheel-horse workers in the meeting, and every one expressed himself as willing to put his hand to the wheel and help turn. There was not a sulker in the camp. They all scent victory in the fall, and are anxious to get into the running.

From now on a campaign against the domination of family rule will be inaugurated and pushed. The men of Chilton are going to throw off the yoke of the dictators and have a voice in the naming of our officers. It is well enough for us to look matters in the face and realize that the time has come for a change in the administration of affairs—a change when it can be made. Later on the personal machine will have been so perfectly adjusted that it cannot be overthrown; it will be so well entrenched that it cannot be captured. It is well to change while we can, and the men of Chilton are going to make the change this year. The men of the county do not believe in placing at the head of party councils those who have no interests in common with them, especially when our own county men are turned down in order to place others at the helm.

That, of course, was a republican move, with which we have nothing to do; they can turn down all the Chilton county boys they please and put as many outsiders in as they please. It's none of our business, and we don't care; but we point to it just to show the men of Chilton county where the "bosses" are leading. If once more they are put in power they may go a step further. It is bad enough as it is, but it could be—and no doubt will be—worse if these bosses are continued so long as to permit them to perfect their personal machinery for holding the county in their grasp. Better speak now—now, while your voice can be heard.

Those composing the campaign committee stand as a guarantee of success in the fall. Let democrats everywhere in the county take heart. We are going to win.

Mass Meeting.

The state and county press brings us the intelligence that Rev. J. B. Cumming, presiding elder of the Montgomery district, has been selected and in connection with Rev. Whitehead of the Louisiana conference, they are to have exclusive management and control of the paper, conferences having signed with the through the publishing committee five-year contract. Under the terms of the agreement, Mr. Cumming and his associate are to turn over to the two conferences 5 per cent of the net receipts of the paper, and the conferences are to assume no liability or responsibility in the issuance of the paper.

This assures the Methodists of the State an up-to-date church paper, and is a most admirable arrangement for all parties concerned.

Mr. Cumming, while he does not enter actively upon the discharge of his duties till after the adjournment of the next conference, will look after the interests of the paper during the interim between now and that time.

Mr. Chadwick, the present editor, has accepted a position as assistant editor of the Nashville Advocate, the general organ of the Southern Methodists, and will remove to Nashville in the near future.

County Court.

The summer term of the County Court convened last week and disposed of all the cases on the docket. Among those brought up for adjudication were the following:

The state vs. Dan Andrews, charged with selling liquors; adjudged guilty and fined $100 and costs. The case was appealed to the Circuit Court and a trial by jury demanded.

The state vs John Hooks, carrying concealed weapons; adjudged guilty and fined $50 and costs.

The state vs. John Hooks, assault with weapon; adjudged guilty and fined $50 and costs.

The state vs. Nahama Frazier, selling liquors; adjudged guilty and fined $50 and costs.

The state vs. Moses Ray, assault and battery; adjudged guilty and fined $25 and costs. This case was appealed.

The state vs Sam Fash, selling liquors; adjudged guilty and fined $100 and costs. This case was appealed to the Circuit Court for trial by jury demanded.

The state vs. Rufus Robbins, selling liquors; adjudged guilty and fined $100 and costs. This case was appealed to the Circuit Court for trial by jury demanded.

In this latter case there were young men of Clanton who were witnesses and who became somewhat confused in their testimony, it is said, so the presiding judge ordered the Sheriff to take them to jail to spend the night in order that they might have opportunity to get their statements facts adjusted.

...reached here Sunday that ...Mills, a white boy, who was ... Plantersville, was knocked from the track near Fremont Sunday morning by a fast train from Selma. He was lying with his head on the rail. He is not yet dead, but his case is very doubtful indeed. He was supposed to have been drunk as he had his grip. Mr. Mills was a young man about 21 years of age and well connected.

A wreck on the M. and O. R. R. near Prattville caused the passenger train to come by way of elma out of Montgomery last Sunday.

A negro here tried to catch a fast moving train, but the train was moving so rapidly that he was pitched headlong against the side of the depot, but not seriously hurt. (How about the depot, brother?)

Some of our young people, chaperoned by Mesdames Galliher and Merchant, attended the preaching Wednesday night at Stanton. They have just closed a great revival at that place, having had seventeen candidates for baptism.

Mr. and Mrs. J. E. Dennis are spending a few weeks with the father of the former at Cooper.

Master Truman Dardis gave a melon cutting on last Friday afternoon to his host of young friends. We are sure they all had a good time.

We are informed that Mr. T. U. Crumpton proposes to erect a bank and office building on the west side of his lot opposite the Post Office. This will prove quite an improvement to our little city.

The young ladies' class and the young men's class of the Baptist Sunday school each had an attendance of sixteen last Sunday, but each expects to have a much larger attendance hereafter, as there is a race between the two classes to see which can secure the largest membership. The boys all agreed to bring an additional scholar each, and if they do they will win the race, as there are not sixteen more girls in town who can be reached by the Baptists. The superintendent of the school held the teachers for a few moments last Sunday after the dismissal of the school in order that they might plan for an increase in growth, both in numbers and in grace.

On my trip, of which I have already made mention, I saw some of the finest corn that it has ever been my pleasure to see anywhere. There are some fields of corn between Maplesville and Jemison that will make from forty to fifty bushels per acre. This is encouraging to our farmer friends as well as to the town merchant.

Mr. James Franklin of Thorsby was visitor to Maplesville last Saturday.

J. W. M.

VERBENA VERBAGE.

The carpenters are busily engaged pushing the work on the home of Mr. S. A. Moses, which is now nearing completion.

Mr. Louie Williamson, traveling salesman for Amzi Godden Seed Co., is spending a few days here with his mother.

Miss Helen Reeves, of Montgomery, is here as a charming guest of her cousin, Miss Mamie Bethea.

Misses Mary Will Stewart and Sallie Duncan of Clanton spent a few days of last week here as the guests of their friend, Miss Margie Strock.

Miss Sue Brooks, a handsome young lady of Birmingham, is visiting her friend, Miss Mary Ellen Baldwin. Her many friends are glad indeed to welcome her again to our little town.

Mr. Frank Dansby has been spending a few days at home recently on account of an injured finger.

On last Friday morning, while all the citizens of this village were wrapped in the arms of Morpheus, as all good citizens ought to be, we were startled by an unfamiliar sound. Upon investigation it proved to be the merry laughter of a party of hay-riders from Mountain Creek, out enjoying the blessings of the morning air.

Mr. Charles Pinkston and wife of Matthews Station are on a visit to the home of Mrs. John Mitchell, a sister of Mrs. Pinkston.

Miss Irma Duffee has gone on a visit to her brother, who is located at Helena.

Mrs. M. E. Baldwin has returned from a pleasant visit to her mother in Birmingham.

ANTIGONE.

MOUNT NEBO.

Please allow me space in your paper to say a few words, as I have not seen anything from this community in some time.

The singing school is progressing nicely under the skillful management of our efficient teacher.

The children's day service at Popwell's school house on last Sunday was a great success. Every one present enjoyed the services to the fullest extent and those who were on the programme acquitted themselves with credit.

Mr. A. P. Vance has returned home after a pleasant visit to his brother in Texas.

Miss Pearl Durbin visited relatives and friends in Prattville last week, returning Saturday, and reports having had a most enjoyable visit.

Mrs. Etta Apperson of Billingsley visited relatives in this community last week.

Mrs. Lela Davenport, from Macedonia, visited the family of Mr. E. H. Culp last Saturday.

Mr. Erbie Keen was a pleasant visitor in the home of Mr. J. D. Sims one day last week.

Mr. W. W. Williams and family spent the day most pleasantly Sunday as the guests of Mr. and Mrs. Enoch H. Culp.

I will bring these few remarks to a close with best wishes for the editor and the many readers of the PRESS.

A. S. S. GIRL.

FAIRVIEW.

Now that the primary is over and each side is getting ready for the final struggle, we desire that the enemy find the people of Beat 15 ready. Let us not wait for the mto come into our community, destroying the Democratic principles. Let us not wait for them to come into our homes and schools, destroying white supremacy. But let us march across the hills and meet them and win the victory before they enter our community.

The Democratic Club of Beat 15 will meet at Fairview aturday night, August 6. We expect to have an interesting programme. Let everybody come and make the meeting a grand success.

Many of the people of Fairview visited the union rally at Highland Saturday and enjoyed hearing the gentlemen discuss the principles of the Farmers' Union. We also enjoyed the noon hour and think that our time was well spent.

We wish to offer our congratulations to the people of Popwell School House for their successful children's day. We think it was enjoyed by all.

Best wishes,

COUNTRY DEMOCRAT.

COOPER'S CROSS ROAD.

Dear Editor:

As we have seen nothing fro... our part of the county for some time, we are asking you to give us a small space this week.

The crops, as a whole, are good, while there seems to be a little grumbling about the cotton. In some places the leaves are turning yellow and falling off. However, this is a common thing in this vicinity. Only in the sandy places or on real poor land will be damaged very much.

It seems that the majority of the people are through laying by. This does not mean idle hands, as the sawmills near by give employment to a goodly number; then, too, the cutting and handling of ties makes a few shed some honest sweat. This is not all the occupations of the people of this section. The forty days' sanctified meeting near by gives the young and a few older ones somewhere to go any time they wish. We notice, too, that a number of the people of this neck of the woods are paying extensive visits to relatives and friends of Coosa.

The primary is over and the big stir among the politicians of our part has seemingly ceased, only to come again in a few days, as there is to be another primary yet, making the amount of three for Old Southern this year. Whoop! Whoa! Back, Bill! Bully for three days to hold his horses yet. Get your political ... [illegible] ... Long ... [illegible]

more than usual. There has been talk of uniting this district (No. 31) and the Cooper district for the purpose of building a graded school. We think this would be one of the wisest things the parents of these two communities could do. We believe seven months in a graded school means more to the pupil than nine in the common rural school.

Thanking you in advance for this space and wishing much and lasting success to the PRESS, which you so justly deserve, I am

A lasting friend to the PRESS,

BOB WHITE.

GENERAL NEWS.

An Interesting Visitor.

The Press had a most interesting visitor last Tuesday morning in the person of "Hon." Henry Williams, of Chilton county, a former representative of Autauga county in the legislature of Alabama.

Henry is a pure African of the darkest hue; he is slight of build and below the average in height. Henry was brought into the office and introduced to us as a former representative, elected almost immediately after the war, during the days of carpetbagism and scallawagism. He served one term in the legislature during the term of Governor Lewis, and though his mind is not now as bright as it once must have been, when some one would recall incidents of the old days he would talk glibly of the "good old days that are gone, when us republicans had things all our own way and made laws to suit ourselves." He says he defeated his opponent because the other fellow ran on a ticket calling for social equality between the negro and the white man, and he, realizing that this would be impossible till the negro was a little better educated, took the middle track and spoke for a delay in the social equality scheme. By taking the middle track he won the favor of all the voters in his section and defeated his opponent handily. All the while he was talking he was munching parched peanuts, and when he would get a handful of the hulls he woould walk to the door, deposit his hulls upon the sidewalk and return to relate more of his experiences. When asked if he would like to return to the legislature, he stated that he did not care especially about it, and he guessed there wasn't much chance now since the democrats had gone and disfranchised so many negroes and fixed it so all the white folks could vote. Henry seems to be a peaceable negro, about 68 or 70 years of age, has respect for the white people and realizes that he is living in a white man's country.

There are, perhaps, many citizens of Chilton county who know Henry; he sometimes goes by the name of Henry White, but his real name is Henry Williams. Henry remembers the days of the "Bitter Bit," and says that it was a fierce article, but it did its work. He recalls vividly the scenes of former days, and realizes that it was a good thing for the country that the ignorant negro was disfranchised.

Henry says he comes to town quite frequently, and still takes an interest in public affairs.

In the office at the time Henry was making his talk were several business men of Clanton, some belonging to one political party and some to the other. The republicans in the party seemed to enjoy the talk of the old negro quite as much as did the democrats, and the applause which they gave him when he told of how he beat the democrats and went to the legislature was hearty indeed. The Press man went out and tried to induce several of his republican friends who are prominent in politics to come in and meet the old veteran of the party, but they would not do so at this time; they prefer to meet him in convention at Calera or Birmingham.

If anyone doubts the full truth of these ...ttaements, The Press stands ready to introduce them to several good republicans who heard all the conversation, and are ready to vouch for its strict truth.

FAIR NOTICE.

The Chilton County Fair Association will meet at the court house in Clanton on August 9, 1910 (Tuesday). Everybody interested is requested to be present.

W. H. CONWAY,
President.

OFFICERS ELECTED.

The Ladies' Aid Society of the Methodist church met at the home of Mrs. J. C. Jones last Monday afternoon. The following officers were elected: Mrs. Hugh Simpson, president; Mrs. Crit Jones, vice-president; Mrs. R. J. Mills, treasuter; Mrs. E. A. Matthews, secretary. The next meeting will be held with Mrs. Atkins the first Monday in September.

Second Floor Headley Building.

Good for Dr. Higgins

We today learn that Dr. Higgins has fitted one hundred pairs of eyes with glasses since he returned from college on October Eighteenth, 1909.

The hundredth patient was Mrs. Cobb, of Jemison, Ala., who was sent to Dr. Higgins for treatment by Dr. McNeill.

We desire to ask the people if the leading physicians of your county recommend Dr. Higgins in fitting glasses, and he holds the second prize for the State of Alabama in OPTICS, won at the recent meeting of the State Optical Experts. Can you afford to buy cheap spectacles or go off to other towns to have your eyes treated with glasses?

Dr. J. V. Higgins gives personal attention to every patient. Remember the place.

WANTS HER LETTER PUBLISHED

For Benefit of Women who Suffer from Female Ills

Minneapolis, Minn.—"I was a great sufferer from female troubles which caused a weakness and broken down condition of the system. I read so much of what Lydia E. Pinkham's Vegetable Compound had done for other suffering women I felt sure it would help me, and I must say it did help me wonderfully. My pains all left me, I grew stronger, and within three months I was a perfectly well woman.

"I want this letter made public to show the benefit women may derive from Lydia E. Pinkham's Vegetable Compound."—Mrs. JOHN G. MOLDAN, 2115 Second St., North, Minneapolis, Minn.

Thousands of unsolicited and genuine testimonials like the above prove the efficiency of Lydia E. Pinkham's Vegetable Compound, which is made exclusively from roots and herbs.

Women who suffer from those distressing ills peculiar to their sex should not lose sight of these facts or doubt the ability of Lydia E. Pinkham's Vegetable Compound to restore their health.

If you want special advice write to Mrs. Pinkham, at Lynn, Mass. She will treat your letter as strictly confidential. For 20 years she has been helping sick women in this way, free of charge. Don't hesitate—write at once.

THE LIMIT.

Landlady—Mr. Hall Roome is about the meanest man I ever met.

Mrs. Slowpay—What's the trouble?

Landlady—Wants me to reduce the price of his board because he's lost two teeth.

The Dentist's Joke.

At a recent dinner of the Authors' club in London to Mr. Owen Seaman, the editor of Punch, Mr. Walter Emanuel, another member of the staff of Punch, referred to the fact that the man with the largest sense of humor he had ever struck was an Englishman—a dentist. He went to him after suffering long with a toothache. He refused to have gas, and the dentist pulled out a tooth, leaving him writhing in pain, and took the tooth to the window, where he laughed quite heartily. He groaned: "What's the joke?" "Wrong tooth," said the dentist.

A Real Argument.

They were talking about arguments, not in the abstract, but as applying to domestic happiness. "What do you think is the most unanswerable argument you ever heard?" one bachelor asked a married man.

"That's very easy," he replied. "When your wife says: 'If they can afford it, we can,' there is no flaw in that—and never will be."—Youth's Companion.

Generosity.

"I never deny my wife a wish."

"Indeed?"

"No; I let her wish. It doesn't cost anything."—Life.

Hungry Little Folks

find delightful satisfaction in a bowl of toothsome

Post Toasties

When the children want lunch, this wholesome nourishing food is always ready to serve right from the package without cooking; and saves many steps for mother.

Let the youngsters have Post Toasties—superb summer food.

"The Memory Lingers"

The Sunday-School

INTERNATIONAL LESSON COMMENTS FOR AUGUST 7.

Subject: Jesus on the Way to Jerusalem, Matt. 19:1, 2, 13-26—Commit Verses 13-15.

GOLDEN TEXT.—"Jesus said, Suffer little children and forbid them not, to come unto Me; for of such is the kingdom of heaven." Matt. 19: 14.

TIME.—March, A. D. 30.

PLACE.—Peræa.

EXPOSITION.—I. Jesus and the Little Children, 1-15. Jesus still maintained His popularity with the multitude (v. 2). The mothers longed to have their children share in the blessing. The disciples, like many modern disciples, thought the children were beneath the notice of Jesus and rebuked the mothers as they brought them. But while the disciples were displeased with the mothers Jesus was displeased with the disciples (Mark 10:14). None are dearer to Him than the children, and He wishes even the little children ("babes," Luke 18:15, R. V.) brought to Him. A child in its teachableness and humility is just fit to hear and receive the truth of the kingdom, and we must become in this respect as little children if we are to enter the kingdom of heaven (ch. 18:3). Jesus took the children up in His arms (Mark 10:16). Can we doubt that a real blessing came even to their infant hearts in response to the touch of Jesus? How God can work in the heart of a child we do not know, but that He does thus work this passage proves.

II. Possessing Many Things, Yet Not Satisfied, 16-20. The young man who came to Jesus had great possessions (v. 22), position (Luke 18:18), culture, exemplary morality (v. 20), a noteworthy amiability (Mark 10: 21), intense earnestness (Mark 10: 17), undoubted sincerity (Mark 10: 17-21), great moral courage (Mark 10:17), recognized piety (Luke 18: 18), noble aspiration (v. 16), benevolence. Yet all these things together did not save him. They will not save any one. His question implied that eternal life is obtained by something we "do." No man ever obtained life by doing (Gal. 2:16). It must be received as a gift (Ro. 6:23). Jesus, by His reply, "Why callest thou Me good" (see Mark 10:18, R. V.), did not mean to imply that He was not good (Jno. 8:46; 14:30; 8:29), but He saw that the young man had no deep sense of the full force of his own words. To say He was good was to say He was God, for no man is good (Mark 10:18), but that He was God the young man did not see. He was superficial, and Jesus sought to bring him to a recognition of his superficiality. Jesus sent the young man to the law because he sought life by doing. The law is the thing to "do" if a man is to get life by doing, but no man has ever done it, so the law serves to shut a man's mouth (Ro. 3:19, 20). What this young man needed was to have his mouth stopped and his pride laid in the dust. Jesus always sends the self-confident to the law. Those who know that they are sinners He sends to the gospel (1 Ti. 1:15).

III. Lacking One Thing, and Therefore Lost, 20, 22. "Jesus looking upon him loved him" (Mark 10: 21, R. V.), but Jesus was not pleased with him (cf. Ro. 8:8). There was, however, a winsomeness in his sincerity, eagerness, earnestness and honest, though futile, attempt to keep the law. But Jesus' love for him did not keep Him back from dealing very plainly with him, though that plain dealing caused the young man to turn his back upon Him. It does not seem to the average mind a very serious thing to lack only one thing (Mk. 10: 21). But this lesson teaches us that to lack one thing may be fatal. The one thing he lacked was a supreme love for Jesus Christ. He was willing to do much at Jesus' bidding (v. 16), but not anything and everything. There was one thing that he loved more than Jesus, and that he was not willing to give up at Jesus' bidding. Jesus' purpose in bidding him to sell what he had and to give to the poor was to bring him to see this. Money was his idol, so Jesus put His finger upon that. But the spirit of Jesus' command holds for all His disciples (Luke 14:33). Jesus usually calls upon those who would come after Him to give up something. Love to Him makes it easy to give up anything for Him (2 Cor. 5:14, 15). Jesus told the young man that if he obeyed he would have "treasure in heaven." That is infinitely the best place to have treasure (Matt. 6:19, 20). He was not merely to sell all, but further, "come and follow Me." The selling all was simply preparatory to this (1 Cor. 13:3). "He went away sorrowful," it wasn't so much he that had "great possessions," the "great possessions" had him. By turning away from Jesus rather than give up his earthly treasures, he lost eternal treasures and lost his soul.

IV. The Dangers of Wealth, 23, 26. Jesus took occasion from this incident to point out the perils of riches (cf. Prov. 30:8, 9; Matt. 13:22; 1 Ti. 6:9, 10). "It is hard," He said, "for a rich man to enter into the kingdom of heaven." The world is full of illustrations of the truth of Jesus' statement. Wealth and piety seldom go hand in hand. Many a man has lost his spirituality as he has increased in wealth. There are few rich men saved (1 Cor. 1:26; Jas. 2:5, 6). Jesus' "disciples were astonished at His words" (cf. Mark 10:24). Jesus used a strong figure to illustrate the impossibility of a rich man being saved. Men have sought to tone the figure down, but for that there is no warrant. Jesus tells them it is possible for God to save a rich man (v. 26). Nothing but the special grace of God can save him. Jesus in meeting the perplexity of His disciples uttered a truth that has great comfort in it, "with God all things are possible" (cf. Gen. 18:14). The disciples in their astonishment asked an impertinent question, "Then who can be saved?" Jesus answered that question by showing that salvation is of God, and that God can save any one.

A POLICEMAN'S EXPERIENCE.

Suffered for Years From Chronic Kidney Trouble.

Walter J. Stanton, 1139 Pear St., Camden, N. J., says: "Kidney trouble bothered me for fifteen years. If I stooped, sharp twinges shot through my back and it was hard for me to arise. I was treated by several doctors, one a specialist, but did not receive relief. Finally I began using Doan's Kidney Pills, and soon noticed an improvement. I continued until the trouble disappeared."

Remember the name—Doan's. For sale by all dealers. 50 cents a box.

Foster-Milburn Co., Buffalo, N. Y.

WHERE HE SAW RESEMBLANCE

Apt Remark of Small Boy Embarrassed Toper and Filled Car With Merriment.

Jimmie, who is a very small boy living in the East end, accompanied his mother downtown several days ago. Nearly everything he saw was quite new to him, so he was not sparing in his comments and opinions and questions.

Seated opposite Jimmie and his mother on the car homebound was an individual who, judging by the "blossom" on his nose, had partaken freely of joy water. None of Jimmie's neighbors possessed an appendage that could compare with the one across the aisle.

In silence Jimmie took in the situation and the "blossom." His thoughts must have grown so curious that they could not be withheld any longer and he finally blurted out in a loud voice:

"Mamma, is that Santa Claus?" pointing to the man with the red nose.

Embarrassed, Jimmie's mother tried to silence her son, but it was no use. In an audible whisper the connection between the man and Santa Claus was disclosed much to the discomfiture of the man.

"Why, mamma, didn't it say in that story about Santa Claus that Santa had a 'nose like a cherry,'" he asked, and the car was in an uproar.—Pittsburg Times-Gazette.

Clever Joke of Kind King.

King Edward's great nature was illustrated the other night by a London correspondent at the Press club in New York.

"The king," said the correspondent, "was visiting Rufford Abbey, and one morning, in company with his host, Lord Arthur Savile, he took a walk over the preserves.

"Suddenly Lord Arthur, a big burly man, rushed forward and seized a shabby fellow with a dead pheasant protruding from the breast of his coat.

"'Sir,' said Lord Arthur to the king, 'this fellow is a bad egg. This is the second time I've caught him poaching.'

"But the king's handsome face beamed, and he laughed his gay and tolerant laugh.

"'Oh, let him go,' he said. 'If he really were a bad egg, you know, he wouldn't poach.'"

Judges' Wigs.

The wig is only worn by English barristers to give them a stern, judicial appearance, and no one can say that it fails in this respect. The custom was originated by a French judge in the seventeenth century when, happening to don a marquis' wig one day, he found it gave him such a stern and dignified appearance that he decided to get one for himself and wear it at all times in court. This he did, and the result was so satisfactory from a legal point of view, that not only judges, but barristers, also took up the custom throughout Europe.

The Ready Theorist.

"You see," explained the scientist, "house flies are dangerous because they carry germs on their feet."

"Ah!" exclaimed the ready theorist; "then the remedy is simple. All you need to do is to make them wear overshoes and leave them on the porch when they come in."

Quantity Not Quality.

Teacher—Willie, have you whispered today without permission?

Willie—Yes, wunst.

Teacher—Johnnie, should Willie have said "wunst?"

Johnnie (triumphantly)—No, ma'am, he should have said twist.

By a patient loving endurance of annoyance are we preparing ourselves gradually for the discipline of trials.—E. M. Goulburn.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

Size is not the only thing that reaches the home base when the question of championship is about to be settled.

A nagging wife makes her husband forget his other troubles.

"PLAY WITH THE CHILDREN"

Fabled Fountain of Youth Could Not Be More Potent Than Association With Little Ones.

"Play with the children!" was the recurrent advice of a wise and successful man. "This will keep your heart young, your viewpoint fresh, your wit sparkling. The child heart is at once the purest and the happiest in all nature; the child tongue is a transfiguring power."

Something of this indubitable power attaches to good stories of those naive and innocent "little ones" scripturally declared specially blessed and potent. The child mind transforms, the child touch lifts to glad laughter incidents and accidents not otherwise worth noting. Witness this little tale of the careful mother to whom came a tiny son all agog over the acquirement of new and forbidden knowledge.

"Mother!" cried the child, baby eyes shining, baby cheeks glowing, "do you know what 'I'll be hornswoggled' means?"

"No, dear," said the mother, solemnly, seizing the opportunity to implant a lesson. "I'm sure I do not."

"Well, I do," was the ecstatic answer, the suggested lesson being utterly ignored. "It means just the same as 'I'll be gol-darned!'"

THEY ARE ONE AND A HALF.

Benham—The paper says that in Norway married people can travel for a fare and a half.

Mrs. Benham—Married people aren't one, even in Norway, are they?

SCRATCHED SO SHE COULD NOT SLEEP

"I write to tell you how thankful I am for the wonderful Cuticura Remedies. My little niece had eczema for five years and when her mother died I took care of the child. It was all over her face and body, also on her head. She scratched so that she could not sleep nights. I used Cuticura Soap to wash her with and then applied Cuticura Ointment. I did not use quite half the Cuticura Soap and Ointment, together with Cuticura Resolvent, when you could see a change and they cured her nicely. Now she is eleven years old and has never been bothered with eczema since. My friends think it is just great the way the baby was cured by Cuticura. I send you a picture taken when she was about 18 months old.

"She was taken with the eczema when two years old. She was covered with big sores and her mother had all the best doctors and tried all kinds of salves and medicines without effect until we used Cuticura Remedies. Mrs. H. Kiernan, 663 Quincy St., Brooklyn, N. Y., Sept. 27, 1909."

The Return of Ferguson.

A night clerk in a hotel sat dozing at his desk at about 1 a. m., when a man in evening clothes came in as if laboriously trying to walk a crack, and said:

"I'm Ferguson; key to room 44."

The guest disappeared in the direction of his room, one flight up. In a few minutes a man in his shirt sleeves with a flattened silk hat on the side of his head, and with one shoe on a foot and the other in his hand, came in and said to the clerk:

"I'm Fershon, key to for-for."

"Mr. Ferguson just took his key and went up."

"Mr. Ferguson just fell out window 'n' left key inside. Kindly lemme have 'nother."—Everybody's.

He Knew the Kind.

Little Edward, aged four, was an only child. He was anxious for a baby sister, and was talking of it one day with a friend of the family. In the friend's family was a baby girl of one year. The lady said: Edward, you may have my baby; she is pretty and sweet."

"Oh," said Edward, "I don't want an old baby. I want a bran-new one wif nothin on but tacum powder."—Red Hen.

Undoubtedly Sad.

Mary Mild—Wouldn't you call her a —ah, doubtful character?

Carrie Caustique—Not unless you wanted to give her the benefit of the doubt.—Smart Set.

For Coughs and Colds

Hicks' Capudine is the best remedy to relieve the achiness and feverishness—cures the Cold and restores normal conditions. It's liquid—effects immediately. 10c., 25c. and 50c. At drug stores.

The supply of milk always exceeds the demand.

Despair and Despondency

No one but a woman can tell the story of the suffering, despair, and the despondency endured by women who have a daily burden of ill-health and pain because of disorders or derangements of the delicate and important organs distinctly feminine. The tortures so bravely endured completely upset the nerves if long continued.

Dr. Pierce's Favorite Prescription is a positive cure for weakness and disease of the feminine organism.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

It allays inflammation, heals ulceration and soothes pain. It tones and builds up the nerves. It fits for wifehood and motherhood. Honest medicine dealers sell it. They have nothing to urge upon you as "just as good." It is non-secret, non-alcoholic and has a record of forty years of cures. ASK YOUR NEIGHBORS. They probably know of some of its many cures.

If you want a book that tells all about woman's diseases, and how to cure them at home, send 21 one-cent stamps to Dr. Pierce to pay cost of mailing only, and he will send you a *free* copy of his great thousand-page illustrated Common Sense Medical Adviser—revised, up-to date edition, in paper covers. In handsome cloth-binding, 31 stamps. Address Dr. R.V. Pierce, Buffalo, N.Y.

WELL QUALIFIED.

Squilbob—That fellow over there would make a splendid magazine poet.

Squilligan—A genius, eh?

Squilbob—No, but he has dyspepsia so bad that he would't get so hungry living.

There Should.

Fritz the gardener was a stolid German who was rarely moved to extraordinary language. Even the most provocative occasions only caused him to remark mildly on his ill-luck. Not long ago he came back from the city in the late evening after a hard day in the market place. He was sleepy, and the train being crowded, the baggageman gave him a chair in his roomy car.

Finally the train reached Bloomfield. Fritz still slept as it pulled in and his friend had to shake him and tell him where he was.

"I tanks you," said Fritz, as he rose slowly to his feet. The open door of the car was directly in front of him. He walked straight out of it.

The baggageman sprang to look after him. Fritz slowly picked himself up from the sand by the side of the track, looked up at the door, and said with no wrath in his voice:

"There should here be some steps."—St. Paul Dispatch.

Mathematical Request.

Little Mary, seven years old, was saying her prayers. "And, God," she petitioned at the close, "make seven times six forty-eight."

"Why, Mary, why did you say that?" asked her mother.

"'Cause that's the way I wrote it in 'samination in school today, and I want it to be right."—Lippincott's.

Shake Into Your Shoes

MITCHELL'S EYE SALVE

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce,

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds. It's up to you. Will you work?

Contest Closes Monday, N[illegible]

OWENS RESIGNS

PRESIDENT OF AGRICULTURAL SCHOOL AT ABBEVILLE.

LOCAL FEE LAWS PREVAIL

Ruling by Attorney General—Jefferson County Tax Values to Be Raised Over $100,000,000.

Montgomery.

Dr. Clarence J. Owens, for several years president of the Third District Agricultural School at Abbeville, has resigned, to take effect at the will of the board. While it is not yet given out what he is to do, the offer of a lucrative position in another field has no doubt been made. Dr. Owens is well known all over the South as a literary man and a teacher. He is now serving his second term as commander in chief of the United Sons of Confederate Veterans, and under his administration many excellent movements have been set on foot.

Local Laws Prevail.

It is held, in a ruling by the attorney general, that the local laws of Limestone county, having regard to ex-officio fees, hold good, taking precedence over the general acts governing such matters. Under the local acts clerks of the circuit court get $400, the sheriff $400 and the probate judge $400. As the local acts are not expressly repealed and the general act carries the provision, "unless otherwise provided by law," the local acts prevail. In another ruling the attorney general holds that lands bought in for taxes by the state may be sold at private sale by the auditor and treasurer, with approval of the governor, even if the price is not sufficient to cover the tax charges against it.

Black Is Short, It Is Claimed.

Mark D. Black, circuit clerk of Crenshaw county, owes the state the sum of $407.77, according to a report filed with the governor by Judge John Purifoy, examiner of accounts. He was checked up on solicitors' fees to the extent of $1,681.91, but later paid into the treasury the sum of $1,274.14, leaving him behind on the showing made $407.77. It is also charged by the examiner that there are no records by which he could tell how much was due on fees held two years, which, under the law, ought to be turned into the state treasury.

Jefferson Taxes Raised.

It now appears that the tax valuations will be boosted to about one hundred and three to one hundred and five millions in Jefferson county this year, and that without much of a stir. The tax assessor put them up seven millions, to which large figures were added by the board of revenue and the tax commissioner. In almost every case it has been easy to bring about settlement.

Station Not Moved.

The petition of the Mobile and Ohio to change the Kingston station to Spur was dismissed by the railroad commission at its meeting Monday. No other matters were disposed of at the meeting.

Give 'Em Away.

The Alabama Division, United Daughters of the Confederacy, has established a number of scholarships in various educational institutions of Alabama for the benefit of worthy descendants of Confederate veterans. Among the schools at which the scholarships will be maintained are Marion Institute, Judson College, Southern University, Howard College, Athens College and Birmingham Seminary. The seminary scholarship, donated by the school, is valued at $65, and includes full literary tuition and incidentals. The Daughters will add to this $181, which will cover expenses of board, laundry and household comfort. It also includes membership in the Young Women's Christian Association.

New Rail Line.

F. G. Blair and others of Tuscaloosa have incorporated the Tuscaloosa Mineral railroad, to run through intervening counties between Tuscaloosa and Florence, on the Tennessee river. The authorized capital to begin with is $25,000. This is a move that has been agitated for some time among the people of that part of the country. The Tuscaloosa News Publishing Company is also incorporated, the capital being $10,000. Newspaper and job work is to be done. Hugh Morrow and a number of Birmingham men, as well as local, are among the incorporators. The Clay County Publishing Company, with capital of $1,395 paid in, will run a newspaper at Ashland, and the Central Hardware Company at Andalusia, with capital of $4,800, will do the business indicated.

Doing Great Service.

W. F. Feagin, chief clerk to the department of education, and J. A. Wilkinson, commissioner of agriculture, are enthusiastic in their praises of the farm school at Auburn. They see in

School Census.

Under section 7775 of the code, any officer or other person reporting or tabulating any false enumerations of persons of school age may be fined $100 to $500, and may, in addition, be sent to hard labor for the county from six to twelve months. As a result of the general understanding of this penalty the department of education hopes to get, and the officers believe they will get, the only correct school census ever taken in the state. No county, district or city is excepted from the act. Every subdivision of whatever kind must take the census at the same time and in the same way, on blanks of the same kind, which blanks must show name of the child, age, color, residence and name of parents or guardians. The second census under the law is now being taken, that of 1908 being the first. As this was just after the law had been put into execution, it was more difficult to get accurate figures than now, with closer study and better acquaintance.

Hale County Survey.

The soil survey of Hale county has been completed and the maps made. The work was done by the state and the department at Washington working together.

ALABAMA NEWS.

Mobile.—Information has been received here of the death near Putnam, Marengo county, of J. James, a prominent planter and well known here. According to the report, James left his home in company with a small son, saying that he was going out to shoot chicken hawks. "When you hear the gun shoot, come to me," said the father, as he and his son parted just below the house. A few minutes later there was a report of a gun. The lad did as he was told. Running towards the place from whence the report came, the little boy was horrified to find the body of his father, partly through a barbed wire fence, blood flowing from a gaping wound in the forehead.

Washington.—Percy Lee is appointed carrier, G. N. Deshay substitute, route No. 1 at Montevallo. Postmasters appointed: Bashi, Clarke county, Alexander B. Carleton vice M. M. Pugh, resigned. Little River, Baldwin county, Chester C. Gantt, vice I. F. Gantt, deceased. Alice L. Harris is appointed postmistress at Almond, Randolph county, vice L. L. Perry, resigned. Stephen W. Herrin has been reinstalled rural carrier, route No. 8 at Troy. Amos A. Gill is appointed rural carrier, route No. 1 at Midland City.

Gadsden.—The Etowah high school will open on the first Monday in September. Three scholarships will be offered to the girls and boys of the county. A competitive examination will be given at the high school building on Friday, September 2. The scholarships will be given by T. C. Banks, Dr. C. D. Foreman and the Attalla Industrial Club. Each scholarship pays board and tuition for one year. No one can try for the scholarships who lives in an incorporated town.

Linden.—Harry Jackson, a young man about 18 years of age, who lives at Rembert, eight miles south of Linden, was bitten by a dog suffering from rabies. He is a son of ex-Sheriff T. J. Jackson of this county.

Birmingham.—For the alleged loss of his left thumb, R. S. Murray filed suit for $5,000 damages in the circuit court against the Copeland-Inglis Shale Brick Company.

Anniston.—R. H. Cobbs, Jr., of this city, who was several months ago appointed to make a census of the manufactories and industries in the Anniston district, completed his work Saturday afternoon, forwarding his final report to the census bureau at Washington. The report was for 1909. Mr. Cobbs' territory includes Calhoun, Talladega, Cleburne, Clay and Randolph counties.

Birmingham.—The light committee of the city council met in the mayor's office, and after listening to a committee from the Board of Trade and President A. H. Ford, of the Birmingham Railway, Light and Power Company, awarded the contract to the Birmingham Railway, Light and Power Company to furnish the city with arc lights at $70 each for five years.

Huntsville.—There was a mad dog scare here after two mad dogs had been reported in different portions of the city.

Anniston.—At the meeting of the Anniston trades council it was decided that a paper will soon be issued in Anniston in the interest of organized labor. The date of publication has not been selected.

Huntsville.—Horace Greeley Otterman, night clerk at the Huntsville hotel, it is alleged, took from the safe the monthly payroll of $300 and left the city on an eastbound train.

Montgomery.—The largest illicit still in the history of Alabama has just been captured near Dardanelle in Tallapoosa county, the plant having a capacity for manufacturing 200 gallons of moonshine daily. The still was

HEADLEY & CO.

G. L. DANIELS
The man who assists "CLASSY" Dressers. We do steam and dry cleaning in the most improved manner.
Modern methods.
Prices in keeping with the times.
We call for and return all work.
Its up to you to dress well—we will help you by taking the spots out and keeping you pressed.—
Mr. Sam L. Cox is associated with us.

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton County, State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Co., a corporation, out of the goods, chattels, lands and tenements of the said Parsons Lumber Co., in favor of S. A. Blasengame, I have levied on the following property, to-wit:

One saw mill, two engines, one Log hoist, one Slab Elevator, eight Live Rollers and one gasoline engine.

Therefore, according to said command, I shall expose for sale, at Public Auction, all the right, title and interest of the above named Parsons Lumber Co., in and to the above described property, on Friday the 29th day of July, 1910, during the legal hours of sale, at the Court House door in Clanton, Chilton County, Alabama.

Dated at Clanton, Ala., this 5th day of July, 1910.

JOHN S. CATTS,
Sheriff, Chilton County, Alabama.

This sale is continued till Friday, the 5th day of August, 1910.

JOHN S. CATTS,
Sheriff of Chilton County, Ala.

The State of Alabama, Chilton County. Probate Court. J. S. Johnson, Jr., et al, deceased, estate of.

This day came M. S. Johnson, guardian of Ruthel Johnson, and filed his statements, accounts, vouchers and evidences for a final settlement of his said guardianship. It is ordered that the 16th day of August, 1910, be appointed a day on which to make such settlement, at which time all persons interested can appear and contest said settlement. Every [illegible]

Clanton High School,
CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure a first grade State certificate. Students who attend the entire session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful school year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

...l Insurgent Wins — Progres... ...ve Beaten for Nomination in ...ansas City District—Morgan, a ...anon Lieutenant, Victorious.

...s, Kan.—The foes of Speak... ...on and United States Senator ... made decided gains in the ... primaries. The Insurgents ... six of the eight Republican ... districts, and may have car... ...ven. Their entire state ticket, ... governor down, received a ma... The Stand-patters carried the ... congress district and may have ... the first, but this is all that is ... them.

...e most bitter factional fight ever ...known in the Republican party ...ness culminated in Tuesday's ...le between the Stand-pat and ...ent factions.

...e primary was the first real test ...en the Insurgents and Stand... The Regulars were attacked ...ng the line by Governor Stubbs, ... Bristow, Senator Cummins ...Representative Murdock. The ... of Senator Aldrich and Speak... ...on was under fire.

...s likely that the majority for ...ogressive state ticket will run ...h as 25,000.

...e winners as indicated are:

... Governor—W. R. Stubbs, In...

... Congress—First district, D. R. ..., Stand-patter; Second dis... Charles F. Scott, Stand-patter; Third district, P. P. Campbell, Stand-patter; Fourth district, F. S. Jackson, Insurgent; Fifth district, R. R. Rees, Insurgent; Sixth district, W. A. Reeder, Stand-patter; Seventh district, E. H. Madison, Insurgent; Eighth district, Victor Murdock, Insurgent.

The total Republican vote will reach 170,000, about 10,000 ahead of the normal Republican vote and 40,000 ahead of the primaries two years ago.

There were no Democratic contests and only a small Democratic vote was cast.

Oklahoma "Stands Pat."

Guthrie, Okla.—Returns indicate the renomination of Bird S. McGuire, First district; D. T. Morgan, second, and Creager, third, all Republican Stand-patters, for congress. Faris, in the fifth, and Carter, in the sixth, Democrats, will be renominated.

Returns to state headquarters here give J. W. McNeal, Republican, a lead and indicate his nomination for governor.

Returns of the Democratic vote are light and indicate a close race between W. H. Murray of Tishomingo and Lee Cruce of Ardmore for governor, with the chances rather favoring the latter.

The "grandfather clause," the proposed constitutional amendment denying the suffrage to negroes, seems to have carried by 10,000 to 15,000 votes.

Results in Missouri.

Kansas City.—Representative Borland has beaten Frank M. Lowe, former prosecuting attorney, for the Democratic nomination for congress. Howard F. Lea, Progressive, has beaten I. B. Kimbrell, Stand-patter, for the Republican nomination from the Fifth district.

St. Louis.—"Cannonism" was an issue in Missouri. Representative Charles H. Morgan was renominated by the Republicans. His opponent was W. S. Crane of Carthage, Mo., who announced himself as an insurgent.

GENERAL NEWS.

In Full Blast and Growing Warmer.

A Mistaken Impression Corrected.

In some unaccountable way the impression has gone abroad that the piano contest which has been conducted by The Press was closed and that no more tickets would be accepted or counted. If those who have gained this impression would look at the list of contestants and review the figures for the past week or two that impression would be quickly dissipated. The fact is that for the past few days more interest has been manifested in the contest than for some weeks. There have been more votes cast in the contest than for any two weeks previous, and the list of contestants has grown to a considerable extent. The Press is at a loss to account for the idea that the contest had closed. We could not close it now even if we desired to do so, for the piano no longer belongs to us, but to those who have entered the race, and it would be manifestly unfair for any one to claim the possession of the instrument till the expiration of the time agreed upon in the beginning. One or two merchants have, perhaps, ceased to handle the tickets, but that is no indication that the contest is closed. When we started out we promised that the contest would be fairly conducted and that it would run for a specified length of time. No one now in the race need entertain the least fear that "snap" judgment will be taken. When you make your cash purchases at stores advertised as handling the contest tickets be sure to ask for them and insist upon receiving them. The summer race is but half over yet, and that shining twenty-dollar gold piece is anybody's for the hustlings. We understand that some of the youngsters about town started the rumor because certain parties refused to give them tickets for purchases made in order that they might trade them off. Do not be deceived into the belief that the contest has closed. When the time comes for closing everybody will be given fair notice and the winners will be announced. It may be that the summer contest has been the occasion of confusion on the part of some, but even this contest does not close till the middle of September, so you see there is yet much time for vote getting.

Call for your tickets when you make cash purchases. Look over the list of those handling the tickets and trade with them; ask that they give you piano contest tickets and insist upon getting tickets in amount to the amount of your purchase.

Take the list of contestants this week and compare it with the list of last week or any previous week, and you will discover that there has been a considerable move all along the line. Those who are hustling are well aware that the contest has not closed by any means.

The Reynolds Bankrupt Stock to Be Sold in Bulk Next Saturday.

We understand from reliable sources that the C. W. Reynolds bankrupt stock is to be put up for sale next Saturday and that the longest purse is to carry off the prize. There are to be quite a number of bidders from a distance, so the report goes, who will compete for this stock of merchandise. Just what the stock inventoried cannot be ascertained, but it was scheduled at $7,500 in the papers filed with the court. It is a difficult matter to guess what percentage the stock will bring, but whoever buys it will know that he has had competitors in the bidding.

The store house in which the stock is stored (the old C. W. Reynolds' stand) has been rented to another firm, so we understand, who will move their place of business just as soon as the bankrupt stock can be removed.

A New Citizen and a New Store.

The Press man had the pleasure last week of shaking hands with Mr. Mackey, who has recently purchased the Shepherd stock of goods and who will continue the mercantile business in the old Shepherd stand.

Mr. Mackey is a man of genial disposition and a first-class business man. He knows a good thing when he sees it, and therefore he decided to locate in Clanton. Realizing the possibilities of our town he decided to cast his lot with the hospitable people of Clanton and to make this his future home. His family have joined him here and will occupy the Matthews house, near the Methodist church, recently vacated by Mr. Shepherd. He says that he is now one of us, counts himself a bona fide resident of Clanton and desires to be listed in all her public enterprises or in any schemes for the promotion of the public good. This is the kind of citizens that Clanton needs and we

citizens were preparing articles to be printed in The Press about the proposed water works system.

When we called upon these gentlemen for their "copy" each of them said, "Wait on me just a little while longer; I've been so pressed the past few days with business matters that I have had no time to get my copy ready, but you can count on me. I'm with you."

Now this is not encouraging at all. We realize that those gentlemen are "with us," but who else is to know it till they speak out?

It does no particular good for men to be "with us" unless they are willing to get in behind and shove the movement along just a little. A single sentence from one or two business men would accomplish much more than a column written by The Press without any outspoken endorsement from the business men. We are not going to become discouraged this time, but we do want some one to help us "holler." It becomes tiresome and monotonous for one fellow to do all the shouting. If you are for the water works say so and don't be afraid to speak out in meeting. People cannot tell on which side of the proposition you stand by looking at the color of your eyes or the hang of your trousers. We ought to get this water works question settled before the summer is gone, for with the coming of the fall we will have other things to claim our attention.

Get in the game, gentlemen! Lend us a hand while the ball is rolling.

Funny, Isn't It?

Isn't it funny how some folks read newspaper articles? Sho' is!

Last week we had occasion to say that a mass meeting had been called for the Wednesday night previous to the issuance of our paper for the purpose of selecting a city ticket. That was so. The call was made and the ticket practically selected, so we are informed, but the meeting never took place, and consequently the ticket which had been selected was not ratified by the mass meeting. Now we do not pretend to say who composed the ticket selected, for we do not know; we were not let into the secret, but the fact remains that the meeting was called and the ticket selected. That's about all we said except that those who had the matter in charge seemed to desire a change all along the line. That was the information that came to us along the grapevine. Well, what's funny about that? you say. Nothing; indeed there's nothing funny about that. Well! And what and which?

Well, we also wrote an editorial, in which we took occasion to say some nice things about the present administration, and they came from the heart, too, for we meant every word we said. The Press man hasn't been here long enough to form any correct estimate as to what is best for the town or who would make the best officers, and we said so. We have been here long enough, however, to see that the town has made material progress recently—and we said so. That isn't funny, either, is it? No! Well, we said something else; we said that it was perhaps a bad idea to change horses in the middle of a stream. That wasn't funny either, but the way some folks read the article was amusing. They construed it as a slap at the present administration! Now, if that isn't "amoozin" we'd like to know what you call it? If we understand the queen's English as she is spoke we are inclined to think that article was a gem in the way of endorsing the present administration and calling upon our citizens to consider well before they made any change. That's the way the thing read to us in cold type, but it read differently to some folks. And that was the funny part. That's where you laugh if you enjoy funny things. Now, The Press would not for a moment pretend to suggest a candidate for one place or the other; we would not oppose any particular man or set up any particular man. We're for whoever the people want, but we feel impelled to say, "Let well enough alone" unless you can do better.

Now, before anybody accuses us of "endosing" we're going to say that The Press is ready to endorse any good man who will come out for water works, less steam whistles and a diminution of pistol shots.

Dog-gone.

Under ordinary circumstances people would say this is a case work, but not so. It is full of meaning to those who will recall that it is nearing the time for peaches to get full ripe. Visions of teeches in the dark of the woods and the sound of the horn through the hills and valleys readily recall the lousy fleas, coon dogs and the yelping female lapdog that keeps up a racket that is a H. freight engine, yes, accompanied with

his heart would not be comforted, because his best coon "dorg" had changed his abiding place.

Now, J. D. Sims is not a man to sit around and mope when things are to be done, so, as is his custom, he "got a move on," late in the week he had his "dorg" spotted—that is, located, and like a valiant knight of old going forth to rescue his lady love, J. D. strode forth some thirty miles or more to fetch back home that dog, on which his heart was centered. It took him several days to get his treasure, but he got him, and now the gleams of rapture that shine forth in his radiant countenance would turn green with envy a poverty-stricken ducal lord who had landed a fair American heiress. Well, DOG-GONE!

Then, again, Marvin and Will Wilson were once the proud possessors of a blue-spotted hound dog which answered to the name of Anastasia Anthony. One day lately Anastasia strolled away toward the northward and the hearts of these two young men were bowed in grief. Now, Anas could not trace his oncestry as far back as the Egyptian dynasty, but though he was short on lineage he was long on ears, and that's what made Anastasia Anthony valuable. He could hear a coon whispering words of love to his best beloved in the tallest tree tops beyond the gum springs.

That's where Anastasia had it on the ordinary canine—he was on to his job up to the thirty-third degree.

Now did Will Wilson propose to surrender A. A. without a struggle. He incorporated himself into an inquiry bureau and button-holed every citizen that knew anything about coon dogs generally or the admirable traits of Anas Anthony particularly.

Finally Will disappeared. Those who knew him best were conscious that he was "busy." That day Will returned swelled with pride and joy and the merry capers of Anastaria Anthony as he scampered toward his accustomed resting place was proof positive that he had not gone away willingly. Dog-gone.

A Pleasant Picnic Party.

Last Monday Mr. Ed Smitherman, accompanied by Mrs. J. H. Hicks and Misses Kate Davis and Inez Hicks, spent the day on historic old Coosa. The young ladies had never before seen a real creek, and their interest was without bounds when they stood upon the banks of that murky old stream where so many deeds of valor and so many acts of treachery have been accomplished. After a day of rare pleasure the party returned home, having enjoyed every moment of the trip and ready for another of a similar character.

No Meeting. 'Cause Why?

Monday night was the time set for a hearing of the Patrician fathers, but for some reason the meeting did not materialize. There was a petition presented, or ready to be presented, to the Council at its meeting, but as no meeting was held of course the petition was not placed before them. That petition was a simple, but forceful, request of a large majority of the citizen voters of the town of Clanton asking that some ordinance be enacted which would bring a cessation of the steam whistle within our midst and a slowing of the trains as they pass through the city. It was a simple request; one easy to grant, and one which would work a hardship upon no man, corporation or company. It would bring peace and quiet to our homes and safety to our lives. That's the principal reason why the request was made. It was with no intention to deprive any one of any right, but to protect the citizens of Clanton in their right; but the Council did not meet! Alas and alack, it did not meet! Some day it will meet, though, and some day that request will be presented. Some day they will act on it—whether adversely or not—it will be acted upon, and the people will know. Yes, they will know.

Hard Boiled Eggs and Sandwiches.

One of the jolliest crowds of the entire season had a merry time last Tuesday night out near Concord church. The moon hung just right for love missives, its silvery rays reflecting the gladsome light that shone in the eyes of beautiful women, while its mellowed softness inspired gallant beaux to speak their hearts' passion.

About twenty or more couples gathered at this beautiful spot and passed the evening hours as only those who know not dull care and sad regret can pass the hours. Baskets indened with good things to eat were in abundance, delicate viands prepared by willing hands were everywhere in evidence, and right gladly did the swains embrace the opportunity to show their appreciation of the tempting repast.

The party were chaperoned by Mr. and Mrs. J. E. Robinson, Sr., Mr. and Mrs. [illegible] and Mr. and

VITRIOL KILLS CHILDREN.

Wagon Upsets and Thirteen Persons Were Terribly Burned.

Philadelphia.—Two children are dead, two more are critically injured and eleven other persons were terribly burned as the result of the upsetting of a truck loaded with carboys of vitriol on which they were riding here. The driver of the truck and four other men who helped to rescue the children from the fiery fluid are suffering from severe burns. The dead are:

Raymond Dager, seven years old.

Catherine Daniels, nine years old.

The wagon belongs to the bureau of fire.

Richard Grear, a fireman, and ten children were riding on the wagon when the accident took place.

Grear is the father of five of the children whom he had allowed to ride with him.

FARMERS AFTER CONGRESS.

Doomsday Book Prepared for Those Who Ignore Their Interests.

Raleigh, N. C.—Three million farmers of the United States are to be banded together to attempt the defeat of such members of congress and other public officials who disregard the demands of agriculturists for laws advancing their interests.

The announcement was made here by Charles S. Barrett, president of the Farmers' union, who said that the organization was working on a list of such legislators, which will be known as the "Doomsday" book. The book, Mr. Barrett added, will be issued before November.

TOLD FALSEHOOD IN NAVY.

Lieut. Com. Baker Reduced 50 Numbers and Reprimanded.

Washington.—Lieut. Com. Henry T. Baker, on duty at the Bremerton navy yard, Washington, was reduced 50 numbers and a public reprimand was sent to him by the navy department as the outcome of a conviction by court-martial on a charge of uttering a falsehood.

Public Debt Decreased.

Washington.—The final figures of the statement of the public debt show that at the end of July the aggregate of interest and non-interest bearing debt was $1,296,436,832, a decrease of $508,126 as compared with a month ago.

Bride Sees Husband Drown.

Brazil, Ind.—Attempting to save Edna Olds, twenty years old, of Chicago, whom he was teaching to swim, Rev. Wallace McVey was drowned in Eel river in the presence of his bride.

Wu Ting-fang Made Councilor.

Pekin, China.—Wu Ting-fang, former Chinese minister to America, was appointed councilor to the Chinese foreign office.

Captain Peck Dismissed.

Beverly, Mass.—President Taft approved the finding of a court martial dismissing Captain R. H. Peck, U. S. A., from the service.

STANDING OF PIANO CONTESTANTS ON TUESDAY AFTERNOON, AUGUST 9, 1910.

Mrs. W. W. Monroe	2,115
Miss Rosa Lee Moore	6,345
Miss Willie B. Sartor	500
Mrs. J. Watts Moore	7,015
Newton Aldridge	16,055
Mrs. S. C. Matthews	550
Miss Eula Roper	374,408

tf

the storm clouds came up and the rain began to fall. For an hour the lightning flashed, the thunder roared and the torrents fell. Not one young lady of all the happy throng had worn a hat or wrap. They were out for a jolly good time.

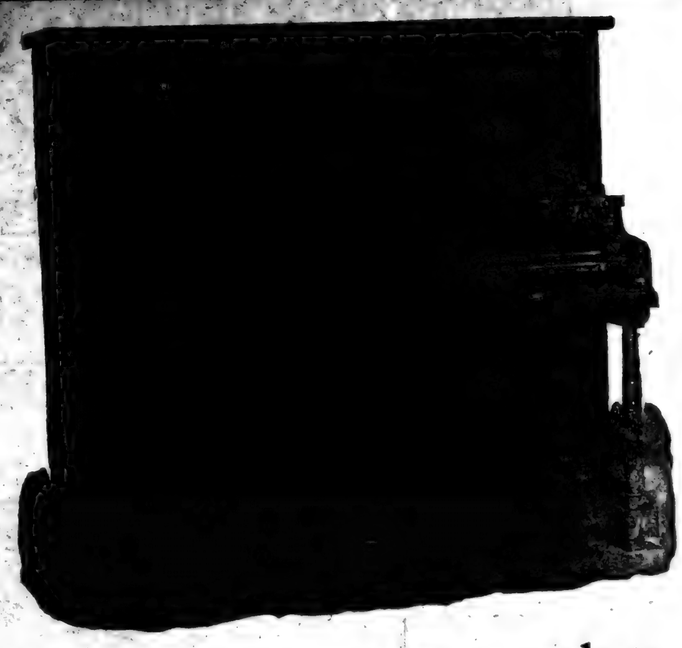
The little school house afforded accommodation to all as shelter from the storm, but it was far, far from home, and the night was waning.

Finally, in desperation, they decided to brave the elements.

Well, you ought to have seen them when they arrived! Those pretty dresses were as wet as the proverbial dish towel, and those beautiful tresses were dripping with the "dews of heaven." Nevertheless, they had a good time. Every one of them enjoyed it to the full.

In returning Mr. Wade, whose wagons they used, drove into an embankment and skinned up Clark Harper's pedal extremities somewhat. So if you see him hobbling along the streets like a veteran of the Mexican war, don't ask questions. He's sore.

As the party drove through town, just before midnight, they were gayly singing.



"Taint gwine to rain no more,
'Cause hit's done rained all it could;
We ain't so awful sore,
But we's as wet as the folks in the flood."

Value of a Fleet Show.

The life of the performing tars is by no manner of means as short and fleeting as most might guess, for they usually live to be eight months old. [illegible] year. Flat outfits and instructions [illegible] as a hundred dollars. Some one-night stands [illegible] well-to-do fish [illegible]. —Tip, in the New York Press.

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes Monday, Noon, December 5th, 1910.

SAFETY APPLIANCE

RAILROAD MEN ARE IMPRESSED WITH INVENTION.

ANOTHER FATAL WRECK

Railroad Bill—Health Officers Trip—More Oil Companies Being Formed.

Montgomery.

Men who saw demonstrations of the Andrews safety appliance, express the most enthusiastic belief in its efficacy to prevent accidents of all kinds that result from derailment of rolling stock on rail lines. An engine, tender and coach were sent at speed over a piece of private track and derailed without injury to equipment or marked delay as to time.

J. T. Andrews, the inventor, has with him Karl Kennedy, engineer, a member of the Brotherhood of Engineers, and William Morris, white fireman, also a brotherhood man. He is assisted by B. Lee Smith of Atlanta, a former member of the council of his city, and very much interested in the proposition. Each member of the crew, including a negro utility man stays on the train during the demonstrations.

The train, which was equipped in Atlanta, and brought over to Montgomery early in the week, has a standard engine and tender and a coach. These are used in the experiment. First the train was derailed by taking off the fishplates at a joint and separating the ends of the rails, leaving a space of about 10 inches. When the point was reached the main wheels dropped off, but the auxiliary wheels inside and out of the main rail caught the weight and applied the air, the train stopping safely within 50 feet.

In the second test a derailing frog was used. These are made to wreck trains when running away or beyond control, and have in view the certainty of throwing the wheels from the track. When the Andrew train struck the frog it took the grooves as expected, but only to the point of dropping from the rails, where the emergency wheels caught and held the train upright and safely in hand. In other words, according to men who know of such things, the experiments show that the appliance is able to prevent all such wrecks as follow derailment and broken rails.

New Railroad Incorporated.

Seeking to develop a rich and ever-growing part of the country, the Birmingham, Demopolis and Scranton Railroad Company has just been incorporated by the secretary of state, the capital being merely nominal. The incorporators are S. Funkenstein, L. Mayer and about 20 other citizens of Demopolis and the first work will be Demopolis to Linden, about 15 miles. The charter gives the right to build steam and electric roads, buy and sell real estate and do other things of necessity a part of the business of promoting a rail line. Going northward from Linden the road will run through Marengo, Perry and Bibb into Jefferson, touching one of the richest parts of the South. Going south it will traverse Marengo and Choctaw, in the latter being at this time no public service corporation save a short line of road built by the John Cochrane interests.

Taxes in Madison.

After several days' investigation of the tax squabbles in Madison county, J. R. Loyd, secretary of the state tax commission, has advised a meeting of that body. Chairman Mitchell and Commissioner Powell will therefore meet Mr. Loyd there next week, probably about Thursday, and go over the situation. It is claimed that the values are too high in the city of Huntsville and too low in the country. From early reports Secretary Loyd is not at all convinced that there is much room for controversy or that the complaints are as well founded as they might be.

More Oil Companies.

Making about the eighth of its kind within the past few months, the Rodessa Oil Company of Jefferson county has just been reported to the secretary of state. It has a capital of $100,000, and is backed up by a number of prominent and influential men. Discovery of oil and gas in Fayette and Walker counties has made this class of enterprise very popular.

Jefferson Taxes Raised.

It now appears that the tax valuation will be boosted to about one hundred and three to one hundred and five millions in Jefferson county this year, and that without much of a stir. The tax assessor put them up seven millions, to which large figures were raised by the board of revenue and tax commissioner. In almost every case it has been easy to bring about settlement.

Owens Resigns.

Clarence J. Owens, for several years president of the Third District Agricultural School at Abbeville, has resigned, to take effect at the will of the board. While it is not yet given out what he is to do, the offer of a lucrative position in another field has without doubt been made. Dr. Owens is well known all over the South as a fine man and a teacher. He is serving his second term as president of the Association of the United States

Health Officer's Trip.

Dr. W. H. Sanders, state health officer, will leave next week for a trip into north Alabama. He will be at Albertville, Marshall county, Tuesday, August 9, where in the day he will address a mass meeting of citizens from all parts of the county on health laws and general questions thereunto pertaining. The same program will be carried out at Gadsden on Wednesday, the 10th, and at Anderson on Thursday, the 11th. The doctor desires that all the physicians be on hand, and that the citizens give him this opportunity to talk with them about a matter that is of the most vital importance.

Local Laws Prevail.

It is held, in a ruling by the attorney general, that the local laws of Limestone county, having regard to ex-officio fees, hold good, taking precedence over the general acts governing such matters. Under the local acts clerks of the circuit court get $400, the sheriff $400 and the probate judge $400. As the local acts are not expressly repealed and the general act carries the provision, "unless otherwise provided by law," the local acts prevail. In another ruling the attorney general holds that lands bought in for taxes by the state may be sold at private sale by the auditor and treasurer, with approval of the governor, even if the price is not sufficient to cover the tax charges against it.

Black Is Short, It Is Claimed.

Mark D. Black, circuit clerk of Crenshaw county, owes the state the sum of $407.77, according to a report filed with the governor by Judge John Purifoy, examiner of accounts. He was checked up on solicitors' fees to the extent of $1,681.91, but later paid into the treasury the sum of $1,274.14, leaving him behind on the showing made $407.77. It is also charged by the examiner that there are no records by which he could tell how much was due on fees held two years, which, under the law, ought to be turned into the state treasury.

Station Not Moved.

The petition of the Mobile and Ohio to change the Kingston station to Spur was dismissed by the railroad commission at its meeting Monday. No other matters were disposed of at the meeting.

ALABAMA NEWS.

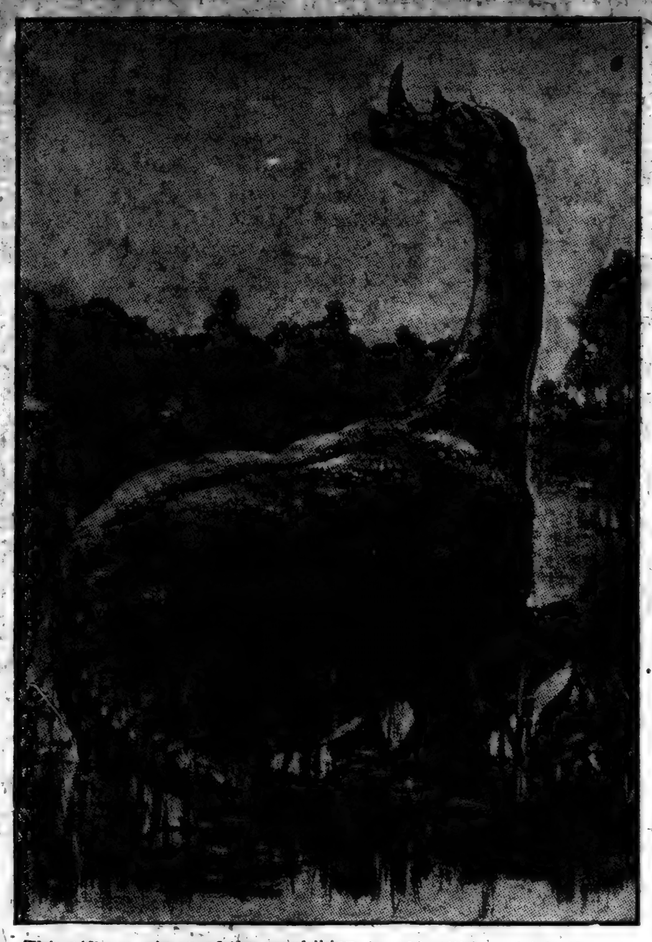
Eutaw.—Syd Duke, a negro farmer living about ten miles south of Eutaw, has killed the largest rattlesnake ever seen at this place. This venomous reptile measured seven feet in length, and its hide, when mounted, measured about 16 inches in circumference.

Centreville.—Work on the concrete warehouse near the Mobile and Ohio depot is fast progressing, and when completed it will be one of the most up-to-date warehouses in Alabama.

Anniston.—Final arrangements have just been completed by the Anniston Chamber of Commerce for the location in Anniston of the Pan-American Manufacturing Company, a concern which will make stoves for the market. The company will be capitalized at $52,000, and will have a capacity of 100 stoves daily.

Gadsden.—The officials of the Southern Iron and Steel Company are in this city making an inspection of the plants of the company. President Hassenger heads the party and Cecil Grenfell of London is also a member of the party. The men are being entertained at the Hotel Bellevue on the mountain during their stay here.

Huntsville.—The Rev. H. E. Rice has returned from Holly Tree, Jackson county. While on his visit there Mr. Rice found an old man whom he believes to be the oldest student of A, B, C's and writing in the world. The student is Joe Troop, a negro Methodist preacher, 95 years old, who took up the study of books with the determination of learning how to read and write, and he has learned the art within the last year.

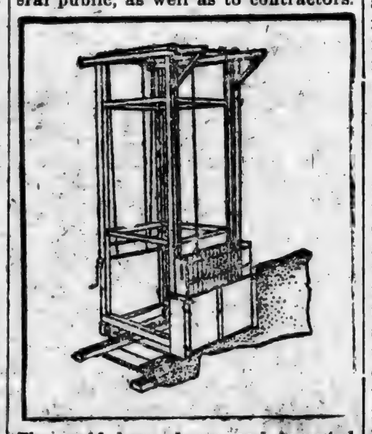


Anniston.—The feminine counterpart of Samson is just now causing no end of trouble to the Anniston city hall officials. This is Susie Cunningham, a negress, who Wednesday was fined heavily for running away from the jail with a 100-pound weight dangling to her ankles, and breaking the lock which held the chains to her limbs. Later she was chained to the wall in a manner that the warden thought absolutely secure, but he was surprised later to find her walking around in her cell trying to effect her escape again.

Montgomery. — Engineer Fincher was killed and three negroes seriously injured in a collision between a Western railway freight train and a switch engine in the western part of Montgomery.

Linden.—Harry Jackson, a young man about 18 years of age, who lives at Rembert, eight miles south of Linden, was bitten by a dog suffering from rabies. He is a son of ex-Sheriff T. J. Jackson of this county.

Gadsden.—The Etowah high school will open on the first Monday in September. Three scholarships will be offered to the girls and boys of the county. A competitive examination will be given at the high school building on Friday, September 2. The scholarships will be given by T. C. Banks, Dr. C. D. Foreman and the Acme Industrial Club. Each scholarship covers board and tuition for [illegible]



BRE'R BRONTOSAURUS A REALITY?

This nifty specimen of the amphibian is said still to exist in the swamps of Northern Rhodesia. The drawing (from The Sphere) was made from native descriptions.

Concrete Mold.

Concrete being the accepted form of building material at present, any apparatus having to do with concrete construction is of interest to the general public, as well as to contractors.

The mold here shown and invented by a Kansas man is one of the greatest helps to builders using this material. Heretofore, when a wall of concrete was to be erected, it was necessary first to put up a wooden form to pour the concrete into and remove the framework later. This required a large amount of lumber and a great deal of unnecessary labor. The machine here shown is a big improvement over this method. A frame support runs on tracks along the site of the wall. At one side of this support is a mold in which a core guide moves up and down on pulleys, at the top of the support. The concrete is poured into the mold through the core guide and the latter withdrawn. After the mixture has set the mold is moved along and another block poured out.—Washington Star.

Characteristic Expressions.

"Blood will tell," said the man who shaved himself and didn't want people to know it.

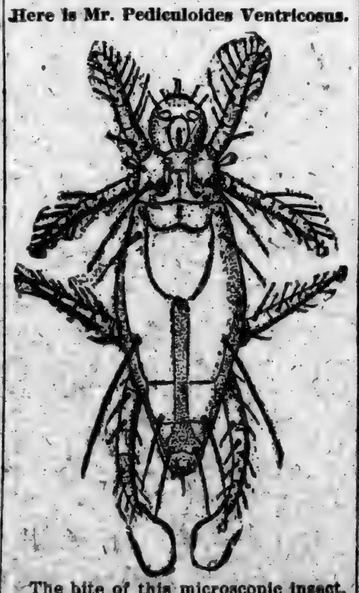
"The older I grow the stronger I get," remarked the well-used pipe.

"The game is up," said the hungry diner noting the advance in price on the menu.

"Anything for a change," observed the chorus girl as she applied the peroxide to her locks.

"It's time to get dressed for dinner," said the lobster as the cook took it from the refrigerator.

"It doesn't bother me if food is high," said the giraffe as he nibbled away at a tree top.—Boston Transcript.



A Substitute For Cotton.

In compliance with a request, I am showing you substitutes for cotton, both in the yarn and in plain and dyed piece goods, and also in combination with worsted. This is made from spruce wood pulp by a process invented by a Frenchman, and arrangements are being made for its extensive production both in England and on the continent, but I understand it is not as yet manufactured in this country.

Although it is termed a substitute for cotton the samples will indicate that it does not have the identical effect, as it takes on dyes, bleaching and finishing more brilliantly than the cotton fiber. It will resist boiling in water or caustic potash solution for some minutes without change and its combustibility is certainly not more rapid than that of cotton. The cost of its manufacture is much lower than the market price of cotton. The fiber can be made of any length, as in the case of artificial silk, which it does not resemble in other characteristics, being, as was stated above, highly resistant to solutions.

The strength of the yarn apparently exceeds that of cotton, although I have not any comparative tests.—Cotton.

Here is Mr. Pediculoides Ventricosus.

The bite of this microscopic insect, whose life history has just been learned, produces in man several of the symptoms of smallpox. The sketch shows it greatly magnified.

TYPICAL CHILDREN'S COURT.

Clanton High School,

CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin on Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure first grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

Many Farmers

WHY would like to keep an account of their receipts and expenditures if some one would keep it for them.

Open a Bank Account with the People's Savings Bank and you will find the account keeps itself, with no expense.

NOT Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts.

YOU! Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It's a handy convenience to the farmer as well as the business man.

About twelve acres of rich level land within two miles of Court House at Clanton. Perfectly adapted to truck farming or dairy purposes. For information address "REAL ESTATE," care Clanton Press. tf

EDITORIAL.

The race for sheriff's nomination in Clanton was not quite as close as the race for committeeman, but it was equally as exciting.

All of the candidates have been named now and the work of the campaign has begun in earnest. Don't be surprised to see a candidate at your door any minute.

It's a blessed good thing the corn crop is abundant this year. It's going to take an extra supply to feed the candidates, as they wind around through the country, hand-shaking with the "dear people."

The Ohio fellows had to nominate somebody for governor to oppose that prince of good Democrats, Harmon, who is now governor, and who will again fill the place; so they just took up Harding and told him to make the race. Don't expect to win, but they had to run a man to keep up appearances.

Out in Texas they have about as much of a political monstrosity as the Alabama office-holding Republican Convention delivered at its recent convention in Birmingham. Texas nominated a whiskey man on a prohibition platform; whereas, the Alabama office-holding Republicans nominated a prohibitionist on a whiskey platform. Same thing, only different.

The business shake up in Clanton last week has caused quite a number of merchants to cancel orders for goods, so we understand.

There's no use to get excited. That little flurry will soon be over and business will settle down to its normal condition soon.

It was unfortunate, it's true; but misfortunes needs must come occasionally. Just sit right steady in the boat and things will adjust themselves in the near future.

And so the Repubs have nominated a candidate to go to Congress from the Fourth DEESTRICT! Well, they forced the nomination off a man who didn't want it; drafted him any way and thrust the honor upon him "willy-nilly."

Mr. Middleton is a fine citizen and we like him, but he will never see Congress except from the gallery where the visitors sit.

He's leading a forlorn hope when he attempts to break into Congress from the Fourth District of Alabama—that place belongs to Fred Blackmon this time.

Soon after the issuance of last week's PRESS the genial Solomon Guy Hunter, who was [illegible]

article. Now, said he, you may know a few things about newspapers, but you are short on railroad knowledge, and I want to put you wise. With this he yanked out a stogy (three-fer), shoved it in the nitch just under the editorial nose and proceeded to explain the intricacies of railroading and the peculiar properties of the modern steam whistle as she is played upon by the latter-day engineer. When he had finished his dissertation we were conscious then—and not till then—that we had given the Ellen N. a sound thrashing, an undeserved thrashing, so he says, and tears of deep salt welled up in our eyes as we thought of the cruelties we had piled upon the poor, helpless, yet unruly, railroad.

It was an unkind act to take advantage of that little, helpless railroad, which permitted its engineers to toot its whistles just for pastime and run at full speed through our streets just for the pleasure of seeing wagons with lady occupants turn over and teams scamper down the thoroughfares of the city.

It never occurred to us that it was simply "for fun" they were doing these things. We thought, you know, that they had an idea it was a business arrangement and an inalienable right; we knew that it wasn't a business arrangement or an inalienable right, either, and so we were trying to tell the hardheaded things about it and get them straightened out—but when we discovered it was "just in fun," well, that was another proposition.

Now, Mr. Railroad, we are sorry we spanked you so hard; we didn't mean to hit you so many licks in the same place; we know how it feels, for once upon a time we were carried out in the wood shed and treated to the same dose; but then you ought to have said you you "was just foolin'."

The screech and scream, the vim and vigor, the regularity and sameness of those whistles is not funny, and the race with death which your fast engines cause the citizens of Clanton to run is anything but funny.

Mr. Railroad, don't blow those whistles just to be funny. Don't run your engines so fast just to see folks hop and squirm. It may be funny to you, but even a real good joke sometimes becomes stale and tiresome.

Blow like you do in other towns; run like you do in other towns. Treat Clanton with the same degree of courtesy that you demand she should treat you; don't act the bluffer and the bully. If it was necessary, it would be different; but it is neither necessary, businesslike nor gentle manly.

If you should kill some good citizens, then you'd want witnesses to say you were running at a moderate speed through the streets, and none of us would do that; you'd say you were sorry, and none of us would believe that.

The best way to show your sorrow is to stop before you have a death to account for. Don't you think that would be the better way, the nice way, the considerate way, the way to win favor and friendship? We do.

Some of the Republicans are highly elated over the result of the primary election, just held. The race was between two popular men for sheriff and two equally popular for commissioner—that is, for the nomination. It was a "run off" race between high candidates.

The favorites won, it seems—that is, some folks' favorites; and some folks' favorites lost.

The vote was large, but not quite as large as when the King Bee was running. However, the vote was a fairly good one, and it showed something of the strength of the Main pin.

But votes is votes, like pigs is pigs; sometimes they grows and sometimes they shrink; sometimes they ain't so many and sometimes they is right smart; it all depends upon where the Big Injun wants them placed.

But, speaking of votes and primaries, have you ever scanned the lines of history in Chilton primaries? No?

Well, perhaps if you had, you would be surprised. That's why we said sometimes they is and sometimes they ain't. Here's a few columns of figures (two rows to the column), and they do tell a tale that is not cheering to the Republicans, especially to the High Priests.

We want the Democrats of the county to study these figures; they are authentic and they tell a tale that nothing else could tell.

They show how the Repubs "fire and fall back;" how the Democrats advance, firing. If you've had no inspiration in the last few days, get your pencil out, put a good point on it and then begin to "calculate" just a little. The man who is so pessimistic as not to see DEMOCRACY written in flaming letters across the top of the page, ought to go to a specialist in eye diseases, for his vision is surely affected.

Just read these figures and think of what they mean:

In 1908, in the Democratic primary, Mr. W. T. Callen, who received the highest vote in the primary, was accredited with 445 votes. Put that down in a column to itself.

In the Republican primary to nominate a candidate for the same office the [illegible]

In other words, while the Democrats gained 93 per cent in the general election, the Republicans gained 7 per cent.

While the Democrats almost doubled their vote, there was no appreciable change in the Republican vote.

In other instances, in this same primary election, there were cases in which the candidates for nomination received more votes in the primary than did the nominee in the general election; that is, in the Republican primary; the reverse is true in the Democratic primary. While the Democracy polled but a small vote in the primary, its vote in the general election showed a remarkable—yes, an astonishing, increase. The Republicans showed a falling off, while the Democracy showed a steady gain—in some instances of 90 and 95 per cent.

Now, take the same figures again this year. Cast your eye over the votes polled in each primary, and remember the conditions which confronted the Democracy at the former primary and general election and the conditions which we have to face now. Recall that there was no oligarchy in Chilton county then, but that men were free and equal. Remember that it is not so now, but that there is a rod of iron over the heads of the people and a Mighty Boss to command them. Bear in mind that the people have grown tired of this sovereign sway which the King exercises, and that they are, like freemen, once again going to exercise their rights to vote as they please, and that they will no longer be ruled with an iron hand. They do not like the word traitor nor are they willing to bow forever to any one man. They are willing that capable men should occupy their offices, but they are not willing that those men should feel that they have a fee simple title to them or that they have a pre-empted right to name every officer in the county.

The people are demanding a voice in the selection of officers, and are going to claim that privilege as one of their inalienable rights.

Glance at the figures and at the conditions. Scan the field and see what the signs of the times tell us. DEMOCRACY is on top and will remain on top till her candidates are elected to office.

Do not fear for the future; be not worried about results in November. The Republicans have had their family gathering, selected their candidates, and will fall in defeat before the victorious forces of Democracy when November arrives. Of this you may rest assured.

Seven votes are not many, but it's enough to elect a committeeman.

Hayes was elected by a vote of twenty-seven majority (taken away from Louisiana and Florida). That was close, but SEVEN votes is much closer.

PERSONAL.

Rev. H. T. Vaughan of Girard, who was to have been here last Sunday to occupy the Baptist pulpit, for some reason failed to arrive. Rev. F. M. Woods filled the appointment and preached an excellent sermon. We understand that Rev. Mr. Vaughan has been invited to be present next third Sunday.

The following marriage licenses have been issued this week:

Mr. William Daniel and Miss Ethel Denson.

John Deramus (colored) and Jessie Housley.

Mr. J. J. Hicks, Sr., of Lawley, who has been on a visit to his daughter, Mrs. Ed Smitherton, and his son, Mr. J. B. Hicks, returned last Tuesday morning to his home, taking with him his daughter, Miss Inez, who has been spending some weeks with her sister.

Mr. Alonzo Pool, who has accepted a position with the Patton-Pope Drug Company of Birmingham, came down last Sunday to spend the day with friends.

Mr. W. L. Ogletree and Mr. Johnson of Rockford were visitors to Clanton last week.

Remember to call for piano tickets. The contest has not closed, as some would have you believe. It is going to run till the time appointed for closing, our friends and enemies to the contrary notwithstanding.

We call attention to the advertisement in this issue of the firm of J. C. Jones & Co. This house carries one of the largest and best selected stocks to be found in Clanton, and are always careful to give each customer polite and considerate attention.

There were ten votes difference in the race for nomination for Sheriff. There were only seven votes difference in the race for COMMITTEEMAN.

THEATRES WITHOUT USHERS.

Arrangement For Convenience of Patrons of Film Shows.

To facilitate seating of the audiences of moving picture theatres and other amusement halls where there are no reserved seats and where persons come and go during a performance when the auditorium is darkened, a New York man has patented a system of electric lamp signals to designate unoccupied seats.

The house is so arranged that the visitor must travel certain aisles to get to certain rows of seats. Each seat is provided with a lamp which remains lighted as long as the seat remains unoccupied. As fast as the seats are occupied, says Popular Electricity, the lamps go out.

The lamps being adjacent to each row of seats in a section the unoccupied seats are determined at a glance. When each section is full a turnstile in the aisle leading to that particular section is automatically locked. When one or more seats are vacated and persons wish to leave the turnstile is unlocked. All the seats are connected by circuits with a signal board in the ticket seller's booth, and as soon as all the seas are occupied the "All Seats Occupied" sign is displayed.

"Didn't Know It Was Loaded."

Palestine, Tex.—Not knowing that it was loaded, Doc. Johnson, a 6-year-old boy, levelled a shotgun at his baby sister and pulled the trigger. The baby's head was blown completely off, hurled through a door, and bloody portions were plastered on a wall 20 feet distance.

Nerves and Tears

By J. J. McComb

HOW then can the nervous sufferer help himself? To gin with, he should ask himself: "What is there in my sical life which may account for my nervous weakness my diet sufficient in quantity and nutritious in quality I get enough sleep? Is my work congenial? Is my vironment in any degree suited to my tastes and aptitu These are simple questions, and yet upon their answer depends the possibility of nervous health or nervous di If the sufferer discovers that any of the physical causes nervous breakdown are in operation, it is obvious that it is his first to fight against these causes, to lessen them and, if possible to remove altogether.

In the next place—and this is especially to be noted by nervous wo one of the essential conditions of nervous balance is the control of the tions. The tendency on the slightest provocation to give way to a paro of tears is dangerous because it leads to weakness, bodily and mental doubt there are moments of poignant agony when tears are nature's cial provision for some relief to an overstrained nervous and mental ism, but these moments come at rare intervals in our lives, and, as s so far from weakening our mental or moral life, they uplift and pu What nervous people must be warned against is the tendency to let selves go because of some petty worry or some slight domestic differe through some morbid impulse to self-pity.—Harper's Bazar.

Golf a National Curse

By "Pensioner" in London Outlook

I HAVE no hesitation in saying that in my opinion golf come a national curse.

No one can maintain that during the fifteen or years that it has had its boom the nation has progress or improved its position as compared with nations. On the contrary, the absorption of so of intelligence and education in the unceasing pur golf-ball has made the way easy for Socialists and They at least, with all their faults, do find time

SUNDAY SCHOOL CONVENTION AT SHADY GROVE.

The following communication came to us in the mails Tuesday, to which we gladly give space:

Just a few words in reference to our Sunday school convention, held with Shady Grove church last Sunday.

First, we wish to return sincere thanks to the good people of that community for their kind hospitality.

Every Sunday school was represented except two.

We find a great improvement in the work of the schools since our last convention.

Our next convention will be held in the fall, and the place selected will be nearer the center of the district, so that there will be no excuse for any school not being represented.

We had an excellent talk by Miss M. C. Gibson on the graded lessons, and she also gave us an interesting talk on the world's convention of Sunday school workers, which recently convened in Washington.

Judge Reynolds also made an interesting talk.

Mrs. Argie Howard read a most entertaining and instructive paper, and short talks were made by several others.

All in all it was a most pleasing and instructive occasion.

MRS. AGNES FARR,
Secretary.

MOUNTAIN CREEK.
(Soldiers' Home.)

Matters have been very quiet at the Soldiers' Home for the past two weeks.

In that time we have had about our usual number of visitors, but we have lost one of our members by death, Mr. W. H. Ellsberry, aged 80 years. This and the sickness of our esteemed commandant, Capt. J. M. Simpson, has thrown a damper on the spirits of the Home.

Capt. Sampson was so far recovered as to be able to leave last Sunday on a visit to South Carolina, where we hope that change of environment and release from the harrassing cares of his responsible position will soon restore him to his usual health and strength.

EVERGREEN.

It is through the columns of your most valuable paper that I wish to announce that or Invincible Literary Society will meet at Evergreen school house next Saturday afternoon. Our regular time for meeting is on Saturday evening at 7 o'clock, but as there is to be preaching at that hour, the society will meet earlier. Our programme consists of some talks, essays and recitations by Messrs. J. F. Williams, Wallace Wood, Ernest Williams, Clarence Abernathy and Misses Bettie Morris Gardner, Agnes Foster and Maggie Wood. Every one is cordially invited to attend.

Our school is progressing nicely under the able management of Prof. T. E. Williams, who taught a most successful school at this place last winter.

Miss Maggie Wood visited her parents last Saturday and Sunday, returning to her school Sunday evening. S. S. KID.

It is a curious fact, if it is a fact, that the last of the terrestrial continents to be explored is the largest mass of raised land in the world. The concentration of attention upon the South Pole since Commander Peary landed the other end of our axis makes it highly probable that the Antarctic antipodes will soon be dangling from some explorer's belt.

It seems quite natural that most of the pork should come from Chicago, puns the Philadelphia Record.

"Kickin'," said Uncle Eben, in the Washington Star, "is like pepper. It may help in its right place, but dar ain' no sense in spillin' it around."

"Imitation may be the sincerest flattery," said Uncle Eben, in the Washington Star, "but dat doesn' make counterfeit money any mo' negotiable."

Was curious, states the Detroit Free Press, never the only habits of mankind that are in danger of being revolutionized by the ambitious activity. The difficulty of extracting [illegible] telegraphers is be-

Alabama News

STATE WANTS ACCURATE CENSUS

Work of Enumerating of Children of School Age.

Under section 7775 of the code, any officer or other person reporting or tabulating any false enumerations of persons of school age may be fined $100 to $500, and may, in addition, be sent to hard labor for the county from six to twelve months. As a result of the general understanding of this penalty the department of education hopes to get, and the officers believe they will get, the only correct school census ever taken in the state.

No county, district or city is excepted from the act. Every sub-division of whatever kind must take the census at the same time and in the same way, on blanks of the same kind, which blanks must show name of the child, age, color, residence and name of parents or guardians. The second census under the law is now being taken, that of 1908 being the first. As this was just after the law had been put into execution it was more difficult to get accurate figures than now, with closer study and better acquaintance.

Prior to 1908 the census rolls were made up carelessly and padded fearfully. Indicating this the figures for 1907-8, the last year of the old acts, showed enumeration of 702,834. In the face of the rapidly increasing populations and the natural growth which the state was showing in every line, the first census under the new law developed only 687,374, a decrease of 15,460. Hardly a black belt county failed to show a falling off. Lowndes, for instance, dropped 3700, and Dallas about 2000.

No man at all posted will deny that the children of the state increased in great numbers between 1906 and 1908, yet the enumeration for 1906 was 679,070 and that of 1908, 687,374. Thus it is shown that there never have been in Alabama as many as 700,000 children of school age. Perhaps the census now being taken will not show that much, taking in every person from 7 to 21. Last year there were in school at some time in the year 405,236, not including the students at the normal schools, the university, Auburn, the nine agricultural schools, the Girls' school at Montevallo, the East Lake institution, the High schools and the innumerable private and denominational institutions, whose enrollment the state has no way of keeping up with.

Dr. Clarence J. Owens, who resigned from the presidency of the Third District Agricultural school, and became agricultural commissioner for the Southern Commercial Congress, gives to Alabama the second man of prominence in that organization and places the state very much in the limelight of the effort that is in this way being made to build up the south. Dr. Owens possesses peculiar ability for a work of this kind.

Attracting hundreds of farmers and farmers' wives from forty-five counties of Alabama and from six states of the south, the Farmers' Summer School has proved itself a success, so much so as to be almost epoch-making in its evidence of a general desire for agricultural education. The basis of its lectures is a guidance toward cheaper living—toward economy in every phase of farm life and home life. Every lecturer has something to show the farmer wherein a saving can be effected.

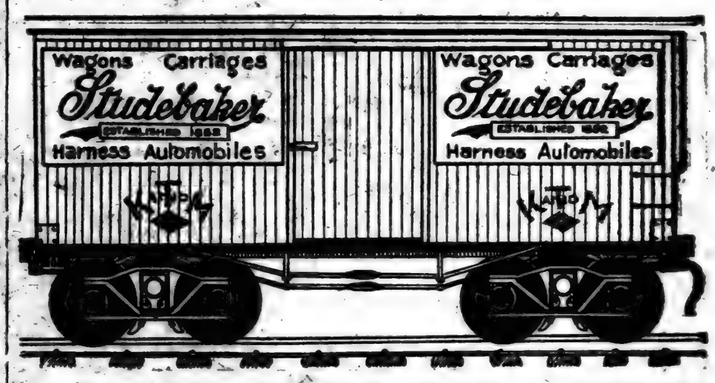
George Lehnert, a prosperous and wideawake farmer, residing within two miles of Tuscumbia, who captuerd several prizes at the state fair in Montgomery last year, in the production of corn and hay on one acre of land, receiving cash prizes of more than $200, is in the contest again this year, and the fellow who produces more corn on one acre of land in Alabama, will capture the first prize.

A regular mad dog pest is being reported to Pasteur's Institute from all sections of Alabama, the information received by Bacteriologist Dr. Mason being to the effect that the "dog days" have come ahead of time. Examination of dogs' heads are being made every day, in most of the instances the investigations showing a positive result.

The officers and directors of the Colored Fair Association have decided to hold their third annual fair at Huntsville, September 14, 15, 16 and 17, the week following the close of the Tennessee Valley Fair.

Finding that a prized pear tree was in a poor condition of health recently, Frank Hadsley, a well-known Anniston [illegible] concerned that by "doctor" some one of other had poisoned [illegible] gave it a dose of arsenic with the result [illegible]

The Calera Bakery



Desires to announce to the good people of Clanton that Mr. J. E Evans is agent for our breads and cakes. He receives a fresh shipment daily.

Our goods are the equal of those found anywhere on earth. The bread is light and wholesome. The cakes are pure and delicious.

Call upon Mr. Evans when in need of Pure Bakery Goods.

Yours truly,

CALERA BAKERY.

A Carload of "STUDEBAKERS"

We have just received a carload of *Studebaker* wagons. Come in and look them over. Let us show you how well a *Studebaker* is built.

University of Alabama

(Best Engineering Equipment in the South)

COURSES OF STUDY.

College Courses in Biology, Chemistry and Metallurgy, English, German, Greek, History and Political Economy, Latin, Mathematics, Mineralogy and Geology, Physics and Astronomy, Romance Languages (French and Spanish).

Professional Course in Education, Civil Engineering, Electrical Engineering, Mechanical Engineering, Mining Engineering, Law, Medicine (Mobile), Pharmacy (Mobile).

EXPENSES.

Tuition in Academic and Engineering departments free to Alabamians. Worthy students assisted financially. Expenses moderate.

Eightieth session opens September 8th, 1910.

Rooms reserved in order of application. For catalogue, address JOHN W. ABERCROMBIE, PRESIDENT, UNIVERSITY, ALA.

Mountain Creek Brick Co.

BUILDING BRICK.

Delivered at Clanton in Car Load Lots at $6.50 Per Thousand. Sold on the yard at Mountain Creek at $5.00 Per Thousand.

TO AN OLD FRIEND.

BY MARY E. COLERIDGE.

Now when the sweet sunny weather
Quickens all that once was dead,
I remember how we two,
You and I, I and you,
Wandered about the streets together,
Reading the books that had to be read,
Saying the things that cannot be said.

The world was young, and we were younger
In those bright forgotten days,
I remember how we two,
You and I, I and you,
Read and read for the spirit's hunger,
Walked in the old familiar ways,
Talked and talked for each other's praise.

The world is young, but we are older,
Many a book we shall read no more—
I remember how we two,
You and I, I and you,
Vowed that love should not grow colder,
That we would love as we loved before,
And the years should make us love the more.
—From "Gathered Leaves."

THE GUIDE.

Story of Adventure, in Which a Lost Boy and a Tramp Become Close Friends.

W. R. ROSE, IN CLEVELAND PLAIN DEALER.

The boy came out of the bushes and waited for the man to approach. He was a boy of ten, a tired boy whose face was gray through lack of rest and whose eyes were heavy through lack of sleep. His clothes were dusty and torn and his fine shoes were coated with dried mire.

The man coming down the quiet highway was a tramp, a tattered, whiskered, slouching vagabond. He was singing in a maudlin voice and the song was a sentimental ballad of the variety stage. His battered soft hat was pushed back on his tangled hair and his dirty face was upturned to the paling sky. And he did not see the waiting boy.

"My Mamie is a fair one,
My Mamie is a rare one;
There's never a girl like Mamie in
this good old world of ours;
You never saw a sweeter,
You never saw a neater;
My Mamie is th' fairest flower of all
th' bloomin' bowers."

His voice trailed off in a long-drawn note as he caught sight of the boy.

"Hullo," said the later a little timidly.

"Howdy, boy," said the tramp as he looked over the lad in an odd appraising way. He fell to whistling as he stared at him. "Lost, strayed or merely gallivanting?"

The boy's lip quivered. He was very tired.

"I—I think I strayed," he answered. "Anyway, I'm sure I'm lost."

The tramp came a little nearer. He was very dirty and there was a stale smell about him. His white teeth glistened in the midst of his whiskered face. But the boy was not afraid.

"Lost, eh?"

He put out a grimy hand and laid it on the boy's shoulder.

"Yes, sir," said the lad, and his voice broke a little. "I couldn't find my way and I was very tired and nobody came by and then I heard you singing down the road—singing that beautiful song—and so I came out."

The tramp had been softly whistling while the boy explained.

"Legs limp, eh?"

"Yes, sir."

"Hungry?"

"Yes, sir."

"Get up on my back," he said. "I'll tote you a piece."

The boy obeyed, holding the vagabond tightly about the neck, while the man clasped his legs.

"Ain't I heavy?" he presently asked as the tramp strode along.

"Not a bit heavy, son," replied the vagabond cheerily. "Ride as easy as you can. We've got something of a ways to go. There ain't a farmhouse within two miles of here."

"All right," murmured the boy. His head drooped against the tramp's shoulder. "Couldn't you sing a little as you walk? I like that song and maybe it would rest you some."

The vagabond chuckled.

"Maybe it would," he agreed. "Maybe, too, it would put some folks to sleep." He chuckled again, and when he sang his voice had taken on an unaccustomed softness.

"My Mamie is a fair one,
My Mamie is a rare one,
There's never a girl like Mamie in
this good old world of ours!"

He stopped the song. The boy's breathing told him he was asleep. He clutched the lad's legs a little tighter and stalked on.

The evening shadows fell. The glowing hues faded from the sky, a gray mist filled the air.

The tramp presently passed up a lane and finding a low place in the fence managed to get into a field without awakening the tired child. He carried him to a haystack and sinking on his knees contrived to lay the boy on the loose hay at the foot of the stack. The lad did not unclose his heavy eyes.

The man stood up, an ugly figure outlined against the gray sky, and stared down at the small white face.

"Somebody's kid," he muttered, and his voice had a queer sound. He slowly pulled off his ragged coat and laid it across the sleeping child. "Here to do a little foraging." He muttered a moment. "If the laddie wakes up," he said, "he'll find my coat over him, and then he'll know I'm coming back." He turned and

He was gone twenty minutes, perhaps, and when he returned he had a bottle of milk and an old tin cup and half a loaf of bread.

He stooped and touched the boy on the shoulder. The tired eyes opened.

"Here, son," he said. "It's better to eat a little something. You'll sleep the easier. Sit up and make yourself comfortable. Here's some milk. Dip the bread in the cup. That's right."

The boy ate almost ravenously. He was nearly starved. But presently he stopped with a little start.

"I beg your pardon, sir," he hastily said, "but you are letting me eat it all. I—I didn't notice that you was not eating. If you haven't had your supper, please take this." And he offered the vagabond the last bit of bread.

The tramp slowly smiled and gently pushed the morsel away.

"You're a gentleman, son," he said. "That's easy to see. But don't you worry. I've had my feed. Make it a clean-up, kiddie."

The boy finished the bread and drained the cup.

"I'm feeling much better, thank you, sir."

The tramp nodded.

"That's good. And now, maybe, you'll feel like telling me a little something about who you are and where you want to go and why you're lost?"

"Of course I'll tell you," said the boy promptly. "I'll tell you 'cause I'm sure you'll help me. You're really a tramp, ain't you?

"And tramps know so much, don't they? They know how to live without money and they ain't never sick, and they can tell when storms are coming, and they know all the places on the map and lots of things, don't they?"

The vagabond, lounging on the hay a little ways from the boy, laughed.

"No doubt they're a much envied lot," he said. "Go on."

"I've run away from a boys' school," said the lad. "They locked me in a room and beat me with a cane, and I pushed open a window in the night and climbed down a tin water pipe and ran away." He paused a moment. "My name is Spencer Pond," he said, "and we live at Roxbury, and my mother was taken so sick that the doctor said she must go to Chelsea Springs and my father thought it best for me to go to the boys' school, because it wouldn't be convenient for me at the Springs, so I went to the school and I never had been away from home before, and after my father went away I guess maybe I cried. You see my mother was sick and I didn't know anybody there, and there was lumps in my throat and I'm pretty sure I cried. And some of the boys saw me and they said I was a cry baby and they pushed me around and then one of them said I'd better run right home to my mamma. And I was thinking of my mamma and how sick she was and what he said hurt me, and I struck him hard in the face and made him scream, and then some more of them came at me and I fighted them all. And they got me down on the ground, and I got up again and shook them off and the man who owns the little school came running and called me a little brute and wouldn't give me any dinner and struck me with a cane, and locked me in a room all by myself. But I had my knife in my pocket and I pried open the window and got out and ran through the night 'cause I wanted to get to Chelsea Springs as soon as I could. I was afraid to ask the way, 'cause when I did a man took my money—it wasn't much—and said he'd cut my head off if I told anybody. But I ain't afraid to tell you. I know you could lick him easy."

"I'd like to test it," said the tramp with fervor. He wrinkled his forehead. "You've come quite a piece out of your way, kiddie. Chelsea Springs must be all of forty miles, cross country, from here. Want me to take you there?"

"Sure I do," cried the child. "My father will be so much obliged to you." He suddenly yawned. "Excuse me, but it's funny how sleepy I am. Do you know any prayer you want to say?"

"No," replied the vagabond.

"Guess if you do you might like to say it now."

"Thou who dost all things command, bless our home, our friends, our land. We are children in Thy hand."

The child looked around at the vagabond.

"And bless the tramp, too," he gravely added.

"That sounds good to me," murmured the vagabond.

The star paled, the night wind fluttered the loose hay. The boy was asleep.

The sun had climbed high when he awoke. He rubbed his eyes and looked around. The tramp was smiling down at him.

"Breakfast is ready," said the vagabond. "Bread and milk again, and a piece of fresh johnnycake, and a chunk of cold beef."

"If you please," said the boy, "I think I'd like to wash before I eat." His cheeks grew red as he looked at the tramp's grimy face. "I always do, you know," he added with an apologetic air.

"Of course," laughed the vagabond. "There's a washroom right across the field. Come."

He led the way over the field to a shady ravine, with a brisk little stream gurgling through it. And the boy drew from his inner coat pocket a flat leather case, and opening it, showed a piece of soap, a narrow hair brush, a tooth brush, a tiny mirror and a comb and a wash cloth.

"My mother gave me this," he said. "See, there's my initials on it."

He knelt down on a flat stone at the edge of the stream and made his toilet—and came up rosy and smiling.

"You're next," he cried.

The vagabond gave a queer little laugh.

"All right," he said, and took the proffered soap. When he finally looked around, his face cleaned, his hair smoothed down, his eyes clear and shining and his white teeth glittering, the boy gave a quick laugh.

"That's great," he cried. "I wonder how you'd look without whiskers?"

"I wonder," said the tramp.

"Look at yourself in my glass," said the boy, and gave him the little mirror.

The vagabond smilingly took it and looked at his reflection—and the smile faded.

"It looks," he softly muttered, "as if there might be some remnants of a man there yet."

He gave back the glass and they made their frugal meal.

"Now for the road," said the vagabond, "and Chelsea Springs."

They might have been a pair of careless strollers as they tramped down the highway that sunny morning. The vagabond developed a wonderful fund of merry conversation, and the boy was as happy as a bird.

They stopped to rest occasionally, and once they were given a ride by a farmer's boy on a hay wagon, and when it was near noon, they came in sight of a low frame house some distance from the road.

"Now to forage," said the tramp. "You wait for me here."

He went up the lane and was hidden by the bushes. Presently he returned.

"Nothing doing," he cheerfully announced. "The old man said I was too clean for a tramp and too dirty to be respectable."

But at the next farmhouse the vagabond found an elderly woman who said he could earn his dinner with the ax. He whistled for the boy, who was waiting in the highway, and the lad piled the wood and filled the woman's woodbox.

She looked at him a little suspiciously.

"Your boy?" she said to the tramp.

"Boy of a friend of mine. Been away and I'm taking him home."

"Does he treat you well?" she asked the lad.

"Yes, ma'am," the boy promptly replied. "He treats me very well."

And he laid his hand trustingly on the vagabond's arm.

They had an excellent dinner in the clean old kitchen and then the kind woman put a bag of cookies in the boy's hands.

"Madam," said the tramp, with a little flourish, "could you, would you, loan me a razor?"

The good woman laughed.

"I'm afraid," she said, "that you'll have a harder job of cutting than you had at the woodpile. But I'll let you take a razor—it is an old one my son left behind when he went to the Philippines. If you do a good job, I'll give it to you."

He did so good a job that the boy stared at him in wonder and the woman promptly told him to keep both the razor and strop.

"And take good care of the boy," she said.

"Lady," said the boy as he gravely shook hands with her, "he's taking fine care of me and I like him very much."

The woman looked at the tramp and her eyes were very keen.

"Friend," she cried, "I believe there's the making of a man in you yet." And she shook hands with him and wished them both Godspeed.

The vagabond was rather quiet as they strolled down the highway, but the boy chattered like a merry magpie.

And then they came upon a rough fellow sitting on a stump by the roadway, a burly vagabond with a fiery face and a hoarse voice.

"Why, it's Stevie!" he cried. "Swearin' Stevie—an' whp's th' kid?"

He glowered hard at the boy who paused a little nervously.

"No, you don't, Stevie," he snarled. "That's no way to shake an old pal. I don't know what's your game, but I mean to find out. Here, have a drink!" And he drew a black bottle from his rags.

The boy noticed that the vagabond seemed to tremble a little. But he drew back.

"No, Butcher," he said, "I've cut it out."

The stranger laughed discordantly.

"You've cut it out," he hoarsely shouted. "Little Stevie's cut out the booze! Well, well! An', maybe, you've cut out th' swearin', too!"

"Yes," said the vagabond, and he suddenly took a grip on the boy's sleeve.

"I dunno what your game is," snarled the vagabond, "but it's easy to see there's money in th' boy. Mebby he's kidnaped; mebby not. Mebby he's the boy I saw advertised over at Johnsbury; mebby not. But, anyway, I'm standin' in with you, an' it's going to be a share-and-share-alike deal. Come here, kid."

"Let the boy alone," said the vagabond, sharply.

The stranger luched forward with a fierce oath.

"Come here, you cub!"

The vagabond quickly threw the boy aside.

"Run!" he cried. "Run, kiddie!"

The baffled brute screamed an oath and struck the vagabond a heavy blow. And the vagabond, forced from his balance for a moment, rallied and rushed forward like a wildcat, and the fight was on. It was a desperate battle. The big man had the weight and skill, but the vagabond was quick and full of courage.

"Run, kiddie!" he screamed again, as he dashed at the ruffian.

Then he slipped and fell and the big man was down on him like a flash, and the sky turned red before the boy's eyes and he gave a queer, choking cry and snatched up a piece of rotting wood, and ran forward and screamed again and brought the club down with all his force on the bare head of the burly brute.

And the stranger crumpled under the blow and rolled into the roadway.

The vagabond slowly arose. He was white and trembling.

"I—I didn't run away," stammered the boy.

"Good thing," said the vagabond thickly. His wandering gaze fell upon the stranger, who was trying to regain his feet.

"Move along, Jim Butcher," he thickly growled. "You've had enough."

And the burly man staggered down the roadway, swearing and groaning.

The boy was watching the vagabond anxiously.

"Come into the shade, sir," he said, and caught his hand and drew him from the roadway. And suddenly the vagabond reeled and fell at full length on the grass, white and still.

The boy gave one glance at the prostrate form and turned and ran swiftly up the roadway.

Three days later the vagabond was resting in a hammock on the broad porch of a kind old woman's farmhouse. When the panting boy had rushed up the lane with a cry for help, the woman had taken him into her wagon, which luckily was standing in the lane, and had driven after the injured vagabond, and together they had brought him home. And the good woman had bandaged and plastered his hurts and tenderly nursed him.

"It might have been my own son," she murmured.

And then, a little later, she found time to write a letter, and to pass it into the care of the rural carrier.

And so it happened that a touring car came up the lane on the third day after the great battle in the highway, and a man leaped out and ran and caught the boy in his arms.

"Here, daddy," cried the lad, "come and meet my friend. He's been awful good to me. When a very bad man tried to steal me away from him he fought him like a tiger and that's how he was hurt."

"I know all about that, son," said the newcomer, "and your friend is my friend and your mother's friend, from henceforth."

And he took the vagabond's hand and pressed it warmly.

"He guided me, daddy, just like that guide you had in the woods, and he was bringing me to you when he got hurted."

The vagabond looked up with a quick smile.

"He trusted me, sir," he said with a queer little catch in his voice. "Nobody ever trusted me before. And as for guiding—why, sir, it's the boy who's been guiding me."

Curiosities of Smell.

No substance that refuses to dissolve in water has an odor. It is the actual substance itself, floating in particles in the air, that appeals to the nose, and not simply a vibration of the air, as in the case of light and sound. The damper a thing is the more powerful the odor it gives off. A pleasant proof of the fact can be had by walking in a garden after rain. There is no end to the curiosities of smell. It is, for instance, the vapor of a liquid that smells, and not the liquid in the mass itself. If eau de cologne be poured into the nostril the nose refuses to recognize any odor there at all.—London Globe.

The largest railway company in England, the Great Western, has a locomotive for nearly every mile of the system; there are about [illegible]

GOOD ROADS

Concerning French Roads.

An interesting example of improved rapid road construction has just been carried out in France with a view of uniting the three industrial cities of the department of the Nord. This takes the form of a great boulevard and has been constructed in three years. It has a length of 14.5 kilometers and has two branches, one starting from Roubaix and the other from Tourcoing. The two branches unite in a common thoroughfare which ends in the centre of Lille.

The boulevard is fifty meters wide. On each side, bordered by footways three and one-half meters wide, there is provided a roadway five and one-half meters wide reserved for heavy traffic. In the centre is a roadway of nine meters allocated to light vehicles and motor cars. Between this central roadway and the other roadways are two raised roads eleven and one-half meters wide for foot passengers, cyclists, horse riders and an electric tramway. On the lines of the boulevard the necessity for great speed has led to the adoption for this of the overhead trolley system, a double catenary suspension keeping the line perfectly horizontal.

The permanent way consists of Vignoles rails screwed to the sleepers, on which they are supported by metallic chairs. The ballast consists of slag. Joints are placed on specially large sleepers and are made with fish plates with six bolts. The cars have been built to pass round curves of fifteen meters radius and to attain a speed of fifty-eight kilometers an hour.

The maintenance of the French national roads in view of the rapid increase in automobile traffic of recent years, is giving rise to serious concern, as appears clearly in the report made by M. J. Chailley on the public works budget for 1910.

M. Chailley relates the efforts made by the engineers of the roads and bridges department to diminish the wear of the roads. At first there were attempts, of an hygienic character, to suppress the dust by means of tar. But tarring gives only temporary results; it does not constitute a facing sufficiently solid to protect the surface of the road effectively, and after a short time it has to be done over again, without having really suppressed the dust.

M. Chailley describes the method which consists in constituting the road of small materials enveloped preferably in a bituminous medium so as to ensure the elasticity of the whole. He mentions a number of compositions based on this principle, and patented as quarrite, tarvia, etc., which have been tried with some success, it appears, in Germany; and he disapproves of the plan which was suggested at one time by the engineers, and which consists of forming the roads with small paving stones well joined.—Good Roads Magazine.

Must Be Kept Dry.

A country road should be thoroughly drained in order that it may be kept dry; the best available material should be used; great care should be taken to keep the surface smooth and free from ruts and depressions, and efforts should be made to reduce steep grades by cutting off the top of each hill and filling in at the bottom.

Those who drive over a road can easily discover whether it is a good one, and whether proper care and attention have been given in carrying out the suggestions for the guidance of town superintendents.

A good road must be kept dry, and in order to keep it dry, after proper attention has been given to drainage, the crown must be preserved and all depressions filled, so that it will not become watersoaked; and at no time should any part be allowed to remain in such a condition that it will retain water on its surface.—Frank D. Lyon, New York Highway Department.

Oiled Roads a Success.

A report from Binghamton, N. Y., states that the recent floods in that region, which occasioned great damage to country roads, did scarcely any injury to the roads which had been oiled. While roads not oiled were almost completely destroyed, the oiled roads were only damaged in the shoulders, and that not seriously.

Slaughter on Railways.

The State Railroad Commission makes the following report of the slaughter and maiming for the month of May on steam roads and street railways in Pennsylvania:

	May, 1910.	May, 1909.
Killed (steam roads).....	99	73
Injured (steam roads).....	674	617
Killed (street railways).....	17	14
Injured (street railways).....	359	379

These figures show a progressive rate of manslaughter. Of the killed on the steam roads (May, 1910) twenty-eight were employes, four passengers, fifty-six trespassers and eleven others. On the street railways (May, 1910) only one of the killed was a passenger; of the injured nineteen were passengers. This destruction of life is appalling. The statistics show, however, a large measure of contributory negligence on the part of the public.—Philadelphia Record.

An Embarrassing Word.

SCIENCE & MECHANICS

An apparatus is being built in Philadelphia for a coal mining and navigation company that will pick up canal boats, lift them sixty feet into the air, and dump their contents into a storage pile, a wharf, or into the hold of another vessel.

Recent experiments have been carried out in the German Reichsanstalt to show the effect of rolling on the magnetic properties of steel. The steel was found to be magnetically more efficient at right angles to the direction of rolling than parallel to the direction of rolling. The difference was quite marked. The investigations also showed that samples of sheet steel which had been annealed underwent great changes in a period of six months. The steel appeared to have deteriorated as far as its magnetic capacity was concerned.—Scientific American.

The value of electricity for heating purposes is illustrated in a new electric glue pot which has recently been placed on the market. The economy of the device lies in the fact that the maximum amount of heat may be applied instantly when needed, while the glue may be kept warm at all times by a reduced flow of current through the heating coils. The glue pot consists of a cup in which the glue is placed, and which is set in a casing filled with water. The electric heater is attached to the pot immediately below the water. A hot-water receptacle is provided in which the brushes may be kept.—Scientific American.

Electric generators were first adapted to be coupled to reciprocating engines, and hence were designed for comparatively slow speed. When it came to coupling the generator to a turbine it was necessary to operate it at a lower speed than was economical, so as to accommodate it to the slow-speed electro-generator. Recently generators adapted for high-speed service have been designed and a special type of turbine, known as the double-flow turbine, is used to operate these generators. There are several 10,000-kilowatt two-pole machines now under construction adapted to operate at 1500 revolutions per minute.—Scientific American.

The latest measurements of the temperature of the earth's interior have been communicated to the German Geological Society. They were taken in a borehole near Czuchow in Upper Silesia and is the deepest hole in the world. It was sunk under the direct control of the Prussian State authorities and at first was intended to reach to a depth of 2500 metres, or somewhat over one and a half miles. The difficulties increased as greater depths were attained and at 7456 feet below the surface work had to be stopped, still about 900 feet short of the goal. The hole is about a foot and a half in circumference and it has been found that the temperature increases with fair regularity one degree Fahrenheit for every fifty-four feet. Incursions of water frequently interfered with the accuracy of the measurements, but at 7400 feet, the greatest depth ever reached, the temperature has been found to amount to 182 degrees Fahrenheit.

Sheep Dogs and Automobiles.

A Montana man who has been looking around in New York for a couple of sheep dogs to take back home with him had this to say about sheep dogs and automobiles:

"The hardest test for any sheep dog is rounding up a flock of sheep that has been scattered by automobile fright. I have seen them scared by every sight and sound that can strike terror to them, but I never saw anything like such a funk as a rushing, honking automobile can throw them into. It takes three times as much time, patience and skill to quiet and corral a flock that has been scattered by an automobile as from any other cause, and the crack dogs of the country have their work out out for them when they attempt to handle a bunch of auto scared sheep."—New York Sun.

Why the Judge Sympathized.

M. Barboux, the eminent French lawyer, who died recently, was well known as an after-dinner speaker and had a wonderful fund of good law-court stories. Perhaps the best of them is the conversation which M. Barboux declared that he overheard in the lobby outside the divorce court one afternoon.

"Well, how did you get on?"

"Splendidly. I got my divorce and care of the child. The Judge was on my side, you know."

"A friend of yours?"

"Well—not a friend exactly. He used to be my wife's first husband."—From M. A. P.

Misplaced Rapture.

To show Swedenborg's ideas, the preacher drew a graphic account of the supposed Swedenborgian heaven, with beautiful fields, fine horses, cows, etc. In the midst of his glowing description, one of the sisters went into raptures and shouted: "Glory, glory, glory!"

"Hold on there, sister!" said the preacher, "you're shouting over the wrong feature!"—Chicago Tribune.

CONFINED TO BED.

Ridgway, Pa., Woman Endures Terrible Suffering.

Mrs. Jacob Farr, 406 Broad street, Ridgway, Pa., says: "I suffered the worst kind of pain through my back, the kidneys were weak and I had dizzy spells. For a long time I was unable to attend to my work and was confined to bed for weeks. I doctored constantly to no avail. Doan's Kidney Pills helped me right away, and soon I was cured. I am better and stronger than in years."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

DIDN'T LIKE DARK COLORS.

Johns—I heard you tell that man to never darken your door again. Trying to marry your daughter?

Thomas—No; he's a painter and he painted my front door ebony instead of oak.

RAW ECZEMA ON HANDS

"I had eczema on my hands for ten years. I had three good doctors but none of them did any good. I then used one box of Cuticura Ointment and three bottles of Cuticura Resolvent and was completely cured. My hands were raw all over, inside and out, and the eczema was spreading all over my body and limbs. Before I had used one bottle, together with the Cuticura Ointment, my sores were nearly healed over, and by the time I had used the third bottle, I was entirely well. To any one who has any skin or blood disease I would honestly advise them to fool with nothing else, but get Cuticura and get well. My hands have never given me the least bit of trouble up to now.

"My daughter's hands this summer became perfectly raw with eczema. She could get nothing that would do them any good until she tried Cuticura. She used Cuticura Resolvent and Cuticura Ointment and in two weeks they were entirely cured. I have used Cuticura for other members of my family and it always proved successful. Mrs. M. E. Falin, Speers Ferry, Va., Oct. 19, 1909."

Seeking Comfort.

"I've got a long way to go and I'm not used to travel," said the applicant at the railway ticket office. "I want to be just as comfortable as I can, regardless of expense."

"Parlor car?"

"No. I don't care for parlor fixin's."

"Sleeper?"

"No. I want to stay awake an' watch the scenery."

"Then what do you want?"

"Well, if it wouldn't be too much trouble, I wish you'd put me up in one of these refrigerator cars I've read so much about."

119 Years Old When He Died.

Paddy Blake, who was born at Ballygireen, parish of Kilnasoolagh, county Clare, Ireland, 119 years ago, has died in the Corofin Union hospital. Paddy had a clear memory of events that happened a hundred years ago and was one of those who went to see Daniel O'Connell passing through Bunratty Pike on his way to Ennis for the great election of 1828.

Life is two-thirds bluff, law is three-fourths tyranny, piety is nine-tenths pretense. Be genuine and poor if you would die respected.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c. a bottle.

Uncouth.

"He's so uncouth."

"What's the matter?"

"He actually eats the lettuce leaf the salad rests on."

It's the experience of every man that he wants a lot he doesn't get and gets a lot he doesn't want.

If a freshman antagonizes you, tell him to go to Chicago.

WILLY WAS TOO LIBERAL

Oversupply of Alcoholic Stimulants Disturbed Schedule of Funeral Arrangements.

Dean Ramsay's memoirs contain an anecdote of an old woman of Strathspey. Just before her death she solemnly instructed her grandnephew: "Willy, I'm deein', and as ye'll hae the charge o' a' I have, mind now that as much whisky is to be used at my funeral as there was at my baptism."

Willy, having no record of the quantity consumed at the baptism, decided to give every mourner as much as he wished, with the result that the funeral procession, having to traverse ten miles to the churchyard on a short November day, arrived only at nightfall.

Then it was discovered that the mourners, halting at a wayside inn, had rested the coffin on a dyke and left it there when they resumed their journey. The corpse was a day late in arriving at the grave.

The Wrong Sort.

An old Irish peasant was one Sunday sitting in front of his cottage puffing away furiously at his pipe.

Match after match he lighted, puffing hard at the pipe the while, until at last the ground all round his feet was strewed with struck matches.

"Come in to your dinner, Patsy," at length called out his wife.

"Faith, and Oi will in a minute, Biddy," said he. "Moike Mulrooney has been a-telling me that if Oi shmoked a bit av ghlass Oi cud see the shpots on the sun. Oi don't know whether Moike's been a-fooling me or whether Oi've got hold av the wrong kind of ghlass."—Scraps.

Tetterine Conquers Poison Oak.

I enclose 50 cents in stamps for a box of Tetterine. I have poison oak on me again, and that is all that ever has cured it. Please hurry it on to
M. E. Hamlett.
Montalba, Tex., May 21, '08.

Tetterine cures Eczema, Tetter, Ring Worm, Itching Piles, Old Itching Sores, Dandruff, Chilblains and every form of Scalp and Skin Disease. Tetterine 50c.; Tetterine Soap 25c. Your druggist, or by mail from the manufacturer, The Shuptrine Co., Savannah, Ga.

With every mail order for Tetterine we give a box of Shuptrine's 10c Liver Pills free.

History Cleared Up.

The third grade was "having history." Forty youngsters were making guesses about the life and character of the Father of His Country, when the teacher propounded a question that stumped them all.

"Why did Washington cross the Delaware?"

Why, indeed? Not a child could think of anything but the answer to the famous chicken problem: "To get on the other side," and, of course, that wouldn't do. Then little Annie's hand shot into the air. Little Annie crossed the Delaware every summer herself, hence the bright idea.

"Well, Annie?"

"Because he wanted to get to Atlantic City."—Philadelphia Times.

What They Did With Them.

An American who spends much of his time in England tells of a cockney who went to a dealer in dogs and thus described what he wanted. "Hi wants a kind of dog about so 'igh an' so long. Hit's a kind of gr'y'ound, an' yet it ain't a gr'y'ound, because 'is tyle is shorter nor any o' those 'ere gr'y'ounds, an' 'is nose is shorter, an' 'e ain't so slim round the body. But still 'e's a kind o' gr'y'ound. Do you keep such dogs?" "We do not," said the dog man. "We drown 'em."

His Soft Answer.

"And this is the sort of excuse you put up for coming home two hours late for dinner and in such a condition—that you and that disreputable Augustus Jones were out hunting mushrooms, you wretch? And where, pray, are the mushrooms?"

"Eere zay are, m' dear, in m' ves' pocket; and w'ile zay ain' so many of 'em, m' dear, we had lots of fun—Gus an' I—huntin' 'em."

Wonder Why.

Said the proprietor of the big drug store with a soda fountain annex, to his white-jacketed dispenser: "Jimmy, you will have to cut out that new drink of yours; I notice that every man who comes in and tries it immediately begins to feel around for the brass rail with his foot."

Men who sit in silence are either meditating good or evil—money making for self, or making money go to benefit others.

For HEADACHE—Nicks' CAPUDINE
Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it; 10c., 25c. and 50c. at drug stores.

What's become of the hookworm fake? Gone out of Stiles? When will they get into Stiles again? Eh, Doctor Stiles?

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take. Do not gripe.

Reformation.

"You say you are a reformer?"

"Yep," replied the local boss; "at the present dye."

"But you were not always so."

"No. The reformers redressed our town last year and I want to return it back again."

The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

It Was the Other Way.

"Mr. Jones," said the senior partner in the wholesale dry goods house to the drummer who stood before him in the private office, "you have been with us for the past ten years."

"Yes, sir."

"And you ought to know the rules of the house. One of them is that no man of ours shall take a side line."

"But I have none, sir."

"But you have lately got married."

"Yes; but can you call that a side line, Mr. Jones?"

"Technically, it may not be."

"You needn't fear that having a wife is going to bring me in off a trip any sooner."

"Oh, I don't. It is the fear that having a wife at home you'll want to stay out on the road altogether!"

Why She Brought It Up.

"Do you remember," she asked, "that you said once that unless I promised to be yours the sun would cease to shine?"

"I don't remember it now, but I suppose I may have said something of the kind."

"And have you forgotten that you assured me that unless I permitted you to claim me as your own the moon would fall from her place in the heavens?"

"Oh, well, what if I did say so? Why do you want to bring that up now?"

"I merely wished to assure you that I'm sorry I didn't shut my eyes and let her fall."

A Sufficient Reason.

Alphonse had just returned from a children's party.

"O, mamma!" he cried, "we had a fine time, playing kissing games, and kissing all the girls. But nobody kissed the little girl who gave the party."

"But that wasn't very polite," said the boy's mother. "Why didn't you kiss her?"

"Oh, we couldn't, mamma. She was such a hard looker."

Consistent Mrs. Biggie.

Della—Mrs. Biggie is passionately fond of cream, isn't she?

Stella—Oh, my yes. She's such a crank on cream she's going to have her late husband cremated.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM
Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria, and the Iron builds up the system. Sold by all dealers for 35 years. Price 50 cents.

How would it do to try the experiment of going to the erring with love, instead of law? Wouldn't it be a step nearer to paradise?

For COLDS and GRIP.
Hick's CAPUDINE is the best remedy—relieves the aching and feverishness—cures the Cold and restores normal conditions. It's liquid—effects immediately. 10c., 25c. and 50c., at drug stores.

Some people need only a little hole of observation to take in all the important scandals of the age.

Young girls ought to make the most of their birthdays, for in after years they cease to have them.

The Reason Why.

One of the traveling salesmen of our town came home to spend the holidays with his family, a wife and small daughter.

Everything went lovely until the day arrived for his return to duties, when his young daughter was very reluctant about letting him go.

The conversation ran thus:

Father—Why do you care if I go away; I'm no relation of yours, am I?

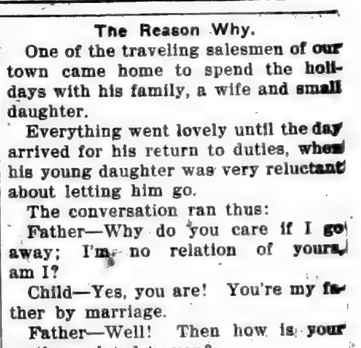
Child—Yes, you are! You're my father by marriage.

Father—Well! Then how is your mother related to you?

Child—She's my mother by bornation.—Mack's National Monthly.

It Wouldn't Stretch.

The assessor was doing the very best he could, but the farmer was shrewd and wary.



"How many acres of farming land have you?" he inquired warily.

"'Bout 20, I guess," said Reuben.

"Twenty! Why, it looks to me like nearer 120. Come, now, can't you increase that a little? There are surely more than 20 acres in that tract. Suppose you stretch that a little."

"Say, feller," said the farmer, "this ain't no rubber plantation."—Harper's Monthly.

After marrying for money many a man wishes he had been brought up to work for a living.

METALLIC HEELS AND COUNTERS

For Miners, Quarrymen, Farmers and All Men Who Do Rough Work

They save you shoe money. Will outlast the shoe. They are easy to attach. Your shoe dealer has shoes already fitted with them—if not, any cobbler can put them on.

Send for booklet that tells all about them.

The Clanton Ice Cream Parlor is now [illegible]

FOR SALE.

One of the finest bodies of land in Chilton county. Two hundred acres. Two miles west of Clanton on the Clanton and Thorsby road. One hundred and sixty acres cleared land—the balance well stocked, with firewood. Four good tenement houses in thorough repair. There is no place in the entire county so well watered as is this place. An ideal home for a thrifty farmer who wants to become rich. Fine pasturage. Will sell acreage to suit purchasers in tracts of not less than forty acres. This land must be sold. Such an opportunity will not again be presented to you. You'd better snap at this chance. For terms and further particulars call upon T. C. MARCUS.
tf

PERSONAL.

Mrs. J. F. Palmer has returned from Wetumpka, where she was called by the serious illness of her grandchild.

Mr. J. H. Arled will leave Friday morning for an extended trip through the East.

Mrs. E. Hopkins and daughter, Miss Florence, have returned from a visit to relatives in Birmingham.

LOST.

Between the Baptist Church and my residence, a K. P. pin. Finder will please return to W. W. Langley and receive reward. 2t

Mrs. W. H. Sartor and daughter, Miss Elma, went down to Montgomery to spend the day with friends last Monday.

Mrs. Stroud of Union Springs is on a visit to the family of her father, Mr. J. W. E. Gulledge.

Miss Mabel Williams of Maplesville is visiting at the home of Mrs. Elbert Littlejohn.

Mr. Gaston Scott of Montgomery let in the light of his countenance upon his Clanton friends last Tuesday.

We have money to loan on improved farm lands at reasonable rates of interest. Long time loans a specialty. For particulars address "Finance" care of the Press or call at the Press offices. tf

Miss Sophia Courtney has returned from a visit of several days to the home of her parents in Montgomery. On next Saturday Miss Courtney leaves for Norfolk, where she will spend the remainder of the heated term.

Mrs. S. M. Day and children of Birmingham are visiting at the home of her mother, Mrs. Mollie Mullins.

Mr. H. T. Pipes and children left last Thursday for an extended visit to his old home in Kentucky. Mr. Pipes anticipates a pleasant time on his vacation, and doubtless his anticipation will be fully realized.

FOR SALE.

One second-hand two and one-half horse power International gasoline engine. A bargain for some one if taken quick. Enquire at this office. tf

Don't forget that the Clanton Ice-cream Parlor serves the best quality of cream that comes to town. Try it and be convinced. The clean, cool place near the depot. Polite attention. tf.

Mrs. P. I. Hopkins and little Miss Frances left Wednesday morning for Fayette, where they will spend several weeks as the guest of Mrs. W. W. Monroe.

Miss Emmett Matthews returned last Monday from a pleasant visit of some length to her sister, Mrs. Wimberly of Reform.

Miss Rosa Thornton is visiting her sister, Mrs. Martin, down in the wire grass section of the state.

Postmaster F. O. Dudley took in the Fourth District Convention at Calera last Monday.

Mr. George R. Moore of Montevallo, one of Chilton's substantial citizens, and withall an eighteen carat Democrat, was in the city Thursday on business and paid the PRESS offices a visit which was greatly appreciated.

We serve the best soda water in town—none barred. We use only the very best fruit juices and give you the best of everything to be had. Try us and be convinced. Upchurch Drug Company. tf

Baseball goods of every description at Upchurch Drug Company. Save money by buying from us. tf

At last the Elite N. has a competitor. That prince of good fellows, Mr. J. V. Higgins, has purchased a motor cycle and every afternoon—and some other times, too—he enters town around in front of his store showing them how the thing pulls. Verily, that thing sounds like a North Dakota harvest, turned loose upon [illegible]

A new and quality line of Jewelry just received at Upchurch Drug Company. Call and inspect our line before purchasing. tf

Mr. W. W. Langley returned last week from a trip to Pensacola, where he went to investigate a purchase which for some time he has been contemplating. While there he closed a deal for the purchase of a bottling factory. Mr. W. W. Tyson was put in charge.

Mrs. S. A. Stewart and Misses Mary Will Stewart and Sallie Duncan went down to Wetumpka last week to spend some time with friends.

Mr. C. Fenn Jones spent last Thursday in Goodwater on a visit to his mother.

Buy your wife or best girl a box of Nunnally's candy—at Upchurch Drug Company's. Our customers demand Nunnally's or none. tf

Mr. Bonney Huff of Wetumpka spent Friday and Saturday in Clanton as the guest of friends.

Mr. Clark Harper went down to Montgomery last Sunday to see his best girl. He returned all smiles, so it is inferred that things went to suit Clark.

Mr. Eric Hart of the Gamble Hardware Company spent last Sunday in Wetumpka. He says there was no girl in the case, as his best lives right here.

We call attention this week to the notice of sale, printed elsewhere, of a fine body of land near Clanton. Any one contemplating the purchase of Chilton real estate had best investigate this property, as it offers a handsome return on the money invested.

See Upchurch Drug Company's new jewelry and remember in buying that they stand back of every piece of it—with the cash—should it not prove alright. tf

The Calera Bakery has an ad with the PRESS this week to which we call attention. They are sending to Clanton these days a superior article of bread. Read their advertisement in another column.

Mr. J. R. Gamble of the Gamble Hardware Company, whose headquarters are in Wetumpka, was in Clanton several days last week in the interest of his house.

Mr. S. D. Williams, one of Verbena's substantial citizens, was in Clanton Tuesday, bringing the cheering news of Democratic gains in his section.

Prof. and Mrs. D. Z. Hodges of Roanoke are on a visit to the home of Mr. and Mrs. J. C. Jones.

The many friends of Mrs. Gamma Anderson will be glad to learn that she has so far recovered as to be able to sit up. In a few days it is hoped she will be entirely recovered.

Bring us your family receipts; we will make a practice of using exactly what your receipt calls for. We use no substitutes and our prices are right. Yours for a square deal, Upchurch Drug Company. tf

Mrs. Louis Reynolds and the children, who have been on a week's visit to the old home of Mrs. Reynolds in Georgia, have returned after a most pleasant stay with her parents. A glance at Judge Reynolds' face tells the tale.

Mr. Newt Askins has been enjoying the country breezes for the past few days—and incidentally he has been enjoying other things, too. Newt's a hard worker and deserves the rest and the good time.

The many friends of our next senator, Hon. Thomas A. Curry, were delighted to greet him on the streets Tuesday after a short siege of typhoid fever. The senator says he is a little weak just yet, but in a few days he is going to get out in a campaign that will make the fur fly.

Noticed J. E. Robinson, Jr., lately? Smile? Why, it extends all the way from ear to ear, and no wonder. Fine boy down to his house. Who would not smile? We congratulate you, J. E., and hope the youngster may be as handsome as his father.

Mrs. Glennie Dennis left Wednesday for Birmingham, where she goes to spend a few days with her brother.

Miss Alee Stewart left Wednesday morning for a few days' visit to friends in Wetumpka.

Mr. J. R. Mullins went up to Birmingham Tuesday on a business trip returning in the evening.

Mr. Mack Rutin left Tuesday morning for a visit to his old home at Wetumpka. Mack has been right on to his job up in Ionia ever since the rest and recuperation which he is sure to have will bring him back with renewed vim and vigor.

HEADLEY & CO.
To Quit The Dry Goods Line.

H.ello people, we are going to quit the dry-good line just as
E.arly as possible, and to do so will begin to slaughter on and
A.fter July the First the stock we have on hand. Hence, we say
D.on't miss our sales for it will prove the opportunity of your life.
L.owest prices ever offered in Clanton will obtain here and its
E.verybody's chance to secure bargains at your own figures.
Y.ou should bear in mind the date and be ready when the time comes
& above all do not forget the place. It's HEADLEY'S place.
C.ome and inspect our excellent stock even if you do not purchase.
O.ver the prices and the quality let us talk, its to your advantage.

After we have closed out our stock of dry goods we shall cater strictly to the retail grocery trade. Come to see us. We'll treat you right and be glad to welcome

HEADLEY & CO., On The Corner.

We carry a full line of everything to Eat and Wear.

We buy Cross-ties, Shingles, Chickens, Eggs and other Produce.

A call is respectfully solicited.

J. W. MITCHELL,
Maplesville, Alabama.

Clanton Pressing Company
George Kilgore, Manager.

The place to have your clothing cleaned by skilled artists. We know the PRESSING BUSINESS from beginning to end. We guarantee satisfaction. Prices moderate. Work excellent. Work delivered promptly to any address.

Second Floor Headley Building.

Good for Dr. Higgins

We today learn that Dr. Higgins has fitted one hundred pairs of eyes with glasses since he returned from college on October Eighteenth, 1909.

The hundredth patient was Mrs. Cobb, of Jemison, Ala., who was sent to Dr. Higgins for treatment by Dr. McNeill.

We desire to ask the people if the leading physicians of your county recommend Dr. Higgins in fitting glasses, and he holds the second prize for the State of Alabama in OPTICS, won at the recent meeting of the State Optical Experts. Can you afford to buy cheap spectacles or go off to other towns to have your eyes treated with glasses?

Dr. J. V. Higgins gives personal attention to every patient. Remember the place.

Higgins' Jewelry Store,

Mr. J. T. Thompson, a prominent lumberman of Centerville, was a visitor to Clanton last Tuesday.

Major Poindexter, an old insurance man of Birmingham, is in the city on business connected with his company.

Misses Lucile and Willie Perry, of West Blocton, who have been visiting the family of Rev. F. M. Woods, left Tuesday for their home.

Mrs. D. M. Foshee, of Birmingham, spent Sunday last with her sister, Mrs. Guy Higgins.

Mr. H. B. Oliver, Verbena's merchant prince, came up to Clanton on business last Tuesday.

Mr. W. C. Davis, whose team backed off the overhead bridge in the eastern part of town last week, caused by a rushing L. & N. train, was in town Tuesday. He reports all the injured ones as having recovered except the little girl, who suffers yet as a result of the accident.

Mr. Ed Smitherman went over to Maplesville to visit his sick sister, Mrs. Foshee.

Mrs. Whitson, a talented lady of Tennessee, is here for the purpose of writing up Clanton and her people. If you want to get into the "Who" column, you had better consult with Mrs. Whitson.

Bring us your [illegible] and we will make it [illegible] what you [illegible]

GENERAL NEWS.

A Mistaken Idea.

An article taken from one of the Birmingham papers appears below. We give our readers the clipping, not because we have any idea of the success of the movement or any sympathy with it, but merely that they may see what is going on in the outside political world. The article reads:

"A conference will be held in Birmingham or Montgomery, most likely Birmingham, in the near future, to advise as to the position the followers of temperance will take on the political campaigns that are either on or will be on in the near future.

"It is stated on the best of authority that R. M. Goodall, Brooks Lawrence and other leaders in Birmingham of the temperance movement in the state are discussing the matter, and a call may be issued shortly to take up the matter.

"There is even a suggestion heard of looking to the organization of an independent party, this party to seek affiliation from both the democratic and republican ranks.

"A suggestion has been made that the nomination of governor of this independent party may be offered to Walter D. Seed, of Tuscaloosa, who some months back came out for the gubernatorial nomination, but changed this to the lieutenant-governorship, and won out by a handsome majority over Perry Thomas in the democratic primary. Mr. Seed is a strong advocate of prohibition, and in his address at Blount Springs this week asserted that the people of the state knew exactly where he stood when they voted for him in the primaries.

"What the temperance leaders are figuring on is not being given out at this time, but it is understood that they expect to show some strength with republican assistance. The belief is expressed that if an independent nomination is made the republicans might desert their own nominations. A prominent republican stated Saturday morning that such an arrangement might be made."

Now, we have every confidence in Walter D. Seed; nor do we presume to say that those gentlemen whose names are connected with the movement, if the rumor it true, are not seriously in earnest. However, we haven't the slightest idea that Mr. Seed will so much as consider any such proposition. He has accepted the democratic nomination for lieutenant-governor, having won that place by a handsome majority, and he will not repudiate his own party, which has signally honored him.

Besides all this, the prohibition race has been run in this state, and the milk-white horse was defeated. Mr. Seed, if we know him—and we think we do—has no desire to reopen a discussion which has been settled by the people of Alabama in a most emphatic manner. The voice of the people of this state has been heard; it spoke in no uncertain tones. The writer was an ardent amendment man; he fought for Mallory and against O'Neal; he worked for Seed, and was glad to see him nommated, but should he now accept the nomination suggested, this paper would devote its time, energy and space to compass his defeat.

No; Walter D. Seed is going to remain true to his party; he is going to be Alabama's lieutenant-governor; he has heard the voice of the voters of Alabama, and, like the good party man that he is, he is going to remain with his party and help fight her battles against the rule of republicanism.

The Press has no authority to speak for Mr. Seed, but knowing him as we do, we feel no hesitation in saying that he will not follow the fortunes of the new proposition.

The prohibition issue is settled—let it alone!

Same Votes.

How impressions change people! For several weeks the voting in the piano contest fell off considerably. Some one had started the report that the contest had closed. Last week we corrected this impression and put a quietus on the report. Now look at the list. See how the votes flowed in; note the changes. Even the summer race is not over, much less the piano contest. Get into the running; boost your friend! Help along. Don't become discouraged. Liven up a little and run some!

Will Give Recital.

The young ladies of the Philathea Class of the Baptist church are arranging to give a recital some time in the [illegible]. They have begun drilling [illegible] everything may be in [illegible] appointed time.

[illegible] receiver Stewart.

The stock was listed in the bill of assets at $7,500; it brought $4,550 at the sale, which was considered a first-class sale. Mr. Hohenbery, of Birmingham, was the successful bidder. He immediately resold the entire stock to Mr. Johnson, of Sylacauga, who will remove his purchase to the latter place in a few days.

Running Some.

Mr. Jim Higgins is nothing if he is not a speed artist. He has a motorcycle that dotes on covering ground, and Jim delights in satisfying the whims of his sit-down-go-some cart.

Last week he had the machine out for a trial record, and in 13 minutes he had covered 38 miles. Now that's going a little if you would think about it! The 13-minute run was made to visit his father. After having taken on a fair load of watermelons, chickens and apple pies, he returned, apples, chickens and all, in about the same time it required to make the initial trip.

But Jim says the roads were a little rough, so he did not make a claim for a road record; he prefers to wait till the roads are in better condition, after which he proposes to make that same trip in half the time.

James takes a practice run nearly every afternoon in front of his store, going some twenty-nine or four miles per practice.

As a mover Mr. Higgins has the machine.

Delightful Entertainment.

Last Friday evening, at their elegantly appointed home, Mr. and Mrs. W. M. Adams delightfully entertained a number of friends at progressive dominoes.

There were four tables and sixteen players, and right merrily did the hours go by. Misses Mary George and Maggie Figh, of Montgomery, the charming guests of Mrs. P. T. Hinkle, were the honorees of the occasion.

After several games, an elegant ice course was served.

A Sad Mission.

Last Sunday morning Mr. James Glass received a telegram announcing the death of his son's wife, which occurred suddenly in Flushing, Michigan. Many of our readers will recall with pleasure the visit of Mr. Fred Glass to his father here in the early summer. The telegram came just early enough to permit Mr. Glass to catch the early train for Michigan.

The news of the death came to this venerable old gentleman as a severe shock. To him in this, his sad hour, the sympathy of the entire community is extended. Mr. Glass says that since he is to take so long a trip, he may remain for several weeks in Michigan visiting friends and relatives.

One More.

One more machine is added to the growing list. Mr. W. A. Reynolds, of Jemison, is the proud possessor of an automobile.

The auto is built especially for country travel, having extra large wheels, which enables Mr. Reynolds to travel over rougher roads than can be done in the small-wheel machines.

Last Sunday he paid his Clanton friends and relatives a visit, having made the trip from Jemison in a remarkably short time.

Mr. Reynolds brought quite a party down with him, all of whom spent the night with Judge Reynolds, returning Monday noon.

Still Progressing.

A new brick sidewalk is being laid between the Palmer hotel and the Reynolds store. This will be a great blessing to pedestrians, as this crossway is particularly disagreeable in wet weather. Score one more for the administration.

A High Old Time.

A letter from our good friend, J. W. Smith, of Bristow, Oklahoma, brings the news that J. O. Wesson, E. H. Carroll, Henry Culver and Walter Culver are having the time of their lives. Our good friend Wesson got into a controversy with an insane hospital officer, so the latter states, but you can count on it that J. O. came out first best. The boys report everything lovely in the great west, and seem reluctant to begin the homeward journey.

We can't quote Mr. Smith's letter verbatim, because Mr. Wesson is the larger man of the two, and he'll soon be home; nevertheless, those who know J. O. Wesson best say no man ever played a prank on him that he didn't get full measure in return. So we [illegible] General Culver and Carroll [illegible] [illegible]

at one drag, besides little frogs, fish and other things.

We refrain from comment. Dr. Gowan is able to speak for himself.

Iron Ore.

Mr. Gaston Scott, of Montgomery, is in Clanton with a view to prospecting for iron ore. He and his associates are confident that Chilton soil covers the resting place of rich deposits of iron ore, and for this treasure they propose to seek. The prospecting will begin immediately, and will be vigorously pushed. The first excavations will be made at Iron Ore Hill, just east of Clanton.

As yet the business is in the embryo state. Future developments promise great results for Chilton county.

Can You Beat It?

Mr. J. F. Goodgame came to The Press offices Tuesday morning with a stalk of cotton which shows the possibilities of Chilton farmers.

This particular stalk was pulled at random from a field of over an acre. It contains 65 bolls and 135 squares, besides numerous blooms. On this particular acre Mr. Goodgame expects to gather more than a bale of lint cotton.

Can you do better? If not, why not?

A Peculiar Accident.

The friends of Mr. Joe Calloway are somewhat puzzled over a strange accident that befell this industrious young gentleman. Mr. Calloway is himself as badly in the dark as to the cause of the accident as are his friends. He says he knows absolutely nothing as to how it happened or when, and those who know Mr. Calloway do not hesitate to believe implicitly every word he says about it.

It seems that some days ago he was in Mountain Creek, and in the afternoon boarded the northbound train at Wessington, a small station just north of Jemison. He found himself in the woods with a badly bruised head, which required the services of a physician, who made six stitches to close the wound.

Whether he fell off the train, was knocked off, or how it all happened, is a mystery both to Mr. Calloway and his friends.

The Knight Case.

[illegible] VanDerveer was tried the Messrs. Knight, charged with assaulting Mr. Gilbert Gray on the Fourth of July. It will be remembered that Messrs. D. E., Albert and Walter Knight made an attack upon Mr. Gray in his home and severely cut him with knives. The first two of the Knights were apprehended and placed in jail. Walter Knight made good his escape, and has not since been captured. The two who were arrested were allowed bail in the sum of $1,000 each, which was made, and they have since been at liberty.

The trial Tuesday was a preliminary trial and to have the bond reduced. Mr. J. O. Middleton represented the defense, while Messrs. W. M. Adams and Tipton Mullins appeared for the state.

Three witnesses were examined.

The bond was fixed by Justice VanDerveer at $1,000.

AN INTERESTING LETTER FROM A FRIEND OF THE PRESS.

Duluth, Minn., Aug. 12, 1910.

Editor Press:

Your readers may be surprised to see in your paper the above heading, but I thought I would give them a little sketch of my trip from now until about October 1.

I left home July 26 and came direct to French Lick Springs, Ind., where I hoped to regain my health, caused by a long spell of la grippe last winter. I remained there till the 6th of August, when I went to Chicago to find the city crowded with visitors for the Knights Templar conclave. I reached here on the 8th to find this a rushing city of 80,000 to 100,000 population.

French Lick and West Baden Springs, Ind., are situated 85 miles northwest of Louisville, Ky., right in the hills of southwest Indiana, and, aside from the springs, which have a world-wide reputation, and are called by some the Carlsbad of America, the country might be called "Dennis" or "Mud," but I, for one, can say it is great water.

Everybody who reads, and especially the subscribers of Sears & Roebuck, does, or should, know what Chicago is. To say the least, it is a great city.

[illegible] to speak of St. Paul and Minneapolis, the twin cities of the [illegible] population [illegible] are only [illegible] called [illegible] entering it. It also has an almost hourly boat service with the eastern markets as well as foreign countries. It is said to have the only natural "breakwater" in the world. This was caused by the St. Louis river rushing from the mountains of the West and throwing its drift and dirt and sand into the lake. The action of the lake water, at high tide being the reverse, and hence the breakwater or wall, which is like a horseshoe with a bar across the heel.

Boats are fully protected from the strong seas on the big lake when once in port. It has the greatest tonnage of any inland port in the world. It is the outlet for all the grain and ore of South and North Dakota as well as part of Canada and Minnesota. It is also the Quebec of the United States, as it is built right in the side of a great mountain, and, having only six streets running parallel with the lake and in most of the town it is impossible to have cross streets, and where it is attempted the elevation is 20 feet to the hundred. The population of Duluth is mostly Swedish, Scandinavian and Welch. The city has many saloons, but very little drunkenness; more cafes and [illegible] than I ever saw before in any one city. Every one hustles and all seem jolly and good-natured.

The southern part of Canada, the Dakotas and this state (Minnesota) have poor crops, as they have had no rain scarcely since the 1st of July. Corn is almost an utter failure, wheat, oats and other grain badly damaged.

I will leave to-night for [illegible] over the great lakes [illegible] the excellent boat [illegible] where I will [illegible] a trip as three days [illegible] one way long [illegible]

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

mportation of Wild Animals

HE return of Colonel Roosevelt and party from Africa, with the cargo of animal specimens which had been killed during their invasion of the jungle, caused a New York dealer in wild beasts to talk interestingly of the business in which his firm is engaged. There are nearly a dozen firms in New York city that carry on an immense business in the transportation of animals fresh from ngle. And this number, of course, does not de such immense foreign animal firms as the backs. It is a paying business, as indeed, businesses where the demand exceeds the y. The demand for wild beasts is far greater the supply, and as a consequence prices are and the dealers men of wealth. The extent demand may be appreciated when one con- that most of the great cities in the United have zoological parks or menageries, and the animals are constantly being purchased em. Then there are private collectors and s and the like, that are ever ready to pay ghest prices for desirable animals. The ani- dealer who could secure and bring to this y three or four gorillas would make a small e. But no dealer has ever succeeded in do- his. The gorillas die in a few weeks in cap- ; they could not stand an ocean trip for a

rows of glowing green eyes and great teeth with the flash of red tongue writhing between. A zebra switched the reporter with his tail and he turned, only to jump almost out of his skin as an elephant touched him on the other shoulder with his trunk. He was hardly over his scare when, zip! a leopard reached out after his coat tail.

In one way this lower deck section was a good place to visit; the joy and relief in being able to leave it furnished the biggest and most absorbing sensations that this monotonous world has held for the reporter in the last few months at least.

Bartels & Co., are the largest dealers in wild beasts in this country.

"A large wild animal dealer," said our informant, "imports considerably more than a hundred large wild animals each year. For instance, our record for one year which I happen to have at hand, shows that we imported in that period 20 elephants, 35 camels, 30 tigers, 5 lions, 45 leopards, 20 pumas, 18 panthers and hundreds of birds and monkeys and small things. Cubs—lion and tiger and bear cubs—are in special demand by wealthy families. They are reared and petted like kittens, but in the end they outgrow their playfulness and the families who bought them from us are only too willing to pay us to come and take them away when they attain any sort of growth. We have received many orders for hippopotami, but the beasts are hard to capture and ninety-nine times out of a hundred they do not live through the voyage. In fact, menageries throughout the country have to depend of late years upon the progeny of the hippopotami in Central Park, New York, for specimens.

"Like all animal dealers, we maintain expert animal catchers in all parts of the world, and it is these men who fill the ships which arrive here.

The Hagenbecks have two collecting stations, one in Calcutta and the other in Aden, Arabia. From this point the animal catchers go forth and spend months in the wilds, returning to the stations with their catch. We ourselves send catchers direct from this country—at present we have men in South America, on the hot sands of Africa, in the Himalayas, and elsewhere, filling our orders. One of them was recently in Arabia on a camel hunt, two are now in the East Indies trapping tigers, and so they are spread about in places where wild beasts abide.

"Sometimes we receive an order for a large number of elephants. We telegraph this order to our catchers in the elephant country, who, after organizing the native into a hunting band, proceed to collect the desired number. A huge inclosure is built in one of the main elephant paths, and at night when the big animals come to feed they are driven into the inclosure of kraddah by means of fires and shouts and the firing of guns. Beaters on tame elephants then ride into the inclosure and rope the beasts, and in a short time they become accustomed to being led about. Elephants are naturally mild, and were this not the case they never could be captured, because of their great, lurking strength.

"The natives also capture elephants in pits. A elephant's great mother-in-which more than 50 per cent. are killed by the fall. The animal catchers take them and feed [illegible] dig a hole, [illegible] mouth [illegible] stakes [illegible] stable from [illegible] apply it. [illegible] down into the [illegible]

traps just as mice are caught, and monkeys are also trapped. Such great beasts as the rhinoceros and the like are not captured by the animal men, but are secured from native potentates, who give them away as a mark of special esteem or barter them for brass and other trifling but showy gewgaws.

"We take comparatively few lions from the wilds now. It is cheaper to buy them in captivity. Polar, grizzly and Russian bears also are mainly bought and sold in captivity; but other wild beasts are taken in their lairs."

FOOD IN LONDON IS CHEAPER.

"For many years," said a man who came back from a European tour the other day, according to an exchange, "I have been in the habit of getting into an argument with friends after my return about the prices of food in the best restaurants in New York and London. I have been contending that New York restaurants were putting up their prices all the time and some of my friends have tried to convince me that you could get a meal cheaper at the higher priced restaurants in New York than in London.

"I determined this time to collect some real data for comparison and as a result I have kept the bills of many meals I had in London. It is my intention to duplicate the meals I had over there at some of the restaurants here, item for item. I did this with one of them the other day and demonstrated that for such a meal London is a lot cheaper than New York.

"Here is the bill for a luncheon I had at one of the most expensive hotels in London:

	s.	d.
Hors d'oeuvres varies	0	9
Pilaffe of sweetbreads	2	0
Asparagus	2	0
Cheese (Neufchatel)	0	6
Coffee	0	6
Beer	1	0
Totals	6	9

"Now, six shillings ninepence at $4.885 to the pound is $1.65. As for the dishes themselves they could not have been surpassed anywhere. For the hors d'oeuvres I had a dozen different dishes to select from.

"Did you ever find hors d'oeuvres varies on the bill of fare of a New York restaurant? Try it. Of course you may get them at a table d'hote, but I mean on the carte du jour of a restaurant where you pay separately for each thing you eat.

"In Paris there is a restaurant in the Avenue de l'Opera, where you can have about twenty different varieties of little fish and cold salads and appetizers for about 15 or 16 cents. It took me a long time to find this in a first-class house here, and then when I did so it was in a restaurant which is not usually considered among the most expensive in the city. Here hors d'oeuvres varies masqueraded under the title of 'buffet russe.' They charged me 50 cents for it, as against the 18 charged in the London restaurant.

"My pilaffe of sweetbreads tasted exactly like that I had in London and cost exactly the same, 50 cents. I ordered some asparagus. On the bill of fare they had asparagus with Hollandaise sauce for 40 cents, but I wanted it cold, with French dressing. They did not tell me it would be any more, but for it they charged me 70 cents. For the Neufchatel cheese they charged 20 cents and for the coffee 15. The robbery came on the beer.

"In London if you want a little pitcher of beer they serve you an excellent brew of Pilsener or Wurzburger in a little sealed vessel holding a pint for a shilling. I asked the waiter to bring me a small pitcher of beer on draught, knowing they did not serve the beer as in London. He brought me a pitcher and charged me 70 cents for it.

"Now my bill came to $2.65, or exactly $1 more than the same food and drink had cost me in London. I gave the New York waiter a quarter and he scarcely nodded. I gave the London waiter sixpence and he thanked me so that I could hear him."

COMPETITION PREVENTS.

"The relation of cause [illegible] in the business" said Thomas Hamlet, [illegible] in Manchester.

Clanton High School,

CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin on Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure first grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

Many Farmers

would like to keep an account of their receipts and expenditures if some one would keep it for them.

WHY

Open a Bank Account with the People's Savings Bank and you will find the account keeps itself, with no expense.

NOT

Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts. Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It's a handy convenience to the farmer as well as the business man.

YOU!

About twelve acres of rich level land within two miles of Court House at Clanton. Perfectly adapted to truck farming or dairy purposes. For information address "REAL ESTATE," care Clanton Press. tf.

DESPISES DIXIE! NUF SED.

We clip the following telegraphic dispatch from the Advertiser of last Sunday, which fully explains itself. It also fully explains our contention that REPUBLICANISM cannot and will not flourish in the South.

When Southern men begin to realize what REPUBLICANISM really means and what it actually stands for they will refuse to support that party.

But to the clipping; read it for yourselves and see what it means to Southern white men who love their homes and the principles for which their fathers fought back in the sixties:

"Seattle, Aug. 13.—Senator W. B. Heyburn, of Idaho, dislikes 'Dixie.'

"He created a sensation at a reception given to Congressman T. R. Hamer at Wallace, Idaho, last night by stopping the orchestra while the musicians were playing the popular strains. Colonel Hamer had just finished his address, and the orchestra had started a medley of well-known airs.

"About the sixth number in the medley was 'Dixie.' The Senator leaped to his feet, strode across to the musicians and cried out, 'This is a Republican meeting. We want no such tunes here.'

"The amazed musicians stopped immediately. The Senator strode back to his seat. After a moment of silence Mayor Hanson arose and closed the meeting."

THIS IS CHILTON'S FIRST REPUBLICAN TICKET.

Much has been said in recent months about the REPUBLICAN party in Chilton county and the men who are supporting that party. Has it ever occurred to you to take a bird's eye view of the political past?

There has never before been a REPUBLICAN party in Chilton county; there has never before been a Republican ticket in Chilton county.

The present REPUBLICAN candidate for Probate Judge has heretofore run for office, but never before upon the REPUBLICAN ticket; he has always claimed to be the PEOPLE'S candidate; he has never avowed himself as the candidate of the REPUBLICAN party.

He has all along sought the votes of the "dear P-E-E-P-L-E" on the ground that he was a PEOPLE'S party candidate; he started out as a "JEFFERSONIAN" Democrat, secured office on that claim and then went a little further and claimed to be a P-E-E-P-L-E'S party man; when that party disbanded he went hog and hominy into the REPUBLICAN party and has been trying to drag every one of his followers into the same party. While there was a PEOPLE'S party in existence it was well enough for men to talk about voting that ticket, but when that party went out of business we believe that a majority of those men begun to realize that an attempt was being made to lead them into the camp of their old enemy and that they will resent it by voting the ticket of their fathers—the Democratic ticket.

There may have been a time when one man could deliver a ward, a precinct or even a county as he saw fit, but those times aer long past; no man is now so great a BOSS that he can trade his fellow man from one party to another just to suit his own peculiar whims and desires. Men are coming to a realization that they no longer need BOSSES to control them or to drive them from place to place; they are thinking and acting for themselves in these good days, and will refuse to be carried into the party which for more than half a century has been the party of hatred toward the South, the party that has elevated the servant over the master, the party that protects the rich at the expense of the poor, the party whose leaders are composed entirely of officeholders.

We cannot believe that any man can trade such men from party to party merely because he desires office, whether that office be obtained from this or that or the other party.

THIS year is the FIRST year that any STRAIGHT REPUBLICAN TICKET has ever been nominated in CHILTON COUNTY, and we are inclined to believe that most of our voters will refuse to go into that party—the party of HIGH TARIFFS, the party of GRAFT, the party of the MONEY BARONS—the party which all along has fought every attempt on the part of the Southern white man to better his condition and to establish a government of the white man for the white man and by the white man.

We are not ready to believe that any man can lead our Southern white men into the REPUBLICAN party. They are doing their own thinking this year, and they will REFUSE TO BE LED LIKE SHEEP by any so-called shepherd; they will resent any attempt to trade them off as if they were cattle.

The people—the PLAIN PEOPLE—are going to have a say so as to where they shall go and for whom they shall vote.

WHO SAID PIE!

The Press seems to recall a little article that appeared in the local papers some weeks ago, in which a certain gentleman stated that there were certain men in the Republican (or so-called Republican party) who were hanging on merely for the "few loaves and fishes" that they hoped to receive. That is not the exact expression, but that is what it meant.

Now, we have no desire to take issue with the gentleman who made those remarks, for we believe from the very botton of our heart that he was telling more truth than he is now ready to admit, but since we have come to look at it right straight in the eye it does look something like somebody was after PIE, and that he got ALL the PIE he was looking for.

Fact is he didn't leave the other fellows even a smell from the table cloth. FISHES and LOAVES! Great Scott, and other ancient and modern heroes and heroines, but didn't they take in the PIE and the FISHES and LOAVES to perfection!

Looks like they would have given the other fellows a committeeman or something; a commissioner or committeeman or some little place, but then you know when a fellow gets to eatin PIE and FISHES and LOAVES he is very much like the little fellow who when asked by his companion for the core—just the core—of an apple he was eating, replied, "There ain't going to be no core!"

Looks like there wasn't going to be—and there really wasn't—any offices left for the other fellow; they took apple, core and all to suit their own appetite—YES, they took COMMITTEEMEN, COMMISSIONERS, PROBATE JUDGE and ALL; core, peeling, apple and ALL; PIE, FISHES, LOAVES and ALL. Don't know how they did it, but they did it just the same.

WHO said PIE anyway? WHAT makes folks talk about BOSSES and KINGS?

Want some PIE, buddy? Now do you really?

Well, we're sorry, but the Big Boss wants all the pie for "hisself."

Be good, sonny, and vote right in November and maybe the "Big Injun Heap' Much" will let you see him eat PIE; you mustn't ask for any though, 'cause he wants it all for his folks.

One little fellow like to have made off with a piece of PIE but the KING PIN caught him before he got a chance to taste it and took it away from him.

Hello, fellows! You all want some PIE? Go ask the MAIN GUY. If he'd got any left he might—let you see HIM eat it!

That was a good joke one of the candidates for Governor played, but the FISH showed up all right and the ones [illegible]

HIS NIBS had a good appetite; he sho' do love PIE, and as for FISHES and LOAVES, why he just dotes on FISHES and LOAVES; His NIBS do!

Got a nibble, Mr. Candidate? Yes, sir, but that BIG UN come along and made me quit fishin' in HIS pond!

You children be good and play like nice little boys; walk up and vote like "WEUN" tell you in November, and maybe—maybe now, just m-a-y-be, you'll get a L-E-E-T-L-E minnow next fall; the BOSS man may have a little bridge he wants fixed somewhere in his domain and he may—may let you fix it—but you mustn't ask for no pie; he wants PIE for his folks.

Committeemen, Commissioners, Sheriff, Legislature, Clerk, Judge, ME, the great; LOUIE, the STEENTH. Who mentioned PIE?

What were YOU trying to get to the PIE counter for? Didn't you know that you were a skunk and a traitor and couldn't eat with the King Bee?

Didn't he—the BOSS—overlook anything? Seems to us there were some crumbs, or ought to have been; did HE get them, TOO?

Once upon a time a little skunk-traitor fellow dug him some "fishing worms" and went out with a nice line and a pretty pole to catch some fishes; he had a nice basket of PIE along for lunch, and just as the fish begun to bite a GREAT BIG FELLOW came along and took the pole and line, eat up the pie and kicked the little skunk-traitor off the lot and told him not to fish in HIS pond any more. SEE?

There was another fellow who had caught some fishes, and that same BIG FELLOW caught him and took his fishes away; he shouldn't oughter have done that little fellow that way, but HE DID!

Little boys—especially little skunks and traitor boys—ought to get permission before they go fishing in the KING'S fish pond. He wants those fishes for himself and HIS friends. No skung-traitor boy need apply.

Somebody said he was going to get all the coons up one tree, and he did. Sho' DID!

Somebody said he was going to stop fishing on HIS land, and HE DID. Sho' DID.

Somebody loves PIE—Sho' DO.

Somebody's got friends who love PIE—Certainly DO!

Wish we had some PIE. Surely DO!

Mister, can we go fishin' on YOUR place? Please sir!

I'm hungry, mister, won't you give me a leetle piece of PIE, you've got heaps of it? Please sir!

Can't we stand around and see YOUNS eat your PIE, mister?

Isn't we-uns entitled to the CRUST, Mister KING? YOUNS has got the PIE.

We have got some worms, but if you won't let us fish on your place then we'll have to throw them worms away. Please sir, can't we fish on YOUR place just a little bit?

We didn't know you had POSTED YOUR place, mister, till last week. Can't we go feeshing jest one little time?

The Main Guy cut that PIE so it went around just right.

HIS NIBS is on to his job when it comes to handing out the FISHES and LOAVES.

The King PIN can't be beat when it comes to a rush for the PIE counter.

The last LOUIE in history died, or was executed, some time in the nineteenth century. That was a long time ago. But KING LOUIE the Steenth has arove.

It was pitiful to see those skunk-traitor fellows trying to edge up to the King's PIE counter!

LOUIE, the French monarch, is dead! Long live Louie, the American King. Hurrah for the KING; he knows pie when he sees it.

Diamond Edge.

We are glad to advise the trade that we have added to our stock of "K Kutter" goods the "DIAMOND EDGE" line which gives us the most comp stock of tools, knives, razors and table cutlery to be found in the country.

We are glad to see Mr. Olaf Schive out again after a severe sickness.

Mr. Irby Morgan of Birmingham spent Saturday and Sunday with his folks here.

The young people of Thorsby had a very unique as well as interesting time in the form of a watermelon party last Monday evening. Plenty of watermelons were supplied for the occasion, and games as well as contests kept the young people in continuous merriment.

Mr. and Mrs. T. Lefstadt of Birmingham made a short visit with Mr. Lefstadt's parents Sunday. Mr. Lefstadt, who is a mail clerk on the A. G. and S. R. R., has just recovered from sever injuries sustained in the recent wreck on that road. We all rejoice in his narrow escape, and hope he will soon be fully recovered.

The farmers in and about the vicinity will soon commence to cut their corn and fill their silos. The weather is also very favorable and the pospects are fine for a good harvest.

PERSONAL.

Messrs. J. O. Wesson, E. H. Carroll, Henry and Walter Culver returned Monday afternoon from an extended trip to Colorado, Oklahoma and other Western states. The Press had just received a long letter from its friend, J. W. Smith of Bristow, Ok., telling of some of the antics of these travelers, when, lo they appear upon the scene, hence we can not publish the letter. J. O. Wesson might make it too hot for the Press man if he told about that officer, and so we are going to keep mum.

We call attention to the ad. of Messrs. Mackey & Son, which appears in another column. This enterprising firm has many bargains to offer those who are seeking to make their money go a long way. Read their announcement elsewhere.

MOUNTAIN CREEK.

For the last week Mountain Creek has been quite a lively place. The new Inn is filled with summer visitors enjoying the mountain air.

Miss Eva Chestnutt, of Marbury, entertained quite a number of her friends Thursday evening. Those who attended from Mountain Creek were the Misses Henderson and Miss Roberta Walker.

The young ladies of the Philathea Class, Baptist Sunday school, gave a tacky party at the residence of Mr. and Mrs. Thornton for the benefit of the building fund of the church. Quite a nice sum was realized.

Last Saturday Mountain Creek threw open her doors to the Red Men of this section. Quite a crowd was here. Conservative estimates place the number at not less than a thousand. It was a gala day with the fraternity men, and right merrily did the hours go by. The dinner, we understand, was excellent and the crowd good-natured.

The Ladies' Aid Society of the Baptist church will serve ice cream and cake in the grove near the church Thursday, August 18, for the benefit of the building fund of the church.

Mr. J. D. Sims went up to Clanton Monday on a business trip.

VERBENA.

Quite a number of our young people attended the tacky party at Mountain Creek last Friday night.

On last Saturday evening a dance was given at the hotel, which was greatly enjoyed by the society young people. Several of Clanton's society set were present.

Miss Dudley, of Montgomery, was a pleasant visitor in the home of her cousin, Mrs. W. A. Gulledge, several days last week.

Rev. O. P. Bentley, of East Lake, who is to assist in the revival at the Baptist church, came down Monday.

Mrs. Will Caffee, of Atlanta, is here on a visit to the family of Dr. H. W. Caffee.

Miss Helen Reeves has as her guests two charming young ladies of Columbus, Ga.

Mr. D. S. Browder, of Montgomery, spent Sunday with friends here.

Mr. W. H. Strock spent several days of last week at Talladega.

Mr. S. E. Johnson, of Clanton, was the guest of relatives a few days last week.

It seems that King Cotton has stopped aside in favor of Mr. Watermelon, as three carloads have already been shipped from here.

—BALTIMORE.

built on the farm and also on the lot where L. M. Tidwell's house burned recently. Mr. Tidwell will reside in the latter house. We wish more of our property owners would erect houses here; we need more residences, and they bring good rent.

Mr. Howard Mitchell, of Brent, is here visiting relatives and friends.

Mr. Clyde Coburn has purchased the lot adjoining P. D. Williams, and will build immediately.

Mr. C. P. Jeffcoat has already placed an order for building material for the erection of a home here.

There are three cases of typhoid fever in the family of Mr. Bearden. Dr. Potts seems rather anxious about the other members of the family. As a precautionary measure he has sent his wife, who lives next door, on a visit to her mother.

Quite a crowd of our people went to Randolph last Saturday to the barbecue. The train was so crowded in the morning that some had to wait for the noon train.

Messrs. Doon Roper and Alma Jones, of Clanton, came over Thursday to attend the ice cream supper given by the ladies of the Methodist church.

We had a nice rain last week, which is making vegetation look nice and green.

The Methodist ladies cleared $43 on their ice cream festival.

Mr. B. L. Davenport is here figuring with Mr. Marshall on the buildings which he contemplates erecting.

Mrs. Crum has visitors at her home this week.

The colored Methodist people are now conducting a revival under a brush arbor. They expect some of their ablest preachers here.

Mr. and Mrs. Lester Parnell were made happy by the arrival of a bouncing baby girl at their home.

We learn that Mr. R. H. Martin, whose family are now in Montgomery, had the misfortune to lost his home by fire last Tuesday. On the same day a fire was discovered here, but the flames were checked before much damage was done, and on the same day Dr. Nix had one of his farm houses destroyed by fire.

A young lady visitor in the Whitset home had the misfortune last week to have her arm broken by being thrown from a horse.

The mother of Mrs. Lester Parnell is here assisting in nursing the sick ones at her home.

Mr. Rhone has gone to St. Louis on business.

There are quite a number of traveling horse traders coming into town these days, so we guess Bud Adams, Hill Foshee and Tom Glass, who are our brag horse traders, will have some fun for the next few days.

J. W. M.

PROGRAM OF CLANTON S. S. DISTRICT CONVENTION,

To Be Held With Samaria Baptist Church (One and One-half Miles South of Clanton), First Sunday in September.

10 a. m.—Devotional exercises, led by H. C. Young.

10:15 a. m.—Welcome address, E. B. Calloway.

10:25 a. m.—Report of district president.

10:45 a. m.—The Importance of Parents in the Sunday School, Miss Nelia Johnson.

11:05 a. m.—Sermon, Rev. A. L. Foshee.

Noon—Dinner.

1:15—Song service, Z. Lowrey.

1:25—The Benefits of S. S. Conventions—E. L. Thornton.

1:45—Report of World's S. S. Convention—Miss Mary C. Gibson.

2:15—Temperance recitation, "The Two Glasses," Miss Gracy Williams.

2:25—The Evils of All-Day Singing, J. P. Parrish.

2:45—Oh, Why Should the Spirit of Mortal Be Proud?—Miss Phalabelle Roper.

3—Leading the Class to Christ, J. B. Sessions.

3:25—Electing officers, selecting place of next convention and other business.

Every Sunday school in this district is requested to send delegates.

Let us come together and serve the Lord.

W. J. HALLOWAY,
President.

J. HARVEY WILLIAMS, Sec.
tf

Against a Direct Cause.

The bacteriologists Albrecht & Ulpiani say typhoid fever in Trinidad is due to the water supply. Yellow fever, they say, is not due to any direct cause.

It is stated that the engineer in charge of the Panama canal work is opposed to the building of a sea level canal.

FOR SALE.

One of the finest bodies of land in Chilton county. Two hundred acres. Two miles west of Clanton on the Clanton and Thorsby road. One hundred and sixty acres cleared land—the balance well stocked, with firewood. Four good tenement houses in thorough repair. There is no place in the entire county so well watered as is this place. An ideal home for a thrifty farmer who wants to become rich. Fine pasturage. Will sell acreage to suit purchasers in tracts of not less than forty acres. This land must be sold. Such an opportunity will not again be presented to you. You'd better snap at this chance. For terms and further particulars call upon T. C. MARCUS.
tf

PERSONAL.

Mr. Grady Reynolds went down to Montgomery Tuesday to a meeting of the creditors of the bankrupt firm of C. W. Reynolds.

The Clanton Red Men, in full regalia, attended the barbecue given by the Mountain Creek Tribe, and returned reporting a most excellent day.

Mr. and Mrs. M. C. Palmer, of Sulphur Springs, Tex., old Children residents, are in Clanton on a visit to Mrs. O. E. Latham, a sister, and Mr. Frank Palmer, a brother. This is Mr. Palmer's first visit to Chilton in seventeen years, and he finds many improvements.

Mr. F. B. Tichenor, who for some years edited the Dadeville Courier, but who has been "recessing" at Clanton for the past month or more, goes to Montevallo, where he is to edit the Montevallo Review, a newspaper to be established there. We extend to our brother craftsman a hearty welcome into the field again.

Mrs. O. E. Latham has been confined to her bed with fever for the past few days. However, her friends will be glad to learn that she is steadily improving.

Mr. Frank Lawrence, of Greenwood, Miss., was in Clanton last Tuesday on a visit to friends. He left in the afternoon for his old home at Maplesville.

The Clanton Millinery Company are now receiving a nice line of fall millinery.

The following marriage licenses have been issued this week:

Mr. Fred Lowrey and Miss Willie May Shelby.

Mr. Royal Johnson and Miss Cynthia Moore.

Mr. A. E. Williams and Miss Loucila Popwell.

Mr. C. C. Swint and Miss Essie Cooper.

Child's Body Turned to Stone.

New York.—The Brooklyn police have an unusual mystery on their hands as a result of the finding in that borough in a tenement house coal bin of a child's body turned to stone. According to physicians, the body had lain undiscovered for several years. A yellowed newspaper, wrapped around the body, bore the date of February 21, 1903. The police believe that the body was treated with some chemical which petrified it. There is no clue to the identity of the child or to the slayer.

Alabama Militiamen to Aid Madriz.

Mobile, Ala.—Forty Mobile militiamen, members of the Alabama National Guard, have agreed to join General Madriz in Nicaragua to aid in protecting the government against the revolutionary forces of General Estrada. John S. Hensch, a lieutenant, and George L. Mountain, a captain, made terms with the local Nicaraguan consul, by which they were promised arms, ammunition and equipment; free passage to and from Nicaragua, and $10 a day for their services as officers of the Nicaraguan army.

Record at Paper Making.

John H. Gately, a Lee papermaker, has succeeded in making a world record on the number of pounds and also number of feet of paper run on a machine.

The run was 36 inch trimmed rolls. One machine made 115,570 pounds and the other 123,930 pounds in a twenty-four hour run. The previous record was 124,300. This was made May 31, and on June 1 a like total was made on the two machines and the record maintained throughout the week.—Lee correspondence Springfield Republican.

Suicide is called the unpardonable sin, and that statement is not the only one. One of the worst things about it is the curse it puts upon the family of the suicide. It is a declaration to the world, usually a truthful declaration, that the relatives of the self-murderer have not done their part—that they are in some way accessory, by indifference or maltreatment, to the suicide. Even the world will see the truth in these cases, but where there is any doubt it will not go to the extreme of condemning the family.

The Calera Bakery

Desires to announce to the good people of Clanton that Mr. J. E. Evans is agent for our breads and cakes. He receives a fresh shipment daily.

Our goods are the equal of those found anywhere on earth. The bread is light and wholesome. The cakes are pure and delicious.

Call upon Mr. Evans when in need of Pure Bakery Goods.

Yours truly,

CALERA BAKERY.

Just Received

FREE Send postal for Free Package of Paxtine.
Better and more economical than liquid antiseptics FOR ALL TOILET USES.

PAXTINE
TOILET ANTISEPTIC

Gives one a sweet breath; clean, white, germ-free teeth—antiseptically clean mouth and throat—purifies the breath after smoking—dispels all disagreeable perspiration and body odors—much appreciated by dainty women. A quick remedy for sore eyes and catarrh.

A little Paxtine powder dissolved in a glass of hot water makes a delightful antiseptic solution, possessing extraordinary cleansing, germicidal and healing power, and absolutely harmless. Try a Sample. 50c. a large box at druggists or by mail.

THE PAXTON TOILET CO., Boston, Mass.

A woman tells her troubles to a doctor; a man tells his to a lawyer.

For HEADACHE—Hicks' CAPUDINE Whether, from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at drug stores.

Doll House Library.

A search for a child's short story, "The Griffin and the Minor Canon," in a volume all by itself revealed to a persistent city shopper the thought and money that are expended on the furnishing of dolls' houses. Book stores had not the story in a single volume, but in a department store one young woman interviewed had recently been transferred from the toy department and was able to contribute a helpful hint.

"I think," she said, "you can find it in one of the dolls' houses downstairs."

Curiosity had by that time become a sauce to literature, so the shopper hurried downstairs to inspect the doll houses. Three of the most expensive houses contained libraries consisting of a score of diminutive books and each book contained a child's story complete. One of them was "The Griffin and the Minor Canon."

And They Wondered!

Judge Nicholas Longworth, who used to sit on Ohio's supreme bench, looked unnaturally grave, and a neighbor, in recognition of his facial depression, named a pet owl "Judge Longworth." It was the very next day that an excited maid broke up his wife's garden party. "Oh, madam," said she. "Madam! Judge Longworth has laid an egg."

A Treasure.

"Your new maid looks very discreet."

"Indeed, she is. She even knocks at all the drawers before opening them."—Pele Mele.

Summer Comfort

There's solid satisfaction and delightful refreshment in a glass of

Iced Postum

Served with Sugar and a little Lemon.

Postum contains the natural food elements of field grains and is really a food drink that relieves fatigue and quenches the thirst.

For Hot Weather

When the sun strengthens and blazes in the sky and heat becomes a factor to reckon with in dress, and everything else, millinery must be cool looking or it will fail to be attractive. All white or combinations of white with black, give us the crispest and best effects for the dog days. But white set off with a bit of scarlet, deft blue or leaf green is smart and effective also, and may be chosen instead of white with black.

Black for day time wear is not cool looking except when made of the thinnest fabrics, like lace and net. The big black hats of hair braid or pyroxyline are lacy in texture and the admiration and the darling of the summer girl's heart. This season they belong to the "mystery" class; those hats that come down over the head, veiling the eyes and showing the profile from one side only. The corday hats of net and lace or those made on the "helmet" shapes have captivated as many as the big drooping picture hats.

A lovely hat for the hot weather is shown here made of dead white chip, overlaid with black chantilly lace. A grouping of four immense roses in tulle and silk is mounted across the front, they are almost colorless with a blush of pale pink at the edges of some of the petals. The effect is of millinery as light as air.

A pretty sailor for practical wear is trimmed with white wings and a coronet of plaited ribbon across the front. The shape is a Milan in the natural pale yellow of the finished hat. All the trimming is pure white and a crisp satin faced ribbon is chosen for making the plaiting.

A floating washable lace veil is the thing generally worn with these sailors.

CHARMING LINGERIE GOWN

Exceedingly Pretty Dress Eminently Suitable for Garden Party or River Wear.

A very charming lingerie gown has a smartly cut skirt tucked flounce, upon which appears a row of vandyked insertion, the insertion being continued at the top of the flounce in the same form, and appearing at intervals upon the skirt, the center im-

mediately below the knee being beautifully embroidered. The bodice has a collar of valenciennes lace, insertions of which appear in dainty design upon the bodice and upon the long sleeves and waist belt, the center of the bodice being embroidered to match the skirt. This is an exceedingly pretty and useful model, and is eminently suitable for garden party or river wear. This model is the one illustrated above.

Effective Sofa Pillows.

An effective and easily made sofa pillow for a summer home is made in oblong shape, 14 by 26 inches.

The pillow is covered with plain heavy white crash in oval or gray. Two clusters from each end are made of flowery cretonne, three flowers with a spray of leaves in each cluster. These clusters are placed on both sides of the pillow, the flowers being directly in the center of the pillow and the leaves extending toward the ends. Each flower is outlined with heavy white cord, and the leaves are outlined with heavy green cord. The pillow is finished with a heavy white cord.

ART IN WEARING OF SASH

Height and Breadth Can Be Increased or Toned Down by Draping of Sash.

There is a great deal of art in the wearing of a sash. One can increase one's height or one's breadth, adorn a plain gown, tone down an elaborate one, give a touch of distinction to one's whole appearance, simply by the way in which the sash is draped and adjusted.

Try wearing the sash in shawl style over the shoulders, caught by a stitch in back and tucked under the girdle, to fall in diagonal lengths to just above the ankles.

Or wind it twice around the waist, like a girdle; cross it in front and fasten with a knot at the sides of the skirt below the knees.

Then there is the Scotch tartan effect, especially attractive with a plaid scarf, where there is a broad band over the left shoulder, a narrow draped one over the back and the right, and a knot at the waist on the left side, so that the sash falls in a broad width almost to the bottom of the frock.

The adjustment of the sash may well have reference to the concealment of some defect in the garment it covers—a tiny tear, perhaps, or an ineradicable stain. It should emphasize the good points of the figure and hide the bad. That is why the old fashion of the stiff bow at the back was so bad; it made every woman look stout.

Give a little thought to the draping of your sash, and half your battle for beauty of appearance is won.

The Dainty Negligee.

Dainty negligees appeal to most women and when these pretty garments can be made at home without much trouble they are especially interesting. In one model seen recently the material was fine white cross bar dimity and might have been cut by a simple long kimono pattern. The neck was finished with a large flowy collar of batiste lawn and valenciennes insertion, and the large flowing sleeves were in the same lingerie effect. Both sleeves and collar were edged with a two inch frill. A casing at the knee was sewed on the gown at about waist length and was threaded with pink ribbon which tied in the front at the ends of the long collar.

Tulle Bows.

A charming adjustment on a pink and gray dress was a large bow of tulle, made of a double piece of tulle, each piece of which was cut in a point at the end. The bow was tied in the middle, and the points were allowed to fall over the skirt.

LARGE COTTON CROP IS NEEDED BY MILLS

Manufacturers Say Big Crop Would Not Lower Price.

MILLS ARE FORCED TO CURTAIL

A Good Supply of Raw Cotton This Year Would Go Far Toward Equalizing the Cost of Raw Material.

New Orleans.—While the high price of cotton this season, due to the actual scarcity of that staple, has been a boon to Southern producers, whose yield was so materially curtailed by the combination of unfavorable weather and insect damages during the last growing season, it has been something of a blow to the cotton manufacturing industry. While the price of cotton cloth has advanced materially, it has hardly kept pace with the rise in the raw material, and, even if it had, the supply of raw material available would not have permitted the operation of all the mills on full time.

While curtailment has been noticeable all over the world, it has been more marked among American mills than elsewhere. Establishments, both North and South, have been forced to curtail production, some stopping but a few days a week, others running alternate weeks, and still others closing down altogether, leaving the number of mills running full time reduced to comparatively moderate proportions. Mills have remained running at least on short time wherever possible, owing to the loss that entire stoppage entails, as fixed charges go on whether the plant be run or not, and when idle there is no source of income wherewith to meet the charges.

As a result of short time and curtailment among American mills many operatives have been thrown out of employment. In the big manufacturing centers of New England this condition of things is beginning to be severely felt, and in many portions of the South labor is also suffering. The only prospect of relief lies in the hope of a good cotton crop this season. A good supply of raw cotton would do a good deal toward equalizing the cost of the raw material and the manufactured product and enable the mills to resume full time.

A large crop, on the other hand, holds out not the smallest prospect of what might be called low prices, as with the re-establishment of anything like a reasonable parity between raw cotton and manufactured cloths the demand from the mills for cotton would readily absorb the largest yield that the South could possibly produce. It would take a succesion of big crops ot bring prices down to anywhere near a basis that would be unprofitable to the producers, hence the latter have nothing to fear but a crop failure, which, while it might bring big profits to a few, would be disastrous to the great majority.

ALDRICH WRITES CARD.

Rhode Island Senator Defends the Tariff Bill.

Washington.—Senator Nelson W. Aldrich of Rhode Island, enumerating the counts under which he was indicted by Senator Joseph L. Bristow of Kansas, in recent campaign speeches, dealing with the tariff on rubber, in a letter made public, denies all the charges in their entirety.

Incidentally he pays his respects in caustic language to Senator Bristow and what he terms "a little group of men" which entertain opinions similar to those of the Kansan.

The letter is addressed to Hon. William B. McKinley of Illinois, chairman of the Republican congressional committee, and was sent to the headquarters of the committee in this city.

Referring to the charges made by Senator Bristow as "absurd misstatements," Senator Aldrich said the persistent reiteration of them impelled him to make a full statement. At the outset of his long letter the senator divided the speeches by Mr. Bristow into five parts, each of which contained a specific charge. He then dealth with them in order.

German Warships for Turkey.

Wilhelmshafen, Germany.—The old German battleships Weissenburg and Kurfuerst, Friederich Wilhelm, were delivered to the Turkish navy and sailed for Constantinople.

Indian Chief Dead.

Peru, Indiana.—Gabriel Godfrey, the chief of the Miami Indian tribe, died at his home here after a few hours' illness of heart trouble. Chief Godfrey was 69 years old and had been married three times. He was the father of 16 children.

Killed Self by Starvation.

Newark, N. J.—Miss Virginia Wardman, one of the prettiest sixteen year old adolescents for the murder of Mrs. Cora W. E. Hazel, the East Orange manicure soldier, died in the throes of starvation here. Death was due, it was the verdict of physicians, to starvation. The girl, the police report, [illegible]

WORLD'S FAIR BURNS.

Belgian Exposition at Boulevard. Loss Will Be $100,000,000.

Brussels, Belgium.—The White City of the World's Fair, as the Belgians have called their 1910 exposition, is a mass of smouldering ruins.

A spark falling into inflammable material, burst into flames, which, driven by a high wind, swept rapidly in all directions. Soon the Belgian, English and French sections were destroyed. The firemen and detachments of soldiers, called quickly to the scene, found themselves baffled by the veritable gale, which carried the burning embers to all parts of the grounds.

At the time of the outbreak not less than 100,000 persons were circulating in the grounds. Troops were ordered out and came at double quick to aid the police in clearing off the great grounds. This was accomplished in fair order, except within the limits of the Kermesz, where the vast crowds became entangled in an almost inextricable mass, fighting desperately to find an escape from the flames which swept viciously through the tinderlike structures. Soon the enormous facade tumbled in ruins.

Considering the rapidity of the flagration the small loss of life is marvelous. So far is as known, up to a late hour, only two are dead. The injured, as officially announced, number 30, but probably many hundreds received minor hurts.

As the flames reached the menagerie, it was decided to shoot the beasts, but the heat drove back the soldiers, and the animals were left to their fate,

Many jewel exhibitors were uninsured. In the French art section the priceless Gobelins, paintings and sculpture were ruined, as were the rich treasures in the English, Belgian, Persian and Turkish section. All the archives were burned, and it will, therefore, be impossible to confer medal and diplomas.

The loss in the exposition fire is estimated at $100,000,000.

SENATOR HEYBURN RAVES.

Stopped Orchestra From Playing Dixie at Reception in Idaho.

Seattle, Wash.—Senator W. B. Heyburn of Idaho dislikes "Dixie." He created a sensation at Wallace, Idaho, stopping the orchestra while the musicians were playing the popular strains.

Colonel Hamer had just finished his address, and the orchestra had started a medley of well-kno n airs.

About the sixth number in the medley was "Dixie." The senator leaped to his feet, strode across to the musicians and cried out: "This is a Republican meeting; we want no such tunes here.

The amazed musicians stopped immediately. The senator strode back to his seat. After a moment of silence Mayor Hanson arose and closed the meeting.

Enlisted Strength of Army.

Washington.—During the present year the enlisted strength of the army has been fived approximately at 87,000 men under the arrangement of the estimate of Maj. Gen. Leonard Wood, chief of staff. General Wood's plan is is to use the army appropriation for soldiers and materials and make reductions in other directions. The new chief of staff wants an army of fighting men equipped for business.

Shot-Up Air Ships.

Reugenwalde, Prussia.—The men behind the field guns demonstrated their ability to destroy swiftly moving balloons. In every instance the shells reached the balloons tearing them to pieces and frequently the gas bags exploded and were burned in midair. Major Gross, the aeronautical representative of Krupps, directed the practice.

Drexel Breaks Record.

Lanark, Scotland.—J. Armstrong Drexel of Philadelphia holds the world's record for altitude flight in an aeroplane. The official figures for his ascent show that he reached 6,750 feet. The previous record was made at Atlantic City, N. J., in July, by Walter Brookins, 6,175 feet.

Roosevelt to Visit Nasville.

Nashville, Tenn. — Ex-President Roosevelt, Gifford Pinchot and the Bishop of Chicago are among the notables who will attend the meeting of the Brotherhood of St. Andrew, in this city, on September 28 to October 2.

Chase of 10,000 Miles.

New York City.—A 10,000-mile chase covering the entire country has ended with the arrest of J. Bayard Longworth, who claims to be a cousin of Congressman Nicholas Longworth, the son-in-law of Theodore Roosevelt. He was arrested at his handsome Brooklyn home on a warrant issued in December, 1908, accusing him of selling lots he did not own. Three months ago he was almost caught in St. Louis and had been heard of, the police say, in Boston, Baltimore, Chicago and Pittsburg.

10-Cotton Gains Restored.

Memphis, Tenn.—Disclosures of a most sensational nature involving high former officials of the Illinois Central railroad in the conspiracy by which the Memphis Cotton company is alleged to have defrauded the railroad of hundreds of thousands of dollars, were made when a decree was entered in Chancellor Hollins's court.

After a the war scare faded

probability," said a state de- official, "the emperor never knew that the note in question was sent. It was a regular routine matter in the German foreign office and followed the stereotyped form.

Nations are excessively polite to one another in their interchange of communications. Every letter that goes out from the state department to a foreign government has this ceremonial finish:

"Accept, excellency, the renewed assurance of my highest consideration."

The cermonail letters of all countries begin in about the same way. For instance, all of England's communications begin:

"George V., by the Grace of God, of the United Kingdom of Great Britain and Ireland, king, defender of the faith, emperor of India, etc."

"Nicholas, by the Grace of God, emperor autocrat of all the Russias, czar of Casan, czar of Astracan, etc., lord of Plescott and grand duke of Smolenski, etc."

Germany's letters are very much like those of Russia, in that they begin by announcing all the titles of the ruling potentate. "William II., by God's grace, emperor of Germany and king of Prussia," etc., is the way the present emperor addresses his ceremonial letters. The emperor writes with a quill pen, and if one may judge by his signature on file in the state department, does not take much time about it.

Land Title Tangle Is Revealed

RT made to congress by a ission appointed to examine in the District of Columbia that many lots of land occu- odern business houses and in the national capital are d by the government, not- ing the present tenants be- have a clear title to the

stion of land titles in the pital is not a new one. Two congress created a commis- ly it. The commission con- attorney general, the sec- ry, Senator Scott of West Representative Bartholdt of nd one of the district com- The report reveals a hor- tangle, which the courts will never be able to straighten tangle is the outcome of the ation in real estate that for a good many years after was laid out.

lands were acquired in Washington, in the early days, by a very simple process. The territory "not exceeding" ten miles square was ceded to the United States government by Maryland and Virginia and placed under the authority of three commissioners, appointed by the president. They or any two of them were required, under the direction of the president, to survey and by proper metes and bounds define and limit a district of territory, and the territory so defined was established as a permanent seat of the government of the United States. Power was given the commissioners to purchase or accept land on the eastern side of the Potomac, for the use of the United States, and the commissioners were further required to provide suitable buildings for the accommodation of congress, the president and public officers of the government of the United States. It was to raise money to erect the public buildings that the government planned to sell its land to private parties.

No sooner had the capital city been laid out than land speculators appeared on the scene, and as a result of their operations, it is asserted, much land which belonged to the government illegally passed to individual owners.

Planning a Substitute for Beef

nd elk preserves may play an tant part in reducing the of beef. According to gov- experts who have made an ion of the cost and methods venison, declare that the s of the various states are deer and elk farming and the country one of its chief cheap and good meat. Deer an be raised readily in near- state in the Union. They are ntrolled and cheaply fed. ase of elk under domestica- lly equal to that of cattle. vate and the government, e Yellowstone park officials, operated with individual in caring for the vast herds the Jackson's Hole region in It is estimated that there elk in the Yellowstone park onstituting the only great For two or three winters have been fed, and have now come to look upon the feeding as a matter of course, and State Game Warden Nowlin of Wyoming, who has led the feeding experiments, says that the last of the great elk herds is becoming rapidly domesticated. Several ranchmen in the Rocky mountain country have conducted private elk preserves for years. Outside of the private elk preserves there are few herds left in the west.

Barret Littlefield, who lives near Slater, has several hundred elk on his great ranch. Every season he ships many carcasses of elk to the Denver market, besides supplying zoological gardens throughout the country. He has found it profitable to raise elk for the market—so profitable that he abandoned the cattle business years ago and has devoted himself entirely to the raising of venison. There are two other elk preserves in northwestern Colorado. J. B. Dawson, a Routt county pioneer, has several hundred head of elk on his ranch near Hayden.

In nearly every state in the Union the killing of deer is forbidden, excepting in the fall and during a limited period. If deer and elk are to be raised for the market the venison farmer must be allowed to kill for the market, whenever the demand is there.

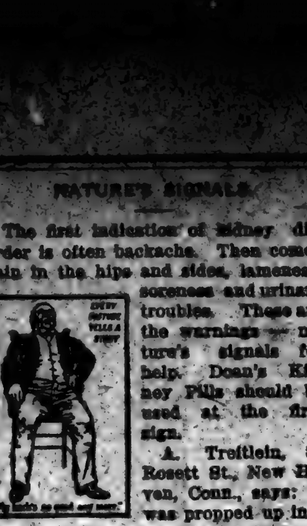
NATURE'S SIGNALS.



The first indication of kidney disorder is often backache. Then comes pain in the hips and sides, lameness, soreness and urinary troubles. These are the warnings — nature's signals for help. Doan's Kidney Pills should be used at the first sign.

A. Treitlein, 24 Rosett St., New Haven, Conn., says: "I was propped up in a chair for 23 weeks. So intense was the pain when I moved that I thought I would pass away. The kidney action was irregular and the secretions scalded. Three doctors gave me no relief. Doan's Kidney Pills cured me, and for ten years the cure has been permanent."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

SOMETIMES.

Henderson—When a man marries he keeps his wife in dresses, hats, shoes—in fact, everything she needs. What does a wife keep her husband in?

Henpeck (absently)—Hot water.

LEG A MASS OF HUMOR

"About seven years ago a small abrasion appeared on my right leg just above my ankle. It irritated me so that I began to scratch it, and it began to spread until my leg from my ankle to the knee was one solid scale like a scab. The irritation was always worse at night and would not allow me to sleep, or my wife either, and it was completely undermining our health. I lost fifty pounds in weight and was almost out of my mind with pain and chagrin as no matter where the irritation came, at work, on the street or in the presence of company, I would have to scratch it until I had the blood running down into my shoe. I simply cannot describe my suffering during those seven years. The pain, mortification, loss of sleep, both to myself and wife is simply indescribable on paper and one has to experience it to know what it is.

"I tried all kinds of doctors and remedies but I might as well have thrown my money down a sewer. They would dry up for a little while and fill me with hope only to break out again just as bad if not worse. I had given up hope of ever being cured when I was induced by my wife to give the Cuticura Remedies a trial. After taking the Cuticura Remedies for a little while I began to see a change, and after taking a dozen bottles of Cuticura Resolvent in conjunction with the Cuticura Soap and Cuticura Ointment, the trouble had entirely disappeared and my leg was as fine as the day I was born. Now after a lapse of six months with no signs of a recurrence I feel perfectly safe in extending to you my heartfelt thanks for the good the Cuticura Remedies have done for me. I shall always recommend them to my friends. W. H. White, 313 E. Cabot St., Philadelphia, Pa., Feb. 4 and Apr. 13, 1909."

Opinions Aired.

"Were the commencement exercises interesting?"

"Very. The time was divided between advice from public men on the selection of a career and suggestions from graduates on how to run the government."

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM
Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking, as the formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria and the Iron builds up the system. Sold by all dealers for 30 years. Price 50 cents.

Gallant.

She—If I were a man, I should never marry.

He—If you were a man I should never marry.

Dr. Pierce's Pleasant Pellets regulate and invigorate stomach, liver and bowels. Sugar-coated, tiny granules, easy to take. Do not gripe.

Who hands shall these artwood a saint or a wealth fate.

ABOUT THE LIMIT.

Jim—Gruet is terribly absent-minded.

Jack—I should say so! I've known him to telephone to his office and ask if he was in.

A Bernhardt Trick.

Mme. Sarah Bernhardt, who is supposed to be something of an artist as well as an actress, was recently called upon in one of her marvelous creations to enact the role of a sculptor, and to model a certain bust in view of the audience. This fairly electrified the critics, but when going into rhapsodies over the technical skill in handling the clay which Mme. Bernhardt exhibited they showed that they knew little of the artistic tricks of actors and actresses; as a matter of fact, she does nothing of the kind. The bust is modeled and baked, and over it is placed damp clay of the same color. This the talented actress merely pulls off, exposing the beautifully modeled head underneath.

Keeping It Dry.

An old woman of a wealthy New Jersey family was going visiting. The coachman, who had not been in this country long, had just been equipped with a new uniform and a new silk hat. Before they had gone far it began to sprinkle, and the old woman told the coachman to fasten down the side curtains of the wagonette.

He drove up to a hitching post beside the road and, dismounting, hung his new hat on the post, and began to fasten the curtains.

The old woman noticed his bare head and asked him where his hat was.

"Oi took it off me head, mum, so as it wouldn't get wet," the coachman replied.

One Side Enough.

Senator William Alden Smith tells of an Irish justice of the peace out in Michigan. In a trial the evidence was all in and the plaintiff's attorney had made a long and very eloquent argument, when the lawyer acting for the defense arose.

"What are you doing?" asked the justice, as the lawyer began.

"Going to present our side of the case."

"I don't want to hear both sides argued. It has a tendency to confuse the court."—Washingtonian.

Advice.

"Doctor," called little Bingle, over his telephone, "my wife has lost her voice. What the dickens shall I do?"

"Why," said the doctor, gravely, "if I were you I'd remember the fact when Thanksgiving day comes around, and act accordingly."

Whereupon the doctor chuckled as he charged little Bingle $2 for professional services.—Harper's Weekly.

Woman's Power Over Man

Woman's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R.V. Pierce, of Buffalo, N.Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for woman's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No *honest* dealer will advise you to accept a substitute in order to make a little larger profit.

IT MAKES WEAK WOMEN STRONG, SICK WOMEN WELL.

Dr. Pierce's Pleasant Pellets regulate and strengthen Stomach, Liver and Bowels.

Facts Concerning Central Female College TUSCALOOSA, ALABAMA

I.—Boarding Pupils Limited to Seventy.
1. Every pupil recites in her classes every day.
2. The faculty and students are as one family.
3. No cliques or secret societies in this family.

II.—Thoroughness is a Special Feature of the School.
1. Of the 20 Colleges in Alabama furnishing teachers for the High Schools of the State, the Central College stands fifth, and if the relative number of students in these colleges be considered it would probably stand first.
2. During the present administration of ten years, 222 students have passed the state examination.
3. Of those who stood the examination in February, 98 per cent passed.
4. This test—the furnishing of teachers for the High Schools—is the more remarkable when it is remembered that this is not meant to be a Normal College.
5. This particular test only illustrates the standards set for all the departments of the College.

III.—The Situation of the College Gives it an Especial Advantage.
1. In point of health Tuscaloosa stands second in the State, Evergreen being the first.
2. The church advantages in Tuscaloosa, are not excelled in the State. The religious convictions of students of all denominations are carefully respected.
3. Tuscaloosa is proverbial for its culture and refinement.
4. The State University is situated in Tuscaloosa, which means that the best talent of the country is heard here, from time to time. The students in Central College may take advantage of this opportunity.

IV.—The Faculty of Central College is Chosen with Care.
1. Every teacher must be decidedly a Christian.
2. Every teacher is required to take interest in the students individually, and to give general satisfaction in his or her department.
3. For the coming year we believe the Faculty will be strengthened by the coming of J. H. Barber, A. B. (Mercer University), Th. D. (Southern Baptist Seminary), who will teach English, German and Bible; and of Miss McCorkle, of the Academy of Arts, Philadelphia, and of the Curry School of Expression, Boston; and of Miss Stump, of the University of Chicago. The lady Principal, Miss Donoho, of Tuscaloosa, Miss Whiting, the head teacher of Piano, graduate of the Conservatory of Music in Baltimore, and student of the best instructors in Boston, have been tested and found to be eminently satisfactory.

V.—Improvements on the Building to Begin Immediately. The Inside and Outside will be Made New by the Opening, September 21.

B. F. GILES, President.

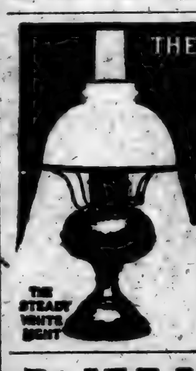
The Summer Girl.

"How'd you like to be engaged to a millionaire?"

"I was engaged to one all last summer, and he seldom spent a dime. I want to be engaged to a young man who is down here for two weeks with about $300 in his roll."

Included Her.

"Why did she get angry at the stranger in town?"



"She asked him if he had seen her daughter and he answered that he had seen all the sights of the place."

Quotation Marks.

Senator Beveridge, in an after-dinner speech in Cleveland, said of a corrupt politician:

"The man's excuse is as absurd as the excuse that a certain minister offered on being convicted of plagiarism.

"'Brethren,' said this minister, 'it is true that I occasionally borrow for my sermons, but I always acknowledge the fact in the pulpit by raising two fingers at the beginning and two at the end of the borrowed matter, thus indicating that it is quoted.'"

THE Famous Rayo Lamp

THE STEADY WHITE LIGHT

The Rayo Lamp is a high grade lamp, sold at a low price. There are lamps that cost more, but there is no better lamp made at any price. Constructed of solid brass; nickel plated—easily kept clean; an ornament to any room in any house. COTTON HAS IMPROVED IN THE EASTERN BELT

The Farm Tone is Decidedly More Optimistic.

PLANT IS GROWING VERY RAPIDLY

Promise for Crop is Now Fair to Good—Crop is Late and Would be Injured by an Early Frost.

Memphis, Tenn.—The following cotton crop is published by the Commercial-Appeal:

For three successive weeks cotton has improved in the states east of the Mississippi river and its promise is now fair to good. The crop is late, and would be seriously damaged by an early frost, while frost later than usual is needed to allow the fullest promise to be matured. The plant within the past two weeks has grown very rapidly, and is attaining fair size. It is setting bolls quite satisfactorily, and the farm tone is decidedly more optimistic.

Such rains as fell during the past week were beneficial. They were local in many sections, however, and the Carolinas and part of Georgia would be benefited by general precipitation.

Even in the earliest sections of this eastern belt there is very little cotton that is ready to open, and the movement will be delayed well into September unless drouth later on should force premature opening.

Boll weevils are active in Louisiana and Mississippi and are doing some more harm than was earlier anticipated.

In Texas no rains fell except in some of the Red river counties, and the crop lost ground steadily. Cotton is opening prematurely and very rapidly in southern and southwestern counties, and is being rushed to market as fast as possible by the farmer. In western Texas, where within the past few years there has been a rapid expansion in cotton growing, the crop is almost a failure, and in many places is beyond repair

New Orleans.—In presenting regular monthly reports of correspondents in all sections of the cotton belt as to progress of the cotton crop, the Times-Democrat states that the concensus of opinion is as follows:

Outside of the droughty districts of Texas distinct improvement has been the rule, but within the droughty districts of that state the deterioration has been very great.

Except in Oklahoma, where timely rains have made the outlook almost ideal, the crop is spotted.

With the exception of Texas, the movement promises to be late because of the backwardness of the plant. The farmers would, in most cases, sell freely, if they could.

Much complaint of destruction by boll weevil comes from parts of Louisiana and Mississippi, but the pest seems to have done less damage than usual elsewhere.

Corpses on Derelict.

Point Arena, Cal.—Four men were killed when the boilers of the steam schooner Phoenix blew up at sea. Two of the dead—Chief Engineer Thomas Houston and Second Mate Andrew Rasmussen—reached shore with the survivors of the vessel, but died of their injuries.

The mangled bodies of two firemen, Christ Hansen and William Nicholson, ride in the demolished engine room of their water-logged ship as she floats at sea, a derelict.

Severe Shock Recorded.

Cleveland, Ohio.—The seismograph at St. Ignatius observatory showed an earthquake probably 2,000 miles distant from Cleveland, has occurred. The beginning of the vibrations was recorded at 10:36 a. m., and the end at 11:01. The east-west wave motions were pronounced.

32 Killed in Wreck.

Royan, France.—An excursion train from Bordeaux, with 1,200 passengers and running at a speed of 50 miles an hour, crashed into a freight train at Saujon. Thirty-two persons were killed and one hundred injured.

German Warships for Turkey.

Wilhelmshaven, Germany.—The old German battleships Wehrenberg and Kurfurst, Friederich Wilhelm, were delivered to the Turkish navy and sailed for Constantinople.

Indian Chief Dead.

Peru, Indiana.—Gabriel Godfrey, the chief of the Miami Indian tribe, died at his home here after a few hours' illness of heart trouble. Chief Godfrey was 70 years old and had been married three times. He was the father of 19 children.

Latham Flies Over Paris.

Paris, France.—Hubert Latham made a sensational aeroplane flight over Paris, covering the miles in approximately three hours—an average of 40 miles an hour. He circled about the Eiffel tower and then [illegible]

MAYOR GAYNOR RECOVERS.

New York City's Chief Executive is Now Convalescent.

New York City.—William J. Gaynor, mayor of New York City, lies in St. Mary's hospital with two segments of a split bullet fired by James F. Gallagher, who sought to assassinate him, still buried in his neck and mouth, but he has shown not one alarming symptom.

Mayor Gaynor is near recovery and is steadily gaining in strength and free so far from blood poisoning.

Gallagher made his first frank talk concerning the crime. "While I will not say that I am sorry," he said, "I now hope that the mayor will get well. But I wanted to teach high officials to regard the rights of subordinates. I consider, that I had to shoot the mayor as a lesson to the country. I did what I did for personal principles and was not prompted by any anarchistic belief.

"I am sorry that Commissioner Edwards was wounded, for I was aiming only at the mayor. But even the thought of killing him had not been long in my mind. In fact, I reached no decision until I bought a newspaper. The paper said that Gaynor was going to sail for a vacation. That made me angry—to think that he should take a vacation in Europe while I did not even have a chance to work, much less get a vacation. So I hurried over the Twenty-third street ferry and inquired my way to the Kaiser Wilhelm.

"My wrongs had proved more than I thought I could bear. Over and over I sized up my hard station in life and contrasted it with that of some other men—of Mayor Gaynor, who had wronged me, in particular. At length I determined to seek revenge and I concluded it should be justly mine.

"I had carried the gun for nine years. I feared the enemies I had made by writing letters when I was trying to reform the dock department."

FARMER'S AUGUST WORK.

Agricultural Publication Suggests Ten Things to Do in August.

1. No matter if your crops have been "laid by," don't fail to stir lightly the upper crust of earth if it begins to getting hard and dry.

2. Get ready to save every possible pound of hay. Sharpen up the mower. Cut peas when first pods begin to turn.

3. Cut the corn as it matures and save all the feed. Pulling fodder is not only expensive and wasteful, but seriously decreases the yield of ear corn.

4. Where crops are taken off the land, begin preparations for the fall seeding. Do not stir deeply, but thoroughly pulverize the three inches on top of the soil.

5. Clean up all weeds, briers, bushes, etc., from ditch banks, fence corners, around buildings and between cultivated fields. August is the best month for killing bushes and briers, and arranging to merge the piddling patches into broad and generous fields next year.

6. Get the cattle out of the infected pastures and grease them thoroughly to kill all ticks now on them. Then put them in new pastures and start out next spring with a tick-free farm and tick-free cattle.

7. Prepare to have some winter-growing crop on every acre of land now in cotton or corn. Sow crimson clover or vetch after the first picking of cotton, rye later.

8. Keep the hogs that you intend to kill next fall growing with all their might. They should be in pasture now up to their eyes, but see that they have plenty of pure water and a good shade to go to. Sow rape and turnips for winter feeding.

9. Paint the farm home, paint or whitewash other buildings and make all needed repairs.

10. Go to your farmers' institutes or other farmers' meetings, and arrange to give your wife and children a short vacation.—Raleigh (N. C.) Progressive Farmer and Gazette.

Concludes Six-Day Speech.

The Hague.—Senator Elihu Root concluded his six-day speech in presenting the claims of the United States in the Newfoundland fisheries dispute with Great Britain. The tribunal will probably hand down its decision about the middle of September

Chase of 10,000 Miles.

New York City.—A 10,000-mile chase covering the entire country has ended with the arrest of J. Bayard Longworth, who claims to be a cousin of Congressman Nicholas Longworth, the son-in-law of Theodore Roosevelt. He was dragged at his handsome Brooklyn home down a ladder issued in December, 1908, accusing him of selling [illegible] and [illegible] Pittsburg.

Three Killed Working [illegible]

Chattanooga, Tenn.—Three people have been killed on the Nashville, Chattanooga & St. Louis railroad between Nashville and Chattanooga, [illegible] Tennessee river, 25 miles south of here, in the past 24 hours. A falling portion of the [illegible]

HEADLEY & CO.

To Quit The Dry Goods Line.

H.ello people, we are going to quit the dry-good line just as
E.arly as possible, and to do so will begin to slaughter on and
A.fter July the First the stock we have on hand. Hence, we say
D.on't miss our sales for it will prove the opportunity of your life.
L.owest prices ever offered in Clanton will obtain here and its
E.verybody's chance to secure bargains at your own figures.
Y.ou should bear in mind the date and be ready when the time comes
& above all do not forget the place. It's HEADLEY'S place.
C.ome and inspect our excellent stock even if you do not purchase.
O.ver the prices and the quality let us talk, its to your advantage.

After we have closed out our stock of dry goods we shall cater strictly to the retail grocery trade. Come to see us. We'll treat you right and be glad to welcome

HEADLEY & CO., On The Corner

Register in Chancery

DEMOCRACY'S DAY.

Last Saturday at the Court House the Executive Committee Democratic party had what can, perhaps, be rated as the st, the most harmonious and most enthusiastic meeting held history of Chilton County Executive Committees. It was ike the Republican committee, a meeting of a committee in one man dominates the committee and announces its policies; not a meeting at which everything was cut and dried before by any MAIN PIN or FUGLEMAN, and HIS henchmen ed to fall into line and carry out HIS orders. Oh, no; it was meeting of that kind, but a real love feast in which each had his say and to whom every one listened respectfully. consulted together, advised together and arrived at conons together.

The meeting was called to order by Chairman Adams, and, a brief statement of the purposes of the call, the room was ed of all those present except the actual members of the mittee.

By a strange coincidence the Chairman of the State Campaign mittee, Hon. Jesse Stallings; the Democratic nominee for ate Judge, Hon. E. B. Deason; the Democratic nominee for tor, Hon. T. A. Curry, and many others prominent in the ical circles of the State and county, were requested to retire. was not because the committee mistrusted any one of these men; it was because they had a matter of vital interest to welfare of the party to discuss and they preferred to discuss hind closed doors, come to a unanimous conclusion, and then all friends of Democracy to come in and share with them the ts of their conclusions.

At this meeting much was accomplished for the cause of ocracy in Chilton. Enthusiasm was infused into the veins of than one man who heretofore has held a gloomy vision of ture.

The committee decided by a unanimous vote to call a MASS ETING of all Chilton County Democrats to meet at the Court e on SATURDAY, SEPTEMBER 10th, for the purpose of ng a candidate to represent Chilton county in the LEGISLARE. The committee discussed several plans for the selection e candidate, and finally agreed unanimously upon the folg PLAN:

Every candidate who desires to have his name presented to ass meeting shall be privileged to do so—no man is debarred entering the contest for the nomination, PROVIDED he is ocrat. The meeting is to vote by ballot for such candidates ve their names presented to the meeting. The candidate reg the lowest number of votes in the meeting is to have his dropped from the contest after each successive ballot until meeting agrees upon some one man as a fit candidate for repntative.

This plan was adopted because it was thought to be fair to person. No candidate can say that he did not have an equal ing in the meeting. Should he be unfortunate enough to be low man on the first ballot and his name be dropped, it will is fault, for he has from now until September to rally his ds to his support and to insist upon their presence at the meet-

If he cannot bring enough pressure to bear upon his personal nds to assist him in securing the nomination, it is scarcely able that he would be able to enlist enough votes to insure his ion. Anyway the plan is perfectly fair to all parties. After nomination the candidate is expected to address the meeting, in line for an aggressive campaign and enlist the aid and sym- of every Democrat in Chilton soil.

The election of a Democrat to the Legislature from Chilton ns much for this county. A Republican can not hope to achieve h for Chilton in Legislative halls. His presence there is more hinderance to the county than a help. A Democrat from Chil- can get almost anything he or his constituents desire. A Re- lican there is a man without a party and will receive no recogni- either in party councils or in securing favors for the county; suicidal to elect a Republican; it is a spirit of home pride and ressiveness that will cause us to send a true blue DEMOT to Montgomery.

But the committee did other things.

After adopting a plan for selecting the candidate HON. JESSE LLINGS, of Birmingham, the chairman of the State Campaign mittee of the Democratic party, who had broken previous enements in order that he might meet with this committee, was oduced.

He talked interestly and enthusiastically of the coming camp; he told how the eyes of the entire State were upon Chilton ty and how the party leaders from every section were rally alist in the battle to reclaim Chilton from the hands of high negro delegates and MONOPOLY; he assured the local mittee that the State committee would lend every assistance end every effort to co-operate with the Democrats of Chilton ing the county back to her ancient moorings. Mr. Stallings s was full of wisdom, encouragement and good cheer. His ce was appreciated and his promises received with cheers came the signal for which all had been waiting. WHEN mpaign to be opened with vigor and vim!

A MONSTER BARBECUE was arranged for SATURDAY, MBER 17th, at Clanton, at which everybody is invited ent. There will be enough for all; no one is excluded OCRACY'S FEAST; everyone, big and little, young and ted. The LADIES are especially requested to be present, who can are requested to bring baskets, but by all means y or disinclination to bring baskets come anyway, you are invited, baskets or no baskets, to share, to be sure, and need not

cake and such things as suggest themselves to you, but leave out the meats and bread. Arrangements have been made for sixty carcasses—beef, pork, mutton and kid will be served in abundance.

A committee composed of Mr. O. E. Latham, chairman, and Messrs. P. D. Wilson and Guy Higgins has been appointed to have general supervision of all arrangements so that the success of the dinner is already assured.

A BRASS BAND will be provided to dispense music during the day and a large DANCING PAVILION will be erected so that the young people may enjoy the day to the fullest extent.

Amusements will be provided for every one and no expense will be spared to show the people of Chilton county that DEMOCRACY means something and that above all things she is generous and hospitable.

But the best is yet to come; the inner man has been provided for and the amusement for the young will be looked after, yet there is still more in store for those who come.

Invitations are being sent out to every prominent Democrat in the State to come to CLANTON that day and be our guests.

We are going to do things on a large scale. We are going to open the eyes of the unwilling to the fact that DEMOCRACY intends to stand by the people and to give them something to think about and to act upon.

HON. EMMETT O'NEAL, Alabama's next Governor, will be here to make an address to the people of Chilton on the issues of the day.

HON. WALTER D. SEED, the coming Lieutenant Governor of Alabama, will be given a prominent part on the program.

Hon. Syd Bowie is going to be here and tell the people something of Democracy's triumphs and successes.

Congressman Craig and the congressman to be, Hon. Fred L. Blackmon, will be with the visitors.

Senators Johnston and Bankhead are expected to be among the distinguished guests.

The entire State Campaign Committee is going to be here—Jesse Stallings and all.

Hon. H. S. D. Mallory will be invited and urged to come.

Hobson and Dent and Taylor and Richardson and Clayton and Heflin and Burnett and Underwood—all our congressmen—will be asked to mingle with us on that day.

Goodwyn and Jefferies, Ellis and Long, Bowman and John White and Knox, Russell and Purifoy, Brandon and Willingham and a host of other prominent men throughout the State are expected to lend their presence to the occasion.

The day is going to be a FIELD DAY for the Democrats.

It's going to be the greatest day that ever dawned in Chilton county. It's going to open the eyes of many who have heretofore been blinded.

Remember, that whether you are a Democrat, a Republican or a Populist, you are invited to be present. Come as the guest of Chilton county's Democracy. Come, mingle with the crowd and see what DEMOCRACY means, what it represents and what it accomplishes.

We want you here as our guest, make your arrangements to come; bring the baby and the girls; let the old lady have a holiday and the boys a good time—fetch the family and camp on Democratic soil for a day.

Peculiar Growth.

Hon. Sam W. Collins was in The Press offices last Monday morning casting some piano tickets for a certain young lady, and during the course of conversation told us about a watermelon which he cut at his place Sunday afternoon.

He says that the melon grew on a vine along with others, and that to all outward appearances it was not unlike other melons; but when it was cut, the cut being made lengthwise through the middle, each side of the heart presented a perfect letter "W," the exact fac simile of his own writing. The peculiarity consists not merely in the formation of the letter, but in the fact that it was to cut as to present the perfectly formed letter on each side of the melon.

GENERAL NEWS.

Mr. Gulledge Writes Again.

On Board the Steamer "Toronto," on Lake Ontario, Going Down the St. Lawrence River, August 10, 1910.

On leaving Duluth, Minn., on the night of August 9th, we came direct to Buffalo, N. Y., except for a short stop at Cleveland, O. Our trip was without special event except that we called at Houghton, Mich., where is located the largest copper mines in the world. We also spent three hours at the "Soo," which is the canal gateway for all the ships and boast that float on the great lakes. To get through the Soo our big ship, the "Northwest," had to drop 18 feet by means of the locks. We also called at Macinac, Mich. This is a popular summer resort, where we spent two hours. We next touched at Detroit for only thirty minutes. This proved quite a disappointment to the hundreds of passengers on the big boat, as Detroit is a beautiful city of some 225,000 people, and the population are fine folks, having a decided Southern (friendly) air about them.

On arriving at Cleveland I found the busiest city I have seen in years, with a population of 450,000, full of business and good cheer. I was met at the boat by friends, who, while I remained in the city—three days—gave me a fine time, showing me all—or many—points of interest, including all public utilities.

The monuments of the late president, James A. Garfield, and Marcus A. Hanna, also the home of the much abused John D. Rockefeller and others, which includes 140 millionaires on Euclid avenue, as well as the residence of Mrs. Cassie Chadwick, who with her brass and brain fleeced so many big financial bugs, sending at least one man to the pen on account of it and following him there for a good term herself.

I also saw there, in course of construction over Rocky river, what is said to be the greatest piece of concrete work on earth. It is at least 2,000 feet long and more than 100 feet high, and when completed will carry four railroad tracks.

I wanted, but did not get to see Tom L. Johnson, late mayor of Cleveland, also recently defeated for the United States senate by Congressman Burton. But notwithstanding his defeat, he is quite popular with the masses and were it not for the trusts and combines, he would be in the senate today. His 3-cent street car fare, his promoting and building two main lines through the city and equipping them especially for a poor laboring section, gives good words from the mouths of all who have honesty of purpose and heart.

On reaching Buffalo on the 16th I went out to see the city hastily, having only one day to do so. It is a dirty, smoky, slow city of 450,000. That is, the business part of the city is dirty, but the residence section is as clean as the business section is dirty. In the trip, which was by auto, seating about twenty persons, with a "spieler" to call attention to all points of interest, we were shown many historic places, including the residence of President Millard Filmore, and as a matter of course, where had and now live the "swells" and special beneficiaries of the rubber tariff; also the spot where President McKinley was assassinated; also the house in which he died; also the house where Teddy Roosevelt took the oath of office as president of the United States.

Good-bye until next week.

F. A. GULLEDGE.

Handsomely Entertained.

We give below an account of an elaborate entertainment given by Prof. and Mrs. Monroe at their summer home in Fayette in honor of Mrs. Dr. Hopkins during her recent visit to that charming little city.

It will doubtless be gratifying intelligences to Prof. and Mrs. Monroe's many friends to know that they will soon return to Clanton to make their residence here during the school term.

"In honor of her charming guest, Mrs. P. P. Hopkins of Clanton, Ala., Mrs. W. W. Monroe entertained Friday afternoon at her delightful home in South Fayette. The house was attractively decorated with palms, ferns and cut flowers, the color scheme being pink and green. The hostess was assisted in [illegible] while Mrs. Hop-

General News

Frightful Accident.

Last Saturday Mr. Ben Teal, while working with his "perpetual water lift," a piece of mechanism which he hopes soon to perfect and patent, was caught in the belting to the engine and thrown with terrific force against a near-by box, sustaining injuries which for a time were thought to be fatal. Mr. Teal remained for some hours in a state of unconsciousness, and his friends and loved ones feared for the worst, but his great physical strength and temperate habits stood him in good stead. After working with him for some time, the physicians announced that he would be on the high road to recovery real soon. Mr. Teal had a narrow escape, a close call, and his friends are rejoicing that it turned out to be no more serious than it really was.

Fifteen Feet High.

No, this is not a man we are going to tell about, and it isn't a woman, either. If it were either Clanton would probably never have an opportunity to behold such an individual, for that person would surely be in one of the big circuses or some national museum.

We are talking about corn—just every day Indian corn—and that's growing some for corn. Fifteen feet is up in the air a little bit.

Mr. O. O. Roper brought to The Press office a stalk of Mexican June corn with two well developed ears; it was ten feet to the first ear and but two inches to the next ear. The stalk was measured, and found to be fifteen feet in height. It was raised by Mr. Roper on the Holley place near the city. No fertilizer of any kind was used.

Soon after Mr. Roper left a gentleman came into the office and said: "That's a pretty good stalk of corn, but it hasn't enough ears on it; out at my place we have a stalk with nine ears upon it, and every one is well matured."

That came near taking the breath of the news collector, but just as he was going off into a spasm Hon. Moses Robinson dropped in and said: "Look here, if I had thought of it, I'd have brought you in a stalk of open boll cotton, but I forgot it when leaving home."

Now, what we want to know is: How comes it that there are mortgages on the farm lands of Chilton county? Why isn't the farmer the happiest and the richest man in the county?

Answer: We don't keep our money at home, but give it to the western corn raiser when we can do as well as he; we pay high prices for goods manufactured at the north out of our own cotton; we (some of us) vote the republican ticket and help sustain the monopolies and trusts which are constantly grinding the existence out of the Southern farmer.

We assist with our votes in upholding a party which demands high prices for the products, raised or manufactured, of the North and West, and which also insists upon placing the products of the South at the lowest market prices in order that their favored few may grow rich. That's the answer.

Clanton Views.

We present in this issue a series of personal write-ups" by Mrs. Mary T. Whitson, of Memphis, Tenn., who was a visitor to Clanton last week. For some years Mrs. Whitson has engaged in the task of "writing up" towns and persons, and the sketches herein recorded are from her pen. We are glad to give space to these views; we enjoy reading nice things about our town and people. If, however, there are any kicks coming—if Mrs. Whitson has put it on too deep or has failed to put it on deep enough—please remember that her present address is Dothan.

Falls Through Shaft.

While patrolling his beat on Commerce street about 10:30 o'clock Sunday night, Policeman J. A. Thomas noticed that a side door of the Gay-Teague hotel, now under construction, was open. He entered the building, and stumbled across a pile of sacks piled near the doorway. In trying to recover his balance, Thomas stepped into the elevator shaft, falling twenty feet to the cement flooring in the cellar.

The negro night watchman of the building heard Thomas' cries for help, and summoned another policeman. A surgeon was hurriedly summoned and Thomas taken to St. Margaret's hospital.

Examination showed that the bones of the instep of the right foot were broken, as were the two bones of the right leg just above the ankle joint. The ankle bones of the left foot were also broken. It was feared that the severe pains in the back indicated internal injury, but the attending surgeons were unable to state such fact upon their examination.

It is said that Thomas may be able to walk within six months, but it is the opinion of surgeons that he will never have full use of his right foot again.

A Square Circle.

Tomorrow (Friday) night at the home of Mr. and Mrs. J. C. Jones the ladies of the Fourth Circle of the Aid Society, Methodist church, are to give an open air concert for the purpose of raising funds for the society.

Everybody and his cousin is especially invited. They are not going to send out engraved invitations, but you just dream you had one encased in a little pink envelope with violet scent attached, put on your Sunday togs and meander out that way. Don't forget when you start to meander that there is a fair young lady who sometimes likes to meander also. You take her when the entertainments don't cost more than a dime; now open your heart tomorrow night, write her a sweet little billet-doux, put it in a sky-blue square envelope, and petition her to meander with you with the understanding that you are to foot the expense account out of your weekly stipend. Now, do that if you want to make a home run; it's the thing to do, because you want to stand well with the girls; it's the thing to do, because you want to help a worthy cause; it's the thing to do, because you will get your money's worth or your money back.

The program is going to be something out of the ordinary; it's to be full of spice from its very incipiency. There'll be a dash of ginger scattered all along the pathway, and occasionally a pod of pepper will protrude through the outer crust of the affair.

We are not permitted to print the program; it's against the rules of the game to tell, but just to give you an idea—a sort of first bid, as it were—we have obtained permission to divulge this much:

Little Billy Mullins is going to be too cute for anything in his new sailor hat and pink bow.

Miss Alee Stewart is going to sing a duet in her own inimitable way, her rich contralto voice being now in perfect condition.

Mallie White is practicing on his three-act melodrama, entitled, "How It Feels to Be Alone—All Alone."

Prof. C. J. Davis has promised, if the crowd justifies it, to warble the "Mocking Bird" as only he can warble. The sweet trill of his whistle starts the feathered choristers into melody, and nature stands aghast at the wonderful harmony of his vibrant voice and tuneful whistle.

Mrs. Anderson, always accommodating, is to give an exact representation of the Fates and Graces, each pose occupying only sixteen minutes—two hours and eighteen minutes in all—a remarkably swift performance when the difficulty of the task is taken into consideration.

These are but a few of the attractions. It's worth your money. You can't afford to miss it. The price is unreasonably small, taking into consideration the fact that you are to have a good time—a wonderfully good time.

Don't forget to fetch two-bits along for yourself and 25 cents for your girl. If you don't want to have a good time don't you come; if you have a case of the grouch you ought to stay away—if you want to keep it. If you hate the world and despise to smile, go the other way; but if you love sweet nature, sweet girls and sweet flowers, hunt up your quarter and be on hand early.

Private Sanitorium.

The Press is glad to inform its readers that patients will no more have to make long, tedious journeys to Montgomery or Birmingham in order to receive proper surgical attention. Time was when patients suffering with broken limbs or from appendicitis or kindred ailments were taken to one or the other of these cities for treatment, not because local talent was not all that was necessary—for we have as fine a corps of physicians in Clanton as any city can boast of—but because of the inadequate facilities for treating such patients. This, however, is all to be changed. Clanton is to have its own private infirmary. Two of our physicians have purchased the Mahan property, just opposite the home of Mr. Guy Higgins, and immediate preparations are being made to convert it into a modern infirmary. There will be ample room for patients, a large operating room with every modern surgical instrument, and all other equipment that usually attaches to a place of this kind.

Trained nurses will be engaged and kept constantly in attendance upon the patients who seek rest and health in the institution.

The Press is not authorized at present to give detailed information about the new enterprise, but our readers can rest assured that before the coming of winter Clanton will have within its corporate limits one of the greatest and best equipped infirmaries in the state.

A Night of Pleasure.

Last Friday night, at the home of Mr. and Mrs. W. H. Sartor, one of the most pleasant as well as unique entertainments of the summer season was given by Miss Elise Sartor in honor of her guest, Miss Ruth Tyndal, of Birmingham. About twenty couples gathered at this hospitable home, and for several hours indulged in games of amusement and instruction, received the "go-foot" prize, he having made a complete water-haul, in so far as puzzles were concerned.

Barbecue.

Clanton is becoming famous for her chicken barbecues. Realizing that the young ladies are the source of all their pleasure, the young men decided to tender to the visiting young ladies, Misses Margie Strock and Katee Deramus of Verbena, Gladys Wycke of Montgomery, Nell Gowan of Kosciusko, Miss., Evelyn Godshall and Sallie Duncan of Nashville, Tenn., Mary Ruth Tyndal of Birmingham and Mary Hughes of Mobile, as special honorees, and to their good friends, the young ladies of Clanton, a chicken barbecue upon the spacious lawn at the home of Mr. and Mrs. Tipton Mullins.

The occasion was one of rare pleasure and great merriment. Chickens were burned, chickens were half burned and some all burned; others were raw, while others were just half raw. Nevertheless, each couple deemed their particular cooking the ne plus ultra of the art cuisine. Thirty or more couples were delightfully entertained by these enterprising and far-seeing youths. Every moment of the time was spent in merry-making, and wit as well as mirth was the order of the evening.

Without any desire to cast reflections upon the knowledge or ability of their respective partners in things culinary, a bountiful supply of delicious cream and cake was provided—not in case of mishaps around the barbecue pits, but because these things are a necessary adjunct to any well regulated summer entertainment where young people gather; and to say that it was all enjoyed—chickens, cream, cake and other delicacies—needs not the telling.

The chaperones of the occasion were: Mr. and Mrs. Tipton Mullins, Mr. and Mrs. E. B. Deason, Dr. and Mrs. N. S. Johnson, Mr. and Mrs. J. E. Robinson, Mr. and Mrs. H. M. Simpson, Dr. and Mrs. J. E. Gowan.

Chancery Court.

All day Monday Register in Chancery Simpson was busy taking testimony in the case of Moore vs. West. This was a friendly suit involving the title to certain lands wherein it was sought to perfect the title through the chancery court.

The testimony will be submitted to Chancellor Whitesides later on.

Tuesday was devoted to the hearing of testimony in the case of Bates vs. Bates.

Congressional Campaign.

At a recent meeting of the congressional executive committee of the Fourth district, held at Columbiana last Saturday, the following campaign committee was appointed: S. P. Kennedy, of Anniston, chairman; R. E. L. Niel, of Selma; Dr. Oliver, of Shelby; Tipton Mullins, of Clanton; Dr. Sam Welch, of Talladega; Hugh Merrill, of Cleburne, and A. J. Goodwin, of Anniston. Congressional headquarters will be established at Columbiana and a vigorous campaign waged. This is not because Hon. F. L. Blackman stands in any danger of losing the election, for the district is safely democratic, but merely that the organization may be maintained, that the people may be enlightened on the political happenings of recent days, and that the misdeeds of the republican party may be thoroughly exposed.

The republicans are going to pop their little gun tomorrow at Vernon Springs, in Calhoun county. They have to whistle, you know, to keep their courage up. Joseph Thompson, J. O. Middleton and Judge Reynolds will be the speakers.

It's a forlorn hope they are trying to bolster up—an ignis fatuus they are chasing.

A Silver Vase.

Of the many beautiful entertainments given recently, none has surpassed that given by Mrs. Guy Higgins on last Tuesday afternoon in honor of her sister, Mrs. James M. Fuller, of St. Louis.

This elegant home was handsomely decorated with cut flowers for the occasion, and, always beautiful and elegantly appointed for such affairs, it looked even more beautiful than usual.

The pleasant hours were whiled away with bridge whist, and to say that the participants enjoyed to the full each hand as it was played expresses it but lightly.

During the afternoon a most palatable lunch was served and enjoyed by the participants in the game.

Mrs. Gemmo Anderson bore off the honors of the occasion as the most skillful player, and was presented with a handsome silver vase as the trophy; Mrs. Fuller was presented with the honoree's prize, a handsome box of stationery, and Miss Bettie Mullins captured the prize designed for the one who succeeded in losing the most games—a box of confections. It is but fair to Miss Mullins to say, however, that she did win one game, for in cutting up the number of games lost she and Miss Rosa Thornton were found to have lost an equal number, and so to the "cut" for the prize Miss Mullins came out victorious.

Those present were: Mrs. Higgins, the honoree, Mrs. Jessie M. [illegible]

Clanton High School,
CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin on Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure the grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

Many Farmers
would like to keep an account of their receipts and expenditures if some one would keep it for them.
WHY
Open a Bank Account with the People's Savings Bank and you will find the account keeping with no expense.
NOT
Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts. Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It is a handy convenience to the farmer as well as the business man.
YOU!

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water.

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes Monday, Noon, [illegible], 1910

FOR SALE.

About twelve acres of rich level land within two miles of Court House at Clanton. Perfectly adapted to truck farming or dairy purposes. For information address "REAL ESTATE," care Clanton Press. tf

HE HAS SENSE.

In conversation with one of the foremost young men of the county several days ago, he said:

"You are devoting much of your space to the presence of the negro in republican conventions; don't you think that will tend to injure your paper with those who claim to be republicans?"

"No," we replied, "for the truth never injures anyone; it may work a temporary hardship upon my paper, because a large part of the so-called republicans do not really believe that negroes sit in republican conventions, but when they learn that The Press is telling the truth, they will not only support the paper, which has given them the facts, but they will honor the editor for having told them how grossly they have been deceived all along by designing politicians, who use them merely for the sake of securing their votes. If we thought that telling the truth about the negro in politics would hurt the paper, we would continue telling the truth rather than by telling a falsehood secure the subscription of every man in the county. These so-called republican office-holders know full well that they are practicing the grossest kind of deceit upon the white men of the county when they say that negroes do not sit in conventions and assist them in selecting candidates for whom they ask the white man to vote. If it affected only the white men of Chilton county, it would not be so bad; but alas! the injury does not and cannot stop there, and these white men who sit in conventions with the negro know that as well as you or I do. It reaches out into every section, and the greatest part of the injury falls upon those sections where the negro predominates. The fact that we shall never be in danger of negro office-holders does not in any way alter the case; these negro republican politicians are aided and encouraged by the white republicans, and then, being ashamed of their associations with the negro, which, of course, any respectable white man ought to do, they return home and tell the confiding so-called republicans that it is all a democratic lie, when, as a matter of fact, they are the ones who are doing the lying act—and they know it. None of them will dare deny it in the presence of The Press man, or any other man who has ever been to one of their conventions. They will go out in the country and tell the poor, trusting friend that no negro sits in convention with them, and yet they will balk by The Press offices day after day and never claim that $50 reward offered by this paper for one little denial of the negro proposition. It may be that they have some other way to make money—but that is another question; they cannot never explain it quicker [illegible]

shut The Press up by proving that we are telling lies rather than bear the charge of The Press of being deceivers themselves? Had you ever thought of that?" we asked our friend.

"Oh," said he; "now don't you go and rate me with the republicans; thank God I am not one of them! I was a populist, and so long as they continued to exist I continued to vote with them. Sometimes we endorsed certain candidates who called themselves republicans, and in the general elections I voted for them—not as republicans, however, but as populist candidates. You couldn't drag me into the republican party with a yoke of oxen; I know too well what my poor mother suffered at the hands of the republicans; I am too well acquainted with the history of my state and the struggles which the white men of our whole state had with the carpetbagger and the scallawag and the negro to ever think of going into that party. Excuse me—I am not a republican, and no candidate of the republican party can drag me into it. I love the fair women of this county too well to affiliate with the negro-loving republican party."

"Then you know about the negro, do you?" we asked.

"Know about him? Well, I should say I do. I have attended the convention at Calera and Birmingham and at other places many times, and I have my first convention of the republican party to attend where no negro was present as a delegate. Yes, I guess I know a few things myself."

"Then why don't you tell the people that these candidates are deceiving them?"

"You are mistaken, Mr. Editor; these people know as well as you do that negroes sit in republican conventions; they don't believe one word of what the so-called republican candidates tell them about that; they know it is a lie out of the whole cloth, but it suits them to make believe that they don't believe it. No man who has read history or who has ever been fifty miles from home can return and say he does not believe that negroes sit in republican conventions, even if thirty probate judges were to tell him it was false. You notice that the republican paper, issued by a simon-pure republican, does not deny it. He can't, for he knows it is true. He lets your fifty dollars go by, because he knows he cannot claim it. If telling the people would settle it, they would have had the question settled a thousand times, for they have been told that many times, and they know it is true. The great trouble is that they are prejudiced; they don't much care if it is true so long as they can vote against the democratic ticket; they know that if they admit that negroes sit in republican conventions and assist in naming candidates, then they would have to vote with the democrats—and they are so everlastingly prejudiced that they would rather see a candidate nominated by a negro convention elected to office than to vote for a democratic candidate."

"Now," said we, "you are going too far; we cannot believe that. There are many, many good men who really believe that no negro sits in the conventions; there are many who know that he sits there, but who have heretofore voted the republican ticket because of principle; there are others who voted for candidates endorsed by both the republican and the populist conventions, and who were sincere in their belief that they were supporting men who would not dare to deceive them. You are even harder upon the republicans than The Press is, and yet you say we are about to injure the paper. Some of our best friends are republicans; lots of them do not know what republicanism means, but as far as they understand it they feel that it is the party which suits them best. What The Press is striving to do is not to antagonize these good men—not to throw the negro at them or to ridicule them—but to make them understand that their own leaders are telling them what is not true—that the party of the negro is the republican party; that it is the party of high tariffs, of burdens to the poor and honors for the rich man, of trusts and combines. We believe that when they realize these things they will refuse to be led by designing men into that party; we do not believe that any considerable number of them will agree to be sold like sheep in order that one man may occupy office and build up a powerful political machine with which to parcel out the offices in the county to suit himself. We do not think they will be led off into bondage by any such ambitious office-seeker. That, and that only, has been the desire of The Press. But if you have been to their conventions and associated with them, why are you so much interested in things that would tend to injure The Press? Seems that you would like to see the paper made a failure, as some of the other republicans have attempted to do."

"No one has tried to injure your paper, have they?"

"Well, you ought to see a few letters I have received lately. Of course I know who inspires them; the writers show the characters of the men or men who are seeking to break down the circulation, but when we lose one we gain two. Again, we repeat, why do you object to The Press making mention of these things?"

"Well, you see, I have my associates [illegible]

per? Why don't they advertise with the paper? Such sympathy is all rot. They do not care whether the paper succeeds or not; what they are after is to keep the voters from knowing the truth, and they know The Press will tell the truth. We've made more friends by telling the plain truth and by showing up some of the dirty methods of some of these so-called republicans than we will ever lose in subscriptions. A few drop out occasionally—the fellow who makes a rush for the pie counter and don't like to hear his boss spoken of as king and main pin drops in occasionally and pays a few dimes and orders his paper stopped; but the large majority, knowing that HIS NIBS is getting just what is coming to him and "his'n," are not going to kick over the dashboard because a paper tells the truth."

"Perhaps so," said our friend; "I hadn't thought of it in that light before."

"Well," said we, "think it over and decide whether or not you are going to be a sheep or a man."

With this, the young man grew indignant, and bawled out:

"I told you in the beginning that I was not a republican, and I do not think you ought to class me with the republicans. I am not going to go into that party. I was a populist, but that party is now gone. I cannot go into the republican party. I may agree with many of its principles, but there are too many, too many things about it that I can't stand; the negro proposition is one, the high tariff is another, and then the fact that they are the ones who put the negro on us in the beginning is another. I don't like combines and trusts, and our young people will never have a chance in a party which recognizes that the first and only qualification for office of high rank is to have money and be a PIMP for some bigger office-holder. Oh, no; don't put me with them. I'm doing a little thinking myself this year, and will not be bought or sold like a steer. Get back the real people's party, and I am at home; but in the republican party I seem to smell something that turns my stomach—no, I'm not in that party."

Now, what The Press desires to say is that there are many young men just like this one; he is true blue, a Southernor to the manner born, a lover of home and home institutions. They will not be led bag and baggage into the party which has inflicted so much of wrong upon their mothers and fathers; they will not agree to be led off by designing politicians into the party which has given them trusts and tariffs and money kings, and has taken from them the right to aspire to office upon a merit of brain; they will not affiliate with the party which seeks to establish, and has established throughout the North, one school for negroes and whites combined, and are now trying to do the same thing in our own Southland. The position which this young man occupies is similar to that which many other men, both young and old, occupy—they were populists, but they will not become republicans.

They are going to join forces with the democrats and help us build up this county; help us establish white supremacy not only in Chilton, but throughout the entire South; help us to have a government of the people, for the people and by the people, rather than a government of the king, for his nibs and by the main guy.

They've got an entire and superabundant sufficiency of ring rule by one "big Injun heap much" and his clan, and they propose to break into that ring and have a word or two themselves.

DOES HISTORY REPEAT?

Somewhere in a recent exchange we read of a fellow who had held office for quite a while; his term had about expired, and he was seeking re-election. There was a big gathering, and he was making a speech. In the course of his speech he took occasion to tell the people—the dear people—what he had done for them. "I have done this," said he, "and I have done that," said he; "I have fought your battles against every foe; I have often had no bed to lay upon, and no pillow for my head; I have slept upon the cold, damp ground, with the blue canopy of heaven for my covering; I have marched over the frozen ground; I have built bridges and straightened roads, and I have—"

But about that time a fellow from the rear rushed forward, and said: "I'll be gol-darned if you hain't done about enough for us folks; you go home and take a long rest; we'll put another fellow in to do that work next time. Much obleeged for what you've done, but for one, I'm agin workin' any fellow too hard."

Will history repeat?

HEAP SEED DEW KNOWS.

What we want to know is, what was that detective doing here for, anyway? Somebody said as how he was here after them that he was hunting up blind tigers. He seems to have found a gulf of [illegible] but the gulf threw him off—some way. Whoa, Anne, whoa! Who was with him?

WHO MENTIONED PIE?

[illegible]

Now is the time to buy your Syrup Barrels, Kegs and Jugs while we have a full stock.

The prices are right, and the goods the best to be had on the market.

GAMBLE HARDWARE CO.

Clanton, Alabama

hundred dollars—how ought the warrants to be drawn?

Cost of bridge, SIX HUNDRED DOLLARS?

Yes, but the warrants ought to show that way, too, oughtn't they?

In other words, the people ought to know that the ACTUAL cost of the bridge—the CONTRACT price—was FIVE, and not SIX, hundred dollars, oughtn't they?

Now oughtn't they?

Marse Jody Thompson says dat he's gwine ter git into de runnin' for guvner. Marse Jody also remarks dat Marse Roosenfeldt kin git de nomination ef he wants hit.

He is the same Marse Jody what sayed some other things what didn't come edzactly true.

But Marse Jody has got kinfolks down here what is powers defselfs; de king pin is a cousin uv sum sort uv his'n.

Tell you what, hit sho' is good to have big kinfolks when you wants to be de whole push. Deys exquirts in handlin' pie and sech things.

MISTAKE, BROTHER.

The Pine Hill Blade remarks: "There is an old-time scrap on in Chilton county. Billingsgate is being freely indulged in by the Clanton press. Remember that word 'press' is spelled with a small 'p.'"

Anyway, he's mistaken. It isn't Billingsgate; it's pie and fishes and loaves that are being indulged in—not Billingsgate. Who wants Billingsgate, anyhow, when he can get pie?

What use have we for Billingsgate when there are fishes and loaves?

You don't know what a master hand our PEACHERINA is when it comes to doping out pie, or you'd never mention Billingsgate. Take it back, or we'll put the MAIN GUY onto you.

Were any fishing permits given out last week? We haven't heard of any. Maybe HIS NIBS wants to drain the pond before he lets any of those little skunk-traitor fellows try their luck.

Mister, do you love pie?

Pie? What is pie? Never tasted any.

That's what the BIG PIN lives on; ask him—he'll give you a piece.

I did ask him, but he wouldn't give me any; said 'twas all for his folks.

How's fishing, buddy?

No good, mister; HIS NIB'S been here and caught everything but a few suckers. And now he's gone after bait to catch them.

What's that in your bucket, little skunk-traitor?

Nothin', had a leetle piece of pie in thar, but the KING come along and sed he wus hungry, and reached in thar and took it.

Didn't you get to be committeeman, little skunk-traitor?

No, sir; I got what was left. HIS NIBS wanted the committeemen, so he sed I could stand close by and see his man take the oath—that's all I got—just a chance to see HIS NIBS and his men take the oath.

Like to run my fool self to death for that office, and then didn't get it. If the BOSS had just told me he wanted it for his folks I'd er knowed better'n to run; but he didn't tell me, and so I run like er fool—not knowin' he was goin' to head me off in the home stretch.

What is a skunk-traitor, anyway? Seems to us we've heard the word somewhere.

A skunk smells bad and a traitor acts bad—that is, it goes back on the KING.

Then a skunk-traitor must be a fellow that smells bad and don't vote right. Am you one?

What kind of pie did you get, sonny?

Dunno; KING and his folks eat it all up.

What's that on the KING, anyway?

Mustn't [illegible] KING.

A New Store for Clanton

T. G. Mackey & Son, of Birmingham, have opened a new stock of merchandise in the store formerly occupied by M. F. Cannon & Sons. The new stock consists of shoes, dry goods and gents furnishings.

A remnant of the stock of Cannon & Sons, consisting of plows, plow points, horse collars and harness will be disposed of at wholesale cost to make room for the other new merchandise which is daily arriving.

Our goods are right; our prices are right.

We solicit a share of your patronage guaranteeing you fair treatment, a square deal and uniform courtesy.

Mr. Jake Shepherd will be found behind the counters of the new firm to greet his friends.

Call, inspect and get our prices.

Yours anxious to please,

T. G. MACKEY & SON,

CLANTON, ALABAMA.

Sho'; he gits pie and sylubub, an' fishes an' cake, an' loaves and jam, an' all dem things.

Well, how come you don't get any?

De KING, he don't think it's good fer my health.

Too bad, skunk-traitor; too bad!

One day an old negro man was confined in a hospital. At frequent intervals the nurse would go to the old darkey and take his temperature by placing a thermometer in his mouth. They had given him nothing to eat for a day or two, trying to get his stomach in perfect condition for an operation.

One day the doctor called into his room, and, after asking several other questions, asked the old man if they gave him anything to eat.

"O, yes, sir; every onct in a while dey gives me a piece ob glass to suck!"

That's what the skunk-traitors got—a little piece of glass to suck; the MAIN PIN and HIS FOLKS got the pie.

According to the state law and the city code, the election for mayor and aldermen will come off on Monday, the 19th of September.

As yet no candidates have announced. It is now time you were making yourself known if you want office.

Come out in the open; let the people know whether you belong to the L. & N. or not. Tell them if you want their votes and what you propose to do about the steam whistles, the pistol-shooting and the loafers. Announcements are now in order. Who will be first?

The Press was very much gratified to see last week a letter written by one of the high officials of the L. & N., in which it was stated that much complaint was indulged in by the people of Clanton against the incessant blowing of whistles and the fast running of trains through the city. In the letter was an order directing that each engineer be instructed to use his whistle as little as possible, and, when used, as moderately as possible. The letter also instructed that trains should slow down to a speed not exceeding ten miles per hour in passing through the city. Thank the L. & N. official for this order. Now, providence that it is obeyed, and nothing further will be said by this paper. Up to date, however, the order seems not to have been promulgated—or, if so, is obeyed in the breach rather than in the keeping, in so far as the whistling part is concerned.

---

is coming, so we hear.

"That's giving him h—, isn't it," was the remark made by a certain engineer as he pulled the whistle wide open and sent out five long, lingering blasts that almost waked the dead.

He was "just foolin'," too, we assume.

Nice of the railroad to issue orders, but it would not hurt if an ordinance or two to be passed in case of "needcessity."

We wish to call the attention of our readers, and especially all good democrats, to the fact that Chilton county's representation in the future conventions of the party, state, congressional and senatorial, will be based upon the vote cast in the November election. Therefore, it behooves us to secure as large a vote as possible, as we hope to have a voice in future county councils. Let every democrat point himself a committee of one to see that every other democrat casts his ballot for the party nominees in November.

The day is coming when Chilton county's voice shall be heard and heeded in party conventions. We can only ten that day by our activity from now till the election.

Make it a part of your business to see that your neighbor gets in line and deposits his ticket for those whom the democracy has named as its standard bearers.

Don't neglect a single name on the ticket; study the list of democratic nominees and be prepared to scratch the ticket with accuracy when the time for voting comes.

Help to swell the voice of Chilton in party councils by increasing the vote of the democracy at least tenfold this year.

In all well regulated systems of government there are three co-ordinate branches—the legislative, the executive and the judicial. One branch cannot properly trespass upon the prerogatives of the other or discharge duties other than those which belong in its own peculiar branch. The mayor or chief of a town cannot arrest a citizen for the violation of an ordinance, nor the mayor of a city cause the passage of such desired ordinance when the same has never been properly enacted by the legislative branch of the government. A judge cannot pass upon the constitutionality of a thing which exists only in the desire of the people. All of this is decidedly expressed, but it is nevertheless true, and, if true, it is as much so as the legislative branch [illegible]

rtainment. The
time.

Mr. Dardis treated his class to a melon-cutting Monday night, and a most pleasant occasion it was.

Mr. and Mrs. Crum gave a joint entertainment to their classes on Tuesday night. Those present report having had a most magnificent time.

There were 91 present at the Baptist Sunday school last Sunday. This seems to be an exceedingly good average for this season.

Mr. R. J. Mitchell is visiting his brother, T. A. Mitchell, at Lawley for the week.

Mr. Alred, of Cooper, is visiting his daughter, Mrs. Calloway, here.

Miss Frankie Lawrence has visitors this week.

Mr. T. E. Elam brought in four bales of cotton this week. The price is now good. How would you like to have about 100 bales on hand, Mr. Editor? That would be good pie, wouldn't it?

(Can't say; it's too much to even contemplate.)

Dr. Potts went to Selma last Thursday on business.

Miss Armstrong, of Montgomery, is visiting the family of Dr. Claughton this week.

My! don't people visit a lot? I never did visit much; never did have time. It is mighty nice on the fellow who does the visiting, but not so good for the poor lady who has to do the entertaining.

I heard a fellow say once that he liked comers and goers, but had no use for comers and stayers. That's a good policy.

There were two coffins leaving here at the same time one day last week. This is the first time in the history of our town that this has happened. The first contained the body of a Mr. Barnett, a citizen of West Perry county, and the other that of Eddie Smith, who lived near here in the county. He was buried at Mulberry Shurch, just east of here. He was a son of Mr. J. P. Smith, a prosperous farmer of this section. He married a Miss Atchison.

Business is picking up in the blacksmith line. Mr. Duke now has two helpers, and Mr. Abrams is also running a shop on the Bender place.

J. W. M.

Thorsby.

On Saturday morning last a large crowd of Thorsby people took advantage of the cheap rates to Chicago and other northern points. Among those who went were: Mrs. I. S. Gerald, Mrs. H. Simonton, Mrs. Mead, Mrs. Carl Peterson and son, Albert, Mr. Carl Langville, Mr. P. K. Villadsen and Mrs. J. F. Peterson.

Mr. Thomas Bosworth left for an extended visit to his home friends in Portland, Indiana.

The Louisville and Nashville railroad has begun shipping in material for the new city park, to be situated near the depot. The people of the town here are all looking forward to its completion, as it will add greatly to the appearance of the town.

On Thursday evening the Thorsby people will be given a musical treat, when the singing school conducted by Professor Eagle at the Crossroads schoolhouse will render their musical exercises at the Thorsby Institute. Professor Eagle is well known among us, and his exercises are highly entertaining.

Mr. George Peterson arrived home last Monday evening from Birmingham for a week's vacation.

Mr. D. N. Ogletree arrived home Monday evening from his wedding trip, which was quite a surprise to a good many of his friends. We all wish Mr. Ogletree and his wife a long and happy life together.

WOOD'S.

Please allow me a little space in your interesting paper to say a few words to your many readers this lovely Sunday morning.

The health of the community, generally speaking, is very good.

Mr. John Chandler has moved from the community. We wish him much success in his new home.

Mrs. Addie Carter and winsome little daughter, Winnie, paid a pleasant call to Mrs. Mattie Chandler Friday afternoon.

We take it for granted that all who can will attend the picnic at Pilgrim's Rest next Thursday (today).

Mr. William C. Walker, of Fort Worth, spent Sunday last with friends here.

ing at Evergreen the 'coppers' a grand time.

Everybody listen! Mrs. Addie Carter and lovely daughter, Winnie, and I went fishing on Mulberry creek Saturday afternoon; sure did enjoy our trip, but the funniest thing—we had to sit and hold torches made of rags to keep the mosquitoes away. Don't you all imagine how fine we looked sitting beside the creek with a fishing pole in one hand and a bundle of rags in the other! Nevertheless, we enjoyed the trip. Well, must say goodbye for fear of the waste basket.

A WOOD'S (ALA.) GIRL.

Well, you missed the basket this time, so we shall expect you to "call" again. Of course, you caught a fish three feet (or inches) long.—Editor.

SOLDIERS' HOME.

The picnic and barbecue of the Red Men came off Saturday, the 13th, in a fine grove near the station. It was a grand success, and a great concourse of people were present. Everything contributed to the success of the occasion.

At the Home we felt some of the effects of the day's outing, for some of those present, seeing that the crowd was likely to be too great for pleasure, came over to the Home and gave us the pleasure of their company. Among those who were with us were Prof. A. C. Simmons of Deatsville, Mrs. Simmons and Miss Myra Simmons, Mr. and Mrs. T. E. Baggett, Mrs. Myra Nix, Mr. J. R. Nix, Miss Kate Goree, Miss Libbie Strock, Mr. James Goree of Deatsville, Mr. J. L. Knowles of Ensley, Miss Zorah Tatum of Birmingham, Miss Geneva Barbour, Leola Driver, Eva Driver, Roena Billingsley of Verbena, Misses Willie B. Morris, Annie Morris, Nettie Cooper and Mr. W. C. Sanders of Deatsville.

Mrs. Nix, Miss Strock and others gave us some delightful music and entertained the veterans so very pleasantly that we are anxious to have them come again, and often. We are glad to state that we have good accounts of our commandant, Capt. Simpson's, condition and improvement.

W. B.

COOPER'S CROSSROADS.

Will a small space in your paper be given to us this week?

Crops are very good in our section, and the health of the people is exceedingly good.

We are glad to report that the corn crop is excellent, more corn having been planted than formerly and a better yield having been obtained. Some of the farmers are busy just now saving fodder.

The series of meetings at Chestnut closed with a baptising on last Friday. This was one of the most successful meetings we have had in some years. Rev. Mr. Hughes, the pastor, was assisted by the Rev. William Jones, of Birmingham, who, though a young man, is one of the most godly of all the men we have had the pleasure to meet.

The Sunday school at Chestnut is growing rapidly. We are sorry that our school is not progressing equally as well. This is because the young people fail to attend. We would like to have all come out and assist us in building up the Sunday school. Come; we need you and you need the Sunday school.

The day school at this place is progressing nicely under the management of Prof. J. A. Hunter. He has been elected as teacher for next winter.

Mr. W. E. Thomas and wife, of Jemison, are visiting relatives and friends here.

Mr. Phillip O. Barrett went toward Providence Sunday morning. Some say he stopped down on the river.

Death's angel called Uncle Billie Tay from this habitat of sin and woe on last Saturday evening at 8 o'clock. His remains were laid to rest in Chestnut Creek cemetery Sunday afternoon at 2 o'clock, a large crowd being present. Our sympathy goes out to the bereaved loved ones. Weep not; he is at rest without pain or care.

Much and lasting success to the editor and The Press readers.

FRED KAUFFMANN

MADE TO MEASURE GARMENTS

ARE THE MOST PERFECT UNDER THE SUN

Several million people know the fine made-to-measure clothing for men made by Fred Kauffmann, Chicago.

This tailoring organization has built up the greatest made-to-measure business of the country, running into so many million dollars that you'd use up thumbs and fingers tallying it off.

This great business has been won—and is being held—by carefulness.

Their designers get larger salaries than the members of Taft's Cabinet; their buyers of cloth are national experts; their standard for cloth, at our suggestion, is absolutely all-wool.

Fred Kauffmann secured us as representatives with the determination of making Kauffmann tailoring as standard in this vicinity as [illegible] or Waltham watches.

Tailoring that is guaranteed by seven simple words, namely: YOUR MONEY BACK UNLESS WE PLEASE YOU. This guarantee is backed by the mill, the maker and us.

Kauffmann has sent us a message: *"We'd like to spend some money to further expound our tailoring. What would you suggest?"*

Our answer was: *"Spend it by giving us a reputation that will capture the town."*

The first step up with users for Fred Kauffmann tailoring is to get it upon speaking terms. It will win their permanent friendship, and so we will take your measurement for made-to-your-personal-order garments at prices which have never before been quoted for Fred Kauffmann tailoring, namely:

INFECTION IN THE PRISON

Peculiarly Favorable Field There for the Spread of the Scourge of Tuberculosis.

Only twenty-one prisons in fifteen states and territories have provided special places for the treatment of their tuberculosis prisoners. These institutions can accommodate, however, only 800 patients. In three-fourths of the major prisons and in practically all the jails of the country the tuberculous prisoner is allowed freely to infect his fellow prisoners, very few restrictions being placed upon his habits. When the congregate mode of prison life is considered, the danger of infection becomes greater than in the general population. New York and Massachusetts are the only states where any systematic attempt has been made to transfer all tuberculous prisoners to one central institution. The largest prison tuberculosis hospital is in Manila, where accommodations for 200 prisoners are provided. The next largest is Clinton prison hospital in New York, which provides for 150.

Where Millions Are Entombed.

The catacombs at Rome were the burial places of the early Christians. They are about 580 miles in extent and are said to have contained 6,000,000 bodies. During the persecutions of the Christians under Nero and other Roman emperors the catacombs were used for hiding places. Under Diocletian the catacombs were crowded with those for whom there was no safety in the face of the day. The art of the catacombs is unique and most interesting. Simple designs are etched in the slabs which seal the tombs. Now and then are small chapels whose paintings are to be found. All are Bible illustrations, so that the catacombs may be said to be a pictorial Bible in effect.—The Christian Herald.

A Specialist.

"I don't see you on the messenger force any more, Jimmy," said the lad with the envelope in his hand.

"No; I've got a good job with a dog fancier," replied Jimmy, as he puffed a cigarette.

"Wid a dog-fancier? What do you do—feed the dogs?"

"Naw! When a lady comes in and buys a pet dog I teach 'er 'ow to whistle."

Hard to Convince.

Little Tommy (eldest of the family, at dinner)—Mamma, why don't you help me before Ethel?

Mamma—Ladies must always come first.

Tommy (triumphantly)—Then why was I born before Ethel?—Tit-Bits.

Might Do It.

"Do you know anything that will kill potato bugs?" asked the young man with the yellow fingers.

"Yes," said the old lady with the gingham apron, crustily, "get 'em to smoke cigarettes!"—Yonkers Statesman.

The entire nature of man is the garden which is given him to cultivate.—W. E. Gladstone.

The professional man who can't make a living can go around sneering at the business man who can.

Right food a basis
For right living.
"There's only one disease,"
Says an eminent writer—
"Wrong living
"And but one cure—
"Right living."
Right food is supplied by
Grape-Nuts
It contains the vital
Body and brain-building
Elements of wheat and barley—
Most important of which is
The Potassium Phosphate,
Grown in the grain
For rebuilding tissues
Broken down by daily use.
Folks who use Grape-Nuts
Know the reason why.

AN ODE TO PIE.

Republican Star.

If I had a piece of pie,
I tell you what I'd do;
I'd take a bite myself
And give SOME PIE to you!
Sho' would!

The KING he had some PIE—
You know just what he done!
He ate it all HIMSELF,
Then put YOU 'on the run.
Sho' did!

He cut another PIE,
And gave it out to folks
Who voted just HIS way
And listened to HIS jokes—
Fer a fac'!

He had another PIE,
And took a great big HUNK
And gave it to a man
That wasn't any SKUNK—
That's you!

He carved another PIE
(This one was made of 'TATER),
And HE gave it to a fellow
That wasn't any TRAITOR
Come on, boys!

He had another PIE
('Twas baked in a PAN),
HE give that to a Yank
Who's a newspaper man.
Ah, there!

Chorus.

Who? Who? Surely not you!
You ain't in it, you see.
'Cause why? Won't you tell?
No, I ain't; you go to h—l
I won't tell you, 'cause I don't have to,
And I reckon that's reason enough.
If you want to know more, you can ask till you're sore;
You can't get no pie—no apple or core.
I don't care a dang nor a cuss nor a ding,
'Cause I just want to say in an old-fashioned way
That I am the great big KING.
So it's up to you now to get back to your PLOW,
For they're needing you out in the field.
When I need you again I'll send for you then.
Now the primary's ended and sho' do look splendid
To ME, your MASTER and KING!

WHOM I MET IN CLANTON.

(By Mrs. Mary T. Whitson.)

Clanton, the capital town of Chilton county, Alabama, is one of the prettiest towns in the state. I have not met anywhere a more intelligent or more congenial people. The beautiful streets, the handsome business houses and the beautiful location impress everybody who sees it. Clanton is growing all the time, and the streets are being improved. Splendid cement pavements make walking a pleasure.

Politically, Clanton, like Shelby, is very much divided. All the county officers except the sheriff, who was appointed, are republicans.

Clanton has a good bar. Messrs. Adams, Mullins, Middleton and Curry are the leading lawyers. The population of Clanton is about fifteen hundred. Two banks, five lawyers, five doctors, two dentists, a fertilizer company, lumber company, three warehouses, four newspapers—The Press, the Banner, the Union and the Socialist View—make a good showing.

Clanton has got the best hotel in Alabama—the Hotel Palmer. Mrs. Palmer sets before her guests the most palatable cooking I ever ate. The hotel is the loveliest place in Clanton. The dining room is always full and the spacious galleries always crowded. She is a gracious landlady.

Hon. E. A. Matthews, mayor of Clanton, and cashier of the Bank of Clanton, is one of the most progressive citizens in Chilton county. He is a whole team within himself. Dr. Matthews is the foremost man in any enterprise that tends to the development of Clanton. He was born near Marion, in Perry county, Ala., Sept. 4, 1857, and graduated from Howard college in 1880, and also from the medical department of the University of Alabama. He came to Clanton in 1886, and at that time he was the youngest doctor in Clanton; now he is the oldest.

The Clanton Bank, of which he is the cashier, was organized in 1901 with an authorized capital of $50,000, $15,000 paid in. The bank has declared an annual dividend of 10 per cent; the deposits have gone from $30 to $100,000; the bank is amply provided against thieves by a burglar-proof safe and steel vaults and carries burglar insurance. W. J. Mullins is president, W. H. Foshee vice-president and E. A. Matthews cashier. There are six directors, including the officers, E. H. Wilson, H. M. Milner and [illegible]

Dr. P. H. Hopkins, a native of Tuscaloosa, also graduated at Auburn in 1899. The drug store is elegantly appointed, and the shelves filled from top to bottom with a handsome line of everything found in any drug store. The fountain was purchased at an expense of $2,500.

Paints, oils, varnishes, school books and notions of every kind—in fact, you can get almost anything you call for here.

One show-case is full of glittering cut-glass, also a great variety of lovely jewelry.

The arrangement of the goods and the immaculate cleanliness of the store appeals to people of refined taste.

Mr. Upchurch is a graduate in pharmacy, and has made a success in getting the best class of custom.

The great piano contest will be over December 5th, and somebody will be happy.

The Forest Lumber Company.

The Forest Lumber Company started in business in Clanton six or seven years ago. The company handles yellow pine, oak and poplar lumber. This is one of the biggest industries in all this section of Alabama.

The company handles about 125 cars of lumber monthly. Business amounts to about $200,000 annually.

The company operates a modern planing mill plant and retail yard at Clanton, which turns out all kinds of finished lumber for building purposes and gives regular employment to some 25 men.

Mr. W. H. Foshee is one of the popular traveling salesmen of the company, and one of the best men in Chilton county. Mr. Thomas D. Woods, another salesman, is well and favorably known as a promising young lumberman. He is in charge of the office.

Mr. Guy Higgins, who is at the head of the business, has a high standing among the lumber men in the South. He was reared in Blount county, Alabama, and is an expert in the yellow pine and hardwood lumber business.

The Chilton Warehouse and Manufacturing Company.

The Chilton Warehouse and Manufacturing Company was organized in 1905. The company manufactures all grades of fertilizer; also operates a good ginnery and cotton warehouse.

Capacity of the fertilizer company, 100 tons per day, sold throughout every section of Alabama; handles about 6,000 bales of cotton in a season. This is one of the biggest industries in Clanton.

Mr. Moses Robinson is president of the company, Dr. E. A. Matthews general manager, and Mr. J. E. Robinson secretary and treasurer.

J. E. Robinson is one of the twenty-two Shriners in Chilton county. He was born and educated in Chilton county; has a very comfortable office, also a vault—the walls 22 inches in thickness—built in the walls. Mr. Robinson married a young lady of McRae, Ga., and has the prettiest baby in the county.

Conspicuous among the beautiful residences is that of Mr. Guy Higgins, near the court house; also that of Dr. Matthews and Mr. E. M. Pinckard. These houses are as handsome as you will find in any city.

E. M. Pinckard & Co.

Do a handsome business of from $125,000 to $135,000 a year, and handle about half the cotton brought to Clanton.

Dimensions of their store, 40x80, two stories; carry as fine a line of general merchandise as you will find in all this section. He is personally very popular, and one of Clanton's wealthiest merchants. Mr. Pinckard was born in Tuskegee, and was a charter member of the Montgomery Elks.

If you ask who the leading merchants in Clanton are, they will answer, Messrs. Pinckard, Sartor, Mullins, Jones, Hicks and others.

The Clanton Millinery Company.

In charge of the fashionable milliner, Mrs. Clara Mullins, who has had a successful experience for the past six or seven years, was opened up one year ago.

Mrs. Mullens has exquisite taste, and her bonnets and hats are creations of loveliness.

She buys from the most fashionable houses in Louisville and St. Louis. The city of Louisville is noted for its swell dressing.

Miss Mabel Hall, a fashionable trimmer, will arrive soon to work for this establishment, and the fashionable ladies of Clanton need not patronize Montgomery or Birmingham. Mrs. Mullins will show you as artistic decorations as you can find in either of those cities.

Personally, Mrs. Mullins is a charming lady.

She will have her opening early in October.

W. J. Mullins.

W. J. Mullins, general merchant, started about 1895. Was in partnership Mullins Bros. Business badly rush to $100,000; the same by the present partners. Handles from large to low [illegible]

But parents dear, do not grieve
When your little darling is in heaven to live, folded closely in Jesus' arms.

He was laid to rest at Providence cemetery. Brother W. W. Robinson preached the sad farewell, which was a beautiful illustration of the blessed Word.

I

They closely held within their arms
a jewel rare;
Never had one so rich and fine engaged their care.
'Twas their own, their precious jewel
—God gave it them.
'Twas theirs; who else would care for it so tenderly?
But the dear Master came that day
their jewel to take.
"We cannot let it go!" they cried,
their hearts to break.
Nay, but the Master came for it to
bear above
To deck His royal diadem. He came in love.
"But, Master, it is our treasure—our jewel rare;
We'll safely guard and keep it pure and very fair."
"If thou keepest My gem," He said,
"You might be lost.
The threshold of My home no thief has ever crossed;
And where the heart's rich treasure is
your hearts will be.
Your jewel will be safe above, gone before thee."
The Master said these words, and
gazed with pitying look,
While, as the lengthening shadows fell, their jewel He took.
Close to their hearts that day they
held, tears falling fast,
Their only darling and bright gem was home at last.
"Yes, Master, Thou mayest keep our own, for it is Thine—
Safe in the house not made with hands, it is ever Thine."

One Who Loved It,
MARTHA DUPREE.

Dr. P. I. Hopkins.

I met Dr. Hopkins in his cozy office, which was full of waiting patients. He does a good deal of special work. Dr. Hopkins was born in that far-off country, Australia, at Melbourne. He came to the United States in 1884, and lived some years in Ohio. Graduated from the Vanderbilt University, medical department, at Nashville, Tenn. (where the writer was born.) He lived two years at Bessemer, near Brighton.

He is a member of the state and county medical societies, and is the health officer here. He has a large practice.

Clanton has the nicest postoffice and the most elegant postmaster I have met anywhere—in the state or out of it.

Mr. Felix O. Dudley was appointed by President Roosevelt, whom I think is a greater man than even King Edward was, in 1903. This is a third-class office. When Mr. Dudley took charge the office was in an obscure corner of a grocery store. Now he has handsome quarters, spacious; and if you will call in his private office you will see he has the surroundings of a gentleman to the "manner born."

There are 170 lock boxes and seven rural routes. The government pays $35 per month for the building, with a ten-year lease.

Mr. Dudley went to Washington and made an application to Mr. Hitchcock for a postal savings bank for the postoffice.

Mr. Dudley has given perfect satisfaction. He has the endorsement of the best people—democrats and republicans—for reappointment. Is endorsed by the republican state committee, the republican national committee and the two United States senators, Bankhead and ex-Governor Joe Johnston.

Felix Dudley is as perfect a gentleman as you would ever meet—young and unmarried.

Mr. S. W. Collins.

The popular clerk of the circuit court, republican, was elected six years ago. Was born in Chilton county in 1881. Educated at the Ninth District Agricultural School and at Massey's Business College. Not a candidate for re-election.

Judge Reynolds, probate judge, was born in Macon county, Alabama, October 10, 1864, elected in 1904. Member of the legislature 1896-97, 1898-99, 1903-04. Elected to the state senate in 1910.

Candidate for re-election to probate judge.

Sorry not to have met all the county officers.

J. V. Higgins, Jeweler and Optician.

J. V. Higgins, jeweler and optician, has one of the swellest places in Clanton. His plate-glass front shows off beautifully. Inside the store is very handsome—watches, diamonds, rings, chains and bracelets; silverware arranged with great taste and care—very attractive. Mr. Higgins is prepared to fit glasses to the most difficult eyesight. He has been here three years, and has been very successful in building up trade from the best people.

He is going to put in a fancy metal ceiling—the kind you see in fine banks—also wall cases and an umbrella stand in the middle of the store.

He was born in Coosa county, Alabama, and graduated in optics at the National Illinois College in 1909 as Doctor of Optics. He is a member of the National Jewelers' Association, headquarters at Birmingham, Ala.

The beauty of it is he owns his house and lot. His business rooms are well equipped for the execution of any kind of work in his line.

He is a member of the State Optical Society and of the American Association of Opticians.

Mr. Higgins owns a mortor cycle which cost $250, and can make a mile in 26 seconds.

He has three distinct departments—repair, optical and jewelry.

IN MEMORIAM.

On the 16th inst., at 12:30, the death angel visited the home of Mr. and Mrs. R. F. Wyatt and took from them their son and only child.

Little Acey was 20 years old April 2, 1910. But at six months old the hand of misfortune was laid upon him—disease that made him an invalid. It took his mind and strength. He never spoke one word; he never took one step. Just lay in his cozy little bed, humming and rolling, and sometimes laughing or giving a sharp cry. Suddenly he would be overtaken with severe convulsions—sometimes often, for weeks at a time. All of this life, doctors failed. All physicians could do no good. All that loving parents could do was done for him that learned physicians could do for suffering, but all would be done for him [illegible]

THE IMPORTANCE OF KIDNEYS.

Weak kidneys fail to re[move] sons from the blood, and cause of backache, headac[he] ary troubles spells. To h[ave] health keep neys well Kidney pills all kidney Mrs. Sop[hia] quist, 10 W. Jamestown, says: "Doct[or] could not months. I w[as] ed to twice size and frie[nds] not recognize was perfectly helpless and w[ould] death. Rapid improvement place after I began using Do[an's] ney Pills, and in six weeks cured.

Remember the name—Doan's sale by all dealers. 50 cents Foster-Milburn Co., Buffalo, N.

It is easier to raise a debt than a mortgage.

One-half the world is busy to separate the other half from it.

For COLDS and GRIP
Hicks' CAPUDINE is the best remedy. Relieves the aching and feverishness—Relieves Cold and restores normal condition. Liquid—effects immediately. 10c., 25c., 50c. At drug stores.

A perfect love, even when it is still an eternal possession, is so sacred that its deep peace often passes into an absolute content.—Hillis.

Her Rest.

"How do you expect to spend your summer vacation, Mrs. Brown?"

"Frying fish for the men folks, I suppose."

Those Cocked Hats.

Dilly—My salary is knocked into a cocked hat this week.

Dally—Why?

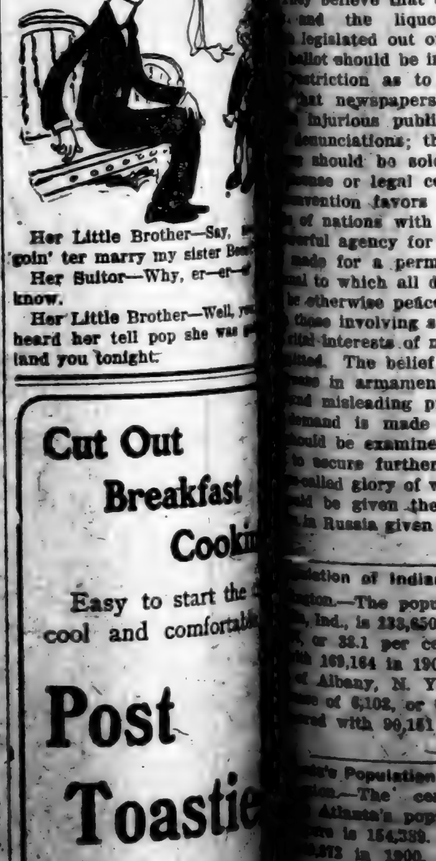
Dilly—My wife's chanteclers take it all.—Town Topics.

In the Suburb.

"What beautiful public building is that?"

"That isn't a public building; it's old man Savitt's summer cottage."

"And whose neat little cottage is that over there with the tower?"



"The little one-story frame affair?"

"That isn't a cottage. It's the Episcopal church."—Life.

Bores Barred.

A reporter asked Mr. Roosevelt for the Outlook office how he got so much work, and at the same time saw so many people. "I shun them," was the reply. "I don't waste a minute of my time on bores. Do you perceive that I have only just one chair in this room? You see, my long experiences have shown me that bores are always of small calibre."

GAVE SIS AWAY.

Her Little Brother—Say, you're goin' ter marry my sister Bess?

Her Suitor—Why, er—er—I don't know.

Her Little Brother—Well, you heard her tell pop she was goin' ter stand you tonight.

Bond Bill Is Passed.

Baton Rouge, La.—The senate of the Louisiana assembly passed the special tax and bond issue bill providing $6,500,000 for the Panama Exposition Company, of New Orleans. The bill now goes to the house, where assurances have been given of its passage next Friday.

Atlanta Has 154,839 People.

ashington.—The census bureau made public the following population returns:

Georgia—Atlanta, 154,839; last census, 89,872; increase, 72.3 per cent.

Population of Canada.

Ottawa, Ont.—The population of Canada March 31 was 7,489,781, according to the estimate of the census department.

Preacher Stole Needed Money.

Zanesville, Ohio.—Rev. A. Hauberch, pastor of the Mitonsburg, Ohio, Lutheran Evangelical church, was arrested charged with the theft of seventeen watches and other jewelry valued at $300 from students at Eden Theological seminary at Clayton, Mo., where he was on probation. The pastor said he stole because he needed the money and that, on account of suspense, he was glad he had been caught. He said he would learn some useful trade in prison, so as to be useful upon gaining liberty.

Dr. A. W. Calhoun Dead.

Atlanta.—Dr. Abner W. Calhoun, one of Atlanta's foremost citizens and one of the most noted physicians in the South, died at his home here. Two years ago Dr. Calhoun's health began to fail, and last January he became so much worse that he had to give up the practice of his profession. For four or five months prior to his death he was confined to his bed. In the death of Doctor Calhoun Atlanta loses one of her best citizens, and the world a physician whose work in life was to relieve suffering humanity.

FORTUNATE.

Myer—According to reports there are no cats in the Arctic regions.

Gyer—That's a fortunate thing for the native, isn't it?

Myer—How so?

Gyer—Well, just imagine cats in a country where the nights are six months long.—Chicago Daily News.

Smoking and Big Hats.

For instance, take smoking—and, of course, spitting. What could be a more unsanitary, disgusting and filthy habit. Delicate women are constantly called upon to suffer in silence in public places because it is man's pleasure to smoke. Now, then, if it is woman's pleasure to wear large hats for a few short seasons, should man protest? Large hats improve the appearance of most women, and women, as a whole, are careful enough to see that their long and dangerous hatpins are so fixed as to protect. As women are naturally more sensitive and solicitous for the comfort of others, it is only an exceptional small proportion who would

Cut Out Breakfast Cookin

CONDEMN WAREHOUSE PLAN.

Alabama Farmers' Union Opposes the Hanger Plan—National President Talks.

Montgomery, Ala.—Strong opposition to the proposed plan of John Hays Hammond, Daniel J. Sully and other cotton men to establish a chain of cotton warehouses developed at the session of the Alabama Farmers' Progressive and Co-operative Union.

National President C. S. Barrett referred to it in his address to the convention. He said:

"A meeting was called, Atlanta being selected for it, to discuss the advisability of gathering under one business organization the control of the union warehouses in Georgia. There were more than 130 such establishments at the time, the number being second only to those of Texas.

"It was proposed to have a boss, a big man to run the business, to have it under the control of a few men. It was proposed to the farmer to give up his rights and turn the control over to the boss. A year later, another meeting was held and the plan failed to carry.

"I advised that we never surrender our rights; never to surrender the rights our ancestors fought and died for. Hold what you have.

"The trouble with you farmers is you want too much; you are never satisfied; rest awhile when you get something and enjoy it; never give up your warehouses. They refused to in Georgia. Never surrender your rights."

State President W. A. Morris, in an interview, declared:

"The Southern farmers, realizing along what lines their best interests lie, will never affiliate with such a movement. To block such a movement will be our strongest effort. Can any one suppose the Southern farmers will place the control of the cotton crop in the hands of other interests?

"We are well satisfied with existing conditions as compared to what the result of the advent of such a cotton institution would be. I am convinced the farmers of Alabama and the rest of the South will meet this plan with a cold shoulder. It is not to their interests or the interests of hundreds of towns and cities with which they do their business."

Over one thousand farmers attended the convention.

JAPAN TO ANNEX KOREA.

Entire Country Is Now Under Military Guard.

Seoul, Korea.—Though nothing official can be learned confirming the reports that negotiations for the annexation of Korea by Japan, are now proceeding, many signs indicate that annexation is imminent. Long conferences between officials are constantly in progress, visits are frequently interchanged and great activity is noticed in the Japanese offices.

The censorship has been placed on an even more rigid basis than before. The Tokio newspapers containing reports on the situation in Korea are confiscated at Fusan upon their arrival in this country.

The entire country has been placed under a strong military guard.

METCALF'S COMET SIGHTED.

Celestial Wanderer Sighted for the Second Time.

Washington.—The fickle celestial wanderer, Metcalf's comet, discovered by Rev. J. H. Metcalf, and reported to Harvard university August 9, was observed for the second time at the naval observatory.

As seen, the comet was a dull, slightly luminous mass in the southwestern sky. It was seen to be moving fairly uniformly to the northward. In a line drawn from Antares to Polaris, the North star, the comet will appear about one-third of the distance nearest Antares.

What the comet's appearance at this time signifies is a matter of speculation.

Negroes Bury White Friend.

Nashville, Tenn.—The funeral of Miss Katie L. Lyon, aged 46, a white woman, who died here, was conducted by Bishop Evans Tyree of the African Methodist Episcopal church, assisted by other colored preachers.

Miss Lyon spent her life in educational work among the Negroes. Born and educated in the east, Miss Lyon was with the vanguard of teachers who took an interest in the negroes, and came to the South immediately after the civil war.

Pirates on Ship.

Eureka, Cal.—The Alaska-Pacific Steamship company's liner Buckman was held up at sea off this port by two passengers. Captain Wood was shot and killed by one of the men while resisting. The second man was overpowered by the crew. The passenger who shot the captain jumped overboard with life preservers. Fred Thomas, a passenger, went to the captain's room, while an accomplice descended to the engine room, and they attempted to take possession of the vessel.

Monument to John Brown.

Akron, Ohio.—Eight thousand people attended the dedication of a monument to John Brown at Perkins park, once a part of Brown's farm, with the exception of the ... Alliance of Ohio. ... of Akron, son of John Brown, ... the ceremonies.

JUST A NATURAL MISTAKE

Gussie, in Fancy Costume, Astonishes the Doorkeeper for a Moment.

Gussie was knock-kneed, angular and round-shouldered. He had a terrible squint, and a mouth like a steam roller. All the same, he reckoned on making something of a hit at the fancy dress ball, and his costume was as elegant as his figure was unlovely.

With fast-beating heart he stepped jauntily from his automobile outside the town hall, where the ball was being held. The hall porter stepped backward at the unsightly apparition.

"Great Christopher Columbus!" he gasped as he regarded Gussie.

"No, no, my good man!" chirped Gussie, as he tripped through the portals. "Chawles the First, my dear fellow—Chawles the First!"—London Answers.

KEEP BABY'S SKIN CLEAR

Few parents realize how many estimable lives have been embittered and social and business success prevented by serious skin affections which so often result from the neglect of minor eruptions in infancy and childhood. With but a little care and the use of the proper emollients, baby's skin and hair may be preserved, purified and beautified, minor eruptions prevented from becoming chronic and torturing, disfiguring rashes, itchings, irritations and chafings dispelled.

To this end, nothing is so pure, so sweet, so speedily effective as the constant use of Cuticura Soap, assisted, when necessary, by Cuticura Ointment. Send to Potter Drug & Chem. Corp., sole proprietors, Boston, for their free 32-page Cuticura Book, telling all about the care and treatment of the skin.

Sign of Recovery.

"If when the devil is sick a monk he will be," said Rose Stahl sagely, "then the devil gets well in double quick time. Witness that young 'divil with the ladies,' my kid cousin. Last winter he was ill, so ill he didn't have any sense of humor left nor any sense either. I was staying at the same hotel, and when I went in to look after him he virtuously remarked that his room was no place for a 'Chorus Lady' and promptly shooed me out. (A few years ago I spanked that kid.) Then he got scared and sent for a doctor and the doctor sent for a trained nurse. For several days I got bulletins of his progress from the chambermaid. The fourth morning she set my mind completely at rest.

"'Sure, ma'am,' said Maggie, 'an' I think he do be gettin' along very well. The nurse was sittin' on his lap this mornin'!'"

He Had No Eye for Color.

There came to the home of a negro in Tennessee an addition to the family in the shape of triplets. The proud father hailed the first man who came along the road and asked him in to see them. The man, who was an Irishman, seemed greatly interested in the infants as he looked them over, lying in a row before him.

"What does yo' think?" asked the parent.

"Waal"—pointing to the one in the middle—"I think I'd save that one."—Everybody's Magazine.

Real Modesty.

"An actor should be modest, and most actors are," said James K. Hackett at a luncheon in Pittsburg. "But I know a young actor who, at the beginning of his career, carried modesty almost too far.

"This young man inserted in all the dramatic papers a want advertisement that said:

"'Engagement wanted—small part such as dead body or outside shouts preferred.'"

A Fake Camera.

"Yonder is a beach camera fiend," said the first bathing girl. "They are disgusting, I think."

"This one is particularly disgusting," declared the second bathing girl. "After I had posed all morning for his benefit, he ate his lunch from that box."

A Sage's Summer.

Solomon sighed.

"Think of the number of plants I have to remember to water while they are all away for the summer," he cried.

Herewith he doubted his title to wisdom.

To harbor fretful and discontented thoughts is to do yourself more injury than it is in the power of your greatest enemy to do you.—Mason.

There is in every man's heart, as in a desk, a secret drawer; the only thing is to find the spring and open it.—Anon.

FOR HEADACHE—Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It is pleasant to take—acts promptly—10c., 25c. and 50c. at drug stores.

The man who considers himself one in a thousand naturally regards the other 999 as mere ciphers.

Be cheerful always. You have a right to be entirely wretched only when you are in sympathy with some one in trouble.

HEARD IN A GROCERY STORE.

"I just had a fall on your sidewalk."

"I am very sorry, my dear sir."

"Well, I wish you would sell your sugar straight and put your sand on the sidewalk."

On Some Ministers.

The worst o' these here shepherds is, my boy, that they reg'larly turns the heads of all the young ladies about here. Lord bless their little hearts, they, think it's all right, and don't know no better; but they're the wictims o' gammon, Samivel, they're the wictims o' gammon. Nothin' else, and wot aggragates me, Samivel, is to see 'em awastin' all their time and labor in making clothes for copper-colored people as don't want 'em and taking no notice of flesh-colored Christians as do. If I'd my way, Samivel, I'd just stick some o' these here lazy shepherds behind a heavy wheel-barrow, and run 'em up and down a 14-inch plank all day. That 'ud shake the nonsense out of 'em, if anythin' would.—Mr. Weller, Quoted by Charles Dickens.

Selfish Youth.

"Youth is apt to be selfish," said Mrs. Mary E. Wilkins-Freeman, the distinguished novelist, at a Matuchen picnic.

"Woman in her youth," she went on, "is especially apt to be selfish. I never forget the story of the young man from Boston who stood in the center of Boston common in a downpour of torrential rain.

"As he stood there, soaked to the skin, a little boy in a mackintosh accosted him.

"'Excuse me, sir,' said the boy, 'but are you the gentleman who is waiting for Miss Endicott?'

"'Yes,' the young man answered.

"'Well,' said the boy, 'she asked me to tell you she'd be here just as soon as it clears up.'"

Tuberculosis in the Prisons.

The fact that 100,000 prisoners are discharged from the jails and prisons of the country annually, and that from 10 to 15 per cent. of them have tuberculosis, makes the problem of providing special places for their treatment while they are confined a serious one. So important is the problem that the Prison association of New York in co-operation with the State Charities Aid association, is preparing to inaugurate a special campaign for the prevention of tuberculosis in the penal institutions of the state, and will seek to enlist the co-operation of all prison physicians and anti-tuberculosis societies in this work.

Better Than a Drug.

"The late Senator Platt," said an Albany legislator, "had a cynical wit. Talking about a politician who had changed his party, he once said to me:

"'Circumstances alter everything—political views, religion, even health.

"'Why, I've got a friend who is afflicted with insomnia in its worst form, and yet every morning that man sleeps as sweet and sound as a new-born babe when his wife crawls over him to start the fire.'"

Mrs. Wiggin's Idea of London.

During the recent visit of Mrs. Wiggin, the American author, in London, an interviewer called on her. With pencil poised, the interviewer asked:

"And what do you think of London, Mrs. Wiggin?"

"You remind me," answered the author, cheerfully, "of the young lady who sat beside Dr. Gibbon at dinner. She turned to him after the soup.

"'Do, dear Dr. Gibbon,' she said, 'tell me about the decline and fall of the Roman empire.'"

Rockefeller's Hard Shot.

John D. Rockefeller tried a game of golf on the links near Augusta. On a rather difficult shot Mr. Rockefeller struck too low with his iron, and as the dust flew up he asked his caddy:

"What have I hit?"

The boy laughed and answered:

"Jawdah, boss."

Thinking of Certain Lecturers.

Miss Fosh—I see the Maine Agricultural college proposes to establish lectures especially for country farmers.

Mr. Fosh—Really, that seems absurd, even of the farmers do have whiskers!

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY. It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

Books, Bibles and NEW CENSUS MAPS

Low prices and big profits guaranteed. $15.00 to $25.00 per week easily made if our suggestions are followed. Greatest money makers offered in ten years. Write today for terms and territory. HUDGINS PUBLISHING CO., Atlanta, Ga.

RECKONING DAY AND HOUR

Workman's Thoughts Not Altogether Fixed on What Might Be Called Higher Things.

Mayor William S. Jordan, at a Democratic banquet in Jacksonville, said of optimism:

"Let us cultivate optimism and hopefulness. There is nothing like it. The optimistic man can see a bright side to everything—[illegible]ything.

"A missionary in a slum once laid his hand on a man's shoulder and said:

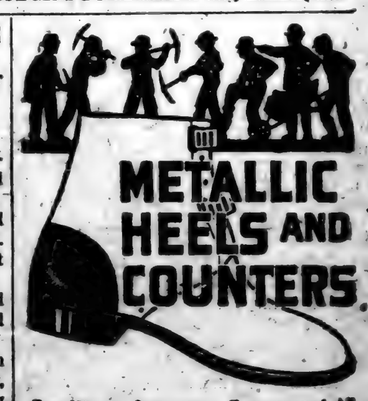
"'Friend, do you hear the solemn ticking of that clock? Tick-tack; tick, tack. And oh, my friend, do you know what day it inexorably and relentlessly brings nearer?'

"'Yes, pay day,' the other, an honest, optimistic workingman, replied."

Excellent Definition.

"Bjornstjerne Bjornson, in his hotel fronting the Tuileries gardens, received a few friends up to the last in Paris," said the continental agent of a typewriter firm.

"I had the honor to be among those friends and I never wearied of the great Norseman's wit and wisdom.



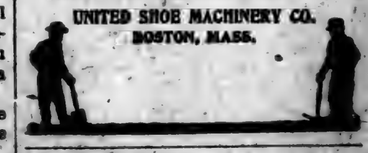
"The last thing he said to me, in cautioning me not to give an important provincial agency to an easy-going man of the world, was this:

"'Beware the easy-going man. An easy-going man, you know, is one who makes the path of life very rough and difficult for somebody else.'"

Faults in American Character.

In an address on botanical education in America, Prof. W. F. Ganong remarks that "disregard of particulars and a tendency to easy generalities are fundamental faults in American character," and he insists upon the necessity of laboratory and experimental work in all scientific study. Books "ease the wits," but independent observation is the source of sound knowledge in science.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria and the Iron builds up the system. Used by all druggists for 25 years. Price 50 cents.



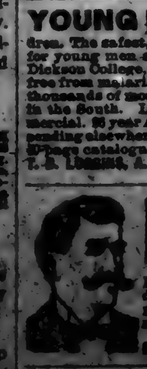
METALLIC HEELS AND COUNTERS

For Miners, Quarrymen, Farmers and All Men Who Do Rough Work

Made of steel, but lighter than leather. Support the ankle. Outlast the shoe. Easy to attach. Any cobbler can put them on. Your shoe dealer has shoes already fitted with them.

Send for booklet that tells all about them.

UNITED SHOE MACHINERY CO. BOSTON, MASS.



The Natural Laxative

acts on the bowels just as some foods act. *Cascarets* thus aid the bowels just as Nature would. Harsh cathartics act like pepper in the nostrils. Soon the bowels grow so calloused that one must multiply the dose.

Vest-pocket box, 10 cents—at drug-stores. Each tablet of the genuine is marked C C C.

YOUNG MAN, YOUNG WOMAN Parents careful of their children. The safest, surest, most practical school for young men and women, boys and girls, is Dickson College, in the Tennessee Highlands, free from malaria and sickness. Have trained thousands of most successful men and women in the South. Literary, music, oratory, commercial. 39 year Aug. 31. Don't think of going or sending elsewhere till you've seen our beautiful 32-page catalogue. Write for it today. Address T. D. Lindsay, A. M., Pres., Dickson, Tenn.

Dropsy Gives Quick Relief Removes all swelling in 3 to 20 days; effects a permanent cure in 30 to 60 days. Trial treatment sent free. Nothing can be fairer. Write Dr. H. H. Green's Sons, Specialists, Box B, Atlanta, Ga.

Readers tell this paper the thing to buy. Only advertisements found in its columns should be purchased. Refuse substitutes and imitations.

METCALF'S COMET SIGHTED.

Celestial Wanderer Sighted for the Second Time.

Washington.—The fickle celestial wanderer, Metcalf's comet, discovered by Rev. J. H. Metcalf, and reported to Harvard university August 9, was observed for the second time at the naval observatory.

As seen, the comet was a dull, slightly luminous mass in the southwestern sky. It was seen to be moving fairly uniformly to the northward. In a line drawn from Antares to Polaris, the North star, the comet will appear about one-third of the distance nearest Antares.

What the comet's appearance at this time signifies is a matter of speculation.

Negroes Bury White Friend.

Nashville, Tenn.—The funeral of Miss Katie L. Lyon, aged 66, a white woman, who died here, was conducted by Bishop Evans Tyree of the African Methodist Episcopal church, assisted by other colored preachers.

Miss Lyon spent her life in educational work among the Negroes. Born and educated in the east, Miss Lyon was with the vanguard of teachers who took an interest in the negroes, and came to the South immediately after the civil war.

Pirates on Ship.

Eureka, Cal.—The Alaska-Pacific Steamship company's liner Buckman was held up at sea off this port by two passengers. Captain Wood was shot and killed by one of the men while resisting. The second man was overpowered by the crew. The passenger who shot the captain jumped overboard with his prearrers. Fred Thomas, a passenger, went to the captain's room, while an accomplice descended to the engine room, and they attempted to take possession of the vessel.

Monument to John Brown.

Akron, Ohio.—Eight thousand people attended the dedication of a monument to John Brown in Perkins park, once a part of Brown's farm, under the auspices of the Western Reserve Alliance of Ohio. ... of Akron, son of John Brown, attended the ceremonies.

JUST A NATURAL MISTAKE

Gussie, in Fancy Costume, Astonished the Doorkeeper for a Moment.

Gussie was knock-kneed, angular and round-shouldered. He had a terrible squint, and a mouth like a steam roller. All the same, he reckoned on making something of a hit at the fancy dress ball, and his costume was as elegant as his figure was unlovely.

With fast-beating heart he stepped jauntily from his automobile outside the town hall, where the ball was being held. The hall porter stepped backward at the unsightly apparition.

"Great Christopher Columbus!" he gasped as he regarded Gussie.

"No, no, my good man!" chirped Gussie, as he tripped through the portals. "Chawles the First, my dear fellow—Chawles the First!"—London Answers.

KEEP BABY'S SKIN CLEAR

Few parents realize how many estimable lives have been embittered and social and business success prevented by serious skin affections which so often result from the neglect of minor eruptions in infancy and childhood. With but a little care and the use of the proper emollients, baby's skin and hair may be preserved, purified and beautified, minor eruptions prevented from becoming chronic and torturing, disfiguring rashes, itchings, irritations and chafings dispelled.

To this end, nothing is so pure, so sweet, so speedily effective as the constant use of Cuticura Soap, assisted, when necessary, by Cuticura Ointment. Send to Potter Drug & Chem. Corp., sole proprietors, Boston, for their free 32-page Cuticura Book, telling all about the care and treatment of the skin.

Sign of Recovery.

"If when the devil is sick a monk he will be," said Rose Stahl sagely, "then the devil gets well in double quick time. Witness that young 'divil with the ladies,' my kid cousin. Last winter he was ill, so ill he didn't have any sense of humor left nor any sense either. I was staying at the same hotel, and when I went in to look after him he virtuously remarked that his room was no place for a 'Chorus Lady' and promptly shooed me out. (A few years ago I spanked that kid.) Then he got scared and sent for a doctor and the doctor sent for a trained nurse. For several days I got bulletins of his progress from the chambermaid. The fourth morning she set my mind completely at rest.

"'Sure, ma'am,' said Maggie, 'an' I think he do be gettin' along very well. The nurse was sittin' on his lap this mornin'!'"

He Had No Eye for Color.

There came to the home of a negro in Tennessee an addition to the family in the shape of triplets. The proud father hailed the first man who came along the road and asked him in to see them. The man, who was an Irishman, seemed greatly interested in the infants as he looked them over, lying in a row before him.

"What does yo' think?" asked the parent.

"Waul"—pointing to the one in the middle—"I think I'd save that one."—Everybody's Magazine.

Real Modesty.

"An actor should be modest, and most actors are," said James K. Hackett at a luncheon in Pittsburg. "But I know a young actor who, at the beginning of his career, carried modesty almost too far.

"This young man inserted in all the dramatic papers a want advertisement that said:

"'Engagement wanted—small part such as dead body or outside shouts preferred.'"

A Fake Camera.

"Yonder is a beach camera fiend," said the first bathing girl. "They are disgusting, I think."

"This one is particularly disgusting," declared the second bathing girl. "After I had posed all morning for his benefit, he ate his lunch from that box."

A Sage's Summer.

Solomon sighed.

"Think of the number of plants I have to remember to water while they are all away for the summer," he cried.

Herewith he doubted his title to wisdom.

To harbor fretful and discontented thoughts is to do yourself more injury than it is in the power of your greatest enemy to do you.—Mason.

There is in every man's heart, as in a desk, a secret drawer; the only thing is to find the spring and open it.—Alton.

For HEADACHE—Effects of CATHOLICUM Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at drug stores.

The man who considers himself one in a thousand naturally regards the other 999 as mere ciphers.

The Pursuit of Pallas, small, square-cushioned, easy to take at candy, opulents and invigorates stomach, liver and bowels. Do not gripe.

Isn't it amazing what you find a man must overlook in others?

HEARD IN A GROCERY STORY.

"I just had a fall on your sidewalk."

"I am very sorry, my dear sir."

"Well, I wish you would sell your sugar straight and put your sand on the sidewalk."

On Some Ministers.

The worst o' these here shepherds is, my boy, that they reg'larly turns the heads of all the young ladies about here. Lord bless their little hearts, they think it's all right, and don't know no better; but they're the victims o' gammon, Samivel, they're the victims o' gammon. Nothin' else, and wot aggragates me, Samivel, is to see 'em awastin' all their time and labor in making clothes for copper-colored people as don't want 'em and taking no notice of flesh-colored Christians as do. If I'd my way, Samivel, I'd just stick some o' these here lazy shepherds behind a heavy wheel-barrow, and run 'em up and down a 14-inch plank all day. That 'ud shake the nonsense out of 'em, if anythin' vould.—Mr. Weller, Quoted by Charles Dickens.

Selfish Youth.

"Youth is apt to be selfish," said Mrs. Mary E. Wilkins-Freeman, the distinguished novelist, at a Matuchen picnic.

"Woman in her youth," she went on, "is especially apt to be selfish. I never forget the story of the young man from Boston who stood in the center of Boston common in a downpour of torrential rain.

"As he stood there, soaked to the skin, a little boy in a mackintosh accosted him.

"'Excuse me, sir,' said the boy, 'but are you the gentleman who is waiting for Miss Endicott?'

"'Yes,' the young man answered.

"'Well,' said the boy, 'she asked me to tell you she'd be here just as soon as it clears up.'"

Tuberculosis in the Prisons.

The fact that 100,000 prisoners are discharged from the jails and prisons of the country annually, and that from 10 to 15 per cent. of them have tuberculosis, makes the problem of providing special places for their treatment while they are confined a serious one. So important is the problem that the Prison association of New York in cooperation with the State Charities Aid association, is preparing to inaugurate a special campaign for the prevention of tuberculosis in the penal institutions of the state, and will seek to enlist the co-operation of all prison physicians and anti-tuberculosis societies in this work.

Better Than a Drug.

"The late Senator Platt," said an Albany legislator, "had a cynical wit. Talking about a politician who had changed his party, he once said to me:

"'Circumstances alter everything—political views, religion, even health.

"'Why, I've got a friend who is afflicted with insomnia in its worst form, and yet every morning that man sleeps as sweet and sound as a new-born babe when his wife crawls over him to start the fire.'"

Mrs. Wiggin's Idea of London.

During the recent visit of Mrs. Wiggin, the American author, in London, an interviewer called on her. With pencil poised, the interviewer asked:

"And what do you think of London, Mrs. Wiggin?"

"You remind me," answered the author, cheerfully, "of the young lady who sat beside Dr. Gibbon at dinner. She turned to him after the soup.

"'Do, dear Dr. Gibbon,' she said, 'tell me about the decline and fall of the Roman empire.'"

Rockefeller's Hard Shot.

John D. Rockefeller tried a game of golf on the links near Augusta. On a rather difficult shot Mr. Rockefeller struck too low with his iron, and as the dust flew up he asked his caddy:

"What have I hit?"

The boy laughed and answered:

"Jaw-dus, boss."

Thinking of Curtain Lectures.

Mrs. Peck—Would you marry a man who had a college education?

Mr. Peck—What's the matter, ain't much of the moment up there wanted?

Something for Him.

Physician—You would not like to be ill, I dare say.

Invalid (with pride)—Not I, indeed.

Physician—Well, you shall have your wish.

Patriotism

The stomach is a larger factor in "life, liberty and the pursuit of happiness" than most people are aware. Patriotism can withstand hunger but not dyspepsia. The confirmed dyspeptic "is fit for treason, stratagems and spoils." The man who goes to the front for his country with a weak stomach will be a weak soldier and a fault finder.

A sound stomach makes for good citizenship as well as for health and happiness.

Diseases of the stomach and other organs of digestion and nutrition are promptly and permanently cured by the use of

Dr. PIERCE'S GOLDEN MEDICAL DISCOVERY. It builds up the body with sound flesh and solid muscle.

The dealer who offers a substitute for the "Discovery" is only seeking to make the little more profit realized on the sale of less meritorious preparations.

Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of mailing *only*. Send 21 one-cent stamps for the paper covered book, or 31 stamps for the cloth bound. Address World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y.

WINTERSMITH'S CHILL TONIC

NO CURE NO PAY

Oldest and Best Tonic; for Malaria and Debility.

A splendid general tonic; 40 years' success. Contains no arsenic or other poisons. Unlike quinine, it leaves no bad effects. Take no substitute. FREE—book of puzzles sent to any address.

PERSONAL

Mr. R. R. Piper and wife, of Bessemer, are visiting the family of Rev. P. M. Woods, father of Mrs. Piper.

Mr. and Mrs. W. E. Maddox are on a visit to friends and relatives at Wheeler, Miss.

Mr. John A. Baker, of Route No. 1, was one of the pleasant callers at the offices of The Press this week. We had the pleasure of adding his name to our growing list of subscribers.

Upchurch is the place for refreshing drinks and delicious creams. Have you tried them? If so you know. If you don't know, try. tf

Mr. J. Wiley Foshee, of Maplesville, was a visitor to The Press sanctum last Saturday and left his address, so that we can send him the paper regularly. These are the kind of callers that we appreciate.

Mr. J. J. Hicks, Jr., of Lawley, was in Clanton Saturday shaking hands with friends. We hear his name spoken of quite prominently as a prospective candidate for the legislature.

Straw hats and low-cut shoes going at reduced prices at
tf SPIGENER'S CASH STORE.

Messrs. Ed Gillespie and J. B. Floyd were here on last Friday in the interest of the Interstate Fire Insurance Company of Birmingham.

Mr. E. G. Evans, assistant master of trains of the L. & N. railroad, spent last Friday in Clanton.

Madames Gamma Anderson, J. M. Fuller and Guy Higgins spent last Friday in the Capital City.

We have money to loan on improved farm lands at reasonable rates of interest. Long time loans a specialty. For particulars address "Finance" care of the Press or call at the Press offices. tf

Mr. Thomas D. Woods spent several days out of town last week on business for the Forest Lumber Company.

Mr. J. M. Langston, one of Jemison's largest and most successful merchants, was in Clanton Monday on business. While here he paid The Press a call, which was greatly appreciated.

LOST.

Between the Baptist Church and my residence, a K. P. pin. Finder will please return to W. W. Langley and receive reward. 2t

Mr. George Moore, of Montevallo, of the firm of Curry & Moore, was a visitor to Clanton last Monday.

Mr. Monroe Hubbard, now of Jemison, was a visitor to Clanton and was circulating among his many friends here last Monday.

Bring us your family receipts; we will make a practice of using exactly what your receipt calls for. We use no substitutes and our prices are right. Yours for a square deal, Upchurch Drug Company. tf

Miss Rosa Thornton, who has recently been on a visit to relatives in Southeast Alabama, returned to find that some one had entered her room during her absence and carried away a small pocketbook in which she had left some change and a small pistol which she valued very highly.

The Clanton Millinery Company now occupies a conspicuous place in the columns of The Press. They were too busy this week receiving new goods to write an advertisement, but knowing the value of The Press columns as a medium through which to reach the people, they reserved a space for their announcement next week. Look out for it.

See Upchurch Drug Company's new jewelry and remember in buying that they stand back of every piece of it—with the cash—should it not prove alright. tf

If you look through Spigener's line of sox and ties, and don't buy, it's a sure sign that you left your pocketbook at home. tf

Conspicuous among the attractive advertisements appearing in The Press is that of our good friend, R. O. Headley, of Fairview. He carries a full line of general merchandise, and is catering particularly to the good dressers this season. Read his announcement in another column.

Buy your wife or best girl a box of Nunnally's candy at Upchurch Drug Company's. Our customers demand Nunnally's or none. tf

The Press is requested to say that Miss Mayme Foshee entered the piano contest of her own accord, and that she is in the race to stay to the end, having formed no combination, agreement or cinque with any other party, nor does she propose to do so. She will appreciate the support of her friends.

Mr. A. K. Cooper and family have returned from a pleasant visit to friends at Birmingham.

You don't know what is good if you have not tried the delicious cream served at the Clanton Ice Cream Parlor. tf

Miss Sophia Courtney returned on Tuesday morning from a three-weeks' trip to Norfolk and other watering places.

Miss Elizabeth Baines, of Montgomery, spent Sunday in the city as the guest of Miss Nettie Williams.

Mr. George Cady, of Montgomery, an old insurance man, but young in years, spent several days this week in Clanton.

Mr. Ed Smitherman returned Sunday from a visit to his sister at Maplesville. He reports his sister much improved, though not yet out of danger.

The best ice cream, the purest fruit juices, the coldest ice, the coziest place—the best attention. Where? Clanton Ice Cream Parlor, of course. tf

County court has been in session this week disposing of the usual run of cases.

Mrs. Clara Mullins, of the Clanton Millinery Company, is in St. Louis this week purchasing a stock for that enterprising firm.

Miss Lucy Bailey, of Calera, was in Clanton Monday in the interest of home missions for the Baptist church.

FOR SALE—47 acres of land and a nice three-room cottage; $250; $100 cash, balance easy terms. Location five miles from Clanton. Address H. H., care The Clanton Press. tf

The following marriage licenses have been issued this week: Mr. Thomas Warren and Miss Effie Melina; Mr. J. T. Cooley and Mrs. H. E. Bates.

Mrs. Glennie Dennis returned last Saturday from a visit to her brother, Mr. B. Y. McMorries.

The prettiest line of hosiery ever brought to Clanton at
tf SPIGENER'S CASH STORE.

Mrs. J. P. VanDerveer and Miss Bessie have returned from a visit to friends at Maylene.

Miss Willetta Stringfellow, after a most pleasant visit to Miss Emmett Matthews, has returned to her home at Reform.

Mrs. P. I. Hopkins and little Miss Frances have returned from a pleasant visit to Mrs. Monroe at Fayette.

A new and nifty line of jewelry just received at Upchurch Drug Company. Call and inspect our line before purchasing. tf

Mrs. W. I. Mullins and Miss Kathleen have returned home after a visit of some length and much pleasure to relatives in Mississippi.

Miss Evelyn Godshall, a most beautiful young lady of Nashville, is on a visit to her aunt, Mrs. J. A. Hester.

Mrs. John VanDerveer is spending a few days at Talladega Springs.

Mrs. S. M. Day and children, of Birmingham, have returned to their home after a pleasant visit to Mrs. J. T. Mullins, the mother of Mrs. Day.

Mrs. E. Upchurch left last week for a visit to her friend, Mrs. W. W. Monroe, at Fayette.

Mrs. Glennie Dennis left Wednesday for a visit to friends at LaPine.

Mrs. Davis Robinson, of Birmingham, is the guest of Mrs. J. M. Potts.

Dr. and Mrs. E. E. Upchurch are spending several days this week in Birmingham.

Don't forget that the ladies of the Methodist Aid Society are to give an entertainment at the home of Mr. and Mrs. J. C. Jones tomorrow night. The editor of The Press is on the program for a stunt, well worth the money.

Mr. S. A. Curry, of Montevallo, was one of the prominent visitors to Clanton this week, he having come down on legal matters.

Mr. and Mrs. C. P. Hartszeld and little child, of Pierce, Ala., are in Clanton, the guests of their brother, Mr. John A. Thomas.

WANTED—SACKS.

Will pay 2 1-2 cents each for cotton seed hull sacks, oat sacks or any other kind of sacks that are large enough to ship ice in.
CLANTON BOTTLING WORKS.
tf

Judge E. S. Lyman, of Shelby county, was in Clanton Monday on legal business.

Mr. Brewster, of Atlanta, Ga., is in the city, the guest of his friend, Mr. W. K. Mullins.

The many friends of Mrs. O. E. Latham will be glad to know that she continues to improve and will soon be able to be out again.

Messrs. E. M. Pinckard, Harvey Chandler and Abe Kanter left last Saturday for St. Louis and other markets.

Mr. F. R. Woodyard has gone on a visit of some days to Kansas City and St. Louis.

FOR SALE.

One of the finest bodies of land in Chilton county. Two hundred acres. Two miles west of Clanton on the Clanton and Thorsby road. One hundred and sixty acres cleared land—the balance well stocked, with firewood. Four good tenement houses in thorough repair. There is no place in the entire county so well watered as is this place. An ideal home for a thrifty farmer who wants to become rich. Fine pasturage. Will sell acreage to suit purchasers in tracts of not less than forty acres. This land must be sold. Such an opportunity will not again be presented to you. You'd better snap at this chance. For terms and further particulars call upon T. C. MARCUS.
tf

PROGRAM OF CLANTON S. S. DISTRICT CONVENTION,

FROST NEEDED FOR COTTON CROP

Fine Crops in the Eastern States.

BOLL WEEVIL A MENACE

Yield Promises Better Than Last Year. Oklahoma Has Excellent Prospects For a Large Crop.

Memphis, Tenn.—The cotton crop situation is summarized thus by the Commercial-Appeal.

It is evident that the recent rainfall in Texas has been of scattered and local nature, the precipitation being too light in most cases to relieve the drouth. In central and southern parts of the state bolls are opening very rapidly, and almost the entire crop, if no rain falls soon, will very shortly be ready for the pickers. The yield promises somewhat better than last year, however. The crop in northern Texas is good. Oklahoma's prospects continues excellent, a record production being indicated.

In other states returns do not average quite so favorable as during the preceding four weeks. The rainfall has been unevenly distributed, and there are places where, shedding is being outlined of, the most serious reports coming from central and southern Alabama. The crop in Louisiana and southern Mississippi will not be exceeded beyond its present promise. Because of the activity of boll weevil. In all eastern and valley states, where rain has fallen during the past two weeks, reports are good, and there are some fine crops. The plant generally has fruited well, but a late top is needed for maturing everything in sight. As a rule, cotton is opening slowly, but the fruit is believed to mature more rapidly than before. The irregularities of reports make general characterization difficult, with poor crops appearing in the midst of districts with good ones.

RELESS ON AEROPLANE.

Thrilling Chapter in the Conquest of the Air.

New York City.—"Buzz, buzz, zizz, then spoke the small voice of the code boy into the ear of the wireless operator stationed on the roof of the grandstand at Shepphead Bay race track. A mill away and 500 feet up, Glenn Curdy was a speck against the sky. The operator began to piece into words the sputtering of the wireless. This is what he heard:

"Horton: Another chapter in aerial achievement is recorded in the sending of a wireless message from an aeroplane. "McCURDY."

It had become a reality the first wireless message sent from an aviator in flight to a receiving station on earth. Glenn D. A. McCurdy, a pupil of Glenn Curtiss, was both aviator and sender, and Harry M. Horton of the United States signal corps was the receiving operator.

Mr. Curdy had attached a key to his steering wheel, and the antennae of the sending apparatus suspended behind him from the chassis of his biplane.

Fatal Battle in Dance Hall.

Marianna, Ark.—Two negroes were killed, four were wounded and a white man was fatally injured in a fight which originated in a dance hall conducted at Raggio, 12 miles east of here. A dance was in progress in the hall when an altercation arose between Mack Harvey and his wife. Russell, the white man, ordered them to leave. Harvey turned on the white man and declared he would talk to his wife any way he pleased. Russell left, and returned shortly with arms, and the battle followed.

$1,000,000 for Tuskegee.

New York City.—By the death of Flora L. Dotger, who died at her home in South Orange, N. J., the cause of her estate, worth $1,000,000, goes to Tuskegee institute, of which Booker T. Washington is the head. The German hospital of Philadelphia will receive $10,000.

Gaynor Leaves Hospital.

New York City.—Mayor Gaynor was removed from St. Mary hospital in Jamaica to "Deep Wells," his country seat at St. James, Long Island. He made the trip well, but his insistence to be allowed to walk unassisted in three distressing instances he sank to his knees. Once he started to enter an automobile and missing the steps of his motor, fell all fours from the sidewalk. Despite his weakness he insisted his secretary read to him.

General News

Another Letter.

Quebec, Aug. 25, 1910.

Editor Press:

On leaving Buffalo on the 16th I went to Toronto, Canada, via Niagara Falls, thus viewing for the second time one of the greatest sights of the United States. I found Toronto as I left it on September 2, 1899, a busy, hustling city of some 300,000 people. Having spent two weeks there in 1899, a simple glance at its outlines gave me satisfaction. On the morning of the 17th I went down to Oakville, on the west end of Lake Ontario, to visit for the second time a family of our English kinfolks. They took me all over the rural section toward Hamilton on an inter-urban car, or, as our people would call it, a country street car line. Our trip during the afternoon covered fifty miles and explored the finest fruit farms I ever saw.

That section consists of small farms of 20 to 80 acres. Many of the farmers live in brick homes costing from $7,000 to $10,000, with outbuildings in proportion. Hamilton, right in the midst of this fruit section, is a thriving city, large as Montgomery.

The following day I boarded the steamer Toronto for down the lake and river to Toronto. However, before leaving off Toronto and the province of Ontario, I will say this province is peopled by a sturdy citizenship of English, Irish, Scotch and German, who will always thrive and succeed.

In descending the St. Lawrence river we viewed the Thousand Islands and their many palatial summer homes. On reaching Montreal we found a less modern city than Toronto, but with a population now reaching 500,000. Montreal is not so fortunate as Toronto as to fruits and farms, but the crop of grafters never fails. It has many hotels and cathedrals; the first to catch all classes, and the last to get all the spare change of the faithful Catholics, and no sooner than the cars stop for a given period than all true Catholics dismount and break for the church. They are like the Republican party—never cease to work, and hence succeed.

The population is Lower Canada is 80 per cent French and 20 per cent English, with a sprinkling of Jews and Americans to show them how to do business.

The farmers of Quebec are: First, a few English, who farm the farmers; the balance are French peasants as a rule. A trip to the markets of the cities will bear this out.

All lands in Quebec are surveyed in long, narrow strips, using the St. Lawrence river as a base line, and are two and a half acres wide and run far enough back to make about 70 acres in the plot. So one who desires more than one farm simply purchases several strips until he has the desired amountof land.

Having been to Montreal in 1899, I spent one day only. Arriving on Sunday I found all public places closed except the churches; could not even get into the postoffice. Talk about law! They make laws here, and the people obey them.

During Sunday afternoon I, with thousands of others, went out to visit the shrine of St. Anne de Beaupre, 20 miles distant, whom the good sisters claim can perform miracles and restore lameness, blindness and other incurable diseases and all such habits as morphine, cigarettes and other such habits and sins as humanity is her to.

You just ought to see the number of handsomely clad men and elegantly gowned women of intelligence climbing the "golden stair" to do homage to the Catholic cause, in which they so much delight. They neither touch hands or feet as they ascend the stairway.

Spending Monday in this city, I left Tuesday for down the St. Lawrence river on what is known as the "Saguenay" trip, which consists of boat trips down the St. Lawrence river 125 miles, then up the "Saguenay" 180 miles to Chicontimi, at the head of navigation on the Saguenay and near Lake St. John, the latter said to be about the end of civilization in these parts; and I guess it is, for on our trip when the boat stopped some one asked an old man what they did in winter, and he said, "Eat one meal a day and sleep the rest of the time." This man seemed to be speaking the truth for poverty was evidenced on all sides except that each village had a Catholic church ranging in cost from $50,000 to $150,000. Thus you see how the world wags. Cordially,

F. McGUIRE.

P. S. Have just had a long talk with more 65 of Boston's world famous lawyers, and [illegible]

Well Entertained.

The open air concert given by the Ladies' Aid Society of the Methodist Church last Friday night at the residence of Mr. and Mrs. J. C. Jones was a decided success. The ladies realized quite a neat little sum from the entertainment, and every one who was present reports a most pleasant evening.

The program as arranged was not carried out in detail because of the absence of several who were to participate. Nevertheless the evening's entertainment was replete with catchy music, entertaining recitations and other features that delighted the audience.

The several selections rendered by Mrs. D. A. Robinson, of Birmingham, deserve especial mention. She demonstrated rare talent as a musician and furnished a genuine musical treat for her auditors.

Other memebers of the program which were especially entertaining were: Misses Mary Sue Mullins and Leona Pipes, a song entitled "I Wouldn't Tell on You," accompanied on the piano by Mrs. Harvey Chandler; Mesdames Middleton and Anderson, a song, "When the Daisies Bloom Again;" Master Omer Reynolds and Miss Alice Stanfield, a vocal duet, entitled "Tittle-Tattle,' Miss Nell Mullins accompanist; Miss Hattie Jones, a vocal solo, "Love Me Truly." Mrs. Gamma Anderson recited "The Show at Wilkins' Hall," a monologue, in most pleasing manner. Miss Mary Curry's song, "Meet Me Tonight in Dreamland," was captivating in the extreme.

These, among other pleasant numbers, the delightful refreshments and the merry chat made the night's entertainment one long to be remembered.

A Distinct Loss to Clanton.

On last Sunday morning all that was mortal of Mr. Ben Teel was laid to rest in the Clanton Cemetery. The interment was the culmination of a battle, in which death and despair were arrayed against life and hope. For several days the friends of Mr. Teel had hoped that his wonderful constitution would stand him in good stead and that he would soon be able to mingle with his hosts of friends again, but so severe was the shock he had sustained that the gallant man was forced to bow before the great enemy of mankind and to surrender his life.

Ben Teel was perhaps Clanton's most useful citizen. It will be a difficult matter to fill his place. He was of a genial, loveable disposition; a man whom to know was to love. If he had an enemy we have failed to hear of it. He was a master mechanic of high order.

Mr. Teel was taken to Birmingham Wednesday of last week in the hope that some relief might be given him and that science, aided by nature, might restore him to his wonted health and strength, but like many of our fondest hopes, it was turned to sorrow when the sad news was borne over the wires that Ben Teel had yielded up his life and was no more.

The funeral services at the house were conducted by Rev. R. J. Mills, of the Methodist Church. The home was crowded with sorrowing friends, who had come from far and near to pay a last sad tribute of respect to a friend whom they loved.

Immediately at the close of the home services the body was placed in charge of the Woodmen, to which order Mr. Teel belonged, and the beautiful and impressive services of that order concluded the services at the grave.

Mr. Teel leaves a wife and three children to mourn his untimely death. Besides these there are numerous relatives, whose hearts are bowed in grief because their loved one is no more.

There was not a home in Clanton which did not seem to feel a distinct loss when Ben Teel was placed in his lowly bed to await the resurrection morning.

To his loved ones the sincere sympathy of Clanton's citizenship goes out in unstinted measure.

May they find in the anticipation the faith of a happy reunion beyond the rolling that consolation which comes only to those who have an unalterable faith in the resurrection power of Him in whom they believe.

Some More Doctors.

Among the 72 successful applicants for license to practice medicine in Alabama who stood the examination before the State Medical Board appear the names of Ollie E. Wilson and Hosea P. Downs, of Clanton.

The report does not state how many applicants there were who appeared before the board. It gives only the names of those who were successful [illegible]

have the M. D. appendage. We congratulate these young gentlemen and prophesy for them a career of much usefulness and activity.

Leaves Clanton.

The Press regrets to chronicle the departure of Mr. J. Claude Jones for Greenville, where he goes to make his future home. Mr. Jones has just been tendered the management of one of Greenville's large mercantile houses, which he has accepted, and which necessitates his making his future home in that city. Mrs. Jones will follow him in a few days.

A License for Liquors.

Under and by virtue of the law requiring such public notice to be issued by the Sheriff of the county, I, John S. Catts, Sheriff of Chilton county, Alabama, hereby give notice that a license has been issued by the United States revenue authorities to the Maplesville Social Club to deal in retail liquors, said license being dated July 1, 1910. J. S. CATTS,

tf Sheriff.

A Copper Mine.

News comes to The Press that copper has been found in the eastern part of the county in paying quantities. The Press attempted to run the rumor to earth, but further than that several gentlemen had discovered much of the precious ore on their respective places we could ascertain nothing definite.

Prospectors are now at work in the western part of the county searching for iron ore, which they confidently expect to unearth in paying quantities. Iron is being mined in the northern end of the county, and has been found to be of superior quality. If now it turns out that Chilton soil contains copper also, what will the future of this God-blessed county be?

Telephones.

The Press received the following communication, which will doubtless prove interesting reading to many of our patrons:

"Just a few words to your paper if you are not too crowded.

"I had the pleasure and privilege of visiting the telephone exchange in Montgomery last week. It was a business trip, as well as one of pleasure; and the things that we saw would prove interesting to those who have never had the pleasure of a visit to a large exchange.

"First, we called upon the long distance chief operator—Miss Browning—who proved a most charming lady, and took great delight in showing us over the entire, operating system. There we saw between ten and fifteen girls operating long distance. Then she carried us to the retiring parlor, where the operators rest when relieved from duty. We found one young lady lounging about reading. This room was the equal of almost any lady's parlor.

"From there we went into the dining room, which was as neat and clean as a pin; there we found three or four girls at lunch. Over across the hall was the local room. There I met Miss Flynn, chief operator of that department. In her room were sixteen young ladies just as busy as bees, with no time to look up even. Miss Flynn, a most loveable young lady, took us over her entire department, and then into the district traffic department, and from there into the rooms of the wire chief. Here I was at sea, for I know but little about this department, though it proved highly interesting to Mr. Powell, who was with us on the trip. In this room we met several of the telephone men who have been to Clanton looking after the repair work and other interests here. They seemed to appreciate our visit. Then Miss Flynn carried us down into the cashier's office, occupied by Mr. T. B. Ridout. Here we found several stenographers, four or five extra clerks and bookkeepers, and all busy as bees in a tar barrel. Mr. Ridout was kept busy at the receiving window taking in cash and issuing receipts.

"Those who have never visited a telephone exchange should not miss the opportunity should it be presented, for they will surely see much that is interesting and instructive.

"(MISS) MARTHA DUPREE."

The Season Has Opened.

On last Tuesday Clanton received her first bale of cotton for the season of 1910-11. It was raised by Mr. T. G. Taylor and was ginned here in Clanton Tuesday morning and put on the market. It was bought by Mr. Abe Kanter for 16 cents per pound. It classed strict middling and was a fine bale of cotton. It weighed 563 pounds, which, together with the seed, netted the producer $102.67.

This beats last year in time one day and in price 2 cents. The first bale last year was marketed on August 31 by Mr. Jos. Cox, weighed 387 pounds, sold to E. M. Pinckard for 14 cents.

Interior Decorations.

The Press learns that Dr. J. V. Higgins has let the contract to the Montgomery Show Case and Fixture Company to supply his store with handsome mahogany wall cases and umbrella stand. These fixtures are to be placed in the store house not later than October 1. Dr. Higgins has also let the contract with a local building company for placing a handsome metal ceiling on the interior of his already handsome store. When completed and the furniture and fixtures installed Dr. Higgins will have, perhaps, the handsomest store in the city.

School Opening.

Mrs. McMorries will return to Clanton from her summer outing within the next few days and will open her school on the 7th of September. Those contemplating sending children to her should begin to make preparations.

The public school will not open till a week later—September 14.

A Change of Location.

Last week The Press gave out the information of the establishment of an infirmary in Clanton by two of the city's progressive physicians, and stated that the Mahan property had been purchased for that purpose.

It seems that this information was a little premature; the deal was "on" for the Mahan property, but for some reason it was not consummated. However, Drs. Hopkins and Hayes were not to be balked in their purpose merely because a certain piece of property could not be secured, so they begun looking about for another location, and as a result have entered into a lease for some years of the old Stanfield property. This contract has been closed, and the carpenters are now at work on the building preparing it for the reception of patients.

This is even a more ideal place than was the other for the location of a sanitarium; it is further away from the screaming engines and the noise of the town, in a shady part of the town, where the patients will have the benefit of both town and country home.

Some More Picnic.

The Sunday school class of Mrs. Phillips went out to Dake's mill pond, together with a few invited guests, and spent Wednesday picnicking. They used the customary two-horse, or two-mule, wagon as a means of locomotion, and right jolly was the crowd that passed through the streets on the way to the scene of festivities.

They returned late in the afternoon well worn from the pleasures of the day, but ready for another just as soon as some one will put it on foot.

Mr. L. R. Carter, candidate for Governor of Alabama on the Socialist ticket, will be in Clanton on Saturday, September 10, for the purpose of addressing the people of the county. Mr. Carter is president of the Farmers' Union of Walker county.

FOR SALE.

One second-hand two and one-half horse power International gasoline engine. A bargain for some one if taken quick. Enquire at this office.

We serve the best soda water in town—none barred. We use only the very best fruit juices and [illegible] the best of everything to be [illegible]

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water.

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes Monday, Noon, December 5th, 1910.

There Are Reasons

Why so many people have ready-at-hand a package of

Post Toasties

The DISTINCTIVE FLAVOUR delights the palate.

The quick, easy serving right from the package—requiring only the addition of cream or good milk is an important consideration when breakfast must be ready "on time."

The sweet, crisp food is universally liked by children, and is a great help to Mothers who must give to the youngsters something wholesome that they relish.

The economical feature appeals to everyone—particularly those who wish to keep living expenses within a limit.

Post Toasties are especially pleasing served with fresh sliced peaches.

Alabama News

KNOTTY PROBLEM FOR COMER.

In the Appointment of Judge in the Second Circuit.

Gov. B. B. Comer is confronted with a hard task to decide whether or not the man he appoints to fill the vacancy caused by the death of Judge J. C. Richardson of the Second Circuit will hold until 1913, or until the 1st of January, when the unexpired term ends. Attorney-General A. M. Garber, Capt. Tyler Goodwyn and many others think he can not go beyond the first of the year. Judge Thomas G. Jones of the United States Court, former Chief Justice John R. Tyson and Gregory L. Smith of Mobile hold that the term goes over two years.

Under section 158 of the constitution it is provided that in filling vacancies in judicial appointments the appointee holds until the next general election, held at least six months after the vacancy occurs. The November election comes with half a year after the vacancy, hence it is argued that any man appointed will hold to the next general election for any state office held at least six months after the vacancy occurred.

It is of great importance that Gregory L. Smith, who holds to the 1913 idea, was chairman of the judiciary committee that drafted the constitutional provision.

A report compiled by the postal department and forwarded to Congressman Richardson shows that rural mail carriers in the Eighth district are now drawing $96,359 per year. This indicates that there are about 125 routes in the seven counties of the district. Judge Richardson canvassed the district a few years ago, urging the people to apply for rural routes, and the report shows how well they have taken the advice.

The statement is made on all sides that the Alabama pension rolls must be culled. There are many, very many, drawing pensions who have no sort of right to do so, and every dollar paid where it ought not to be paid takes that much from some old and needy one who has a real right. A number of propositions are now pending and will go to the law-makers whereby the lists may be culled and the pensioners who need and should be helped will get their just dues.

After arresting him for stealing a coat, two white men tied Frank Franklin, a negro, to the back of a buggy in Butler county and forced him to run as fast as the horse for several miles, after which one of them put a pistol to his breast and shot him dead. This is the story that comes from Greenville.

The rate hearings, involving the litigation between the state and the Central of Georgia are on at Montgomery, Judge W. S. Thorington, master. It is the intent of the railroads to show by testimony that earnings under the state schedules which the courts have forced them to put in are unremunerative and that other lines get far more.

The school census for Madison county has just been completed and the report shows a decrease of four whites and an increase of 315 negroes. The total number of white children of school age is 8,785. The total number of negroes is 6,110.

Gov. B. B. Comer, on his return from his trip into Canada, early in October, will take part in the state Democratic campaign and will deliver addresses at such places as the campaign committee desires. The governor has advised Jesse Stallings, chairman of the campaign committee, to this effect.

In a desperate fight with six negro prisoners in the county jail at Decatur, Sheriff Tom R. Shipp was badly beaten up and had it not have been for his wife and daughter, who happened on the scene with a revolver and shotgun and stood the prisoners off, Sheriff Shipp would probably have been killed.

Eastern capitalists are behind a scheme to develop mining property in North Georgia and North Alabama on the route of the Chattanooga Southern, which carries with it the erection of a number of steel furnaces.

Advices from Russellville, say it is believed the boll weevil has already appeared in Franklin county in the northwestern part of the state. Cotton squares were punctured and had dropped off. Specimens of the pest will be sent to the state agricultural department.

With the recent appointment of a campaign committee to educate the people of Montgomery on the need to be derived from a commission form of government, the fight is going on actively in the city.

SUPPLY MAY BE FOUND.

Considerable Excitement in Fayette Oil Fields District.

Passing through sands strongly impregnated with oil, indicating that a gusher of oil might be struck at any time, caused another visit to the Fayette natural gas fields by interested parties, together with newspaper men. Five wells are flowing with natural gas and the three wells being bored now are down some distance and going through rock and sand that give strong odors of oil. This condition has given cause for considerable excitement and the men running the drills believe that they are in the vicinity of oil, though it is possible the exact spot has not been struck as yet. More than fifteen drills are now at work in the extreme western part of the state, in Fayette, Walker, Winston and other counties, in the mad search for oil. It is announced that the Consumers' Natural Gas Company, which proposes to contract for the natural gas at Fayette, paying 3 cents per 1,000 cubic feet for it at the wells, will shortly secure incorporation papers and take steps looking to the construction of a pipe line from Fayette into Birmingham. A short line route has been surveyed into Birmingham and it is twenty miles shorter than around the railroad way.

The party visiting the place were shown the wells now flowing natural gas, and gauges were closely scrutinized. Experts from the East will visit the fields again shortly for the purpose of making investigations. It is understood that representatives of some of the larger oil companies are spending much time in this vicinity, watching the work to find oil. Acres and acres of land in the western part of the state are under lease now and more is being sought right along.

Several thousand people from all parts of the state have visited the natural gas fields since the first of the year, so much having been said of the discovery. The first well discovered last Christmas is running gas about as strong as at first.

Deputy revenue collectors in Alabama are stirring up the animals, the "blind tiger" men coming forth in droves, as it were, with the special tax amount and penalty imposed for nonpayment of the tax at the time prescribed by law. It is estimated that more than $10,000 will have been collected by the time the end is in sight, each dealer in spiritous and malt liquors, retail in the state, who did not get out the require dlicense, costing $25 per annum, during the month of July, now being called on to pay $37.50.

The Commercial and Industrial Association of Alabama will be called to meet in Birmingham during the coming state fair, and steps will be taken to launch a campaign for an appropriation of $50,000 by the next legislature to be used in advertising Alabama. According to the plans it will be a statewide movement to advertise to the world the resources of Alabama from one end of the state to the other and not to exploit one section to the disadvantage of another.

The Alabama department of agriculture has sent an exhibit of fruit and vegetables to the Ohio Valley Exposition at Cincinnati.

Report that the boll weevil has been found in Mobile county has been given widespread publicity and has caused many farmers growing cotton to feel discouraged, says Government Agent G. A. Maloney of Citronelle. Agent Maloney emphatically denies the existence of the weevil in this county, but says it is pretty close to the Alabama-Mississippi state line.

The plans of John T. Cochrane and associates eventually to connect Birmingham with deep water by his Alabama, Tennessee and Northern railroad and the Tombigbee Valley railroad has created intense interest among railroad and industrial men of the Birmingham district.

The school census recently completed in Madison county shows that there are 8,785 white children and 6,425 colored, as compared with 8,789 whites in 1908 and 6,110 colored. The census shows a loss of 5 white children and a gain of 315 negro children.

Some valuable lessons in modern pedagogy and elemental hygiene are offered the teachers of the Fourth congressional district at the institutes to be held at Talladega and at Jacksonville from September 5 to 19, the sessions lasting one week at each of the places selected.

By way of dedicating the new Rickwood field at Birmingham, League President Kavanagh poured champagne from a loving cup upon the home plate while over 10,000 fans and sport enthusiasts shouted and yelled their approval from the commodious grand stand and bleachers.

At a meeting of the joint committee of Mobile and Baldwin county, business organizations the proposition of the Pensacola, Mobile & New Orleans railroad was indorsed. The road, which is soon expected to patch the opening above Mobile bay, proposes to build a road-way on its bridge that will form the only auto highway connecting the counties of

One of the finest bodies of land in Chilton county. Two hundred acres. Two miles west of Clanton on the Clanton and Thorsby road. One hundred and sixty acres cleared land—the balance well stocked, with fire wood. Four good tenement houses in thorough repair. There is no place in the entire county so well watered as is this place. An ideal home for a thrifty farmer, who wants to become rich. Fine pasturage. Will sell cheap to suit purchasers in tracts of not less than forty acres. This land must be sold. Such an opportunity will not again be presented to you. For [illegible]

Clanton High School,
CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin on Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure first grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

Many Farmers
would like to keep an account of their receipts and expenditures if some one would keep it for them.

WHY
Open a Bank Account with the People's Savings Bank and you will find the account keeps itself, with no expense.

NOT
Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts.

YOU!
Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It's a handy convenience to the farmer as well as the business man.

No announcements for Mayor yet! Nobody want it?

School days, school days are close at hand. Look up last year's lunch basket and book satchel.

We are still waiting for those aldermanic announcements. Will the offices go by default?

Remember September 10 and 17. They are to be calendar days in the history of Chilton county.

When are we to have a water works talk? It's more important to Clanton just now than any other one thing. Are you for water works?

News from East and West, North and South all point to great Democratic victories this year. Not only is the national House going to be Democratic, but some of the rock-ribbed Republican strongholds are going to join the Democratic ranks.

The Congressional Campaign Committee has been organized and is now down to hard work. The few Republicans in the district will feel lonesome when the Democratic votes are counted and Blackmon declared elected.

Over in Shelby, a former Populite stronghold, Mr. Longshore is finding it rather difficult to lead his old-time Populite followers into the Republican party. They may not be in love with Democracy, but you just cannot make them fall in love with Republicanism.

Clanton received her first bale of the season of 1910-11 on last Tuesday. Now that the fleecy staple has begun to roll let's all get in line and whoop things up a bit.

Improvements made by a city government wherever made are a permanent good, by and through which all the citizenship is benefited. To follow the desires of each individual citizen in matters of improvement would not only bankrupt the city treasury, but would never secure any real lasting good to any section, street or ward.

With Gaynor on the high road to recovery, Harmon occupying the executive chair and Hoke preparing again to steer the ship of state in Georgia, the Democracy has an abundant crop of candidates for the Presidency, even if Willie Jennings has been relegated to the rear.

Don't forget to read what Roosevelt said at the Buffalo dinner, or rather sunrise breakfast. It's well worth the reading, and it deserves to be acted upon, not only in New York, but elsewhere. Did you read it? Then read it again. Get all the points.

The Press already feels the effect of that new bale of cotton; the atmosphere breathes more like "business." Now let's all join hands and associate here things for Clanton that will

A PLAIN STATEMENT

The first edition of The Press appeared with the beginning of April. The editor announced in the initial number that the paper would be devoted to the interests of Chilton county and her people. In proof of this we nailed this statement to the masthead, and there it has since remained.

It is still our purpose to contend for everything that will benefit the county and to battle against those things which we believe inimical to her interests. This is our home, and here we expect to remain; our interests are indissolubly bound up in the interests of Clanton and Chilton county. What affects her prosperity must necessarily effect our welfare; what retards her progress will tend to place a rstraining hand upon our success; whatever of material success she attains will be shared by us. Her people are our people and her interests are our interests.

We have come here to stay; we are going to give to Clanton and Chilton county the best efforts of our brawn and brain.

We ask and expect nothing in return which is not readily accorded every other citizen, but it is time that some kind of an understanding was reached. A newspaper is not a plaything; to conduct one successfully requires some effort, a little brain and a few dollars. A newspaper is a public institution, and when it fails or refuses to work in season and out of season for the advancement, the material success of the community in which it is established it fails of its purpose, is worse than a drag upon the citizenship and is a hindrance rather than a help.

A town, a county, is judged largely by its newspaper, its churches and its schools. When these flourish and are well kept the town flourishes and maintains a good reputation abroad; where they are failures the town is judged as a dwarf and a failure and is so reckoned by other communities.

The Press up to this time has enjoyed the confidence of the people of Clanton; we have received many words of commendation and praise, for which we are duly thankful and of which we are appreciative; but The Press cannot thrive on kind words alone. Others may do this, but it takes a little more to run The Press.

We espoused the cause of the Democracy, which has been the political faith of our fathers for generations back; we would scorn to become a member of any other political party. When we recall what the women and men of this God-blessed country have suffered at the hands of the other party; what indignities they have thrust upon our women; what hardships they have imposed upon our men; what cruelties they inflicted upon the children of this land and what indignities, hardships and cruelties they are still striving to put upon us, The Press staggers at the very thought of ever aligning itself with that party.

When we consider the great good and beneficent influences of the Democratic party, what it has wrought, for this country and what it is still seeking to do, we rejoice that we are accounted worthy to be one of that party.

But to fight for Democracy in Chilton has cost us some friends; there are some whose friendship we esteemed highly who are waging an unrelenting war against The Press; we are fighting them just as unremittingly, and we expect to continue the battle to the end. We do not propose to cease till Democracy is triumphant. This has caused us the loss of much patronage and many friends; nevertheless we shall consider the battle not dearly won if we succeed in our efforts to assist in securing for our people her rightful place among the counties of the State and in being, in some measure, instrumental in electing officers who will strive for the upbuilding of Chilton county rather than their own political fortunes, who will obtain recognition among our lawmakers and be able to accomplish something for the county. These things cannot be accomplished through Republican county officers. But to the point.

We have given you a good paper, an aggressive, newsy paper, and it has been done by main strength and awkwardness.

True, we have received much encouragement from many of our friends, and for this we are greatly thankful; we have no fault to find and no complaint to make. Some have rallied to us nobly, but there are many who should be taking The Press who have not so much as raised their hands to assist.

Not a few have said they wanted a good, live paper here who readily agree that The Press is alive, and yet they have not only not assisted to help it live, but have deliberately assisted to thwart its every purpose.

They will fail, for The Press is going to live; it came here for that purpose; it is going to remain; there is too much yet to be accomplished for it to think of retiring; it is going to accomplish these things before it will ever entertain any idea of quitting.

It is going to assist in securing Democracy's triumph; it is going to talk unceasingly for water works and sewerage till Clanton secures water works and sewerage; it is going to fight for GOOD ROADS till Chilton county has a system of public roads as good as the very best.

If you are with us in any one or all of these propositions we shall be glad to have you enlist with us; say so, do so, work so. If you oppose these things we hope still to retain your good will.

The advertising rates in Clanton—or at least in the two Democratic papers—are just one-fourth of the regular advertising rates.

We have an elegant list of advertisers; we are proud of every one of them and appreciate them; there is but little revenue from these, however.

We are sending out many papers, at our own expense, to people who ought to be paid subscribers; our circulation is growing with each issue, and we are thankful for that; still there are many who are not on the list whose names should be there. We are sending a number of papers for which we expect no returns; they are complimentary. We wish our paper to reach all classes and conditions of men, for we have a mission to perform, and that mission is GOOD ROADS, SEWERS and WATER WORKS.

However, we cannot "tote" the load single handed and alone. We need, we want your assistance.

Those who have been clamoring for a good paper should join hands with us and help to make a good paper; it can be done with co-operation; it cannot be done without co-operation.

Our Clanton subscription list is all we could hope for, but our country friends seem negligent.

There seems to be more loyalty in the other party than there is in our own; many of our readers are content to get the paper without ever pausing to ask whether or not they are assisting to make it; others are willing to take it so long as it comes to them free, while yet others—and they are not a few, either—seem anxious to help in the building up of a good paper. There are yet many others who say they are GOING to subscribe later on. This class are of those who would wait till a patient dies to administer physic.

To which class do you belong, friend?

It is our purpose, if we can get the encouragement, to put in our own presses and other machinery to make the paper even better than it now is; in fact, arrangements are now being made to that end.

We want to devote at least one page to the subject of good roads; we want to give more space to our county correspondence and other local affairs, but we cannot do this without some signs of encouragement.

The question is, do YOU want a good paper? What are you willing to do to assist in securing one? In other towns newspapers receive the encouragement they demand. Will you help to make Clanton's paper a success or are you satisfied with the makeshifts you now have?

As a matter of self-protection The Press is going to be compelled to cut its news columns somewhat till the people respond more liberally. We have no idea of being run out or frozen out; we are here for at least twenty years to come; after that we may consider a proposition to get out.

If you want a good paper now is your opportunity to assist in making one.

We noticed last week and the week before that The Press contained more live local news by three times than any other weekly comes to this office, and yet our advertising rates are cheaper than the cheapest.

We cannot continue this unless we get the backing of Democrats.

We cannot expect any public patronage from the present county officials, except the Sheriff and Register, but with the support of our friends in the party for which we are fighting we can succeed elegantly.

We are not growling, friend—no, not us; we are just telling you how it is. Will you help?

Thank you!

BULLY FOR TEDDY.

The Press has never been an ardent admirer of Roosevelt. We admit that he is a smart man and an astute politician. He is an adept at handling men, and as an advertiser he has Barnum skinned a whole city block. Nevertheless we believe that he is honest. He frequently says some very foolish things, and then again he says some very wise things.

Last Thursday in the city of Buffalo he gave utterance to some sentiments which we admire and for which we take off our hat to Mr. Roosevelt. These were the utterances of a statesman, a leader and a man who commands the respect of the entire world. Listen to what Mr. Roosevelt had to say, think of his remarks and ponder then in your heart; they will do you good:

Will Fight Crookedness.

Buffalo, N. Y., Aug. 25.—Theodore Roosevelt pledged himself to the men of Buffalo today to help them and all sincere citizens to fight crookedness wherever it was found.

"I'll help you, just as I did in the past," he said, speaking to the Ellicott Club, whose guest he was at breakfast an hour after sunrise. He made a plea for the punishment of crooked and grafting public officials and the election of honest men in their places, a process of gradually, but permanently, raising the morals of political and business life, and said he thought it his duty to hold out hooks

Now is the time to buy your Syrup Barrels, Kegs and Jugs while we have a full stock.

The prices are right, and the goods the best to be had on the market

GAMBLE HARDWARE CO.

Clanton, Alabama

honesty is involved, I recognize no party distinctions, or if I do make any, it is that it is a little more my business to put the grafter and crook out of public life, if he belongs to my party than if to another. This attitude demands that one's attention be fixed not on financial or social status, but on conduct."

The Press is securing so many new advertisements lately that it feels almost ashamed of its leading editorial in this issue. We fear that some of our good friends will think we are hard to satisfy, and then, too, we fear that others will consider it a sign of tottering to early decay. Neither is the case. We are profoundly grateful for the patronage that is accorded us; it is generous indeed—more than any other paper in Chilton county has ever enjoyed. We would be an ingrate should we utter one word of complaint on that line.

Nor are we showing any signs of weakness in so far as our "staying" qualities are concerned. The Press is a fixture in Clanton; it is going to stay long after this editor is laid beneath the sod.

That is not the purpose of our editorial. We have been giving in our paper just three times the news that is contained in any other weekly paper in the State, we care not where it is published. We have the papers here and invite comparison at any time.

Now, in the very nature of the case we have a right to call upon our party associates to rally around The Press and help us to keep it full of news. It involves a tremendous outlay of money to conduct a paper that gives all the news. We could, of course, send you a paper with a few squibs written by the youth on the square or the lady on the front porch, but who would be satisfied with that? Who wants ancient history all the time and never a line of news?

We want to give you a PAPER that is a NEWSPAPER, but we must have your help.

Wonder what the Republicans are going to do now that there is a split in their own ranks. One claims to be "regular" and the other "progressive." Under which flag, Benzonian?

Good roads, water works, sewerage; these, with the fine system of public schools which has already been established and is being improved each year, will make Clanton blossom as the rose. ARE you HELPING?

The Walker County News had a cartoon several weeks ago that is going the rounds. Have you seen it? Well, we won't tell just yet, because some people despise to hear the truth, much less to see it put upon canvas in glowing colors.

The pungent smell of the festive pig pen is again permeating the atmosphere. Pig meat is mighty fine in winter (and in summer, too), but the odor of the pig pen is not quite to our liking. See?

Don't make any other engagements for September 17. Clanton wants you here as her guests that day. We are Democrats in Clanton, and we propose to show you how royally we can entertain you.

O'Neal and Seed and Blackmon will be here, along with a host of other Democrats in whom there is no guile. Don't forget that Clanton wants you, and the girls and the boys—and the old lady. Come.

Spreading Out.

Heretofore Clanton matrons and misses have had to content themselves with the products of Western markets in so far as millinery is concerned; but along with other evidences of progress and metropolitan life comes the initial step made this year by Clanton's leading milliner, Miss Minnie Muse, who spent three weeks of her time in the Northern and Eastern markets surveying the styles and purchasing her stock.

Some modish hats and other things that appeal to the feminine taste were purchased in New York City, but not content with the New York markets alone, she went to Philadelphia and then to Baltimore, to be sure that she had secured the very best that money could buy and the latest that the fashion leaders had introduced.

A New Store for Clanton

T. G. Mackey & Son, of Birmingham, have opened a new stock of merchandise in the store formerly occupied by M. F. Cannon & Sons. The new stock consists of shoes, dry goods and gents furnishings.

A remnant of the stock of Cannon & Sons, consisting of plows, plow points, horse collars and harness will be disposed of at wholesale cost to make room for the other new merchandise which is daily arriving.

Our goods are right; our prices are right.

We solicit a share of your patronage guaranteeing you fair treatment, a square deal and uniform courtesy.

Mr. Jake Shepherd will be found behind the counters of the new firm to greet his friends.

Call, inspect and get our prices.

Yours anxious to please,

T. G. MACKEY & SON,

CLANTON, ALABAMA.

You Often Hear People Say of a Man

"He has money in the bank," and the people speak of him with respect as one who is getting along in the world

It's a good thing for your standing to have money in a bank, and it is easier than you think, especially as the

Clanton Bank

Clanton, Ala.

This ...rd game this season be... two teams, being one and ...le time of this, the third ...ourse this made it a very ...ame, each wanting to cap... game and make it two ... The Blue Stars managed ...hree scores in the third ...s made it appear to the ...ys that they would have ... a few, and so they did. ...have been there. Allow...ters" only three runs dur... the entire game, while the Mulberry boys totaled eleven runs to their credit. The batteries for this game were: Headley and Williams; Ratcliffe, Clinner and Owens.

The second game was between Mulberry and Durden's Mill. This was the first time that these two teams have ever crossed bats. The Mulberry team, after being wearied from the first game, defeated the slab trotters, rowers, etc., by a score of 11 to 3. Batteries: Oden and Oden; Headley and Williams; Stewart and Burkhalter.

The boys have been in very nice trim this year to support Williams, except that a couple of times they slackened up a little. Lost only two games this season. How is that?

A PLAYER.

Cooper.

Please allow me some space in your paper as I have not had a letter to appear in some time.

Cooper is the same old place that it has ever been; not going forward and yet not retrograding.

The health of our people is about as usual—up to the standard of any good community.

The crops are fine indeed. Most every one has finished fodder pulling and will soon begin to pick cotton, as it is now opening very rapidly. The ground is exceptionally dry, and the weather just right to make cotton pop open rapidly.

I noticed a piece in your last issue about our protracted meeting, so will not comment upon that, as I think the first writer wrote it up nicely.

Our Sunday school is now progressing nicely, and yet there is much that could and should be done. Not many of our young people realize the importance of the Sunday, or if they realize it they do not seem to take advantage of the opportunities presented to them. We would be very glad indeed to enlist the co-operation of every one in the community, as we believe that the Sunday school is a great factor in the upbuilding of our section.

Some one said in last week's paper that Philip O. Barret went out toward Providence last Sunday and thought he stopped down on the river. Now, this is right in part. He did go out toward Providence, but did not stop—so he says.

There was a school meeting here the other day for the purpose of selecting a teacher for the coming session. They selected our same teacher, Mr. Grady Harris. Mr. Harris is a young man. Nevertheless he is a fine teacher, and we are delighted to have him back with us again this year.

Rev. Dorse Hughes is ... planting the purchase of a home on this side of the river. Above three-fourths of his work lies on this side, and he thinks that it will be greatly to his advantage to be closer to his field of labor. We shall be pleased indeed to have him cast his lot with us.

Mr. Will Clark went out last Saturday to Verbena with his camera and secured some excellent pictures. Mr. Clark is an expert with the camera; he can take a picture and return the finished product in about ten minutes. He reports that he is doing a good business with his camera these days.

Mr. W. T. Patterson and family went down to Verbena last Saturday and spent the night and Sunday with the parents of Mrs. Patterson, Mr. and Mrs. W. W. Rutland.

Mr. Clark would gladly go anywhere there is to be an all day singing of any kind if he is notified.

With best wishes for The Press and its readers, A. BRONX KID.

Maplesville.

There is quite a need of rain on the late crops in this section.

They say that folks go to a dry country for health. If it is good for them they should come here till after a rainfall.

Misses Mollie Cobb left Sunday for Atlanta to purchase a fall line of millinery for the firm of J. W. Mitchell. She will be gone three weeks, after which she will be with the above mentioned firm to conduct the millinery department.

The entertainment last Tuesday afternoon given by Mr. and Mrs. Crum to their Sunday school classes was in every way a success and greatly enjoyed by all present. They had swings and merry-go rounds and other things for the pleasure and comfort of the guests, and closed with cream and cake.

There were 23 in the young men's Sunday school class last Sunday, against 14 the Sunday before. The young ladies also made a much better showing.

We reported 91 in the Sunday school on Sunday before last. There was an increase of ten last Sunday.

Mr. T. U. Crumpton, Mrs. Goodwin and Mrs. Anna Dubose are attending the Baptist encampment at Shelby Springs this week.

Misses Velma and Willie Mae Parnell, of Riderville, were here last Sunday to see the new baby at Mrs. L. E. Parnell's.

Messrs. Grady Williams and Buford Lawrence left Monday for Tennessee, where they will enter college. They are both young Baptist ministers, and are of good families.

Several of our friends read with interest the little article we wrote last week about visiting. I tell them to read it to the company.

Mrs. Loughlin, of Selma, and daughter and Miss Dyxie Griffin and brother, of Stanton, were the guests of Miss Jessie Mae Morris this week.

Mrs. Huggins is visiting her parents in Clanton this week.

One of the boys, Thomas Adams by name, slipped off and stole him a wife last Saturday, and such an old-time waking up as he did get Sunday night. The boys had all the music—old saws, tin pans and dogs, and such howling and barking you never heard in your life.

Mr. Jim Pryer, an old friend of the writer, was here on a visit last week. His home is at Perryville.

Mrs. Dr. Potts has returned from a visit to South Alabama.

Mr. T. U. Crumpton is having a deep well bored in his yard and expects, if possible, to have an overflowing well. There are quite a number of wells here 300 or more feet deep, but no overflowing well, so we presume that should he secure and overflow it will require a greater depth.

Quite a number of our people went out last Thursday to Pilgrim's Rest to attend the barbecue. They report that it was the best they have ever attended, but as they had to walk two miles from the railroad station we take it that the walk assisted greatly in whetting their appetites.

Miss Jessie Mae Morris went up to Joness last Saturday to attend a barbecue at that place.

There was quite a crowd of young people down from Riderville last Sunday afternoon to meet some friends from Dothan, who arrived here on the M. & O. from Montgomery.

Mr. Will Allen returned home Saturday from a stay of three weeks in Michigan and Canada, where he visited his parents and other relatives. Mr. Allen is saw filer for the lumber company here, and during his absence Mr. Deramus has been acting in that capacity.

Misses Meda Cobb, of Jemison and Unice Menasco, of Avondale, visited Mrs. Mitchell last Friday.

The melon crop continues to hold out nicely in this section. The farmers are bringing nice ones to town.

Miss Willie Drawhorn, of Selma, and Mr. Lee Coker, of Florida, are visiting Miss Frankie Lawrence here.

It is reported on the streets here that next Thursday will be a general holiday in Maplesville. All the stores are to close, the lumber company is to shut down its plant and close the commissary. The question naturally arises: What in all this far? Well, Jim Scoggins is to be married on that day, and we propose to celebrate. Will write up the wedding next week.

J. W. M.

Personal.

The many friends of Mrs. Ben Teel will be delighted to know that she has decided not to leave Clanton just yet at least. She has taken rooms at the Thornton home and will remain here for an indefinite period.

If you want to please your best girl take her a box of Nunnally's candy; present it with a pretty bow and see her smile with gladness. Upchurch is the place to get it.

The following marriage licenses have been issued this week:

Mr. Claude Bullard and Miss Doliny Rutland.

Mr. J. Harvey Williams and Miss Lilla Alred.

John Hill (colored) and Maggie Williams (colored).

Mrs. James M. Fuller and children, of St. Louis, who have been visiting her sister, Mrs. Guy Higgins, left last Friday for her home, much to the regret of her many friends.

We call attention to the advertisement of Mr. Amos Altman, of Thorsby, which appears in this issue. It is the "live ones" who advertise. When you see a merchant's display card in the local papers you can rest assured that he has something to sell; if he does not advertise he is along with the "dead timber" of the town.

Mr. L. E. Gullahorn, of Tafton, Ala., spent Sunday with friends in Clanton.

Mr. Guy Higgins spent Tuesday and Wednesday of this week in Birmingham on business.

Mr. Abe Kanter returned Sunday afternoon from a business trip to St. Louis.

Mr. Harvey Chandler and E. M. Pinckard returned Monday from an extended trip to the Western markets, where they went to lay in a supply of fall goods.

Mrs. E. E. Upchurch and children returned Sunday from a visit to Prof. and Mrs. W. W. Monroe in Fayette.

Mr. and Mrs. Luckie spent several days with relatives in Montgomery the past week.

Mrs. Clara Mullins, who has been in St. Louis making extensive purchases for the Clanton Millinery Company, returned this morning, having secured the most exclusive designs in the millinery art.

Bring us your family receipts and we will make a practice of using exactly what your receipts call for. We use no substitutes, and our prices are right. Yours for a square deal,

UPCHURCH DRUG CO.

Rev. F. M. Woods has just returned from Plantersville, where he has been conducting one of the most successful meetings ever held in that section. There were forty-seven accessions to the church and the older members were greatly revived.

Miss Pattie VanDerveer will return this week from Maylene.

Master Jack Wade gave a birthday party last week to his little friends in commemoration of his seventh birthday. There were present more than fifty little friends, all of whom entered enthusiastically into the games of the afternoon. Jack was loaded down with pretty and useful presents. The house and the yard was turned over to the little folks, and they romped and played till the afternoon sun had set. Late in the afternoon a bounteous supply of cream and cake were served, and to say that the little folks enjoyed it would be expressing the truth but lightly. May the young man live to enjoy the friendship of these young folks for many, many years, and may all his birthdays be as bright and happy as was his seventh.

See Upchurch's new line of jewelry, and remember in buying that they stand back of every piece of it—with the cash—should it not prove entirely satisfactory.

WANTED—SACKS.

Will pay 2 1-2 cents each for cotton seed hull sacks, oat sacks or any other kind of sacks that are large enough to ship ice in.

CLANTON BOTTLING WORKS.

tf

Mr. J. P. Figh, of Montgomery, is the guest of Mr. and Mrs. P. A. Hinkle.

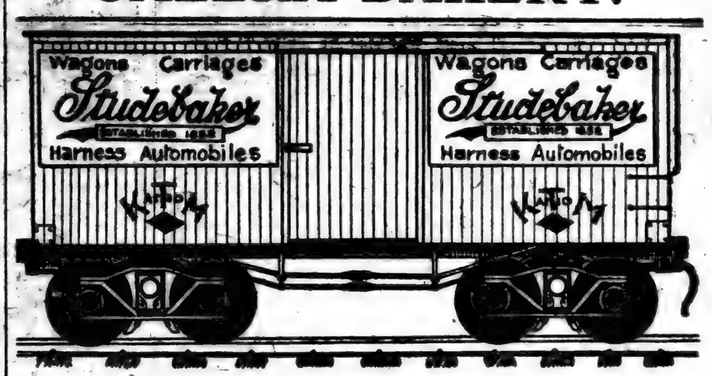
Mr. and Mrs. Eugene Sartor, of Birmingham, spent Sunday last with the family of his brother, Mr. W. H. Sartor.

LOST! LOST!

Last Friday, between Clanton and the residence of W. W. Gray, a gold open-faced, Waltham watch, with black fob attached with initials "D. A." on one side and a Mason's Head on the other. A liberal reward will be paid if returned to Kelley, Davis, Elkerton, Ala.

FOR SALE—

The Calera Bakery



Desires to announce to the good people of Clanton that Mr. J. E. Evans is agent for our breads and cakes. He receives a fresh shipment daily.

Our goods are the equal of those found anywhere on earth. The bread is light and wholesome. The cakes are pure and delicious.

Call upon Mr. Evans when in need of Pure Bakery Goods.

Yours truly,

CALERA BAKERY.

A Carload of "STUDEBAKERS"

We have just received a carload of *Studebaker* wagons. Come in and look them over. Let us show you how well a *Studebaker* is built.

FRED KAUFFMANN

MADE TO MEASURE GARMENTS

ARE THE MOST PERFECT UNDER THE SUN

Several million people know the fine made-to-measure clothing for men made by *Fred Kauffmann*, Chicago.

This tailoring organization has built up the greatest made-to-measure business of the country, running into so many million dollars that you'd use up thumbs and fingers tallying it off.

This vast business has been won—and is being held—by carefulness.

Their designers get larger salaries than the members of Taft's Cabinet; their buyers of cloth are national experts; their standard for cloth, at our suggestion, is absolutely all-wool.

Fred Kauffmann secured us as representatives with the determination of making *Kauffmann* tailoring as standard in this vicinity as are Elgin or Waltham watches.

Tailoring that is guaranteed by seven simple words, namely: YOUR MONEY BACK UNLESS WE PLEASE YOU. This guarantee is backed by the mill, the maker and us.

Kauffmann has sent us a message: *"We'd like to spend some money to further entrench our tailoring. What should you suggest?"*

Our answer was: *"Spend it by giving us a reduction that will capture the town."*

The best way to win trade for *Fred Kauffmann* tailoring is to get it on man's back. It will win their permanent friendship, and so we will take your measurement for made-to-your-personal-order garments at prices which have never before been quoted for *Fred Kauffmann* tailoring, namely:

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Graniteville, Vt. — "I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." — Mrs. Chas. Barclay, R.F.D., Graniteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

The discovery that he has invested in a salted mine is apt to make a man peppery.

For HEADACHE—Hicks' CAPUDINE
Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at drug stores.

Located.

Old Gentleman (to waiter)—Can you tell me if my wife is here?

Waiter—Yes, sir, eighth hat to the left.—Fliegende Blaetter.

English as She Is Spoke.

Chinatown Visitor—John, sabee, see screen—how much sabee want for him?

The Chinaman—What's the matter with you? Can't you speak English?—Judge.

The Stylish Fisherman.

One of the guests at a fashionable summer resort in West Virginia got himself up in his best "fishing togs" and started along a certain mountain stream.

Meeting a native, he asked: "Here, my good man! Kindly tell me whether it would be worth my while to try fishing in this vicinity."

The native regarded him scornfully. "The fishin' ain't good," he finally said, "but I ain't informed as to how you values your time."—Lippincott's.

Tough Luck.

"I thought you said this was a young chicken," remarked Newed, as he sawed away at a portion of the bird.

"And I thought it was," rejoined his better half. "I looked in its mouth and it showed no indications of having cut a single tooth yet. The dealer must have imposed upon me."

"Did he tell you it was a young chicken?" queried her husband.

"No," replied Mrs. Newed. "But I'm sure he must have extracted its teeth before offering it for sale."

LACK OF MONEY
Was a Godsend in This Case.

It is not always that a lack of money is a benefit.

A lady of Green Forest, Ark., owes her health to the fact that she could not pay in advance the fee demanded by a specialist to treat her for stomach trouble. In telling of her case she says:

"I had been treated by four different physicians during 10 years of stomach trouble. Lately I called on another who told me he could not cure me; that I had neuralgia of the stomach. Then I went to a specialist who told me I had catarrh of the stomach and said he could cure me in four months but would have to have his money down. I could not raise the necessary sum and in my extremity I was led to quit coffee and try Postum.

"So I stopped coffee and gave Postum a thorough trial and the results have been magical. I now sleep well at night, something I had not done for a long time; the pain in my stomach is gone and I am a different woman.

"I dreaded to quit coffee, because every time I had tried to stop it I suffered from severe headaches, so I continued to drink it although I had reason to believe it was injurious to me, and was the cause of my stomach trouble and extreme nervousness. But when I had Postum to shift to it was different.

"To my surprise I did not have headaches when I began to drink Postum. Coffee has been steadily and slowly undermining my health for years, and I did not realize it. Postum has brought me back to health and I am grateful for it." Name given by Postum Co., Battle Creek, Mich.

The ONLOOKER
Wilbur D. Nesbit

The BRAND NEW WORLD

How old is the world? they're askin',
An' they whisper in our ears
That they'll soon be unmaskin'
The number of her years.
They reckon it by millions,
Their figures fill the wall,
An' some say it is billions—
But she's not old at all.

She's brand new every mornin'
In silver sunlight dressed
With flowers for adornin'
Her path from east to west;
She isn't growin' older,
She's young as young can be
Though age is growin' bolder
Each day with you an' me.

The good Lord sends the showers,
The sunshine an' the dew,
The sweet breath o' the flowers
Each day to make her new—
I wish he thought us worthy
Like in the olden days
To really be earthy
An' walk in newer ways.

I see the stars a-shinin'
Like jewels every night,
The mornin' glories twinin'
Each mornin' in the light,
An' all these things together
Blend with the song that's sung
In all the summer weather:
The world's forever young.

She's young as when creation
First felt the primal thrill,
When each star took its station
Accordin' to His will.
She's brand new every mornin'
In silver sunlight dressed,
With flowers for adornin'
Her path from east to west.

Parlor Magic.

"To do this trick with cards," explained the parlor magician, "you must first slip the card selected upon the bottom of the pack. Then, while talking on some interesting subject, you should peep at the card. Having fixed it in your memory, you count 100, adding to that the number of spots on the card, multiply this by 52 and divide by four because there are 52 cards in the deck and four suits of cards. Take the result, subtract 13, because there are that many cards in a suit, ask the person who drew the card if he or she remembers what it was, and then draw it from the bottom of the pack and show it to him or her."

"But," says one of the audience, "wouldn't it be just as easy to take it from the bottom at the start?"

"True, but wouldn't you rob the feat of all its mystery?"

Her Desire.

"But I tell you I can't afford it," protests the husband. "Can't you get that new hat off your mind for one day?"

"I don't want it off my mind," explains the suffering wife. "I want to get it over my mind."

Getting His Money's Worth.

"My Uncle Silas," says the man with the mole on his ear, "was one of the most saving men that ever lived. But even with all his economical traits he never objected to my aunt's having everything she wished on the table at Thanksgiving, making, however, one stipulation.

"What was that?" asked the man with the confiding air.

"That he should have a mirror face him while he ate, so that he would seem to be getting twice as much as there was on the table."

The Advantages.

"Did you enjoy the advantages of a college education?" asks the interviewer of the man who has suddenly become prominent.

"That depends upon how you look at it," replies the eminent person. "My sister married a professor and my brother married a professor's daughter."

AS IT APPEARED TO HER

Mrs. Geiricke Evidently Didn't Think Much of Mr. Blank's Earning Capacity.

Mrs. Herman Oelricks, the best-dressed woman in Newport, criticised very pertinently, at a recent dinner, the new dinner gowns of Paquin and Callot.

These clinging and slinky gowns are chiefly remarkable for the V-shaped back that they possess. The V—it is incredible, but it is true—opens all the way down to the waist line. At a gala performance in Paris given by the Metropolitan Opera company of New York—the most successful performance Paris ever saw, and one whereat $40,000 was gained for the Pluviose victims—many of the beautiful Americans in the $40 orchestra seats wore these daring gowns, and now at Newport they are often to be seen.

Mrs. Oelricks stared at one with astounded eyes at a dinner, and her neighbor said:

"Isn't that new gown of Mrs. Blank's a dream? Old Mr. Blank is so devoted. They say that everything he makes goes on his wife's back."

Mrs. Oelricks, her eye fixed on the gown's terrible V, said with a smile:

"Well, he must be making very little, then."

Practical Matching.

What the little girl with the 15 cents in pennies wanted was some red ribbon of a particular shade for her mother. She knew the shade, but she couldn't explain it and all she could say was, it wasn't that, no, nor that; it was deeper than that, and not so deep as that, and so on.

The mission was look... when suddenly she dar... shop and seized a pas... by the hand.

"Will you please come ... with me?" she asked ...

"Certainly, my chicka... plied, "if I can be of any ... is it?"

The little girl replied ... the wondering stranger to ...

"There, miss!" she said, ... ly. "Mother wants some ... color of this gentleman's ...

Divining Rod 200 Years Old.

Winslow W. Fifield of Medford, Mass., owns a metallic divining rod brought from England more than two hundred years ago by one of his ancestors. The rod, says Mr. Fifield, has been used successfully all over New England and in the western mining districts. It is attached to whalebone handles 12 inches long and weighs two ounces. The handles have inscriptions on them which are almost obliterated by age.

The person who brought the rod to America was Isaac Greenleaf, who settled in Massachusetts. The rod became famous as a finder of water. After marking the place of many springs the rod was used in California, Colorado and North Carolina for locating by men in quest of gold mines and other metals. One person who used it with particular success was a blind man, in whose hands the rod is said to have done marvels.

A Strong Preacher.

The minister's eight-year-old daughter was returning with her parents from church, where the district superintendent had that morning occupied the pulpit.

"Oh, father," asked the little girl, her face alive with enthusiasm, "don't you think Brother C. is a very strong preacher? I do."

Gratified by this evidence of unusual intelligence on the part of his offspring, the minister eagerly inquired into her reasons for her statement.

"Oh," replied the little miss, artlessly, "didn't you see how the dust rose when he stamped his feet?"—Judge.

The Counterfeit Southerner.

Of course, there are many counterfeits. A most amusing imitation is one that often passes for the typical southerner in New York. This satchel-mouthed braggart infests the cafes and demands attention by his abusing the waiter for offending his delicate sense of honor. "I hate a nigger, suh," he loudly proclaims, which is a sentiment that one never hears from those to the manner born. He haunts the theaters and parades the streets, since it is poor fun to practise his gentility in private.

He wears a wide black hat, mounts the table and yells whenever the band plays a southern melody. Such a pretentious caricature would be harmless enough, but for the ridicule he brings upon the south. Unfortunately, popular authors seem to accept him at face value and exploit him ... plays where a "southern" ... essary part of the stage ... Everybody's Magazine.

Wasted Sarcasm.

The Philadelphia milk ... recently raised the price ... product to nine cents a quart ... lowered it again to eight ... have been the subjects of ... of unjust censure. They ... at the time of the raise ... could not be sold at eight ... out loss. Finding that the ... would not pay the new price ... they are continuing to sell ... thereby qualifying as great ... thropists. Every purchaser ... at eight cents a quart will ... hereafter feel that he is ... charity.

Hoodwinking Clergymen

When a small clique of men put up a scheme to harness the clergy of America and induce the ministers to, in turn "hitch up" the members of the churches, we should all take notice.

They couldn't harness the preachers in a bad cause except by deceiving them.

Ministers of the gospel are essentially and fundamentally honest but, like all men who work for the public good, they are at times mislead by false statements.

Trust them when they have exact truth to speak from.

Now for the story which should interest every one for we are all either receivers of wages or we pay to wage earners and the freedom of each individual is at issue.

In various papers the following statement has been printed. Read it carefully at least twice.

"Interest in Labor Sunday.

"Labor Sunday—the Sunday preceding Labor day—will be observed generally this year and in future years throughout the United States. This because of the American Federation of Labor declaration for the observance of that day. The numerous letters recently received at American Federation of Labor headquarters from ministers is an assurance that interest in the idea of giving special attention to the cause of labor from the pulpit one day in the twelve months is widespread. Our readers are urged to try to bring about an understanding in their respective districts with representatives of the church so that ministers will make addresses that may attract trade unionists to the churches in large numbers for the day. Ministers should say what they think on the occasion in order that their trade union hearers may put the right estimate as to where the church stands on the question of the organization of labor. The more the subject is discussed the better will it be for labor. Union ethics are sound. —*American Federationist*."

Observe that "Labor Union" men "are urged" to induce ministers to make addresses that will attract trade unionists to the churches "for the day." "Ministers should say," etc., and winds up with "Union ethics are sound;" observe the hidden threat.

This is clipped from the *American Federationist* the organ of Sam Gompers, et al.

This clipping has been sent to papers throughout the country and the Typographical Union men in the newspaper offices instructed to "urge" that it be printed.

That is one of the ways of the "machine."

It looks harmless so the papers print it.

But! Let's lift the cover and look under.

The hidden motive is as dangerous to the peace and liberty of the citizens as a coiled rattlesnake in the grass.

Organization by workmen to peacefully and successfully present their side is necessary and most commendable.

There are such organizations now rapidly winning their way to public confidence without strikes, dynamite or killing fellow workmen.

(Some facts on this matter a little further along in this article.)

We see here a demand on the ministers of God, that they endorse and help build up the strike-producing, boycotting and violent American Federation of Labor.

Think of the man of God who teaches brotherly love being cowardly cringing to praise and help get new members for an organization with a record for violence, crime and murder done by its members the like of which the world has never seen.

Think of the thousands of pitiful made widows and the increasing thousands of children left fatherless by the pistol, club, dynamite and bomb head of members of this Labor Trust.

Any one who reads the countless ... stroyed, men murdered ... long list of atrocities ... Labor Trust members on ... beings who cannot agree ... trust methods.

There is seldom a day passes but somewhere in our country from one to a score of our fellow men are assaulted or murdered by members of this band.

Then remember the homes blown up or burned. The families hounded, the rioting, burning of street cars, wrecking of trains and attempted or successful killing of passengers.

The general disturbance of industry and the thousands of dollars forced from tax payers to pay extra police, sheriffs and militia to protect, even in a feeble way, the citizens from the mobs of members of the American Federation of Labor.

Then you will realize why the great peace-loving majority of over 80 million Americans protest against the growth of this crime-tainted organization comprising perhaps one and one-half million men, of which it is estimated at least seven-tenths are peace-loving citizens and are members by coercion and are not in sympathy with the three-tenths who have gained control and force their methods.

We find that a few designing men have seized control of the American Federation of Labor, just as some shrewd capitalists have secured control of some railroads and other interests and are now twisting and turning them into machines for personal profit and fame.

These men cunningly plan to force workmen to join and pay 25 to 75 cents a month in fees.

Various methods are used to "induce" workmen to join.

First, they talk of the "tyranny of capital" making slaves of workmen.

Then they work up enthusiasm about the "brotherhood of man" and other talk which experience has shown excites the emotions of workmen and they are induced to join and pay fees to the leaders.

The 5000 workmen in Battle Creek are, as a rule, free from the dictates of the great Labor Trust and still get the highest wages in Michigan. If they had yielded to the smooth talk of the agents of the trust and joined, they would pay in fees from $1250.00 to $2000.00 a month to the big trust and be subject to strike orders any time.

Now they save that and put the money into homes and family comforts.

But the managers of the American Federation of Labor have worked hard and long to harness them.

The trust has sent small bales of money and last winter 18 "organizers" to tie up Battle Creek. They hired halls, gave picture shows, smokers, etc., as an investment, looking to rich returns when they succeeded in having them tied hand and foot.

But they failed and the last of these "organizers" left Battle Creek on May 1st saying "it's no use."

The workmen knew the record of this great trust and formed their own association to protect their rights and also to protect them from the big Labor Trust.

In Philadelphia some 4000 independent street car men, who mainly had families, had their own union and refused to join the big trust, preferring to be free to work or not as they pleased.

But the trust planned to force them into the fee-paying ranks, so a strike was ordered to compel the traction company to kick out these men and hire only Labor Trust members.

It was not a question of wages or hours but to push the free men out of their positions where they were earning good money to support their families. The strike was ordered, not to gain wages or reduce hours, remember, but solely to throw out members of an independent union and make places only for Labor Trust members, and thus show the independent men they could not earn a living unless they paid fees to the trust managers.

Unfortunately the ... each morning! It's meat and bread to their souls.

Then think of the lordly power, and don't forget the steady flow of money squeezed from the workman's hard earned pay envelope.

But when these leaders "tie up" any industry no man can hold a job who refuses to pay fines even on trumped up charges, and steadily pay fees whatever they are.

The workman is absolutely at the mercy of this band of men who have secured and hold control.

Many and many an honest workman has raised his voice and appealed to his fellows to rise and throw off the yoke of Gompers, et al. But, as one writes, "At every convention of the American Federation of Labor, strong opposition comes up but at the critical moment the impassioned orator appears and most dramatically puts the spot light on the leader and covers him with a mawkish film of 'martyrdom' and the emotional delegates yell in delight, forgetting the instructions of the peaceful workingmen at home who desire to free themselves from the odium of membership under the great advocates of strike, boycott, violence and hate."

So we see the unequalled insolence with which these trust leaders propose to "induce" ministers to pull their chestnuts from the fire by preaching modern aggressive and violent labor trust methods.

There is a better way to secure justice for workers, as will appear further along.

Just a little diversion here.

I am charged with having first brought to the attention of the public some years ago, the name "Labor Trust."

A trust is a combination of men or organizations for the purpose of selling their product at a profit and restricting production to effect it.

We will say a large Oil Company gathers in smaller ones and thus controls production.

The Labor Trust "gathers in" local trade organizations and thus has power to say how much work each man shall do.

The Oil Company then fixes prices.

The Labor Trust does likewise.

The Oil Company may "use methods" to force an unwilling dealer to join.

The Labor Trust men go further and slug the independent man if he tries to sell his labor without paying fees and "obeying orders." They are both exactly alike in purpose, which, in both cases is entirely selfish to gain power and money for the leaders.

Certain Labor Trust members do not hesitate to use violence, dynamiting of property, burning homes of independent men and even murder to force obedience.

The Oil Company doesn't go so far.

Both are extremely dangerous to the welfare of people and communities, for power placed in the hands of a few men either representing Capital or Labor is almost always abused and the public suffers.

Remember, reader, that your safety lies in strenuous opposition to all trusts which try to ride over and dictate to the people.

Only by opposing their growth can you retain your personal liberty.

Now to ministers.

The average congregation is made up of about 90 per cent. of free citizens and much less than 10 per cent. of members of the Labor Trust.

The free citizen wants to hear words defending the rights and independence of the common man, free from the arbitrary dictates of any self-speaking organization either of Capital or Labor.

The merchant, lawyer, school teacher, doctor, clerk, farmer and workman rebels against any forcible stopping of trains, boats, street cars, or factories, for the prosperity of the community is entirely dependent on the steady continuance of these things.

Men don't like strikes, boycotts, injured workmen or burned cars and factories.

Ciphers Used by Yeggmen

Here is a unique soup:"

ut ten or a dozen crumble it up fine or wash bowl, then gh uswhohs (either over it well. Stir it hands, being careful lumps; leave it set ; then get a few oth and tear it in the mixture through other vessel, wring and throw it away. e Lhai ugx uswhohs the same amount of of uswhohs and the whole set for a

of yeggmen, whose is robbing safes. A through the riga- subdivision of the substitution of one . The first six let- A are substituted ginning with U, and ingle exception that its turn and made , an irregularity in- the cipher from de- her is proof against certainly not this h still used by ess is known to the police, to post office inspectors and the treasury secret service people.

Translating, you find that to make the soup you take ten or a dozen sticks of dynamite and use either wood or pure alcohol in the manner directed.

Fewer depredations by yeggmen are reported this year than usual. Last fall a series of such crimes occurred and since that time apparently there has been a period of inactivity among these most dangerous of plunderers. The post office inspectors, whose contact with yeggmen is frequent, since the attacks are often directed against country post offices, hesitate to say whether there has been an actual reduction in their numbers; for experience goes to show that waves of crime seem to sweep the country after intervals of varying length.

The "yeggmen" are especially feared because of their recklessness regarding the sacrifice of human life. Of itself, handling the "soup" is a dangerous business. The explosion is a menace to anyone in the building, and often the robbers must make a running fight of it to "make a get-away with the swag."

The name is of gypsy origin, and among gypsies indicates a clever thief so the "yegg" is a wandering thief, generally a "hobo." As late as twenty years ago one tramp meeting another and desiring to be sure of his identity, as a professional tramp, saluted him, "Ho, Beau." It was the password establishing at once a confidential partnership on a basis approaching outlawry. The "yeggs" generally are tramps, though not all tramps are "yeggs."

an Tells of Baseball Game

n can, one who has light of day, sitting place in the grand all his energy for home team, and you out just why Wash- pports a ball team, tossers have not fin- division during the

not believe in giv- ing his entire attention to study, and, accordingly, he has found it to his liking to take in the ball games. Not only is he familiar with every characteristic of the members of the local team, but he knows as well the records and playing abilities of the visiting aggregations.

"I have often been asked how, as a blind man, I can enjoy a game. Why, there is nothing going on I don't get. I know the finer points of the game, and can map out plays which I think Jim McAleer in his palmiest days could not duplicate. Don't you think it is a pleasure to see chaps of the Milan type skip around the diamond? I cannot help from yelling every time I 'see' him completing the circuit. Then there is Speaker of the Boston team, and Cobb of the Tigers. How I love to 'watch' them in action!

"It is my firm belief that all blind people have a sort of intuition, and everything that is going on around them makes a picture in their mind. That is the way it appears to me, anyhow. I can sit in the grand stand in the ball park and picture what Walter Johnson and the rest of the players look like.

"When the game is over, I don't have the least trouble getting to the street cars. I can feel my way along the grand stand and reach the street."

t to Stop Infantile Paralysis

the inroads the dis- g in some of the t the present time, as ordered an inves- epidemic of infan- New York, Pennsyl- tts, New Jersey, Washington, D. C., ease the heaviest s scores of deaths d among the little t has caused Uncle action.

the Public Health al service, is the stigation, and he cement this week disease to be both tagious. Although the disease is often fatal, its appalling feature is that many children affected are permanently crippled or deformed, robbed of speech or hearing. In a word, infantile paralysis is not a slaughter but a mutilation of the innocents. The disease commonly attacks children under five years of age, but occasionally an adult is its victim.

Its shining mark at this minute in the east is William Hinrich, a pitcher of the Washington American league in Washington, and his entire right baseball team. He is in a hospital arm is paralyzed. At the present time there are over 500 cases of the disease in Washington alone, while Philadelphia and New York city reports even greater numbers. Nothing is known of the cause of the disease other than that it is believed to come from a germ, but even these have not yet been found. The disease usually appears during June, reaches its greatest prevalence during July and August and subsides in September.

Singer and Actor Views Doan's Kidney Pills.

Mr. Jarvis, who is one of America's leading baritones, played the part of the "Old-Grad" in the Fair Co-Ed Company with Elsie Janis. He writes: "For a long time I was troubled with backache. I consulted some of the most prominent physicians with unsatisfactory results. I was advised to try Doan's Kidney Pills, and felt benefited soon after beginning to take them. Continued use cured me completely. I cheerfully recommend them to any one suffering with kidney trouble."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

ALMOST WORN OUT.

Ella Fontine—Is your knee tired, dear?

Slenderly—It must be, pet; it's gone to sleep.

IN AGONY WITH ECZEMA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment.

"I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Mrs. Altie Etson, 93 Inn Road, Battle Creek, Mich., Oct. 16, 1909."

All the Difference.

The professor was delivering an eloquent address on cruelty to animals, and to illustrate how a little judicious forethought would eliminate to a great extent the sufferings that even small insects are subject to, said:

"As I was coming through the hall tonight I saw a bald-headed gentleman very harshly treat a little innocent house-fly which had alighted on his head.

"Now, if there was any justification for such bad temper, I would be quite justified in indulging in it at the present moment, for a fly has just alighted on the back of my head. I can't see it, but I can feel it.

"Possibly some of you can see it now; it is on the top of my head. Now it is coming down my brow; now it is coming on to my— G-r-r-eat pyramids of Egypt, it's a—wasp!"

His Pet.

Harker—Think I'll try to sell old Stuffem some pet dogs.

Barker—Useless job. All he thinks about is eating.

Harker—Hasn't any four-legged friends, eh?

Barker—Only one, and that's the dining room table.

Points of View.

Venus was rising from the sea.

"What a vision!" cried the men on the beach.

"What a horrid bathing suit!" echoed the women, enviously.—Chicago News.

A CHANGE TO BE SURE

Statement of Beauty Doctor May Have Been True, but It Was Not Gallant.

William F. Oldham, bishop of Singapore, talked at a dinner, on his last visit to New York, about missionary work.

"A certain type of man," he said, "goes about declaring that we dominant races civilize the savage out of existence—that we do them harm instead of good.

"Well, as a matter of fact, if these cavaliers knew what I know about some tribes, they would speak less confidently. Some tribes are so debased that to do they anything but good would hardly be possible. They are, in fact, just like the ugly woman who visited the beauty doctor.

"This woman was ugly in every feature, but her nose was particularly ugly. That, no doubt, was why she desired the beauty doctor to begin on it.

"'I am willing,' she said, 'to pay you liberally, doctor, but I demand in return substantial results. We will start with my nose. Can you guarantee to make it ideally beautiful?'

"The doctor, after looking attentively at the woman's nose, replied:

"'Well, madam, I can't say as to ideal beauty, but a nose like yours I couldn't help improving if I hit it with a mallet.'"

One Record Made by Women.

Through the activity of women, in the anti-tuberculosis campaign, sanatoria and hospitals for the treatment of tuberculosis have been erected; traveling libraries have been circulated, posters, circulars and other kinds of literature have been distributed to the number of millions of pieces, thousands of lectures have been given, large sums of money have been secured, hundreds of needy cases have been helped; tuberculosis work has been started in many communities where no movement had existed; and millions of women have learned the dangers and methods of prevention of tuberculosis. The work of the women extends from the drawing-room of the rich to the homes of the poor, and embraces all classes, including the factory girl and millionaire. During the coming year a special campaign of lectures to women will be carried on in all parts of the United States.

Why He Was Sorry.

To impress on young children just what should and what should not be done and why, is among the most trying problems of parents, as evidenced by the recent experience of a West Philadelphia mother. Last Sunday she asked her small son, aged eight, to carry a chair for her from the dining room to the parlor. He started off willingly, but in the hall he tripped and fell. Amid the crash could be heard the boy giving vent to utterances that would have done credit to a pirate of ancient days. The mother was taken by surprise and was greatly shocked. She gave the boy a long and serious talk on the subject of profanity. This apparently did not make the right impression, for when she concluded the boy adder to her discomfiture by exclaiming, "I am sorry I swore, mamma, but I forgot it was Sunday."

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM

Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria, the Iron builds up the system. Sold by all dealers for 30 years. Price 50 cents.

Evidences of Wealth.

"I wish we had a piano; I'd like to impress those people."

"Show 'em the piece of beef you've got in the refrigerator."

If a man amounts to anything in a small town he soon begins to think he would amount to more in a big town.

Surprised.

"I have succeeded in tracing my ancestry back through ten generations."

"Without coming to a mesalliance?"

By associating with some old people you may realize the truth of the saying, "The good die young."

Little, but, Oh, My!

Senator Smoot of Utah tells a story on the late E. H. Harriman, which sounds somewhat familiar. He says that when the Salt Lake cut-off was completed Mr. Harriman took a large party of big railroad men out to it.

They had their pictures taken at the right spot scenically. Mr. Harriman stood at one end of the group. When the pictures were printed and the photographer brought them around the railroad men examined them.

"Why," shouted one of the guests, "where's Mr. Harriman?"

"Do you mean that little chap that stood at the end?" asked the photographer. "Why, I cut him off."

Facts for Weak Women

Nine-tenths of all the sickness of women is due to some derangement or disease of the organs distinctly feminine. Such sickness can be cured—is cured every day by

Dr. Pierce's Favorite Prescription

It Makes Weak Women Strong, Sick Women Well.

It acts directly on the organs affected and is at the same time a general restorative tonic for the whole system. It cures female complaint right in the privacy of home. It makes unnecessary the disagreeable questioning, examinations and local treatment so universally insisted upon by doctors, and so abhorrent to every modest woman.

We shall not particularize here as to the symptoms of those peculiar affections incident to women, but those wanting full information as to their symptoms and means of positive cure are referred to the People's Common Sense Medical Adviser—1008 pages, newly revised and up-to-date Edition, sent *free* on receipt of 21 one-cent stamps to cover cost of mailing *only;* or, in cloth binding for 31 stamps.

Address Dr. R. V. Pierce, Buffalo, N. Y.

GOOD WORK IS PROGRESSING

Women In Every State Join Earnestly in Campaign Against Tuberculosis.

Four years ago the only active women workers in the anti-tuberculosis movement were a little group of about 30 women's clubs. Today 800,000 women, under the United States, are banded together against this disease, and more than 2,000 clubs are taking a special interest in the crusade. Not less than $500,000 is raised annually by them for tuberculosis work, besides millions that are secured through their efforts in state and municipal appropriations. Mrs. Rufus P. Williams is the chairman of the department that directs this work. In addition to the work of the General Federation of Women's Clubs, the Public Health Education committee of the American Medical association, composed largely of women physicians, has carried on an educational campaign of lectures during the past year in which thousands have been reached. The Mothers' congress, the Young Women's Christian association, and many unattached clubs bring the number of women united in the tuberculosis war to well over a million. There is not a state in the union where some work has not been done.

While in Bed.

Howell—I see that the paper says that the treasury department announces that by washing paper money it will last twice as long.

Powell—Yes, but what is a poor devil to do while his money is at the laundry?

How many of us have cravings that never will be stilled, though we do not talk about them.—Dr. Robertson Nicoll.

KAISER ASSERTS HE IS INSTRUMENT OF GOD

German Ruler Pledges Himself to Maintain Military Standards.

SPEECH CAUSES SHARP CRITICISM

Words of Protest Throughout Empire When Kaiser Said He Rules by God's Free Grace.

Koenigsburg, Germany.—Proclaiming himself an instrument of the Lord, Kaiser Wilhelm pledged himself to maintain German's military standing at a high level. The sentiments were expressed in a toast to East Prussia, given at a banquet here. The kaiser said:

"We are ready to keep our armor without a flaw, seeing that our neighboring powers have made enormous progress. Looking upon myself as an instrument of the Lord, regardless of the views and opinions of the hour, I will go my way, which is devoted solely to the well-being and peaceful development of the fatherland."

Berlin, Germany.—The speech delivered by Emperor William of Germany before the provincial banquet at Koenigsburg, in which he reiterated and emphasized his belief in the divine mandate by which he rules, referred to the Prussian crown as bestowed by God's grace and not by parliament's or people's assemblies and laid a lance against the present movement for women suffrage, is the political sensation of the hour.

The leading organs of the German press devote extended comment to it, generally criticising the emperor's utterances, and there are indications that the discourse will have a deep political effect on the country, nearly all the Berlin papers discussing the subject in connection with the political crisis of November, 1908, when the publication by the London Daily Telegraph of an interview with the emperor aroused a storm against the uncontrolled public speaking of the emperor.

Criticising the suffragette movement the kaiser reminded the housewives of his empire it was his belief they should rule the world from the fireside and the cradle, and, incidentally, added that women should furnish the inspiration for heroic militarism.

German women, said the emperor, should learn from Louise of Russia that their duty does not lie in participating in public meetings and societies nor in attaining supposed rights in the exercise of which they may be able to do the same things as men, "but in quiet work at home and the family."

London, England.—The Times in an editorial dealing with the speech of Emperor Wilhelm says:

"History is not likely to regard it as an accident that the two figures whose eloquence reached farthest in the western world of their day should have insisted in language so similar in its directness and force on the simple human obligations which men and women were seeking to escape. Emperor William and Colonel Roosevelt do not preach from the same text, but the moral of their preaching is the same."

FOREST FIRE DEATH LIST.

Over 200 Lost Lives in Forest Fires in Northwestern States.

Spokane, Wash.—The following are the revised figures on the forest fire dead:

United States forest employees, including Haines' 15 men, 136; loggers and settlers, St. Joe Valley, Idaho, 50; at Bullion Mine, Montana, firefighters, 8; at Wallace, Idaho, 4; at Newport, Wash., 3; at Mullan, Idaho, and Spokane, 3. Total, 204.

Telegraphic communication with the St. Joe Valley of Idaho has been restored, but it is not yet possible to verify the reports of large loss of life among fire-fighters, additional to the 45 reported by the government officers. The estimate of over 200 dead in the three states is adhered to by those most familiar with the situation.

Amoskeag Mills Shut Down.

Manchester, N. H.—Fifteen thousand employees of the Amoskeag Cotton Manufacturing company were thrown out of work when the 17 mills of the plant closed for a period of 15 days.

Tennessee Bank Makes Assignment.

Nashville, Tenn.—The Commercial Bank and Trust company of Pulaski, Tenn., made a general assignment. The bank is capitalized at $35,000, and has assets estimated at $163,635. The liabilities are not known.

She Wore Bloomers.

Middletown, N. Y.—Dr. Lydia Thurbrack, a pioneer in the dress reform movement in this country, is dead here at the age of 93. Following Miss Hosmer [illegible] she adopted the bloomer costume, consisting of [illegible]

BOLL WEEVIL IN ALABAMA

Invaded Cotton Field Appears in Franklin County, Alabama.

Russellville, Ala.—The boll weevil has appeared in Franklin county, in the northwestern part of the state. Cotton squared were punctured and dropped off. Specimens of the pest will be sent to the state agricultural department, although Texans residing in Franklin county are positive the bug is the genuine boll weevil.

The appearance of the pest in Alabama bears out the recent prediction of a government expert that it would invade this state this fall.

Montgomery, Ala.—A report of boll weevil in Franklin county, sent out from Birmingham, is not credited by Commissioner of Agriculture J. A. Wilkinson. In the march of the pest eastward it would not ordinarily get so high up as that for two years or more.

Just now it is near the lower corner of the state, if not inside, but Franklin county is almost on the Tennessee line. It is thought that the specimens are corn or pea weevil, which at times do some damage to cotton. However, there is a bare possibility that real bugs may have been transported to the reported trouble zone in cotton seed or some vegetation.

PELLAGRA IN AUSTRIA.

Heroic Measures to Stamp Out Disease.

Washington. — Heroic measures have been taken in Austria to stamp out pellagra, which has a run there similar to that in the Southern states of this country. Commercial Agent Henry Studnichka of Vienna has sent a statement to the Department of Commerce and Labor as follows:

"In order to stop the popular use of infected corn meal, which is held responsible for the disease, the Austrian government has constructed in southern Tyrol six modern steam rye bakeries, which are under the direct supervision of the governor of the province, assisted by a number of subordinate officers. The city governments of this section also rigidly supervise and inspect all private bakeries.

A HUMAN OSTRICH.

Hatpins, Keys and Pistols Found in Man's Stomach.

Cairo, Ill.—Before Frank W. Wilson, an advertising solicitor of St. Louis, died here in a hospital, he told the physicians he had swallowed several articles of foreign nature and that they had better put the X-ray at work.

Three incisions were made in the man's stomach and according to the physicians the following articles were removed: One shoe button hook, indies' hatpin, three keys, one lead pencil, one belt buckle, one tin toy pistol, three nails (small), one needle and one thermometer.

Wilson, according to his physician, had been in a depressed mental state for some time, during which he swallowed anything he could get down his throat. He had been in the hospital for a month.

Cholera in Russia.

St. Petersburg.—A slight improvement in cholera conditions in southern Russia is shown by the latest reports to the government sanitary bureau and to the Red Cross. This is taken as a sign that the epidemic is now on the wane. Reports to the sanitary bureau for the week of August 14 to 20, inclusive, give 16,106 new cases and 7,743 deaths as compared with 23,944 cases and 10,723 deaths for the previous week, making a grand total of 121,091 cases, and 85,030 deaths for this year's epidemic.

No Bombardment of Skies.

Washington.—Estimating the cost of the experiment at about $100,000, the War Department officers declined requests to order a bombardment of the skies by all its guns on Puget Sound and at the mouth of the Columbia river in an effort to bring on rain in the burning forest district of the northwest. In addition to the objection of cost, the army officers regarded the proposition as certain to prove futile.

Choked to Death by Collar.

White Plains, N. Y.—"Choked to death by a celluloid collar," is the verdict of the coroner's jury in the case of George W. Burlinson, a prominent local politician, who was found dead sitting upright in his carriage with the reins in his hands.

Woman's Smoking Room.

Chicago.—Chicago is to have a theater with a woman's smoking room and a ticket selling system especially for women.

The new theater will be housed in a twenty-story office building at the southeast corner of Madison street and Wabash avenue, at an announced cost of $2,000,000.

"This theater is to be built looking toward the comfort of the patrons," a press representative of the company said. "The theater will have a seating capacity of 2,500."

Six Manslaughter at Matinee.

New York City.—Flora Landau, a quick-witted English girl of twenty-seven years, has been manoeuvring as a rule in town, from [illegible]

LOCAL AND PERSONAL.

Mr. and Mrs. J. S. Hubbard, of Mountain Grée, were visitors to Clanton last Sunday.

Buy your wife or best girl a box of Nunnally's candy at Upchurch Drug Co. Our customers demand Nunnally's or none.

Mr. and Mrs. Mauck, of Birmingham, are visiting relatives here.

Mrs. Glennie Dennis is visiting friends and relatives in South Alabama.

Miss Hattye Jones went over to Mulberry to spend the week end.

The coolest drinks in town and the most delicious creams are served at Upchurch Drug Co.'s fountain. That's where to meet your best girl and set 'em up.

We have money to loan on improved farm lands at reasonable rates of interest. Long time loans a specialty. For particulars address "Finance' care of the Press or call at the Press offices. tf

Mr. and Mrs. Henry Williams, of Verbena, spent last Sunday as the guests of their Clanton relatives, Prof. and Mrs. J. W. Moore.

Mr. J. Mat Mahan, of route No. 5, was in Clanton last Friday and reports that the corn and cotton crops are looking exceedingly well.

Mr. W. T. Johnson, one of the best Democrats in the county, came up from his home at Verbena last Saturday and was handshaking with Clanton friends.

Mrs. J. P. Gore and two daughters are spending the latter end of the heated term at McNeill Springs.

NOTICE.

I have purchased the book accounts of the bankrupt firm of C. W. Reynolds. All persons are notified to call and settle same immediately and avoid suit. J. B. DOWNS.
tf

Mr. and Mrs. J. M. Potts and Mrs. Emma Nix left last Monday for St. Louis and other Western points. While away they will visit a son in Dennison, Tex., and from there go on out into California, where they will spend some time. They expect to be gone two months or more before their return.

Mr. J. E. Robinson went down to Wetumpka Monday to attend a meeting of the Farmers' Union. While there Mr. Robinson made a speech for the farmers, giving them the benefit of his experience. They had dinner on the ground, and J. E. carried his appetite along with him, as well as his speech.

We clip the following from the Montevallo correspondence of the Advertiser: "Mr. Hubbard, of Clanton, is in the city looking over the real estate here with the intention of purchasing a home in Montevallo."

Upchurch's is the place for refreshing drinks and delicious creams. Have you tried them? If so, you know; if you don't know, try.

Mr. J. E. Robinson, Jr., has been slipping out to some nice place known only to himself and bringing back two or three squirrels at a time. J. E. says there's no use putting everybody on to a limited good thing.

Miss Mary Hughes has returned to her home in Mobile after a most pleasant visit to her cousin, Miss Emmet Matthews.

Miss Agnes Averytt, of Bessemer, has been on a visit to her friend, Mrs. John Q. Wade.

The many friends of Mr. and Mrs. R. E. Luckie will regret to learn that they have gone to Denver, Col., to make their future home.

Mrs. J. W. Moore, who has been quite ill for some time with fever for some time, is convalescent. This will be gratifying intelligence to her many friends.

The stock of goods of Mr. P. T. Johnson has been moved to Montgomery, where Mr. Johnson will open within a few days.

Have you seen any of those beautiful invitations that The Press is now getting out? If you have not you have missed somethin gworth seeing.

On last Sunday Hon. Moses Robinson celebrated at his home his 65th birthday. Quite a number of his family and friends were present to offer felicitations. The Press joins with his many friends in wishing him many more birthdays.

Mrs. H. S. Oliver, of Verbena, [illegible]

bar of young people gathered at this hospitable home and enjoyed the evening thoroughly. There was considerable rivalry as to who should bear the honors as the tackiest of the party. Dr. Gowan entertained the assembly with recitation of his bull frog tale—that one wherein he caught 87 pounds of bull frogs at one haul.

But after some deliberation the prizes were awarded to Miss Nell Gowan as the most perfect representation of the real tackey girl, while Mr. Ross Mullins carried off the honors of the tackey youth.

The prizes consisted of two sticks of pink and white candy, flavored with sassafras drops. These the winners were supposed to divide with those who had contested for the honors, so that on this particular occasion Ross Mullins had only a wee bit of a taste of his'n. However, to keep him in good humor, they allowed him to put a few drops of citronelle on his bandanna handkief, and this made him just as proud as if he had been permitted to eat his sassafras candy all alone.

Discovered a Rich Coal Bed Recently.

CLANTON PRESS.

Published in the Interest of Chilton County and Her People.

VOL. I. CLANTON. ALA., THURSDAY, SEPTEMBER 8 1910. NO. 23.

Register in Chancery

Howdy Do! How Are You?

The much talked-of season of hard time and business depression has failed to arrive; the prophecies of the chronic knocker are wanting in the fulfillment and the dire misfortunes predicted by the ever present calamity howler have died in the borning. Alabama, Chilton county and Clanton, instead of going to the bow-wows, as forecasted by would-be wiseacres, has gone steadily onward upon the road of material development that leads to certain success and aundant prosperity.

We are enjoying the fruits of our labors as never before; the cry of poverty is hushed throughout this heaven blessed section; on every side is heard the tuneful tones of thrift and prosperity. The frugal farmer will not have to draw upon the store house of the West for his corn supply, for the harvest within our own fields is abundant in the extreme.

The cotton producer is satisfied with the results of his labors, and the shining coin which high prices for his staple enables him to secure and jingle in his jeans not only makes a gladsome sound to his ears, but fills his heart with joyful anticipations of a happy Christmas-tide. All things conspire to make his lot a pleasant one indeed.

The Chilton county farmer is fast assuming that place in the economic relations of life which his avocation predestined him to occupy—the front rank, a leader among the advance guard. Long faces have been succeeded by smiling countenances, and mortgaged homes and farms are soon to become happy firesides and productive fields of pleasure. Hard times have been vanquished and prosperity is victorious.

Contentment, peace and plenty are knocking at every door.

We are now entering upon an era of commercial development never heretofore anticipated; a season of rich rewards for honest toil is now dawning and will soon burst with noon-day splendor upon our people.

The farmers are happy, as they should be, for Mother Earth has yielded them rich trophies for their plucking; prices are soaring amid the radiant beauty of the stars; his products are in demand as never before.

Cotton is again King and Corn is the Prince Imperial.

What more could the planter desire to make his cup of gladness overflow?

Farmers of Chilton county, we greet you as the two-fold keepers and producers of our prosperity. You are they who have produced the wealth of our county, and upon your heads we pour our praises in unstinted measure. You have earned your reward and should enjoy the fruits of your labors.

The merchant who has bought wisely and well rejoices at your success.

The cotton buyer whose heart beats in unison with your own delights in the opportunity afforded him to give you good prices for your staple; he who would withhold from you the best and highest the market affords is neither a friend to the farmer nor a wise man of business.

We want you to succeed, because in your success we also shall share.

We have bought not stingily, but well; we have purchased in keeping with your position and your desires; you want the best, therefore we supplied ourselves with the best, that we might accommodate both your taste and your demands.

Desiring to have you make our place headquarters, we have arranged to pay the very top notch for every pound of the fleecy staple brought to our store.

We want to have a hand in your prosperity; we wish to be remembered in your rejoicing.

Come to us with your samples; we will top the market on every occasion; call upon us for your wants; our large and varied stock enables us to meet your every requirement, and at prices that will make you glad for the visit.

We hate the chronic croaker; we despise the knocked and the pessimist. The old world is bright with hope, buoyant with success, happy in plenteous abundance. We want you to know that we rejoice at your season of success; you deserve it, and we hope you will enjoy it to the fullest extent.

Come to see us; your happy faces make us glad indeed.

Come whether you want to buy or sell, both or either or neither. We will be glad to greet you.

We are going to set the gait this year, and those who would keep up with us must clip it off at a merry chase.

Cordially yours,

W. KANTER & BRO.

The Cotton Buyers With the Cash. **The Merchants With the Stock.**

General News

The Press takes pleasure in calling attention to our list of new advertisers this week.

A perusal of these new advertisements will convince any one that as a business center Clanton is fast forging to the front.

Mr. Abe Kanter has an announcement that is both truthful and catchy. Besides being one of Clanton's big business men, he is a staunch friend of the farmers.

The attractive advertisement of Cooper Bros. needs no comment from us. They are now comfortably housed in their new quarters and are making sales daily.

Miss Minnie Muse is just back from a trip to New York City, where she purchased for her house, and in this issue she tells her friends of her stylish offerings.

Then comes the announcement of the new firm of Potts & Nix, the excellent shoe people. The firm is new, the goods are new, and being dealers in but one thing—shoes, they expect to secure much of the trade.

We wish them all unprecedented success and bespeak for each a liberal share of patronage.

City Election Officers.

The Mayor and Council of Clanton met last Monday night for the purpose of selecting officers for the coming year election and for the transaction of such other business as should come before the body.

Three of the four Councilmen were present, Mr. Woodyard being out of town. The city is entitled to five Councilmen, but by reason of the appointment of Mr. W. T. Callen to the Jury Commission a vacancy was created, which has not yet been filled.

Among other things the Council took up the petition of the citizens of Clanton asking for some regulation of the L. & N. whistles and the speed of the trains through the streets of the city.

After some discussion the Mayor was ordered to communicate with Superintendent Brooks of the L. & N., stating the facts in the case, telling him of the petition that had been presented and requesting that the nuisance be abated without action on the part of the city further than a gentlemanly request.

It will be remembered that a petition was presented some weeks ago, signed by almost every citizen of the town, asking that the Council pass an ordinance declaring the incessant and excessively loud blowing of the whistles a nuisance and adopting measures to put a stop to it.

The Council, in its wisdom, deemed a request upon the superintendent as the wisest course. Perhaps so; The Press is content with any measure that will abate the steam whistle. However, an order was issued some weeks ago by the railroad authorities to this effect, which seems to have amounted to little. Some of the engineers obey that order, but others try to add aggravation to confusion. It's all right with us, though; we've gotten used to it now, and would feel somewhat lonely without the screeching.

The following officers were appointed to hold the city election, which takes place on Monday, the 19th of September:

Inspectors—W. A. Kemp, J. Watts Moore and J. E. Robinson, Sr.

Clerks—M. A. Gore and J. E. Robinson, Jr.

Returning officer—Crit Jones.

This Space Belongs To

Clanton Millinery Co.

We are too busy to write an advertisement

A Suspicious Dog.

Last Saturday afternoon a dog belonging to unknown parties wandered around the streets of the city to a considerable extent and, finally becoming bewildered, went into the biting business. The dog, from all accounts, seems to have been worried considerably by the festive small boy, who delights to "chunk" at wandering canines. Soon his dogship grew tired of this, and, like the historic worm, turned upon its antagonists. Before the battle was over the dog had bitten several mules and horses, one or two dogs and a small negro boy named Joe Brown. The boy was severely bitten in the hand in several places.

Immediately the cry of "mad dog" was set up, and as in all cases of this kind his dogship yielded up the ghost.

Dr. Sam Johnson took the negro boy in charge, cauterized his wounds and gave him such treatment as was necessary. The head of the dog was packed in ice and sent to Montgomery for examination. As to whether there were symtoms of rabies has not yet been reported by the examining scientists. The boy is doing fairly well, and it is a good bet that he will not again "pester" strange dogs as they pass him by.

Baraca Class.

Several interested parties desire to organize a Baraca class at the Methodist Shunday school on next Sunday. This class is to be organized entirely of young men—married or single—who have the interest of the church of God at heart and who desire to become better acquainted with the word of God. Unlike other classes, it maintains its own organization, and the work of the class is pursued upon altogether different lines from that adopted by other Sunday school classes. Perhaps no more interesting or necessary adjunct to the successful working of the church exists than the Baraca class. If you are not already a member of some Sunday school, or if you desire to become a member of this Baraca class, please be at the Methodist Church promptly at 9:30 next Sunday morning.

Sunday School Convention.

The Clanton Sunday School Convention met last Sunday at Samaria Church and transacted such business as came properly before it. Several talks of interest and instruction were delivered by the delegates and officers for the ensuing year were elected. The convention re-elected the old officers for another term and selected Zion Church, in the northeast section of the district, as the place of its next meeting.

A general discussion took place as to the evils of the ALL DAY singing, and many opinions were expressed on this much vexed question.

WANTED—SACKS.

Will pay 2 1-2 cents each for cotton seed hull sacks, oat sacks or any other kind of sacks that are large enough to ship ice in.

Seriously Ill.

News of the serious illness of Dr. J. P. Hayes will be received with regret by his many friends throughout the county. For the past week or more Dr. Hayes has been confined to his bed with typhoid fever. The disease seems to have secured a good grip upon the doctor, and he is having quite a serious time of it. A trained nurse is in attendance, and the good man is receiving every attention that love and skill can offer.

On Tuesday morning the typhoid symptoms growing more alarming, it was deemed advisable to take Dr. Hayes to a local infirmary in Montgomery, where he might have perfect attention and absolute rest. Dr. Hayes [illegible] tients, and being anxious that they should receive his attention, did not give himself that careful attention and rest which his case demanded; hence it was considered the part of wisdom to remove him so that his mind would not be so apt to dwell upon local affairs and that his body might receive perfect rest.

All hope that within a short time the doctor will return to his home restored to perfect health.

Horse Traders.

The Gypsy horse-traders are again in the land. Last week more than a hundred of them arrived in Clanton and are encamped at Kicker's Grove, in the western side of the city. If you have a horse that you want to trade [illegible]

Some Improvements.

Clanton is fast becoming a home of nice residences and fine business houses.

The Mullins warehouse is nearing completion; J. C. Jones & Co. have found it necessary to erect a warehouse to their already large storehouse; the old Roper building, lately occupied by the Cooper Bros., is undergoing thorough repairs; the Woodyard building, just west, is being refloored and otherwise improved preparatory to the reception of the Potts & Nix stock; Mr. Sinclair Thornton is arranging to erect a brick building on the Thornton lot; Mr. Saxon, of Shelby, an accomplished gentleman and skilled mechanic, is soon to build him a nice home at the north end of Main street. So the good work goes on.

Munyon's With Pizol **Soap**

is more soothing than Cold Cream; more healing than any lotion, liniment or salve; more beautifying than any cosmetic.

Cures dandruff and stops hair from falling out.

Worms

"Cascarets are certainly fine. I gave a friend one when the doctor was treating him for cancer of the stomach. The next morning he passed three pieces of a tape worm. He then got a box and in three days he passed a tape-worm 45 feet long. It was Mr. Matt Freck, of Millersburg, Dauphin Co., Pa. I am quite a worker for Cascarets. I use them myself and find them beneficial for most any disease caused by impure blood." Chas. E. Condon, Lewiston, Pa., (Mifflin Co.)

WHERE HE SAVED MONEY.

"You say it costs less to run this automobile than that trotting horse you owned?"

"Yes; I used to bet on the trotting horse."

A Liking for "Hamlet."

"Do you like Hamlet?" asked the hostess of her unlettered, if gushing, guest.

"Indeed I do," was the reply. "I am excessively fond of it, but I always prefer a savory to a sweet one."

There was a momentary confusion, and then the hostess realized that the admiration of the guest was of a culinary, not literary, character.

"I gave her ham with an omelette for breakfast next morning," said the hostess, when telling the story.—Scraps.

Active Possession.

Guinevere, aged four, was going out to walk with a young lady, of whom she was very fond. As they opened the street door they were met by a swirling cloud of dust, blown up from the thoroughfare.

"Keep your lips tightly closed, Gwen, or you'll get your lungs full of microbes," warned the young lady.

Guinevere pondered a moment and then, looking up, demanded:

"What are your crobes?"—National Monthly.

Last Here.

The Minister—In the next world, Tommy, the last shall be first.

Tommy—Say, won't I shine when the minister comes to supper at our house up there!—Puck.

Very, Very Easy.

Patience—You can't do anything without money?

Patrice—Oh, yes, you can. You can run in debt.

This Is a Good Breakfast!

Instead of preparing a hot meal, have some fruit;

Post Toasties

with cream;

A soft boiled egg;
Slice of crisp toast;
A cup of Postum.

Such a breakfast is pretty sure to win you.

"The Memory Lingers"

GENERAL NEWS.

Geewhilikins!

Dr. Higgins made another of those record runs the other day. He covered himself with glory and dust. In exactly 58 minutes, central time, he drove his powerful 3 1-2-horse motor cycle to the river—not in the river, but to it. This was an uphill trip, and was exceedingly good time, but on the return trip he smashed all former records by covering the distance in 32 minutes. This is driving somewhat on the order of Bonny Oldfield, daring and dangerous.

The doctor requests that all who have "skittish" animals give him some warning, so that he can stop his machine in time to avoid frightening them.

A Restaurant.

While it is not customary for newspapers to give too much free advertising, yet The Press cannot refrain from praising Mr. O. O. Roper and his son for the enterprise they are displaying and the faith in Clanton which they manifest in establishing an up-to-date restaurant.

They are now busily engaged in overhauling the place recently vacated by Cooper Bros., and will within a short time establish a first-class restaurant and bakery there.

If there's any one thing that Clanton needs worse than a tinner or a dairy, it is a first-class bakery and a restaurant.

These enterprising gentlemen propose to establish both.

Watch the columns of The Press next week for their announcements.

Handsome Furniture.

Miss Minnie Muse has just installed in her millinery department two of the handsomest wall cases ever brought to Clanton.

The work is the output of Mr. Ed Plier, and is a credit to the workman. Miss Muse is now enabled, with these cases, to display her millinery goods to the very best effect.

The installation of such furniture not only goes to show that Clanton is fully alive to the times, but that thrift and enterprise are two essentials of success and win in the long run.

That Dog Was Rabid.

In another part of The Press will be found an account of a supposed mad dog that roamed the streets of Clanton last Saturday, biting stock and people at random.

Soon after the dog had bitten the colored youth, Joe Jones, it was killed and the head sent to Dr. Mason, state bacteriologist, for examination. On Tuesday Dr. S. E. Johnson received the following letter, which is self-explanatory:

Dr. S. E. Johnson, Clanton, Ala.—

Dear Doctor: Examination of the brain from your dog shows that the animal was rabid.

The enclosed pamphlet gives such information as you may need in the circumstances. Very truly yours,

E. M. MASON,
State Bacteriologist.

Now that the dog has been officially and scientifically pronounced rabid, and since it bit several other animals, it occurs to The Press that it would be a good idea for the city council to rigidly enforce the existing law against dogs running at large. It would also be a wise precaution, it seems to us, to have the animals known to have been bitten killed immediately or so protected that they cannot work further injury to other stock or persons.

Of all the horrible diseases to which man is heir there is none to equal that of hydrophobia, and too much precaution cannot be taken now in preventing even one case in Clanton.

School days are now upon us; many children will be upon the streets each day. In their ignorance they might tease other infected animals and bring a great calamity into some household.

The negro boy will doubtless receive the careful attention of the physicians, but other precautions should also be taken.

If you have a pet dog keep him off the streets for a few weeks at least. If you have a worthless dog, get rid of him.

To Open Alley.

The city council at its meeting Monday night decided unanimously to open the alley-way running from Seventh street to the railroad. The work is to be undertaken at once.

Another Voter.

There came into the home of Mr. and Mrs. John Q. Wade last week another young gentleman who is to add strength to the Democratic party in the days to come. His name is James Quitman Wade.

James Quitman seems to be perfectly satisfied with the world and his surroundings. We extend congratulations to the young gentleman and to his handsome mother.

Is Clanton to Lose a Citizen?

It was rumored on the streets this week that one of Clanton's prominent citizens was contemplating a change of residence, or rather that he would remove his family to Tuscaloosa for the purpose of entering his children in the schools of that place, while he remained in Clanton.

This information came to us from a source that leads us to believe it is correct, but as we have not had the matter confirmed by the party in question, and as we do not wish to do an injustice to a citizen of Clanton by publishing a report that is not true, we refrain from mentioning the name of the party. If we are mistaken in the report, we will be glad to make the correction.

Democrat," we refrain from calling

names till the rumor can be verified. The party whose name was mentioned is sick just now, and we cannot get the required information. However, the rumor was started by his son, and he ought to know.

Dunky Adam.

Adam Cooper has again been up to his old trick of giving trouble. Last Saturday night Officer Wagner had occasion to arrest him, and, knowing that Adam was a smooth proposition, deputized another gentleman to assist in the arrest. As they walked on toward the jail Adam made use of his lips quite volubly; nearing the jail, he made use of his feet quite fleetly.

It seems to be no trouble for Adam to get into trouble, to get away from officers or to make bond for any offense he sees fit to commit. A season in the mines would work a general change in his constitution and would be for the welfare of the town.

A Change.

Arrangements had been made to hold a Sunday school convention at Mt. Nebo church, on the west side, Saturday, the 17th, but since that is the day set for the big Democratic demonstration, those having the convention in charge have decided to change the date to Sunday, the 18th.

Those who are on the program or who contemplated attending the convention will please make note of the change. Come to Clanton Saturday and go to Mt. Nebo the day after.

SOME INTERESTING EXPERIMENTS.

A subscription list was circulated upon the streets Tuesday morning for the purpose of raising money to send Joe Jones to Montgomery to be treated. Joe is the little colored boy who was bitten by the dog which Dr. Mason, state bacteriologist, pronounced rabies.

The treatment for rabies is quite an interesting one, and takes at least three weeks to secure any kind of results. Quite a neat little sum was raised for Joe, and he will leave on the morning train with Dr. Sam Johnson Thursday morning to undergo the treatment, this being the earliest date at which the treatment can be administered.

It will require the lives of at least forty rabbits, several guinea pigs and much careful treatment to prevent the development of rabies in the young boy.

A portion of the brain of the mad dog will be injected into a rabbit and cause hydrophobia; from this rabbit the brain will be taken and a portion of it injected into another rabbit, each dying of hydrophobia one day earlier than the former one. In this way they secure the death of a rabbit within three days of hydrophobia. From this rabbit the spinal chord is taken and dried for fourteen days, after which a part of this chord, which is one thousand times more poisonous than the germs from th dog, is injected into the patient. These injections are made once or twice daily, according to the severity of the case.

The average time for the incubation of the hydrophobia germs is from nine days to six months—an average of about three months. The treatment lasts for about three weeks. If a patient successfully withstands the disease for three months, he is considered as on the high road to recovery.

Dr. Mason, by virtue of his office, keeps constantly on hand a large supply of rabbits and guinea pigs and white mice for experiments and for cures, but notwithstanding this fact, it will be impossible to begin treatment on Joe Jones before Thursday morning.

Just now the boy is running about as usual, with his hand well bandaged, and will probably show no sick symptoms for 2 days.

In the meantime, what of the worthless dogs that infest the streets of Clanton? Is the whole of them worth one human life?

What about that dog ordinance, anyway?

Wholesale Grocers Answer.

Birmingham.—Through Luke E. Wright and Caruthers Ewing, of Memphis attorneys, the answer of the Southern Wholesale Grocers' Association and of its officers and certain members to the charge made by the federal government that it is in violation of the Sherman anti-trust laws and that it has been operated as a combine, etc., has been filed in the United States court here. A general denial of the accusation is made.

Cullman.—At a recent meeting of the board of directors of the Cullman County Fair Association, held in the office of the president, Fred J. Buchanan, a time and place was selected to hold the county fair this year. The fair will be held at the baseball park in Cullman, and the time was set for the beginning of the fair on September 28, and will continue through one week.

Killed by Foul Ball.

Huntsville.—George Quick, an aged citizen of Hazel Green, is dead following a blow in the side from a foul tip of a baseball game. Quick was an enthusiastic "fan" [illegible] warning [illegible]

One of the finest bodies of land in Chilton county. Two hundred acres. Two miles west of Clanton on the Clanton and Thorsby road. One hundred and sixty acres cleared land—the balance well stocked with firewood. Four good tenement houses in thorough repair. There is no place in the entire county so well watered as is this place. An ideal home for a thrifty farmer who wants to become rich. Fine pasturage. Will sell acreage to suit purchasers in tracts of not less than forty acres. This land must be sold. Such an opportunity will not again be presented to you. You'd better snap at this chance. For terms and further particulars call upon

T. C. MARCUS.

Clanton High School,

CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin on Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure first grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

Many Farmers

WHY NOT YOU?

would like to keep an account of their receipts and expenditures if some one would keep it for them.

Open a Bank Account with the People's Savings Bank and you will find the account keeping with no expense.

Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts. Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It is a handy convenience to the farmer as well as the business man.

NEW YORK'S POPULATION IS NOW 4,766,883

Census Bureau Makes Report on American Metropolis.

SECOND LARGEST CITY IN WORLD

London Alone Outranks Great American City in Number of Inhabitants---Increase 38.7 Per Cent Shown.

Washington.—Greater New York has a population of 4,766,883 under the thirteenth decennial census, according to figures issued by Director of the Census Durand. This makes New York the second largest city in the world, and as large as any two foreign cities, excepting London.

Since 1900 the population of the metropolis has increased by 1,329,681, or 38.7 per cent., as compared with 3,437,202 under the last census.

The borough of Bronx showed the greatest increase in the greater city, Queens, Brooklyn, Richmond and Manhattan following next in order. The figures for these borough, together with the increases, are as follows: Bronx, 430,980, an increase of 230,473, or 114.9 per cent.; Queens, 284,041, an increase of 130,042, or 85.6 per cent.; Brooklyn, 1,634,351, an increase of 467,769, or 41 per cent.; Richmond borough, 85,969, an increase of 18,948, or 28.3 per cent.; Manhattan borough, 2,331,442, an increase of 481,449, or 26 per cent.

The census of 1909 showed Greater London's population to be 7,429,740, again 6,581,372 in 1901. That New York is slowly catching London is shown by the fact that in eight years London's increase was 848,368, while that of New York for ten years was 1,329,681.

Paris, according to the census of 1906, was the third largest city in the world, with a population of 2,763,393, while Tokio, under the census of 1908, was fourth, with 2,186,079. Berlin in 1905 had a population of 2,040,148.

New York City contains only 164,648 fewer people than the combined fourteen cities of more than 200,000, the population of which already has been announced, namely: Pittsburg, St. Louis, Detroit, Buffalo, Cincinnati, Newark, Milwaukee, Washington, Indianapolis, Jersey City, Kansas City, Providence, St. Paul and Denver. The aggregate population of the cities named is given as 4,731,532.

The city of New York, as constituted prior to the act of consolidation, effective January 1, 1898, had a population in 1890 of 1,515,301, as compared with 3,437,202 in 1900, showing an apparent increase of 1,921,901, or 126.8 per cent for the greater city.

The population of Brooklyn, N. Y., is 1,634,351, an increase of 467,769, or 40.1 per cent., as compared with 1,166,582 in 1900.

SOCIALISTS CONVENTION.

Socialists Want Compulsory Law Against Unemployment.

Copenhagen, Denmark.—The international social congress adopted a resolution demanding the establishment of a system of universal and compulsory laws against unemployment, the cost of which is to be borne by the owners of the means of production.

Among other thing the resolution sets forth that the condition of unemployment is inseparable from the present capitalistic mode of production, and that as long as capitalism holds sway only palliative measures are possible of success.

The resolution on unemployment was carried despite the refusal of the American, French and British delegates to vote.

Cotton Crop Damaged.

Shreveport, La.—Local experts announced that the cotton crop in this section had been at least 25 per cent. damaged during the last three weeks, due to the boll weevil and shedding as the result of the heavy rains. The production will be no greater than last season.

Cotton Reaching Macon.

Macon, Ga.—September is bringing the opening of cotton business in Macon in such manner as to please the cotton merchants. Most of them believe that the season means a great deal to the cotton merchants here. The summer has been devoted to a thorough and systematic arrangement for handling a great portion of the cotton of central Georgia. The new staple is now coming in and will rapidly increase, although the season is already two or three weeks behind.

Crusade Against Hobble Skirts.

Newark, N. J.—A crusade against the hobble skirt has been started by the Rev. Peter Remy, pastor of the First Reformed church of Greenville. Among other things he has issued an edict that no woman wearing such a dress shall be admitted to his church. He declares that "any woman who would so debase herself and sex as to wear such a grotesque garment should be shunned." Mr. Remy characterizes the woman wearing hobble skirts as "pitiable fashion's slaves, and unwomanly women."

EMERGENCY MONEY RULING.

In Case of Financial Stringency Banks May Issue $500,000,000.

Washington.—Secretary MacVeagh's ruling on the term "commercial paper," in the Treasury Department's interpretation of the emergency currency law, became known in its full import here. Business men and banks throughout the country have been anxiously waiting for it. The Chicago banks, which raised the question, and banks all through the west felt that if it were adverse they would be unable to form effective currency associations. The way now is made clear for the banks of the United States to put into circulation $500,000,000 in emergency money at the first sign of a financial stringency.

The law provides that commercial paper upon which emergency currency may be issued shall include only notes representing actual commercial transactions, which shall bear the names of at least two responsible persons and have not more than four months to run.

A large proportion of the banks hold the notes of reputable individuals and corporations which they have bought from note-brokers. These notes bear only the name of the maker. Secretary MacVeagh has decided that the endorsement of the holding bank upon such notes will constitute the second endorsement which the law calls for.

Mr. MacVeagh also holds that notes issued by reputable persons for the carrying on of bona fide business and which they discounted at banks represent actual commercial transactions and are distinct from what is known as accommodation paper. The latter is strictly barred from being used as the basis of an issue of emergency currency.

BABIES DRUGGED.

Authority Says Babies Are Doped With Paregoric.

New York City.—That babies in their cradles contract drug habits through being doped promiscuously with paregoric, laundanum and other household remedies, is the assertion of President Lederle of the New York board of health. An effort will be made by the board to procure local legislation prohibiting the sale of the objectionable drugs except upon prescription.

A statement by President Lederle says:

"Notwithstanding their dangerous nature, the sale of these drugs for the relief of minor troubels is enormous. Mothers keeps the paregoric on tap, and are more careful to have it in their homes than they are to see that their sugar bowls are filled. At the first sign of an ache or pain, often the moment the baby cries, the mother dashes for the paregoric bottle.

PAPAL LEGATE WELCOMED.

City of Montreal Welcomes Cardinal Vannutelli.

Montreal, Quebec.—Business was suspended here and all the city turned out into the streets, undeterred by a pouring rain, to welcome Cardinal Vannutelli, papal legate to the Eucharistic congress, which met here.

In his drive from the dock to the city hall he rode between solid walls of cheering French and Irish Canadians, standing in his carriage for most of the way, scattering blessings right and left.

The cardinal's reply to the mayor was a warm tribute to Canada and to the Catholic immigrants who had brought with them the faith of their fathers and had clung to it as their rich heirloom. He realized that the legal reception accorded him was not for himself, but the holy father, whom he represented.

POSTAL CLERKS PRAISED.

DeGraw Says Millions Have Been Saved by Clerk's Co-Operation.

Saratoga, N. Y.—Through the energy and co-operation of the postoffice employees throughout the country, a saving of $11,000,000 became possible in the postoffice department this year, according to a statement made by P. V. DeGraw, fourth assistant Postmaster General, in an address before the United National Association of Postoffice Clerks, which held its eleventh annual convention here. Mr. DeGraw assured the clerks that the department favored organization among its different classes of employees, as long as the objects were confined to the uplifting of the postal service.

10,609,866 Bales of Cotton Sold.

Atlanta.—Secretary Hester of the New Orleans cotton exchange announced that the commercial crop for the year ending August 31, 1910, amounted to 10,609,866 bales, a decrease under last year of 3,215,789, a decrease under year before last of 986,298 and a decrease under 1907-08 of 2,901,234. The consumption of the Southern mills is 918,570 bales behind last year. Last year the consumption of cotton was the largest ever recorded, while in 1907-08 the business of the mills was restricted by the panic.

Naval Stores Trade Prosperous.

Savannah, Ga.—The year just ended has been the most prosperous in the recent history of the naval stores trade. This prosperity is in the face of a steady decrease in supply, not only in the year just ended, but in the preceding year, and is due to the high price of turpentine and rosin.

The short higher prices there are two reasons, the small production and the gradual exhaustion [illegible]

LABOR DAY OBSERVED THROUGHOUT COUNTRY

3,100 Women March in New York City Parade.

JOHN MITCHELL MAKES ADDRESS

Labor Leader Pleads for Legislation to Decrease Industrial Horrors---Roosevelt Called a Liar.

New York City.—The labor day parade here brought out more union marchers this year than have ever before been seen on Fifth avenue. Conspicuous among them were 3,100 women, most of them garment workers, wearing dark blue and yellow liberty caps and sashes. The leaders estimated that there were 71,000 in line.

For the first time in fifteen years the parade bore no appeal for aid in any pending strike. The cloakmakers' strike, one of the largest the country has ever known, has just been concluded, and cloak and garment workers turned out in force to prove their joy and to demonstrate their hate of Justice Goff of the state supreme court, who granted an injunction against the strike, and ruled that any strike called to demand the closed shop is a conspiracy in restraint of trade.

Terre Haute, Ind.—John Mitchell, former president of the United Mine Workers, in a labor day address here, spoke in favor of better laws for the protection of workingmen.

"A well known writer," said Mr. Mitchell, "asserts that 500,000 good workingmen are killed or maimed annually in the United States.

"That means that more lives are sacrificed and more workmen are injured each year in the peaceful conduct of our industries than were sacrificed in any one year during the period of the Civil war. It means that more men have been killed and maimed in the coal mines of the United States alone during the last seven years than were killed or died as a result of wounds in the Continental army during the seven years of the American revolution."

Referring to measures for the protection of workingmen in this connection, Mr. Mitchell said:

"Our unions have done much in this direction. They have rendered yeoman service in protecting the wage-earners, but, without the aid of the state, they cannot carry on to full fruition their objects and ideals in this respect."

Fargo, N. D.—A man who fought his way to ex-President Roosevelt and called him a liar gave a bad scare labor day to the crowd at Island Park in this city. Colonel Roosevelt seized the man and helped to eject him from the platform.

The colonel had just finished his labor day address before one of the largest crowds of his western trip.

Atlanta.—Atlanta had a labor day parade over three miles long. State, county and city officials marched in line with the labor organizations.

46 COTTON MILLS CLOSED.

25,000 Operatives Idle in New England States.

Fall River, Mass.—Forty-six cotton mills, owned by 18 corporations, shut down until September 12, throwing out 18,000 operatives.

The renewed curtailment here will keep 2,500,000 spindles idle and shut off 175,000 pieces of print cloth.

Biddeford, Maine.—Seven thousand operatives began an enforced vacation by the closing of the Pepperell and Latonia cotton mills of Biddeford, the York mills of Saco and the Saco and Pattee machine shops.

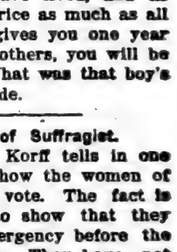
Gaynor Walks Six Miles.

St. James, L. I.—Mayor Gaynor walked six miles in a broiling sun with the thermometer at 79 and the humidity at the same mark. He returned home dusty and heated, but seemingly fresh. Neighbors with whom he talked thing it will be only a few weeks before he is fully recovered from the bullet wound inflicted by James J. Gallagher.

Lieut. James Barrett Dead.

Augusta, Ga.—Lieut. James Barrett, an officer under Major Wirz, in command of Andersonville prison, and later commandant of a Confederate prison at Florence, S. C., died here, aged 75 years. Lieutenant Barrett fled to Germany to escape arrest after the war.

He married abroad and returned to Augusta in 1870 and has been here since then. He has been a stock raiser and was an authority on agricultural matters, being regarded as an expert on farm topics.



Confederate Flag at Wedding.

Chicago.—The star and bars were draped above the wedding cake at the reception following a wedding at a downtown hotel. Beneath its folds the bride and groom received the congratulations of their friends. Mrs. Violet P. Huntington, now of New York, but a daughter of the South, was the bride, and Pvt. Frank Smith Blair, who holds the chair of mathematics at Carlisle [illegible]

TAKE NO SUBSTITUTE! If your dealer cannot supply you write for Mail Order Catalog.

W. L. DOUGLAS, Brockton, Mass.

PROBLEMS MANY YEARS OLD

Children of Today Puzzle Over Them Just as They Did a Thousand Years Ago.

When King Alfred the Great was reigning over England, a thousand years ago, school children pondered over problems in arithmetic much as our boys and girls do now.

Here are two taken word for word from a lesson book of that day:

"The swallow once invited the snail to dinner. He lived just one league (three English miles) from the spot, and the snail traveled at the rate of only one inch a day. How long would it be before he dined?"

"An old man met a child. 'Good-day, my son,' he said. 'May you live as long as you have lived, and as much more, and thrice as much as all this; and if God gives you one year in addition to the others, you will be a century old!' What was that boy's age?"—The Comrade.

Opportunity of Suffragist.

Baroness Aletta Korff tells in one of the magazines how the women of Finland came to vote. The fact is that women had to show that they could meet an emergency before the vote came to them. They have not had many opportunities to take the initiative in the world's history and they have not always responded when the opportunity came, but when a crisis, such as that in 1904, when the strike and the revolutionary outbreak in Russia took place at the same time, occurred, they proved they could make peace by doing it. Not until England and the United States find the women helping them to bear some great trouble will they give them the right to vote.

Try to Come Back.

Not long ago Lord Kinnaird, who is always actively interested in religious work, paid a surprise visit to a mission school in the east end of London and told a class of boys the story of Samson. Introducing his narrative, his lordship added:

"He was strong, became weak, and then regained his strength, enabling him to destroy his enemies. Now, boys, if I had an enemy, what would you advise me to do?"

A little boy, after meditating on the secret of that great giant's strength, shot up his hand and exclaimed: "Get a bottle of 'air restorer."

Slightly Confused.

All of us become confused and all of us mix our language sometimes, but the preparation of an old negro preacher's sermon was the greatest confusion of metaphors I ever heard, says a traveler. When the lengthy discourse was nearing its close and he had reached his "Twenty-third and lastly, brethren," he wound up by the following elaborate figure:

"Everywha, bredren, we see de almighty—all down de untrodden paths of time, we see de footprints of de Almighty hand."—Human Life.

And lots of men would never think of failing if somebody didn't tempt them.

"NO FRILLS"

Just Sensible Food Cured Him.

Sometimes a good, healthy commercial traveler suffers from poorly selected food and is lucky if he learns that Grape-Nuts food will put him right.

A Cincinnati traveler says: "About a year ago my stomach got in a bad way. I had a headache most of the time and suffered misery. For several months I ran down until I lost about 10 pounds in weight and finally had to give up a good position and go home. Any food that I might use seemed to nauseate me.

"My wife, hardly knowing what to do, one day brought home a package of Grape-Nuts food and coaxed me to try it. I told her it was no use but finally to humor her I tried a little, and they just struck my taste. It was the first food I had eaten in nearly a year that did not cause any suffering.

"Well, to make a long story short, I began to improve and stuck to Grape-Nuts. I went up from 135 pounds in December to 154 pounds the following October.

"My brain is clear, blood all right and appetite too much for any man's pocketbook. In fact, I am thoroughly made over, and owe it all to Grape-Nuts. I talk so much about what Grape-Nuts will do that some of the men on the road have nicknamed me 'Grape-Nuts,' but I stand today a living, breathing, walking proof—a prime and example of what the right kind of food will do.

"You can publish this if you want to. It is a true statement without any trimmings."

Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

TO PREPARE THE SUCCOTASH

Combination of Sweet Corn With Other Edibles Makes a Most Appetizing Dish.

Husk half a dozen ears of nice sweet corn, remove every vestige of the silk and cut the corn from the cob. Put the cobs in a large saucepan, breaking in two if necessary, to make them fit in. Pour a pint of water into the saucepan, cover closely and let the cob cook for half an hour to extract their flavor. Measure the corn cut from the cob, add to it an equal quantity of shelled lima beans, put the beans in the saucepan, having first removed the cobs, and add enough milk to cover. Cook until the beans are soft enough to be easily pierced with a fork, then add the corn and cook five minutes. Season with salt, pepper and a little sugar and plenty of butter. Stir a heaping teaspoonful of flour in a cup of rich milk, then stir through the bean and corn mixture to slightly thicken. Cook just two minutes and serve.

Another way of making succotash is to mix equal quantities cooked shelled beans and corn boiled and cut from the cob, then reheat and season with salt, pepper, butter and a little sugar and some of the water in which the beans were cooked.

TO WASH CHAMOIS GLOVES

Directions for Cleaning Fragile Articles Which Will Be Well Worth Remembering.

In washing chamois gloves do not wring them or even squeeze very dry as with ordinary glove cleaning. The skins pull easily and wringing breaks the tender fabric.

Put the rinsed gloves into a thick Turkish towel and press out most of the moisture, then hang them in a strong current of air to dry. Fasten the pair together by buttons and hang with fingers down.

The shrinking, of which many women complain in chamois glove washing, can be overcome by drying the gloves on the hand, after they come from the Turkish towel and a few minutes' airing.

Rub gently until dry. The heat of the hand makes this drying a quicker process than most women imagine, and there is little danger of taking cold.

Do not neglect rinsing as well as washing in soapy water, if you do not wish your gloves to stiffen.

Codfish Hash.

Hashed codfish is a variation of the familiar "balls," which is easier to prepare, and to many minds, more dainty.

It makes a good breakfast change now and again.

Put the salt fish over the fire in cold water, and when it begins to boil take it from the water and shred it. Mix it with as much mashed potatoes as fish. Add a teaspoonful of butter and a tablespoonful of milk to each cup of potato. Melt a tablespoonful of butter in the pan and put in the fish. Cook without stirring until a brown crust forms on the bottom. Fold like an omelet and serve with little foldovers of buttered brown bread.

Blackberry Brandy.

Put the blackberries in a preserving kettle or stone jar, set inside a larger jar or pan of water, and simmer until soft. Strain through cheese cloth wrung out of boiling water. Measure the juice, and to each quart allow two tablespoonfuls ground clove, two each of mace and allspice and four of ground cinnamon. Tie the spices in thin bags. Boil the juice with one-half pound sugar (granulated or loaf) allowed to each quart, and all the spices for 15 minutes, stirring and skimming. When cold add a pint or half pint best French brandy, strain the spices and bottle, sealing the corks.

Bonnyclabber.

Put skim milk that is on the point of souring into a glass dish or tea cups, set where it will sour quickly, and as soon as cold put on the ice to chill. Serve with sugar and powdered cinnamon sprinkled over it.

Barbecued Spareribs.

A delicious pudding is made up by cutting spareribs into inch thick pieces, [illegible]

LOOKING THE APPLE

VARIOUS WAYS IN WHICH IT MAY BE SERVED.

Black Caps Was the Name Once Given to Them When They Were Baked—Stuffed Apples Recommended.

Black Caps.—An old name for apples baked in their skins was "black caps." A recipe printed in 1734, one of "Five Hundred New Recipes"—there have been five hundred new recipes a year ever since—is as follows: "To make black caps.—Take a dozen of good pippins, cut them in halves and take out the cores; then put them in a right Mazarine dish with the skins on, the cut side downwards; put to them a very little water, scrape on them some loaf sugar, put them in a hot oven until the skins are burnt black and your apples tender; serve them on plates and strew over with sugar."

Sweet apples used to be the favorite and almost the only kind of apples cooked, that is, in some parts of the country. Old orchards in New England always had a number of sweet apple trees, including the great pound sweet which was used for cider apple sauce, made with boiled cider; but sweet apples are not so common in the "Ben Davis belt." Sweet apples need no sugar and their skins always turn dark when they are cooked. They are eaten with milk. "Baked apples and milk" were once considered one of the special delicacies of the fall season.

To bake cooking apples, sour ones of course, whose skins do not readily granelize or carbonize, has now become quite a universal and much to be commended way of cooking this purely wholesome fruit. If apples are baked slowly their skins will be almost as soft as the inside and the juice around them will jelly.

Baked Apples.—Select four nice, tart apples and core. Fill each with sugar and a few nut meats chopped fine, a pinch of cinnamon. Put a little hot water in pan and bake until tender. There will be a little sirup after they are done; add a little of this to each apple and serve warm.

Stuffed Apples.—Wash and core four good sized apples, stuff with chopped walnuts and raisins, add sugar, and put a piece of butter on each. Put in pan with little water and bake in a moderate oven. Serve with cream.

Dried Apple Cake.

Soak a cup and a half of dried or evaporated apples over night in cold water, then stew soft the day before using in a half cupful of molasses. Cream together one cup sugar and half cup butter. Add two-thirds of a cup sour milk, then the apples and the two well-beaten eggs, a teaspoonful cloves, two teaspoonfuls cinnamon, a grating of nutmeg and three cupfuls of flour sifted three times over with one half teaspoonful soda. Mix thoroughly, using the hands. Have ready one cupful seeded raisins, two-thirds of a cupful of currants and a little shredded citron. A few finely chopped walnut or hickorynut meats are an addition. Put a layer of the batter in a paper-lined cake tin, then sprinkle in some of the fruit and nut mixture. Follow with the dough, then more fruit, and so on, having the batter at the top. Bake in a slow bread oven, covering the cake with a buttered paper if inclined to brown too much on top.

Curried Eggs.

Fry an onion in butter and over it pour a sauce of milk and flour and a teaspoonful of curry powder. Cut hard boiled eggs into halves, arrange them on a deep dish, pour the curry sauce over them and arrange a circle of boiled rice around them. Garnish with parsley.

Culinary Hints.

A teaspoonful of ginger in two gallons of cider will, it is said, keep it sweet for several months.

When frying meat, it is said that dipping the slices first into the white of an egg makes them crisper.

A few allspice are an improvement to stews, thick soups and gravy. They add almost the same flavor as if cloves had been added.

Gelatine must be softened quickly by pour cold water over the quantities to be used, then set over boiling water until it is dissolved.

Fred Blackmon has an open path to Congress!

Saturday, the 10th, and Saturday, the 17th. Remember these dates, Democrats!

O'Neal and barbecue on the 17th! Are you coming? Do! We want you here.

The summer race for the golden eagle is drawing to a close. How are you running? Who's going to win that double eagle? Hustle!

How do you like that admission by the Shelby County People's Advocate? Stunner to some "big uns," isn't it? Reckon the people believe it yet?

Thought those engineers had orders to stop blowing their whistles so much and so loud? Where's the order? It's getting worse, and more of it.

How's are roads, brother? Soon have to start cotton to town. Are the roads in shape? Why not?

Dead man got up the other day; thought 'twas judgment. Somebody said, "L. & N. whistle." He fell dead some more.

Shame on the man that's afraid to sign his own articles! We'll get to you next week, buddy!

Cotton on the market, corn in the crib, pigs in the pen! Who said hard times?

We hate to do it, son; "it hurts us as much as it does you," but then you deserve it; you told a great big fib!

The Big Injun isn't saying much these days about what "we uns" done! When are we to hear from the committee?

Anybody could recognize Charlie on a dark night 300 yards away. Darkness seems like an electric lamp when Charlie is around.

Wasn't "recognized!" Bah! Scat! Begone!!! Who was "recognized" except the big bosses? But they were there weren't they, Mr. People's Advocate?

There are altogether too many loafing dogs on our streets. Isn't there an ordinance about stray dogs and dogs without collars? Look it up and enforce it, Mr. Marshal.

We are giving space this week to several clippings which we believe will be interesting reading—especially that referring to the Republican campaign book. It has appeared in all the big dailies North and South, East and West. It will soon appear in the Republican campaign book gotten out by the big bosses of that party. The Republicans of Chilton will not believe this NOW. Wonder if they will believe it when they see that even bigger ones than His Nibs proclaim it to exist and say it is for the purpose of catching the negro vote!

Remember the big Democratic mass meeting next Saturday to nominate a candidate for the Legislature. Come resolved to vote for the most available man.

Didn't we tell you Charlie Walker was there? You didn't believe it, did you? Bless your heart, we wouldn't deceive you. Charles was there—he was recognized, too!

Wonder what the Big Injun and the committee will say now since the People's Advocate has admitted it? 'Taint no Democratic lie now, it's Republican truth! What you going to do now, Big Un?

"Recognize" as much as any but one of the ten white delegates from Chilton! Anyway they were there with ten white delegates; now weren't they? Say yes or no and we'll hush up. We dare you! Say yes or no! Say it loud, Mr. Republican Paper!

Republican representatives in a Democratic Legislature cannot hope to accomplish anything for their constituents. They never have, and they never will; therefore Chilton county is going to send a good Democrat to the Legislature this year.

The cross firing between the People's Advocate and the Sun is decidedly interesting, with the odds in favor of the Sun. They were there and they were recognized—as much so as any one—except the "Big Injuns," and there was only one Big Injun from Chilton. The black bass was "recognized" as much as the white trout.

Wanted a clean campaign, did you? Free from mud slinging personalities? Did you? How came you to dodge behind a sapling then to fling YOUR mud?

You just set over there in the corner till about next week!

We've got some hickory sprouts for your hide! See?

The announcement by J. Osmand Middleton that he would not accept the nomination for Congress on the Republican ticket does not surprise us. Middleton is level-headed, even if he is a Republican; he recognizes that this is a Democratic year and a Democratic district. Why should he butt his head against a brick wall merely to help keep up a farcical organization?

We have several interesting communications that have been crowded out entirely this week. We are sorry that this has occurred, but it was necessary. Our good friends, F. A. Gulledge, wrote another interesting letter, this time from Digley, Nova Scotia, and Joe Wesson, another of our good friends, has some red hot poetry on the hook waiting for an opportunity to appear in print; then we have an interesting article from a gifted young writer on "The First Drink," which we wish to see get in soon. How we wish we had space for all these good things!

They do say there's another candidate for deputy marshal, but he's keeping quiet till after election; it might hurt Lou—beg pardon, we mean "de boss."

Have the fishes and loaves given out?

The please pass the pie!

Thanks awfully—well, it doesn't matter.

The Press is giving considerable space this week to an article coming from Washington, written by one whose business it is to know.

The writer represents a big newspaper and could not afford to misstate the facts. Besides these facts are a part of the Republican campaign book, and it seems to be the hope and desire of the "powers that be," the head of the Republican party, to get the information out to the people.

We clip the article from the Age-Herald. It was published as a news article in every paper, Democratic and Republican, and will appear in the campaign book of the Republican party. Much of the article has been cut out, it being too long for us to reprint, but the main facts are retained. What was cut out relates to the various offices which the negro fills under the Republican administration and the number of negroes in the several departments.

It's Republican campaign literature. Read it ye who vote the Republican ticket and see what you think of your party:

NEGRO VOTE WANTED BY REPUBLICANS.

Claim They Did Justice to the Negro Race.

NEGRO CAMPAIGN ISSUE.

Campaign Books Shows That the Government Employs Thousands of Negroes—Some Draw Immense Salaries.

BY WATTERSON STEALEY.

Washington, Sept. 4.—(Special.)—Appeal for the negro vote is made in the Republican campaign text book mainly on the ground that the party in power has shown "justice" to the negro by appointing him to federal offices.

They disclose for the first time the extent to which negroes have been given government employment.

There are 30,000 negroes employed by the government at salaries aggregating $8,255,761.

Jobs are held by 5,768, of whom 703 are in the Treasury Department, 571 in the government printing office and 421 in the Department of the Interior.

White employes in the government service here are not surprised as to the extent the negro has been given government office, but they wonder that the standpat campaign managers should so boldly advertise the fact and flaunt it in the face of the white residents of the country.

That the Republicans regard the negro as an issue is apparent from close scrutiny of the campaign book. In the enumeration of issues there are stated to be the "record" of the Sixty-first Congress, the tariff and the defense of the administration of President Taft.

The negro Minister of Hayti received $10,000 a year; the negro Minister to Liberia, $5,000. Negroes have several consular posts at $3,000 and $2,000.

In Washington negroes hold the offices of Register of the Treasury, assistant Register of the Treasury, Auditor for the Navy Department and other important and remunerative places.

W. D. Johnson, a Kentucky negro, is a special agent of the Interior Department. The collectors of customs at numerous cities, especially in the South, are negroes.

There are many clerks at salaries of $1,500 and better.

And throughout it all it is charged the Democrats have in every way tried to oppose the negro's progress. The bill introduced by Representative J. Thomas Heflin, of Alabama, to provide "jim crow" cars in Washington is cited as proof of the Democrats' enmity and the statement that all the Republicans present voted against the bill when it was presented for passage is called proof of their love for the negro. Lack of education for the negro in the "Democratic South" and the better educational facilities afforded him in the "Republican North" are cited, too, as proof that Republicans love and cherish the negro. Altogether the character of the text book on negroes is very startling.

REFUSED TO BE SLAUGHTERED.

Mr. Osmond Middleton authorizes the announcement that he will not accept the Republican nomination for congress from the Fourth district. He has so informed the chairman of the Republican executive committee. There will probably be no other nominations by the Republicans for this office, so that Mr. Fred S. Blackmon stands unopposed for congress.

This was a wise step on the part of Middleton; despite his Republicanism, we like him, even if he does use other people's names sometimes to administer a rap at this editor. He was unwilling to be the scape-goat for the Republican forlorn hope; he didn't care to make a spectacle of himself running for congress on a so-called Republican ticket in a district that is overwhelmingly Democratic. The Big Un couldn't bamboozle Osmond into making any such race on the Republican ticket, even if he is able to lead some folks into the Republican party—just a very few. Men are not so easily gulled as some people seem to think; they are looking into things a little these days, and refuse to be put upon the sacrificial altar just to please a few Big Injuns who have personal interests at stake.

Osmond had no chance, and he knew it. He acted wisely in the extreme. We admire a fellow who refuses to be caught by the nose and pulled into a thing of that sort. Osmond is a good fellow, and some day he will forge to the front—but not by submitting himself to the dictates of party leaders who have an axe to grind for themselves.

Even the Easy Boss could not pull the wool over Middleton's eyes; he can see through a hole in the wall; he doesn't propose to become a cat's-paw to pull some other fellow's chestnuts out of the fire.

That's one piece of PIE the Big Un couldn't give away.

Osmond, we congratulate you upon your level-headedness. We knew you were a bright young fellow, and we were just a little afraid that you might be caught with that bait—but you weren't.

We admire you all the more for not being caught in the net. We know your law practice is sufficient to keep you busy; we know you are succeeding admirably; but then we know, too, that you are too smart to be caught with a caterpillar bait.

Who yo' gwine to gib dat pie to now, Boss?

Wonder if this refusal to be led will open the eyes of others? Wonder if they are going to be driven by the Big Boss, whether or no? Those who see what it leads to refuse to be led. Why don't you stop and think before you are led into the camp of your enemy?

FOR SALE.

223 acres of land; 65 acres under cultivation; 60 acres in pasture, with running water the entire year. All land practically level.

ROUNDER.

MAPLESVILLE.

Well, Jim got married, and seems to be getting along nicely.

Mr. T. L. Elam was in town yesterday. He says some one is sending him The Press, and he likes it very much. Says you mean business, Mr. Editor.

We notice that the Maplesville Social Club is going to retail whiskey in our town. No one seems to know who composes this club. I guess they are going to run the blind tigers out of business. If I belonged to any club now I would resign, for fear some one would accuse me.

We had quite a thunder and lightning storm here last Monday afternoon. The lightning struck the Southern depot and office. Messrs. Tom Perry and J. R. Northrup were both struck and were injured somewhat, but not seriously.

Rev. R. J. Mitchell filled his regular appointment here last Sunday and began a series of services. Rev. J. L. Ray, of Blocton, is assisting in the services. Rev. Mitchell preached an excellent sermon on Sunday night, his text being "How shall we escape if we neglect so great salvation?" He applied the text to matters of every-day life.

The little daughter of Mr. and Mrs. J. W. Mitchell hurt herself quite badly by a fall the other day. She slipped and fell upon the floor, injuring her hip. She is much improved now, and the doctors say that it was nothing more than a wrenching of the muscles.

The public schools opened here Monday, with Prof. Harvie Rick as principal and Miss Ada Walker, of Belle Ellen, as assistant. There were 73 pupils enrolled the first day.

J. W. M.

MOUNT NEBO.

Please say in your paper that on account of the Democratic rally to be given at Clanton on Saturday, the 17th, the Mulberry Sunday school convention, which was to have been held on that day, has been changed to Sunday, September 18. All those on the program and all delegates will please make a note of the change.

Program

Of the Mulberry Sunday School Convention, District No. 2, to be held at Mount Nebo (Methodist) church, nine miles west of Clanton, on the third Sunday in September, 1910.

9:30. Devotional exercises—J. D. Culp.

9:45. Welcome address—J. D. Sims.

10:00. How to get people to attend Sunday school—D. C. Culp.

10:30. What has the Sunday School accomplished, and what are its possibilities?—A. C. Mims.

11:00. Sermon—Rev. R. J. Mills.

Dinner.

1:15. Song service—J. L. Harris.

1:30. Report of World's Sunday School Convention—Miss M. C. Gibson.

2:00. How to prepare a Sunday school lesson—J. H. Williams.

2:30. Does the influence of the Sunday school extend into the day school?—Howard Roper.

2:55. The moral effect of the Sunday school upon young people—J. L. Johnson.

3:20. How to build up the Sunday school—E. B. Deason.

3:45. Selecting place for next convention and other business.

Every school in the district is requested to send delegates.

WM. BILLLINGSLEA,
President.

BESSIE DURBIN,
Secretary.

TAX NOTICE.

Assessor's and Collector's First and Only Round.

We will attend at the following times and places for the purpose of collecting the State and County Taxes of Chilton County, Alabama, for the year 1910, and assessing the Taxes for the year 1911:

Kincheon, Beat 6—Oct. 10.
Pletcher, Beat 15—Oct. 11.
Riderville, Beat 8—Oct. 12.
Stanton, Beat 8—Oct. 13.
Shoults. Beat 7—Oct. 14.

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Company in favor of West Stegall Grain & Milling Co. out of the goods, chattels, lands and tenements of the said Parsons Lumber Company, I have levied on the following property, to-wit:

About fifteen miles of railroad, extending from mill of Parsons Lumber Company to mill on the Coosa river, to Coopers Station, and from said mill into the forest, together with four locomotives, engines, and eighteen logging cars, together with all sidetracks, turn-outs, switches, tools and equipment pertaining thereto, the same being all the railroad and railroad equipments owned by the Parsons Lumber Company; and also together with the rights of way of said railroad as now located, extending over the lands of the following persons, to-wit: Miss Phila Cooper, J. C. Gibson, Mrs. M. J. Baldwin, Clifford A. Gullahorn et als., E. T. Gullahorn, B. T. Calloway, M. J. Thomas et als, F. M. Connell, Jr., F. M. Connell, Sr., F. A. Gulledge, J. D. Hand, W. A. Collier, Virginia A. Ternan, S. A. E. Patillo and A. L. Patillo, all of said lands being located in Chilton county, Alabama; also the saw mill plant on the Coosa river, including engines, boilers, machines, machinery, saws, chains, together with all tools and equipments pertaining thereto; also planing mill plant, including three planers, engines, boilers and chains, together with all tools and equipments pertaining thereto; also two dry kilns, including boilers, pipes, carriages, trackage and all tools and equipments pertaining thereto; also the blacksmith shop at the mill, including all material on hand, together with all tools and equipments pertaining thereto; also the river equipments on the Coosa river, such as launches, boats, skiffs, booms, both stationary and moveable, cables, chains, dogs, ramps, etc.; also all office and commissary fixtures, office stationery and office supplies; also about fifteen teams of oxen, together with drays, chains and all logging equipments, such as axes, saws, and three mules; also the following described real estate in Chilton county, Alabama, to-wit:

E. 1-2 of S. E. 1-4 of section 9; thirty-eight acres of the west side of that fractional part of section 10 lying west of the Coosa river, more particularly described as follows: Beginning at the southwest corner of said section 10, and running thence east one-quarter of a mile, thence due north to the margin of the Coosa river, thence in a northerly direction along said river to the west line of said section 10, and thence south to the point of beginning; and the north 1-2 of section 16, all in township 21, range 16 east, and the S. E. 1-4 of section 30, N. E. 1-4 of section 31, township 22, range 16 east; also the following described lands in N. E. 1-4 of S. E. 1-4 of N. W. 1-4 and S. 1-2 of S. E. 1-4 section 17; S. 1-2 of S. E. 1-4 of section 18; N. E. 1-4 of N. W. 1-4, section 19, all in township 21, range 16 east.

This levy is made subject to a certain deed of trust executed by the Parsons Lumber Company on the 15th day of June, 1909, to Louis B. Farley, as trustee, which deed of trust is recorded in Mortgage Record 101, page 107, in the office of the Judge of Probate of Chilton county, Alabama.

Therefore, according to said command, I shall expose for sale at public auction, to the highest bidder for cash, all the right, title and interest of the above named Parsons Lumber Company in and to the above described property on Monday, the 3rd day of October, 1910, during the legal hours of sale at the court house door in Clanton, Chilton county, Alabama.

Dated at Clanton, Alabama, this, the 3rd day of September, 1910.

JOHN S. CATTS,
Sheriff of Chilton County, Alabama.

sep8-4t

Over in Shelby county the two opposing parties seem to be having a right lively scramble for office, with the chances decidedly in favor of the Democrats. Heretofore Longshore has had things pretty much his own way over there, but this year he attempted what was attempted in Chilton—to lead the one time Populists into the Republican party—and he is finding that they will not be led as easily as he thought.

The two Columbiana papers are at it hammer and tongs over there. The Sun has wrung a confession from the Republican Advocate that there were negroes in the recent Republican district convention—the one in which the Chilton county delegates sat—and things are looking decidedly gloomy for the "Big Un" of Shelby. Those good men, no more than our own Chilton county people, relish the idea of their delegates affiliating in conventions with negroes. However, we do not care to revive the subject again just now, for we think enough has been said on that line. We print for the delectation of our readers some of the things that are passing between the Republican and the Democratic paper over in Shelby. "You pays your money and you takes your choice."

Says the Sun (Democratic):

"Don't Say Nigger to Us!"

"The Opposition recently mentioned 'that some negroes in Walker county, this State, voted in the recent Democratic primary.'

"Great heavens, man, didn't you never hear of a negro voting the Democratic ticket before? But there is one thing you have never heard of a negro doing, viz: Participating as a delegate in a Democratic convention in Shelby county. The Democrats of Shelby county draw the line on social equality with the negro in their conventions. How about you, Mr. Opposiston, and your neighbors lauding to the skies a Republican convention held at Calera a few days ago with two negroes as delegates? Your party stands for what it has done."

And to this the Advocate (a Republican paper) makes reply in this wise:

"The Sun has been running an article on its first page for the last month or so headed 'Don't Say Nigger to Us,' which lays great stress on the negro participating in a Republican convention held at Calera several weeks ago.

"Mr. Sun, we do not deny the fact that there were two negroes in the convention at Calera, but they had no voice whatever in the actions of the convention and were not recognized."

Now, you will observe that the Advocate, a red-hot Republican paper, admits that there were negroes in the Calera convention. This is all that we have ever contended for. Why doesn't the Chilton county Republican sheet act as honest with its readers?

As to whether they were "recognized" or not depends altogether upon what one understands by that word. They were "recognized" as delegates; they were "recognized" as the representatives of the Republican party from their county; they were "recognized" as having a right to vote in the selection of a candidate for Congress; they were "recognized" as members of the convention; they were "recognized" as having every right which any other delegate had. What more recognition did they want?

Why, oh, why, won't the Chilton county Republican paper be honest with its readers and inform them of the facts?

But we said we had no desire to push the matter further. The people are opening their eyes at last, notwithstanding the candidates and committeemen are trying to keep them closed.

An Ancient Landmark Removed.

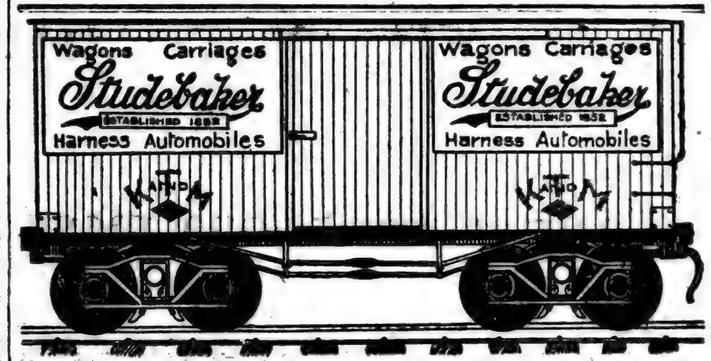
The old stable attached to the Methodist parsonage, which for ages past has stood in the street and sheltered the pony of the ministers of that church, is being demolished and the street made ready for public usage. One by one the improvements come; one by one the things of our youth pass away.

A Card of Thanks.

We wish to tender thanks to our many friends for their kindness in the late bereavement.

Words are inadequate to express our appreciation.

The Calera Bakery



Desires to announce to the good people of Clanton that Mr. J. E. Evans is agent for our breads and cakes. He receives a fresh shipment daily.

Our goods are the equal of those found anywhere on earth. The bread is light and wholesome. The cakes are pure and delicious.

Call upon Mr. Evans when in need of Pure Bakery Goods.

Yours truly,

CALERA BAKERY.

A Carload of "STUDEBAKERS"

We have just received a carload of *Studebaker* wagons. Come in and look them over. Let us show you how well a *Studebaker* is built.

FRED KAUFFMANN

MADE TO MEASURE GARMENTS

ARE THE MOST PERFECT UNDER THE SUN

Several million people know the fine made-to-measure clothing for men made by *Fred Kauffmann*, Chicago.

This tailoring organization has built up the greatest made-to-measure business of the country, running into so many million dollars that you'd use up thumbs and fingers tallying it off.

This vast business has been won—and is being held—by carefulness.

Their designers get larger salaries than the members of Taft's Cabinet; their buyers of cloth are national experts; their standard for cloth, at our suggestion, is absolutely all-wool.

Fred Kauffmann secured us as representatives with the determination of making *Kauffmann* tailoring as standard in this vicinity as are Elgin or Waltham watches.

Tailoring that is guaranteed by seven simple words, namely: YOUR MONEY BACK UNLESS WE PLEASE YOU. This guarantee is backed by the mill, the maker and us.

Kauffmann has sent us a message: *"We'd like to spend some money to further entrench our tailoring. What would you suggest?"*

Our answer was: *"Spend it by giving us a reduction that will capture the town."*

The best way to win trade for *Fred Kauffmann* tailoring is to get it on men's backs. It will win their permanent friendship, and so we will take your measurement for made-to-your-personal-order garments at prices which have never before been quoted for *Fred Kauffmann* tailoring, namely:

COATS & TROUSERS	SUITS	OVERCOATS

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water.

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Hadley & Co., Clanton, General Merchandise, Fancy Groceries.

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes Monday, Noon, December 5th, 1910.

BRIGHT PROSPECTS FOR NORMAL

Enrollment This Fall Promises to Break Records.

Prospects for the opening of the State Normal School at Jacksonville on September 14 are exceptionally fine. Never in the history of the school has so large a number of pupils signified their intention of enrolling as is on record at this date. As the patronage of the school is largely drawn from the rural districts of every section of the state, this is not only a reflection of good crop conditions, but also indicate that people are waking up to the need and value of education.

On September 12 the Fourth Congressional Teachers' Institute will hold its second week at the State Normal school in Jacksonville. President C. W. Daugette of the Normal and Superintendent D. R. Murphey of Anniston public schools are the conductors. The first week of the institute will be held in Talladega. A large number of teachers is expected to attend at both places, as the conductors have spared no effort to arouse interest in the institute.

To increase interest in agriculture in Calhoun county, Ross Blackmon of Anniston proposes to give a scholarship, amounting to $150, in the Normal school to the boy in Calhoun county who raises the greatest number of bushels of corn to the acre. This donation of Mr. Blackmon is thoroughly in line with the great agricultural movement that is sweeping the entire country.

Another feature that will be introduced into the Normal school next season, indicating the alertness and progressive spirit of its president, is the fact that he has secured the services of Dr. Thomas Huey, eye, ear and throat specialist of Anniston, as medical inspector of both Normal and training schools.

The Field Secretary Committee of the North Alabama Epworth League Conference has recommended that the office of field secretary be continued for another year and that the expense be paid by voluntary subscriptions of individual leagues.

Dr. Clarence J. Owens, who is in charge of the agricultural department of the Southern Commercial Congress, has taken active charge of the exposition, which is to be held in Montgomery this fall. Dr. Owens announces that he will endeavor to make the exhibits of genuine Southern interest. All Alabama products will be a feature of the department's work.

There is a rumor current in Gadsden to the effect that the Chattanooga Southern railroad, which runs from Chattanooga to Gadsden, is contemplating making a connection at that point with the Georgia, Florida & Alabama railroad, in the southeastern part of the state. The rumor has it that the Georgia, Florida and Alabama railroad, is already at work building a line from the main line south of Columbus through Richmond, Ga., to Junction City, Ala., on the Alabama, Birmingham and Atlanta, over which road it intends to operate trains into Birmingham.

W. M. Chenault, deputy revenue collector, reported the location and destruction of three illicit distillery outfits. One of the stills was found three miles north of Hodges, in Franklin county; a second one six miles north of Hamilton, Marion county, and the third one six miles north of Nauvoo, in Walker county. The last still discovered and destroyed was a 50-gallon copper still and considerable apurtenances were found with it.

Bob Hibble, the negro who jumped from a train moving fifty miles an hour between Barton and Cherokee and escaped from two Mississippi officers, with guns leveled on him, was captured near Cherokee in a deserted school house on the W. P. Rutland place by John Sherrod and Al Horton. The negro was entirely nude and the officers had to shoot him before he surrendered.

State Auditor W. W. Brandon, in a statement for the public, makes it plain that he cannot refund license taxes paid by local or state corporations which they ought not to have paid, without special acts of the legislature. The courts have held that when special license tax is paid regular fee for corporations cannot be levied, hence a number have asked for returns, having paid both.

It has been persistently rumored in Bessemer industrial circles that the Atlanta, Birmingham and Atlantic railroad would locate its shops near Bessemer.

With a view to encouraging the breeding of high grade live stock and poultry in Lauderdale county, the Commercial Club of Florence has instituted Live Stock Day.

The fourth annual fair of the Tennessee Valley Fair Association is being held at Huntsville. September 2 has been designated as Farmers' Union Day and Capt. Reuben F. Kolb, Democratic nominee for commissioner of agriculture, will be the principal speaker of the day.

The Alabama Branch of the Gun [illegible] convention in [illegible] for the purpose of [illegible] public [illegible]

CHEERFUL WORDS FOR SUFFERING WOMEN.

No woman can be healthy with sick kidneys. They are often the true cause of bearing-down pains, headaches, dizziness, nervousness, languor, etc. Keep the kidneys well and health is easily maintained. Doan's Kidney Pills make strong, healthy kidneys.

Mrs. Della E. Chapman, 5 Winthrop St., Hartford, Conn., says: "I was a wreck from kidney trouble. I spent over $700.00 doctortoring but to no avail. I was in despair when I began taking Doan's Kidney Pills but soon felt better. For seven years I have been free from kidney trouble."

Remember the name—Doan's. For sale by all dealers. 50 cents a box.

Foster-Milburn Co., Buffalo, N. Y.

THE WAY HE FIGURED IT.

Mr. Wise—It's a fine machine, but I have to employ a man who does nothing else but keep it in the repair.

Auto Agent—Well, if it furnishes steady employment for one man, it's a great deal better auto than those that don't.

Globular Lightning.

Yesterday the inhabitants of Lewisham were provided with a specimen of that curious phenomenon known as "globular lightning." It is what is commonly called the "fire ball," and as it persists for several seconds it is obviously of a totally different character from any other form of lightning. It is much less brilliant than ordinary lightning, and its brightness appears to be that of iron at the "red hot" stage.

It is not, as some accounts might lead one to infer, a solid missile, but it is always spherical and appears to fall from a thunder cloud by its own gravity, sometimes rebounding after striking the ground.—London Globe.

HOW A DOCTOR CURED SCALP DISEASE

"When I was ten or twelve years old I had a scalp disease, something like scald head, though it wasn't that. I suffered for several months, and most of my hair came out. Finally they had a doctor to see me and he recommended the Cuticura Remedies. They cured me in a few weeks. I have used the Cuticura Remedies, also, for a breaking out on my hands and was benefited a great deal. I haven't had any more trouble with the scalp disease. Miss Jessie F. Buchanan, R. F. D. 3, Hamilton, Ga., Jan. 7, 1909."

Kept with Barnum's Circus.

P. T. Barnum, the famous circus man, once wrote: "I have had the Cuticura Remedies among the contents of my medicine chest with my shows for the last three seasons, and I can cheerfully certify that they were very effective in every case which called for their use."

Even the Children.

Ex-Governor Pennypacker, condemning in his witty way the American divorce evil, told, at a Philadelphia luncheon, an appropriate story.

"Even our children," he said, "are becoming infected. A Kensington school teacher, examining a little girl in grammar, said:

"'What is the future of "I love?"'

"'A divorce,' the child answered promptly."

Something Dreadful.

Wee Anita was listening to a story of the Johnstown flood.

"What made it?" she asked.

"Oh, the dam broke," replied grandma.

The next morning she ran into her brother's room and, climbing up on the bed, inquired anxiously: "Buvver, wasn't it just dreadful 'bout that swear breaking and killing all dose people?"

For COLDS and GRIP

Hicks' Capudine is the best remedy—relieves the aching and feverishness—cures the Cold and restores normal conditions. It's liquid—effects immediately. 10c., 25c., and 50c. At drug stores.

Depend not on another, rather lean upon thyself; trust to thine own exertions, subjection to another's will gives pain.—Manu.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic. 25c a bottle.

A girl will tell how a man made love to her when she did to him.

FISHING TIME IN THE PASIG

Swimming in Myriads Near Surface They Are Snared and Speared by Filipinos.

Friday morning Filipinos snaring eels and other fish in the Pasig near the old captain of the port building by the aid of fish snares caught the largest eel ever seen on the water front. It was fully ten feet in length.

Both banks of the Pasig and all the ships and lighters moored in the stream were thronged with hundreds of Filipinos with snares and spears trying to catch the fish that in myriads were swimming near the surface of the stream.

Natives when asked in regard to the phenomenon were almost unanimously in their statement to the effect that at this time of the year the bottom of the river gets hot and that the fish have to leave the depths of the stream and flash back and forth on or near the surface.

Another theory that seemed to have a great many adherents was to the effect that at this time every year there was a change in the character of the water, this change acting on the fish as a stimulant.

This theory was advanced by an old pilot who has witnessed the phenomenon for many years.—Manila Times.

AWFUL.

Stranger—I suppose you people in this town think you have the grandest climate in the country?

Man With a Cold—No; but we claim the greatest variety.

When the Fish Exploded.

Somebody discovered that fish are fond of gasoline, and this led to the idea of soaking worms in gasoline in order to make them more alluring when used for bait.

Mark the result.

Two of those gasoline-tempted fish exploded in the frying-pan, and broke the kitchen window, and blew the cook's face full of mashed potato, and hurled the teakettle into the flour barrel, and painted the kitchen ceiling with stewed tomatoes.

Call it a lying world and let it go at that.

Tetterine Cures Ringworm.

Wysacking, N. C., June 2, 1908.
Enclosed you will find $1.00 for which please send me at once Tetterine. It is a dead shot on ringworms. W. S. Dudley.

Tetterine 50c; Tetterine Soap 25c. Your druggist, or by mail from The Shuptrine Co., Savannah, Ga.
With every mail order for Tetterine we give a box of Shuptrine's 10c Liver Pills free.

Scandal.

Mrs. Simmons glanced at the scare headline: "Bank Robbed! Police at Sea!" and laid down the sheet.

"Naow, look at that, Ez!" she ejaculated, repeating the headline aloud. "Here's a big city bank broke into by burglars, and th' city police force all off fishin' somewhere! What a scandal!"—Judge.

Right at Home.

New Arrival—Do you recognize the profession, my good man?

St. Peter—Profession? What profession, sir?

New Arrival (resentfully)—Why, didn't you ever hear of me? I am one of the dandiest harpists that ever broke into vaudeville.—Puck.

A Busy Life.

Sub-Editor—A dispatch from the penitentiary says the convicts have struck and refuse to work unless they can have pie twice a day.

Great Editor (busily)—Counsel moderation and arbitration.—New York Weekly.

A Summer Resort.

Noah disembarked.

"A combination of the mountains and seashore!" he cried.

Herewith he resolved to advertise the tour.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM

Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria, and the Iron builds up the system. Sold by all dealers over 60 years. Price 50 cents.

Youth is invariably present in the old age of a great man. He never completely loses life's first elixir.—Fred. Harris-Stickford.

A fool must appreciate the nonsense of a pretty woman more than he does the sense of a homely one.

COMING MAN OF BUSINESS

Long-Headed Youngster Who Bids Fair to Graduate Into Rockefeller Class.

So many panes of glass in old Mr. Viner's greenhouse had been broken that he had at last offered a reward of 10 shillings to anyone who should give information as to the identity of the latest offender. The bait soon drew. A youngster called on Mr. Viner and informed him that a lad named Archie Thompson was the guilty party. He received his reward, went away rejoicing and the old gentleman forthwith wrote to the local schoolmaster, demanding the production of the said Archie Thompson, to make good the damage he had done to his windows.

Next day the informer called again.

"The schoolmaster sent me," he said briskly. "I've seen a glazier and he'll put your glass right for three shillings. Here it is, and—"

"Not so fast, my lad," said Mr. Viner. "Have you come on behalf of Archie Thompson?"

"Well, yes, sir, in a way," said the boy. "Fact is," he continued, confidentially, "I'm him!"—London Tit-Bits.

A Shipping Error.

The young Duchess of Westminster, wife of the richest peer in England, recently gave birth to her third child, a daughter. Thus there is no heir to the immense Grosvenor fortune, Earl Grosvenor, the duchess' second child, having died at the age of four.

Apropos of all this, a rather cruel story is being told in Newport about Lady Ursula Grosvenor, the eight-year-old daughter of the young duchess.

A friend, the story goes, called at Eaton Hall, and as she sat in the drawing-room, little Lady Ursula entered.

"Oh, good afternoon," she said gravely. "Mamma can't see any one today. She's upstairs with the new baby. They sent her, you know, a girl when she'd ordered a boy, and she's so upset that she's quite ill."

Talking to the Child.

"Mrs. X—— talks to little Madge just as Mr. X—— talks to their dog," said a little girl of a neighboring family. And it was indeed true. Mrs. X—— is a very well-meaning woman and would be greatly surprised if she should hear the foregoing statement. She has simply unconsciously acquired a harsh tone of voice in dealing with her children. This is altogether unnecessary and is not, as many mothers seem to think, a mark of good discipline. The mother whose manner is quiet but firm is generally a much more successful disciplinarian than the harsh-voiced mother who issues her commands in a dictatorial manner. Kindness never spoils children. It is flabby indecision, sometimes mistaken for kindness, which spoils them.

Source of Revelation.

Twenty-seven new, crisp $1 bills, says Harper's Weekly, weigh as much as a $20 gold piece. Wouldn't have thought it, and have no means of proving the assertion, but if so it is probably owing in some way to the recent activity of the inspectors of weights and measures.

Partly Made Over.

"Weren't we engaged last summer?" inquired the girl.

"Your face is familiar," faltered the man.

"Well, I'll forgive you for not recognising me. My hair and figure are new."

Got Stung, All Right.

Bill—This paper says that bees were unknown to the Indians.

Jill—Yes, I believe it was the traders who used to sting them.—Yonkers Statesman.

For HEADACHE—Hicks' CAPUDINE

Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at drug stores.

The days are not mere repetitions of themselves; tomorrow will have a better meaning.—T. T. Munger, D.D.

Where Size Counts.

Edna thoughtfully considered a cow that was calmly grazing in a meadow across the way. "Mamma, how old is that cow?" she finally inquired. "She is four years old," answered Edna's mother. Edna considered the answer and from time to time appeared to be comparing herself with the cow. "Well," was her parting comment on the question, "I'm five and that cow is big enough to be fifty."

And the only way to impress some people is to suppress them.

WOMEN OF MIDDLE AGE

Need Lydia E. Pinkham's Vegetable Compound

Brookfield, Mo.—"Two years ago I was unable to do any kind of work and only weighed 118 pounds. My trouble dates back to the time that women may expect nature to bring on them the Change of Life. I got a bottle of Lydia E. Pinkham's Vegetable Compound and it made me feel much better, and I have continued its use. I am very grateful to you for the good health I am now enjoying."—Mrs. Sarah Lousignont, 414 S. Livingston Street Brookfield, Mo.

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease and pain.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs.

For 30 years it has been curing women from the worst forms of female ills—inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, and nervous prostration.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

METALLIC HEELS AND COUNTERS
MADE OF STEEL
FOR MINERS, QUARRYMEN, FARMERS AND ALL MEN WHO DO ROUGH WORK

Light and easily attached. Will pay for themselves several times over. They outlast the shoes. Any cobbler can put them on or your shoe dealer has shoes already fitted with them.
Write for booklet that tells all about them.

The Latest New York and Paris Creations.

There's nothing to compare with KNOWLEDGE.

Knowing how to BUY is as great an art as knowing how to SELL.

We know both arts; we BUY wisely, we sell economically.

We spent two weeks in New York City inspecting styles, in order that you might have the latest from the most fashionable city in the world.

Our stock of Ladies' Furnishings is more complete this year than that shown by any other place between Montgomery and Birmingham.

We bought in New York at New York prices; we are going to sell in Clanton at UNPRECEDENTED prices.

Mrs. Breeden, a skilled trimmer of Nashville, who learned her trade under the masters of the larger cities and who assisted us in New York, will be with us this year to give you the benefit of her knowledge and skill.

There is nothing in the millinery art that cannot be found at our place.

Come to see our beautiful display—never before equalled in Clanton.

MISS MINNIE MUSE,
MILLINERY EMPORIUM.
We Give Piano Contest Tickets.

LOCAL and PERSONAL.

Miss Emmette Matthews leaves next week for Marion, where she goes to attend the next session of Judson College.

Mr. Claude Reynolds will leave on Monday next for Greensboro to enter the Southern University.

Miss Perry, of Birmingham, is visiting in the home of Mr. and Mrs. W. T. Callen.

Mr. Claude Mackey spent Sunday with relatives and friends in the Birmingham district.

Mr. Wood, of Birmingham, has arrived to take the place of Mr. R. E. Luckie as operator for the L. & N. railroad.

Buy your wife or best girl a box of Nunnally's candy at Upchurch Drug Co. Our customers demand Nunnally's or none. tf

Miss Elizabeth Sealye, of LeGrande, is in the city, the guest of Mr. and Mrs. B. E. Jones. Miss Sealye will probably spend much of the winter season in Clanton, she having arranged to teach school near the city.

Mr. and Mrs. Russell McDaniel, of Montgomery, are visiting relatives in Clanton.

Mr. Grady Reynolds left Monday morning for the Druid City to enter the State University.

If you want to please your best girl take her a box of Nunnally's candy; present it with a pretty bow and see her smile with gladness. Upchurch is the place to get it. tf

Mrs. Fleming, of Birmingham, is in the city, the guest of Mrs. J. Renfroe Mullins.

Mr. Tom Dudley, of Richburg, arrived in the city Tuesday morning on a visit to his brother, Postmaster F. O. Dudley.

Mr. Samuel A. Latham returned to Tuscaloosa Monday to resume his law studies at the State University.

See Upchurch's new line of jewelry, and remember in buying that they stand back of every piece of it—with the cash—should it not prove entirely satisfactory. tf

Misses Bessie VanDerveer and Winnie Reynolds will leave on Monday next for for Montevallo to enter the Alabama Girls' Industrial School.

Mr. B. W. Gilbert, the brick man of Mountain Creek, was circulating among friends on the streets of Clanton Tuesday.

Mr. Gaston Scott, of Montgomery, who is prospecting for iron ore in this county, has been in Clanton for the past several days.

Mrs. S. J. Watts expects to leave in a few days to visit friends and relatives at Union Springs, Evergreen and Greenville.

The coolest drinks in town and the most delicious creams are served at Upchurch Drug Co.'s fountain. That's where to meet your best girl and set 'em up. tf

Mrs. Jackson, of Evergreen, is visiting her mother, Mrs. Tol. Mullins.

Mr. Harry Gordon spent several days in Columbiana recently.

Upchurch's is the place for refreshing drinks and delicious creams. Have you tried them? If so, you know; if you don't know, try. tf

Mr. Saxon and family, of Ensley, arrived in the city last week, and will become permanent residents of this place. We are glad to welcome them to Clanton.

Mr. Crit Jones donned the habits of Nimrod last Monday and hied himself to the swamps of Mulberry, where he bagged seven squirrels—quite a neat little pot pie.

Genial Abe Adams, one of the cleverest knights of the grip in the world, was a visitor to Clanton Monday.

Judge Reynolds was somewhat indisposed last Monday, and consequently the regular term of the county court was continued.

One more week of the summer race, and the Golden Double Eagle will be delivered to the lucky one. How about you?

Bring us your family receipts and we will make a practice of using exactly what your receipts call for. We use no substitutes, and our prices are right. Yours for a square deal,
tf UPCHURCH DRUG CO.

Of all the pretty things gotten out in the printing offices these days, The Press is turning out the niftiest. Have you seen them?

Mrs. E. M. Pinckard entertained quite a number of her friends on Tuesday afternoon at her elegant home in honor of Miss DeBardeleben, of Tuskegee. Progressive dominoes was the game of the afternoon. A chocolatiere affair it was, and one of the most elegant ever given here or elsewhere. Those who receive invitations to this hospitable home, on whatever occasion it may be, are fortunate indeed, for they are always entertained in the most lavish manner, Mrs. Pinckard being a hostess who knows how to make her guests feel perfectly at home while enjoying her hospitality.

FOR SALE—47 acres of land and a nice three-room cottage; $250; $100 cash, balance easy terms. Location, five miles from Clanton. Address H. H., care The Clanton Press. tf

The following are the marriage licenses issued this week:

Mr. J. W. Chambers and Mrs. Alice Williams.

Mr. James Scroggins and Miss Maggie May Townsend.

Mr. J. S. Waldrup and Miss Sarah Crumpton.

Mr. H. J. Watts and Mrs. N. J. Jones.

Mr. Ike Mull and Miss Mary Klinner.

Charles Sykes, colored, and Ada Bykes, colored.

The fall season has again opened up, and all progressive merchants are handling Press contest piano tickets. Don't forget to call for them when you make your purchases. That handsome piano may yet be yours if you hustle.

Henry Larkin, the L. & N. depot porter, took his vacation last week, spending several days with friends in Florida.

If you have not already done so, make your arrangements to be here next Saturday to the Democratic rally and mass meeting.

Mrs. Orlando Dennis returned [illegible] days after [illegible] from an extended visit to Southern Alabama.

Strange how some people become frightened in a race because others get a little ahead occasionally. It's a long time before the piano contest ends. Get in the running.

Mr. Morgan, until recently connected with the Jefferson hotel of Birmingham, has accepted a position with the People's Savings Bank, and will spend the winter in Clanton.

Most of our county correspondents went square back on us this week. We regret that we have no more letters from our county friends, but perhaps they were busy this week getting ready for the fleecy staple, and we feel sure that the friends of The Press will forego the pleasure of our weekly letters for one week if it but assists in the marketing of the money crop. Don't forget us next week, though, friends. We appreciate your letters and our readers look for them.

Get a chain for your dog if you don't want it bit or have it bite some one, and possibly impart hydrophobia germs—the most horrible of all diseases.

Have you noticed the alternating electric sign of the Clanton Pool Company? Who says we are not getting real city ways, anyhow?

Today is the day for Mrs. McMorrie's school to open. Are you going?

Did you read the extract from the Republican campaign book? It's rather warm reading for some of the Republicans high up, but since it is Republican doctrine, issued by Republican managers and printed on Republican presses for Republican readers, they can't kick if we reprint a part of it. Can you, Boss?

Mr. George Cady, of Montgomery, is circulating among Clanton friends again.

The Press has received several cards from Mr. J. M. Potts during his western trip, all of which indicates that he is having a huge time.

Sheriff Catts received word last Tuesday of the murder of a negro woman over about Riderville. Further than that, it was a premeditated murder committed by a negro man, and was about something concerning a woman, the details of which could not be learned. The negro made good his escape. However, Sheriff Catts went over to investigate.

Miss Alice Stanfield went down to Verbena Tuesday afternoon to spend the night with her little friend and companion, Miss Scott.

Mr. T. H. Dudley left Wednesday morning for Ruskin, Tenn., to enter college. Before leaving he gave us instructions to send The Press.

Mr. R. M. Hayes left Tuesday morning for Newton, where he goes to enter college. As he boarded the train he said, "Don't forget to send The Press."

A License for Liquors.

Under and by virtue of the law requiring such public notice to be issued by the Sheriff of the county, I, John S. Catts, Sheriff of Chilton county, Alabama, hereby give notice that a license has been issued by the United States revenue authorities to the Maplesville Social Club to deal in retail liquors, said license being dated July 1, 1910. J. S. CATTS,
tf Sheriff.

NOTICE.

I have purchased the book accounts of the bankrupt firm of C. W. Reynolds. All persons are notified to call and settle same immediately and avoid suit. J. B. DOWNS.
tf

FOR SALE.

One second-hand two and one-half horse power International gasoline engine. A bargain for some one if taken quick. Enquire at this office. tf

We serve the best soda water in town—none barred. We use only the very best fruit juices and give you the best of everything to be had. Try us and be convinced. Upchurch Drug Company. tf

An Officer Shot.

Last Sunday afternoon Ed Cooper imbibed a little too much of the cup that cheers, and in consequence thereof he reposed behind the walls of the county bastile for some hours. If that had been all it would not have been so bad, but more serious results followed the imbibing.

Ed resisted arrest, and as a consequence Deputy Sheriff Curlee now lies upon a bed of suffering with a pistol ball sent through his right leg.

Cooper, it seems, had passed some words with a white gentleman about a watermelon, for which Cooper owed, and in the course of the conversation the negro, being under the influence of strong drink, made use of profane language in the presence of females. An officer was sent to arrest Cooper, who refused to be arrested or handcuffed. Finally Officer Curlee, who was the arresting officer, pulled his pistol and was in the act of forcing the negro to submit when the pistol dropped from the hand of the officer and in falling was discharged, the ball passing entirely through the right leg just above the knee and ranging upward.

Dr. Gregg happened to be near at the time of accident and brought Mr. Curlee to his office, where medical attention was given him. The negro was seemingly sobered by the discharge of the pistol and submitted to arrest without further resistance. Mr. Curlee is suffering considerably from the effects of his wound, he having lost much blood, but the physicians say that with good nursing and a few days of absolute quiet he will be able to resume his duties as a peace officer.

The negro was discharged from custody on bond Monday morning. From appearances he will have several charges against him when he faces the bar of justice.

A Lucky Omen.

We have hanging upon the walls of our sanctum a picture drawn by a local artist that portends victory for the Democrats in the fall.

It represents an owl—the bird of prophecy and wisdom—sitting upon a tree and advising every one to vote for Deason and the party ticket.

The silvery moon is shining brightly in the distance, and casts a mellow light upon the prediction that upon the ides of November the majority for Democracy will be up in the hundreds. All the while this bird of good omen sits securely perched in the tree-top, calling out to Democrats and Populites and Republicans alike: "Vote for Deason! Vote for Deason!"

It's telling the Populites not to be led away from home into the Republican party, the party of strangers, aliens and others.

HEADLEY & CO.

To Quit The Dry Goods Line.

H.ello people, we are going to quit the dry-good line just as
E.arly as possible, and to do so will begin to slaughter on and
A.fter July the First the stock we have on hand. Hence, we say
D.on't miss our sales for it will prove the opportunity of your life.
L.owest prices ever offered in Clanton will obtain here and its
E.verybody's chance to secure bargains at your own figures.
Y.ou should bear in mind the date and be ready when the time comes
& above all do not forget the place. It's HEADLEY'S place.
C.ome and inspect our excellent stock even if you do not purchase.
O.ver the prices and the quality let us talk, its to your advantage.

After we have closed out our stock of dry goods we shall cater strictly to the retail grocery trade. Come to see us. We'll treat you right and be glad to welcome

HEADLEY & CO., On The Corner

E. M. PINCKARD & CO

Clanton's General Supply House and Provision Market.

We are headquarters for all things needful for man or beast, whether it be on farm, in the home or elsewhere.

Feedstuffs, Grain, Provisions, Farm Supplies, Guano, Agricultural Implements, Dress Goods, Shoes, Hats, Clothing, Groceries, Furniture.

In fact anything you choose to call for can be found in our stores. We cater to ladies trade and delight to serve them. Our prices are so absurdly low that no one tries to meet them.

Give us a trial and convince yourself

Cooper, it seems, had passed some words with a white gentleman about a watermelon, for which Cooper owed, and in the course of the conversation the negro, being under the influence of strong drink, made use of profane language in the presence of females. An officer was sent to arrest Cooper, who refused to be arrested or handcuffed. Finally Officer Carlee, who was the arresting officer, pulled his pistol and was in the act of forcing the negro to submit when the pistol dropped from the hand of the officer and in falling was discharged, the ball passing entirely through the right leg just above the knee and ranging upward.

Dr. Gregg happened to be near at the time of accident and brought Mr. Curlee to his office, where medical attention was given him. The negro was seemingly sobered by the discharge of the pistol and submitted to arrest without further resistance. Mr. Curlee is suffering considerably from the effects of his wound, he having lost much blood, but the physicians say that with good nursing and a few days of absolute quiet he will be able to resume his duties as a peace officer.

The negro was discharged from custody on bond Monday morning. From appearances he will have several charges against him when he faces the bar of justice.

A Lucky Omen.

We have hanging upon the walls of our sanctum a picture drawn by a local artist that portends victory for the Democrats in the fall.

It represents an owl—the bird of prophecy and wisdom—sitting upon a tree and advising every one to vote for Deason and the party ticket.

The silvery moon is shining brightly in the distance, and casts a mellow light upon the prediction that upon the ides of November the majority for Democracy will be up in the hundreds. All the while this bird of good omen sits securely perched in the tree-top, calling out to Democrats and Populites and Republicans alike: "Vote for Deason! Vote for Deason!"

It's telling the Populites not to be led away from home into the Republican party, the party of strangers, aliens and—others.

HEADLEY & CO.

To Quit The Dry Goods Line.

H.ello people, we are going to quit the dry-good line just as
E.arly as possible, and to do so will begin to slaughter on and
A.fter July the First the stock we have on hand. Hence, we say

VOL. I. CLANTON. ALA., THURSDAY, SEPTEMBER 15 1910. NO. 24.

Howdy Do! How Are You?

The much talked-of season of hard time and business depression has failed to arrive; the prophecies of the chronic knocker are wanting in the fulfillment and the dire misfortunes predicted by the ever present calamity howler have died in the borning. Alabama, Chilton county and Clanton, instead of going to the bow-wows, as forecasted by would-be wiseacres, has gone steadily onward upon the road of material development that leads to certain success and abundant prosperity

We are enjoying the fruits of our labors as never before; the cry of poverty is hushed throughout this heaven blessed section; on every side is heard the tuneful tones of thrift and prosperity. The frugal farmer will not have to draw upon the store house of the West for his corn supply, for the harvest within our own fields is abundant in the extreme.

The cotton producer is satisfied with the results of his labors, and the shining coin which high prices for his staple enables him to secure and jingle in his jeans not only makes a gladsome sound to his ears, but fills his heart with joyful anticipations of a happy Christmas-tide. All things conspire to make his lot a pleasant one indeed.

The Chilton county farmer is fast assuming that place in the economic relations of life which his avocation predestined him to occupy—the front rank, a leader among the advance guard. Long faces have been succeeded by smiling countenances, and mortgaged homes and farms are soon to become happy firesides and productive fields of pleasure. Hard times have been vanquished and prosperity is victorious.

Contentment, peace and plenty are knocking at every door.

We are now entering upon an era of commercial development never heretofore anticipated; a season of rich rewards for honest toil is now dawning and will soon burst with noon-day splendor upon our people.

The farmers are happy, as they should be, for Mother Earth has yielded them rich trophies for their plucking; prices are soaring amid the radiant beauty of the stars; his products are in demand as never before.

Cotton is again King and Corn is the Prince Imperial.

What more could the planter desire to make his cup of gladness overflow?

Farmers of Chilton county, we greet you as the two-fold keepers and producers of our prosperity. You are they who have produced the wealth of our county, and upon your heads we pour our praises in unstinted measure. You have earned your reward and should enjoy the fruits of your labors.

The merchant who has bought wisely and well rejoices at your success.

The cotton buyer whose heart beats in unison with your own delights in the opportunity afforded him to give you good prices for your staple; he who would withhold from you the best and highest the market affords is neither a friend to the farmer nor a wise man of business.

We want you to succeed, because in your success we also shall share.

We have bought not stingily, but well; we have purchased in keeping with your position and your desires; you want the best, therefore we supplied ourselves with the best, that we might accommodate both your taste and your demands.

Desiring to have you make our place headquarters, we have arranged to pay the very top notch for every pound of the fleecy staple brought to our store.

We want to have a hand in your prosperity; we wish to be remembered in your rejoicing.

Come to us with your samples; we will top the market on every occasion; call upon us for your wants; our large and varied stock enables us to meet your every requirement, and at prices that will make you glad for the visit.

We hate the chronic croaker; we despise the knocked and the pessimist. The old world is bright with hope, buoyant with success, happy in plenteous abundance. We want you to know that we rejoice at your season of success; you deserve it, and we hope you will enjoy it to the fullest extent.

Come to see us; your happy faces make us glad indeed.

Come whether you want to buy or sell, both or either or neither. We will be glad to greet you.

We are going to set the gait this year, and those who would keep up with us must clip it out at a merry chase.

Cordially yours,

W. KANTER & BRO.

The Cotton Buyers With the Cash. **The Merchants With the Stock.**

General News

Are You a Booster?

We clip the following item from the Advertiser of Sunday. Wonder how many of our citizens are trying to advertise their town and keep it before the people as a desirable place to live? Boosting helps; it never hurts:

"Neat Advertising of a 'Big Day.'"

"Clanton, the thrifty little capital of Chilton county, is doing a neat bit of municipal advertising. Clanton, like most live towns, believes in having 'a big day,' that is a day which will offer inducements for hundreds of visitors to come in and enjoy themselves. Clanton's 'big day' will be September 17, and the committee has evolved some new ideas in the way of advertising the occasion. Chief of these ideas is the sending out of a friendly informal invitation, as neatly and handsomely printed as wedding invitations. On handsomely embossed paper the recipient of an invitation is told: 'We are going to have a big time at Clanton, Ala., on Saturday, September 17. Won't you come? Governor O'Neal and others are coming, and we want you to come, too.' At the bottom of the invitation is written the alluring words, 'Barbecue and speaking.' An enclosed card contains the information that the chairmen of the various committees are: W. M. Adams, executive committee; W. T. Allen, campaign committee; O. E. Latham, barbecue committee; Tipton Mullins, reception committee; F. M. Wood, secretary campaign committee."

IS APPARENTLY SHORT.

C. W. Reynolds Cited to Appear in Bankruptcy Court.

An order has been issued by the Federal bankruptcy court citing C. W. Reynolds, of Clanton, Chilton county, who failed recently for an amount approximating $30,000, to show cause why he should not turn over for the benefit of his creditors $17,000 or its equivalent. The citation follows an audit of the Clanton merchant's books by C. W. Haden and Gladden Harrison, the examination of the books having been made at the request of the creditors of the bankrupt.

It is declared that the citation does not indicate that Mr. Reynolds has kept back any assets, but that the books audited indicate that he is due the amount of $17,000.

The mater was taken up by Referee Asa E. Stratton Thursday afternoon, and all testimony in the case heard. Judge Stratton declares that there is a shortage of several thousand dollars indicated, but he could not state the amount, inasmuch as he has not had time to make up his report. He will render his opinion on the matter Friday.

The bankruptcy of Mr. Reynolds has been a matter of great interest in Clanton and Chilton county for some time, and that the case is one of more than usual importance is indicated by the number of lawyers interested.—Advertiser.

A Wise Selection.

Mr. J. A. Rountree, secretary of the Alabama Good Roads Association, has just been notified of his election as a member of the board of directors of the National Good Roads Association. President A. C. Jackson in notifying him of his election writes:

"I take pleasure in informing you of your election as a member of the board of directors of the National Good Roads Association. You are quite familiar with the magnificent work accomplished by this organization in the past ten years, and I deem ourselves fortunate in securing the co-operation of one who has worked as earnestly and successfully for this great cause as yourself."

This election of Mr. Rountree is quite a compliment, as there are only twenty-five members of the board of directors, and it is composed of Governors, Senators, Congressmen, railroad presidents, leading farmers and good roads experts.

REYNOLDS MUST PAY $17,000.

Order Issued to Clanton Merchant to Turn Over to Trustees Heavy Amount Said to Be Due Creditors.

As the result of a hearing in the United States bankrupt court Thursday afternoon Referee Asa E. Stratton announced that he will issue an order directing C. W. Reynolds, a bankrupt merchant of Clanton, to turn over to the trustees something like $16,000, or its equivalent, for the benefit of his creditors. This announcement was made to attorneys in the bankrupt court Thursday.

What the effect might be if Mr. Reynolds should fail to comply with the order is a question that has caused discussion. It is intimated, however, that under former rulings of Judge Thomas G. Jones Mr. Reynolds could not be held for contempt. The formal order will be issued by Referee Stratton Saturday.

Growing out of an audit of his books and accounts by C. W. Haden and Gladden Harrison, at the request of creditors, Mr. Reynolds was cited to appear in the bankrupt court Thursday afternoon and show cause why he should not turn over the $17,000 or its equivalent for the benefit of his creditors.

The hearing came on at 3 o'clock Thursday afternoon and, in answer to the citation, Mr. Reynolds entered a denial that he has goods or money in his possession and a statement that he has delivered to the trustee all goods, moneys and accounts, and has never refused to deliver any property to the trustee.

The only evidence introduced by the creditors was the statement of the auditors, which showed a difference of about $16,000 in the amount of goods the merchant had on hand during 1910 and the amount of his sales shown by his books and the stock turned over to the trustee.

Mr. Reynolds testified that he had nothing at all except what he had turned over and at this time he has no property except his wearing apparel, which he has claimed as exempt to him under the law.

Mr. Reynolds failed recently, having filed a voluntary petition in bankruptcy. His liabilities reach near to $30,000.—Journal.

A Request.

The barbecue committee respectfully requests the ladies of Clanton and Chilton county to assist them as much as possible on next Saturday by bringing baskets. The committee have arranged for all the meats and bread necessary, but they desire to have other things as well. Kindly remember that we will probably have 3,000 people to feed Saturday, and we wish every one to have enough. Help us all you can. Respectfully,

O. E. LATHAM,
Chairman Barbecue Committee.

A Muchly Married Man.

Some days since Sheriff Catts received a letter from Sumrall, Miss., asking information about a man who was supposed to have formerly been a resident of Chilton county. The letter stated that the man in question had been married in Chilton county and six years ago deserted his wife, and in three months after deserting his lawful wife he eloped with the wife of another man, with whom he lived for about three years; then he deserted number two, returned to his old home in Sumrall and married a girl of 16, with whom he lived for three months, after which he returned to Louisiana and is again living with wife number two.

Sheriff Catts examined the records and found that the man had been married in Chilton county and had left the State for Mississippi some years ago. He sent the information to the party who requested it, and doubtless this woman deceiver is now reposing behind prison bars reflecting upon the ways of the transgressor and the penalties attached to such transgressions.

Teachers Passed.

The following Chilton county teachers successfully passed the State examination:

First Grade—Sereno G. Norton, Hercy McKenzie, Johnson; Misses Rosalie H. Moore, Alma T. Lefstead.

Second Grade—H. L. Davis, George H. Vansandt, W. B. Martin, S. M. Pate; Misses Dezzie Headley, Julia Harrish and Mary Hurtt.

Third Grade—R. H. Miner, J. H. Scott; Miss Edna Hawkins, Knoxton Marcus, Martha Jane Mims, Carrie B. Willis.

There were forty-two who undertook the examination in July. Only twenty-one of this number were passed.

GENERAL NEWS.

ALL ARRANGEMENTS COMPLETED.

The Barbecue and Speaking to Be a Big Affair.

The barbecue committee which has in charge the arrangements for the big Democratic celebration have been untiring in their efforts to make next Saturday the biggest day that Clanton has ever had. They have worked unceasingly and untiringly, meeting every night, in order that nothing might be left undone which would tend to promote the pleasure and success of the occasion. It now rests with the Democrats of Chilton county, and particularly those of Clanton, as to whether or not the day will be one of which any community should be proud. The work of the committee has not been an easy task. There have been many details to work out, many committees to appoint and much preliminary matter to shape. To undertake to feed and entertain 3,000 or 4,000 people is a herculean task when but a few enlist in the cause, but if all who are interested will assist there will be no cause for complaint on the part of any of Clanton's guests on the 17th.

The following constitute the committees which have been appointed. It is sincerely desired by the general committee that the chairman of each committee call a meeting of his particular committee and detail each member thereof to some particular duty. Do not let the members of one committee undertake to perform the duties of other committees, otherwise the whole affair will be confused; stick to the tasks for which you have been selected and work with a hearty good will. Do not feel that the general committee has shown any favoritism in the appointment of committees. They have done the very best they could for the welfare of all concerned and have studiously avoided showing partiality in any direction. The following constitute the personnel of the several committees:

Reception Committee—Tipton Mullins, chairman; I. N. Langston, Wm. Walker, H. B. Oliver, R. L. Williams, Sr., W. Y. Keel, A. Kanter, Oliver Mullins, Dudley Smith, John Patton, J. E. Evans, Lee Hayes, Capt. J. M. Simpson, Gaines Silas, W. M. Vines, John Reynolds, W. O. Perry, Ben Franklin, N. W. Latham, Roy Fitts, Olaf Shive, J. T. Allen, W. T. Johnson, I. O. Retherford, Harry Kanjutsky, E. T. Gullahorn, Harmon Headley, F. M. Connell, S. L. Arledge, Crawford Hayes, M. C. Broadhead, W. Y. Atchison, R. M. Honeycutt, M. P. Mills, S. A. Curry, John Edwards, W. E. Parrish, T. W. Wilson, D. W. Killingsworth, W. D. Nix, W. H. Foshee, W. C. Dickinson, Jesse A. Culp, R. J. Maham, W. O. Durbin, E. Robinson, Sr., Monroe Parrish, J. A. Mitchell, R. O. Headley.

Committee on Order—E. A. Matthews, chairman; J. S. Catts, Ed Smitherman, J. M. Morgan, J. P. Gore, John Thompson, J. D. Cooper, J. Q. Wade, J. W. Carwile, T. M. Pyron, P. M. Moore, J. W. E. Gulledge, H. F. Chandler, W. W. Langley.

Committee on Dinner—P. D. Wilson, chairman; W. A. Kemp, C. R. Mullins, J. A. Maddox, B. F. Higgins, Jeff Ruffin, B. McKee, W. E. Maddox, J. L. Lowe, W. H. Wright, H. T. Pipes, N. A. Kicker, J. M. Parrish, W. J. Duke, Frank Parmer.

Committee on Information—C. F. Jones, chairman; W. T. Callen, W. D. Spigener, E. Hopkins, J. M. Potts, M. C. Jones, J. W. P. Murphy, C. F. Jones, E. M. Pinckard, W. I. Mullins.

Committee on Barbecue—O. E. Latham, chairman; B. E. Jones, W. F. Teel, R. F. Atkinson, W. H. Sartor, O. O. Roper, J. H. Vines, Wiley Ramsey, M. A. Gore, O. S. Davis, W. M. McDaniel, G. W. Willis, S. E. Bruce, P. T. Hinkle.

Entertainment Committee—F. M. Wood, Guy Higgins, W. W. Monroe, S. M. Adams, J. H. Middleton, J. C. Jones, J. B. Hicks, J. A. Thomas, Rev. F. M. Woods, Rev. Rev. R. J. Mills, J. A. Hester, Samuel Scott, J. W. Stanfield, J. P. VanDerveer, Frank Crichton, E. H. Parris, P. C. Dennis.

Ladies' Entertainment Committee—Mrs. Guy Higgins, chairman; Mrs. S. C. Matthews, Mrs. J. Watts Moore, Mrs. Tipton Mullins, Mrs. Ed Smitherman, Miss Nell Mullins, Mrs. W. H. Sartor, Mrs. W. M. Adams, Mrs. T. A. Curry, Miss Estella Morgan, Mrs. W. W. Monroe, Mrs. P. I. Hopkins, Mrs. J. C. Jones, Mrs. H. M. Simpson, Miss Bettie Mullins, Mrs. J. R. Mullins.

This constitutes all the committees so far appointed. There may arise necessity for others which the committee have not yet appointed, but it is earnestly requested of every citizen that each one exert himself or herself to make the other fellow have a good time. By all means let order be preserved; let's be on good behavior that day and impress our visitors with the fact that we are not only hospitable, but chivalrous.

Vistors will begin to arrive early. Let those whose duty it is to look after the stranger within our gates be on hand early, so that every one shall receive a cordial welcome.

It's a Democratic day, but let's make our Republican friends understand that they are not only welcome, but that every courtesy shall be accorded them. Don't be ashamed of your party, but by no means reflect upon your party hospitality by acting discourteously to those of another political faith.

Now, let's ALL pull together to make Saturday, the 17th, the biggest day that Clanton and Chilton county have ever had.

Committeemen will be furnished with badges; wear them.

Mysterious Kidnapping.

Some days since a man came into Clanton with a little girl whom he claimed as his daughter. The child seemed to be 6 or 7 years of age, but had the manners and intelligence of a much older child. She was of a loving disposition and seemed to think much of her so-called father, but the father was not so affectionately inclined. He sought to "give her away" or to put her in some home—in other words, to rid himself of the child, but at the same time he appeared anxious to provide a good home for her. He stated that he was a dope fiend, and that his wife and he did not agree; consequently he had stolen the child away and "taken to the road." Sheriff Catts did not like the story which the man put up and so confined him in the county jail. The child willingly went to the jail also, not being desirous of leaving her companion. Since then they have remained in jail. All attempts to get the child to talk have been unavailing. She goes just so far and will go no further in her conversation.

The following clipping, taken from an Atlanta paper, may throw some light upon the subject:

"Princeton, Ky., Aug. 31.—Robbed of his wife by death and of his only child by kidnappers, Texie Allison, a prosperous farmer, has returned home after a vain search through six Southern States.

"Little Gladys Allison was abducted while returning from the funeral of her mother, three weeks ago, at Shreveport, La., and since then her father has been unable to find a single trace of the child's whereabouts.

"He is not a rich man and does not believe the little girl was taken in the hope of securing a reward, and besides, the kidnappers have given him no chance to pay a ransom.

"The Shreveport authorities have been unable to secure the slightest clew, and the affair is as much a mystery as on the day of the disappearance."

Anyway Sheriff Catts immediately communicated with the Kentucky and Louisiana authorities, and on Tuesday morning received a telegram asking that the man and child be held till the supposed real father could reach here from Princeton. Later on in the day he receive a telephone message stating that the father was on his way to Clanton and that he had no doubt but that the child in the county jail was the same little Gladys Allison who was stolen from the father while attending the funeral of his wife.

Just what mystery the episode will unsolve is yet to be seen.

A Change of Date.

The editor received the following note, which is published for the information of all interested parties:

"Please announce in the columns of your paper that the Invincible Literary Society will meet on the fourth Saturday instead of the third. We are going to have an interesting program, and everybody is invited."

A CARD FROM MR. MAHAN.

Permit me, please, to express to the Democrats of Chilton county my deep appreciation of the honor which has been conferred upon me in making me the Democracy's candidate for the legislature.

I realize fully that there is a task before me, but I enter the field not only confident of ultimate success, but with the full determination that upon assuming my oath as the representative from this county, I shall become the representative not of a class or clique, but of the whole people. My best efforts shall be directed toward securing for our county the adoption of such laws as will be of benefit to the greatest number.

When I go to Montgomery I wish every citizen of the county to feel at perfect liberty to call upon me for any kindness or favor I am able to bestow. I shall take pleasure in looking after the interests of my county, and shall feel a personal pride in assisting in the enactment of such laws as will have a tendency to better our conditions.

The time has come when Chilton county needs a representative in the State House who will look after the interests of our county and who can secure much needed legislation. To this task I have set myself, and I respectfully request the hearty support and co-operation of all who wish to see our home county assuming its place among the counties of the State—a place to which, by reason of her location and her wealth and her productiveness, she is entitled.

I pledge to our people the very best efforts of my life in securing for them the enactment of such laws as will redound to their material and commercial happiness.

With renewed expressions of my appreciation, I beg to be, very cordially, your coming representative,

J. A. MAHAN.

Clanton, Ala.

SCHOOL DAYS! SCHOOL DAYS!

The Clanton Academy opened on Wednesday morning under most auspicious circumstances. The number of scholars enrolled was larger than any previous year for the first day's enrollment, and many pupils are expected to come in during the week, which will swell the number considerably over last year's figures. Prof. Monroe has been extremely fortunate in the selection of his corps of assistants. The only ones of the old faculty who returned this year are Misses Stanley and Lawrence; two other young ladies have been added to the faculty this year—Miss Florence, who will have charge of the fourth and fifth grades, and Miss Crow, who will teach elocution. This gives a teaching force of five, or one more than the Academy has ever had before.

Prof. Monroe has shown great interest in the schools of Clanton. He has surrounded himself with an able body of teachers, and should receive the unstinted support and encouragement of every citizen in his most worthy undertaking.

The Summer Race Concluded.

The Press man has been as busy as a bee in a tar bucket for ten days. Once or twice he has succeeded in getting to dinner, but he has missed more dinners than he has had. He works late into the night and begins early in the morning. These remarks are made to explain why the winners in the summer race are not announced in this issue. The contest is closed in so far as the special prizes are concerned, but do NOT get the idea that the PIANO contest is closed—it is just beginning good.

If you wish to know who has won the special prizes get your paper of July 14th and figure them out from the standing announced in this issue. It is an easy matter, but we have not had the time to get to it this week. We wanted to make the announcement, and worked late into the night hoping to do so, but failed in our endeavor. The figures are given, however, and there can be no "juggling," so don't think we have delayed in order to change results. Figure it out yourself this week, or wait till next week, and we will announce the winners in box-car letters and figures.

Fifteen Jews Expelled Daily.

Kieff.—Official figures published show that an average of fifteen Jews a day are being expelled from Kieff. From July 30 to August 29 in all 794 persons were driven out of the city and 336 from Solomenka and Damieffka suburbs.

The Youngest Bride.

Pine, La.—Ruth Harding, of Bogalusa, La., is perhaps the youngest bride on record. She is 11 years old, it is stated, and was married to William Breland, aged 19 years.

You Often Hear People Say of a Man

"He has money in the bank," and the people speak of him with respect as one who is getting along in the world

It's a good thing for your standing to have money in a bank, and it is easier than you think, especially as the

Clanton Bank

One of the finest bodies of land in Chilton county. Two hundred acres. Two miles west of Clanton on the Clanton and Thorsby road. One hundred and sixty acres cleared land, the balance well stocked, with wood. Four good tenement houses in thorough repair. There is no better in the entire county so well watered as is this place. An ideal home for a thrifty farmer who wants to get rich. Fine pasturage. Will sell on time to suit purchasers in tracts of not less than forty acres. This place must be sold. Such an opportunity will not again be presented to you. You'd better snap at this chance. For terms and further particulars call on T. C. MAHAN.
tf

A problem at this season of the year is how to get away from it all. Any resort without facilities for entertaining

Clanton High School,

CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin on Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure first grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

Many Farmers

would like to keep an account of their receipts and expenditures if some one would keep it for them.

Open a Bank Account with the People's Savings Bank and you will find the account keeps itself, with no expense.

Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts. Many of Your Friends and neighbors have accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It's a handy convenience to the farmer as well as the business man.

AFTER DOCTORS FAILED

Lydia E. Pinkham's Vegetable Compound Cured Her

Knoxville, Iowa.—"I suffered with pains low down in my right side for a year or more and was so weak and nervous that I could not do my work. I wrote to Mrs. Pinkham and took Lydia E. Pinkham's Vegetable Compound and Liver Pills, and am glad to say that your medicines and kind letters of directions have done more for me than anything else and I had the best physicians here. I can do my work and rest well at night. I believe there is nothing like the Pinkham remedies."—Mrs. CLARA FRANES, R. F. D., No. 3, Knoxville, Iowa.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

For thirty years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills, and suffering women owe it to themselves to at least give this medicine a trial. Proof is abundant that it has cured thousands of others, and why should it not cure you?

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

STRANGE.

"Is the proprietor in? I want to get some screen doors."

"He's in, but he's out o' doors."

"The Wish Is Father to the Thought."

Dr. Robert L. Waggoner, the president of Baldwin university, said, in the course of an address on pedagogy at Berea, O.:

"And one of the most remarkable changes in the last 30 years of teaching is the abolition of corporal punishment. A boy of this generation is never whipped. But a boy of the last generation—well!"

Doctor Waggoner smiled.

"The boys of the last generation," he said, "must have believed that their instructors all had for motto:

"'The swish is father to the taught.'"

Not Impregnable.

Horace Avery, K. C., just appointed a judge, is one of the mordant wits of the British bar. One day, cross-examining a recalcitrant witness, he asked:

"What are you?"

"A retired gentleman," proudly asserted the ex-cheesemonger.

"Well," snarled Avery, "when you achieved the position of gentleman, why did you retire from it?"

A Business Transaction.

"So Mr. Penniwise married his typist!" said Miss Cayenne.

"Yes."

"I wonder whether she gains an allowance or he merely saves a salary?"—Washington Star.

Cooper, Beat 10—Nov. 5.
Clanton, Beat 4—Oct. 1 to 8 and Nov. 7 to Dec. 31, 1910.

Take notice that under the new law we can only make one round. If, for any reason, you do not meet us on that round, you may pay or assess at our office at the Court House at any time before January 31, 1911. After December 31, 1910, all taxes and assessments become delinquent.

J. N. DENNIS,
Tax Collector.
L. B. POUNDS,
Tax Assessor.

tf

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Company in favor of West Stegall Grain & Milling Co. out of the goods, chattels, lands and tenements of the said Parsons Lumber Company, I have levied on the following property, to-wit:

About fifteen miles of railroad, extending from mill of Parsons Lumber Company to mill on the Coosa river, to Coopers Station, and from said mill into the forest, together with four locomotives, engines, and eighteen logging cars, together with all sidetracks, turn-outs, switches, tools and equipment pertaining thereto, the same being all the railroad and railroad equipments owned by the Parsons Lumber Company; and also together with the rights of way of said railroad as now located, extending over the lands of the following persons, to-wit: Miss Phila Cooper, J. C. Gibson, Mrs. M. J. Baldwin, Clifford A. Gullahorn et als., E. T. Gullahorn, B. T. Calloway, M. J. Thomas et als, F. M. Connell, Jr., F. M. Connell, Sr., F. A. Gulledge, J. D. Hand, W. A. Collier, Virginia A. Ternan, S. A. E. Patillo and A. L. Patillo, all of said lands being located in Chilton county, Alabama; also the saw mill plant on the Coosa river, including engines, boilers, machines, machinery, saws, chains, together with all tools and equipments pertaining thereto; also planing mill plant, including three planers, engines, boilers and chains, together with all tools and equipments pertaining thereto; also two dry kilns, including boilers, pipes, carriages, trackage and all tools and equipments pertaining thereto; also the blacksmith shop at the mill, including all material on hand, together with all tools and equipments pertaining thereto; also the river equipments on the Coosa river, such as launches, boats, skiffs, booms, both stationary and moveable, cables, chains, dogs ramps, etc.; also all office and commissary fixtures, office stationery and office supplies; also about fifteen teams of oxen, together with drays, chain and all logging equipments, such as axes, saws and three mules; also the following described real estate in Chilton county, Alabama, to-wit:

E. 1-2 of S. E. 1-4 of section 9, thirty-eight acres of the west side of that fractional part of section 10 lying west of the Coosa river, more particularly described as follows: Beginning at the southwest corner of said section 10, and running thence east one-quarter of a mile, thence due north to the margin of the Coosa river, thence in a northerly direction along said river to the west line of said section 10, and thence south to the point of beginning; and the north 1-2 of section 16, all in township 21, range 16 east; and the S. W. 1-4 of section 28; N. 1-2 of section 22, township 22, range 16 east; also the following described lands in Chilton county, Alabama, the mineral rights in which have been reserved, to-wit: S. E. 1-4 of N. W. 1-4; W. 1-2 of S. E. 1-4; S. W. 1-4 of section 9; N. E. 1-4 of S. E. 1-4 of N. W. 1-4 and S. 1-2 of S. E. 1-4 section 17; S. 1-2 of S. E. 1-4 of section 18; N. E. 1-4 of N. W. 1-4, section 19, all in township 21, range 16 east.

This levy is made subject to a certain deed of trust executed by the Parsons Lumber Company on the 15th day of June, 1909, to Louis B. Farley, as trustee, which deed of trust is recorded in Mortgage Record 101, page 107, in the office of the Judge of Probate of Chilton county, Alabama.

Therefore, according to said command, I shall expose for sale at public auction, to the highest bidder for cash, all the right, title and interest of the above named Parsons Lumber Company in and to the above described property on Monday, the 3rd day of October, 1910, during the legal hours of sale at the court house door in Clanton, Chilton county, Alabama.

Dated at Clanton, Alabama, this, the 3rd day of September, 1910.

JOHN S. CATTS,
Sheriff of Chilton County, Alabama.
sep8-4t

Such an epidemic taste for unsweetened drinks and delicacies is reported in New York as to have caused a drop in the price of sugar.

Hobble, hobble, skirts and trouble.

Every hat is a "picture hat" nowadays.

Prunes are higher. Telephone your landlady.

What has become of the old-fashioned man who wore a double-breasted vest?

Dynamite may help, but tennis matches are the only reliable cure for droughts.

Volcanoes in Alaska are spouting fire. Very likely the janitor is trying out the flues.

Carrier pigeons will have to equip themselves with electric motors or fall hopelessly behind.

Radical changes are announced in the new football rules. There will be no hitting in the clinches.

Newport is said to be crazy over a barefoot dance. This means more work for the chiropodists.

By playing tennis on a hot afternoon a fat man learns to despise mere rain as a producer of moisture.

Up in Maine an automobile ran into a simple-minded bear. That was getting art and nature badly mixed.

Duke Franz Joseph says he is in this country after bear, and not a bride. Nevertheless, he may get his eye on a dear.

In Porto Rico oysters grow on trees. That is very well, but unfortunately tabasco sauce does not grow on the same limb.

Germany is going to make laws governing aviators. However, it is already a capital offense to fall 500 feet with an aeroplane.

It has been proved that a Vassar girl is not afraid of an aeroplane. Still, an aeroplane does not in the least resemble a mouse.

Remember, while copiously watering your lawn, that many a faucet on the second floor is hoarsely muttering, "How dry I am!"

Remarks a woman writer: "The work of personal beautifying resembles that of a house decorator." In respect to calcimine?

Chicago will be a good place for holding the world's brewers' congress, as the turnup streets have given a great impetus to the hop industry.

In some ways the preacher who looks for baseball in heaven is most conservative. When the home team wins baseball is heaven to the fan.

A new highball which costs $1.20 is being sold in New York. Some of the sons of Pittsburg millionaires must be spending the summer in New York.

"There's no safe and sane way to fall out of an aeroplane," remarks the Toledo Blade. Pooh! There is no safe and sane way to fall out of bed.

Aviators are to hurl dummy bombs at dummy war vessels at Garden City, N. J., and then maybe peace will find it easier to spread her dove-like wings.

Some enterprising correspondent should now uncover a fleet of Japanese gunships ready to spread devastation over the shark-infested waters of the Pacific.

PIMPLES

"I tried all kinds of blood remedies which failed to do me any good, but I have found the right thing at last. My face was full of pimples and black-heads. After taking Cascarets they all left. I am continuing the use of them and recommending them to my friends. I feel fine when I rise in the morning. Hope to have a chance to recommend Cascarets." Fred C. Witten, 76 Elm St., Newark, N. J.

Pleasant, Palatable, Potent, Taste Good. Do Good. Never Sicken, Weaken or Gripe. 10c, 25c, 50c. Never sold in bulk. The genuine tablet stamped C C C. Guaranteed to cure or your money back. 922

INDEED, THEY DO.

"I always try to be a gentleman."

"Some people have pretty hard trials, don't they?"

Unfair.

Senator John H. Bankhead, discussing a political move, said with a smile:

"Oh, it's too coldly calculated. It's almost unfair. In fact, it's like Mrs. Blank.

"Mrs. Blank is a leader of Bar Harbor society. Her husband said to her, one afternoon, as she made a very elaborate toilet for a garden party that she was giving to some members of the British legation:

"'Why did you write to all our guests that this party was to be absolutely informal?'

"Mrs. Blank laughed.

"'So as to be the best-dressed woman present, of course,' she said."

Vermont Thrift.

Robert Lincoln O'Brien, editor of the Boston Transcript, is a great admirer of the thrift of the Vermonters, but thinks sometimes they carry it too far.

O'Brien was up in Vermont last summer and went to dinner with a friend who had some political aspirations. As they came in the door he heard the lady of the house say to the hired girl: "I see Mr. Jones has somebody with him for dinner. Take these two big potatoes down to the cellar and bring up three small ones."

Not That Meaning.

"The doctor said that Bill was drunk when we took the poor fellow to have his head attended to last night after he fell."

"Doctor never said anything of the kind!"

"Didn't I hear him? Said it was a jagged cut."

Remarkable Young Lady.

From a feuilleton: "Her voice was low and soft; but once again, as Janet Fenn withdrew from the room and closed the door after her, the fiendish gleam came into her odorless eyes."

If we hear any more of Janet we will let you know.—Punch.

PRESSED HARD.
Coffee's Weight on Old Age.

When prominent men realize the injurious effects of coffee and the change in health that Postum can bring, they are glad to lend their testimony for the benefit of others.

A superintendent of public schools in a Southern state says: "My mother, since her early childhood, was an inveterate coffee drinker, had been troubled with her heart for a number of years and complained of that 'weak all over' feeling and sick stomach.

"Some time ago I was making an official visit to a distant part of the country and took dinner with one of the merchants of the place. I noticed a somewhat peculiar flavor of the coffee, and asked him concerning it. He replied that it was Postum. I was so pleased with it that, after the meal was over, I bought a package to carry home with me, and had wife prepare some for the next meal; the whole family liked it so well that we discontinued coffee and used Postum entirely.

"I had really been at times very anxious concerning my mother's condition, but we noticed that after using Postum for a short time, she felt so much better than she did prior to its use, and had little trouble with her heart and no sick stomach; that the headaches were not so frequent, and her general condition much improved. This continued until she was as well and hearty as the rest of us.

"I know Postum has benefited myself and the other members of the family, but in a more marked degree in the case of my mother, as she was a victim of long standing."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human

Let's all join hands to give O'Neal and Seed, Blackmon and Stallings and all the others a royal welcome. We can do it—let's!

We forbear to comment. The picture tells the tale. It's true to life because it is taken from life. That dingy-looking one is a nephew of Booker Washington's—the other one is Jody—Jody, the want-to-be Governor! It's him and his Private Secretary, by grabs! Dispute THAT, Mr. Republican paper!

With the rock-ribbed Republican State of Maine falling into the Democratic column, as it did last Monday, the Republicans are thoroughly alarmed.

We promised this week to use a few hickory sprouts on a certain candidate for mud slinging, but since he is under the weather we will let him rest till his recovery is assured; then we'll administer that flogging.

Clanton's big day is next Saturday. If you have not already prepared to come and enjoy a feast of good things get ready now.

We want our Republican friends to come to Clanton Saturday and feast with us and to listen to sound Democratic doctrine. 'Twill do you good. Come and bring the children and the old lady.

The way things are now going Vermont and New Hampshire are liable to turn turtle and land with the Democrats. Republicanism has had its day, and the people are determined that it shall be forever buried.

The people over in Shelby have determined that their county shall have a clean administration; hence they are going to elect Democrats to office this year. Longshore and his gang of henchmen are going to be sent up Salt river for a life time sentence.

Alabama lost by death two of her distinguished sons last week when Wm. C. Oates and Frank O'Brien laid down in endless sleep.

When the State of Maine goes Democratic, as she did last Monday, it means that there is something decidedly offensive up the brook, politically speaking. It's that way down here, too. People are opening their eyes as never before and are beginning to take notice.

The waterworks system is not dead, but sleeping. Some day when Clanton suffers from a terrible fire and much property is wiped out because of the inactivity of her citizens, then they will awake to a realization of the importance of doing something.

Some people learn to close the door after the horse has escaped, but when they do learn they have learned well.

It's difficult to make people believe that an ounce of prevention is worth a pound of cure—but they finally

Be on your good behavior next Saturday, boys; if there's any disorder or ugliness let it be the other fellow—not you.

The unanimity of the Democratic forces of Chilton county was never better demonstrated than last Saturday at the court house when they assembled for the purpose of nominating a candidate to go to Montgomery to represent the people. It was merely a selection of a man to go—for, of course, our man is going this time—but the way in which they went at it argues well for Democracy this year. Though there were several names put in nomination, each and every one of the unsuccessful ones bowed with grace and kindliness to the nominee and pledged him their enthusiastic support. It was a veritable love feast—a gathering of men who had determined to put an end to ring rule; an association of men who have grown intolerably tired of the way things have been handled in Chilton for the past few years. The nomination of Archie Mahan portends victory for the Democracy. It means that Chilton will once again be represented in the hall of our legislature; it means that we will no longer be at the mercy of the Main Pin, who has heretofore selected such as suited him without regard to the wishes of the people.

It means that Chilton will have a representative who can secure wholesome legislation for the county, and whose voice will be heard in behalf of all the people. It means that the Easy Boss is going to be relegated to the rear and sent off on a trip up Salt creek. It means that he may be able to fasten committeemen upon his own party to suit his particular whims, but that the people are alive to that little game of personal politics, and will put an end to it. All in all, things are looking exceedingly rosy for Deason and Jones and Simpson and Curry and Mahan. All in all, they are looking exceedingly gloomy for Reynolds and Foshee and Foshee and Reynolds and Reynolds and Foshee and Reynolds—Me and Mine, Us and Ourn.

Ain't got that Deputy Marshalship for me yet, has yer, Boss?

Nope; yer see me brudder is thinking about runnin' now, and I'll have ter sort er go a leetle slow, but I'il get it fer yer—after the election. Yer just go on seein' the boys fer me, and I'll land de job all rite; Me and My committee is er powerful lot—We is!

Me brudder won't run long, yer know, and t'ain't long now till de election. When dat's over yer can have a piece of pie crust. Jest keep rallin' de boys fer de Big Injun—dat's all yer got ter do.

And he keeps on!

The prospects for a double-header fight between the Republicans in Chilton grows apace. It is intimated that one of Chilton's worthy sons is to be named as a candidate for State Superintendent of Education. Of course, there is no possible chance for him to win; but we are glad to see that honest [illegible] recognized

No, it's a mistake. That house has not been rented in Tuscaloosa—yet. The moving will not take place until after the November election.

We feel sorry for the political weakling who hasn't the nerve to take a stand for either one party or another. That, however, is his privilege. But when it comes to a newspaper whose editor is afraid to give utterance to an expression for fear he will lose a little patronage, or who places his columns at the disposal of the highest bidder, who changes with every wind and then sulks because he is not given places of honor and preferment, our contempt swells like a Texas cyclone. Come down off the fence. Be something — SOMETHING! Don't try to run with the hares and hold with the hounds.

Now let it be distinctly understood that every Democrat, Republican and Socialist in Chilton county is invited to the Democratic feast next Saturday. While it is a Democratic love feast, given by Democrats, we want all of every political faith to be present. A hearty welcome awaits each one. We believe that a little sound Democratic doctrine, such as will be delivered that day, will be a wholesome tonic for all of our people. We recognize the fact that our people have been thoroughly deceived in former years by political charlatans who had their own personal ambitions to gratify and who sought to elevate themselves by playing upon the prejudice and ignorance of our people. The Democratic party is not afraid to come out in the open, to measure lances with its opponents, to state the facts as they really exist, to tell the truth about all things and to leave the results with the honest yeomanry of the county. We do not wish to secure office by deceit, by treachery, by falsifying or by keeping back from the people those things which they are entitled to know. Come out and hear O'Neal, Stallings, Blackmon and Mangum. Listen to them and others as they expound doctrines of government for the people, by the people and of the people, as against that system which has heretofore been in operation in Chilton—the system of government by Big Injun, for His Nibs and of the King Bee.

New Class Formed.

Last Sunday at the Methodist Sunday school a Baraca class was formed, with Mr. T. G. Mackey as president and Mr. Jake Shepherd as secretary and treasurer. The selection of a teacher was deferred till next Sunday. Those who were present at the organization of the class report that they met with great encouragement. They expect to have a class of at least twenty before the end of September.

A Prompt Settlement.

Mr. Jeff Ruffin, local secretary of the Woodmen of the World, was in The Press office Monday morning and showed us a check payable to Mrs. Ben Teel in full settlement of the policy of insurance held by her late husband in that order. It has been but seventeen days since the death of Mr. Teel, and the promptness with which the Woodmen made their settlement speaks volumes for the value of an insurance policy in that order.

We always feel sorry for a man who has to act as chaperone to a poodle dog.

Now is the time to buy your Syrup Barrels, Kegs and Jugs while we have a full stock.

The prices are right, and the goods the best to be had on the market.

GAMBLE HARDWARE CO.

A New Store for Clanton

T. G. Mackey & Son, of Birmingham, have opened a new stock of merchandise in the store formerly occupied by M. F. Cannon & Sons. The new stock consists of shoes, dry goods and gents furnishings.

A remnant of the stock of Cannon & Sons, consisting of plows, plow points, horse collars and harness will be disposed of at wholesale cost to make room for the other new merchandise which is daily arriving.

Our goods are right; our prices are right.

We solicit a share of your patronage guaranteeing you fair treatment, a square deal and uniform courtesy.

Mr. Jake Shepherd will be found behind the counters of the new firm to greet his friends.

Call, inspect and get our prices.

Yours anxious to please,

T. G. MACKEY & SON,

CLANTON, ALABAMA.

JEMISON.

The Jemison High School threw its doors to the children Monmorning. We are looking forto a most successful term this Only two teachers have been ployed this year—Prof. Jack Hicks, Centerville, and Miss Ola Mabry, Alexander City. Both are teachers high standing and ability. The rons of the school very wisely atded the opening exercises in order they might become acquainted the teachers and their plans. en patrons of a school realize the t importance of co-operating with teachers in the training of the ls, then will the best possible reto be obtained.

rs. Dr. McCloud and little daughPauline, who have been visiting mother, Mrs. Hand, have returned their home in Bay Minette.

rs. Mattie Hand is visiting her r, Miss Mattie Hand.

s. Bandy, of Savannah, Ga., is ding several days in Jemison, her home.

iss Rosa Adams has recently reed from Atlanta.

iss Rosella Burns left Sunday for mingham, where she goes to act ne of the teachers in the Avonschool.

iss Mattie Patten is visiting relam Birmingham and Bessemer.

rs. Burns Marsh is spending a days with her parents, Mr. and W. E. Lowery.

last Tuesday afternoon Miss abeth McNeill entertained friends, dames Hand, Bandy and Mcl. Those present were: Misses elle Burns, Maline Burns Mattie en, Rosa Adams, Ida Johnson, ton Payne, Bertha Johnson, Mat Hand, Nelia Johnson, Mesdames ond, Williams, McCloud, Mattie Hand and Bandy. Miss Burns in charming manner sang several gs, to the great delight of her lisrs. Sherbet and cake were served, after a few hours the party dised.

iss Maude Killingsworth, of Dry ey, spent a few days last week her friends, Misses May and Nehnson. Miss Killingsworth also nded the teachers' institute at land.

ite a party of Jemison young le attended the ball game at rsby Saturday afternoon.

iss Mattie Hand entertained sevyoung ladies Thursday afternoon honor of her sisters and Mrs. klin, of Bay Minette.

isses Bertha and Ida Johnson, Roa and Maline Burns, Maude Kilsworth, Mamie and Nelia John-

Mrs. Williams and daughters present at the entertainment by Miss Mattie Hand. Music furnished by Miss Bertha Johnand Miss Rosella Burns, and a delightful evening was spent.

HIGHLANDS.

he Chilton County Teachers' Inte met at Highlands on the 10th t. The institute was opened by Superintendent Moore. Devotional exercises were conducted by Rev. M. F. Lett, after which a hearty welcome was given the teachers during their stay in the community, to which address Prof. Moore made an appropriate response. The regular program was taken up and the various subjects discussed by different teachers. The enrollment showed the following teachers present: William R. Baker, W. T. Bean, Bessie Durbin, R. L. Duffey, J. K. T. Daniel, H. L. Davis, Dezzie Headley, J. L. Johnson, Nelia Johnson, Maude Killingsworth, G. L. Harris, Inga Husby, C. E. Harris, Alma Lefstedd, H. R. Oden, Weston Payne, Julia Parrish, W. L. Parrish, L. A. Popwell, R. L. Popwell, F. J. Popwell, Belle Popwell, Howard Roper. Mrs. Howard Roper, J. J. Mims, B. J. Sessions, W. C. Scarborough, Leila Vincent, J. H. Williams, H. M. Williams, Clara Soberg, G. T. Dickerson, E. B. Mills, H. H. King, Rosalie Moore, Prof. J. W. Moore.

The program of Saturday's session was carried out fully. Professor Henson being assigned the educational address and being absent, Prof. J. L. Johnson filled the hour in a forceful speech. The following resolutions were read, after which the institute adjourned to meet at Fairview:

Resolved, first, That we, your committee, express the sentiments of the teachers of the county, and say that we would be greatly pleased to see more of the patrons of the school attend the institutes and hear the discussions. We further believe that this would arouse a greater interest in education.

Second, We thank our County Superintendent for his remarks upon different topics and for his courtesy to us.

Third. We thank the visitors for their presence. They have given us encouragement in our work, and we kindly ask them and others to attend our next institute.

Fourth, We earnestly urge all teachers to attend meetings of the institute and take part in the work, for in this way we give others the benefit of our experience.

Fifth, We thank the people of Highlands and of the community for their courtesy and splendid hospitality.

Respectfully submitted,
HOWARD ROPER,
G. R. VANZANDT,
ALMA T. LEFSTEDT.
NELIA JOHNSON, Secretary.

THORSBY.

A town meeting was held on last Tuesday evening, at which Mr. I. Bice was nominated for re-election as mayor, and five aldermen and school directors were nominated. The town election will be held next Monday.

Mrs. Hawthorn left last Saturday for Los Angeles to visit her daughter, who is sick with fever.

Miss Inez Duggins, of Southern Alabama, is visiting her aunt, Mrs. Hawthorn.

The protracted meeting held at the Baptist church closed last Thursday evening after a series of most interesting and instructive sermons by the pastor, Rev. S. M. Adams, and Rev. F. M. Woods at Clanton. There were five accessions to the church.

The Thorsby baseball team on last Saturday defeated the Mulberry team in a slugging match, the score standing 14 to 13. The game was well attended by our Thorsby fans, who would like to see the Mulberry boys return. Batteries: Thorsby, Mims and Bean, Howard, Shaw and Martin; Mulberry, Williams and Headley.

A Socialist meeting was held at the Institute Hall Friday evening. Owing to the inclement weather, the attendance was not large.

Everybody is going to the speaking and barbecue Saturday, provided the weather is favorable.

MAPLESVILLE.

The meeting at the Baptist church was closed with thirty additions to the church, and there were fifteen baptisms.

Rev. W. J. Simmons, pastor of the Methodist church, occupied the Baptist pulpit Sunday last, preaching two excellent sermons.

Sheriff Catts was a visitor to Maplesville last week, and during his visit rounded up several of the loafing negroes of the town.

A building boom has struck Maplesville in dead earnest, and there is much active demand for building materials. A new postoffice is soon to be erected, as are also two other buildings of similar character. Drs. Tucker and Potts are preparing to build a nice brick drug store, with waiting and operating rooms. The building will be a two-story brick. Dr. Nix is also preparing to erect a two-story brick building, the lower floor of which is to be used for mercantile purposes, while the upper floor is to be fitted for offices.

We understand from good authority that some of our town property has changed hands recently, which brought a price of $2,700 per acre.

We have not yet learned who composed the Maplesville Social Club, but we do not want the impression to go out that the membership is composed of the better class of our citizens, for they are as heartily opposed to such institutions as the moral people of any other community.

Miss Jessie Mae Morris has been visiting friends in Selma for the last week.

Miss Brand, of Randolph, is visiting Miss Isabelle Saportas.

Messrs. Perry and Waler, who were struck by lightning last week, have entirely recovered from their shock.

Dr. J. L. Kincaid, who has been severely ill with typhoid fever, is now working for Dr. Parnell for a while.

Mr. Robert Lapsley, of Selma, has been visiting our town this week.

Miss Mary Goodson is visiting Miss Mary Potts this week.

Misses Nix and Cost, accompanied by their brothers, were here on last Thursday.

Miss Vivien Abrams left last Tuesday for her home, after a most pleasant visit to her cousins, Misses Samples.

Mr. Seaborne Wilkins leaves this week for Centerville, where he will spend the session of the high school.

LOCAL AND PERSONAL.

Mr. Archie Mahan, the next representative from Chilton county, went down to Mobile on a business trip last Monday. He returned in time for the Big Day.

The best, coldest ice cream in Clanton at Upchurch Drug Co.'s. tf

Miss Florence, of Tuskegee, one of the new teachers at Clanton Academy, arrived Tuesday morning, and will assume her duties today. She is boarding with Mr. and Mrs. W. M. Adams.

Your money's worth or your money back at Upchurch Drug Co.'s. tf

Mrs. R. E. Luckie returned Tuesday from a visit to her parents at Montgomery.

Mr. Harry Gordon left Tuesday on a business trip. He promises to be back in time for the Big Day.

You will feel cool the moment you get before our fountain. Alred Drug Co., the home of quality. 2t

The man with the patent churn has arrived. He churns fresh milk and secures results.

If it comes from Upchurch Drug Co.'s it's all right; if not, take it back and get your money. tf

Miss Lilla Thornton, of Mountain Creek, one of the cleverest little women in the world, was in Clanton last Tuesday, having come down to make purchases of Clanton's big stores.

Hey, did you buy that of Upchurch Drug Company? If so, you need no other guarantee. tf

Professor and Mrs. Skinner's little William arrived last week, and are ready for a year of strenuous work at the Academy this year. The professor's bronzed face shows that he has had an enjoyable vacation.

Miss Ada Stanley, whom every one in Clanton loves, arrived Tuesday night from her home at Berry to resume her duties at the Academy. She will be with Mrs. Mollie Hannon again this year.

Miss Louise Sharpe, of Montgomry, is visiting her friend, Miss Bessie Frazer.

Don't forget to visit Higgins, the up-to-date Jeweler and Eye Man, when you come to town next Saturday. tf

Miss Mattie Collins, of Birmingham, has accepted a position in the office of the probate judge.

The following marriage licenses have been issued this week: Mr. W. E. Skipper and Mrs. Malissa Scott, Mr. T. S. Ray and Miss Rosana Martin.

Mrs. Alice Middleton, of Houston Tex., is on a visit to the home of Capt. W. A. Middleton.

Last Thursday Sheriff Catts captured a negro murderer over about Maplesville, who has been wanted in Autauga county for five or six years. He notified the authorities of his capture, and they sent for the negro.

As we expected there would be, some misunderstanding has arisen about the summer race. We made an honest endeavor to explain the conditions of the contest, and thought we had made it so plain that no one would be led into error. Get out your paper of July 14 and read it carefully before you find fault with the editor.

In this issue appears a nice card from Mr. Mahan thanking his friends for the honor bestowed upon him and requesting that they assist him in his efforts to secure for Chilton county the enactment of beneficent laws. Mr. Mahan's letter has the true ring about it, and we sincerely hope that every true Democrat will stand to him.

Mrs. A. W. Middleton is visiting friends and relatives in South Alabama.

We are requested to call the attention of the ladies of the Cemetery Association to the fact that there is to be a meeting of the association on the first Monday in October, and to ask that each committee be ready with a full report.

Rev. and Mrs. F. M. Woods have gone to Blocton for a visit to their daughter. They will be away for some days.

FOR SALE.

223 acres of land; 65 acres under cultivation; 60 acres in pasture, with running water the entire year. All land practically level.

One good six-room, new dwelling house and out buildings.

An ideal place for stock raising.

On Clanton and Maplesville road, ten miles west of Clanton.

Aply to A. S. JONES,
tf Clanton, R. F. D. No. 7.

NOTICE.

Those desiring to pay any amount on account to Dr. J. P. Hayes during his illness will please call on Hugh Jones at Pinckard's store, who is authorized to receive the money and issue receipt therefor. Respectfully,
tf DR. J. P. HAYES.

WANTED—SACKS.

Will pay 2 1-2 cents each for cotton seed hull sacks, oat sacks or any other kind of sacks that are large enough to ship ice in.

CLANTON BOTTLING WORKS
tf

ORDER OF PUBLICATION.

The State of Alabama, Chilton County—Chancery Court—Seventh District—In Vacation Term, 1910—Walter Woods, Complainant, vs. Ella Gunn Woods, Defendant.

In this cause it is made to appear to the Register by the affidavit on file of John W. Lapsley, solicitor for complainant, that the defendant, Ella Gunn Woods, is a non-resident of the State of Alabama, and resides in the State of Florida, place unknown to affiant, and further that, in the belief of said affiant, the defendant, Ella Gunn Woods, is over the age of twenty-one years.

It is therefore ordered by the Register that publication be made in The Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring her, the said Ella Gunn Woods, to answer, plead or demur to the bill of complaint in the above cause on or before the 7th day of October, 1910, and failing so to do within thirty days after the service of the summons a decree pro confesso may be taken against her in said cause.

Witness my hand this 9th day of September, 1910.

W. M. SIMPSON,
Register in Chancery.

The Calera Bakery

LOOKED AT FROM ANY ANGLE

FRED KAUFFMANN

MADE TO MEASURE GARMENTS

ARE THE MOST PERFECT UNDER THE SUN

Several million people know the fine made-to-measure clothing for men made by *Fred Kauffmann*, Chicago.

This tailoring organization has built up the greatest made-to-measure business of the country, running into so many million dollars that you'd use up thumbs and fingers tallying it off.

This vast business has been won—and is being held—by carefulness. Their designers get larger salaries than the members of Taft's Cabinet; their buyers of cloth are national experts; their standard for cloth, at our suggestion, is absolutely all-wool.

***Fred Kauffmann* secured us as representatives with the determination of making *Kauffmann* tailoring as standard in this vicinity as are Elgin or Waltham watches.**

Tailoring that is guaranteed by seven simple words, namely: YOUR MONEY BACK UNLESS WE PLEASE YOU. This guarantee is backed by the mill, the maker and us.

Kauffmann* has sent us a message: *"We'd like to spend some money to further entrench our tailoring. What would you suggest?"

Our answer was: *"Spend it by giving us a reduction that will capture the town."*

The best way to win trade for *Fred Kauffmann* tailoring is to get it on men's backs. It will win their permanent friendship, and so we will take your measurement for made-to-your-personal-order garments at prices which have never before been quoted for *Fred Kauffmann* tailoring, namely:

COATS & TROUSERS to Measure	SUITS to Measure	OVERCOATS to Measure
From $12.00 Up	From $13.50 Up	From $13.50 Up

JOHN W. ABERCROMBIE, PRESIDENT, UNIVERSITY, ALA.

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name our favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds. It's up to you. Will you work?

Contest Closes Monday, Noon, December 5th, 1910.

SECTS DETRIMENT TO NATURAL FOREST GROWTH

...ge Done by Causing Failure of Many Nuts to Germinate Makes the Group an Important One From Economic Standpoint.

...ED S. BROOKS, Associate Ento-...ist, West Virginia University Ag-...ultural Experiment Station.)

...e forests of West Virginia are ...h in native nut-bearing trees and ...s. At least twenty-seven species ...found that bear nuts which are ...as food by man or by the animals ...are of value to man. The nut-...ing trees furnish also the bulk ...rdwood timber that is produced ...e state.

...h the probable exception of the ...tnut, all the more common varie-...of nuts, and, presumably, those ...are less common as well, are at-...ed by the larvae, or grubs, of over ...en different species of snout ... Some of these larvae feed ...e husks and inner tissues of im-...re nuts and others on the ker-...of nuts that are more nearly ... Young walnuts and hickorynuts ...quently attacked soon after the ...ers fall from the trees and the ...ed nuts drop to the ground be-...they are half grown. Chestnuts, ...e and some other varieties sus-...the greatest injury as they ap-...h maturity. It is not unusual ...chestnuts that are kept a week or ...after gathering to become from 50 ...ent. to 75 per cent. "wormy" and ...e often suffer to even a greater ... The infested nuts are ren-...unfit for food and in many cases ...so badly eaten that they will not ...minate when planted.

...e injury which these insects do to ...luable article of food and their ...t detriment to natural forest de-...ment, in causing the failure of ...y nuts to germinate, make the ...up an important one from an eco-...ic standpoint.

...uts are attacked by a great va-...of insects, but the most serious ...ries are done by moths and snout ...les. The larvae of several species ...oths may be found in chestnuts, ...nuts and acorns, particularly in ... that have their shells broken ...s to permit easy entrance to the ...el by the insects. The damage ...ght by the class of insects known ...nout beetles, however, is greatly ...reess of that done by all other ...s combined.

...e term "snout beetle" is applied ...e adults of the group of insects ...account of the peculiar structure of the head, the front part of which is prolonged into a snout or proboscis. In some species this snout is short and stout and in others it is long, slender and wire-like. In the females of some of the nut weevils it is longer than the rest of the body. The mouth, which is armed with a minute but strong pair of jaws, is situated on the apex of the snout and the appendage is used for piercing or puncturing various kinds of plant tissue to obtain food and to provide an opening in which to deposit eggs.

Chestnuts are frequently gathered that appear sound at first, but within ten days or two weeks thereafter become excessively "wormy." Where these "worms" come from has often been a matter of conjecture on the part of those who handle nuts. It is a common belief that they originate from the "sting" of some insect administered at the time the trees are in bloom. As a matter of fact, they hatch from eggs that are in the nuts at the time the nuts are gathered. Most of these eggs are deposited by this chestnut weevil a short time previous to the dropping of the nuts from the trees.

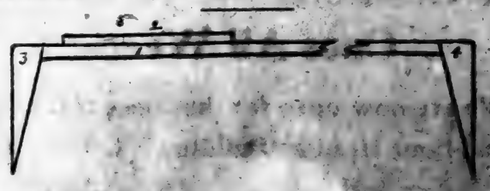
The common acorn weevil is the largest of the weevils attacking acorns. In size it is similar to the hickorynut weevil but in color it more nearly resembles the larger chestnut weevil. The spots on the back are smaller than in the latter species, however, and are not so bright and conspicuous. The snout is very slender and is curved at the point. In the female, it is nearly half an inch in length, or, about a fifth longer than the body. In the male, it is two-thirds as long as the body. The pygidium, or last abdominal segment, of the male is deeply concave with the concavity smooth and shining and surrounded by a rim of silken hairs. This peculiar character enables the species to be separated very readily from all other members of the genus.

This species seems to attack only the acorns of the biennial oaks and in my collecting has always been found more abundant on red oak than on any other tree. The acorns which it attacks are late in maturing and the beetles are correspondingly late in appearing.

Acorn Weevils.

...B, C and D, Straight-snouted Acorn Weevil preparing a place for its egg; E, ...n Weevil that has lost its foothold on the nut and hung by the snout until ...d F, Sooty Acorn Weevil.

REGULATE SEX OF CHICKEN



...ntists Have Been Studying for ...ars to Discover Law and Undoubtedly It Would Be Boon to Poultrymen.

...r years the scientists have been ...g to discover the law that regu-... sex. Undoubtedly the discovery ...d be a great boon to poultry ...ers. To have the farm over-run ... cockerels when early pullets are ...ed is annoying, and it is not sur-...g that any system purporting to ...ate the sex is eagerly tried by ...ders. We have heard it claimed ... the pointed eggs hatched pullets ... the round ones cockerels, and ... again the opposite is claimed. ...rs claim that the location of the air cell is the determining factor, and again that it is merely a question of nourishment, the stronger nourished eggs producing males. Some breeders depend upon their matings, believing that cockerels mated with hens will produce a preponderance of females, and that a cock mated with pullets will produce a preponderance of males. In spite of all the theories that have been advanced, the law that controls sex has yet to be discovered.

The First Calf.

With the first calf the heifer should be stimulated by regularity in feeding and milking, to keep up a good flow of milk and to maintain this flow pretty close up to the next calving. The object is to fix in her continuity for milk. Never let her get fat, though. They keynote to success is the cow, and the foundation of the cow is feed and breed.

CORRECT FALL OF TERRACES

...e device shown in the illustration ...e of flooring plank, 16 feet long. ... Place a spirit level (2) in center ... Fasten a leg to each end of ...ank (3 and 4), letting one leg be an inch longer than the other. By running longer leg in front point down hill, there will be one inch fall to the rod, which is the correct amount of fall to make terraces.

A PHYSICAL WRECK.

Health Marvelously Restored by Doan's Kidney Pills.

William T. Thomas, 213 So. Franklin St., DuBois, Pa., says: "A physician informed me I had Bright's disease and I was laid up for three months. I had

terrible backaches and the passages of the kidney secretions nearly killed me. I was nervous, had night sweats and could not sleep. In fact, I was a physical wreck. Doan's Kidney Pills gave me prompt relief. Continued use cured me."

Remember the name—Doan's. For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

BUSY THEN.

The Private Citizen—A general has an easy time after the war is over.

The General—Not for very long, though. You soon have applications for your autograph and invitations to banquets.

Red Cross Christmas Seals.

Arrangements for the sale of Red Cross Christmas seals for 1910 have been announced by the National Association for the Study and Prevention of Tuberculosis and the American Red Cross. "A Million for Tuberculosis" will be the slogan of the 1910 campaign. Two features of the sale this year are unique and will bring considerable capital to the tuberculosis fighters. The American National Red Cross is to issue the stamps as in former years, but this organization will work in close co-operation with the National Association for the Study and Prevention of Tuberculosis, which body will share in the proceeds of the sales. The charge to local associations for the use of the national stamps has been reduced also from 20 per cent. to 12½ per cent., which will mean at least $50,000 more for tuberculosis work in all parts of the United States. The stamps are to be designated as "Red Cross Seals" this year and are to be placed on the back of the letter instead of on the front.

Shrewd Scheme Stopped Run.

Many years ago, in consequence of a commercial panic, there was a severe run on a bank in South Wales, and the small farmers jostled each other in crowds to draw out their money. Things were rapidly going from bad to worse, when the bank manager, in a fit of desperation, suddenly bethought him of an expedient. By his directions a clerk, having heated some sovereigns in a frying-pan, paid them over the counter to an anxious applicant. "Why, they're quite hot!" said the latter as he took them up. "Of course," was the reply; "what else could you expect? They are only just out of the mold. We are coining them by hundreds as fast as we can." "Coining them!" thought the simple agriculturists; "then there is no fear of the money running short!" With this their confidence revived, the panic abated, and the bank was enabled to weather the storm.

English in London.

Senator Depew, on the deck of the Lusitania, talked about "English as she is spoken in London."

"It is very difficult to understand that London English," he said. "I know a man who had lodgings all July in Bloomsbury, near the British museum.

"On his return from the museum one afternoon, my friend said to his landlady:

"'Can I have a cup of tea, if you please?'

"'Certainly, sir; at once,' the landlady replied. 'The kettle 'as been bi'lin' for 'ours.'

"'But—er—I prefer freshly boiled water, if you don't mind,' stammered my friend.

"The landlady reddened with anger.

"'Look 'ere,' she said, 'if I 'ad meant wot you mean I'd 'ave said h-ours.'"

We reduce life to the pettiness of our daily living; we should exact our living to the grandeur of life.—Phillips Brooks.

For HEADACHE—Hicks' CAPUDINE

Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at drug stores.

There is a duty of pleasure as well as a pleasure of duty.—Silas K. Hocking.

Write me as one that loves his fellow men.—Leigh Hunt.

PROMISED A LIVELY TIME

Mark Twain's Outline of Editorial Policy He Had Made Up His Mind to Adopt.

Mark Twain took the editorial chair on the Buffalo Express in August, 1869, and this is the paragraph in which he made the readers acquainted with his new responsibility: "I only wish to assure parties having a friendly interest in the prosperity of this journal that I am not going to hurt the paper deliberately and intentionally at any time. I am not going to introduce any startling reform or in any way attempt to make trouble. I am simply going to do my plain, unpretending duty—when I cannot get out of it. I shall work diligently and honestly and faithfully at all times and upon all occasions—when privation and want shall compel me to do so. In writing I shall confine myself to the truth, except when it is attended with inconvenience. I shall witheringly rebuke all forms of crime and misconduct, except when committed by the party inhabiting my own vest. I shall not make use of slang or vulgarity upon any occasion or in any circumstances and shall never use profanity except in discussing house rent and taxes. Indeed, upon second thought, I will not even then, for it is inelegant, un-Christian and degrading. I shall not often meddle with politics, because we have a political editor who is already excellent and only needs a term in the penitentiary to be perfect. I shall not write any poetry unless I conceive a spite against the subscribers.

TINY BABY'S PITIFUL CASE

"Our baby when two months old was suffering with terrible eczema from head to foot, all over her body. The baby looked just like a skinned rabbit. We were unable to put clothes on her. At first it seemed to be a few scattered pimples. They would break the skin and peel off leaving the underneath skin red as though it were scalds. Then a few more pimples would appear and spread all over the body, leaving the baby all raw without skin from head to foot. On top of her head there appeared a heavy scab a quarter of an inch thick. It was awful to see so small a baby look as she did. Imagine! The doctor was afraid to put his hands to the child. We tried several doctors' remedies but all failed.

"Then we decided to try Cuticura. By using the Cuticura Ointment we softened the scab and it came off. Under this, where the real matter was, by washing with the Cuticura Soap and applying the Cuticura Ointment, a new skin soon appeared. We also gave baby four drops of the Cuticura Resolvent three times daily. After three days you could see the baby gaining a little skin which would peel off and heal underneath. Now the baby is four months old. She is a fine picture of a fat little baby and all is well. We only used one cake of Cuticura Soap, two boxes of Cuticura Ointment and one bottle of Cuticura Resolvent. If people would know what Cuticura is there would be few suffering with eczema. Mrs. Joseph Kossmann, 7 St. John's Place, Ridgewood Heights, N. Y., Apr. 30 and May 4, '09."

The Enemies.

Apropos of the enmity, now happily buried, that used to exist between Minneapolis and St. Paul, Senator Clapp said at a dinner in the former city:

"I remember an address on careless building that I once heard in Minneapolis.

"'Why,' said the speaker in the course of this address, 'one inhabitant of St. Paul is killed by accident in the streets every 48 hours.'

"A bitter voice from the rear of the hall interrupted:

"'Well, it ain't enough,' it said."

Outlining Treatment.

"I want you to take care of my practise while I'm away."

"But, doctor, I have just graduated. Have had little experience."

"You don't need it with my fashionable patients. Find out what they have been eating and stop it. Find out where they have been summering and send 'em somewhere else."

Just Like a Girl.

"Her cooking-school habits are a good deal of bother to me."

"How now?"

"She always wants me to taste the gasoline when the authomobile isn't working right."

For COLDS and GRIP

Hicks' CAPUDINE is the best remedy—relieves the aching and feverishness—cures the Cold and restores normal conditions. It's liquid—effects immediately. 10c., 25c., and 50c. At drug stores.

The more worthy any soul is, the larger its compassion.—John Bright.

NOT THE TIME FOR THAT

Scotsmen Objected to Mixture of Good Whisky and Religious Conversation.

Owen Seaman, editor of Punch, was the principal guest at a dinner of the London Authors' club recently, which was followed by a discussion on "Humor." Mr. Seaman began with a story deprecating the spoiling of a good dinner by any discussion at all.

There were three characters in the story—a bluebottle and two Scotsmen. The story at once struck a note of probability by showing the Scotsmen drinking whisky. The bluebottle buzzed on the pane; otherwise silence reigned.

This was broken by one of the Scotsmen trying to locate the bluebottle with zoological exactitude. Said the Scotsman:

"Sandy, I'm thinking if yon fly is a birdie or a beastie."

The other replied: "Man, don't spoil good whisky with religious conversation."

A STUNNER.

Secke—Mrs. Swellington is a stunning woman, isn't she?

Weeks—I should think so. She hit me with her automobile the other day, and it was two hours before I woke up.

Speaking of Fires.

Roy Bone, a brother of United States District Attorney Harry Bone, several years ago was a reporter on the Wichita Beacon. In going to a fire one of the members of the fire department was thrown from a hose cart and killed. Bone wrote a head, with this as the first deck: "Gone to His Last Fire."

The piece got into the paper and Bone was promptly "fired."—Kansas City Journal.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM

Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria, and the Iron builds up the system. Sold by all dealers for 35 years. Price 50 cents.

The only certainty is principle; as new as today, and as old as the universe.—Horatio Stebbens.

There is genius and power in persistence.—Orison Swett Marden.

MUNYON'S WITCH HAZEL SOAP

Makes the skin soft as velvet. Improves any complexion. Best shampoo made. Cures most skin eruptions.

Munyon's Hair Invigorator cures dandruff, stops hair from falling out, makes hair grow.

If you have Dyspepsia, or any liver trouble use Munyon's Paw-Paw Pills. They cure Biliousness, Constipation and drive all impurities from the blood. — MUNYON'S HOMEOPATHIC HOME REMEDY CO., Philadelphia, Pa.

You Look Prematurely Old

The Latest New York and Paris Creations.

There's nothing to compare with KNOWLEDGE.

Knowing how to BUY is as great an art as knowing how to SELL.

We know both arts; we BUY wisely, we sell economically.

We spent two weeks in New York City inspecting styles, in order that you might have the latest from the most fashionable city in the world.

Our stock of Ladies' Furnishings is more complete this year than that shown by any other place between Montgomery and Birmingham.

We bought in New York at New York prices; we are going to sell in Clanton at UNPRECEDENTED prices.

Mrs. Breeden, a skilled trimmer of Nashville, who learned her trade under the masters of the larger cities and who assisted us in New York, will be with us this year to give you the benefit of her knowledge and skill.

There is nothing in the millinery art that cannot be found at our place.

Come to see our beautiful display—never before equalled in Clanton.

HEADLEY & CO.

To Quit The Dry Goods Line.

H.ello people, we are going to quit the dry-good line just as
E.arly as possible, and to do so will begin to slaughter on and
A.fter July the First the stock we have on hand. Hence, we say
D.on't miss our sales for it will prove the opportunity of your life.
L.owest prices ever offered in Clanton will obtain here and its
E.verybody's chance to secure bargains at your own figures.
Y.ou should bear in mind the date and be ready when the time comes
& above all do not forget the place. It's HEADLEY'S place.
C.ome and inspect our excellent stock even if you do not purchase.
O.ver the prices and the quality let us talk, its to your advantage.

After we have closed out our stock of dry goods we shall cater strictly to the fa retail grocery trade. Come to see us. We'll treat you right and be glad to welcome y

HEADLEY & CO., On The Corner.

E. M. PINCKARD & CO.

Clanton's General Supply House and Provision Market.

We are headquarters for all things needful for man or beast, whether it be on the farm, in the home or elsewhere.

Feedstuffs, Grain, Provisions, Farm Supplies, Guano, Agricultural Implements, Dress Goods, Shoes, Hats, Clothing, Groceries, Furniture.

In fact anything you choose to call for can be found in our stores. We cater to the ladies trade and delight to serve them. Our prices are so absurdly low that no one tries to meet them.

Give us a trial and convince yourself

LOCAL and PERSONAL.

Have you noticed that Scott, Clanton's photographer, is putting out the prettiest work that has been seen in these parts? His studio is in the Reynolds building. Look at his specimens when you pass that way. tf

Samuel Scott, the photographer, makes any size picture you may need. Also finishes up work for kodakers. tf

We call attention to the professional card of Dr. H. F. Downs, which appears in this issue of The Press. Dr. Downs is a recent graduate of the University of Nashville, and has just passed a ireditable examination before the Alabama Medical Board. He is a Chilton county boy, and is well known to most of our citizens. We predict for the young man a bright future filled with usefulness.

School bags, school books, school tablets, and, in fact, anything you want in the line of school supplies, for sale at Upchurch Drug Co.'s. tf

Mr. Thomas Dudley, of Richburg, is in town for several days on his way to Montgomery to attend business college.

Miss Emmet Matthews left last Monday morning for Marion, where she will attend college this year.

Buy your wife or best girl a box of Nunnally's candy at Upchurch Drug Co. Our customers demand Nunnally's or none. tf

FOR SALE CHEAP—One two-horse power gasoline engine. Alred Drug Co., Clanton, Ala. 2t

Miss Bessie VanDerveer left Monday for Montevallo to attend the 1910-11 session of the Industrial School at that place.

You will do well to see Upchurch Drug Co. before buying your paint, linseed oil or anything in the paint line, as they have the goods, and the prices are right. tf

Miss Ione Crow, who is to have charge of the department of elocution and expression at Clanton Academy this session, arrived last Monday.

Drink with us. The largest, cleanest and prettiest place in Clanton. Alred Drub Co. 2t

Miss Jatie, the accomplished music teacher, has returned, and is ready to resume her music classes at the Academy next week.

Judge L. H. Reynolds left last Tuesday afternoon for French Lick Springs, Ind., where he goes in search of health. The judge has been suffering recently with an abscess, which has given him considerable trouble.

Billy Dunlap has been engaged by the barbecue committee to do the cooking. This is a guarantee that everything will be cooked just right, for Billy is an artist when it comes to pit meats.

WANTED—Five thousand people in Chilton county to learn that ours is the best place in the State to buy drugs, stationery, etc. Upchurch Drug Co., the place where your dollar does its duty. tf

The town marshal and Mr. Frank Parmer went out dog-killing the other day and bagged seven nice, stray, worthless dogs in one afternoon. There are yet eight dozen and two which ought to go the same route.

Hon. Charles Scott, of Montgomery, was in Clanton on a prospecting tour last Tuesday. Not a political prospecting tour, however. He is searching for iron ore in Chilton, and hopes to find a rich deposit near Clanton. If he does he will be crowned as a benefactor to this heaven-blessed people.

If you want to please your best girl take her a box of Nunnally's candy; present it with a pretty bow and see her smile with gladness. Upchurch is the place to get it. tf

The boys had a time of it getting Pud Walker off to the State School for the Deaf and Dumb last Tuesday. He went to the depot all right, but when the time for the train arrived he made a bold dash down the streets, intimating as best he could that he preferred Clanton to any place on earth. However, Pud was corralled just before the arrival of the train and safely ensconced.

See Upchurch's new line of jewelry, and remember in buying that they stand back of every piece of it—with the cash—should it not prove entirely satisfactory. tf

Hon. Charles Scott, who is prospecting for iron ore in Chilton, and who was here last Tuesday, is the same Charles Scott whom the "Progressive" Republicans have nominated for governor. We are glad that there are some Progressive Republicans at least. The ones with whom Chilton has been dealing these few years past have been looking out for self too much to assist any one else. That's the reason they are going to be turned out in November.

The coolest drinks in town and the most delicious creams are served at Upchurch Drug Co.'s fountain. That's where to meet your best girl and set 'em up. tf

Mrs. J. P. Crumpton was carried to a private sanitorium in Birmingham several days since, where she underwent an operation for appendicitis. Reports from her bedside bring the pleasing intelligence that she stood the operation well, and is progressing nicely.

Alred Drug Co.'s fountain drinks are unsurpassed. Try them. We can show you. 2t

Miss Winnie Reynolds left last Monday morning to enter the Alabama Girls' Industrial School at Montevallo.

Upchurch's is the place for refreshing drinks and delicious creams. Have you tried them? If so, you know; if you don't know, try. tf

Miss Martha Dupree has severed her connection with the Clanton Telephone Exchange, having accepted a permanent position with the exchange in Selma. She left on Tuesday morning for Selma to assume charge of the night desk as chief operator.

We hope our friends and the friends of those in the piano contest will bear in mind that T. G. Mackey & Son are handling piano contest tickets. They will be glad to give them to you when you make your purchases.

Sheriff Catts captured several barboes over about Maplesville early this week. He brought three of them to Clanton to board with him at the state's expense. One of them paid their fines and left for parts unknown.

To get the best of everything that money can buy go to Upchurch Drug Co. They charge you no more, and you get exactly what you call for. tf

Bring us your family receipts and we will make a practice of using exactly what your receipts call for. We use no substitutes, and our prices are right. Yours for a square deal,
tf UPCHURCH DRUG CO.

Misses Maude Killingsworth, of Montevallo, and Nelia Johnson, of Jemison, were in Clanton last Friday on their way to the Teachers' Institute. These two young ladies take an active part in all that affects Chilton's educational interests, whether it be Sunday sihools or day schools.

Rye, barley and turnip seeds at Alred Drug Co.'s, the home of quality. 2t

Miss Sallie Duncan, who has been the guest of Misses Alee and Mary Will Stewart for some days, left last Tuesday for a short visit to friends and relatives. From Birmingham she will return to her home in Nashville.

If there is any one man in Chilton county who is an untiring worker for the success of the Democratic party, that man is Lee Hayes. He is never too tired to help in the work, and never too sleepy to go somewhere to assist in the work.

Mrs. William Phillips, of Birmingham, is on a visit to the home of Mrs. Mollie Hannon.

Miss Pritchett, of Union Springs, who has been selected to teach the fourth and fifth grades at the Academy this year—a very handsome young lady—has arrived, and is boarding with Mr. and Mrs. W. M. Adams.

Mr. Claude Reynolds left Monday morning for Greensboro, where he matriculates as a student of the Southern University this year.

With every one of Alred Drug Co.'s 5c Special School Tablets you get a 12-inch rule free. tf

Mr. J. W. Stillwell, of Birmingham, was a visitor to Clanton Monday.

Try your luck on our Ferris Wheel. You may get top or three drinks for a nickel—you are sure to get one. Upchurch Drug Co. tf

Howdy Do! How Are You?

The much talked-of season of hard time and business depression has failed to arrive; the prophecies of the chronic knocker are wanting in the fulfillment and the dire misfortunes predicted by the ever present calamity howler have died in the borning. Alabama, Chilton county and Clanton, instead of going to the bow-wows, as forecasted by would-be wiseacres, has gone steadily onward upon the road of material development that leads to certain success and abundant prosperity

We are enjoying the fruits of our labors as never before; the cry of poverty is hushed throughout this heaven blessed section; on every side is heard the tuneful tones of thrift and prosperity. The frugal farmer will not have to draw upon the store house of the West for his corn supply, for the harvest within our own fields is abundant in the extreme.

The cotton producer is satisfied with the results of his labors, and the shining coin which high prices for his staple enables him to secure and jingle in his jeans not only makes a gladsome sound to his ears, but fills his heart with joyful anticipations of a happy Christmas-tide. All things conspire to make his lot a pleasant one indeed.

The Chilton county farmer is fast assuming that place in the economic relations of life which his avocation predestined him to occupy—the front rank, a leader among the advance guard. Long faces have been succeeded by smiling countenances, and mortgaged homes and farms are soon to become happy firesides and productive fields of pleasure. Hard times have been vanquished and prosperity is victorious.

Contentment, peace and plenty are knocking at every door.

We are now entering upon an era of commercial development never heretofore anticipated; a season of rich rewards for honest toil is now dawning and will soon burst with noon-day splendor upon our people.

The farmers are happy, as they should be, for Mother Earth has yielded them rich trophies for their plucking; prices are soaring amid the radiant beauty of the stars; his products are in demand as never before.

Cotton is again King and Corn is the Prince Imperial.

What more could the planter desire to make his cup of gladness overflow?

Farmers of Chilton county, we greet you as the two-fold keepers and producers of our prosperity. You are they who have produced the wealth of our county, and upon your heads we pour our praises in unstinted measure. You have earned your reward and should enjoy the fruits of your labors.

The merchant who has bought wisely and well rejoices at your success.

The cotton buyer whose heart beats in unison with your own delights in the opportunity afforded him to give you good prices for your staple; he who would withhold from you the best and highest the market affords is neither a friend to the farmer nor a wise man of business.

We want you to succeed, because in your success we also shall share.

We have bought not stingily, but well; we have purchased in keeping with your position and your desires; you want the best, therefore we supplied ourselves with the best, that we might accommodate both your taste and your demands.

Desiring to have you make our place headquarters, we have arranged to pay the very top notch for every pound of the fleecy staple brought to our store.

We want to have a hand in your prosperity; we wish to be remembered in your rejoicing.

Come to us with your samples; we will top the market on every occasion; call upon us for your wants; our large and varied stock enables us to meet your every requirement, and at prices that will make you glad for the visit.

We hate the chronic croaker; we despise the knocked and the pessimist. The old world is bright with hope, buoyant with success, happy in plenteous abundance. We want you to know that we rejoice at your season of success; you deserve it, and we hope you will enjoy it to the fullest extent.

Come to see us; your happy faces make us glad indeed.

Come whether you want to buy or sell, both or either or neither. We will be glad to greet you.

We are going to set the gait this year, and those who would keep up with us must clip it off at a merry chase.

Cordially yours,

W. KANTER & BRO.

General News

A Rare Sight.

Standing on the streets of Clanton on Tuesday The Press man caught a glimpse of something that does not come to the vision of many men.

Clanton is perhaps the only place of its size in the State that could have afforded such a sight. Not that any other town does not possess the elements that go to make the sight, but they are never, or scarcely ever, assembled. Walking down the main street of the town arm in arm were three old veterans who have weathered many a severe winter; they have been gray with age; they have seen their aged fall by the wayside and be buried with their fathers; they have seen the young yield up their lives in promise and lay down in pulseless clay, yet these three grizzled old men have gone on. But there is nothing common in three old men walking arm in arm; no; but these three old men met accidentally upon the streets and each of the three was minus a left leg.

Each was hobbling along on a wooden peg, and they were as bright and cheerful as children on the night before Christmas.

They had their photographs taken together, and down the streets they went munching peanuts and telling of experiences that come only to wooden legged men. Each of the three had the left leg cut off within three inches of the knee; each has gone for years on a wooden peg and has made a livelihood for a family; each was happy and contented with the world. When they came into The Press office we pulled off our hat to them and greeted the old veterans with a hearty handshake. After a few words conversation we ventured that they form the nucleus of a wooden-legged association, and agreeable to the sugestion they immediately began preparations for the formation of a "ONE-LEGGED" convention. In conformity with their wishes and suggestions, The Press is requested to call a meeting of all the ONE-LEGGED men of Chilton county, to gather in Clanton on WEDNESDAY, the FIFTH day of October. This is the SECOND day of the County Fair, and all ONE-LEGGED men are especially requested to be present. One-armed men are also invited. It is the purpose of these old gentlemen to form an association of ONE-LEGGED and ONE-ARMED men at the time and place mentioned. If you wish to be a CHARTER member you will have to be here that day. The association may perhaps extend to other communities, and finally become statewide or even national in its scope, but whether it does or not, if you are minus one leg or one arm or one eye or one ear or anything else you once had two of, come, "jine the band."

Messrs. J. W. E. Gulledge, J. N. Williams and E. J. Mims are to be the founders of the association, and if you come on the day set you will be one of the charter members.

The New Mayor.

Clanton, as all other incorporated towns in Alabama, had its mayoralty election on last Monday. It was an exciting race, and one that attracted town-wide attention. Perhaps no other town in Alabama had just such an election as did Clanton. There was an official ballot, but there was not a name upon it. Every voter had to write the names of the candidates of his choice.

For three years Dr. Matthews has held the office of mayor, and a splendid officer he has made, too. Under his administration Clanton has grown from a village to a town, and bids fair, under the influences which he has set in operation, to become a city unless something unforeseen obstructs the way.

Dr. Matthews was in nowise a candidate for re-election; he did not seek the office, but on the contrary stated to his friends that he would gladly turn over the reins of government to any other citizen who would serve in that capacity.

He felt that he had served long enough, and that the people desired a change; there is no compensation attached to the office except that which arises from severe criticism, abuse and "cussings." Fault-finding and antagonisms are the only things that recompense a fellow for being mayor, and so he felt that he had a sufficiency of that and was willing to let some other good citizen enjoy the "blessings" during the coming year. Now we don't pretend to say that Dr. Matthews got more of these good things than any other officer has gotten or will get, but he got as much—or about as much—as he cared for. Nevertheless, some of his friends felt that he ought to serve again, and in mass meeting unanimously nominated him for the place. This was done just four or five days before the election. On the next day those who felt that the present administration had served long enough met at the court house and put out another ticket. This ticket was headed by Mr. J. M. Potts.

Under the law the mayor has to be notified of nominations twenty days previous to the election. This accounts for the fact that no names were placed upon the official ballot; the mayor had no official notification of any nominations.

The two factions—or rather the two parties, for they were not in reality factions—each got out a guide ticket and went to work for their respective tickets.

Monday dawned bright and clear, and with this and notwithstanding of weeks of electioneering, everything passed off quietly and orderly. The old administration, and those who espoused its cause seemed to relax their efforts. They forgot the tale of the rabbit and the turtle.

During the day the voting was heavy, and no one would willingly stake his reputation as a political prognosticator upon the result till the final count was made.

Each side had nominated five aldermen to serve with the incoming mayor.

The Result.

Messrs. J. E. Robinson, Sr., J. Watts Moore and W. A. Kemp were appointed as inspectors, and Messrs. J. E. Robinson, Jr., and M. A. Gore acted as clerks.

There were an even 140 ballots cast, two not voting for mayor. This is an increase of nearly 20 per cent. over the former voting strength of Clanton in town elections, and argues well for the growth of the town.

On casting up the ballot it was found that the following vote was deposited.

For mayor:

E. A. Matthews	64
J. M. Potts	74

For councilmen:

W. W. Gray	75
B. F. Higgins, Jr.	86
Guy Higgins	83
C. F. Jones	56
O. E. Latham	64
H. M. Mahan	75
J. M. Maddox	56
C. R. Mullins	59
E. M. Pinckard	69
P. D. Wilson	56

From this it will be seen that Mr. J. N. Potts was elected by a majority of ten votes for mayor, while Messrs. W. W. Gray, B. F. Higgins, Jr., Guy Higgins, H. M. Mahan and E. M. Pinckard were elected aldermen—four from the east side and one from the west side.

Now that the election is over, that the people have spoken, let's all join hands and yell for water works and sanitary sewerage.

Cemetery Improvement Association.

On account of the county fair, which begins on October 4, the ladies of the Cemetery Improvement Association have decided to postpone their meeting to a later date in order that all may attend the fair, and also in the hope that the committees will have their reports ready when the association does meet. The meeting will take place on the second Monday in October.

Horse Killed.

Esquire Enoch Foshee had the misfortune last week to lose his valuable grey horse. He had turned the animal into the lot, and had left it to its pranks and merry-making. The horse, tired of being confined in the lot, attempted to jump a picket fence that surrounded the lot, and in doing so one of the pickets was stuck into a vital spot, the horse dying almost immediately.

NO CLOUDS IN SIGHT

COLONEL GEORGE HARVEY SAYS COUNTRY ALL RIGHT.

THE WRITER SEES NO CLOUD

Striking Article in North American Review That is Attracting Wide Attention.

The attention of business and professional men in all portions of the country has been attracted to a strikingly strong article by Col. George Harvey in the September issue of the North American Review in which the writer takes a view of the greatest hopefulness for the future of America and Americans. The article is entitled "A Plea for the Conservation of Common Sense," and it is meeting with the cordial approval of business men of all shades of political opinion throughout the entire country. In part, Colonel Harvey says:

"Unquestionably a spirit of unrest dominates the land. But, if it be true that fundamentally the condition of the country is sound, must we necessarily succumb to despondency, abandon effort looking to retrieval and cringe like cravens before clouds that only threaten? Rather ought we not to analyze conditions, search for causes, find the root of the distress, which even now exists only in men's minds, and then, after the American fashion, apply such remedies as seems most likely to produce beneficent results?

Capital and Labor Not Antagonistic.

"The Link that connects labor with capital is not broken but we may not deny that it is less cohesive than it should be or than conditions warrant. Financially, the country is stronger than ever before in its history. Recovery from a panic so severe as that of three years ago was never before so prompt and comparatively complete. The masses are practically free from debt. Money is held by the banks in abundance and rates are low.

"Why, then, does capital pause upon the threshold of investment? The answer, we believe, to be plain. It awaits adjustment of the relations of government to business. * * * The sole problem consists of determining how government can maintain an even balance between aggregations of interests, on the one hand, and the whole people, on the other, protecting the latter against extortion and saving the former from mad assaults.

"The solution is not easy to find for the simple reason that the situation is without precedent. But is not progress being made along sane and cautious lines? * * *

Conserve Common Sense.

"Is not the present, as we have seen, exceptionally secure? What, then, of preparations for the future? Patriotism is the basis of our institutions. And patriotism in the minds of our youth is no longer linked solely with fireworks and deeds of daring. It is taught in our schools. A new course has been added—a course in loyalty. Methodically, our children learn how to vote, how to conduct primaries, conventions and elections, how to discriminate between qualifications of candidates and, finally, how to govern as well as serve. They are taught to despise bribery and all forms of corruption and fraud as treason. Their creed, which they are made to know by heart, is not complex. It is simple, but comprehensive, no less beautiful in diction than lofty in aspiration. These are the pledges which are graven upon their memories:

"As it is cowardly for a soldier to run away from battle, so it is cowardly for any citizen not to contribute his share to the well-being of his country. America is my own dear land; she nourishes me, and I will love her and do my duty to her, whose child, servant and civil soldier I am.

"As the health and happiness of my body depend upon each muscle and nerve and drop of blood doing its work in its place, so the health and happiness of my country depend upon each citizen doing his work in his place.

"These young citizens are our hostages to fortune. Can we not safely assume that the principles animating their lives augur well for the permanency of the Republic? When before have the foundation stones of continuance been laid with such care and promise of durability?

"The future, then, is bright. And the present? But one thing is needful. No present movement is more laudable than that which looks to conservation of natural resources. But let us never forget that the greatest inherent resource of the American people is Common Sense. Let that be conserved and applied without cessation, and soon it will be found that all the ills of which we complain but know not of are only such as attend upon the growing pains of a great and blessed country.

He Knows the Game.

According to the Metropolitan Magazine, Fire Chief John Conway of Jersey City, has solved the baseball excuse question by the posting of the following printed notice on his desk at fire headquarters:

"All requests for leave of absence owing to grandmothers' funerals, home back, house cleaning, moving, sore throat, headache, brainstorm, cousins' wedding, general indisposition, etc., must be handed in at least [illegible] before the game."

REGISTRATION NOTICE.

In accordance with the provisions of section 6, an act to further regulate elections in the State of Alabama, approved October 6, 1903, as amended, the Board of Registrars of the county of Chilton, Alabama, does hereby give notice that the following appointments are set for the purpose of registering those qualified under the law to register as electors:

Macedonia, Beat 14, Sept. 12.
Benson, Beat 3, Sept. 13.
Stanton, Beat 8, Sept. 14.
Maplesville, Beat 7, Sept. 15.

Beat No. 4, at Clanton on Sept. 16 and 17, 1910, for the purpose of registering voters for the municipal elections.

Beat No. 4, at Clanton on Sept. 22, 23, 24, 26, 27, 28, 29, 30 and Oct. 1, 1910, for the purpose of registering voters.

Beat No. 4, at Clanton on Friday and Saturday before the first Monday in November for the purpose of registering voters for the general election.

R. H. GAINES,
B. H. JONES,
P. M. MOORE,
tf Board of Registrars.

FOR SALE.

223 acres of land; 65 acres under cultivation; 60 acres in pasture, with running water the entire year. All land practically level.

One good six-room, new dwelling house and out buildings.

An ideal place for stock raising.

On Clanton and Maplesville road, ten miles west of Clanton.

Aply to A. S. JONES,
tf Clanton, R. F. D. No. 7.

EXPLOSION OF GAS KILLS MINERS.

Linton, Ind.—The explosion of a well of gas in the Rugger mine, about five miles west of here, resulted in the killing of Andrew Baxter, the fatal injury of Bert Reese and the painful burning of about ten other miners. Reese suffered a fractured skull and is expected to die. The men were hurled backward and covered with slate and debris. About 400 men are employed in the mine, and the explosion and excitement led to the report that 200 had been entombed.

WOMAN NOMINATED ON SCHOOL BOARD.

Denver, Colo.—Adherents of Governor Shafroth, who barely pulled him through the democratic renomination, made up for the hard fight they had by naming the whole state ticket. The big Denver delegation was unable to stem the tide in favor of Shafroth and only succeeded in getting one of their candidates on the ticket. Mrs. Katherine Cook was nominated for superintendent of public instruction.

Against American Meat.

Stuttgart.—Herr Delbrueck, minister of the interior, in addressing a public meeting at Wurtemburg, said that there were important sanitary objections to the proposed admission of American frozen meat, which would further retard the increase of the German live stock supply. The development of the domestic output would be, he said, the safest and best method of alleviating the present situation.

Canada's Wheat Crop.

Ottawa, Ont.—Canada's total wheat crop this year is 122,785,000 bushels, according to the estimate of the government statistics just announced. This is 43,539,000 bushels less than the yield of 1909.

Robbers Stole $100 in Copper Cents.

Trenton, Ky.—Robbers forced an entrance into the Bank of Trenton and got away with $100, all in copper cents. The other funds in the safe were not disturbed.

Mrs. Benham—Every time I sing to the baby he cries.

Benham—He gets his ability as a musical critic from my side of the house.

The years write their records on men's hearts as they do on trees—inner circles of growth which no eye can see.—Saxe Holm.

And we once heard of a man who wrote a book on "How to Get Rich" who had actually done it himself.

Vermont Thrift.

Robert Lincoln O'Brien, editor of the Boston Transcript, is a great admirer of the thrift of the Vermonters, but thinks sometimes they carry it too far.

O'Brien was up in Vermont last summer and went to dinner with a friend who had some political aspirations. As they came in the door he heard the lady of the house say to the hired girl: "I see Mr. Jones has somebody with him for dinner. Take these two [illegible]

The Chilton County Fair
Oct. 4-8, 1910

AGRICULTURAL PREMIUM LIST.

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Merchandise, Fancy Groceries. Hadley & Co., Clanton, General

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers' Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle, and you may wear diamonds. It's up to you. Will you work?

Contest Closes Monday Noon

Money to loan in amounts not less than One Thousand Dollars, on easy terms, reasonable rates. Approved real estate security only. For particulars apply to or address "Finance," care Press.

How did you enjoy the barbecue?

Wonder what the Republican sheet will say now that there was so little negro mention and all its prophecies went awry?

It looks rather murky up the creek for Teddy just now. He has called in Marse William Taft to help him pull things together in New York.

The swapping of Tennessee for Maine is not a fair trade. In Maine the Democrats won because the people were tired of Republican partisan policies. In Tennessee the Republicans are not winning at all.

Wasn't that a great day for Democracy? The speeches were perfect gems, the dinner was equal to that of a king and the crowd was as jolly and well behave as Sunday school children.

Old Shelby is beginning to wake up and Longshore is now beginning to smell the patching. An officer who fights shy of examinations is an officer who has served his day.

A fellow who could listen to the speeches made here last Saturday and then say his party is not fostering the negro is a deaf and dumb blind man who is crippled under the hat, near the center of his think tank.

From all sections of the State comes the news that the Democrats are arousing themselves and that the victory next November will be a decided rebuke to those who are playing upon the prejudices of the people and attempting to feather their own nests at the expense of the voters.

Such "advice" as was given last week comes only from a heart that is filled with malice and knows nothing of fairplay. Why try to make people remain in ignorance of the real truths of life? Why attempt to play upon their prejudices all the time? Get fair once in a while and see how it feels.

The Republicans of this district have at last found a gentleman who is silly enough to undertake the task of defeating the Democratic candidate for Congress. His name is Jim Atkins, and he lives in Cleburne county. He is a banker, who holds mortgages on farmer boys and farmer women.

Fred Blackmon was decidedly under the weather last Saturday, and yet he captured the crowd by his convincing arguments and clear logic. That's the kind of man we need in Congress, and that's the kind we are going to have in Congress from this district, for Fred is going to be the man himself.

That little "communicated" article in the Republican sheet deceived no one. Not even as to the writer. Last year that word "communicated" failed to appear over a certain article, and it put the blinkers on the editor. Now, unwilling to daddy its own articles, the word "communicated" appears, but the last fall's mishap is deprived of one.

We notice that a convention of the fourth-class postmasters of the State has been called to convene at Montgomery on October 10 and 11. There is nothing particularly strange in fourth-class postmasters having a meeting, but wonder why it takes place just now? Say, did Marse Jody have anything to do with the time and place? Was he the prime mover, or was it born of another purpose? Wonder how many of them were at the Birmingham convention when Marse Jody was nominated? Wonder if the non-officeholding Republican editors will give notice of the convention?

PERSONAL AND LOCAL.

Mr. James Dean, of Laurel, Miss., who has been visiting his father here, returned home last Monday.

Mr. J. L. Lambert, who has been teaching school at Jackson's Chapel, left last Saturday for his home at Glen Ellen.

Messrs. Austin and Orlando Lambert, who have been visiting the family of Mr. Elijah Jones, left last Saturday for their home in North Alabama.

We call attention to a new advertisement which appears in this week's issue of The Press—that of O. O. Roper & Son—who have opened a bakery and restaurant in the building formerly occupied by Cooper Bros. These gentlemen propose to keep a clean, neat, quiet place and to serve the best of everything to eat. They are going to have a skilled baker to turn out bread and other products of the oven for them, and they bid fair to do a rushing business as soon as they open.

In this issue appears the legal notice of Mrs. Teel as the administratrix of the late Benj. Teel and also a Sheriff's sale by Officer Catts. Those interested in such legal matters will do well to read these advertisements.

It would be well nigh impossible for The Press to undertake to make mention of all our county friends who were here Saturday in attendance upon the barbecue and speaking. Everybody and his cousin was here, and we were glad to welcome every one of them.

Bring us your family receipts and we will make a practice of using exactly what your receipts call for. We use no substitutes, and our prices are right. Yours for a square deal,

tf UPCHURCH DRUG CO.

The committee having the barbecue in charge have instructed the secretary to send written cards of thanks to Messrs. Griel Bros. and Winter & Loeb, of Montgomery, for their kind donations to the barbecue, and to Messrs. T. M. Pyron and E. M. Pinckard for their kindness in lending conveyances, without which it would have been a hard task to get most of our invited guests to the grounds. To the ladies who so kindly aided them they feel that they cannot render sufficient thanks. There are many others to whom thanks are due and are sincerely extended.

The Press offers its apologies this week for the paper it sends to its patrons. With a big Democratic rally on Saturday, a town election on Monday and a dinner of sardines and pound cake on Tuesday the editor has not been in shape to put up much of a paper. However, we are going to "make good" next week.

It will be ratifying intelligence to his many friends to know that Dr. Hayes is now on the high road to recovery.

Dr. Hosea Downs is having a neat office fitted up in the rear of the Clanton Ice Cream Parlor.

Now watch the PIANO contest begin to grow. The cotton crop is going to make things hum a little. We are expecting the votes to mount up into the million mark real soon.

If we just had water works wouldn't it be lovely these elegant September days? Who's going to speak first? How's that new Council anyway?

Dr. Samuel E. Johnson left on last Tuesday for Nashville, where he is to complete his course as a medical student in Vanderbilt University.

Mr. Robert Farley has moved his family from Birminham to Clanton to make this his future home.

The Summer Prize Winners.

The Press greatly regrets that the conditions of the summer race were not thoroughly understood by every one. We made an honest effort to put it so plainly that no one could misunderstand the provisions, and yet many have come to this office and contended that under the rules those who are here declared the winners are not entitled to the prizes. To all such we have referred the rules of the contest as laid down in the issue of July 14th. If you are a doubting Thomas, get out that copy of The Press and glance over the rules.

We want to say just here that The Press is the only one who is a loser by this contest; we do not regret having got the contest on. The up-to-date [illegible] and stay-by [illegible] has [illegible] induce many others to join in and make things lively during the dull summer months; that it would have a tendency to break up combinations and enliven the contest somewhat. That it did not accomplish either one of these objects is clearly seen, and yet we have no complaint to utter. We are glad we put it on, and we are glad to be able to distribute the prizes. We are extremely sorry that every one did not win some prize. Next month we are going to arrange things a little different; we are going to put on a fall contest that will be lively in the extreme; we are going to have a new set of rules for this contest that will open your eyes and make you hustle. But that's another question.

Now get out your papers of July 14th, and you will see that the winners are ascertained according to the rules then announced.

Glance down the column of figures, and you will see that Miss Mayme Foshee had on that date 210,404 votes; now take your paper of September 15, the date on which the last vote was announced, and you will see that this same young lady has 427,952; the difference between these two amounts is 217,548. Go further; take Miss Eula Roper; on July 14th she had 215,648 votes, and on September 15th she had 501,745, a difference of 286,097. One step more; on July 14th Mrs. Hayes had 296,544, and on September 15th she had 542,371, a difference of 245,827, according to our way of figuring. Now look over the list again and you will see that these three ladies have had more votes cast for them during the summer race than the others have had during the entire contest. This is not our fault; we tried faithfully to break the magic tie that brings all the votes one way; we tried to obstruct the way and get lots of pretty young ladies in the running; we did everything possible to throw things in another direction, but we could not. Now, do not think that we regret the way the prizes went—we do not. These ladies earned them, and are entitled to them because they went out after them; they enlisted the aid of their friends, and helped The Press that much; they called for the votes, and assisted this paper just that much; they stood by us in a storm, and we are glad they won. It was a hard, hard, hard pull through the summer. If the contest had fallen through The Press would have had to live on dried leaves and branch water; these ladies and some others of our good friends helped us; they kept bread in our mouth, and made it possible for us to get along, and we are glad they won; the only thing is, we are sorry some others did not win, too, for they helped nobly. Had it not been for the others also, the race would not have been nearly so interesting.

Now, don't get discouraged because these have won and you have lost. Save up your tickets; call for them at the places where they are given out, and next time YOU will be a winner. We have a plan on foot to make some others glad. We are going to give another chance that will interest those who have not yet cast a ticket. Save them for yourselves; do not trade them off or give them away.

Watch next week's paper and get ready for the fall contest. It's coming, and will be interesting, too.

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Company in favor of West Stegall Grain & Milling Co. out of the goods, chattels, lands and tenements of the said Parsons Lumber Company, I have levied on the following property, to-wit:

About fifteen miles of railroad, extending from mill of Parsons Lumber Company to mill on the Coosa river, to Coopers Station, and from said mill into the forest, together with four locomotives, engines, and eighteen logging cars, together with all sidetracks, turn-outs, switches, tools and equipment pertaining thereto, the same being all the railroad and railroad equipments owned by the Parsons Lumber Company, and also together with the rights of way of said railroad as now located, extending over the lands of the following persons, to-wit: Miss Phila Cooper, J. C. Gibson, Mrs. M. J. Baldwin, Clifford A. Gullahorn et als., E. T. Gullahorn, B. T. Calloway, M. J. Thomas et als, F. M. Connell, Jr., F. M. Connell, Sr., F. A. Gulledge, J. D. Hand, W. A. Collier, Virginia A. Ternan, S. A. E. Patillo and A. L. Patillo, all of said lands being located in Chilton county, Alabama; also the saw mill plant on the Coosa river, including engines, boilers, machines, machinery, saws, chains, together with all tools and equipments pertaining thereto; also planing mill plant, including three planers, engines, boilers and chains, together with all tools and equipments pertaining thereto; also two dry kilns, including boilers, pipes, carriages, trackage and all tools and equipments pertaining thereto; also the blacksmith shop at the mill, including all material on hand, together with all tools and equipments pertaining thereto; also the river equipments on the Coosa river, such as launches, boats, skiffs, booms, both stationary and moveable, cables, chains, dogs, ramps, etc.; also all office and commissary fixtures, office stationery and office supplies; also about fifteen teams of oxen, together with drays, chains and all logging equipments, such as axes, saws, and three mules; also the following described real estate in Chilton county, Alabama, to-wit:

E. 1-2 of S. E. 1-4 of section 9; thirty-eight acres of the west side of that fractional part of section 10 lying west of the Coosa river, more particularly described as follows: Beginning at the southwest corner of said section 10, and running thence east one-quarter of a mile, thence due north to the margin of the Coosa river, thence in a northerly direction along said river to the west line of said section 10, and thence south to the point of beginning; and the north 1-2 of section 16, all in township 21, range 16 east; and the S. W. 1-4 of section 28; N. 1-2 of section 22, township 22, range 16 east; also the following described lands in Chilton county, Alabama, the mineral rights in which have been reserved, to-wit: S. E. 1-4 of N. W. 1-4; W. 1-2 of S. E. 1-4; S. W. 1-4 of section 9; N. E. 1-4 of S. E. 1-4 of N. W. 1-4 and S. 1-2 of S. E. 1-4 section 17; S. 1-2 of S. E. 1-4 of section 18; N. E. 1-4 of N. W. 1-4, section 19, all in township 21, range 16 east.

This levy is made subject to a certain deed of trust executed by the Parsons Lumber Company on the 15th day of June, 1909, to Louis B. Farley, as trustee, which deed of trust is recorded in Mortgage Record 101, page 107, in the office of the Judge of Probate of Chilton county, Alabama.

Therefore, according to said command, I shall expose for sale at public auction, to the highest bidder for cash, all the right, title and interest of the above named Parsons Lumber Company in and to the above described property on Monday, the 3rd day of October, 1910, during the legal hours of sale at the court house door in Clanton, Chilton county, Alabama.

Dated at Clanton, Alabama, this, the 3rd day of September, 1910.

JOHN S. CATTS,
Sheriff of Chilton County, Alabama.
sep8-4t

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Ernest Welch, Riderville, Chilton county, out of the goods, chattels, lands and tenements of the said Ernest Welch, I have levied on the following property, to-wit:

One upright Star piano.

Therefore, according to said command, I shall expose for sale, at public auction, all the right, title and interest of the above named Ernest Welch in and to the above described property on Tuesday, the 4th day of October, 1910, during the legal hours of sale, at Riderville, Chilton county, Alabama, to the highest and best bidder for cash.

Dated at Clanton, Ala., this 19th day of September, 1910.

J. S. CATTS,
Sheriff of Chilton County, Alabama.

MAPLESVILLE.

Well, Mr. Editor, we notice where you were on a committee at the big Democratic blow-out at Clanton Saturday, and while we have never seen you, we have pictured you out shaking hands, making new friends and taking subscriptions to your paper, and putting on "airs" in general. I am sure you had a swell time. Did you get any "pie?" Well, I have not been to anything like that this year. All such things come off on Saturdays, and that is my busiest day. Why don't they remember a fellow like me, and change the day sometimes?

Our farmers are very busy gathering their crops. Some cotton is coming into town, for which they are getting a very good price.

Mr. A. C. Smith, of Clanton, was in our town Wednesday on business.

Miss Molly Cobb has returned from Atlanta, where she has been to purchase millinery for the firm of J. W. Mitchell.

Miss Jessie Mae Morris and J. C. Darden attended the wedding of Miss Jessie Walker at Plantersville Thursday.

Mrs. Will Allen is sick in bed with fever, Drs. Tucker and Potts attending her.

Yesterday was pay day with the Twin Tree Lumber Company, which gave the boys a little jingle for their jeans.

Mr. Bob Alvis, who has been running as conductor on the log train from Maplesville to the Spur, has moved his family to Brierfield. He has accepted a position in Indiana.

We will not write much, as we do not know whether or not this will reach the waste basket.

J. W. MITCHELL.

CUMBERLAND GAP, TENN.

Editor Press:

Will you please allow me a small space in your paper to say a few words to my dear friends of Clanton and Maplesville?

Dear people, I have failed to write you a personal letter, and I thought that I would write you all a letter together, as it would save time.

Since I have come up here the weather has turned off very cool.

Regarding education, I say that this school, Lincoln Memorial University, seems to be going great good for this State, and not only this State, but many others. There are thirteen States represented here.

This school is in junction corners of Tennessee, Virginia and Kentucky, located in the Cumberland Mountains, and I want to say that there are sights for an old Alabamian like me to see. I was on my way to Middlesboro, Ky., the other day, and my roommates were with me, and we came to the corner post of the three States, and we just marched around it and thereby passed through the three states in a minute or two.

We were delighted with the town very much, but every corner we would pass there was a saloon, and that was just one more sight than I wanted to see.

A few days later I went up on a pinnacle of a mountain, and it seemed to me if it had been a cloudy day the clouds would have swept me off.

With much success and happiness to the readers of The Press,

GRADY WILLIAMS.

ORDER OF PUBLICATION.

The State of Alabama, Chilton County—Chancery Court—Seventh District—In Vacation Term, 1910—Walter Woods, Complainant, vs. Ella Gunn Woods, Defendant.

In this cause it is made to appear to the Register by the affidavit on file of John W. Lapsley, solicitor for complainant, that the defendant, Ella Gunn Woods, is a non-resident of the State of Alabama, and resides in the State of Florida, place unknown to affiant, and further that, in the belief of said affiant, the defendant, Ella Gunn Woods, is over the age of twenty-one years.

It is therefore ordered by the Register that publication be made in The Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring her, the said Ella Gunn Woods, to answer, plead or demur to the bill of complaint in the above cause on or before the 7th day of October, 1910, and failing so to do within thirty days after the service of this summons a decree pro confesso may be taken against her in said cause.

Witness my hand this 9th day of September, 1910.

H. M. SIMPSON,
sept15-4t Register in Chancery.

The handsome new [illegible] hotel, at the intersection of Commerce and Bibb streets, was formally opened [illegible]

Clanton's Big Day

Last Saturday was perhaps the biggest day in the political history of Clanton or of Chilton county. Over at Maplesville some years ago Senator Morgan and Senator Johnston were engaged in campaigning, and there was a great outpouring of people to hear these two distinguished sons of Alabama, but most of the crowd came from other sections of the State, while on Saturday last the assembly was composed almost entirely of the sons of Chilton county. Every section of the county was represented; not a square mile of the county's vast area but had some representative on the grounds Saturday listening to the magnificent speeches and partaking of the hospitality of the Democracy of Chilton. Nevertheless there was quite a number of distinguished visitors from a distance; they came from every section of the State—north, east, south and west—to mingle with the glad crowd and by their presence to lend aid and encouragement to the Democrats of Chilton in their efforts to wrest the reins of government from the hands of designing politicians and to restore it to those who believe that public office is a public trust and not a personal graft and a license to dominate things as to them seemth profitable.

On the early morning trains were a number of distinguished guests, who had left their busy offices and places of business to assist in making the day one of pleasure and profit to the Democrats.

Lieut.-Gov. W. D. Seed came in from Montomery with Capt. Reuben F. Kolb and Sheriff Oakley of Bibb county, and Sheriff Chambliss, of Autauga county. A magnificent brass band had just arrived from Birmingham, and to the entrancing strains of "Dixie" these and other notable guests were welcomed to Chilton's capital city. Along with these gentlemen came numbers of citizens from all sections of the county traversed by the L. & N. Railroad.

Some disappointment was expressed by the crowd that Governor O'Neal did not arrive on the early train, but he sent word that having had a strenuous day of it the day before at Eufaula he was resting in Montgomery and would be down on the next train in time to take part in the festivities. Congressman Blackmon had arrived with the early throng, and he, in company with the others, were taken to the Palmer Hotel, where they were refreshed, and after a brief rest the vast throng, led by the brass band, were escorted by the reception committee to Kicker's Grove, where the principal exercises of the day were to take place. The speakers and other distinguished guests were taken in carriages, while the happy crowd were content to wend their way to the grove on foot.

Here the speaking began almost immediately. However, before the crowd had arrived, or rather before the guests of the day had arrived, but with several hundred Chilton county people assembled on the grounds, Mr. Lee Hayes bubbled over with enthusiasm, and, being unable to restrain himself longer, mounted the speakers' platform and told them of the things which the Democratic party was accomplishing and hoped to accomplish for the upbuilding of the county and the country at large. He made frequent allusion to a certain highly esteemed old gentleman of the county whom everybody loves and respects. This old gentleman was sitting upon the stand, and he looked the very incarnation of the venerable old father in Israel. For forty years or more he has without interruption or intermission voted the Republican ticket in all elections. So highly esteemed is this old gentleman and so loyal to what he conceives to be right is he that no one ever paused to question the motives which actuated him in casting his ballot with the Republicans, but this year, said Mr. Hayes, speaking with the authority of the gentleman in question, Mr. John Baker is going to cast his ballot with the Democrats; he has grown tired of ring rule and personal graft, and he proposes to assist the Democrats this year, if never again, in bringing about a season of political rule that will be for the people and by the people, and that will forever put an end to BOSSISM and personal favoritism in the management of Chilton county affairs.

Mr. Hayes' remarks were received with vociferous cheering, and many hearts swelled with gladness as they heard the speaker state that this much loved citizen of the county had grown weary of waiting for the Republican county officials to do something for the county and not so much for themselves, and that he would go with that party which holds out promise of equity and performance of duty.

Shortly after the conclusion of Mr. Hayes' remarks Hon. Tipton Mullins, the chairman of the reception committee, introduced Congressman Blackmon, of Anniston, the nominee of the Democratic party for Congress from this district. For an hour or more, though considerably interrupted, Mr. Blackmon held his audience as attentive listeners by his scathing arraignment of the Republican party for their faithlessness in dealing with the people, for their non-performance of promises made to the people by their [illegible]

With keen insight into the workings of the tariff he laid before his listeners an array of figures, secured from REPUBLICAN CAMPAIGN BOOKS, that were calculated to turn the minds and hearts of all thinking Southerners from that party of graft and plutocracy to the party of the workingman and of industry in low places as well as high stations.

At the conclusion of Mr. Blackmon's speech, which was received by the audience with enthusiasm, Mr. Mullins introduced Alabama's next Lieutenant-Governor, Hon. Walter D. Seed, of Tuscaloosa.

This gifted son of Alabama was in fine fettle, and for more than an hour he gave to his listeners a strain of eloquence and an array of facts and figures which reached the hearts and convinced the minds of all who heard him. Governor Seed's speech was devoted almost entirely to the grasping activities of the Republicans in high places; their responsibility for the high cost of living and their utter disregard of promises made to the people when they agreed to revise the tariff and place the necessities of life within the reach of all.

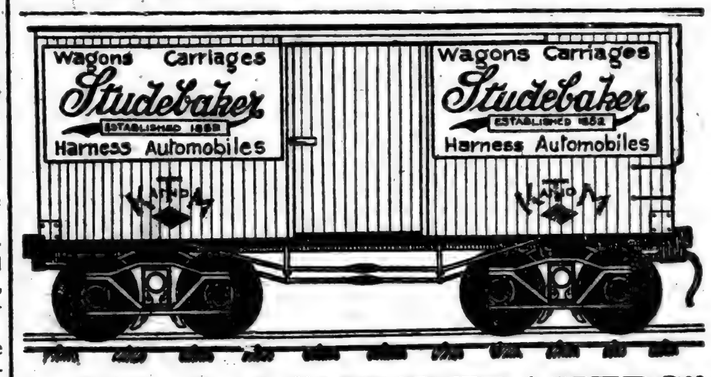
Mr. Seed's address concluded, Governor Emmet O'Neal, who had arrived on the late train from Montgomery, was introduced to the waiting assembly.

Along with Governor O'Neal came Judge Wilkinson, Examiner of Public Accounts; Hon. H. J. Willingham, nominee for Superintendent of Education; Hon. C. Brooks Smith, Democratic nominee for Auditor; Hon. Frank N. Julian, Democratic nominee for Railroad Commissioner; Hon. P. G. Bowman, of Birminham; Hon. R. H. Mangum, of Selma, and others.

Governor O'Neal being introduced entertained his auditors for more than an hour in a brilliatn speech. An orator of rare ability and a political scholar without a peer, he went into the theories of government as advanced by the Republican party and as practiced by them, and showed conclusively that under such a system the poor laboring men of the North and the toiler of the South were put at a decided disadvantage, and that the spoils system of the Republican party was not only inquitous in the extreme, but that it was positively dangerous to the white men of this land. He produced figures from Republican sources to show that the farmer of the South was merely a producer of wealth for the money magnates of the North; that the laborer of the South toiled merely that he might pay high prices for living into the coffers of the millionaire Republicans of the North. And so for some length of time the Governor showed to the assembled multitude that the interests of the laboring people, and especially those of this section of the country, lay with the Democrats, who had pledged themselves to reduce the tariff and to place the necessities of life and many of its luxuries within the reach of every toiler in the land. Governor O'Neal's speech was well received and loudly applauded by those who were fortunate enough to hear him. It had a telling effect upon the large number of Republicans who had gathered to partake of the hospitality of their Democratic friends and to hear the ACTUAL facts spoken by men in high places, who had no incentive to deceive them and who were seeking only to present the facts as they actually exist. Just here it would be well for our readers to pause and think. The men who spoke on this occasion are men of high political and social standing. It is true they are candidates for public office, but every one of them will be triumphantly elected whether they receive one single vote from Chilton county or not. They will hold the reins of government in this State for the next four years, even though they should not receive the endorsement of one single voter in this county. They are as sure of election as the 8th day of November is sure to arrive on schedule time. What object then could these honorable Christian entlemen have in coming to Clanton and telling a pack of falsehoods? What would it profit THEM to get up in the presence of three thousand intelligent people and tell them things which are not strictly true? Why should they perjure themselves before an assembly of people whom they have never seen before when there is nothing to gain by the perjury? They would scorn to speak an untruth even to advance their personal or political interests. Why, then, should they, with nothing at stake, attempt to lead our people astray or tell them things which have no foundation in fact? Remember that these gentlemen have not only statewide reputations, but that they stand high in the NATIONAL party councils. They would not for a moment dream of speaking an untruth or attempt to lead white men into paths of deceit and falsehood. They have their own reputations to maintain, their own honor to keep bright and untarnished, and it would be the height of folly for such men as Blackmon and Seed and O'Neal to come to Clanton and for the sake of a few votes falsify the issues of the day or speak an untruth.

You men who seem to doubt the statements made by these gentlemen pause a moment and ask yourselves: "Why should they attempt to deceive me?" Why should they utter falsehoods when the truth would be better [illegible]

The Calera Bakery



Desires to announce to the good people of Clanton that Mr. J. E. Evans is agent for our breads and cakes. He receives a fresh shipment daily.

Our goods are the equal of those found anywhere on earth. The bread is light and wholesome. The cakes are pure and delicious.

Ca'l upon Mr. Evans when in need of Pure Bakery Goods.

FRED KAUFFMANN

MADE TO MEASURE GARMENTS

ARE THE MOST PERFECT UNDER THE SUN

Several million people know the fine made-to-measure clothing for men made by *Fred Kauffmann*, Chicago.

This tailoring organization has built up the greatest made-to-measure business of the country, running into so many million dollars that you'd use up thumbs and fingers tallying it off.

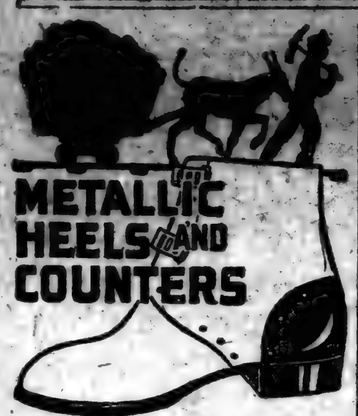
This vast business has been won—and is being held—by carefulness.

Their designers get larger salaries than the members of Taft's Cabinet; their buyers of cloth are national experts; their standard for cloth, at our suggestion, is absolutely all-wool.

Fred Kauffmann secured us as representatives with the determination of making *Kauffmann* tailoring as standard in this vicinity as are Elgin or Waltham watches.

Tailoring that is guaranteed by seven simple words, namely: YOUR MONEY BACK UNLESS WE PLEASE YOU. This guarantee is backed by the mill, the maker and us.

Kauffmann has sent us a message: *"We'd like to spend some money to further entrench our tailoring. What would you suggest?"*



Our answer was: *"Spend it by giving us a reduction that will capture the town."*

The best way to win trade for *Fred Kauffmann* tailoring is to get it on men's backs. It will win their permanent friendship, and so we will take your measurement for made-to-your-personal-order garments at prices which have never before been quoted for *Fred Kauffmann* tailoring, namely:

COATS & TROUSERS to Measure	SUITS to Measure	OVERCOATS to Measure

Jrggsby—I couldn't remember any of mine the morning after.

Someone Might Get Hurt.

Pietro had drifted to Florida and was working with a gang at railroad construction. He had been told to beware of rattlesnakes, but assured that they would always give the warning rattle before striking.

One hot day he was eating his noon luncheon on a pine log when he saw a big rattler coiled a few feet in front of him. He eyed the serpent and began to shift his legs over the log. He had barely got them out of the way when the snake's fangs hit the bark beneath him.

"Son of a guna!" yelled Pietro. "Why you no ringa da bell?"—Everybody's Magazine.

Tribute to Hold-Up Artist.

"The train doesn't stop at Crimson Gulch any more."

"No," replied Three-Finger Sam.

"I'm afraid the town doesn't get much respect from the railroad."

"Respect! Why that railroad is clean terrified. Ever since the news got around that Stage Coach Charley had settled here that train jest gives one shriek and jumps out of sight."

The years write their records on men's hearts as they do on trees—inner circles of growth which no eye can see.—Saxe Holm.

PUZZLED
Hard Work, Sometimes, to Raise Children.

Children's taste is ofttimes more accurate, in selecting the right kind of food to fit the body, than that of adults. Nature works more accurately through the children.

A Brooklyn lady says: "Our little boy had long been troubled with weak digestion. We could never persuade him to take more than one taste of any kind of cereal food. He was a weak little chap and we were puzzled to know what to feed him on.

"One lucky day we tried Grape-Nuts. Well, you never saw a child eat with such a relish, and it did me good to see him. From that day on it seemed as though we could almost see him grow. He would eat Grape-Nuts for breakfast and supper, and I think he would have liked the food for dinner.

"The difference in his appearance is something wonderful.

"My husband had never fancied cereal foods of any kind, but he became very fond of Grape-Nuts and has been much improved in health since using it.

"We are now a healthy family, and naturally believe in Grape-Nuts.

"A friend has two children who were formerly afflicted with rickets. I was satisfied that the disease was caused by lack of proper nourishment. They showed it. So I urged her to use Grape-Nuts as an experiment and the result was almost magical.

"They continued the food and today both children are well and strong as any children in this city, and, of course, my friend is a firm believer in Grape-Nuts, for she has the evidence before her eyes every day."

Read "The Road to Wellville," found in pkgs. "There's a Reason."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

CLANTON'S BIG DAY.

(Continued from Fifth Page.)

KNOW that though they may have told you things about the Republican party and its system of treachery and graft that are not pleasant to hear, YET they TOLD THE TRUTH.

When Governor O'Neal had concluded his convincing and masterful address the people were invited by Mr. Mullins, as chairman, to partake of an old-time barbecue and basket dinner. Around the table which had been erected for the occasion gathered not less than 2,500 people, all the guests of the Democracy of Chilton county. Here was barbecued beef, mutton, kid and shoat in abundance, and to these toothsome meats were added an abundance of bread and pickles, while all along the table the good ladies of Clanton had spread cake and pie, salads and other good things to tickle the palate and satisfy the appetite of an epicure. Too much praise cannot be given to the good women—the best Democrats in the land—for their part in the day's celebration. They worked untiringly and earnestly to make the day one long to be remembered, and that they succeeded well needs not to be told.

The crowd was estimated at 3,000 by many people who are accustomed to large crowds, and they were not far wrong in their figures. Preparations had been made to feed 2,000 and more, and that every one present was abundantly filled cannot be successfully disputed. The crowd ate to their fill, and yet there was left of the good things many baskets full, which were carried away to the homes to make glad the hearts of others.

A dancing pavilion had been erected for the pleasure of the young folks, and to the strains of pleasant music they tripped the light fantastic toe between speeches. Then, too, there was the refreshment counter, to which many went to cool their parched lips and to enjoy the delicious creams that had been provided.

After the dinner hour and when all had been refreshed the speaking was resumed.

Hon. P. G. Bowman, of Birmingham, was introduced, and, taking his text from the REPUBLICAN CAMPAIGN BOOK—a book gotten out by the REPUBLICAN PARTY—he went into detail and showed how that party stood for engro equality, how it gave over $3,000,000 in offices to the negro while the poor white man of the South was utterly ignored. He read from this same REPUBLICAN CAMPAIGN BOOK to show that the REPUBLICAN party is contending all the while for equal accommodations in schools, hotels and on railroads. In other words, they wish to put the white man next to the engine in order that the NEGRO may sit in the rear coaches and enjoy himself; they want the negro to sit at the tables in the best hotels, while the white man waits till his brother in black has been served with the best; they want our precious girls and boys to associate with the negro kids at school; they want our daughters and sons to teach the kinks; they want our sisters and wives to receive them on terms of social equality and entertain them in their parlors. THESE and other things are what the REPUBLICAN CAMPAIGN BOOK claims that the Republican party is attempting to do for the negro. Now, be it well understood this REPUBLICAN CAMPAIGN BOOK is not intended for use in the South; that is, that part which refers to the negro is not intended for use among Southern people, BUT we challege JUDGE REYNOLDS, W. C. EDLER or any other of the Republicans to deny that these things are set forth in THEIR OWN party book, and that they urge these things among NORTHERN and WESTERN men as reasons why they should vote the Republican ticket. They are stated PLAINLY in their book and are spoken plainly from Republican platforms when they are NOT addressing SOUTHERN white men.

All these things Mr. Bowman brought to the attention of the crowd, and he was particular to tell them that IF they complained of the NEGRO in politics they MUST charge the Republican party with it, for it was that party which was bringing him into politics. The Democratic party had disfranchised him and had done all that it or any party could do to rid our white people of the negro, yet the Republican party persistently insisted upon the negro coming into the party councils and naming party candidates. All these things he read from their OWN book, and asked the white men of this county to come along with the Democrats and put an end to the talk about the negro.

Just here the editor wishes to say that he has read the Campaign Book of the Republican party for 1908 and 1910, and he knows that these things are URGED by the Republicans as reasons why the people should support that party. If, then, any one feels aggrieved because The Press calls attention to them let him understand that it is the REPUBLICAN party, to which Reynolds and Edler belong, that is FIRST and FOREMOST in its love for the negro and in its activity FOR the negro. They will tell you NOTHING about their party and its principles except that which they want you to know, and they persistently deny that their party stands for such things, but we ask all fair-minded Republicans who WANT to know the truth to READ their OWN BOOKS for themselves and we challenge either of the men pretending to DENY that what we say is absolutely TRUE.

They may HIRE some little weakling to write articles in the paper attacking the Press man, but that amounts to nothing. We pay no attention to the driveling of a party crazed fool or the mud slinging of an officeseeker who recognizes that at last his chicanery will not be longer tolerated.

After the conclusion of Mr. Bowman's speech that ardent young Democrat and silver-tongued orator, Hon. R. H. Mangum, was introduced to the audience, and in a graceful speech of half an hour or more he delivered telling blows to the braggart Republicans who have heretofore so skillfully covered their tracks and deceived the people. Mr. Mangum based his plea for support of the Democratic party and principles upon the high ground of justice, equity and common sense. He begged them to remember his predictions of two years ago and to recall how those predictions had all come true. He besought them to align themselves with the party which was seeking their betterment rather than their poverty. This orator touched the hearts of his audience when he spoke of the days that are past and how in those days alluring promises were made by Republicans only to be broken in the keeping.

After him came Capt. Rueben F. Kolb, the Democratic nominee for Commissioner of Agriculture. This stalwart Democrat was once the pride and joy of Chilton county hearts. It was to follow him into measures of reform that they left the party of their fathers. It was to vote for him that the People's party was organized in Alabama.

Captain Kolb told his listeners that he had come back into the Democratic party to stay; that he had discovered by personal association and experience that it was the only party for the people of the South; that he had accomplished in the Democratic party what he started out to accomplish, and that no true lover of the Southland could afford to affiliate with any other party and be true to his women and children.

Captain Kolb asked them WHY they were not in the Democratic party. Said he: "You followed me off to accomplish certain reforms. You went with me because you felt that there were things to be done which I, with your aid, could do. Now we have done those things; we have accomplished our purposes; we have secured from the Democratic party every request that we made of them; we have all that our platform demanded and all that we undertook to accomplish in every way. Come on back with me now and let's keep the old ship of state in the middle of the stream. Come on back and let's give to the people of Alabama a beneficent administration. Come on back with me and rally around me, and as your Commissioner of Agriculture you will find in me a friend, just as I was in the olden days. Don't go off into the party of our enemies, but stand by those who have stood by you and who have granted you every request. Help the Democracy not only to advance the interests of this country, but to make our homes secure and our firesides happy." The old hero of other days was at his best, and in a burst of enthusiasm he pleaded with his friends not to line up with the office grabbers and the personal profit seekers, but to stand by the party which during all the years of his life had protected his home and theirs, had given security to his wife and theirs, had fought his battles and theirs, and which was now seeking the aid of the people of Chilton county to better the conditions of our farming classes and our laborers. His was a patriotic appeal to our people to align themselves not so much with a party as against wrong in high places and graft by those in power.

When Captain Kolb had concluded his speech cries were made for Willingham and Smith and Julian and others. The people were not yet tired of listening to Democratic creed and Democratic principles, although they had been patiently standing for more than five hours. Mr. Willingham in a short, but thoroughly Democratic speech addressed the crowd and amused his audience by his references to his Adonis-like beauty.

After te conclusion of the speeches the thoroughly contented crowd returned to town and enjoyed themselves in pleasant conversation till the coming of the afternoon trains.

Many were the congratulations showered upon the committees for their activity, they systematic arrangement of every detail of the work and for the bountiful and splendidly prepared dinner.

Governor O'Neal and others of our guests were heard to say that though they had attended many public dinners and had seen larger crowds, yet they were pleased to announce that they had never attended one where the dinner was quite so tempting and the ladies quite so handsome, where the crowd was quite so orderly and the arrangements quite so complete.

This should be a matter of congratulation not only to the committees, but to every citizen of Chilton county. Clanton and the county did themselves proud on Saturday, the 17th. We won the hearts of all our visitors and captivated the minds of many of our own people who had heretofore believed that "nothing good could come out of Nazareth."

But one of the most pleasing things [illegible]

Notwithstanding the fact that they had been advised by the Republican sheet to remain away from the grove, notwithstanding every effort to was bent by that paper and its friends to again deceive the people and to keep the TRUTH from them, notwithstanding that they were advised that they would hear nothing but negro, they came in crowds, they came on foot, on horseback, in carriages and on the trains, and we have the first gentleman or lady yet to meet who will say that one word was uttered during the entire day which would give offense to the most sensitive. Old man John Baker (and we say it with respect and reverence for his age) was there and occupied a seat upon the platform. He heard every word that was spoken; he shook hands with all the visitors, and we venture our reputation as a truthful reporter of facts that Uncle John Baker will not say he heard one word which offended him in the least. This old father in Israel was voting the Republican ticket when Judge Reynolds and Edler were wearing their swaddling clothes, and we venture the assertion that he heard nothing, either spoken or intimated, which made him sorry that he was there.

There were other Republicans of high standing there, and none of them had aught but kind words for those who spoke or those who had the management of the affair in hand. There were many ladies there, but not one can repeat a single utterance that could not with propriety be spoken in the presence of the most refined ladies. There were young ladies there, ladies of culture and refinement; not one but will tell you they heard nothing but cold facts and eloquence.

Your recent nominee for Congress and his good lady were there, and we were glad to have them; your commissioners were there, and we enjoyed their presence; your county officers were there, and they heard nothing offensive. The predictions of that sheet which has heretofore deceived the people of this county and which is yet bending its every effort to hole them in thraldom to the contrary notwithstanding, it was a field day for the Democrats of Chilton county and a complete refutation of the deceitful slander of that Republican sheet, which would gladly hold the people continually in ignorance and in animosity. Let him deny the FACTS. His own party associates were there, and they KNOW now for themselves. They have had their eyes opened, and they realize NOW, if they never realized it before, that deceit and prejudice has been its main stay and that it has lived upon the prejudices of the people among whom it has flourished and grown rich, but which it still attempts to hold within its rasp by playing upon their prejudices.

Let it now come out in the OPEN; let it tell what is in that REPUBLICAN Campaign Book; let it tell the TRUTH and the WHOLE TRUTH about its party conventions and the delegates who attend. Let it no more try to deceive the people of Chilton county by its denials, its makeshifts and its play upon words. The people of the county have SEEN and HEARD for themselves. Shell the corn down; tell the FACTS and let Chilton county people JUDGE for themselves.

It pretended to play upon the prejudices of our people by saying that our Republican friends were not invited to the barbecue and that they would be insulted in the speaking, notwithstanding the fact that in The Press for weeks has stood the invitation to ALL to come and receive a hearty welcome. That paper KNEW every Democrat and Republican and Socialist in Chilton county and surrounding country was invited. It was bound to know it, for the invitation stood and our committees sent the word broadcast.

Will it now have the manhood to confess? Will it tell the people the FACTS, or will it go on in its path of deceit and prejudice?

Shell the facts down to the people and let THEM be the judge, and upon their judgment The Press is ready to fall or stand; we are willing to let WHITE men of the SOUTH judge us; we are ready to accept their verdict, but we want them to know the facts and not be led by designing tricksters who have come in amongst us and grown rich at the expense of our people by playing petty politics and trying to keep the actual truth away from them.

GIVE ALL THE FACTS and STAND with these blue-eyed white people. TELL THEM THE TRUTH and LET THEM pass JUDGMENT.

All in all it was a day long to be remembered in the history of Chilton county; Democrats and Republicans alike join in pronouncing it a day of pleasure and profit; a day when the FACTS were revealed and the falsehoods of many months unmasked.

If was a love feast, not merely of Democrats, but of men who delight in fair play and who are going to stand for sincerity and square dealing by our public officials.

Reflections

I'd hate to be a city park,
For I should shrink with doubt
When people came to fence me in,
For fear they'd lay me out.

I'd hate to be a house and lot—
To grief I should be moved
When people came and said: "It's not
So very well improved."

I'd hate to be a harvest field—
Such fate would make me bawl;
Unless my presence were concealed
They'd thresh me every fall.

I'd hate to be a mountain high—
Indeed, I'd be appalled
If people climbed to find out why
I was so very bald.

I'd hate to be a little brook—
This feeling is not shammed,
For mill prospectors might but look
And then I might be dammed.

That Man Once More.

The man with the iridescent whiskers sidles into the office and immediately finds his way to the desk of the shackled hireling with the frayed cuffs and the unafraid bald spot.

"I haven't been in for a long time," he says.

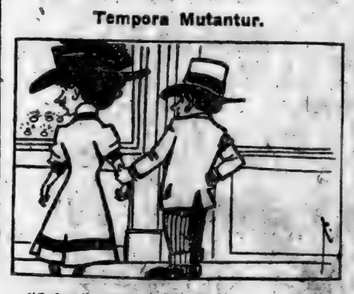
"It hasn't seemed long," is the response.

"I thought of a clever little thing you might work up in your own way," begins the man with the iridescent whiskers. "These ideas come to me every now and then, and I believe in passing them along. Whenever I can lighten the task of a friend, I am always glad to do so."

"Yes? You said you had an idea?"

"Yes. It's a conundrum. You can fix it up to suit yourself, but the general style of it is like this: What is the difference between a man with pictures all over him who draws a large salary as a freak in a side show, and a huge billboard covered with posters about auto horns?"

"It's pretty deep. What's the answer?"



"One is tattooed, the other is toot ad."

"What?"

"One is tattooed—the man, you see; and the other is toot—"

But far over the distant hills the breezes were racing in the pale glow of the twilight, and on the mountainsides the great trees were murmuring one to another in the mysterious language of nature, while high in the sky a single cloud drifted slowly into the hush.

Tempora Mutantur.

"John," said the bride of a year, as she stopped her husband before the window of a jeweler, "before we were married you used always to bring me around to this store, and we would look at the pretty things and would talk about which piece of jewelry would suit me best. Do you remember?"

"I do," acknowledged the fond husband. "But let us hurry on to the grocery store and see what is in that window."

Mildred's Memory.

"Mildred, here is your grandpappa to come to visit us. Now, do you remember what I said about how nice you must be to him?"

"O, yes, mamma, dear. I remember that you said I must be as nice as I know how to him, because we have as much right to a part of his money as any of the rest of the kin when he dies."

A Refined Torture.

"And do you never have any cold waves here?" asks the visitor of his satanic majesty.

"Not any," explains Mephisto, who has been showing the newcomer about the realm, "but we have a weather bureau that is always predicting one."

ACT PROMPTLY.

Kidney troubles are too dangerous to neglect. Little disorders grow serious and the sufferer is soon in the grasp of diabetes, dropsy or fatal Bright's disease. Doan's Kidney Pills cure all distressing kidney ills. They make sick kidneys well, weak kidneys strong.

H. A. Townsend, 19 Knox St., Dansville, N. Y., says: "I am satisfied I would not be alive were it not for Doan's Kidney Pills. I endured agony that no tongue can describe. Doctors did their best but could not help me. Doan's Kidney Pills restored me to health and strength."

Remember the name—Doan's. For sale by all dealers. 50 cents a box.
Foster-Milburn Co., Buffalo, N. Y.

IN THE ART GALLERY.

Mr. Hayrick—Mandy, this here catalogue says thet thet artist got $5,000 fer paintin' thet little picture.

Mrs. Hayrick—My gosh, Hiram! I wonder what on earth he'd charge fer paintin' a barn?

Public Want Ads.

Wanted—Several nice old gentlemen to represent us financially. Nothing to do but utter wise remarks and indorse dividend checks. Good wages, from fifty to one hundred millions a year.

Wanted—A financier who will guarantee to keep us supplied with half-colleges and half-libraries while we supply the other halves. No experience required. Good rake-off.

Wanted—At once. A large number of stockholders to take charge of our food supply and keep us from eating too much. No regular hours. Palm Beach in winter. Adirondacks in summer.

Wanted—A few select persons to represent us socially and do the things we haven't time for. No brains needed. All expenses paid. No worry. —Success.

Confusing.

Craig Biddle, at a dinner in Newport, was describing the changing odds on the Jeffries-Johnson fight at Reno.

"Eight to four and a half on Jeffries—nine to six the other way about—three to one and a quarter—it's rather confusing, isn't it?" he said. "In fact, it's almost as confusing as the two girls' talk about a secret.

"'Mary,' said the first girl, 'told me that you had told her that secret I told you not to tell her.'

"'The nasty thing,' said the other girl. 'I told her not to tell you I told her.'

"'Well, said the first girl, 'I told her I wouldn't tell you she told me—so don't tell her I did.'"

A Handicapped Official.

"You let some of the swiftest auto scorchers get by without a word?"

"I know it," replied the village constable. "My glasses don't suit my eyes like they used to, and I can't do eyes like they used to, and I can't do anything with an auto that ain't goin' slow enough fur me to read the number."

Could Wait.

"Why didn't you stay to ascertain how badly the man was injured?" demanded the judge.

"Why," explained the chauffeur, "I knew I could find out from the daily papers."

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM

Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria and the Iron builds up the system. Sold by all dealers for 30 years. Price 50 cents.

The Modern Polonius.

"Now, my boy, don't expect to work wonders in this world."

"All right, dad."

"You can get quicker returns by working suckers."

For COLDS and GRIP

Hicks' CAPUDINE is the best remedy. It relieves the aching and feverishness—cures the Cold and restores normal conditions. It's liquid—effects immediately. 10c., 25c., and 50c. At drug stores.

The sand is flowing out of the glass, day and night, night and day; shake it not. You have a work here.—General Gordon.

Music lends expression to that for which the speech has no words.—Carmen Sylva.

Absence makes the picture post cards accumulate.

MEET IN CONGRESS AT ROME

International Gathering of Foes of Tuberculosis to Be Held Late in September.

Official announcement of the Seventh International Congress on Tuberculosis, which will include representatives from every civilized country in the world, has been made by the National Association for the Study and Prevention of Tuberculosis. The congress will be held in Rome from September 24 to 30, 1911, and will be similar in many respects to that held in Washington in the fall of 1908. The congress, which meets every three years, will be under the direct patronage of the king and queen of Italy.

An American committee of 100 will be appointed as the official representatives of the United States. Meanwhile the National Association for the Study and Prevention of Tuberculosis is acting in that capacity and its office in New York will be the headquarters for the United States delegation. The secretary general of the congress is Prof. Vittorio Ascoli of Rome.

As a direct result of the stimulus of the last international congress held in this country, the American committee will be able to report that the number of tuberculosis agencies in this country have been tripled in the three years. More than twice as much money is being spent in the fight against tuberculosis by private societies and institutions, and the appropriations of federal, state, municipal and county have increased nearly fourfold. It is estimated that nearly $15,000,000 will be spent in anti-tuberculosis work in 1910.

FOR THE SKIN AND SCALP

Because of its delicate, emollient, sanative, antiseptic properties derived from Cuticura Ointment, united with the purest of cleansing ingredients and most refreshing of flower odors, Cuticura Soap is unrivaled for preserving, purifying and beautifying the skin, scalp, hair and hands, and, assisted by Cuticura Ointment, for dispelling itching irritation and inflammation and preventing clogging of the pores, the cause of many disfiguring facial eruptions. All who delight in a clear skin, soft, white hands, a clean, wholesome scalp and live, glossy hair, will find that Cuticura Soap and Cuticura Ointment realize every expectation. Cuticura Remedies are sold throughout the world. Potter Drug & Chem. Corp., sole proprietors, Boston, Mass. Send to them for the latest Cuticura Book, an authority on the best care of the skin, scalp, hair and hands. It is mailed free on request.

Pierp's Appetite

J. P. Morgan, Sr., was always a good trencherman in his youth and he has as good an appetite today as he ever had, not only for corned beef and cabbage—his favorite dish—but for other foods. If the Morgan, who dazzled the Teutons with his mathematics when he was a German university post-graduate student, had accepted the chair of mathematics offered to him by Heidelberg, instead of his Yankee corned beef and cabbage it might have been frankfurters and sauerkraut.—New York Press.

Perfectly Harmless.

A little girl of three years, whose father had bought her some firecrackers and sky rockets for the Fourth of July, wanted to know what they were for. On being told their purpose, she anxiously inquired if they would hurt anybody. When told they would not, she seemed relieved, and that night, when saying her prayers, she added: "An', Dod, don't 'oo be 'fraid of sem poppin' fings when sey make a noise tomorrow, 'tause sey won't hurt 'oo."

Nothing of the Sort.

"Have you any avuncular relations?"

"Nary one. Ain't no disease of any kind in our family."

Bermuda Onion Seed.

Attention Sick Women

If you had positive proof that a certain remedy for female ills had made many remarkable cures, would you not feel like trying it?

If during the last thirty years we have not succeeded in convincing every fair-minded woman that Lydia E. Pinkham's Vegetable Compound has cured thousands and thousands of women of the ills peculiar to their sex, then we long for an opportunity to do so by direct correspondence. Meanwhile read the following letters which we guarantee to be genuine and truthful.

Hudson, Ohio.—"I suffered for a long time from a weakness, inflammation, dreadful pains each month and suppression. I had been doctoring and receiving only temporary relief, when a friend advised me to take Lydia E. Pinkham's Vegetable Compound. I did so, and wrote to you for advice. I have faithfully followed your directions and now, after taking only five bottles of the Vegetable Compound, I have every reason to believe I am a well woman. I give you full permission to use my testimonial." —Mrs. Lena Carmocino, Hudson, Ohio. R. F. D. No. 7.

St. Regis Falls, N. Y.—"Two years ago I was so bad that I had to take to my bed every month, and it would last from two to three weeks. I wrote to you for advice and took Lydia E. Pinkham's Vegetable Compound in dry form. I am happy to say that I am cured, thanks to your medicine and good advice. You may use my letter for the good of others." —Mrs. J. H. Breyere, St. Regis Falls, N. Y.

There is absolutely no doubt about the ability of this grand old remedy, made from the roots and herbs of our fields, to cure female diseases. We possess volumes of proof of this fact, enough to convince the most skeptical.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

STANDARD OIL CO.
(Incorporated)

It was in this very cottage in Brookside, 15 miles from Birmingham, Ala., that three Italians nearly died of Fever. They had been sick 3 months. Johnson's Tonic cured them quickly—read letter below:

Brookside, Ala., May 4, 1908.
The two physicians here had 3 very obstinate cases of continued Malarial Fever. All were Italians and lived on a creek 50 yards from my store. These cases were of three months standing, their temperature ranging from 100 to 104. The doctors had tried everything in vain. I persuaded them to let me try Johnson's Tonic. I removed all the putrid matter and let the medicine go out in a plain bottle as a regular prescription. The effect in all three cases was immediate and permanent. They recovered rapidly and there was no recurrence of the Fever.
E. R. SHIVLETT.

The Latest New York and Paris Creations.

There's nothing to compare with KNOWLEDGE.

Knowing how to BUY is as great an art as knowing how to SELL.

We know both arts; we BUY wisely, we sell economically.

We spent two weeks in New York City inspecting styles, in order that you might have the latest from the most fashionable city in the world.

Our stock of Ladies' Furnishings is more complete this year than that shown by any other place between Montgomery and Birmingham.

We bought in New York at New York prices; we are going to sell in Clanton at UNPRECEDENTED prices.

Mrs. Breeden, a skilled trimmer of Nashville, who learned her trade under the masters of the larger cities and who assisted us in New York, will be with us this year to give you the benefit of her knowledge and skill.

There is nothing in the millinery art that cannot be found at our place.

Come to see our beautiful display—never before equalled in Clanton.

MISS MINNIE MUSE,
MILLINERY EMPORIUM.
We Give Piano Contest Tickets.

LOCAL and PERSONAL.

Mrs. Guy Higgins and Mrs. J. Watts Moore went down to Montgomery Tuesday morning on a shopping tour.

To get the best of everything that money can buy go to Upchurch Drug Co. They charge you no more, and you get exactly what you call for. tf

Mrs. Gamma Anderson is visiting relatives at Mt. Carmel.

Upchurch's is the place for refreshing drinks and delicious creams. Have you tried them? If so, you know; if you don't know, try. tf

Mr. and Mrs. Albert Thompson, of Prattville, spent last Sunday in Clanton as the guests of Professor and Mrs. J. W. Moore.

We always feel sorry for a man who has to act as chaperone to a poodle dog.

Mr. John Massey, of Birmingham, was a Sunday visitor to our city.

Alred Drug Co.'s fountain drinks are unsurpassed. Try them. We can show you. 2t

Mrs. Alice R. Middleton, after a pleasant visit to the home of Capt. W. A. Middleton, returned to her home in Houston, Tex., last Tuesday.

Don't forget to visit Higgins, the up-to-date Jeweler and Eye Man, when you come to town next Saturday. tf

Mrs. W. H. Sartor, who has been to Birmingham for several days, where she accompanied her daughter, Miss Elna, who enters Birmingham high school, has returned home.

The coolest drinks in town and the most delicious creams are served at Upchurch Drug Co.'s fountain. That's where to meet your best girl and set 'em up. tf

Miss Rosalie Moore is visiting her friends at Verbena.

The best, coldest ice cream in Clanton at Upchurch Drug Co.'s. tf

Rev. and Mrs. Gatie Vanderver left t Monday for Guard, Jackson county where Mr. Vanderver is to engage a protracted service. He has just sed one of the most successful etings at Deatsville ever held at at place.

Hey, did you buy that of Upchurch Drug Company? If so, you need no other guarantee. tf

Mr. Jim Huckabee is treading on thin air this week. He can scarcely anchor himself to Mother Earth. The stork visited his home last Monday and left ten pounds of precious human flesh in the shape of a bouncing baby, of which Mr. Huckebee is exceedingly proud.

Notice.

There will be a conference of the congregation of the Clanton Baptist church on Sunday, the 2d day of October, 1910, for the purpose of calling a pastor and for the transaction of such other business as may come before the conference.

H. T. PIPES,
Chairman Committee.

The following marriage licenses ve been issued this week: Mr. E. . Price and Miss Anna Franklin; Mr. A. Askins and Miss Estelle Headley; Gus McDaniel (colored) and Nancy Tucker (colored).

Your money's worth or your money back at Upchurch Drug Co.'s. tf

Mr. and Mrs. Mackey, of Ensley, were down from Ensley on last Sunday visiting the parents of the former.

Samuel Scott, the photographer, makes any size picture you may need. Also finishes up work for kodakers. tf

Mr. E. Hopkins left last Tuesday morning for a visit to his son in Birmingham.

Have you noticed that Scott, Clanton's photographer, is putting out the prettiest work that has been seen in these parts? His studio is in the Reynolds building. Look at his specimens when you pass that way. tf

Mrs. J. P. VanDerveer returned last Friday from a visit of some days to Montevallo and Maylene.

School bags, school books, school tablets, and, in fact, anything you want in the line of school supplies, for sale at Upchurch Drug Co.'s. tf

Mrs. Reynolds was among the Clanton visitors to the Capital City last week.

Buy your wife or best girl a box of Nunnally's candy at Upchurch Drug Co. Our customers demand Nunnally's or none. tf

On last Tuesday morning Dr. P. I. Hopkins accompanied his mother to Robinson's infirmary in Birmingham.

FOR SALE CHEAP—One two-horse power gasoline engine. Alred Drug Co., Clanton, Ala. 2t

Miss Lurline Harper left last Monday for Autaugaville, where she goes to spend the winter.

Mr. Harry Gordon left last Monday for a business trip through South Alabama.

You will do well to see Upchurch Drug Co. before buying your paint, linseed oil or anything in the paint line, as they have the goods, and the prices are right. tf

Mrs. Dr. Hayes returned last Monday from Montgomery, where she has been in attendance upon the bedside of Dr. Hayes, who is still confined at a local sanitarium.

Drink with us. The largest, cleanest and prettiest place in Clanton. Alred Drub Co. 2t

Mr. and Mrs. J. M. Potts and Mrs. Martin Nix and little daughter, Gladys, returned last week from an extended visit through the west.

See Upchurch's new line of jewelry, and remember in buying that they stand back of every piece of it—with the cash—should it not prove entirely satisfactory. tf

Mr. Joe Teel left last Saturday morning for Birmingham, where he goes to complete his course in stenography.

WANTED—Five thousand people in Chilton county to learn that ours is the best place in the State to buy drugs, stationery, etc. Upchurch Drug Co., the place where your dollar does its duty. tf

On last Sunday morning Mr. Mason Williams, a most estimable young man living just west of Clanton, was taken suddenly ill, and in a few short hours had yielded up his young life to the conqueror, death. Mr. Williams was a young man about 18 years old, and had a bright future before him. He was spared the terrors of a long illness, but his taking off is none the less to be regretted. He was a dutiful son and a young man who enjoyed the confidence and esteem of all who knew him. Loving hands laid him gently to rest on last Monday morning.

If it comes from Upchurch Drug Co.'s it's all right; if not, take it back and get your money. tf

News comes from down about Cooper that Mr. Tom Aleen had the misfortune last Monday night to lose his mill by fire. We have not heard any of the particulars, or whether or not there was any insurance upon the buildings and machinery.

Mr. and Mrs. W. J. Dennis are visiting relatives in Montgomery.

You will feel cool the moment you get before our fountain. Alred Drug Co., the home of quality. 2t

If you want to please your best girl take her a box of Nunnally's candy; present it with a pretty bow and see her smile with gladness. Upchurch is the place to get it. tf

A License for Liquors.

Under and by virtue of the law requiring such public notice to be issued by the Sheriff of the county, I, John S. Catts, Sheriff of Chilton county, Alabama, hereby give notice that a license has been issued by the United States revenue authorities to the Maplesville Social Club to deal in retail liquors, said license being dated July 1, 1910. J. S. CATTS,
tf Sheriff.

ADMINISTRATOR'S SALE.

Notice is hereby given that the undersigned was on the 12th day of September, 1910, appointed as the administrator of the estate of Thomas Benjamin Teel, deceased, by the Probate Court of Chilton county, Alabama; that letters of administration in the premises were issued to her by said court on the day of her appointment, and that all persons having claims against the estate of the said Thomas Benjamin Teel, deceased, are hereby notified to present the same within the time allowed by law or the same will be barred.

This the 12th day of September, 1910.

VOL. I. CLANTON, ALA., THURSDAY, SEPTEMBER 29 1910. NO. 26.

Register on Chilton 1

Howdy Do! How Are You?

The much talked-of season of hard time and business depression has failed to arrive; the prophecies of the chronic knocker are wanting in the fulfillment and the dire misfortunes predicted by the ever present calamity howler have died in the borning. Alabama, Chilton county and Clanton, instead of going to the bow-wows, as forecasted by would-be wiseacres, has gone steadily onward upon the road of material development that leads to certain success and abundant prosperity

We are enjoying the fruits of our labors as never before; the cry of poverty is hushed throughout this heaven blessed section; on every side is heard the tuneful tones of thrift and prosperity. The frugal farmer will not have to draw upon the store house of the West for his corn supply, for the harvest within our own fields is abundant in the extreme.

The cotton producer is satisfied with the results of his labors, and the shining coin which high prices for his staple enables him to secure and jingle in his jeans not only makes a gladsome sound to his ears, but fills his heart with joyful anticipations of a happy Christmas-tide. All things conspire to make his lot a pleasant one indeed.

The Chilton county farmer is fast assuming that place in the economic relations of life which his avocation predestined him to occupy—the front rank, a leader among the advance guard. Long faces have been succeeded by smiling countenances, and mortgaged homes and farms are soon to become happy firesides and productive fields of pleasure. Hard times have been vanquished and prosperity is victorious.

Contentment, peace and plenty are knocking at every door.

We are now entering upon an era of commercial development never heretofore anticipated; a season of rich rewards for honest toil is now dawning and will soon burst with noon-day splendor upon our people.

The farmers are happy, as they should be, for Mother Earth has yielded them rich trophies for their plucking; prices are soaring amid the radiant beauty of the stars; his products are in demand as never before.

Cotton is again King and Corn is the Prince Imperial.

What more could the planter desire to make his cup of gladness overflow?

Farmers of Chilton county, we greet you as the two-fold keepers and producers of our prosperity. You are they who have produced the wealth of our county, and upon your heads we pour our praises in unstinted measure. Y ou have earned your reward and should enjoy the fruits of your labors.

The merchant who has bought wisely and well rejoices at your success.

The cotton buyer whose heart beats in unison with your own delights in the opportunity afforded him to give you good prices for your staple; he who would withhold from you the best and highest the market affords is neither a friend to the farmer nor a wise man of business.

We want you to succeed, because in your success we also shall share.

We have bought not stingily, but well; we have purchased in keeping with your position and your desires; you want the best, therefore we supplied ourselves with the best, that we might accommodate both your taste and your demands.

Desiring to have you make our place headquarters, we have arranged to pay the very top notch for every pound of the fleecy staple brought to our store.

We want to have a hand in your prosperity; we wish to be remembered in your rejoicing.

Come to us with your samples; we will top the market on every occasion; call upon us for your wants; our large and varied stock enables us to meet your every requirement, and at prices that will make you glad for the visit.

We hate the chronic croaker; we despise the knocked a nd the pessimist. The old world is bright with hope, buoyant with success, happy in plenteous abundance. We want you to know that we rejoice at your season of success; you deserve it, and we hope you will enjoy it to the fullest extent.

Come to see us; your happy faces make us glad indeed.

Come whether you want to buy or sell, both or either or neither. We will be glad to greet you.

We are going to set the gait this year, and those who would keep up with us must clip it off at a merry chase.

Cordially yours,

W. KANTER & BRO.

The Cotton Buyers ... With the Stock

GENERAL NEWS.

ANOTHER CHARGED TO CHILTON.

Frank McEwen Dead—A Mountain Creek Tragedy.

Last week in the peaceful little town of Mountain Creek occurred one of the foulest murders that has taken place in this section of the State for many a day. Mr. Frank McEwen, a traveling salesman for the Birmingham Paper Company, had gone to the little village to visit relatives and incidentally to talk business with the merchants there. During his stay in Mountain Creek he was heard to say that he had collected considerable money for his firm from a Bessemer business house. This remark seems to be the key to his death.

While at Mountain Creek he visited the Old Soldiers' Home, at which place he had a nephew who was engaged around the home.

After leaving the home he seems to have wandered off into the woods some distance from the home, and that was the last seen of him alive, except by the party or parties who shot him to death.

Along about 2 o'clock in the afternoon, a young man testified, he heard a pistol shot ring out in the direction where the body of McEwen was afterward found, but that as pistol shots were not such infrequent occurrences in that neighborhood, he paid no particular attention to it. Two or three hours after this a Mr. Rice, an inmate of the Soldiers' Home, was strolling through the woods, and espied some one leaning against a tree in what he took to be an afternoon doze. Going up to the man, he spoke, but received no response. He then raised his hat to see if he could recognize the party, and, to his horror, discovered that he was dead.

Further examination showed that a pistol shot had been fired into the head of the man, and that he was cold in death. Returning quickly to the home, he reported his find, and an investigation was immediately started. Coroner D. N. Riggins was notified, and he went down to Mountain Creek and organized a coroner's jury to investigate the matter in a judicial way.

During the investigation on the first day suspicion seemed to rest upon a young white man of the place, who was put under arrest and brought to the Chilton county jail. Further investigation, however, relieved the young man of suspicion, and he was accordingly released.

Mr. McEwen was a man of about 50 years of age, married, though not living at the time of his death with his wife.

He has one son, who was employed in Birmingham.

After all the testimony had been adduced the following verdict was returned by the coroner's jury:

"The State of Alabama, Jefferson County.

"An inquisition taken at Mountain Creek, in said county and State, the 26th day of September, 1910, before me, D. N. Riggins, coroner of said county, upon the view of the body of Frank C. McEwen, there lying dead, and upon the oaths of W. W. Cobert, J. W. G. Kicker, Ed Smitherman, C. L. Brown, J. D. Sims and R. H. Long, good and lawful men, householders of said county, who, being charged and sworn to inquire for the State of Alabama concerning the deceased, Frank C. McEwen, who he was, when, where and how he came to his death, upon their oaths say and present that he came to his death by a gunshot wound at the hands of some party or parties unknown to the jury.

D. N. RIGGINS,
"Coroner."

This Space Belongs To

Clanton Millinery Co.

We are too busy to write an advertisement

In the Toils.

On last Monday night Town Marshal Morgan was called over in the direction of Wade's gin house by the indiscriminate firing of a pistol, and upon reaching the scene he discovered one of the McCall boys staggering about as if he had been filled with the fluid that inebriates. Marshal Morgan immediately took McCall in charge, and upon investigation found that he had upon his person a double action forty-some-odd. Two charges were lodged against McCall—that of being drunk and disorderly, and another of carrying concealed weapons.

Good Things to Eat.

The Ladies' Aid Society of the Methodist church desire to give notice that they will have a refreshment stand at the fair grounds during the week of the fair, at which place they will be glad to see all of their friends. Lunches will be served at moderate prices, so that no one need leave the fair grounds to secure refreshments.

(Advertisement.)

How About It?

Haven't you a room in your house that you have been threatening to cover with some bright, attractive matting, or a front room floor upon which you would like to place one of those handsome 9x12 Velvet or Axminster Art Squares? Perhaps there is a dining room floor that you would like to adorn with a large Crox rug. Doubtless you have a hallway for which you wish a handsome pair of portierre curtains, or some window in a cozy corner that would look better if you had it hung with nice curtains. We know that every lady could use a few more bright rugs. We have them in infinite variety and at different prices—just the size you want, too.

Now listen well: Aside from the new and well selected stock of dry goods, notions, shoes, etc., that we always sell cheap, and from which you can make a choice selection, we are going to offer one of the largest and best selected stocks of house furnishings ever exposed for sale in Clanton at prices that will astound you. The sale at these inordinately low prices will be for two days only, and those days are Thursday and Friday, October 6 and 7.

You cannot only beautify your home and please the good housewife, but you can save much money by taking advantage of this extraordinary sale. We invite you to inspect our stock to offer at prices that must move them.

Remember the place—
SPIGENER'S CASH STORE,

Fine Fruit.

Mr. J. D. Sims, of Fairview settlement, brought to Clanton on Wednesday morning a wagon load of the finest apples that this editor has ever seen grown on Southern soil. There were two varieties, the Ben Davis and the Black Mammoth. Three of the apples weighed 32 ounces.

They were of excellent flavor and rich color. What Mr. Mims has done in the fruit-raising line in Chilton county can be done by others. Why not try it?

DON'T MAKE 'EM TRUER.

Some days since that sterling Democrat and good citizen, Mr. T. U. Crumpton, wrote a letter to The Press in which he defined his position in so far as county politics is concerned. We have known all along that Mr. Crumpton stood four square on all Democratic policies and for all Democratic candidates. He, like others, may not always secure the candidates of his choice, but when it comes to "bolting" a ticket, he does not know what that means. There are few more staunch Democrats in all this country than is T. U. Crumpton. He was rocked in the cradle of Democracy and was reared in Democratic faith; those who think otherwise have another think coming to them.

BAPTIST PREACHING.

Rev. J. R. G. White, of Columbiana, Ala., will preach at the Baptist church in Clanton next Thursday, Friday and Sunday nights at 7:30 o'clock and on Sunday morning at 11 o'clock.

Everybody is cordially invited to attend these services.

McD. RUFFIN,
Secretary Board of Deacons.

The Press received a beautiful post card from that good citizen and sound Democrat, Mr. F. A. Gulledge, dated at Washington City. Mr. Gulledge is on his return trip home from an extended northern and western visit. Several entertaining letters were sent to The Press by Mr. Gulledge during his absence, to which we gave space for the benefit of our readers.

Don't forget to visit Hanlon, the up-to-date Jeweler and Optician, when you come to town next time.

One of the finest bodies of land in Chilton county. Two hundred acres. Two miles west of Clanton on the Clanton and Thorsby road. One hundred and sixty acres cleared land—the balance well [illegible] timbered as is this place. An ideal home for a thrifty farmer who wants to become rich. Fine pasturage. Will sell acreage to suit purchasers in tracts of not less than forty acres. This land must be sold. Such an opportunity will not again be presented to you. You'd better snap at this chance. For terms and further particulars call upon T. C. MARCUS.
tf

TAX NOTICE.

NATIONAL CAPITAL AFFAIRS

We Have Over Half of the New World

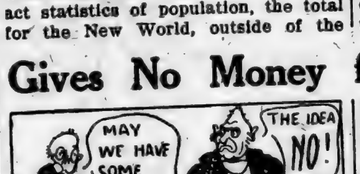
WASHINGTON—The indications being that the census will show the population of the United States to be over 90,000,000, it seems assured that the republic contains more than half of the inhabitants of the New World. It is quite probable that all of the remaining countries of this hemisphere have fewer than 80,000,000 inhabitants.

That point can never be settled definitely until conditions change radically in many extensive regions of Latin America. Now most of the states south of Mexico and north of the Argentine either make a farce of their census taking or else do not attempt it at any time.

Recent estimates, partly based upon census records, which have been made in South America and Central America, indicate that there are about 70,000,000 people living between the Rio Grande and Cape Horn, including the West Indies. Canada has perhaps 7,000,000, allowing for rapid growth since the census of 1901, and Newfoundland adds less than 250,000.

Unless the estimates, which seem most intelligently made, are very wide of the mark in several countries where there are no authentic and exact statistics of population, the total for the New World, outside of the United States, cannot exceed 80,000,000.

Brazil, much the largest country of South America, is the most populous in the Western Hemisphere, except the United States. It is probable that a full and careful enumeration of the Brazilians would show about 20,000,000 of them.



Mexico, only about 25 per cent of the size of Brazil in square miles, is safely established in third place among all the nations of the New World, as far as numbers go. In other respects the Argentine surpasses Mexico, and so does Canada. Their industrial output is greater and their foreign commerce is larger in every way.

Argentina and Canada are alike also, in growing so fast and with such assurance of continued swift expansion that they may overtake and pass Mexico. Their chief cities already surpass the largest civic centers in the country which Diaz makes his footstool. But now neither is within 6,000,000 of the Mexican total.

As a rule, with comparatively few exceptions, Latin America is rich in unsettled country. A very large part of the vast expanse of land south of the Mexican frontier, all the way to the southern end of South America lies open to settlement.

Some day such wealth in unused natural resources must cause great growth, but that is a matter of the indefinite future. For the present it is certain that the United States will hold its lead over the other countries of the New World, counting all of them together.

Gives No Money for Road Building

As regularly as the sessions roll around, congress sidesteps, smothers or overrides all propositions which would embark the government in the business of road building. The logic and importance in the outcry for "goodroads" is universally admitted; but everybody's business comes perilously near having nobody's attention.

Some communities, townships, counties and a few states have made more or less real progress towards improved [illegible] obtaining "through routes." But, despite all that has been said for a revival of road building, notwithstanding editorial support from publications of all partisan shades, the movement as yet has no central organization which presses the work along broad lines.

The federal government thus far cooperates only by giving advice. It maintains a small bureau in the department of agriculture devoted first to the propaganda of the good roads idea and secondly to the maintenance of a limited corps of experts, who, when their assistance is solicited, will make suggestions as to the best methods for road building under given circumstances, and to a certain extent, experiments in the use of materials are conducted by the specialists of this bureau. Here the government stops, for the reason that dominant view in congress has been that this properly delimits the government's function.

Representative Anthony of Kansas introduced a bill in the house last winter for the construction of a military highway between Fort Leavenworth and Fort Riley, 100 miles, by convicts in the two federal penitentiaries at Fort Leavenworth. The bill was lost after a debate that developed into a general discussion of the good roads movement.

The measure had the indorsement of President Taft, the chief of staff of the army and the quartermaster general. In a letter to Representative Anthony that the proposed road would unquestionably be of great military value and convenience." Farmers of many townships through which the proposed road would run offered to supply all the rock and other material to be used in its construction.

Like others of its kind, this measure was wrecked upon constitutional rocks. The opponents of the bill contended that General Bell did not claim the road to be a military necessity, and that, if not done for this purpose, the government could not build it, because the constitution authorizes the construction of only such roads as are required to meet military necessities and post roads.

Capital Boys Are to Be Suppressed

REGULATIONS to protect children from danger of injury and to have them looked after for violations of the regulations are to be enforced by the Washington police.

"The danger to children who make playgrounds of the streets," says Maj. Sylvester, "has been long since established. Now that there are public playgrounds in different sections of the city the children should use them rather than risk their lives."

Complaints against children playing on the streets sometimes cause a peck of trouble to the police.

Children jump upon moving street cars. Others stand upon the streets. Others are loud and boisterous.

"Death and accident have been caused by street cars and other vehicles," the superintendent of police says. "On the other hand, children playing on the streets have caused destruction to property.

"Ball playing on the streets," he continued, "has resulted in complaints on account of noises and broken windows. The same hue and cry is raised when vacant lots are used for baseball and other games. At times, in certain localities, large and noisy gatherings are attracted."

Street corner gatherings are to be broken up, the superintendent says. Indulgence in profanity and other bad language is to mean punishment. All offenders who are caught will be prosecuted. The police think that keeping boys off the streets at night would accomplish much good.

Government Has No Hall of Records

As the country has been told about once a day for the last 20 years, the United States Government has no hall of records, no place where it can keep the valuable documents which from time to time it is necessary to clear out of the departments and put some place for safe keeping. This being the case when a fire broke out the other day under the offices of the geological survey there was wild excitement. In the basement of the store that got on fire are the records and archives of the geological survey. These are invaluable and if destroyed could never be replaced. Yet the United States Government is content to house its different departments in rented buildings all over Washington, and the constant danger threatens the destruction of valuable archives whenever a fire breaks out, and there is not any reason why a fire should not break out in a non-fireproof building.

The loss of government property in this fire is thought to be less than $1,000, but in the library over the fire was a unique collection of geological literature containing more than 65,000 volumes, 35,000 pamphlets and 16,000 maps, the most complete collection of geological works and maps in this country if not in the world.

What the United States Government needs is a magnificent hall of records, where all the valuable archives of the government might be stored in absolutely fireproof vaults. Some day after a few hundred million dollars' worth of these valuable records have been destroyed [illegible] will have to go on a hall of records.

Clanton High School,

CLANTON, ALABAMA.

For the scholastic year 1910-1911 this institution will conduct a nine months session, which will begin on Wednesday, September 14th, 1910. A sufficient teaching force, consisting of the Superintendent and at least three assistants, have been engaged to teach through the Third High School year, which includes such studies as Latin, Geometry, Physics, etc.

The institution offers an exceptional opportunity for students to prepare for examination to secure first grade State certificate. Students who attend the full session will be allowed the benefit of the public money. Rates of tuition will be made satisfactory. Board can be had in private families at reasonable rates. The health of Clanton is the best. A successful scholastic year is expected. Students, parents or guardians desiring information will be cheerfully furnished with rates of tuition, board or such other information that may be desired, on application to W. W. MONROE, Superintendent, or the Secretary of High School Board, Clanton, Alabama.

Many Farmers

WHY would like to keep an account of their receipts and expenditures if some one would keep it for them.

Open a Bank Account with the People's Savings Bank and you will find the account keeping with no expense.

NOT Your Checks are always evidence of date and amount of all disbursements and your deposit both shows the date and amount of your receipts. Many of Your Friends and neighbors have their accounts with us. Why Not You? Don't wait for a big start—any amount offered, whether large or small, is cheerfully accepted. It is a handy convenience to the farmer as well as the business man.

YOU!

SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Ernest Welch, Riderville, Chilton county, out of the goods, chattels, lands and tenements of the said Ernest Welch, I have levied on the following property, to-wit:

One upright Star piano.

Therefore, according to said command, I shall expose for sale, at public auction, all the right, title and interest of the above named Ernest Welch in and to the above described property on Tuesday, the 4th day of October, 1910, during the legal hours of sale, at Riderville, Chilton county, Alabama, to the highest and best bidder for cash.

Dated at Clanton, Ala., this 19th day of September, 1910.

J. S. CATTS,
Sheriff of Chilton County, Alabama.

ORDER OF PUBLICATION.

The State of Alabama, Chilton County—Chancery Court—Seventh District—In Vacation Term, 1910—Walter Woods, Complainant, vs. Ella Gunn Woods, Defendant.

In this cause it is made to appear to the Register by the affidavit on file of John W. Lapsley, solicitor for complainant, that the defendant, Ella Gunn Woods, is a non-resident of the State of Alabama, and resides in the State of Florida, place unknown to affiant, and further that, in the belief of said affiant, the defendant, Ella Gunn Woods, is over the age of twenty-one years.

It is therefore ordered by the Register that publication be made in The Press, a newspaper published in Clanton, Ala., once a week for four consecutive weeks, requiring her, the said Ella Gunn Woods, to answer, plead or demur to the bill of complaint in the above cause on or before the 7th day of October, 1910, and failing so to do within thirty days after the service of this summons a decree pro confesso may be taken against her in said cause.

Witness my hand this 9th day of September, 1910.

H. M. SIMPSON,
sept15-4t Register in Chancery.

Bring us your family receipts and we will make a practice of using exactly what your receipts call for. We use no substitutes, and our prices are right. Yours for a square deal,

Pittsburg turns to its baseball club, chirps the Washington Star, as a body of public servants whose honor has never been impeached.

DO INCHES MAKE THE MAN?

Until the time of the war between Russia and Japan the short man was obliged to defend the prowess of his kind by citing Napoleon as an example of what short persons could do. Balzac, the great French novelist, whose height was a trifle more than five feet, often half whimsically, often seriously, endeavored to show a connection between short stature and excellence. It was also a source of consolation to him and to other men who were not in the tall class, to read in history that the Roman conquerers were short. But after the Russo-Japanese war it became evident to all that stature had nothing to do with the case, unless, perhaps, the victory of the little Jap proved that the short man was the superior of the tall. But now come the municipal authorities in our cities, who say that a tall policeman is better than a short and that a tall fireman is the superior of a short fireman, says Boston Globe. Five feet 7½ inches is the limit of shortness to be tolerated say some, while others lower the standard a quarter of an inch. Others would lower it half an inch more. Superstitions die hard. We are still children, and, although far from the age of giants, we cling to the notion that inches make the man.

Great Britain has just launched one of the biggest of the dreadnought battleships which the government is steadily adding to the navy. And that American ideas are good for something in this connection is shown by the information which had leaked out, notwithstanding the careful way in which naval secrets are guarded, that the guns on the new vessel will be arranged much like those on United States battleships of the latest design, so that they can be fired one above another and concentrate tremendous striking power at a given point. Builders of our warships are giving valuable points to all the world.

It will be a good day in this city when every boy who goes to the high school can multiply and divide with unfailing accuracy, when he knows the rule of three and is up on fractions, says Philadelphia Inquirer. If in addition to that he can write legibly, read distinctly and spell correctly he will have a better equipment than has been common of late. In trying to teach children too much we have not trained them to definite ways of thinking. Yet to think clearly about anything is the great prerequisite of life and ought to be the chief aim of education.

Reports of accidents to women wearing hobble skirts begin to come in. Of course such accidents are inevitable. A woman who deliberately binds her limbs before submitting herself to the dangers of the highway is doubly handicapped, for even unhampered physically, she likely would lack the intelligence to dodge a street car.

A man in New York was sent to prison for four years for stealing a diveress looking-glass. It served him right. A man who makes no little of his opportunities in the field of painstaking economics ought to be shut off from the best of society.

DECLINE IN GAME BREEDING

Prohibition of Cock Fighting in California Causes Interest to Wane —Beauty of Pile.

Since the cocking pit has been relegated to limbo of forgotten things by legislative means, the breeding of game fowl has declined in California, though still occupying a prominent place in the sporting fancy in Old

Pile Games.

Mexico, Arizona, the southern states, and more especially in the Philippine Islands, where cock fighting is a national sport, says Los Angeles Times. With us a few Black Reds, both standard and bantam, are bred for the beauty of the bird; there are also a few Pile games to be found here and there. In type and station, the Piles are the same as the Black Reds, only that in color of plumage white feathering is substituted for black plumage. The practice of "Dubbing" all game breeds has been so long a pronounced custom that unless the comb is cut down close to the head, the bird does not look "gamy." Opinion, however, is modifying on that point, and gradually we see more of the breed with combs in their natural condition. Since beauty of feather and type, coupled with a graceful carriage and alertness are its chief points of attraction, it is fair to assume, with cock fighting prohibited, that eventually the practice of dubbing will become obsolete.

METHODS OF KEEPING EGGS

Of Many Different Ways Tried in Germany Three Most Effective Are Given Herewith.

In Germany twenty methods of preserving eggs have been tried. Of these tests the three most effective were coating the eggs with vaseline, preserving them with lime water and preserving them with water glass. As the object of the preservation is to keep out germs, vaseline or some other tasteless grease, such as fresh butter, may be used. The process consists of greasing the eggs all over as soon as they are laid, then setting them on end in a clean jar until wanted for use. Eggs can be kept in this way for three or four months.

The process of keeping eggs in lime water is as follows: Slack four pounds of lime, then add four pounds of salt and eight gallons of water. Stir and leave to settle. Next day stir again. After the mixture has settled the second time, draw off the pure liquid. Take two ounces each of baking soda, cream of tartar, saltpeter and a little alum. Pulverize and mix and dissolve in two quarts of boiling water. Add to this the lime water. Put the eggs in a stone jar, small end down, one layer on top of another, and pour on the solution. Set the jar away in a cool place. While the method is satisfactory, it is not as good as water glass, as the eggs are liable to taste of the lime. Undoubtedly the best preservative for keeping eggs is water glass, in using water glass the difficult point is the tendency of water glass to vary in quality.

Water glass is also called soluable glass, or dissolved glass, liquid glass and silicate of soda. Water glass is made by melting together pure quartz and a caustic alkali, soda or potash. It is imported here in tin cans, and is a thick or jelly-like liquid. At several experiment stations there have been some very exhaustive experiments with this dissolved glass in preserving eggs. The reports are without exception in favor of it. No other preserver is reported as being equal to this one.

The directions for use are: Use pure water which has been thoroughly boiled and cooled. To each nine quarts of this water add one quart of water glass. Pack the eggs in the jar and pour the solution over the eggs. The solution may be prepared, placed in the jar and fresh eggs added from time to time until the jar is filled, but care must be used to keep fully two inches of water glass solution over the eggs. Keep the eggs in a cool place, and the jar covered to prevent evaporation. A cool cellar is a good place in which to keep the eggs.

If the eggs be kept in a too warm place the silicate will be deposited and the eggs will not be properly protected. Do not wash the eggs before packing, for by so doing you will injure their keeping qualities probably by dissolving the mucilaginous coating of the outside of the shell. For packing use only perfectly fresh eggs, for eggs that have already become stale cannot be preserved by this or any other method, and one stale egg may spoil the whole batch.

To prevent bursting when boiled, prick the egg at the large end. This will allow the gas to escape. Stone jars are the best receptacles for eggs, though five gallon tarred cans and hard pails may also be used. It is [illegible]

AFTER SUFFERING FOR YEARS

Cured by Lydia E. Pinkham's Vegetable Compound

Park Rapids, Minn.—"I was sick for years while passing through the Change of Life and was hardly able to be around. After taking six bottles of Lydia E. Pinkham's Vegetable Compound I gained 20 pounds, am now able to do my own work and feel well."—Mrs. Ed. La Dou, Park Rapids, Minn.

Brookville, Ohio.—"I was irregular and extremely nervous. A neighbor recommended Lydia E. Pinkham's Vegetable Compound to me and I have become regular and my nerves are much better."—Mrs. R. Kennison, Brookville, Ohio.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotic or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases we know of, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you want special advice write Mrs. Pinkham, Lynn, Mass., for it. It is free and always helpful.

Woman's sphere now seems to be the whole earth.

Mrs. Winslow's Soothing Syrup for Children teething, softens the gums, reduces inflammation, allays pain, cures wind colic, 25c a bottle.

Increase of Commerce.

The commerce of the port of New York has had a growth of 62 per cent in the last ten years.

For COLDS and GRIP

Hicks' Capudine is the best remedy—relieves the aching and feverishness—cures the Cold and restores normal conditions. It's liquid—effects immediatly. 10c., 25c., and 50c. At drug stores.

No Friend of His.

"Is Mrs. Gossip a friend of yours?"

"No; she's a friend of my wife's."

"Isn't that the same thing?"

"Not at all. She feels very sorry for my wife."

Man's Many Attributes.

What a chimera, then, is man! What a novelty, what a monster, what a chaos, what a subject of contradiction, what a prodigy! A judge of all things, a feeble worm of the earth, depository of the truth, cloaca of uncertainty and error, the glory and the shame of the universe.

Different Sort of Hair.

"Deceiver!" she hissed. "I hate you!"

"Hate me!" he gasped. "Why, it was only yesterday you said you loved every hair on my head."

"Yes, but not every hair on your shoulder!" she retorted, as she held up a bit of golden evidence.—Stray Stories.

The Effects.

"I have come to you, my friend, for comfort. My best girl has treated me very badly. I was trying to explain something to her, but she gave me such sharp looks they cut me to the heart; she withered me with her scorn, crushed me with her coldness and stabbed me with her keen edged tongue."

"See here, man, you oughtn't to come to me for comfort; what you need is to go to a hospital for treatment."

Puzzled by Wireless.

"Mistah Jenkins," asked an old negro of Atlanta of his employer, "would yo' be so good, sah, as to explain to me 'bout this wireless telegraph business I hears 'em-a-talking 'bout?"

"Why, certainly, Henry," responded the employer, "though I can do so only in a general way, as I myself know little of the subject. The thing consists in sending messages through the air instead of over wires."

"Yassah," said Henry, "I knows 'bout dat; but, sah, what beats me is how dey fasten the air to the poles!"

These be strenuous days for the politician.

With such weather the farmers ought to be the happiest lot of men on earth, unless it is the professional office-holder.

Forty-two Republican Congressmen have been made to walk the political plank into the sea of private life.

Seven Republican Senators have served their last term in the upper house of Congress, all because they insisted on looting the people with their robber tariff.

The Republicans had a majority of 41 in the House of Representatives. They have lost already 42 Congressmen—that is, 42 of the "Old Guard" have been relegated to private life, and "Progressive" Republicans and straightforward Democrats have been put in their places.

Teddy is having the time of his life at the Saratoga convention this week. He has led Sunny Jim Sherman a merry chase for the temporary chairmanship and captured the prize hands down.

New York Republicans are at sea as to whom they shall nominate for state offices; the time has been employed in a battle for temporary chairman, and the old-liners have been sent to the back seats.

The city election is over; the officers chosen will make good—of this there is no doubt. Let's get in behind them and help push Clanton up the hill of prosperity. What's a good slogan? How would water works and sewerage during this administration suit for a starter?

A neat Y. M. C. A. building for Clanton would tend to help things immensely. Boys who have no particular place to go and no amusements of an innocent character furnished them have a tendency to become loafers no matter from what section they may come. Let's help the boys by erecting a Y. M. C. A. Who will start the ball rolling?

From every direction—North, East, South and West—comes the cheering news that the common masses of the common people are awaking to their own interests and are going to put the robber barons out of business—are going to retire the high tariff advocates and elect men to office who regard public office as a public trust.

That New York will follow in the wake of the State of Maine and turn the Republicans out there seems to be no doubt. Even Teddy is unable to hold them in line for the party of loot and lust.

Over in the great State of Ohio, whence cometh William Howard Taft, the Democrats seem to have things their own way. Harmon is now Governor, and is going to be Governor again. Mr. Taft to the contrary, notwithstanding.

FAIR PLAY.

In the annual catalogue of the Chilton County Fair Association appears a neat little "write-up" of all the Republican candidates in this county for office. There is not a single "write-up" of a Democratic candidate. Just why this occurred The Press is unable to state. We have asked every one of our candidates, and they tell us that they had no opportunity to place a card in the catalogue or to secure a write-up. Mr. H. M. Simpson, candidate for circuit clerk, is the only one, it seems, to whom this opportunity was given, and he secured no write-up, but merely a space advertisement.

It occurs to us that as this was a county fair, in which all the people, regardless of political parties, are concerned, the same opportunity should have been given to every candidate.

Just where the blame lies The Press will not undertake to say, but that there was some partiality shown seems evident.

However, the Democratic candidates are able to take care of themselves. They will be elected next November, and the artful little dodge will amount to nothing.

A letter from Hon. Fred L. Blackmon, our next congressman, states that he met with a most enthusiastic reception at Spring Garden last Monday, where he spoke to a large assemblage of people.

Wherever Mr. Blackmon goes about his district the people give him the glad hand, for in him they recognize a man who is not only capable, but one who will make them a representative in whom they can trust—one who will discharge his whole duty to all the people. By the way, Mr. Blackmon has promised to make several speeches in Chilton. He is anxious to become acquainted with our people and anxious for them to become acquainted with him. A more genial fellow never lived; a more ardent advocate of those things which tend to the upbuilding of his people never sought office.

A Democratic national senator from the rock-ribbed Republican State of Maine! How does that look for reform in governmental affairs? Seems to us it's going some!

When men become so corrupt in office that the public is endangered by corrupt adinistration of affairs it is time to turn them out, whether they be Republicans or Democrats. This is the rule of procedure in Tennessee. Patterson and his gang thought they had the State by the throat, and were proceeding to choke the moral life out of that fair section. Notwithstanding he was a Democrat, the righteous indignation of the citizenship of that State was thoroughly aroused, and Mr. Patterson was told to go hence. In his place the Democrats, Republicans and all have centered upon a man whose record is clean and who will administer the law with fairness to all concerned. Mr. Hooper is not the candidate of the Republicans, as some seem to think, but the candidate of all those in Tennessee who are opposed to graft and corruption in office and who believe in a clean administration of the affairs of a great State. His election can by no means be credited to the Republicans.

We are printing today a schedule of speeches arranged for this county. The list is not complete, and it may be that some slight changes may be made, but in the main the program will be carried out as announced in this issue of the paper. Read the dates and the names of the orators carefully and arrange to be present and hear as many of these addresses as possible. It will do you good.

SOUND REASONING.

We are giving to our readers this week a clipping from a Philadelphia paper, which sets forth in a very few words the reasons given by two substantial men of Maine as to why that stronghold of Republicanism elected a Democratic ticket at its recent State election. We forbear comment, because nothing can be added to what these two open-eyed farmers of far-off Maine have said. They see the handwriting on the wall, and, unwilling to further surrender their personal interests to a party whose principal stock in trade is graft and collusion with the money trust, they have turned to that only source from which they can hope for relief—the Democratic party. What is true of the farmer in Maine is substantially true of the farmer in Alabama. The only difference is that, being nearer the money centers, they have seen the evil effects of the trusts and high tariff earlier than have our people. But we leave our readers to reason the matter out for themselves after reading the philosophy of the two Maine farmers:

WHY MAINE "CAME BACK."

High Cost of Living and Trusts Did It, Not Rum, Says Farmers.

Lewiston, Me., Sept. 17.—Trusts and high prices, not the liquor question, had the greatest influence in the Democratic landslide that hit the rock-ribbed Republicans last Monday. One farmer said today:

"Everything we buy costs from twice to three times what it used to, and the prosperity that the country seems to be enjoying hits every one but us. It is true that we get more for what we produce, but what extra we get does not make up for the extra price that we have to pay for everything we buy. We may see more money, but a dollar does not go as far now as it did once. While the Republican party has brought prosperity, it has decreased the purchasing power of money a whole lot, and the ordinary poor farmer is not the independent master of himself that he used to be. I voted the Democratic ticket just as a remonstrance. It is time for the farmers to register a kick."

Another farmer said:

"Competition seems to be done away with, and if you will not sell for what one offers you, you can't sell at all, and you can't buy cheaper at one place than at another. I take it that all these prices are fixed by the trusts and the tariff. The only way we have to register a kick in this State is to refuse to vote for the Republican party. None of the Republican farmers have much faith that the Democratic party will find a much better solution, but a good, healthy Democratic majority will make the folks in Wall street sit up and take notice."

GENERAL NEWS.

Some Mississippi Doings.

A press dispatch from Jackson, Miss., to the Birmingham Ledger contains the following information. We have no comments to make:

Jackson, Miss., Sept. 22.—Vituperation must stop in the Mississippi campaign. Uncle Sam has just issued an order that newspapers containing articles that are liable to result in a conflict will be barred from the mails during this campaign.

This order was issued by the postoffice department at Washington several days ago, and the newspaper managers were immediately notified by the postoffice inspector here. He called on Manager Johnson, of the Daily News, Mr. R. M. Henry, of the Clarion-Ledger, and the editor of the Monday Morning Star, a sensational Vardaman organ, and notified them that they must be more temperate in their language in future.

This did not affect the Daily News or the Clarion-Ledger, but will tone down the Monday Morning Star, which accused everybody who opposes Vardaman of being a crook. Some of the utterances of this paper would, ordinarily, have resulted in a shooting affray, and the order of the postal authorities has cut down the stock in trade of that paper, which has thrived upon the abuse of the best men in the State.

COME TO THE FAIR.

We extend a special invitation to everybody to come to the Fair at Clanton October 4th to 8th.

We realize that we have overlooked several things in our premium list, and insist that you don't let that keep you from bringing everything you wish to exhibit to the Fair. Our Mr. Conway will gladly give you space for your exhibits, together with any assistance he can, and we hope to be able to give some premiums not mentioned in our catalogue where the exhibit merits one.

Remember all exhibits must be on the Fair grounds by 1 o'clock Tuesday, October 4, 1910.

On Tuesday the forenoon will be devoted principally to completing the arrangement of exhibits. In the afternoon Hon. J. A. Wilkinson, State Commissioner of Agriculture, together with others, will make addresses.

On Wednesday, October 5, we will have the baby show, and the most handsomely dressed woman, cost of material not to be over $10; also contest for F. A. Gulledge's special prize of $10. In the afternoon we hope to have an educational address by Prof. J. M. Collier.

Thursday, October 6, will be Union Day. State President W. A. Morris and Hon. Walter D. Seed have promised to be here.

Friday, October 7, will be Government Demonstration Day. Such experts as Prof. B. L. Moss and J. T. Watt will make speeches and special demonstrations on that day.

Saturday, October 8, will be Farmers' Institute Day, conducted by experts from Auburn, Ala., and Washington, D. C. Also at 9 a. m. there will be a special horse parade conducted by Johnnie Mims and E. H. Mims. All have a special invitation to bring their stock and help.

Let everybody help to make the Fair a success. Admission will only be 25 cents for adults and 15 cents for children days, and 15 cents for adults and 10 cents for children at nights.

CHILTON CO. FAIR ASSOCIATION.

SPEAK FOR THEMSELVES.

We print below two receipts for the first two prizes in The Press' Summer contest; they speak volumes, and require no comment at our hands. The winner of the third prize has not yet called for that prize, consequently we have no receipt to show for it this week.

Now, remember the Summer contest is over, and things have assumed their normal shape. The piano contest is still in full blast, and will be for some weeks to come. Get busy and help your friend win that handsome piano, if you do not want it for yourself.

We expect to put on another interesting contest on, to begin about the middle of October, but we have not yet had the time to formulate the plan. As soon as we get things ready we will let you know. And it's going to be interesting, too. Be careful how you give your tickets away; you may want them for the fall running. Here are the receipts; read them:

$20.00.

Clanton, Ala., Sept. 24, 1910.

Received of The Clanton Press (F. M. Wood, editor), twenty dollars in gold as the first prize in The Press' Summer contest.

No. 1. MISS EULA ROPER.

$7.50.

Received of The Clanton Press (F. M. Wood, editor), $7.50 in gold as the second prize in The Clanton Press' Summer contest.

No. 2. MRS. J. P. HAYES.

Look out, now; you may be the lucky one next time if you'll just keep those peepers of yours open and will hustle a little bit.

You will feel cool the moment you get before our fountain. Alred Drug Co., the home of quality. 2t

If you want to please your best girl take her a box of Nunnally's candy; present it with a pretty bow and see her smile with gladness. Upchurch is the place to get it. tf

(Advertisement.)

Hunting for a Spectacle Pedler or Fakir.

Last Wednesday morning one of Preacher Bowen's sons, from West Chilton, came into Dr. Higgins' office at Clanton, inquiring if he had seen or knew anything of a spectacle pedler whose supposed name was Summerland. Dr. Higgins was unable to give any information as to the whereabouts of the "eye-glass fakir." It is stated by Mr. Bowen that the supposed optician had fitted several pairs of glasses in his section of the country, and that the pedler, in order to fake the people, stated that he would make Clanton his headquarters, and that if any of the glasses which he had fitted failed to give entire satisfaction, he would be in his office at Clanton and would make good all troubles that the glasses might give, etc. Dr. Higgins was unable to give any information, but stated to Mr. Bowen that he had spent several hundred dollars in preparing himself at a reputable college for the work of fitting eye-glasses and other optical work, and had also gone to an expense of several hundred dollars in fitting up a neat optical office in Clanton, and charged only a reasonable amount for the work done by him, the usual charges ranging from $5 to $15, but in some instances as low as $3, and in every instance satisfaction is guaranteed. And he wishes to say, further, that if the people of Chilton and adjoining counties desire to spend their money with spectacle fakirs, besides running the risk of ruining their eyesight, when they have a graduate optician within close call of them, he desires to be excused from all blame in the matter. He further asks that the people of Chilton county be more careful in matters concerning such a delicate organ as the human eye, and when requiring the services of any one, that they will consult with those who have made a special study of that particular branch of science.

Dr. Higgins has had two parties to call recently, one of whom paid $5 and the other $8 for a pair of pedler's glasses, which were absolutely worthless to the purchasers, and tended to do great harm.

We extend our hearty congratulations to Dr. Higgins for his efforts in behalf of those who suffer with their eyes and suggest to those in any trouble requiring the services when in need of an eye specialist they consult with him.

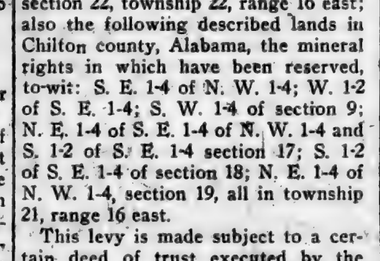
SHERIFF'S SALE.

By virtue of an execution issued out of the Circuit Court of Chilton county, and State of Alabama, and to me directed, whereby I am commanded to make the amount of a certain judgment recently obtained against Parsons Lumber Company in favor of West Stegall Grain & Milling Co. out of the goods, chattels, lands and tenements of the said Parsons Lumber Company, I have levied on the following property, to-wit:

About fifteen miles of railroad, extending from mill of Parsons Lumber Company to mill on the Coosa river, to Coopers Station, and from said mill into the forest, together with four locomotives, engines, and eighteen logging cars, together with all sidetracks, turn-outs, switches, tools and equipment pertaining thereto, the same being all the railroad and railroad equipments owned by the Parsons Lumber Company; and also together with the rights of way of said railroad as now located, extending over the lands of the following persons, to-wit: Miss Phila Cooper, J. C. Gibson, Mrs. M. J. Baldwin, Clifford A. Gullahorn et als., E. T. Gullahorn, B. T. Calloway, M. J. Thomas et als, F. M. Connell, Jr., F. M. Connell, Sr., F. A. Gulledge, J. D. Hand, W. A. Collier, Virginia A. Ternan, S. A. E. Patillo and A. L. Patillo, all of said lands being located in Chilton county, Alabama; also the saw mill plant on the Coosa river, including engines, boilers, machines, machinery, saws, chains, together with all tools and equipments pertaining thereto; also planing mill plant, including three planers, engines, boilers and chains, together with all tools and equipments pertaining thereto; also two dry kilns, including boilers, pipes, carriages, trackage and all tools and equipments pertaining thereto; also the blacksmith shop at the mill, including all material on hand, together with all tools and equipments pertaining thereto; also the river equipments on the Coosa river, such as launches, boats, skiffs, booms, both stationary and moveable, cables, chains, dogs, ramps, etc.; also all office and commissary fixtures, office stationery and office supplies; also about fifteen teams of oxen, together with grays, chains and all logging equipments, such as axes, saws, and three mules; also the following described real estate in Chilton county, Alabama, to-wit:

E. 1-2 of S. E. 1-4 of section 9; thirty-eight acres of the west side of that fractional part of section 10 lying west of the Coosa river, more particularly described as follows: Beginning at the southwest corner of said section 10, and running thence east one-quarter of a mile, thence due north to the margin of the Coosa river, thence in a northerly direction along said river to the west line of said section 10, and thence south to the point of beginning; and the north 1-2 of section 16, all in township 21, range 16 east; and the S. W. 1-4 of section 28; N. 1-2 of section 22, township 22, range 16 east; also the following described lands in Chilton county, Alabama, the mineral rights in which have been reserved, to-wit: S. E. 1-4 of N. W. 1-4; W. 1-2 of S. E. 1-4; S. W. 1-4 of section 9; N. E. 1-4 of S. E. 1-4 of N. W. 1-4 and S. 1-2 of S. E. 1-4 section 17; S. 1-2 of S. E. 1-4 of section 18; N. E. 1-4 of N. W. 1-4, section 19, all in township 21, range 16 east.

This levy is made subject to a certain deed of trust executed by the Parsons Lumber Company on the 15th day of June, 1909, to Louis B. Farley, as trustee, which deed of trust is recorded in Mortgage Record 101, page 107, in the office of the Judge of Probate of Chilton county, Alabama.



Therefore, according to said command, I shall expose for sale at public auction, to the highest bidder for cash, all the right, title and interest of the above named Parsons Lumber Company in and to the above described property on Monday, the 3rd day of October, 1910, during the legal hours of sale at the court house door in Clanton, Chilton county, Alabama.

Dated at Clanton, Alabama, this, the 3rd day of September, 1910.

JOHN S. CATTS,
Sheriff of Chilton County, Alabama.

LOOKED AT FROM ANY ANGLE

FRED KAUFFMANN

MADE TO MEASURE GARMENTS

ARE THE MOST PERFECT UNDER THE SUN

Several million people know the fine made-to-measure clothing for men made by *Fred Kauffmann*, Chicago.

This tailoring organization has built up the greatest made-to-measure business of the country, running into so many million dollars that you'd use up thumbs and fingers tallying it off.

This vast business has been won—and is being held—by carefulness.

Their designers get larger salaries than the members of Taft's Cabinet; their buyers of cloth are national experts; their standard for cloth, at our suggestion, is absolutely all-wool.

Fred Kauffmann secured us as representatives with the determination of making *Kauffmann* tailoring as standard in this vicinity as are Elgin or Waltham watches.

Tailoring that is guaranteed by seven simple words, namely: YOUR MONEY BACK UNLESS WE PLEASE YOU. This guarantee is backed by the mill, the maker and us.

Kauffmann has sent us a message: *"We'd like to spend some money to further entrench our tailoring. What would you suggest?"*

Our answer was: *"Spend it by giving us a reduction that will capture the town."*

The best way to win trade for *Fred Kauffmann* tailoring is to get it on men's backs. It will win their permanent friendship, and so we will take your measurement for made-to-your-personal-order garments at prices which have never before been quoted for *Fred Kauffmann* tailoring, namely:

COATS & TROUSERS	SUITS	OVERCOATS

R. O. Headley,

GRAND PRIZE CONTEST

FOR CLANTON PRESS SUBSCRIBERS

Early subscriptions mean early nominations; early nominations mean much to Contestants.

Get into the running early and stay late, thereby taking the best prize ever offered to the people of Chilton County.

The Piano belongs to you if you hustle for it; put your friends to work and rejoice in the possession of a handsome mahogany finish Grand UprightPiano.

Read the plan carefully and get actively into the game; you can win if you try and it's worth the trying.

THE PLAN: READ IT CAREFULLY

The Clanton Press has purchased and now has on display at the Upchurch Drug Company's Store, a handsome Mahogany Finish Grand Upright Piano, warranted by the manufacturers for ten full years.

Call at the Upchurch Drug Company's place and examine its beautiful finish and test its perfect tone and touch—convince yourself.

This handsome instrument is to be given away absolutely free of all cost to contestants, and will be a means of bringing joy into some home in Chilton County—that home may be yours.

With each cash subscription of one dollar to the Clanton Press—the new paper published at Clanton—will be given a ticket entitling the holder to five hundreds votes in the Grand Piano Contest.

The person receiving the largest number of votes at the end of the contest will receive this handsome instrument absolutely FREE.

In addition to the Grand First Prize, we have in our possession a receipt from the manufacturers for One Hundred and Fifty Dollars as part payment on another handsome Piano, which will be offered as a second prize in the contest. This prize goes to the person receiving the next highest vote. This prize represents One Hundred and Fifty Dollars in cash and will be accepted as such payment by the manufacturers.

No citizen of Chilton County, of good character, is debarred from the contest. Every one is invited to participate and will be given every assistance and all information possible to enable them to become the owner of this elegantly finished Piano and receipt for partial payment on another fine Piano.

READ THE PLAN CAREFULLY AND START EARLY; EACH DAY MEANS MUCH IN THE RUNNING.

In addition to the five hundred votes for cash subscriptions to the Clanton Press, the proprietors of the paper will give five votes in the contest for each one cent of cash advertising or cash job work that is brought to the office of the Clanton Press.

These votes are to be cast at the pleasure of the holder for the person nominated by the holder of the ticket.

Each ticket is plainly printed and contains a space for the name of the person for whom you wish to vote to be written thereon.

In case of a tie between contestants receiving the highest and next highest votes the prizes, or an amount equal to the value of the prizes, will be equally divided between them.

In addition to the votes given out by the Clanton Press we have arranged with several merchants to handle these Contest Tickets so that you may receive the benefit of your cash trade with them.

Below will be found the names of the merchants who will distribute Contest Tickets. With each one cent of cash trade done with them you are entitled to receive a ticket for one vote in the contest. Remember, one vote for each one cent of cash trade. If you spend one dollar in cash with them you are entitled to one hundred votes. If you spend ten dollars you are entitled to one thousand votes and so on. To obtain these tickets you will have to trade in Cash as no tickets will be given out for credit purchases. Each ticket will denote the number of votes to which you are entitled. For the convenience of the people two boxes will be used, one will be kept at the Upchurch Drug Company and the other at the office of The Clanton Press. Write on the ticket the name of the party for whom you wish to vote and deposit it in one of these boxes.

From time to time the names of the contestants and the number of votes each has received will be announced in the columns of the Press. Keep your eye on these announcements so that you can put your "best girl"—be she wife, sweetheart or daughter—up at the top of the column.

When you trade with merchants handling the contest ticket be sure to ask for them; you are entitled to them and they will gladly give them to you.

Bear in mind that you are entitled to five hundred votes for each Cash Subscription to The Clanton Press and to five votes for each one cent of Cash Advertising or Job Work done with The Clanton Press and to one vote for each one cent of Cash Trade with the following merchants:

Upchurch Drug Company, Drugs, Seeds, Toilet Articles, Jewelry, Soda Water

Miss Minnie Muse, Millinery, Laces, Linens, Ladies' Furnishings.

Hadley & Co., Clanton, General Merchandise, Fancy Groceries.

S. E. Davis, Clanton, Fresh Groceries, Country Produce.

J. J. Stanley, Thorsby, General Merchandise, Farmers Supplies.

J. E. Evans, Clanton, Retail Groceries and Fancy Articles, Country Produce.

W. D. Spigener, Clothing, Ladies' Furnishings, Mattings, Dry Goods, Notions.

Gamble Hardware Company, Clanton, Ala., Hardware, Farm Implements, Building Material.

Clanton Furniture Company, Furniture, Crockery, Tinware, House Furnishings.

J. B. Hicks, Clothing, Shoes, Dress Goods, Hats, Staple and Fancy Groceries.

Julius Palmer, Steam and Dry Cleaning and Pressing.

Popwell's Meat Market, Fresh Meats, Fish Vegetables, Country Produce.

Harris Brothers, of Mountain Creek, General Merchandise, Clothing, Shoes, Hats, Hardware, Provisions.

Burns Marsh, Maplesville, Jeweler and WATCH REPAIRER.

Call for Tickets when trading with them and thereby increase your voting strength.

In addition to these votes The Clanton Press will print each week in each paper, a ticket entitling the holder to two votes in the contest. Cut these out carefully, write the name of your favorite in the proper place and deposit the vote in one of the boxes.

Enter early and vote often. You are entitled to vote as often as you please and can obtain as many votes as you wish.

If you do not fully understand the plan ask The Clanton Press and we will gladly furnish you all information and help you.

Its the chance of a life time. Get up a Club of friends to help you in the contest.

Remember that Cash subscriptions get you five hundred votes. Ask your friends to subscribe and give you the Votes. Hustle, hustle, hustle and you may wear diamonds.

It's up to you. Will you work?

Contest Closes Monday, Noon, December 5th, 1910.

STATUE FOR GEN. OATES.

Estate of Former Confederate Officer Valued at $200,000.

In his will, filed for probate at Montgomery Gen. William C. Oates, colonel in the Confederate army and general in the Spanish-American War, provides that a bronze statue, with Alabama marble pedestal, be erected at his grave. It is to be life-size and is to cost not more than $10,000.

The remainder of his estate, valued at $200,000, is left to his son, William C. Oates, Jr., and his widow.

The dead man left also the text of the inscription that is to go on the monument, as follows:

"Born in poverty, reared in adversity, without educational advantages, yet by honest individual effort he obtained a competency and the confidence of his fellow man, while fairly liberal to relatives and to the worthy poor. A devoted Confederate soldier, he gave his right arm for the cause. He accepted the result of the war without a murmur, and in 1898-99 he was a brigadier-general of the United States volunteers in the war with Spain."

ALABAMA'S CONVICTS PAY.

The State Has Received a Net Profit of $1,706,695.87.

For the four years ended August 31 last the state convict department has turned into the treasury net the enormous sum of $1,706,695.87. The gross receipts were $3,975,768.03 and the disbursements $2(269,072.16. It is to be remembered that under the contracts that now prevail the state pays the keep and handling of convicts, which accounts for not only the large income, but the heavy expenses.

Nothing like this record was ever made in the United States, so far as is known. This shows a net yearly income from this source of $400,000, the total number of convicts contributing to it being 2,500. And this has been with a death rate of less than 1 1-2 per cent. It would have been much smaller but for the fire at the Red Feather mine, set by the convicts themselves, in which twenty-six of them lost their lives.

Of the total gross earnings, $1,118,178,54 came from the mines, four in number. The receipts from the cotton mill at Speigner's were $672,358.71, with expenses of $576,768.24. But this expense was largely improvements of a permanent nature. The mill has been more than doubled in capacity, and is now one of the best in the country. J. Craig Smith, president of the board who is now making up his report, is being congratulated on the wonderful showing made.

Believing that the state should have part in the cost of public highways, and that the burden of such improvements, which are not temporary but enduring, should be borne not alone by present generations, Acting Gov. Henry B. Gray issued a proclamation in which he urged the idea of an amendment to the constitution by which the state would have the right to issue bonds of this class. The proclamation calls upon all good citizens to attend the convention of the Alabama Good Roads Association, October 12-14, in Birmingham.

Development of the Alabama river, as signalized by the establishment of the Merchants' Barge Line, has taken on a new turn with an investigation that has been put on foot by government engineers stationed at Montgomery. This engineering force is proposing a through water route all the way from Rome, Ga., to Mobile, which can be effected by a careful dredging of about 116 miles of the Coosa river.

The state department of agriculture and industries is collecting data for a bulletin on the tobacco industry in Alabama, which literature has been made almost imperative by reason of the large number of letters which the department receives from all sections of the United States asking for information on this subject.

Thomaston.—The farmers of this section are taking much interest in cattle raising and other forms of farming, other than cotton raising, fully expecting the boll weevil to put in its appearance within the next two years, thus forcing them to take up something else than cotton.

Voters of Montgomery decided for a commission form of city government, the poll being five to one in the affirmative. By almost as large a majority the citizens spoke for abolishing the justices of the peace and establishing instead the inferior criminal court.

H. T. Littlefield, a resident of Chilton county, brings the news that a wild child, apparently about 2 years of age, is running wild in the woods near the home of Dutch Mims, in East Chilton county.

Attorney-General Garber has ruled that banks with a minimum capital of $15,000 may do business in Alabama, though there is a law that makes it no less than $25,000. The latter minimum was contained in an act that was prior to the lesser, hence the latter takes precedence under a well established practice of the courts.

IN THEIR GOWNS.

Papa—That was the supreme court of the United States we just came out of.

Tommy (aged seven)—Gee, pop! dere wasn't anybody dere but a lot of bearded old women dressed in black.

NO HEALTHY SKIN LEFT

"My little son, a boy of five, broke out with an itching rash. Three doctors prescribed for him, but he kept getting worse until we could not dress him any more. They finally advised me to try a certain medical college, but its treatment did no good. At the time I was induced to try Cuticura he was so bad that I had to cut his hair off and put the Cuticura Ointment on him on bandages, as it was impossible to touch him with the bare hand. There was not one square inch of skin on his whole body that was not affected. He was one mass of sores. The bandages used to stick to his skin and in removing them it used to take the skin off with them, and the screams from the poor child were heartbreaking. I began to think that he would never get well, but after the second application of Cuticura Ointment I began to see signs of improvement, and with the third and fourth applications the sores commenced to dry up. His skin peeled off twenty times, but it finally yielded to the treatment. Now I can say that he is entirely cured, and a stronger and healthier boy you never saw than he is to-day, twelve years or more since the cure was effected. Robert Wattam, 1148 Forty-eighth St., Chicago, Ill., Oct. 9, 1909."

Tuberculosis in the West Indies.

Associations for the Prevention of Tuberculosis have been formed in Cuba, Porto Rico and Trinidad. In Cuba there are over 40,000 deaths from tuberculosis every year, and the death rate from this disease is nearly three times as high in the United States. In Porto Rico there are over 6,000 deaths every year out of 1,000,000 inhabitants. In Trinidad, the death rate from tuberculosis in Port-au-Spain, the only place where figures are available, was 4.75 in 1909, nearly three times the rate in New York city. Conditions in the other islands of the West Indies, where no active campaign against tuberculosis has been undertaken is even worse. The chief reason for this high mortality is found in the unsanitary, dark, and poorly ventilated houses of the natives of the islands.

Science and Cheese.

A medical authority kindly assures us that as long as cheese isn't decayed it will not affect the health of the consumer. This is a fact that we have suspected for a considerable time. But how is the ordinary cheese epicure to detect the difference—unless he waits for results?

There is cheese so thoroughly disguised in the costume and aroma of decay that its proper standing on the sanitary testing table would puzzle a conjuror.

For instance, there is the brand known as limburger.

But why pursue this subject?

The Guilty Party.

Cook (to her young man)—Here, take the rest of the roast duck. (Sighing) Poor pussy!

Young Man—What has the cat got to do with it?

Cook—Well, she'll be blamed for it tomorrow.—Fliegende Blatter.

SPOHN'S DISTEMPER CURE will cure any possible case of DISTEMPER, PINK EYE, and the like among horses of all ages, and prevents all others in the same stable from having the disease. Also cures chicken cholera, and dog distemper. Any good druggist can supply you, or send to mfrs. 50 cents and $1.00 a bottle. Agents wanted. Free book. Spohn Medical Co., Spec. Contagious Diseases, Goshen, Ind.

Unhappy Thought.

Just suppose the man who finally obeys the latest demand of fashion and goes on his knees to propose, finds he has had a moving picture machine making material of him for a new comic film!

It is a wise man who knows his own business; and a wiser man who thoroughly attends to it.—H. L. Wayland.

Forgive the man who smites you on one cheek and he will generally treat you on the other.

Many reformers would go out to shoot gophers with a brass band.

SOCIETY LADIES READ THIS

You Will Find This Letter From Mrs. Baker, of Floral, Very Interesting.

Floral, Ark.—"Until a month ago," writes Mrs. Viola Baker, of this place, "I was in very bad health. I was so weak and nervous that I was unable to do my housework. I tried Cardui, according to directions, and now I am in good health and recommend your medicine to all my friends. I gave Cardui to three of my friends to try, and they all say it helped them."

Society and household cares make nervous, weak women, who suffer great pain and misery, much of which can be avoided by taking Cardui.

Worry and overwork act on your nerves like rust on metal, and they simply go to pieces. You can't always make rusty metal bright again, and sometimes you can't get your nerves straightened out again, so better begin before the trouble goes too deep.

For half a century, Cardui has been used with benefit, by sick women, thousands of whom have written, telling of the good results obtained.

Doesn't this mean something to you?

Benefit by others' experience. Cardui will help you. Try it.

Ask your druggist about Cardui.

N. B.—*Write to:* Ladies' Advisory Dept., Chattanooga Medicine Co., Chattanooga, Tenn., for *Special Instructions*, and 64-page book, "Home Treatment for Women," sent in plain wrapper on request.

Which Do You Like Worst?

This is the greatest known way for undecided people to make up their minds.

None but a strong-minded woman can ever decide which of two or three hats she likes "the best," particularly if they are all comely.

Popular belles have been known to have similar troubles with their sweethearts. Which do I like best is often a momentous question.

Why not try the other way?

Decide which, of men, or hats, or attractive "dates" you like the worst, and then proceed to eliminate.

From there you can factor out in the grade of desirability, until you actually find yourself at a decision, because it, whatever it is, is the only one left.

The process is delightfully simple.

African Logic.

Dusky Driver (ushering ladies from steamer)—Yes, marm—dis way, marm; ca'iage to de hotel.

First Lady (hesitating at step)—And what will you charge?

D. D.—One dollar, marm.

Second Lady—Half a dollar apiece, when the hotel is barely a block away? Why, we'd just as lief——

D. D. (interrupting)—Would you jest as lief go in de hotel bus? Dey charges a quarter.

Ladies (in chorus)—Just as lief.

D. D. (with flourish)—Den step right into de ca'ige, marm, an' I'll take yu fer de same as de bus—dey is some folks prefers de ca'ige and I has to charge accordin'!—Virginia Vintage.

In a Hurry.

It was Anna's first visit at the seaside. She was only a little girl, and very enthusiastic over the long-looked-for opportunity to go into the water.

They came too late the previous day for a dip in the surf, so Anna was up early, and as she put on her bathing suit while the rest were at breakfast some one questioned her as to her haste.

"Well, you see," replied the thoughtful child, "I want to hurry and go in before so many people get in and get the water cold."

Not on Your Life.

An Irishman obtained a position in a skyscraper that was being built. He had to carry mortar up to the top floor. One day he went up and couldn't find his way down. The boss missed him and called up to him:

"Pat," said the boss, "why don't you come down?"

"I don't know the way," said Pat.

"Well, come down the way you went up."

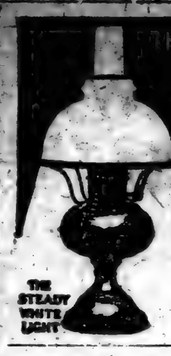
"Faith, and I won't," said Pat, "for I came up head first."

Made Sure of Death.

A student of a school in Shizuka, Japan, recently committed suicide by jumping into the crater of Asamayama. The tragedy was not discovered until three days afterward, when some documents left by the suicide near the crater were picked up.

Diplomatic.

"No, I can never be your wife."



"What? Am I never to be known as the husband of the beautiful Mrs. Smith?"

She succumbed.—Lippincott's.

Bermuda Onion Seed.

ARTHUR PETER & CO., Gen'l Agents, LOUISVILLE, KY.

NO CURE NO PAY

COULDN'T PUT BLAME ON HIM

Unreliability of the Doctors Cause of Tramp's Seeming Disregard of Truth.

Clement J. Driscoll, New York's commissioner of weights and measures, advocates the sale of bread strictly by weight.

"Some bakers oppose this idea," he said the other day. "They prove that it is better for the poor to trust to the baker's generosity than to pin him down, as grocers and butchers are pinned down now.

"Well, it seems to me that these bakers are as illogical and absurd as the beggar who wore a placard, saying, 'I have only six months to live.' He was a robust beggar, but the placard touched all hearts, and through its agency he must have made six or seven dollars a day.

"A Philadelphian who had helped the beggar liberally in Philadelphia in 1905, came across the fellow, wearing the same placard, in Los Angeles in 1909.

"'Why, you ought to be ashamed of yourself,' the Philadelphian cried. 'Only six months to live, forsooth! You were saying that five years ago.'

"'Well,' growled the beggar, 'it ain't my fault, is it, if the doctors make mistakes?'"

A PERMANENT CURE.

No Sign of Kidney Trouble for Over a Year.

Mrs. C. J. Becker, 38 Chestnut Sq., Jamaica Plains, Boston, Mass., says: "I was a physical wreck. I could not have walked a block had my life depended upon it. The kidney secretions were in terrible condition and I bloated badly. I wished for death. I learned of Doan's Kidney Pills and as a last resort, I began their use. Gradually I improved until at last I was well. Over a year has now elapsed and not a sign of kidney trouble has appeared. I give Doan's Kidney Pills credit for saving my life."

Remember the name—Doan's.

For sale by all dealers. 50 cents a box. Foster-Milburn Co., Buffalo, N. Y.

A Generous Gift.

"You may say what you like against young ministers, but I have nothing but praise for our young pastor," the pompous Mr. Brown remarked, as he passed out of the church. "Nothing but praise!"

"So I observed," dryly retorted the deacon who passed the plate.—Harper's.

Thanks for the Relief.

Mrs. Naggit—I don't feel like myself tonight.

Mr. Naggit—Then we ought to have a very pleasant evening.—Stray Stories.

TO DRIVE OUT MALARIA AND BUILD UP THE SYSTEM Take the Old Standard GROVE'S TASTELESS CHILL TONIC. You know what you are taking. The formula is plainly printed on every bottle, showing it is simply Quinine and Iron in a tasteless form. The Quinine drives out the malaria and the Iron builds up the system. Sold by all dealers for 35 years. Price 50 cents.

How can a woman be expected to have any regard for the truth when she is obliged to promise to obey in the marriage ceremony?

For HEADACHE—Sick or CATARRH Whether from Colds, Heat, Stomach or Nervous Troubles, Capudine will relieve you. It's liquid—pleasant to take—acts immediately. Try it. 10c., 25c., and 50 cents at drug stores.

Happiness grows at your own fireside, and is not to be picked up in strangers' galleries.—Douglas Jerrold.

IT HAPPENED SUDDENLY.

Mrs. Fondman—Fell into a pond! Oh! oh! and with your best pants on!

Bertie—Well, I didn't have time to take 'em off!

His Finish.

She—They say her husband was driven to his grave.

He—Well, he couldn't very well walk.

Plain Talk In A Conversational Wa

Perfection is said to be made up of trifles, and yet perfection itself is no trifle. It is the highest and final achievement in any branch of human endeavor.

In the mercantile business, it means a combination of wisdom, energy, good will, judgment, sagacity and finances.

In society it includes good manners, attractiveness, culture, refinement and address.

In sporting life it comprehends a fine gun, an excellent bird dog, a fishing kit, a thorough knowledge of race horses and an acquaintance with base ball magnates of the first magnitude.

We are neither in Society life nor in sporting life and therefore we make no pretensions to perfection in these lines; we are content not to be perfect.

But in mercantile life; in that sphere of activity wherein we move, we come about as near the AAA mark as most merchants ever attain. We do not say it boastingly, but proudly ... is the busiest, best and brightest of all the activity centers in Clanton.

Why? Because we use judgment in buying; we are chock full of energy at our place; we entertain nothing but the kindest of sentiments toward all people; we try to be discreet ... business relations, and, then, knowing our people to be judicious buyers, we expend our finances in such a manner as to meet their wishes and demands.

The time has come when our people will not have shoddy goods at any price; therefore, we have tabooed all shoddies; they have no place on our shelves.

Dame Fashion is far-reaching in her demands and insists that "My Lady of Style" must wear the latest fabrics. We bow to Dame Fashion's decree and in accordance therewith have ... the most recent of her choice productions. We can satisfy "My Lady" whatever her wants.

Yet we have not overlooked "The Old Man" or the children.

They were in our minds when we went to market.

Here you find assembled in varied style and abundant quality every article that goes to make the whole family glad; the parlor, the sitting room, the bed room, the dining room, the ... hallway, the kitchen, the attic and the basement were all taken into consideration when we placed our orders for the mammoth stock we now display at our store.

Furniture and Feed Stuffs, Clothing and Groceries, Shoes and Hats, Hardware and Provi...

All enter into the combination that spells perfection at our place.

Then too, our cotton department is equipped as never before.

Our arrangements are complete; our prices reach the topmost round and our facilities for handling your business cannot be surpassed by any house in these parts.

We are here to buy what you have to sell.

We will sell you anything you want to buy.

If you have tried us you KNOW.

If you have never tried us, it's up to you to do so NOW.

We know, that's why we tell you.

E. M. PINCKARD & CO.

The Peoples Supply House

The Latest New York and Paris Creations.

There's nothing to compare with KNOWLEDGE.

Knowing how to BUY is as great an art as knowing how to SELL.

We know both arts; we BUY wisely, we sell economically.

We spent two weeks in New York City inspecting styles, in order that you might have the latest from the most fashionable city in the world.

Our stock of Ladies' Furnishings is more complete this year than that shown by any other place between Montgomery and Birmingham.

We bought in New York at New York prices; we are going to sell in Clanton at UNPRECEDENTED prices.

Mrs. Breeden, a skilled trimmer of Nashville, who learned her trade under the masters of the larger cities and who assisted us in New York, will be with us this year to give you the benefit of her knowledge and skill.

There is nothing in the millinery art that cannot be found at our place.

Come to see our beautiful display—never before equalled in Clanton.

MISS MINNIE MUSE,
MILLINERY EMPORIUM.
We Give Piano Contest Tickets.

PERSONAL.

Messrs. N. A. Kicker and J. W. Carwile left Monday morning for a visit to St. Andrew's Bay, Fla. They will be gone for ten days or two weeks.

Alred Drug Co.'s fountain drinks are unsurpassed. Try them. We can show you. 2t
